Welcome To Express

The ***Express*** program was created to make getting the seating and table products you want easy, affordable…and shipped within 10 business days. Products available on the ***Express*** program are listed with an "E".

The Process

When you're ready to place your ***Express*** product order, be sure to follow these simple steps to ensure you get the products you want, the way you want them, delivered when you want them.

- Clearly mark your order "***Express***"
- Only include products from the ***Express*** program offering in your order.
- Other American Seating product selections should be ordered separate from ***Express*** program products.
- Select all finishes and fabrics from the ***Express*** finish and fabric offering.

Order Limitations

Orders of 25 or fewer chairs per order qualify for the ***Express*** Quick-Ship Program, with the single exception of plastic Actons for which orders of 200 or fewer will automatically qualify. For orders larger than 25 chairs (or 200 chairs in the case of plastic Actons), submit your required ship date and we'll do our best to accommodate your request. Alert table orders on the ***Express*** quick ship program cannot exceed a quantity of 25, with a maximum of 5 tables per model code.

How do you take one of the easiest to specify seating and table collections and make it even better?
The following design and content elements will help you correctly specify any American Seating product.

- **General Product Information** — More data, right where you need it.
- **Specification Guidelines** — Bullet points of important information you need when planning your order.
- **Product Illustrations** — Highlighted in gray for easy identification of the product. Drawings also demonstrate product relationships.
- **Product Index** — Alphabetical listing of product codes help you quickly locate the pages of specific products.
- **Express Legend** — Products available on the *Express* 10-Day ship program are listed with an "*E*".
- **Product Legend** — Products available in standard lead time only are shown without an "*E*".

This price list is clear and easy to use — whether you're a novice or a pro!

Acton® Stacker – Arm Models

Back to Table of Contents

***Acton* Stacker (AC)** The reinforced tubular frame comes in chrome or standard textured powder coat Frame Color. Sculptured seat and back are designed to provide overall body comfort and superior back support. Backs and seats are available in either non-upholstered textured polypropylene or upholstered ½" foam on polypropylene shell. Chairs are shipped standard with high-density copolymer glides for use on carpeted and hard floor surfaces. See pages 10-15 for applicable fabrics and finishes.

Order Acceptance: American Seating is pleased to accept orders from authorized dealers and customers on the condition that all of the terms stated herein are applicable to the transaction. No additional or differing terms shall be applicable unless specifically agreed to in a separately signed document by authorized personnel at its offices in Grand Rapids, Michigan.

Order Confirmation: All orders are confirmed via facsimile and printed acknowledgment. Call 800-748-0268 to receive order confirmation information. Call 800-748-0317 to obtain leadtime information. (orders@amseco.com)

Small Quantity Set-Up Charge: Small quantity set-up charge of 10% of list price to orders under $2,000.00 list price.

Product Changes: American Seating reserves the right to change its products without notice, including changes in size to better interface with existing products or to incorporate changes needed for proposed new products.

Order Information: All orders must be in writing from pre-approved, authorized dealers. Fax product orders to 616-732-6502. Orders will be acknowledged with American Seating's standard form showing approximate shipping date of items ordered. American Seating shall not incur any liability whatsoever for failure to ship on any specified ship date unless such date has been agreed to in a separate written document by authorized American Seating personnel in Grand Rapids, Michigan.

Complete/Accurate Ordering:

- Each item must be specified by color and number. Failure to provide adequate specification data shall absolve American Seating of all responsibility for incorrect shipment.
- All items other than American Seating's standard fabrics, laminates, wood veneers, and metal parts in standard colors and sizes will be considered non-standard or special order, and must be approved by authorized American Seating personnel in writing prior to order acceptance.

Customer's Own Material:

- If a customer desires to use a fabric or finish surface not supplied within the American Seating core offering, it is considered a non-standard fabric. If a customer desires to purchase their own fabric and have it shipped to American Seating, this fabric or leather is considered to be Customer's Own Material (C.O.M.) or Customers Own Leather (C.O.L.). Contact American Seating's Customer Service Department at 800-748-0268 for specific guidelines and instructions.
- Minimum C.O.M. order is 15 chairs.
- Special instructions (e.g., pattern direction of stripes, correct side of fabric) must be submitted in writing before the fabric is delivered. In the absence of special instructions, American Seating reserves the right to use its own judgement.
- American Seating reserves the right to cancel an order at any time if C.O.M./non-standard fabric is inadequate for any reason. In no instance shall American Seating be subjected to liability of any kind whatsoever for unsatisfactory results due to the use of C.O.M.
- A shipping date will not be scheduled until the C.O.M. or non-standard fabric is approved at American Seating's designated production facility.
- American Seating Company warranty does not apply to customers own material, leather and non-standard material whether purchased by the customer or American Seating Company.

Order Changes and Cancellation:

- After the date of acknowledgment, dealers and customers may not change or cancel their order (in whole or in part) without written approval from American Seating.
- Changes approved by American Seating shall be priced at current price levels, and American Seating may charge the customer for added costs which result from the change.
- Cancellations shall be subject to a minimum charge of fifteen percent (15%) of list price, and may be subject to reimbursement of American Seating for costs incurred prior to its approval of the cancellation.
- Orders for special products or non-standard products (including special colors, fabrics, finishes) are not subject to change or cancellation under any circumstances.

Dealer Rights:

- American Seating reserves the right to reject any order placed by any customer for any reason (regardless of whether orders have been previously accepted from such customer), without incurring liability to such customer.
- No customer shall have a continuing right to buy products except pursuant to a formal dealer agreement or other written agreement covering future supply executed by American Seating and the customer.

Governing Law: The transaction with respect to the goods which are subject of the Acknowledgment shall be governed by and interpreted and construed in accordance with the laws of the State of Michigan.

Continued on next page

Pricing

Price Changes and Taxes: Published prices via print or electronic catalog are subject to change without notice. Published prices do not include storage, handling, local delivery charges, or installation – nor any applicable sales, use, excise or other similar taxes – all of which are the customer's responsibility.

Tax Exempt: If a customer claims an exemption from such taxes, exemption certificate must be furnished to American Seating.

Additional Charges: Charges incurred subsequent to any bid/quotation and/or order acceptance (such as new taxes applicable to this order, changes in tax rate, freight surcharges, etc.) will be added by American Seating to the dealer or customer's invoice.

Additional Services: Prices do not include interior design services nor field adjustments in the products except as may be provided under warranty. Field engineering services can be supplied at a per diem rate negotiated under separate agreement.

Payment: Payment in full is due thirty (30) days from the date of invoice. American Seating reserves the right to modify in whole or in part its credit arrangements if at any time prior to shipment the customer's financial condition is judged to be inadequate to justify existing credit arrangements or its manufacture is delayed at customer requests. Interest on past due accounts shall accrue and be paid at the maximum rate permitted by law at the place of the customer's business.

Please send payment to:
American Seating Company
9058 Paysphere Circle
Chicago, IL 60674

Shipping and Delivery

Shipment:
- The shipping date shown on the face of the order acknowledgment represents American Seating's best estimate as of the date of the acknowledgment. This date is predicated on the timely submission of all information, approvals, clarifications, and all samples requested in writing by American Seating.
- American Seating shall not incur any liability of any kind whatsoever for failure to ship on any particulardate unless American Seating has expressly agreed to a firm ship date in a separately signed, written instrument by authorized personnel in Grand Rapids, Michigan.

Delivery:
- Goods shall be shipped F.O.B. factory freight prepaid and allowed to points within the 48 contiguous states, and American Seating reserves the right to select the carrier and mode of shipment.
- Extra costs incurred due to special shipping instructions from the customer will be charged to the customer.
- Risk of loss shall pass to the customer when the goods are placed in the hands of a carrier.

Examination of Goods:
- The customer shall be responsible for examination of goods upon receipt and processing of any claims with the carrier.

Claims: Claims against American Seating for patent defects, errors or shortages must be made within fifteen (15) days of receipt of goods, otherwise such claims shall be deemed to have been waived. Partial deliveries shall be accepted by the customer and paid for at the contract price and terms.

Storage:
- If a customer requests a delay in shipment after the goods have become work in process, American Seating may place the finished goods in storage at the customer's risk and expense. Transfer to storage shall be deemed delivery for all purposes, including invoicing and payment.
- Any delays, holds or rescheduling of this order at the request of the customer will subject this order to the prices and conditions of sale in effect at the time of release of the hold or reschedule.

