2017 Maxon Pricebook

Service You Can Depend On.

Value Without Compromise.

Maxon offers solution driven products designed to be versatile and cost-effective with the flexibility to change your work environment as your needs change. With a wide range of price points, features, and benefits that make sense, our quality products are manufactured with efficiency to assure that you are getting the right product at the right price.

Field Support.

Our extensive network of representatives are your partners in selling Maxon products. They will keep you informed about new products and programs, conduct training for new salespeople, offer space planning services and assist you with generating leads.

Space Planning.

All Maxon products are fully supported by industry design programs for easy specification by dealers, representatives, and our in-the-field Sales Solutions Representatives.

Freight Program.

Maxon pays freight for orders that exceed $8,000 list value on the Maxon Dealer Program, which applies to freight destinations within the 48 contiguous states. For shipments outside the 48 contiguous states, The Company pays freight to the freight forwarder or to the point of embarkation. Please refer to the Maxon Terms and Conditions for complete freight program details.

Products You Can Trust.

EMERGE™ | Frame and Tile Panel System

EMERGE frame and tile solution offers extreme flexibility, whether you work collaboratively or need individual focus, EMERGE supports your work environment needs. With its refined design details, you can keep it basic or dress it up. The lower panels and frameless glass provide an open, naturally lit workspace that inspires. EMERGE is built to last with steel panels that stand up to years of use and numerous reconfigurations. It can also be paired with other Maxon products to create beautiful, functional spaces that look as good as they work.

PREFIX® | Monolithic Panel System

Office furniture should be easy and affordable without compromising quality. Enhanced for 2016, PREFIX delivers on the goal that every budget deserves durable, flexible furniture. Two-inch thick raceway panels are available in tackable and non-tackable fabric with frameless glass, glass inserts or glass or fabric stackers. Variable height panels allow for almost any configuration from a private office to a benching application. Mix PREFIX panels with our SURPASS worksurfaces for even more flexibility in your office.

SURPASS® | Desking System

SURPASS is a freestanding desking system designed to embrace the open office and add creativity to your benching needs. Easy to order and easy to use, SURPASS offers the most requested worksurface shapes and sizes. Choose your worksurface along with finishes and then choose the appropriate support. All the support that SURPASS worksurfaces need, such as panel legs, modesty panels and hardware, are all sold separately. Add accessories like hutches, screens, stand-alone storage and tool rails and you're done. SURPASS is also designed for value, giving you a great looking office without breaking the budget.

Prices effective January 1, 2017. Information in this pricebook is accurate as of January 1, 2017.
The pricebook is updated quarterly. Go to www.MaxonEdge.com to find the most current pricing information in the electronic pricebook.
Information is updated monthly in CAD and GIZA. Maxon recommends updating 20-20 Technologies software every month.

Ordering Checklist

Use the following checklist to process your next order through Maxon more quickly and efficiently. Please copy this form for future use.

☐ Maxon Account Number

☐ Maxon Model Number

☐ Fabric Code

☐ Laminate Code / Edge Color

☐ Paint Color

☐ Purchase Order Number and Price

☐ List and Net Price

☐ Complete Ship-To Address

☐ Clearly state Special Instructions
(i.e. Expedite Production Request, Carrier, Advance Delivery Notification, Side Marks)

☐ **Maxon Bid Number must accompany purchase orders to receive negotiated discount**
(If Applicable)

☐ Special Component Requests (ex. SPLM/COMF/COML Number)
(If Applicable)

☐ Submit your orders on Maxon Edge (click on the e-Ordering Icon, featured on the homepage)

☐ Send any questions to orderservices@maxonmail.com

☐ **Review the email or faxed acknowledgement within 24 hours**

☐ Advise Maxon of any error immediately

Prices are subject to change without notice. All orders are subject to the prices in effect at the time of order acknowledgement. If applicable, freight is added at time of order entry. Orders acknowledged prior to effective date of price adjustment are billed at the acknowledged price if shipped within normal leadtimes. If late shipment occurs due to customer request to delay or an extended leadtime is requested, the order may be re-priced.

Maxon® Limited Lifetime Warranty

Why the Maxon Limited Lifetime Warranty?
Maxon Furniture Inc. is dedicated to providing products and services that make doing business with us easy. We also strive to put our customers in a position to win with the performance products we produce, most of which are manufactured right here in the United States of America. We use manufacturing materials, recycling habits, lean processes and indoor air quality methodologies that reaffirm our say-do commitment to your enviornment. We a proud to say many of Maxon's product lines (EMERGE, PREFIX, SURPASS & INCLUDE) are SCS Indoor Advantage Gold certified as well as Level certified by BIFMA's Sustainability Program.

Best of all, Maxon Furniture Inc. fully stands behind our products and have a vested interest in your success. The Maxon Limited Lifetime Warranty is our assurance to you that the Maxon Furniture Inc. panel systems, frame and tile systems, worksurfaces, desks, seating, tables, and storage you purchase will be free from defective material or workmanship for as long as you, the original purchaser, own it. In the unlikely occurrence any Maxon Furniture Inc. product covered by the Maxon Limited Lifetime Warranty shall fail, we will repair or replace any Maxon product or component that fails under normal commercial office use, free of charge. This warranty contains your sole and exclusive remedy for any warranty claim and is subject to the limitations, exclusions and other provisions set forth below.

What is covered by the Maxon Limited Lifetime Warranty?
All Maxon Furniture Inc. product lines, materials, and components are covered by the Maxon Limited Lifetime Warranty except for the items described below. The specific product lines listed below are covered under Maxon's 12-Year Limited Warranty and 5-Year Limited Warranties from the date of purchase.

Maxon 12-Year Limited Warranty
•   Electrical components (lamps and ballasts are not covered).
•   Non-Northport series seating controls.
•   Accessories.
•   Laminate surfaces.

Maxon 5-Year Limited Warranty
•   Northport seating.
•   Panel and seating textiles.

What is Not Covered?
This warranty does not apply to:
•   Normal wear-and-tear, which is to be expected over the course of ownership.
•   Damage caused by carrier in-transit, which will be handled under separate terms.
•   Modifications or attachments to the product that are not approved by Maxon Furniture Inc.
•   Products not installed, used, or maintained in accordance with product instructions and warnings.
•   Products used for personal or household use or for rental purposes.
•   Customer's Own Material (COM) selected by and used at the request of the owner.

Seating Usage
Normal commercial office usage for seating is defined as the equivalent of a single shift, 40-hour workweek. To the extent that a seating product is used in a manner exceeding this, the applicable warranty period will be reduced in a pro-rata manner.

To Obtain Service Under This Warranty
Your Maxon Dealer is our partner in supporting your warranty requests. Follow the procedures outlined below for the best level of service:

Contact your Dealer from whom the product was purchased within 30 days of discovery of the defect. Be prepared to affirm you are the original purchaser of the product and to provide the serial numbers (s) from the product in question.

Your Dealer will gather all pertinent information regarding the claim, inspect the product and contact Maxon Furniture Inc. Customer Support representative. (Please allow a reasonable amount of time for inspection and review.)

If Maxon Furniture Inc. affirms that the product in question is eligible under the conditions of the warranty as stated above, the Customer Support representative or other representative of Maxon Furniture Inc. will determine whether to provide replacement parts, authorize repairs, or replace the product.

This warranty applies only to products sold within the United States of America and the Commonwealth of Canada.

