Care and Maintenance

Periodic maintenance is necessary to ensure long term durability and customer satisfaction. All products should be closely inspected each month. If any item shows signs of structural failure it should be taken out of service immediately.

Fabric
Please follow specific manufacturing guidelines when cleaning fabric. Cleaning with an unapproved solution could damage the fabric.

Neglect is the most common cause of the premature breakdown of any upholstery fabrics. Problems occur as a result of inadequate removal of dirt, dust and grit which settles on the surface of the upholstery. If not removed, the dirt and grit will eventually penetrate the structure of the fabric. With further agitation, as a user sits on the upholstery, the dirt and grit will act like sandpaper wearing away and breaking fibers in the fabric structure. If enough fibers are broken, a hole will eventually form in the upholstery.

In the same way, pilling can occur. Pilling involves loose fibers migrating to the surface of the fabric, which with further agitation as a user sits on the chair, will curl up to form tiny bobbles of fiber. Although pilling can occur with well-maintained fabrics, it is well known that soiling agents can initiate and/or significantly accelerate pilling.

Leather
Please refer to manufacturer guidelines for conditioning and cleaning. Regular maintenance may be necessary every 3 months to keep the leather surfaces from peeling or cracking.

Plastic/felt feet
Need to be inspected and replaced if worn

Epoxy powder frames
Clean using a damp cloth with a mild solution of soap and water.

Chrome frames
Clean chrome with a good grade chrome cleaner to maintain a bright finish. Ocassionally chrome leakage can occur on products that have been just delivered. Wipe down with a chrome cleaner to eliminate this.

Table tops
Clean with a soft damp cloth and mild detergent solution. Do not use abbrasive cleaners.

Wood seating & tables
Wood is a natural product and owes its inherent beauty to the variations in color, texture, and grain which are not considered defects. Allermuir cannot guarentee the exact matching of colors between batches of wooden products, as wood naturally ages through time.

TFL & Laminates
TFL & Laminate tops are very resistant to normal office problems, such as tea or coffee stains. Simply wiping with a soft damp cloth will remove most stains. Should a stubborn problem arise, clean with a soft damp cloth and a mild detergent solution. Do not use abrasive cleaners. Cut back edges should be wiped with a dry cloth only.

Product Testing

Products have been extensively tested to exceed industry testing standards established by BIFMA. Products have been tested to meet or exceed the following standards as applicable:

ANSI/BIFMA x 5.4 – 2012
Lounge and Public Seating

ANSI/BIFMA x 5.4 – 2005
Lounge and Public Seating

ANSI/BIFMA x 5.1 – 2011
General Purpose Office Chairs

ANSI/BIMFA x 5.1 – 2017
General Purpose Office Chairs

Flammibility
All products meet California Technical Bulletin #117.

California Technical Bulletin 117
California Technical Bulletin 117, a mandatory standard, is both an open flame test and a smoldering cigarette test for the component materials, specifically foam and fill materials, as well as upholstery.

California Technical Bulletin 133
California Technical Bulletin 133 is a very severe open flame test, mandatory for furniture sold in what is called “public occupancies” in the state of California. It should be noted that several other states have adopted California Technical Bulletin 133 for the same occupancies in their states.

All purchase orders requesting CAL TB133 must clearly state whether the need is for TB133 compliance or certification.

CAL133 TB133 Certificate
Involves a full scale test and an additional 4 weeks is required on our standard lead time. The cost of this test is \$650 net. In addition you must purchase the unit in which you would like certified with the appropriate grade fabric. You will receive a full report documenting whether the unit has passed or failed certification. If passed you will also receive a compliance certificate.

Many Allermuir products comply with California TB133. Please contact customer service for a complete list of products.

The upcharge for this is as follows:
Chair/Barstool
- Seat \$60 list
- Seat & back \$100 list