Loss, Damage or Delay: In no event shall American Seating be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform with respect to the goods shown on the face hereof where such delay, failure, loss or damage is the proximate result of any act of any government authority, revolution, riot, civil disorder or disturbance, act of enemies, delay or default in transportation, strike disputes among or between labor unions or other labor disputes, inability to obtain materials or facilities from normal sources, fire, flood, act of God or any cause not within the reasonable control of American Seating whether of the class or causes enumerated or otherwise. Without limiting the generality of the foregoing, American Seating may, without causing a breech or incurring liability, allocate goods which are in short supply irrespective of the reasons therefore, among customers in any manner which American Seating in its sole discretion, deems advisable.

Returns:
- Returns will not be accepted without prior written authorization and compliance with shipping instructions by American Seating. All goods must be returned on a prepaid basis.
- A minimum restocking charge of fifteen percent (15%) of list price is made on all authorized returns for credit, providing the item is received in resalable condition. An additional charge will be made for repair.
- Credit will not be given if any item cannot be reused. Special order items are not subject to return.

The following warranty applies to the original purchaser of American Seating products sold in North America beginning with February 2006 shipments.

Products shall be free from defect in material workmanship and specification, under conditions of normal use* and maintenance, for a period of one year (labor and materials). An extended warranty (for replacement of materials only) applies to the products noted below, for the applicable warranty period specified below.

If such a defect causes failure of the product or a portion of the product, American Seating at its option and in its sole discretion will either repair or replace the defective product.

10 Years:
- Pneumatic cylinders for Office seating
- Power and electrical components used in Office environments
- Office Seating structural components
- Nima and Us stack chairs used in Office, Educational and Healthcare environments

5 YEARS:
- Acton and bio stack chairs used in Office, Educational and Healthcare environments
- Component parts of operating mechanisms used in Office and Educational Seating and Tables
- Casters for Office Seating and Tables

3 YEARS:
- Fabrics, wood, laminates and other surface finishes

1 YEAR:
- Acton, bio, Nima and Us stack chairs used in Auditorium, Stadium, Arena or Amusement environments
- Customdesign, non-catalog, and specialmade products
- Component parts of operating mechanisms used in Auditorium, Stadium, or Amusement Enviornments

This warranty is the original purchaser's exclusive remedy for product defect and does not apply to:
- In-transit damage caused by a carrier
- Products altered or modified by the user
- User attached accessories
- Products not installed in accordance with American Seating installation/application instructions
- Customers own material and leather
- Natural variations occurring in wood and leather shall not be considered defects, and American Seating does not guarantee the color fastness or matching of the colors, grains or textures of such materials.

*Normal use refers to single shift, commercial use for a standard 40 hour work week.

THERE ARE NO OTHER WARRANTIES EXCEPT AS EXPRESSLY STATED ABOVE WHETHER EXPRESSED OR IMPLIED INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. AMERICAN SEATING SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGE ARISING FROM ANY PRODUCT DEFECT.

Terms and Conditions – Customer's Own Material General Information

American Seating offers the option of C.O.M./C.O.L./non-standard materials, other than the core fabrics listed in the American Seating price lists for use on our furniture products. Please note the following C.O.M./C.O.L./non-standard requirements, lead-times and warranties to accommodate your requests. Minimum C.O.M./C.O.L./non-standard order is 15 chairs. Non-standard fabrics and leathers must be approved prior to acceptance for production.

To Confirm Testing of a Requested C.O.M./C.O.L./Non-Standard Upholstery

A complete list of approved fabrics is located on our website under Tools and Resources:
http://www.americanseating.com/architectural/en/tools-resources/category/122

Due to the different properties of each chair model and style of seating offered, non-standard customer specified fabrics will need to be application tested to your specific model if not already approved. Performance testing is required on all fixed seating models, but not required for office chair models.

Upon completion of testing, American Seating will notify the requestor of approval or rejection.

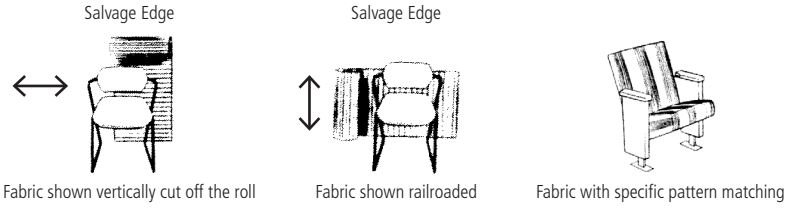
If the fabric has not been pre-approved, please complete the following steps:

1. Notify your local American Seating sales representative or dealer that you are sending in fabric for testing and specify seating model.
2. Send 3 yards of the required fabrics to American Seating Company. Tag the fabric with the project name and seating model.
3. Send the fabric to: American Seating Company
   Attn: Fabric Testing Lab, Dock 6
   901 Broadway NW
   Grand Rapids, Michigan 49504

To specify special application, if applicable:

As a standard procedure, American Seating cuts fabric off the roll in a vertical fashion as shown below. By cutting in this fashion, most waste is eliminated. When fabric is railroaded or specific pattern matching is requested, complete the C.O.M./C.O.L./non-standard material Information Form, to ensure your order is processed correctly, failure to provide specific written instructions authorizes American Seating to use its own discretion with cutting and upholstering the material.

Examples:



Pricing: Contact your sales representative or Dealer for pricing on non-standard material.

Product Lead Times: Orders are scheduled upon receipt of C.O.M./C.O.L./non-standard material. American Seating will provide an acknowledgement and an estimated shipping date. To expedite the C.O.M./C.O.L./non-standard material process, please tag properly and ship to the American Seating Company, Attn: Fabric Testing Lab, Dock 6, 901 Broadway NW, Grand Rapids, Michigan 49504.

Yardage requirements: For exact production yardage requirements, contact your customer service department.

Terms and Conditions: If a customer desires to use a finish surface not supplied within the American Seating core offering, it is considered a customer's own material (C.O.M./C.O.L.). Contact American Seating's Customer Service Department at 800-748-0268 for specific guidelines and instructions. Special instructions (e.g. pattern direction of stripes, correct side of fabric, etc.) must be submitted in writing before the fabric is delivered. In the absence of special instructions, American Seating reserves the right to use its own judgment. American Seating reserves the right to cancel an order at any time if C.O.M./C.O.L. /non-standard material is inadequate for any reason. In no instance shall American Seating be subjected to liability of any kind whatsoever for unsatisfactory results due to the use of C.O.M./C.O.L./non-standard material. The American Seating Company Warranty does not apply to customers own material, leather and non-catalogued materials whether purchased by the customer or American Seating Company.

American Seating offers a comprehensive fabric and finish program including Grades 1, 2, 4 and 6 options, as well as C.O.M. This multi-faceted program provides one of the most comprehensive fabric and finish palettes on the market today.

Fabric, Finish Collection (Core Offering) – Seating Fabric Collection Cards Grades 1, 2, 4 and 6

Our Fabrics & Finishes program uses the logical balance of the artist's color wheel and color forecasts of leading industry trends to create a contemporary color palette. From brilliant, saturated colorways to subtle achromatics, the program is a fresh collection of time-honored classics, as well as innovative new fabric styles. This offering will help you create sophisticated interior landscapes from the office to healthcare or educational environment. Detailed technical specification and performance data is available from your customer service representative at (800) 748-0268.

- **Color Harmony** — Our systems and seating fabric and finish collection works in harmony to complement any interior environment.
- **Value Priced** — We've placed greater emphasis on offering you more value priced fabric from grade levels one through four.
- **Quick Ship** — Most of the core offering of fabrics and finishes qualify for American Seating's Express Program.
- **Swatching Support** — We provide full swatch support for all core offering colorways Seating Fabric Collection Grade 1, 2 and Seating Fabric Collection Grade 4. (i.e., fabric cards and memo samples.) Order online from www.americanseatinginfonetwork.com. Refer to the back of the fabric cards for more information.
- **Earth Friendly** — Fabrics and finishes contain a certain degree of recycled content and recyclability. Depending on the materials specified, the amount will vary.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process.

To price chairs using C.O.M. fabric, refer to Grade 1 or the lowest fabric grade available for that specific chair.