Fabric and Finishes

Maxon's Fabric and Finish program provides you options for coordinated finishes easily and creating a custom palette reflecting your own vision. You can choose your finishes considering different price grades and aesthetic options.

Create Your Own Vision
Our finish program allows you to select your finishes in the following categories:
- Panel Fabrics
  - · Maxon Core Fabrics (Grades A & B)
  - · COM Fabrics
- Paint Finishes
  - · Maxon Core Paints
  - · Maxon Premium Paints
- High-Pressure Laminate Finishes (for worksurfaces & vertical surface options)
  - · Maxon Core(C) and Wilsonart The Standards
  - · Edgeband (E) in Solid and Woodgrain as well as T-Mold (T) edge options to match Maxon Core Paint offerings
- Glass Finishes
  - · Clear and Frosted Glass
- Upholstery Fabrics

Some fabrics are directional due to their weave. **All Maxon fabrics are now railroad.**
Please see the following pages for details on applications and pricing structure of applicable finish grades.
Core and Premium Paint Finish Options

Paint Finish Options

Maxon Furniture Inc. offers durable paint finish options to meet your pricing, timeline and design needs. Core paint finish options include Black, Flint, Loft, Griege, Brownstone, and Muslin. Premium paint finish options include Gunmetal, Champagne, Platinum and White on the Maxon standard leadtime program. Please reference the premium paint finish upcharge chart for details per product category.

Premium Paint Finish Upcharges

Premium paint upcharges apply on a per model basis in list dollars.

- PREFIX and EMERGE Panels, Frames and Doors. $51
- PREFIX and EMERGE Panel Connectors and Power Poles $26
- EMERGE Glass, Steel and Laminate tiles $51

High Pressure Laminate (HPL) Finish Options

Maxon Furniture Inc. offers a contemporary selection of high-pressure Wilsonart® Laminate options on our panel system worksurfaces, vertical surfaces, as well as on our freestanding desking systems.

For additional laminate options, Wilsonart® offers "The Standards" on the open-line wallboard. "The Standards" laminates, in #60, #07 and #38 finish only, are available at an approximate 6% upcharge on the Maxon Standard Leadtime Program. These need to be submitted as a special. Please specify models specific to Panel Systems or Wall Mount applications. All other Wilsonart® laminate requests will be evaluated through the COM process and will be subject to a quoted price and leadtime.

When selecting laminate colors, verify an actual color chip to optimize accuracy in design and color. To view the complete Wilsonart laminate collection or to order samples, visit www.wilsonartcontract.com or call your Maxon representative for information on receiving a sample.

Wilsonart® Laminates are available in non-directional and directional patterns as noted on the Laminate Reference Guide on the following page. Directional laminate grain patterns will be assembled to run diagonally along worksurface on all corner applications as shown within the worksurface and desking sections.

Type	Description	Code
Pattern	Sheer Mesh	W4876-38
	Silver Mesh	W13056-38
Solid	Frosty White	W1573-60
	Loft	W15034-60
	Flint	W10592-38
Woodgrain	Amber Cherry	W7919K-7
	Beigewood	W7850-60
	Bourbon Cherry	W11034K-07
	Cognac	W7924K-07
	Columbian Walnut	W7943-07
	Harvest	W7953-38
	Mocha	W11121-07
	Natural Maple	W11021-38
	Pinnacle	W7992-38
	Shaker Cherry	W7935-07

Grey cells represent Directional Laminate Pattern

Worksurface Edge Options

Worksurface Edge options are available in Edgeband (E) and T-Mold (T) styles, as applicable for each product line. You must specify the model number applicable to the style of edge desired before selecting the edge color. For example, when specifying a 24"D x 60" W rectangular worksurface with T-Mold style edge; specify M-UWR2460**T** followed by the laminate color and edge selection.

Worksurface Edge Colors

Worksurface Edge Colors are designed to coordinate with paint and laminate finishes. For variety you can specify an edge color that contrasts with the laminate finish.

	Color	Edgeband	T-Mold
Solid	Black	MEBL	MTBL
	Flint	MEE9	MTE9
	Loft	MEEV	MTEV
	Griege	MET5	MTT5
	Brownstone	ME7D	MT7D
	Muslin	MET3	MTT3
	Platinum	MEPL	MTPL
	White	MEWT	MTWT
Wood Grain	Amber Cherry	MEAC	MTAC
	Beigewood	MEDE	MTME
	Bourbon Cherry	MEDH	MTDH
	Cognac	MECN	MTCN
	Columbian Walnut	MEDZ	MTMZ
	Harvest	MEHM	MTHM
	Mocha	MEMH	MTMH
	Natural Maple	MEWD	MTWD
	Pinnacle	MEPC	MTPC
	Shaker Cherry	MEDF	MTMF

Grommet Colors (SURPASS only)

Grommet colors are pre-selected based on the specified Edgeband or T-Mold color per the table below.

Edgeband or T-Mold Color Code	Grommet Color	Edgeband or T-Mold Color Code	Grommet Color
MEBL / MTBL (Black)	Black	MEDZ/MTMZ (Columbian Walnut)	Black
MEE9/MTE9 (Flint)	Flint	MEDF/MTMF (Shaker)	Black
MEEV/MTEV (Loft)	Loft	MEDE/MTME (Beigewood)	Muslin
MET5/MTT5 (Griege)	Muslin	MEWD/MTWD (Natural Maple)	Muslin
ME7D/MT7D (Brownstone)	Brownstone	MEAC/MTAC (Amber Cherry)	Black
MET3 / MTT3 (Muslin)	Muslin	MEHM/MTHM (Harvest)	Black
MEPL / MTPL (Platinum)	Loft	MEDH/MTDH (Bourbon Cherry)	Black
MEWT / MTWT (White)	White	MECN/MTCN (Cognac)	Black
		MEPC/MTPC (Pinnacle)	Black
		MEMH/MTMH (Mocha)	Black

Customer's Own Material (COM)

Specials and Customers Own Material (COM) Program

- Maxon Furniture Inc., at its own discretion, may modify its standard products to meet specific needs. Modifications include Customer's Own Material (COM) for seating, panels, special finishes (paints), laminates, and structural modification to existing standard product.

- Changes or alterations to catalog items other than standard options are subject to additional charges. Prices are furnished upon request. Direct all requests to your Maxon Sales Solution Representative (SSR).

- Maxon assumes no responsibility for the overall appearance, flammability, normal durability, colorfastness or any other quality standards. Maxon reserves the right to reject a COM if the quality of the COM is not, in Maxon's sole judgment, satisfactory for the product. Should this occur, the customer would be notified with an explanation within 2 working days of test completion.

- Maxon is not responsible for fabric that has become obsolete at the COM Supplier, that is of poor quality, or that is delivered late to the manufacturer from the COM Supplier.

- All cancellations or changes to COM orders are subject to Maxon's LOCD guidelines (Last Order Change Date). Because of the nature of COM, special fabrics, finishes, and structural modifications, products ordered as specials and then cancelled prior to shipment are subject to cancellation costs up to the full value of the product cancelled. Maxon determines the actual cancellation charge at the time the cancellation is requested. Upon approval, a cancellation confirmation fax or e-mail is issued to The Customer.

- COM for panel applications must be in rolls of 66" wide or wider. Excess yardage is disposed of at the discretion of Maxon Furniture.

