STAKS CROSSOVER CASEGOODS™

Clean, customizable design with the power of a system and personality of a modern studio.

Shift with STAKS®
First Office introduces STAKS®, a new crossover casegood™ designed to span from the private office to open plan workspaces. STAKS® is priced to delight buyers without sacrifice.

STAKS® provides precise, customizable design with the power of a system and personality of a modern studio. Loads of surface options and built-in features create studio environments that stir conversations and pollinate ideas. Real veneer, laminate surfaces and premium materials bring the luxury of a private office into the open.

Divide space more freely than a conventional system. STAKS® Spine & Divider Wall Panels create privacy for focused work and are perfect for studio collaboration. A maximum 48" dividing height delivers personal privacy yet encourages collaboration with ideal sightlines. STAKS® also meets LEED IEQ requirements for seated height views.

STAKS® is customizable. It embraces the beauty of cabinet-based design to create a perfect fit. Spine & Divider Wall Panels, Worksurfaces and Storage can all be sized to meet any condition. First Office brings a superior history in craftsmanship to open plan, giving everyone on the floor private office fit, performance and luxury.

Love Where You Work
With STAKS®, everyone on the floor experiences private office luxury. Cool surroundings, real veneer, residential work areas, organized to the max. STAKS® creates personal spaces with an intimate fit. Tune in and jam. Drop your pack in a bin. Pop in and sit down. STAKS® supports active workspaces.

Flow STAKS® through an entire company. Details and materials know no boundaries, extending seamlessly from the private office into the open. Modern clean veneers, designer laminates, rich paints, and glass and resin surfaces create premium environments. Add distinctive touches such as patterned fabrics and architectural hardware for a specifier's pipe dream. STAKS® easily blends with millwork for a genuinely winning environment.

STAKS® is scaled for smaller spaces. Lower height surfaces, compact storage and layered work areas make offices feel roomier. Workstations don't skimp on capacity, offering real elbow room comfort. STAKS® easily accommodates today's shrinking private office.

Spec and Build Easily
Because STAKS® is a crossover casegood™, its inherent casegood characteristics make it a breeze to specify. No system vocabulary to work around, just simple components and easy connections.

Spec STAKS® just as you would conventional casegoods. Create the ideal office, play with materials, harmonize colors, textures and hardware for a perfect client fit. Avoid the learning curve and frustration of complicated systems-based furniture.

STAKS® is not dependant on a panel system and features Divider Walls & Spines to divide space and create privacy. Simple and efficient UL® rated electrical and data solutions travel under Worksurfaces and through Divider Walls & Spines to neighboring Workstations.

Installing STAKS® is easy. Start with Divider Walls & Spines. Add Worksurfaces, and layer additional worksurfaces. Then add on Tackboards, Privacy Panels and Toolrails. Finally, outfit the exact storage needed for each worker.

Go Green
Create great environments sustainably with STAKS®. The design intent from the start was to provide a sustainable solution for designers. STAKS® not only meets environmental requirements, but exceeds requirements for a true greener workspace.

STAKS® can potentially contribute to several LEED requirements including IEQ 8.2 credit with its scale and sightline feature, MR 4.1 & 4.2 credits for recycled content due to the use of composite wood materials manufactured from recycled materials, MR 2.1 & 2.2 Construction Waste Management pertaining to our ability to reduce the use of cartoning and other packaging materials while utilizing skid packaging instead, and potentially MR 5.1 & 5.2 Regional Materials. In additional to this, STAKS® has achieved GREENGUARD Indoor Air Quality certification and contributes to credit IEQ 4.5 for Low Emitting Systems Furniture and Seating, as well as Greenguard Children and Schools Certification. This program offers stricter certification criteria and is referenced by both the Collaborative for High Performance Schools (CHPS) and the Leadership in Energy and Environmental Design (LEED) Building Rating System.

HOW TO MAKE THIS GUIDE WORK FOR YOU

This STAKS® Price List is a planning guide and price list all rolled into one for easier specifying and ordering. The Introduction section contains basic terms and conditions and warranty information, plus a very helpful Typicals section to help jump start space planning with STAKS®. Typicals cover a wide array of office set-ups and workstations to generate ideas for optimum space planning.

The bulk of this STAKS® price list features sections for individual components. These sections are organized in the order that is easiest to specify STAKS®. Viewers specifying from individual components should start with Space Division components, then move into Pedestals & Lateral Files, then Worksurfaces, and more.

Each component section features an overview page and pricing pages. Overview pages highlight key features, special notes and information pertaining to those specific components. Pricing pages feature component pricing along with all line art, model numbers, dimensions, weights, cubes and ordering examples for ease.