C.O.M. Upholstery Yardages

Chair	Non-Directional Pattern (54"w)	Directional Pattern (54"w)	Vinyl (54"w)
Acton	.7 yard	.75 yard	.75 yard
Cue 3	1 yard	1 yard	1 yard
Nima	.7 yard	.75 yard	.75 yard
Us	.3 yard	.3 yard	.3 yard

Fabrics with wide pattern repeat may require additional yardage.

Finishes – Office Seating Finishes

Finishes coordinated with the Seating Fabric collection provide a wide array of options. Fabric cards are available at www.americanseatinginfonetwork.com. Memo samples are either available from the wholesaler noted on the back of the fabric card.

Finishes coordinated with the Seating Fabric collection provide a wide array of options. Fabric cards are available at www.americanseatinginfonetwork.com. Memo samples are either available from the wholesaler noted on the back of the fabric card.

C.O.M. Fabrics use Grade 1. C.O.M. Fabrics must pass durability and application testing prior to being accepted.

Use the following formula when fabric grades higher than 6 are needed:

Acton (with upholstered seat pad and back)

Grade 8 = Grade 6 + $16
Grade 10 = Grade 6 + $32
Grade 12 = Grade 6 + $48
Grade 14 = Grade 6 + $64
Grade 16 = Grade 6 + $80
Grade 18 = Grade 6 + $100
Grade 20 = Grade 6 + $140

Acton (with upholstered seat pad and plastic back)

Grade 8 = Grade 6 + $11
Grade 10 = Grade 6 + $22
Grade 12 = Grade 6 + $33
Grade 14 = Grade 6 + $43
Grade 16 = Grade 6+ $54
Grade 18 = Grade 6+ $67
Grade 20 = Grade 6+ $94

Acton (with plastic seat and upholstered back)

Grade 8 = Grade 6 + $6
Grade 10 = Grade 6 + $11
Grade 12 = Grade 6 + $16
Grade 14 = Grade 6 + $22
Grade 16 = Grade 6 + $27
Grade 18 = Grade 6 + $33
Grade 20 = Grade 6 + $47

Us Chair

Grade 8 = Grade 6 + $5
Grade 10 = Grade 6 + $10
Grade 12 = Grade 6 + $15
Grade 14 = Grade 6 + $20
Grade 16 = Grade 6+ $24
Grade 18 = Grade 6+ $30
Grade 20 = Grade 6+ $42

*Not applicable to Cue 3, or bio. Please contact your Sales representative for special fabric pricing for these chair lines.

Standard Fabrics Per Yard

Specify: 1. 00333 plus fabric code.

Fabric Grade	Price	
Grade 1	**$32**	Per linear yard, 54" wide
Grade 2	**$48**	Per linear yard, 54" wide
Grade 4	**$64**	Per linear yard, 54" wide
Grade 6	**$80**	Per linear yard, 54" wide

American Seating will supply non-current fabrics/colors when they are available from a market source. Consult with your Customer Service Representative to determine the availability of non-current items.

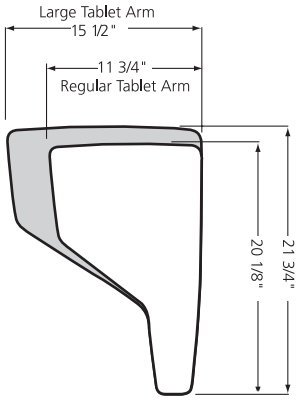
***Acton* Stacker Chairs** Page
General Information..... 16-17
Arm Chairs 18
Armless Chairs..... 19
Dolly..... 19
Removable Tablet Arm 20
Tablet Arms Models 21
Heavy Duty Tablet Arm Models 22-23

General Information

Our IBD Award Winning stacker chair, with its distinctive Z-shaped design, is an excellent choice for meeting rooms, cafeterias, waiting areas and more. It is an economical seating solution that has been designed for uncompromised comfort and durability. Unlike most wire frame stack chairs, the ***Acton*** Stacker Chair has a strong tubular steel frame with an integral arm. Its textured polypropylene seat and back are color impregnated for durable good looks. A wide variety of models and options make this chair versatile enough for almost any indoor application.

Upholstered Chairs Upholstery inserts are removable for replacement of fabric and foam cushioning. Remember to specify plastic shell color as the seat and back edges are not upholstered.

Tablet Arm Chairs Tablet arms are available in two sizes, regular and large. Regular tablet arms have 161 sq. inches of surface area. Large tablet arms have 214 sq. inches of surface area.



Tablet arms are offered attached to the chair frame. A removable option is also available which allows a standard chrome ***Acton*** Stacker to be converted into a tablet arm model for occasional classroom use. Fixed tablet arms are available either right or lefthanded. Removable tablet arms are only right-handed versions and available on chrome frames.

Tablets are offered with a wide choice of surface laminate options. All edges are burnished.

Tablet arm chairs cannot be stacked.

The ganging chair option is not available with tablet arm chairs.

Dolly With our optional dolly you can stack and roll your chairs out of the way.

Dolly Capacity

Non-Upholstered Chairs..... 26

Upholstered Chairs 18

Without the dolly, ***Acton*** Chairs can be stacked six high on the floor.

Standard Features

Tubular Frame 14 gauge frame with 16 gauge inner reinforcement through the arms.

Frame Color Choose chrome or textured powder coated epoxy.

Integral Arms Define space for high-density seating and provide added comfort.

Seat and Backrest Textured surfaces hide fingerprints, small scratches and are easily replaced.

Waterfall Seat Front Support behind knees without cutting off circulation.

Floating Backrest Cantilever design provides lumbar support.

Glides Co-polymer glides for use on carpet and hard floors are standard. Case-hardened steel glides are available for use on abrasive floors.

Safety and Durability Acton Stacker Chairs meet or exceed all applicable ANSI/BIFMA test standards.

Options

Armcaps Textured molded plastic for comfort. Armcaps cannot be field installed.

Upholstery For added comfort and design flexibility.

Caster Base Chair and stool with a five star base to promote patron safety.

Tablet Arm Available in both regular, large and heavy duty surfaces.

Ganging Attachments Welded steel, permanently affixed to frame, ensures straight rows.

NOTE: An upholstered *Acton* Chair is available to meet California Technical Bulletin 133 requirements. Contact your American Seating Representative on availability. Standard leadtimes may be affected. Minimum order 15 chairs.

Burn test required for CAL 133 certification, if not previously tested. The cost of the burn test is $487 net price plus the price of the chair being tested and the fire barrier.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process. The C.O.M. General Information on page 7.

To price chairs using C.O.M. fabric, refer to Grade 1 or the lowest fabric grade available for that specific chair.

Acton® Stacker – Models with Heavy-Duty Fixed Tablet Arm

Comfort and Performance The Acton's unique "Z-shaped" frame design, in combination with its distinctive seat form, provides optimum comfort and maximum legroom. Each Acton stack chair meets or exceeds ANSI/BIFMA standards, and is backed by American Seating's comprehensive warranty.

Seat and Back Construction All seat and back shells are constructed with color-infused, mar-resistant polypropylene and attached to the frame with screw and T-nut assembles for increased durability. Upholstered cushion composition is ½" of polyurethane with an ILD of 35 lbs.

Frame Construction The Acton frame is constructed with 14-guage, cold-rolled steel and 16-gauge tube inner reinforcements within the arm construction and all connection points for greater strength and durability. The frame is available with either chrome plating or textured powder coat finish.

Glides Acton's standard copolymer glides are 1⅝" x ½", and attached to the frame, both front and rear, with 3/16" pop rivets. Optional case-hardened, zinc plated steel glides are available for use on abrasive flooring such as concrete.

Heavy-Duty Tablet Arms Available in both regular and large dimensions, the optional heavy-duty tablet arm is engineered to support up to 300 lbs. Both tablet arms are made with ½" thick plywood covered with a 1/16" laminate on both sides. The tablet arm's supporting structure is made with a ⅝" diameter steel bar welded to the chair frame. The fixed-position writing surface can be specified in a variety of laminates.

Acton with Heavy Duty Tablet Arm (AC) Tablet arm, available in regular or large sizes, has a mar-resistant laminate writing surface and integral burnished edge. Sculptured seat and back are designed to provide overall body comfort and superior back support. Backs and seats are available in either non-upholstered textured polypropylene or upholstered ½" foam on polypropylene shell. See pages 11-14 for applicable fabrics and finishes and page 10 for laminate finishes. Upholstery for added comfort and design flexibility. Tablet Arm available in both regular, large and heavy duty surfaces.