- Due to UL testing requirements COM panel fabric requests may require up to eight weeks for approval, pending the completion of the third party testing requirements.

COM Testing: Manufacturing Feasibility

- Purchase orders are not accepted or entered unless manufacturing feasibility testing is complete with positive results.

- If all testing has been previously completed, re-testing is only necessary if The Customer's material is to be used on a different product family or if a fabric direction has changed from that previously approved. COM testing requires 7 working days from receipt of the Customer material by Maxon.

- If the COM has not been tested and approved, it is the responsibility of the Customer to provide the Customer Support Department with the COM supplier name, fabric pattern name, and color. The Customer may call Customer Support department for previous test results.

Panel Fabric (COMF)

Considerations:

- All COM requests for special fabric must be tested and approved by Maxon Furniture Inc.
- Directional fabrics are only applied on panels up to 60" wide.
- Lead time of 15 business days minimum.
- Refer to warranty and Terms and Conditions for COM limitations.

Process for Pre-Approved Fabrics

- Call Customer Support (800-876-4274) to see if requested fabric is pre-approved and for pricing information. Maxon will purchase the fabric whenever possible.

Process for Special Fabrics

- Provide fabric supplier, pattern, color, and orientation information to your Maxon representative or Customer Support. Maxon will obtain test samples whenever possible.
- Maxon will notify you of test results and provide a COM code and price grade if Maxon supplies the fabric.
- Allow up to 10 business days for initial testing and approval, after Maxon receives the initial 5 yards of test fabric.
- Fabrics requiring UL approval may increase testing time and may require additional fabric.
- Maxon reserves the right to determine if the fabric is to be purchased by Maxon or The Customer.
    - If Maxon purchases the fabric, Customer Support will provide pricing once testing is complete.
    - If the customer provides the fabric, The Customer will be charged Grade B pricing.
- If supplied by customer, Maxon must receive the approved fabric at least 10 days prior to the start up of production.
    - The fabric must be labeled with the dealership name, purchase order number, COMF number and COM Data Sheet to ensure proper handling.
    - As we manufacture our product in a variety of locations, call Customer Support for appropriate shipping address.
- These orders cannot be cancelled, nor will Maxon accept a product return.

Please ship COM fabric for ORDERS to:

HNI Fabric Distribution Center - Dealer PO Number
COM Production Yardage
Docks 2-4
3000 University Drive
Muscatine, IA 52761

Please ship COM fabric for TESTING to:

Maxon Furniture Inc.
Attn: COM Test Fabric or COM Dept.
Dock Doors 46-48
3000 North Highway 61
Muscatine, IA 52761

Upholstery (COMF)

Considerations:
▪ All COM requests for special upholstery must be tested and approved by Maxon Furniture Inc.
   ▪ COM requests are only available on Pedestals. The Northport Seating Series does not allow for COM requests.

▪ COM orders are not available on QuickShip. Lead time of 15 business days minimum.

▪ Refer to warranty and terms and conditions for COM limitations.

Process for Pre-Approved Upholstery

▪ Call Maxon Customer Support (800-876-4274) to see if requested upholstery is pre-approved and for pricing information. Maxon will purchase the upholstery whenever possible.

Process for Special Upholstery

▪ Provide upholstery supplier, pattern, color, and orientation information to your Maxon representative or Customer Support. Maxon will obtain test samples whenever possible

▪ Maxon will notify you of testing results, COM code and price grade if Maxon supplies the upholstery.

▪ Allow up to 10 business days for initial testing and approval, after Maxon receives the initial test upholstery.

▪ Maxon reserves the right to determine if the upholstery is to be purchased by Maxon or the customer.

▪ If Maxon purchases the upholstery, Customer Support will provide pricing once testing is completed.

▪ If the customer provides the upholstery, the customer will be charged Grade B pricing.

▪ Maxon must receive the approved upholstery at least 10 days prior to start up of production, if supplied by the customer.

▪ If the customer supplies upholstery, the upholstery must be labeled with the dealership name and Purchase Order number to ensure proper handling. Dealer must provide Customer Support with the tracking information on COM upholstery being sent to Maxon.

▪ These orders cannot be cancelled, nor will Maxon accept a product return.

T-Mold/Edgeband (COM)
▪ Custom edge treatments are not available.

Laminates (COML)

Maxon Furniture Inc. must approve all COML requests for specialty laminates. The order process is as follows:

▪ For requests concerning or specialty laminate, please contact your Maxon representative to request a COML.

▪ The evaluation of requests will take no longer than 3 business days.

▪ Maxon will contact vendor to verify availability and lead times.

▪ If the request is approved, Customer Support will contact you with pricing and leadtimes.

▪ If the request is denied, work with your Sales Solutions Representative (SSR) for alternatives.

Special Product/Component Request

Due to Maxon's flexible manufacturing, we are able to provide specially sized products. The feasibility of the requests depends on the degree of changes needed in design, testing, materials and tooling.

- Contact your Maxon representative with the special component request.
- Your Maxon representative will review the request. Maxon will determine if it is an established special and if so provide pricing.
- Your Maxon representative will submit a special for internal approval and pricing. Most internal reviews will be completed within 3 business days of submittal.
- If the special request is denied, your representative will notify the customer and suggest other alternatives.
- Customer will be notified of approved products with a special request # for ordering. This number must be referenced on purchase orders.
- Special request quotes are valid for 6 months only.
- Standard lead time for all special requests is at least 15 business days.
- All special orders require a written purchase order.
- These orders cannot be cancelled, nor will Maxon accept a product return.

Custom Warranty Exclusions

If Maxon Furniture Inc. agrees to use the COM or build a custom product:

- Maxon shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the COM, regardless of whether or not Maxon has tested the COM, and whether or not the COM has passed any Manufacturing Feasibility testing. Maxon disclaims all warranties, express, implied or statutory, with respect to the COM, including, without limitation, any implied warranties of MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, or NON-INFRINGEMENT.
- Maxon shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of a custom-built product, regardless of whether or not Maxon has tested the product, and whether or not the product has passed any Manufacturing Feasibility testing. Maxon disclaims all warranties, express, implied or statutory, with respect to the product, including, without limitation, any implied warranties of MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, or NON-INFRINGEMENT.
- Maxon shall have no liability for any damages, injuries, or losses to the Customer or to any third party that shall be caused by any COM or custom built product, and the Customer shall hold Maxon harmless from all liability.

Testing Requirements for Flame-Retardant Construction

- The Customer is responsible for ensuring that the COM fabric is certified to meet all applicable flame-retardant requirements. This may include UL testing, ANSI/BIFMA standards and certification at the Customer's expense. The Customer shall hold Maxon harmless from all liability arising out of the Customer's failure to ensure that COM fabric is certified to meet all applicable flame-retardant requirements.

Special Finish – Paint Requirements

- Maxon Furniture Inc. may be able to match unique paint colors, excluding metallic and whites. A sample of the exact color desired is required for approval. Each unique color or finish combination incurs a net price up-charge per color per order. A minimum quantity of twenty (20) major units is required per color, per order.

- Any other extraordinary paint color or other consideration is determined from the sample(s) and special request submitted by the customer. Sample paint colors must be submitted on a metal disk and sent to Maxon Customer Support. Upcharges and lead times are calculated at that time and communicated to the customer. A minimum quantity of twenty (20) major units is required per color, per order.