Prices:
All prices herein are list prices including delivery to one destination, effective with the date printed on the cover and supersede all other published price lists. US List Prices are domestic prices only for shipment within the Continental United States. Prices are subject to change without notice, unless quoted in writing. Possession of the price list does not constitute authority to sell or offer for sale First Office products.

Acknowledgments:
Orders are acknowledged upon receipt of credit approval. Your acknowledgement is a detailed description of items, prices, shipping information, and shipping date. Please read your acknowledgment closely and notify First Office immediately of any discrepancies. First Office is not responsible for errors on orders placed by phone without written confirmation.

Availability:
First Office is committed to the fastest possible shipment of all products. All other items are available within our normal manufacturing schedule. For information on stock availability, call our STAKS® Project Spec Analyst hotline 1.800.983.4415. Note: Planned shipping dates may be delayed due to fires, strikes, natural disasters, or other causes beyond our control.

Quantity Orders:
Contact your STAKS® Project Spec Analyst to verify inventory and production schedules to ensure requested shipment date prior to placing large quantity orders.

Delivery and Freight Charges:
All shipments are F.O.B. point of shipment, freight prepaid and allowed, excluding fuel surcharges. Shipments outside of the Continental United States are freight prepaid and allowed to port of exit. First Office reserves the right to select the most appropriate carrier and routing on all shipments; however, we will try to accommodate requests for your preferred carrier. First Office reserves the right to implement a fuel surcharge. **Orders of less than $1,500 net** will be assessed a handling charge of $100 net per order. Any charges arising from failure to receive a shipment, rerouting while in transit, or carrier storage charges are not included in prices shown. Orders requiring special services are subject to an additional charge. These services include:
- Reconsignment from original destination to new destination - $35 plus $3.00 per mile net
- Refused/Returned Freight
- Freight refused at destination and returned to First Office - Double Freight
- Freight refused at time of delivery; returned to First Office to deliver at a later date - Triple Freight
- Detention Fees (after 2 hours of waiting) - $85 net per hour
- Weekend delivery available Friday after 3: 00 p.m. through Sunday night, or Holiday - $600 net per truck
- Customer Pickup
- Customer Request for 3rd party to pick up freight at First Office terminal - $125 net
- Change of Tags/Address/Phone #'s on Shipments - $35 net

Cancellation / Order Changes:
All orders accepted by First Office are considered firm and binding and are not subject to cancellation.

Warehouse Storage Charges:
If a shipment is held beyond fourteen (14) calendar days after the order is ready for shipment at your request, a 0.067% per day (2%per month) storage charge will be assessed. The effective date will be fourteen (14) calendar days after the order is ready for shipment, as long as this date is after the acknowledged ship date. Further, the prices applied to the order will be those prices in effect at the time of shipment.

Extended Production / Ship Dates:
Orders placed with First Office with extended lead times as requested by you will be subject to price in effect at time of shipment.

Damaged Merchandise and Freight Claims:
1. Inspect all cartons for damage and verify carton quantity. All shipments are delivered to the transportation company in good condition; First Office's liability ceases at this time. Do not refuse merchandise damaged in transit. Instead enter a claim with the transportation company.

2. Record damages and/or shortages on the bill of lading and freight bill. Do not accept the shipment until all shortages are noted on both the bill of lading and the freight bill. Sign only for the items you receive. If you give the delivering carrier a clear receipt for a shipment, the carrier is relieved of further responsibility.

3. If concealed damage is found: Notify the delivering carrier at once and request an inspection. For shipments via Styline Logistics, notify your

WARRANTY, TERMS AND CONDITIONS

STAKS® Project Spec Analyst. This must be done within 20 calendar days of delivery. Without this inspection the transportation company will not entertain a claim for loss or damage. If the carrier will not perform this inspection, you should prepare an affidavit that you contacted the carrier, noting the time and date, and that the carrier failed to comply with your request. All shipping cartons and inner packing must be retained for carrier inspection. Do not move the damaged merchandise from the receiving location. It must also be retained for the inspection.

Return of Merchandise:
First Office will not accept returned merchandise without a signed Return Authorization (RA) issued by our STAKS® Project Spec Analyst Department. All returned merchandise must be properly packaged and cartoned to prevent further damage. Carton must be clearly marked with identifying RA number so that proper credit can be issued.

We will consider issuing RAs for the following reasons:
- Manufacturing defect (must be inspected by First Office sales representative)
- First Office order processing error
- Shipping error
- Duplicate shipments
- Mismarked cartons All merchandise must be returned within thirty (30) days of the date of the RA to receive credit. Freight damage, signs of usage, missing parts, etc. will be adjusted on the amount of credit to be issued.

Repair Charges:
Reimbursement from First Office for repairs must have prior approval.

Finish:

euroluxe™ with SILVERBAN™

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of First Office's finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve SCS Global Services' Indoor Advantage Gold Certification.