Acton® Caster Base Chair

Section Guide

***Acton* Caster Base Chair** Page
General Information..... 24
Standard Features 24
Options..... 25
Chairs..... 26
Stools 27

General Information

The IBD Award Winning ***Acton*** design is available in a caster base chair. It is aneconomical seating solution that has been designed for uncompromised passive comfort and durability. A passive seating design, the ***Acton*** Caster Base chair and stool are well dimensioned for ergonomic performance. Its contoured seat and back offer just the right angles and curves to promote body circulation for prolonged sitting comfort.

The ***Acton*** Caster Base Chair has a strong tubular steel frame with an integral arm.

Its textured polypropylene seat and back are color impregnated for durable good looks. Upholstered inserts are removable for replacement of fabric and foam cushioning. The five star base promotes patron safety.

Offered in a choice of task chair or stool models, the ***Acton*** Caster Base Chair is perfectly at home wherever people sit while they work or learn. The ***Acton*** Caster Base Chair is the alternative solution for the office, training room or for most any application.

The ***Acton*** Caster Base Chair meets or exceeds ANSI/BIFMA test requirements, ANSI/HFES standards, and can be ordered to meet the stringent requirements of California Technical Bulletin 133.

Backed by American Seating's comprehensive 10-year warranty, the ***Acton*** Caster Base Chair will provide years of customer satisfaction. An excellent compliment to the renowned ***Acton*** Stacker.

Standard Features

Tubular Frame 14 gauge frame with 16 gauge inner reinforcement through the arms.

Frame Color Choose chrome or textured powder coated epoxy.

Integral Arms Provide added comfort.

Seat and Backrest Textured surfaces hide fingerprints, small scratches and are easily replaced.

Waterfall Seat Front Support behind knees without cutting off circulation.

Floating Backrest Cantilever design provides lumbar support.

Pneumatic Seat Height Adjustment Seat height adjustment is activated by a conveniently located paddle at the side of the chair.

Tilt Tension Seat Tilt Action is adjustable with the tension adjustment knob located below the front of the seat. (Task Chair Only).

Five Star Base Black textured base resists marring.

Dual Wheel Hard Casters Less carpet wear.

Soft Casters For use on hard floors.

Knocked-Down Shipping Chairs are shipped KD as standard and can be shipped UPS.

Safety and Durability The Acton Caster Base Chairs meet or exceed all applicable ANSI/BIFMA test standards.

Options

Armcaps Textured molded plastic for comfort. Armcaps cannot be field installed.

Upholstery For added comfort and design flexibility.

Locking Casters Maintain chair position when not in use.

Footring Available on stool models only, supports legs in a comfortable position; polished aluminum; adjustment is independent of the seat.

NOTE: An upholstered Acton Caster Base Chair is available to meet California Technical Bulletin 133 requirements. Contact your American Seating Representative on availability. Standard leadtimes may be affected.

Burn test required for CAL 133 certification, if not previously tested. The cost of the burn test is $487 net price plus the price of the chair being tested and the fire barrier.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process. The C.O.M. General Information on page 8.

To price chairs using C.O.M. fabric, refer to Grade 1 or the lowest fabric grade available for that specific chair.

General Information

Acton with Tilt-Up Seat (ACO & AC1) meets mass seating building code requirements for row seating. Sculptured seat and back are designed to provide overall body comfort and superior back support.

Backs and seats are available in either non-upholstered textured polypropylene or upholstered 1/2" foam on polypropylene shell. Optional connectors allow chairs to be ganged together when used for public assembly seating. Chairs are shipped standard with high-density copolymer glides for use on carpeted and hard floor surfaces.

Dolly With our optional dolly you can stack and roll your chairs out of the way.

Section Guide

bio*® *Chair Page
General Information..... 34
bio Chairs
Task 36
Side 37

General Information

The *bio* chair is a modern, square back collection that offers a stylish compliment to any office, learning environment or conference room. Base models included in the offering are the highly ergonomic task chair and the versatile side chair. Cushioned upholstery, breathable mesh and easy to clean plastic seat and back surface options allow for various selections to suit any need. The bio chair meets or exceeds ANSI/BIFMA test requirements along with ANSI/HFES standards, and is backed by American Seating's comprehensive warranty. All chairs meet or exceed content requirements for the Buy American Act. For those who want to provide their employees, volunteers or students with a seating solution that will improve comfort, productivity, comprehension and improved moral, *bio* is a perfect fit.

Standard Features

Task Chair

Seat and Back Mechanism Adjustment The bio chair has an active motion synchro-tilt control mechanism that will also lock in four different back angle positions.

Tension Device The tension device provides control to the rigidity of movement for the back support. This allows the user to control the rigidity to a level they feel is suitable.

Pneumatic Seat Height The seat height adjustment is activated by a conveniently located paddle on the right side of the chair (when seated). The bio chair adjusts 3.84" and meets industry recommendations to better accommodate people of varying heights.

Seat Slider A 10 position, push button slider allows the user to adjust the seat depth up to an additional 3.75."

Seat Cushioning Ample seat cushioning is provided by a 3.25" thick, 3.8 lbs./cu. ft. molded polyurethane foam that contours distributed body weight and offers a waterfall front to ensure good circulation behind the knees.

Back Design Stylish polyester/nylon blend mesh or 100% recycled polyester crepe upholstery cover a black glass filled nylon framed back, which conforms to your back to evenly absorb and distribute your weight.

Arms and Adjustment The standard arms offer both width and height adjustment features with a soft polyurethane arm rest. The arms can be adjusted 1.5" further out on each side for up to 3" of total width adjustment. They can also adjust within a 4" range for the height adjustment.

60mm Hard Casters The hard casters are ideally suited for use on nearly any commercial grade carpet.

Lumbar Support The back can be adjusted vertically to eight (8) different positions within 3" for optimal lumbar support.

Safety and Durability The *bio* chair meets or exceeds all applicable ANSI/BIFMA test standards.

Side Chair

Frame The 7/8"OD (Outside Diameter, 16 gauge frame is coated with a durable low gloss back powder coat finish that has a long lasting appearance and blends well with other black components.

Plastic Glides Durable nylon glides minimize marring, while still maintaining a static position on most surfaces.

Options

Task Chair

Premium Base and Arm Package The premium package offers a polished aluminum finish base with a polished aluminum arm structure. The premium arm caps adjust in and out (.75" of travel each), forward and back (3.88" of travel), and rotate to two (2) inward and two (2) outward positions to support your arms for a perfect ergonomic fit. These features are in addition to the height and width adjustment of the standard arm.

60mm Soft Casters The soft casters areideally suited for use on hard floors to minimize noise and wear. Periodic cleaning of the caster contact surfaces is recommended to remove abrasive debris that collects over time.

Grey or White Mesh Back The grey or white mesh back materials allow for additional color options to compliment any environment.

Side Chair

Seat Design Available in highly cleanable black polypropylene plastic or upholstered over 2.5" thick, 1.75 lbs./cu. ft. polyurethane foam padding.

Back Design Available in black polypropylene plastic or mesh stretched over a glass filled nylon structure.

Arm and Armless Durable, glass filled nylon arm supports with a design that allows for stacking.

Chrome Plated Frame Color A chrome plated Frame Color option is available for a high durability, premium appearance.

37 mm Hard/Soft Casters Swiveling and rotating nylon casters are available with hard tread for carpet or soft tread for hard floor applications.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Contact your Customer Service Representative at 800-748-0268 to discuss the C.O.M. fabric approval process.

(Upholstered Back)

The ***bio*** side chair is a four leg tubular frame construction with a black powder coat finish as standard. The sculptured seats and backs are designed to provide overall body comfort and superior back support. The user surface of the back is constructed of black cleanable plastic or breathable mesh with a contoured lumbar. The user surface of the seat is constructed of either black cleanable plastic or upholstered foam over a plastic substrate with a waterfall front edge. The mesh back is available in three (3) colors (standard black, optional grey and optional white). The seat is available in eight (8) 100% recycled polyester crepe fabric colors (Storm Black, Titanium Grey, Gulf Navy, Jute Tan, Venetian Burgundy, Myriad Charcoal, Fennel Green, and Ochre Gold). All chairs include a stacking bumper under the seat to minimize foam compression when stacking.