Modifications to Standard Product

- Requests for special modifications to standard products require engineering evaluations and product safety review prior to approval. Contact your Maxon representative or Customer Support with the specific requirements.

Obsolete Product

- Obsolete products are no longer available for order. Requests for production of obsolete product should be investigated through Customer Support. Customer Support will coordinate with the appropriate Maxon departments to determine if the request can be met and will communicate applicable upcharges. Special orders of obsolete product cannot be cancelled or returned. Requests for service parts and warranty on obsolete products should be directed to Customer Support.

CARB Compliance Notice

Overview

The California Air Resources Board (CARB) has established limits on the emissions of formaldehyde from hardwood plywood, particle board, medium density fiberboard, thin medium density fiberboard, and finished goods containing these materials.

Effective January 1, 2009, hardwood plywood, particle board, medium density fiberboard, thin medium density fiberboard, and finished goods containing these materials must meet emissions limits given in title 17, California Code of Regulations section 93120.2. (refer to note below*)

All hardwood plywood, particle board, medium density fiberboard, thin medium density fiberboard, and finished goods containing these materials supplied to Maxon Furniture Inc. comply with the current requirements of the CARB regulation.

Note

CARB's rule includes a "sell-through provision", which allows for a timely clearing of existing inventories following the effective dates for Phase I and Phase II standards. For manufacturers of hardwood plywood, particleboard, medium density fiberboard, and thin density fiberboard 3 months sell-through period is provided. For distributors, a 5 month, and for importers a 3 month sell-through period is provided for hardwood plywood, particleboard, and medium density fiberboard, and thin medium density fiberboard manufactured before the Phase I and Phase II effective dates. An 18 month sell-through period is provided for distributors and importers of finished goods containing hardwood plywood, particleboard, medium density fiberboard, and thin medium density fiberboard.

How to Specify

There are a number of ways to specify Maxon Furniture product. This guide will show you the different dot option combinations for each area of product. If you have further questions, call Maxon Customer Support at 800-876-4274.

Previously, you may have seen a How to Specify section at the bottom of each page in the Maxon Pricebook (like the image below). We have created this section for an easy to find and accurate guide to specifying your product.

How To Specify:

Ordering Example:

FINISH OPTIONS:

item number | height | width | finish | fabric | paint

| M | - | P | F | X | B | - | 6 | 5 | 2 | 0 | F | P | . | A | P | N | 1 | 1 | . | M | P | B | L |
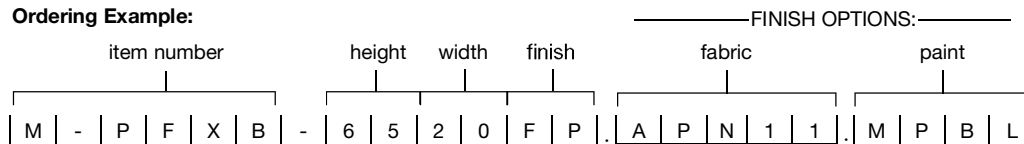

Dot Option Combination 1

- The following products have Dot Option Combination 1: EMERGE Frames, EMERGE Sliding Door, EMERGE Pass-Thru Tile, EMERGE Accessory Tile, Connectors, Trim, Top Caps, Duplexes, Power Poles, Overhead Storage, Accessories, Whiteboards, Worksurface Supports, SURPASS supports, SURPASS Hutches, and Freestanding Storage.

model number | paint

| M | - | | | | | . | | | | |
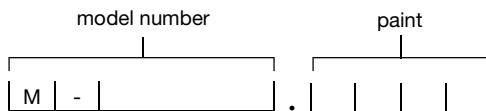

Dot Option Combination 2

- The following products have Dot Option Combination 2: EMERGE Technology Tiles.

model number | paint | fabric

| M | - | | | | | . | | | | | . | | | | |
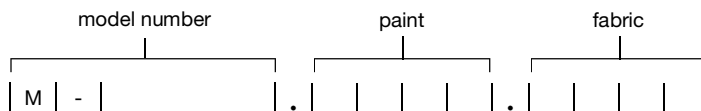

Dot Option Combination 3

- The following products have Dot Option Combination 3: Hinged Door and Laminate Tiles.

model number | paint | laminate

| M | - | | | | | . | | | | | . | | | | | | - | | |
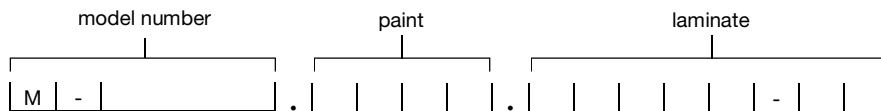

Dot Option Combination 4

- The following products have Dot Option Combination 4: EMERGE Countertops.

model number | paint | laminate | edge

| M | - | | | | | . | | | | | . | | | | | | - | | | . | | | | |

SURPASS Desking System

SURPASS freestanding desking offers solid construction with almost unlimited versatility and flexibility. You can build a private office, collaborative teaming station, benching solution or combine it with panels for more privacy. The heavy-duty steel construction and modular design means that SURPASS can be reconfigured as your needs change and still perform in any office environment. Available in all of Maxon's fabrics and finishes, SURPASS will look good long after it's installed and in use. And, of course, it's backed by the Limited Lifetime Warranty.

The double-wall construction of SURPASS support legs and steel modesty panels adds strength and durability throughout the system. Modesty panels are available with an optional sound-deadening insert, reducing ambient noise. Impact-resistant, high-pressure laminate worksurfaces with threaded-metal inserts can endure multiple reconfigurations, are strong enough to endure years of day-to-day use, and are available in a wide selection of colors and wood-grain patterns. A wide variety of desk shapes and sizes means you will find the right fit no matter what your needs.

SURPASS offers straight steel hutch options with top-mounted hinged doors. The hutch accepts tackboards, task lights and personal accessory rail components. Coordinating pedestal and lateral files, bookcases, storage towers and personal storage centers ensure the perfect solution for every storage need.

Features	Benefits
Finest quality worksurface construction.	Prevent warping and bowing while assuring years of use.
End panels constructed with foam core.	Provide strength, rigidity, and sound-absorption.
Electrical and data management options.	Strategically run power or data to where it is needed.
End panels, and bridging brackets work for right or left-hand applications.	Eases specification and installation.
Straight and corner steel hutches with top-mounted hinged doors or sliding acrylic doors.	Provide storage and space division.
Fabric and glass screens.	Allows collaboration while providing visual privacy.

Prices effective January 1, 2017. Information in this pricebook is accurate as of January 1, 2017. The pricebook is updated monthly. Go to www. MaxonEdge.com to find the most current pricing information in the electronic pricebook. Information is updated monthly in CAD and GIZA. Maxon recommends updating 20-20 Technologies software every month.

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

Working with SURPASS

End Panels **E** and Support Legs **L**
Each are available in two options: freestanding or panel-mount. The only difference between the two options are the panel-mount models come with a left- or right-handed bracket to attach the support to a panel in a SURPASS systems application. If the freestanding version is purchased and later needs to be converted to panel-mount, the proper handed panel-mount bracket may be purchased separately.

The 12"D end panel is used to freestand peninsulas, curvilinear shapes, and D-tops in panel applications.

Corner Desk Legs **C**
Corner desk legs have a 90-degree bend and welded construction. The strong construction allows gussets or half-height modesty panels to be used with corner legs.