SilverBan™ technology is an antimicrobial utilizing silver ions infused into the Euroluxe™ wood finish for antimicrobial protection on all exposed wood surfaces. SilverBan™ inhibits the growth of mold, mildew, fungus and bacteria on wood surfaces, as well as odors caused by bacterial growth, by 99.99%.

Custom Finish:
Custom finish matching is available for special requirements. First Office must be provided with a suitable 8" x 10" or larger finish sample. First Office has a complete library of previously developed custom finishes that may be an acceptable match. However, new custom finishes can be developed to meet specific needs. **There will be a $300 net upcharge per order for new custom finishes (waived on projects of $100,000 net price or more). Custom finish upcharge for repeat or additional orders will be $150 per order, even when the upcharge was waived on the original project.** Custom finish matches are valid for 12 months from sample date. After this time period, custom finishes must be rematched and reapproved for use.

Finish Disclaimer:
Some desktop accessories with plastic feet can penetrate or burn the finish. This is not a defect in the finish. Wood is a natural product and minor variations in wood color, grain, and texture may be visible even though the pieces are finished at the same time. Also, light finishes when exposed to ultraviolet rays may darken and change color. These are not defects in finish, and merchandise cannot be replaced because of these natural variations.

BIFMA and ANSI Testing
First Office is a member of the Business and Institutional Furniture Manufacturer's Association. Tests developed by BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of casegoods and seating in its everyday use. Although this testing does not serve as a warranty or guarantee, First Office products within this price list generally meet or exceed applicable BIFMA and ANSI standards.

Flexibility and Customization:
STAKS®, as a wood-based product, inherently accommodates custom fit needs. Spine Wall Panels, Divider Wall Panels, Worksurfaces, and Storage can be sized for specific applications and field conditions. Furthermore, First Office is an OFS Brands Company with accessibility to a vertically integrated internal supply chain providing a breadth of solutions from the most general modifications to specialized customs. We embrace the custom needs of our customers whether the request pertains to one configuration or an entire project application. The First Office STAKS® Project Team will assist with all requests to accommodate specific applications.

Optional Wire Management Access Cutout (factory installed):
Cutouts for wall receptacle accessibility. Available on back support panels. Specify the location of cutout on back support panel. It cannot be located closer than 3" from any edge.

Tackboard Fabrics:
All First Office carded fabric patterns **except Vinyls and Leathers** are preapproved for tackboard application (see First Office Casegoods, Tables & Collaborative, Education and Seating Price List for patterns and colors). A complete list of fabrics that have been tested for tackboard application can be accessed at www.firstoffice.com · Design Resources · Materials · Tackboards: Available, Not Available. Each fabric pattern and vendor is listed with a "YES" or "NO" for approval. If your selected fabric is not on the list, please contact your STAKS® Project Spec Analyst for approval.

Locking Information

Specific Key Options:
Requirements for specific key options by office must be specified on the purchase order at the time the order is placed. Model Numbers with specific key options will specify option "NM" for locking option on the acknowledgment. A separate line item will be listed on the acknowledgment as "LOCK CORE SET." Specific lock cores and keys will be sent separately (see **Field Installation** below).

Locking Option:
An optional locking system is also available for use in all STAKS® storage towers and pedestals through **StealthLock®**, an innovative keyless cabinet locking system operated by radio frequency technology. One transmitter pad operates single or multiple receiver latches within a 15 foot range, with separate and programmable user and supervisor codes, and is user programmable with optional modes of operation for single use or self lock. See your STAKS® Design Team or Project Spec Analyst for assistance in pricing this option.

Field Installation:
Blank lock cores are installed at factory, allowing specific lock numbers to be ordered but shipped in a separate package for field installation. Lock Core Order Form (see page 12) **must be filled out and submitted** with the purchase order. Lock core/key numbers 100 through 150 are available.

For quantity of locks per unit, please visit www.firstoffice.com and select Resources.Forms & Guides.Lock Core Guide.

Re-keying in the Field:
Lock cores and keys can be purchased separately. The purchase order must specify quantity, key number(s), and color of the core (available in nickel or black). Key numbers above number 150 are not stocked and may require a 2-week lead time. Orders ship standard UPS ground.

Note: A lock core change tool must be ordered for lock cores that will be re-keyed in the field.

SPECIFICATION NOTES:
Solid color TFL laminates can be used with any of the above selections on options within the same unit (doors, drawers, shelves).

Flat Cut grain TFL and HPL laminates do not have quartered veneer patterns and therefore, we recommend use with solid color TFL laminates. Flat Cut patterns should not be used with quartered veneer finishes.

HPL's available on worksurfaces only.