General Information

Cue 3 takes its cues from the user and delivers a wider-than-ever range of healthful postures.

An advanced active task seating design *Cue 3* is well dimensioned for ergonomic performance. Its contoured seat and back offer just the right angles, curves and foam densities to promote body circulation in all sitting positions. Its soft touch armcaps include a comfort lip under the leading edge for hands and fingers.

Cue 3 brings you more adjustment features than any other chair in its price range. Separate seat and back angle adjustment paddles are within natural reach. The back control mechanism permits a full range of support adjustments. Even the arms of the *Cue 3* chair adjust vertically and horizontally. *Cue 3* adjusts simply, easily and provides an extended range to assure each person sits comfortably for every task.

Offered in a choice of chair and stool, *Cue 3* is perfectly at home wherever people sit while they work.

Cue 3 + provides full body support and durability. *Cue 3* + seat width is 1" wider and heavy duty with a 350 pound capacity.

Cue 3 meets or exceeds ANSI/BIFMA test requirements. *Cue 3* blends beautifully with any interior environment. To ensure satisfaction as times goes by, *Cue 3* is backed by American Seating's comprehensive 10-year warranty. It's also moderately priced, so it's possible to outfit everyone in the organization who needs exacting measures of postural support.

Standard Features

Pneumatic Seat Height Adjustment Seat height adjustment is activated by a conveniently located paddle at the right hand side of the chair. All ***Cue™ 3*** chairs exceed industry range recommendations to better accommodate people of varying heights. The generous 7½" range for seat height on Cue 3 Stools allows it to double as a task chair at its lowest setting.

Seat Angle Adjustment The angle of the seat can be altered so your lower body is best aligned for a particular task. This is critical for long-term seated comfort. Use a forward tilt for task intensive activities and rearward tilt for less intensive tasks. The adjustment range is 5° forward and 15° rearward. (Except Stool, no adjustment)

Seat Cushioning Softly rounded cushion of 3½" thick polyurethane foam, contours distributed body weight and protects adjacent furniture from damage.

Seat Design Upswept rear gives firm support; waterfall front ensures good circulation behind the knees.

Arms Soft textured black urethane over a strong steel core, arms can be retrofitted or removed at any time.

Arm Height Adjustment A height button allows adjustments through 4" of range to suit the task and the user. Arms are individually adjustable.

Arm Width Adjustment For users needing more room, the distance between the arms can be increased within a 2¼" range.

Arm Swivel Adjustment Padded arm rest swivels a total of 60° (30° inward and 30° outward).

Adjustment Back Vertical Backrest can be positioned up or down within a 3⅜" range for optimal lumbar support.

Back Angle Adjustment The backrest can be changed to properly support your lower back in a variety of seated positions. The total angle adjustment is 18°. It is lockable at any point within the range.

Back Cushioning Softly sculpted, 2" polyurethane foam.

Seat Slider A spring loaded seat slide lever provides an additional range of 2". (Available on *Cue 3* + chair only).

Back Covering Mar-resistant plastic.

Five-Star Base Black molded plastic base resists marring under heavy use.

Dual Wheel Hard Casters Less carpet wear, greater flexibility.

Knocked-Down Shipping Chairs are shipped KD as standard and can be shipped UPS.

Safety and Durability *Cue 3* chairs meet or exceed all applicable ANSI/BIFMA test standards..

Options

Soft-Wheel Casters Move easily on hard floors.

Locking Casters Maintain chair position when not in use. (Except *Cue 3* + chair)

Glides Caster height glides are used on chairs that are to remain stationary.

Footring Available on stool models only, supports legs in a comfortable position; adjustment is independent of the seat.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process.

To price chairs using C.O.M. fabric, refer to C.O.M. pricing.

***NIMA*™ Four Leg Chairs** Page
General Information..... 43
Options..... 43-44
Model Offering..... 45-50
Tablet Arm Chair Accessories 46

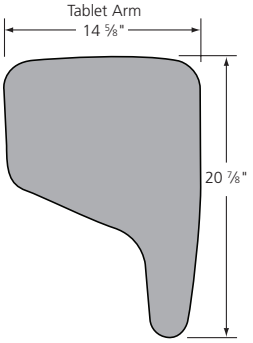
General Information

Designed by Giancarlo Piretti, the ***Nima*** chair offers maximum comfort with a minimal design impact. This multipurpose, articulating back chair has a modern look at an affordable price point. The chair's articulating back movement provides for an exceptionally comfortable, dynamic and ergonomic seating experience. Each chair in the line offers exceptional stacking and mobility functionality. This provides end-users and specifiers the flexibility needed to meet today's active learning environments where furniture (including chairs) requires easy reconfiguration and storing capabilities. The ***Nima*** chair can be used in a variety of settings, including: administrative offices, commons area, convention spaces, small and large classrooms, dining facilities, dorm rooms, lecture halls and sports facilities.

The key to ***Nima***'s outstanding ergonomics and design aesthetic is its pivot point, which originates at the user's hip, not the back. The contoured articulating back conforms in harmony with the waterfall-styled seat and allows the user to move naturally at the hip point. This organic movement creates a uniquely smooth ride while also providing the ultimate in support and comfort.

The chair's patented articulating back mechanism and other components are intentionally hidden and minimized, letting the chair's elegance be the design statement. The crisp, smoothly curved seat back is the aesthetic signature of the product and creates design continuity within the entire line.

Constructed of recyclable materials the Nima chair contributes to LEED certification.



Standard Features

Frame The sled base utilizes a 5/8" outside diameter 14 gauge frame, while the 4-leg chairs have a 7/8" outside diameter 14 gauge frames.

Frame Color Choose from the four (4) different powder coat epoxy finishes.

Shell A two-piece textured-molded polypropylene.

Glides Co-polymer glides for use on carpet and hard floors are standard.

Safety and Durability ***Nima*** meets or exceeds all applicable ANSI/BIFMA test standards. 300 lb. weight capacity.

Articulating back The articulating back allows for natural movement by the user.

Options

Arm Rests Two-piece texture-molded polypropylene secured to a tubular support provides added comfort and allows for chair stacking. Colors: Cool Cement or Black

Upholstered Seat and Back Pad Added comfort and design flexibility with a choice of fabrics over an upholstered seat and back pad over ¾" seat foam, ½" back foam. Four (4) screws secure the pad assembly to the shell from under the seat.

Casters 50 mm twin-wheel nylon caster with hard tread (for carpet) or soft tread (for hard floors). Caster chairs are stackable. 60 mm casters for swivel base chairs.

Tablet Arms Offered with a wide choice of surface laminate options with a burnished plywood edge.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process. The C.O.M. General Information on page 8.

C.O.M. Upholstery Yardages

The ***Nima*** chair upholstered seat pad requires .4 yard and chairs with a seat and back pad require .7 yard of fabric (or vinyl) per chair for multiple chair orders. Chairs using C.O.M. fabric will require 1 yard per chair for initial testing if not already pre-approved. Directional fabrics and wide patterns may require additional yardage.

General Information

The ***Us®*** chair is the first product offering in a complete portfolio of well-designed, multi-purpose seating solutions developed to meet the dynamic furniture needs of the college and university marketplace. Consisting of loose chairs as well as fixed seating products, American Seating's ***Us*** chair family can help facility, maintenance, design and specifying professionals create a consistent and cohesive look for the seating products they specify. The ***Us*** chair aims to be the new "standard" of seating for any college or university environment as it can be used in a variety of settings, including: administrative offices; commons area; convention spaces, small and large classrooms; dining facilities; dorm rooms; lecture halls; and sports facilities.

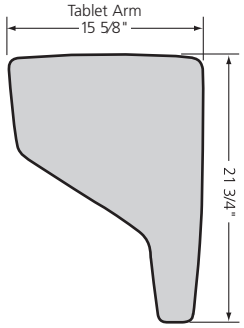
American Seating partnered with noted industrial designer Jeff Weber, principal of Studio Weber + Associates, to create the ***Us*** chair. The design of the chair is inherently organic as it derives from the human form, especially as it relates to the chair's shell. At the same time, it also features a very linear aesthetic that translates the multiple base configurations that are available. This hybrid nature creates a universal appeal across form people, function place and performance time.