Bridge Brackets **B**
Bridge brackets include: two flat brackets, two modesty panel-to-end panel attachment brackets, and two tie straps. This bracket is used when attaching a bridge unit between two rectangular worksurfaces.
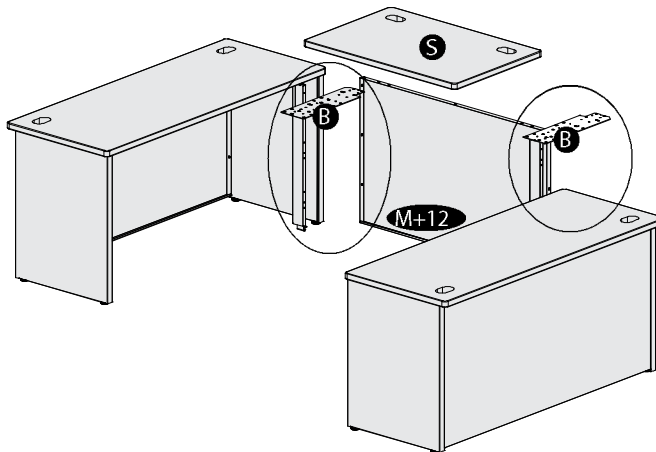

There are some bridge instances where only half of a bridge bracket is needed (e.g. using a bridge between a rectangular worksurface and a corner or peninsula). A return bracket may be ordered for these instances.

Surface **S**

Support Column **SC**
Support columns are used to support one end of curvilinear worksurfaces. Includes column, worksurface bracket M-MDPC29, attaching hardware, and adjustable glides.

Return Brackets **R**
Return brackets include: one flat bracket, one modesty panel-to-end panel attachment bracket, and one tie strap. These are used when attaching a return to a primary desk. Return brackets can also be used in some bridge applications — one example is shown below when using a peninsula.
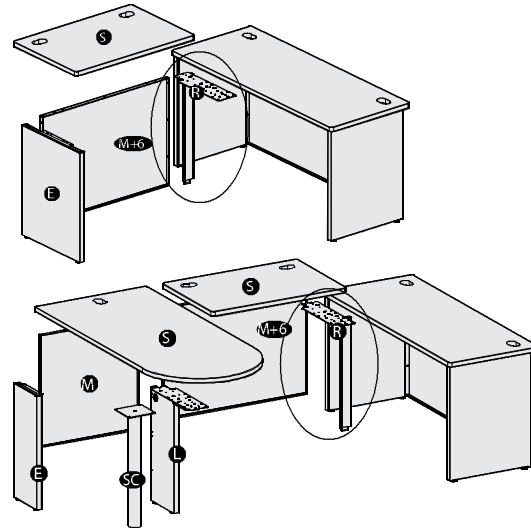

Desk-to-Panel Attachment Brackets **D**
Desk-to-panel attachment brackets are used to connect a worksurface and modesty panel perpendicular to a panel of corresponding width. Opposing end of worksurface must be attached with an end-panel, support leg, or corner leg mounted directly under this worksurface.

When using a corner or corner cove worksurface with the rear corner attached to a panel, and opposing end of worksurface is attached to a freestanding desk, use corner w/desk attachment bracket. Hand of unit is determined from the user's side of the desk (right hand unit attaches to right side of modesty).
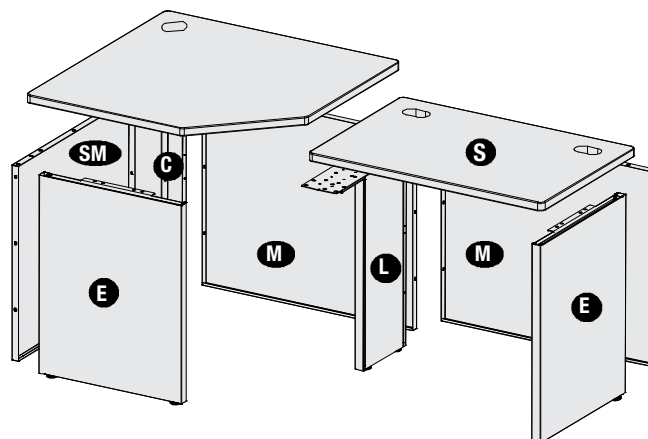

Corner with Desk Panel Attachment Bracket **CW**

Corner w/desk panel attachment bracket connects the rear corner of a corner or corner cove worksurface and modesty panel to a panel when the opposing end of the worksurface shares a support leg with an adjacent freestanding desk and the support leg is mounted under the freestanding desk. Hand of unit is determined from the user's side of the desk (left hand unit attaches to left side of modesty).

Corner with Desk
M-MDCWD29L

If no shared leg "L", use "D" not "CW", see previous page.
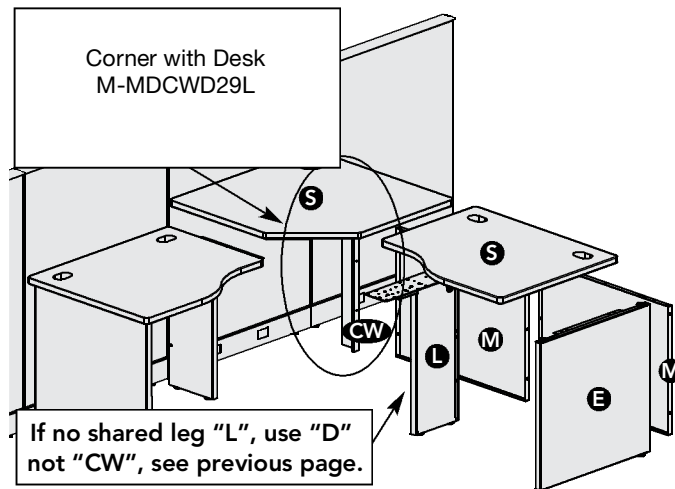

Corner Worksurfaces

Corner worksurfaces to accommodate 90-degree corner desk legs.

In-Line Connections of Desks

Freestanding full end panels must be used to support adjacent rectangular desks, corner desks, and corner desks with returns. Freestanding support legs should NOT be used at the in-line junction. You may use the shared C-Leg to replace the two end panels circled below. 24"D full end panels may be used at the in-line junction on 30"D rectangular desks if two worksurface tie straps are used to secure the desks together.
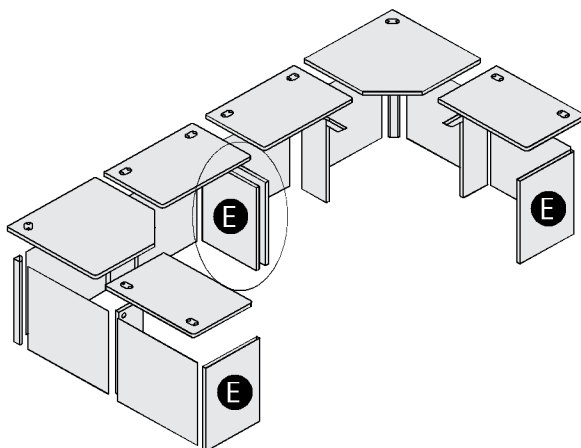

Pedestals and Storage

Pedestals must be ordered one size smaller than the depth of the worksurface. For example, 20"D peds should be used with 24"D worksurfaces. 20"D or 23"D pedestals can be used with 30"D worksurfaces. Using 18"D laterals or personal files provide additional pull style and storage options under 24"D worksurfaces.

