

**REQUEST FOR PROPOSALS
TO PROVIDE CONSTRUCTION MANAGEMENT AT RISK (CMAR) SERVICES**

JXN Water is issuing a Request for Proposals to provide Pre-Construction Phase and Construction Phase Services for future vertical assets and horizontal assets capital projects as a part of a Construction Manager at Risk (CMAR) and as authorized by JXN Water. The Projects contemplated consist of construction for vertical assets initially including water system assets such as water treatment plants (WTPs), water wells, water tanks, and water booster pump stations and sewer system assets such as wastewater treatment plants (WWTP) and lift stations. Horizontal assets projects will initially include rehabilitation, replacement, extension, and new buried assets such as water mains, gravity sewers, sewer force mains, manholes and related items.

To obtain Request for Proposal documents, send requests via e-mail to the attention of Jason Uyeda at Jason.uyeda@jacobs.com. JXN Water reserves the right to reject all submissions or any submissions not conforming to the intent and purpose of the Proposal Documents.
