Request for Quotes

Student Assessment Software Package – Including Benchmark Assessments and Instructional Assessments with Data Tracking Capabilities

Overview

1. **Introduction:** The Leake County School District is located in Carthage, MS 39051. School facilities consist of five school-wide Title I schools and one central office. The district has approximately 2,500 students. The overall accountability rating for the school district is a “C”.
2. **Goal and Purpose of RFQ:** The district is requesting quotes for a software package that will: allow teachers to choose items from a test bank to create teacher-made assessments; track student assessment data and predict student results; provide benchmark assessments to mirror state assessments. The product should also include learning paths and follow-up assignments for students with teacher resources. In addition, this program should be aligned/correlated to the Mississippi College and Career Readiness Standards. [Strategic Plan Goal II: Improve Student Achievement through a Rigorous and Relevant Curriculum; Objective A: Implementation of MS College and Career State Standards and High Stakes Assessments]
3. **Proposal Requirements and Project Scope for:** Leake Central Elementary School, Leake Central Jr. High, Leake Central High School, Leake County Elementary School, and Leake County High School.
4. **Service Specifications and Provisions:**
The program must adhere to, align with, and provide the following:
 - * provide an online test bank of assessment items for teacher-created assessments
 - * provide a software platform for creating and administering student assessments online
 - * indicate a correlation of test items to the Mississippi College and Career Readiness Standards
 - * track student assessment data in the areas of English Language Arts, Mathematics, History and Science
 - * provide benchmark assessments for each semester for 2nd-8th grade ELA & Math, English II, Algebra
 - * integrate state testing data for tracking and predicting student data
 - * assist the schools’ and district leadership teams in using assessment data to include state, school, district data, or other sources to help facilitate consistent data meetings
 - * provide reports such as diagnostic, growth, proficiency, and predictability reports
 - * provide supplemental software enhancements to drive student instruction

- * provide lesson plan activities for individual students and student groups
- * provide professional development as needed (virtual, on-demand, or in-person)
- * must have capability to link and sync with SAM

5. Pricing/quotes/specifications: The district is requesting quotes for a student data management dashboard for all 5 campuses for the student enrollment population of approximately 2,500.