Modesty Panels **M**

The following are some general guidelines for SURPASS modesty panels:

- Desk: Modesty panel width is the same width as the worksurface
- Return: Modesty panel width is M+6" greater than the width of the worksurface
- Bridge connecting two rectangular worksurfaces: Modesty panel width is M+12" greater than the width of the bridge worksurface
- Bridge connecting a rectangular worksurface and corner or peninsula: Modesty panel width is 6" greater than the width of the worksurface
- Corner connecting to an adjacent worksurface: Modesty panel width is the same width as the worksurface.

Stand-Alone Corner Modesty Panels **SM**

Stand-alone corner modesty panels are used only when one or both sides of a corner or corner cove worksurface are freestanding and NOT attached to another worksurface. Specify the width the same as the width of the worksurface.
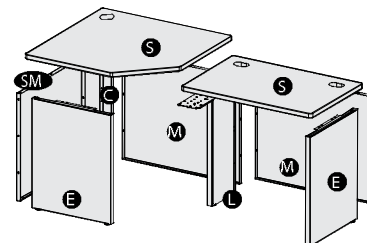

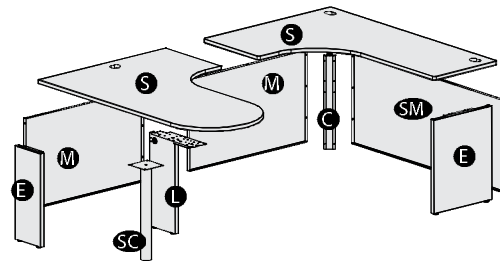

Gussets **G**

Gussets can be used in place of a modesty panel with desks 36"W to 60"W. Gussets can also be used with corner desk legs.

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

169
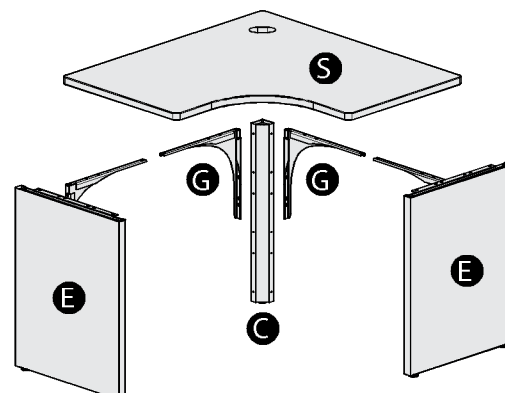

Working with SURPASS O-Legs

O-Leg Support O
Does not require additional support, such as modesty panel or gusset. Will only support the ends of edgebanded worksurfaces. Non-handed and comes fully assembled.
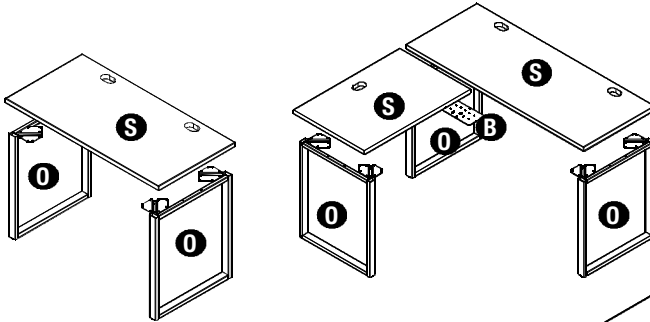

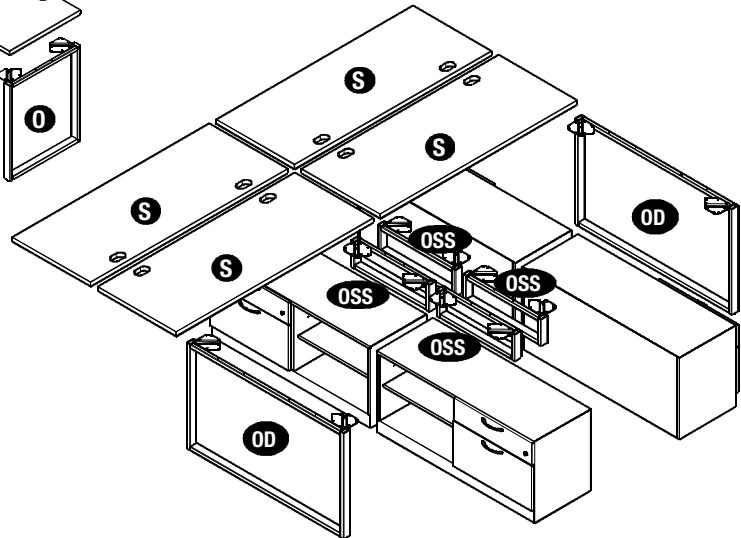

Double Depth O-Leg Support OD
Will support two edgebanded worksurfaces in a back-to-back benching application. No additional support is needed.

O-Leg Stanchion Support OSS
Only used on INCLUDE® low credenzas at the end of edgebanded worksurfaces.

Standing O-Leg Support SO
Supports worksurfaces at a standing height. Does not require additional support, such as modesty panel or gusset. Will only support the ends of edgebanded worksurfaces. Non-handed and comes fully assembled.

Standing Shared O-Leg Support SSO
The only difference between Standing Height O-Leg and Standing Shared O-Leg, is shared will span two edgebanded worksurfaces.

Surface S
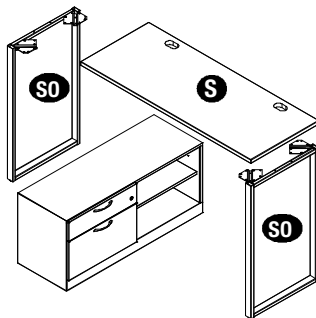

Shared O-Leg Support SOS
The only difference between O-Leg and Shared O-Leg, is shared will span two edgebanded worksurfaces.
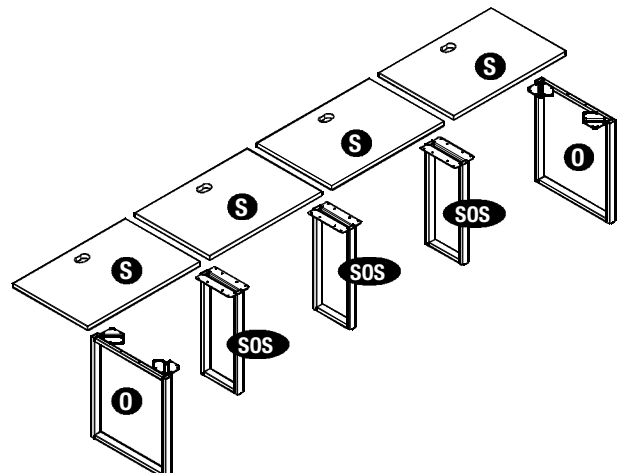