American Seating also partnered with renowned colorist Laura Guido-Clark of Guido-Clark Design to create 14 new and inspiring seating shell color options and three new paint finish color options. The new colors are based on research about how color can enhance student learning through the learning environment. They can also help specifiers create the perfect match for the design space they envision.

Constructed of recyclable materials and containing recycled content, the ***Us*** chair can contribute to LEED points in the MR 2 and MR 4 categories.

Upholstered Chairs Upholstered inserts are removable for ease of replacement if necessary.

Tablet Arms Chairs Tablet arms are available on the four leg chair as left or right hand versions with 216 sq. inches of surface area.



Standard Features

Frame ⅞" and ¾" (cross member) diameter, 14 gauge cold rolled steel tubes and 11 gauge steel mounting plates.

Frame Color Choose from three (3) textured and one (1) metallic powder coat epoxy finishes.

Ergonomic Shell A one-piece texture-molded polypropylene design that comfortably fits individuals of various shapes and sizes. The shell has inherent flex that appropriately responds to user movements in today's more active learning environments.

Glides 1" Diameter self-leveling nickel plated steel glides with natural color nylon insert.

Safety and Durability ***Us*** Chairs meet or exceed all applicable ANSI/BIFMA test standards.

Options

Arm Rests One-piece texture-molded polypropylene secured to a tubular support provides added comfort and allows for chair stacking. Color: Cool Cement

Upholstered Seat Pad Added comfort and design flexibility with a choice of fabrics over ½" polyurethane foam. Four (4) Phillips head screws secure the pad assembly to the shell from under the seat.

Casters 37 mm twin-wheel nylon caster with hard tread (for carpet) or soft tread (for hard floors). Caster chairs are stackable.

Tablet Arms Offered with a wide choice of surfacelaminate options with a burnished plywood edge.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process. The C.O.M. General Information on page 8.

C.O.M. Upholstery Yardages

The ***Us*** chair upholstered seat pad requires .3 yard of fabric (or vinyl) per chair for multiple chair orders. Chairs using C.O.M. fabric will require 1 yard per chair for initial testing if not already pre-approved. Directional fabrics and wide patterns may require additional yardage.

Us® Four Leg (FXD) The steel tube frame comes in three (3) standard textured and one (1) metallic powder coat frame colors. The one piece shell comfortably fits individuals of various shapes and sizes with inherent flex that appropriately responds to user movements. The chair shell is available in 14 texture molded polypropylene colors with an option for a ½" polyurethane foam upholstered seat pad. Chairs are shipped standard with 1" Diameter self-leveling glides. Four leg chairs with arm rests or tablet arms can be stacked six (6) high (on the floor), while armless four leg chair stacking is not recommended over 12 chairs, with or without casters, glide comes standard and upholstered seat pad. See pages 10-15 for applicable fabrics and finishes.

Us® Chair Family – Tablet Arm Accessories

Side rack, bag hook and cup holder accessories are a great addition to the ***Us*** Tablet Arm Chair, and allow convenient access to a student's belongings. The side rack and bag hook are ¼" epoxy powder coated steel wire and the cup holder is 10% glass filled polypropylene. Accessories can be ordered separately and are field installed (bag can be ordered factory installed). The cup holder is available in color Cool Cement, and the side rack and bag hook are available in standard ***Us*** chair paint colors: Silver Lining (JX), Cherry Cobbler (JP), Dark Slate (JH), and Black (0H).

Upholstered Chairs Upholstered inserts are removable for ease of replacement if necessary.

Dolly With our optional desk height, sled base chair dolly you can stack and roll your chairs out of the way.

Dolly Capacity

Non-Upholstered Chairs 26
Upholstered Seat Pad Chairs 21

Standard Features

Frames Desk height chairs constructed of 7/16" diameter cold drawn steel wire rod. Bar/counter height chairs constructed of 5/8" diameter, 14 gauge cold rolled steel tube. Both chairs have 11 gauge steel mounting plates.

Frame Color Choose from three (3) textured and one (1) metallic powder coat epoxy finishes.

Ergonomic Shell A one-piece texture-molded polypropylene design that comfortably fits individuals of various shapes and sizes. The shell has inherent flex that appropriately responds to user movements in today's more active learning environments.

Glides Desk height chairs have 5/8" x 1¾" snap fit, clear Lexan glides that are held in position by depressions in the frame. Bar/counter height chairs have ½" x 1⅝" copolymer glides that are attached to the frame with 3/16" pop rivets.

Safety and Durability ***Us*** Chairs meet or exceed all applicable ANSI/BIFMA test standards.

Options

Integral Arms Define space for high density seating, enhance user ingress/egress and provide added comfort.

Upholstered Seat Pad Added comfort and design flexibility with a choice of fabrics over ½" polyurethane foam. Four (4) Phillips head screws secure the pad assembly to the shell from under the seat.

Ganging Attachments Welded steel, permanently affixed to frame, ensures straight rows. Available on Desk Height ***Us*** Chairs only.

Glides No-glide (glide-less) option (sometimes preferred for carpet applications) available for Desk Height ***Us*** Chairs. Steel glide option (for highly abrasive floors) available for Bar/Counter Height ***Us*** Chairs.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five (5) business days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process. The C.O.M. General Information on page 8.

C.O.M. Upholstery Yardages

The ***Us*** chair upholstered seat pad requires .3 yard of fabric (or vinyl) per chair for multiple chair orders. Chairs using C.O.M. fabric will require 1 yard per chair for initial testing if not already pre-approved. Directional fabrics and wide patterns may require additional yardage.

Us® Chair Family – Counter/ Bar Height Sled Base Chairs

Us Counter/Bar Height Sled Base Stools (FXB/C) The steel tube frame comes in three (3) standard textured and one (1) metallic powder coat Frame Colores. The one piece shell comfortably fits individuals of various shapes and sizes with inherent flex that appropriately responds to user movements. Bar height chairs are typically used with 40" to 42" high café tables and counter height chairs are typically used with (approximately) 36" high built-in, architectural surfaces. The chair shell is available in 14 texture molded polypropylene colors with an option for a ½" polyurethane foam upholstered seat pad. Chairs are stackable and shipped standard with co-polymer glides or optional steel glides. See pages 10-15 for applicable fabrics and finishes.

To Specify/Order:

1. Product Code (5 digits)
2. Glide (1 digit)
   0 = Steel Glide (for use on abrasive floors)
   1 = Co-Polymer Glide Standard

General Information

The *Us* chair is the first product offering in a complete portfolio of well-designed, multi-purpose seating solutions developed to meet the dynamic furniture needs of the college and university marketplace. Consisting of loose chairs as well as fixed seating products, American Seating's *Us* chair family can help facility, maintenance, design and specifying professionals create a consistent and cohesive look for the seating products they specify. The *Us* chair aims to be the new "standard" of seating for any college or university environment as it can be used in a variety of settings, including: administrative offices; commons area; convention spaces, small and large classrooms; dining facilities; dorm rooms; lecture halls; and sports facilities.

American Seating partnered with noted industrial designer Jeff Weber, principal of Studio Weber + Associates, to create the *Us* chair. The design of the chair is inherently organic as it derives from the human form, especially as it relates to the chair's shell. At the same time, it also features a very linear aesthetic that translates the multiple base configurations that are available. This hybrid nature creates a universal appeal across form people, function place and performance time. American Seating also partnered with renowned colorist Laura Guido-Clark of Guido-Clark Design to create 14 new and inspiring seating shell color options and three new paint finish color options.

The new colors are based on research about how color can enhance student learning through the learning environment. They can also help specifiers create the perfect match for the design space they envision.

Constructed of recyclable materials and containing recycled content, the *Us* chair can contribute to LEED points in the MR 2 and MR 4 categories.

Upholstered Chairs Upholstered inserts are removable for ease of replacement if necessary.

Standard Features

Frame 7/16" diameter cold drawn steel wire rod and 11 gauge steel mounting plates.

Frame Color Choose from three (3) textured and one (1) metallic powder coat epoxy finishes.

Ergonomic Shell A one-piece texturemolded polypropylene design that comfortably fits individuals of various shapes and sizes. The shell has inherent flex that appropriately responds to user movements in today's more active learning environments.

Pneumatic Seat Height Adjustment Seat height adjustment is activated by conveniently located paddle at the side of the chair.