Basic Overview: Space Division, Add-Ons and Accessories

- 48”, 42”, or 33” high panels range from 24”– 59” widths.
- Clean seam connector system™ provides a simplistic installation with pins and pass through clips, resulting in concealed panel connections for spine and divider wall panels. Clean seam connector kits are available in 10 versatile panel configurations.
- Transaction shelves available to provide a quick transition to reception applications. Installed using press fit brackets without defacing spine or divider walls.
- 42” and 33” high panels deliver personal privacy yet encourages collaboration with ideal sightlines, meeting LEED IEQ requirements for seated height views. (48” high panels available)
- Press fit bracket and saddle brackets are both available in polished aluminum and 8 powder coat colors.
- Single slat toolrail is to be used with slat rail accessories only.
- Triple slat toolrail is to be used with a slat rail mounted monitor arm along with slat rail accessories.

WORKSURFACES, SUPPORTS, AND ADD-ONS

Rectangular Worksurface – 22" Depth

Features:
For worksurface or low height applications
Short Grain

Notes:
Square edge standard
Optional top material, edge finish combinations (see page 90 for availability)
Optional grommets
Optional power cutout location selections
Tops over 59.5" wide not available in TFL or HPL
Tops over 48" wide not available in 3D Laminate

Worksurface straightener should be specified to use when span of unsupported worksurface is greater then 48" (See page 289)

Highback Organizers and Multi Highback Organizers

When selecting fabric-only tackboards, specify tackboard by model number (see page 164 for highback organizers and page 171 for multi highback organizers).

Toolrails and tackboards with markerboard and/or toolrail configurations must be assembled and installed in highback organizers and multi highback organizers at the factory. Markerboards are available in white or silver. Specify the appropriate option.

- Single slat toolrail is to be used with slat rail accessories only.
- Triple slat toolrail is to be used with a slat rail mounted monitor arm along with slat rail accessories.

Basic Overview: Worksurfaces, Supports, and Add-Ons

- Rectangular benching configurations available in 96", 120" 144", 180", 192", 216", 240", and 288" sizes.
- Tri and quad cluster configurations available.
- Worksurfaces available in TFL, HPL, 3D laminate or wood veneer. Refer to pages 239 –241 of this pricer for a complete listing.
- STAKS® metal leg supports worksurfaces and facilitates the creation of a lighter scale furniture design.
- Metal base components are available in 8 powder coat colors.
- Worksurface privacy panel creates division between users within same workstation and is available in TFL, veneer, acrylic, 3form, Lumicor, glass, dry erase laminates, or tackboards.
- Floor storage units provide additional storage and space division, as well as provide seating for impromptu meetings.
- Above surface storage units provide additional storage space while also creating a visual barrier between users.
- Electrical components are easily attached to the underside of toolrails for easy electrical access for each user.
- Wire baskets allow for easy management of electrical wiring and data cabling.

Basic Overview: Brackets

- Starter wall posts attach spine or divider wall panels directly to interior building wall.
- Worksurface to storage bracket connects only worksurface height or low height worksurface to storage towers.
- Clamp plate adjoins two worksurfaces at seam on underneath side of worksurface.
- Worksurface privacy panel bracket clamps on worksurface and supports privacy panels for division of space between users.
- Worksurface edge modesty bracket clamps on front edge of worksurface to support modesty panel above and below the worksurface, providing personal privacy in a collaborative environment.
- Cantilever brackets or concealed cantilever brackets can be used on unsupported worksurfaces of 48" or greater where pedestals are not utilized for support.
- Worksurfaces are cantilevered from spine and divider wall panels to maximize leg clearance and assist in channeling cable management providing 1.5" gap between worksurfaces and spine and divider wall panels.

Basic Overview: Electrical

STAKS® offers a variety of optional power and data accessories including Grommets, Retractable Supplies, and Power/Data Centers.

Power/Data Centers contain duplex receptacles and preinstalled blank data port inserts for switching out in the field. Voice and data RJ-11 and RJ-45 modules can be ordered to replace the preinstalled blank data ports in the field.

STAKS® offers 3 simple UL listed electrical systems based on a customer's need:

1. A 4-wire, 2 circuit system, providing a cost effective solution with the flexibility of quick reconfigurability
2. An 8-wire, 4 circuit system offering more load and ground capabilities
3. A fully enclosed system with all power and data laid in a secure channel. Contact your STAKS® Project Spec Analyst to coordinate high level security for data and electrical

- Both systems support STAKS® Power/Data Centers in single circuit, multi-circuit or stand alone applications while providing immediate access at the worksurface. STAKS® also cleanly manages wires and cabling away from work areas through a variety of accessory options.
- Wire management is designed to pass through spine or divider wall panels, behind storage pedestals, and under work surfaces for maximum concealment and easy access for the user.