Shared C-Leg Support CS
Will span two worksurfaces. Modesty panels or gussets can be used in a freestanding application without additional support.
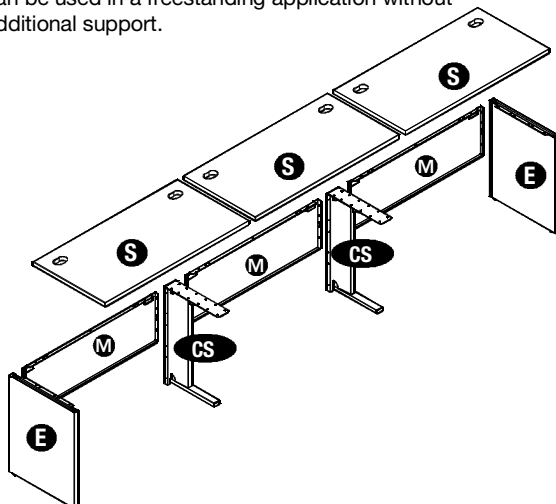

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

Worksurface Specifications

- Worksurfaces use 1.184" thick high-density particleboard.
- Top surfaces are high pressure laminate and the undersides have a moisture-resistant backing to prevent warping. Total thickness $1^{3/16}$".
- Desk shells are $29^{1/4}$" tall.
- Worksurfaces are available in T-Mold (with ½" radius corners) or Edgeband edge treatments (with a squared edge).
- Worksurfaces include $3^{1/2}$" x 2" rectangular grommets with caps.
- Worksurfaces include pre-installed metal inserts for end supports. Modesty panels attached with wood screws.
- Meets or exceeds all ANSI-BIFMA standards.
- List price shown applies to laminates listed on the Maxon Core Laminate Finishes Card.
- Grommet location 9" from the outer edge on surfaces 48" and greater on edgebanded rectangular worksurface only.

Corner Desk Specifications

- Straight Front Corners:
- M-UCS2436, M-UCS2442, M-UCS3042, and M-UCS3048 are represented by image (1).
- M-UCS2448, is represented by image (2).
- Radius Front Corners
- 11" radius on all corners.
- Grain direction runs diagonally along worksurface (directional laminates only).

Modesty Panel Specifications

▪ SURPASS modesty panels are constructed of two pieces of commercial grade steel.

▪ Modesty panels are available in full-height (27 $\frac{1}{2}$") and half-height (14") for access to wall electrical.

▪ For adequate clearance of files, specify storage component depths that are at least 6" less than the understructure depth.

## End Support and Bridging Bracket Specifications

▪ End panels and bridging brackets are symmetrical and may be used for right- or left-hand support at any time.

Storage Hutch Specifications

▪ Storage Hutches are 35$\frac{3}{4}$" high x 14" deep and, when installed, have a floor to top-of-hutch height of 65". The vertical side supports are constructed of 20 gauge formed steel. All hutches have a matching width, fully enclosed storage bin. Hutch bin bases and lids are constructed of 16 gauge formed steel. All points of connection in the assembly are steel-to-steel for added strength and durability.

▪ Storage Hutches may be ordered with an open back. Painted metal backs with a fabric surfaced tackboards are also available as an option. Backs and tackboards are also available for retrofit applications.

▪ SURPASS Hutches will accept task lights. Personal Accessory Rails are also available for use with the hutches to accommodate our complete line of paper management trays, bins, and other storage components.

▪ On 60"- 72" hutches, both hutch doors are automatically keyed alike. Beyond that, all pairs of keyed locks installed on hutch doors are randomly keyed, with no attempt to assure either the same or different keying between different hutch units.

▪ Hutch doors may be keyed-alike to match floor pedestal or lateral file lock. Refer to page 203 for details.

Rectangular Worksurface: Edgeband

Includes

- Rectangular Worksurface.

Notes

- Worksurfaces 72" or above require middle support unless specified with a modesty panel or external support channel.
- Grain direction runs along width (directional laminates only).
- Grommet location 9" from the outer edge on surfaces 48" and greater.
- **Add suffix "N" to a model number for no grommets, no upcharge. Example: M-MDWRE2424N**

PREPARE™

Maxon introduces PREPARE, our line of teaming and tasking tables. PREPARE means:

- Height adjustable tops and bases. A variety of rectangular worksurface sizes work with select base styles.
- Versatility. Use PREPARE as a single unit or specify tables together for conferencing needs. For conference tables, choose "X" or "T" style base. Teaming tables feature legs with castors, allowing them to move with the changes in your environment.
- Variety. Choose from a number of shapes and sizes to expand your worksurface areas.
- Harmony. PREPARE works well with Maxon systems; PREFIX, EMERGE and SURPASS.

All PREPARE tables offer:

- High pressure laminate (HPL) surfaces. Durability providing for extended performance and usage.
- Steel leg construction.

List prices include core paint and laminate options, offered with edgeband edge only.

Height-Adjustable Specification Information

Height-Adjustable Worksurfaces
- Height-adjustable worksurfaces are available in laminate with edgeband.
- Leg range height 27 ¾" - 47 ⅜"
- Worksurface dimensions are nominal. Actual widths are reduced by 2" (1" each side). Corner cove depth is nominal, actual is 1" less.
- PREPARE worksurfaces are pre-drilled with mounting location for bases.
- Any open span 60" and greater requires an external support channel. PREPARE corner cove and 66"-72"W rectangular worksurfaces include an external support channel.
- Rectangular worksurface grommet location is limited to center location due to mounting of worksurface supports at each end of the worksurface.
- Load capacity is 300 pounds for 2-leg models and 450 pounds for 3-leg model, including weight of worksurface.

Height-Adjustable Bases
- Electric height-adjustable base units are available in 2 styles: 2-Stage with C-Legs or 2-Stage C-Legs with 3 legs.
- 2-Stage models travel at 1 ½" per second. Motor devices have a continuous cycle time of 2 minutes with an 18 minute rest period before it can be cycled again.
- Control box is powered by 110-120V/60Hz/4A. Standby power is < 0.1 Watts. Power cords on C-Leg models are 10'.
- Pedestals taller than 24 ½" for C-leg models when placed under table will limit range in lowest position.
- Mobile box/file pedestals will clear feet on height adjustable base but will extend past edge of worksurface in that position.
- Moving worksurfaces can collide with other components. It is important to ensure free range of motion prior to operating the table.
- All tables have adjustable glides providing ⅛" adjustment on C-legs.
- The no crossbar design of the C-Leg exceeds knee clearance recommendations and provides optimal undersurface mounting capability.
- 2 Leg pulls 5 amps.
- 3 Leg pulls 8 amps.

Memory Controls
- Optional control box allows for 3 memory set user heights with C-Leg model.

Working with Wire Manager Covers

Wire Manager Covers safely conceal wires and cords to and from the storage compartment. One Wire Manager Cover accommodates up to three power cords and eight data cables to support three PVD Wedges. Cables should be placed side-by-side and be neatly organized to prevent overlapping. Cable quantities listed are at 60% fill ratio.
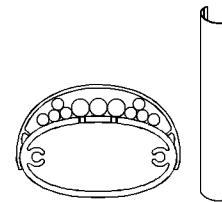

Cross-Sectional View of
Wire Manager Cover
Showing Capacity

Combine Table Surfaces and Base Finishes

Table tops are available in laminate and are available with Edgeband. Cast aluminum table bases are available with painted finishes.

PREPARE tables exceed BIFMA Standards and are backed by the Maxon limited lifetime warranty. Die-cast and extruded aluminum components are lightweight, yet highly durable.

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

Freestanding Storage

Maxon Freestanding Storage options incorporate innovative, durable designs that maximize the efficiency of your workspace. Constructed of heavy-duty steel, Maxon Freestanding Storage provides functionality, durability, and value. Our storage solutions are designed to be fully integrated with Maxon Panel and Desking systems.

