Degreasing and Tough Cleaning -
Heavy Duty
Use Pride unmixed for:
•Engines •Concrete •Machinery •Restaurant Equipment and Factory Equipment Degreasing •Ovens (pre-warmed) • Mildew • Rust • Scuff Marks
Use Gloves to avoid drying hands.

PM 5 Light Duty - Mix 6 tablespoons PRIDE per quart of water for:
•Soap buildup •Paint Overspray •Porcelain

Flooring - *PM 6*
For **carpet stains**, mix 4 tablespoons PRIDE per quart of water. PRIDE will remove and deodorize even the toughest stains.
•Ink •Hair Dye • Soda •Cosmetics •Salt Stains •Adhesives •Oil •Wine •Varnish •Vomit •Grease •Liquor •Water •Pet Stains •Coffee •Gum

- *PM 7* - As a **carpet shampoo**, mix 1 pint PRIDE per 4 to 6 gallons of water in the holding tank of a carpet cleaning machine. 1) Vacuum carpet thoroughly. 2) Use PRIDE mixture through the machine. 3) Allow to dry. 4) Vacuum when totally dry. For best results, use machine with water extractor.

- *PM 8* - For **linoleum and vinyl flooring**, wet mop with 1 cup PRIDE per 3 gallons of water. To strip wax, allow mixture to set 3 to 5 minutes.

-*PM 9* - For **use in industrial cleaning machines**, mix 1 pint PRIDE per 8 gallons of water.

- *PM 10* - For **non-steam machines**, mix 1 pint PRIDE per 6 gallons of water.

PRIDE is an all purpose cleaner for commercial and industrial use. It is water based, water safe, non toxic, and leaves surface clean, dry, and ready to paint or stain. PRIDE is free of ammonia, harsh chemicals and abrasives, so it is excellent for all surfaces. PRIDE brings out the natural beauty of all types of finishes. Use PRIDE for home, office, or industrial, such applications as spray booths, carpet machines, even heavy degreasing machines. For best results, use strainer from the container.

PRIDE is an easy to use versatile cleaner. The most important thing to remember about PRIDE is to combine water and PRIDE in the proper proportion for the cleaning job at hand. You'll be surprised how well the proper mixture of PRIDE and water works on the toughest cleaning jobs. However, we encourage you to experiment with different combinations of PRIDE and water. You may find that you can save even more, as lighter mixtures often do more than you would imagine.

For light cleaning such as window washing, may not be necessary. For stronger mixes it is recommended that Pride be mixed 50% with water.

Always remember to test color fastness on fabrics and carpets. PRIDE is not to be taken internally. Not recommended for silk, satin or suede.

WARNING: Keep out of reach of children. If swallowed, drink vinegar solution or lemon juice. See physician. If in eyes, flush with large amounts flowing water. See physician. Rinse empty container with water and discard.