Tilt Adjustment Seat tilt action is adjustable with tension adjustment knob located below the front of the seat. Tilt angle range of 7½" with lockout capability. Task Chair Only.

Footring Available on stool models only, supports legs in comfortable position; chrome contact surface; adjustment is independent of the seat.

Five Star Base Black textured glass filled nylon base resists marring.

Dual Wheel Hard Casters 60 mm black nylon dual wheel design lessens carpet wear.

Knocked-Down (KD) Shipping Chairs are shipped KD as standard and can be shipped via UPS.

Safety and Durability *Us* Chairs meet or exceed all applicable ANSI/BIFMA test standard.

Options

Arm Rests One-piece texture-molded polypropylene secured to a tubular support provides added comfort and allows for chair stacking. Color: Cool Cement

Upholstered Seat Pad Added comfort and design flexibility with a choice of fabrics over ½" polyurethane foam. Four (4) Phillips head screws secure the pad assembly to the shell from under the seat.

Soft Casters 60 mm black nylon twin wheel casters available with soft tread for use on hard floor surfaces.

Locking Casters 60 mm black nylon twin wheel casters that maintain chair position when not in use.

Glides 2" diameter black nylon post design at the same height as the casters provide a stationary chair option.

Customer's Own Material (C.O.M.) Program

American Seating offers C.O.M. options on seating products. Within five (5) business days following the receipt of test yardage, we will confirm your C.O.M. request. Contact your customer service representative at (800) 748-0268 to discuss the C.O.M. fabric approval process. The C.O.M. General Information on page 7.

C.O.M. Upholstery Yardages

The Us chair upholstered seat pad requires .3 yard of fabric (or vinyl) per chair for multiple chair orders. Chairs using C.O.M. fabric will require 1 yard per chair for initial testing if not already pre-approved. Directional fabrics and wide patterns may require additional yardage.

Value Armless Caster Base Chair is a durable, yet cost effective, once piece plastic shell design. This attractive shell is textured polypropelene with an enclosed channel around the perimeter to enhance the structure of the chair. High strength engineered thermo resin caster base and height adjustment mount/ paddle form the lower portion of the chair with a height adjustable cylinder. Some assembly required. The ***Value*** Chair module is also available for the Focus Swing-Away lecture series.

Welcome To Express

The ***Express*** program was created to make getting the seating and table products you want easy, affordable…and shipped within 10 business days. Products available on the ***Express*** program are listed with an "E".

The Process

When you're ready to place your ***Express*** product order, be sure to follow these simple steps to ensure you get the products you want, the way you want them, delivered when you want them.

- Clearly mark your order "***Express***"
- Only include products from the ***Express*** program offering in your order.
- Other American Seating product selections should be ordered separate from ***Express*** program products.
- Select all finishes and fabrics from the ***Express*** finish and fabric offering.

Order Limitations

Orders with a maximum quantity of 5 tables per model code, not to exceed a total of 25 tables, qualify for the ***Express*** Quick-Ship Program. For orders larger than 25 tables, submit your required ship date and we'll do our best to accommodate your request.

How do you take one of the easiest to specify seating and table collections and make it even better?
The following design and content elements will help you correctly specify any American Seating product.

- **General Product Information** — More data, right where you need it.
- **Specification Guidelines** — Bullet points of important information you need when planning your order.
- **Product Illustrations** — Highlighted in gray for easy identification of the product. Drawings also demonstrate product relationships.
- **Product Index** — Alphabetical listing of product codes help you quickly locate the pages of specific products.

This price list is clear and easy to use — whether you're a novice or a pro!

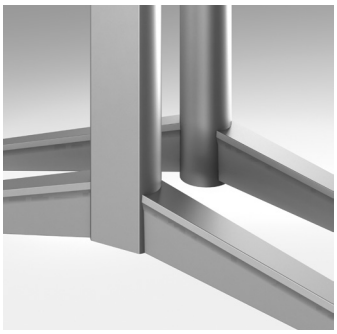
Rely™ Tables Page
General Information and Features 60
Model Offering 61-70
Power and Options 71-73

General Information

The Rely table line is a part of a fully coordinating system of highly mobile, durable and easily configurable tables, white boards and lecterns. Rely tables are available in a variety of base options grounded by a contemporary extruded foot design with a clean top plane and flared toe anchors.

Leg options include a vertical round steel tube or rectangular extruded aluminum. There are a wide variety of top shapes and sizes to choose from, as well as technology, modesty panel and wire management options.



Standard Features

- **Base** The base consists of die cast aluminum feet (ADC 10 + 3% Zinc) and either a powder coated 2 5/8" 14-gauge HRPO steel tube or powder coated aluminum extrusion column. Seven gauge steel top plates are powder coated and fully welded to the steel column. Feet and top plate bolted to aluminum extrusion.
- **Base Finish** Bases are available either fully powder coated or with powder coated vertical columns and polished feet. Six finish options available for each version.
- **Casters** (optional) 80 mm locking casters with hard or soft tread.

  Hard casters are recommended for carpeting and other durable surfaces.

  Soft casters are recommended for hard surfaces with smooth finishes such as tile and wood. ***Note***: Soft casters may collect debris and periodic cleaning is recommended as floor finishes can be scratched by debris on the floor or caster.
- **Top Construction** 1.25" dense particle board prevents warping. Ready to mount table top with screws included.
- **Laminate Surface** A wide range of contemporary laminate options are standard. Low-glare finish reduces eyestrain; resists mars and stains.
- **Safety and Durability** Tables meet or exceed all applicable ANSI/BIFMA test standards.
- **Wire Management** Special leg design with integral 1.50" diameter hole for round leg, 2.00" diameter hole for extrusion leg.

Desk height tables are 29" high with a tubular steel column leg and extruded aluminum foot in a T-Base configuration. Available in a wide variety of standard laminates and edge options (see page 67).

Desk Height Rectangle Table w/Round T-Leg

Rely Tables – Flip & Nest Desk Height Rectangle Tables with Extrusion T-Legs

Flip and Nest tables have an extruded aluminum base in a T-Base configuration. The flip mechanism is an intuitive, single release system and tables include integrated anti-sag steel support beams with wire management clips. Table top flips up and locks for stored positions. Available in a wide variety of standard laminates and edge options (see page 67).

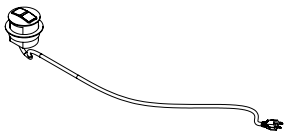
Interlink IQ Modular, non-sequential electrical distribution system allows you to connect up to 8 tables in any configuration from one power infeed. Sophisticated 'brain' indicates a green light for go or a red light to indicate that too many tables are connected. UL recognized.

Node The Node power/data center has a clean, flush-mounted design that has the option for either two power outlets or one power outlet and one 2 amp USB duplex, ideal for charging two tablets and other USB-friendly electronics.

Node With Cord



Product Code	Description	Price
07335600	NODE WITH CORD 72" (2) POWER	$180

Power and Options 79-81

General Information

A modern learning environment lends itself to interaction and the exchange of ideas. ***Us*** Tables and Chairs are designed to support and embrace the learning experience. Mobile casters allow for easy transition from one task to another, while side-mounted bag hooks keep important study materials accessible and off the floor. The innovative construction process provides extremely durable yet lightweight tabletops.

The wide-leg stance is designed to accommodate two occupants in a side-by-side configuration without hampering personal space. Multiple tabletop sizes and leg dimensions may be combined to suit the needs of your active learning environment. The legs are available in four widths and the tops come in multiple lengths and shapes.

Standard Features

Designs for Learning™ Together with the ***Us*** Chair, the new ***Us*** Tables offer a universal design language that provides aesthetic continuity in today's dynamic learning environments.

- Accommodate The Us Table's wide-leg stance is designed to accommodate two occupants side-by-side with plenty of room for personal space.
- Function The Us Table's simple backpack hook keeps students' books and supplies within reach and off the floor.
- Top Options Us Tables have multiple top sizes and edge options to fit your needs and budget. Choose the standard or lightweight core and match the edge to your Us Chair shell.
- Leg Options Available in three depths to accommodate all of the table top sizes. Choose from four great powder coat colors.
- Glide and Caster Options The durable legs are fitted with either threaded 2-inch glides or twin-wheel casters. Casters are available in soft, hard, locking or non-locking.

  Hard casters are recommended for carpeting and other durable surfaces.

  Soft casters are recommended for hard surfaces with smooth finishes such as tile and wood. ***Note***: Soft casters may collect debris and periodic cleaning is recommended as floor finishes can be scratched by debris on the floor or caster.

See page 93 for Disc base table option.

The Us table has been thoughtfully engineered to combine rock-solid support and lightweight mobility. A variety of rectangular shapes offer the flexibility to configure collaborative environments for work and study. Tables can be personalized to any environment with a range of laminates, colors and edge profiles. Available in a wide variety of standard laminates and edge options (see page 67).

US+ S + 2 + 42 + 1 + 0 + 3 + 0H + 6Y + 0H

UC+ S + 2 + 48 + 1 + 0 + 3 + 0H + 6Y + 0H

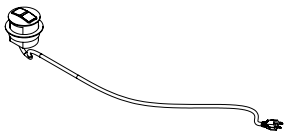
Interlink IQ Modular, non-sequential electrical distribution system allows you to connect up to 8 tables in any configuration from one power infeed. Sophisticated 'brain' indicates a green light for go or a red light to indicate that too many tables are connected. UL recognized.

Node The Node power/data center has a clean, flush-mounted design that has the option for either two power outlets or one power outlet and one 2 amp USB duplex, ideal for charging two tablets and other USB-friendly electronics.

Node With Cord



Product Code	Description	Price
07335600	NODE WITH CORD 72" (2) POWER	$180
07335601	NODE WITH CORD 72" POWER/USB	$256

WM60H	WIRE MANAGER 26" BLACK	$36
WM9122H	WIRE MANAGER 22" BLACK	$23
WM9122S	WIRE MANAGER 22" SILVER	$23

Wire Manager constructed of black extruded PVC with adhesive back. Holds wires securely to underside of work surface or legs.

Table Ganger Kit

Product Code	Description	Price
073350	CONNECTOR TABLE KIT	$22

Two Table Ganger Kits are recommended for full connectively.

Section Guide

Alert® Tables Page
General Information and Features 90
Model Offering 91-92
Power and Options 100

General Information

The Alert table line is a broad spectrum solution that provides both value and durability. Base styles include T-Base, C-Base, X-Base, and Post Leg options. Flip and Nest and Height Adjustable features are available. Choose from a variety of laminate selections to complement environments ranging from traditional to contemporary with edge treatments to match or accessorize. Top shapes in varying sizes, shapes and depths to accommodate most table needs.

- 3MM edge is environmentally friendly polypropylene
- Standard heights: 29" desk, 36" counter, and 42" bar.
- Sleek tubular pedestal base for contemporary styling and adjustable height glides for added stability
- Optional locking casters

  Hard casters are recommended for carpeting and other durable surfaces.

  Soft casters are recommended for hard surfaces with smooth finishes such as tile and wood. ***Note***: Soft casters may collect debris and periodic cleaning is recommended as floor finishes can be scratched by debris on the floor or caster.

Standard Features

Base Constructed of 14 gauge, 1⅞" diameter cold rolled steel for T-bases (double T-bases for tables over 72") and 3" diameter cold rolled steel for X-bases. Steel top plates are .175" thick, and available in the following dimensions:
6" x 8" (T-Base)
9.5" x 9.5" (X-Base)
4" x 4" (2" diameter post leg).
6" x 6" (3" diameter post leg).
Welded construction.
Nylon glides are ⅜-16 x 1⅜".

- **Green Certification** ***Alert*** Table group is independent lab certified Green.
- **Laminate Surface** Low-glare finish reduces eyestrain; resists mars and stains.
- **Top Construction** 1.25" Dense particle board prevents warping. Ready to mount table top with screws included.
- **Base Finish** Two standard colors available.
- **Safety and Durability** Tables meet or exceed all applicable ANSI/BIFMA test standards.

Tables have numerous laminate surfaces with a choice of several edge styles. A tubular base for a secure footing includes glides or optional casters. They are shipped KD with tops pre-drilled for easy assembly to welded legs. See Table Finish section (page 67) for applicable leg, laminate and edge finishes.

Disc Base Tables Page
General Information and Features 101
Model Offering 102

General Information

The disc base table is an attractive round top table option perfect for cafes and common areas. Available in desk, counter, and bar heights in a range of top sizes.

Standard Features

- **Base** Constructed of 14 gauge, 3" diameter cold rolled steel. Steel top plates are .175" x 9.5" x 9.5". Welded top plate to column/knock down column to disc. Disc is .31" thick laser cut steel. Nylon glides are 1/4-20" x .25".
- **Green Certification** The disc base table is independent lab certified Green.
- **Laminate Surface** Low-glare finish reduces eyestrain; resists mars and stains.
- **Top Construction** Dense particle board prevents warping. Ready to mount table top with screws included.
- **Base Finish** Six standard colors available
- **Edge Options** Choose from the following edge options: 3MM Polypropylene, Bullnose PVC, Tapered Wood Edge, Radiused Wood Edge, and 5 urethane edge options: Knife, Waterfall, Ease, Bullnose, or Comfort.
- **Safety and Durability** Tables meet or exceed all applicable ANSI/BIFMA test standards.

Disc Base Tables

The ***Disc Base*** table offers a clean appearence for a variety of environments. It blends well with ***Us***®, ***Alert***® and ***Rely***® table families. See Table Finish section (page 67) for applicable leg, laminate and edge finishes.

dek™ table Page
General Information and Features 103
Model Offering 104

General Information

The ***dek*** table is a modernly designed desk that is ideal for any learning environment. It was created to compliment the time tested ***Acton***® chair as well as our brand new ***Us***® chair. The design includes a laminate or 3D laminate work surface, a sled base steel frame, and integral modesty panel. The ***dek*** table is lightweight and durable, which allows for easy movement and the ability to stand up to the ever evolving demands of education environments. By combining the ***dek*** table with the ***Acton*** or ***Us*** chair, you will experience optimal ergonomics, great flexibility and the perfect design combination for your learning environments. The ***dek*** table stacks neatly and effortlessly, allowing you to efficiently utilize space (stacks 5 high).

dek™ Table Dimensions
Height: 29"
Width: 27¾"
Depth: 18¾"
Work Surface: 18" Deep, 23¼" Wide

Sled Based Standard Features

- **Frame Color** Choose from any ***Acton*** or ***Us*** Chair Frame Color (except chrome).
- **Table Top Finish** Standard laminates or 3D laminate (see options below).
- **Floor Glides** Tables can be equipped with plastic glides for smooth hard floors, or steelglides for abrasive floors. Plastic glides are standard.
- **Safety and Durability** ***dek*** tables meet or exceed all applicable ANSI/BIFMA test standards.

dek™ Sled Base Table

***dek*™ Sled Base Table (DEK)** The sled base steel frame with modesty panel has a metallic powder coat finish. The durable work surface comes in either laminate with burnished edges or 3D laminate, for a seamless, wrap-around edge. Choose from our standard laminates or three color options for 3D laminate. Tables are shipped fully assembled.

Lecterns Series Page
General Information and Features..... 105
Lectern and Marker Board..... 106

General Information

American Seating is pleased to announce the Rely Lecterns and Marker boards. Rely Lecterns and Marker boards are available in a variety of base options grounded by a contemporary extruded foot design with a clean top plane and flared toe anchors.

Standard Features

- **Base** The base consists of die cast aluminum feet (ADC 10 + 3% Zinc) and either a powder coated 2/8"14-gauge HRPO steel tube or powder coated aluminum extrusion column. Seven gauge steel top plates are powder coated and fully welded to the steel column. Feet and top plate bolted to aluminum extrusion.
- **Base Finish** Bases are available either fully powder coated or with powder coated vertical columns and polished feet. Two finish options available for each version.
- **Casters** (optional) 80 mm locking casters with hard or soft tread. Hard casters are recommended for carpeting and other durable surfaces. Soft casters are recommended for hard surfaces with smooth finishes such as tile and wood. Note: Soft casters may collect debris and periodic cleaning is recommended as floor finishes can be scratched by debris on the floor or caster.

Shipping

The Rely Lectern ships fully assembled. Rely Marker board has assembly required.

Safety and Durability Both Lectern and Marker board meet or exceed all applicable ANSI/BIFMA test standards.