Pedestal, Lateral File, & Personal Storage Options

- Pedestals and lateral files are available in two drawer front options: Recessed (R) full pulls or Arch Pull (A).
- All pedestals and lateral files are constructed of steel.
- Pedestals are available in Box/Box/File and File/File configurations in 20" and 24" depths, as well as stationary and mobile options.
- Two, three, four, and five drawer lateral files are available in 30", 36" and 42" widths.
- For safety purposes lateral files have an "Interlock" mechanism that prevents users from opening two file drawers at the same time.
- Storage towers, personal storage centers, storage cabinets, overfiles, and bookcases are also available.
- Refer to EMERGE and PREFIX sections for details on Panel hung overhead storage solutions.
- All Freestanding Storage options meets or exceeds ANSI/BIFMA standards.

	23"	■	■		■

Features	Benefits
Commercial-Grade Ball Bearing Slides	Pedestal and lateral box and file drawers utilize Grade A, all-metal ball bearing suspension for sturdiness and long life. Systems pedestal files feature all-metal ball bearing suspension for box and file drawers.
Variety	Floor pedestals are available in 2-box/1-file and 2-file configurations in 20" or 24" deep options, as well as stationary and mobile options.
Customizable	File drawers and lateral files accommodate both legal (side-to-side) and letter (front-to-back) file formats.
Interlock Drawer Mechanism	Lateral files include interlock drawer mechanisms to prevent opening two file/file drawers at the same time for safety purposes.
Key Alike Option	All pedestals and laterals have core removable key option and can be keyed alike. For key alike option, M-LC (page 246) must be ordered separately. and installed in the field. MK master keys are also available.

Prices effective January 4, 2016. Information in this pricebook is accurate as of January 4, 2016. The pricebook is updated monthly. Go to www. MaxonEdge.com to find the most current pricing information in the electronic pricebook. Information is updated monthly in CAD and GIZA. Maxon recommends updating 20-20 Technologies software every month.

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

Universal Systems & Desk Pedestal Files

Includes
- Pencil tray included in one box drawer.

Notes
- When used under a surface it **MUST** be mounted to the worksurface.
- Steel ball bearing suspension on 90% extension file drawers and ¾ extension box drawers.
- Not available in mobile.
- May be used as worksurfaces support in panel environment.
- Master keys are available. For key alike option, M-LC (page 246 must be ordered separately).
- Can be specified as free standing as long as you specify counterweight kit (M-ESPCW, see page 247).
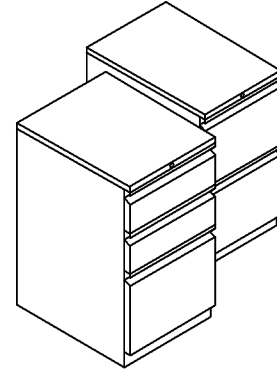

Shown in R-Pull

INCLUDE® Storage

Maxon INCLUDE Storage options incorporate innovative, durable designs that maximize the efficiency of your workspace. Constructed of heavy-duty steel, Maxon freestanding storage provides functionality, durability and value. Our storage solutions are designed to be fully integrated with Maxon panel and desking systems.

Low Credenza Options
- Available with in Arch Pull and R Pull
- Constructed of steel
- Come with box drawer on top, file drawer on bottom and are 18" deep
- Available in 36" (drawers only), 48" and 60" widths that will have one side with an open shelf
- "Interlock" mechanism that prevents users from opening both drawers at the same time
- All options meet or exceeds ANSI/BIFMA standards

Features	Benefits
Commercial-Grade Ball Bearing Slides	Low Credenza drawers utilize Grade A, all-metal ball bearing suspension for sturdiness and long life.
Variety	48" and 60" wide Low Credenzas have handed units with open shelf on side and box/file drawers on the other
Customizable	Low Credenzas accommodate both legal side-to-side) and letter (front-to-back) file formats.
Interlock Drawer Mechanism	Low Credenzas include interlock drawer mechanisms to prevent opening two file/file drawers at the same time for safety purposes.
Key Alike Option	All Low Credenzas have core removable key option and can be keyed alike. For key alike option, M-LC1S must be ordered separately, and installed in the field. MK1 master keys are also available.

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

INCLUDE® Low Credenzas

Includes

- Storage Unit

Notes

- Steel ball bearing suspension on 90% extension file drawers
- Master keys are available. For key alike option, M-LC1S (page 238 must be ordered separately)
- Counterweight Kits required for freestanding files: 30"W and 36"W Credenzas - 50lb Kit, 48"W Credenzas - 25lb Kit and 60"W Credenzas - 35lb Kit.
- Metal weight attached to back of freestanding files to inhibit tipping; field installed only. Use of storage-to-panel bracket or worksurface support stanchion may eliminate need for counterweight kit.

Accessories

Accessories provide the final touch when specifying new or reconfiguring existing office furniture. Maxon commercial-quality accessories are built to enhance individual workstation efficiency by adding comfort and flexibility, allowing individuals to place their equipment where it best meets their particular ergonomic needs. Our products support years of use and are backed by our limited lifetime warranty.

Ergonomic Guidelines

▪ Forearms should be parallel to the floor (approximately 90° angle at elbow).

▪ Upper arm and elbow should be as close to the body and as relaxed as possible.

▪ Wrists should be as flat as possible (not bent up or down) and straight.

▪ Mouse should be placed adjacent to keyboard and at the same height.

▪ Monitor should be positioned directly in front of the user and at a comfortable viewing distance (approximately 18-30" away, top of monitor 2-3" above eye level).

▪ Feet should be fully supported by a footrest or the floor.

Prices effective January 1, 2017. Information in this pricebook is accurate as of January 1, 2017. The pricebook is updated monthly. Go to www. MaxonEdge.com to find the most current pricing information in the electronic pricebook. Information is updated monthly in CAD and GIZA. Maxon recommends updating 20-20 Technologies software every month.

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

Single Flat Screen Monitor Arm with Effortless Adjustment

Includes

- Monitor Arm. Desk and Grommet mount hardware.

Notes

- 13" height range and features lift-and-pivot technology so it can be effortlessly positioned without handles or tools.
- The 22 ½" arm not only extends reach, but easily folds back when not in use.
- The monitor tilts +25°/-90° forward and back, and rotates 90° landscape to portrait.
- An enclosed cable management system routes cables neatly under the arm.
- Weight capacity is 6.5-17.6 lbs.
- Quick release.

Description	Model	Wt.	Cubes	List
Single Flat Screen Monitor Arm with Effortless Adjustment	M-ACC-FMED	14	0.8	726

Dual Flat Screen Monitor Arm with Effortless Adjustment

Includes

- Monitor Arm. Desk and Grommet mount hardware.

Notes

- Supports 2 monitors and has a 13" height range that features lift-and-pivot technology, allowing the user to effortlessly position the height of the monitors without handles or tools.
- The 22 ½" arms not only extend reach, but also fold back when not in use.
- The monitors tilt +25°/-90° forward and back, and rotate 90° landscape to portrait.
- An internal cable management system routes cables neatly under the arms.
- Accommodates monitors at a maximum of 28"W.
- Weight capacity is 6.5-17.6 lbs. per arm.
- Quick release.

Description	Model	Wt.	Cubes	List
Dual Flat Screen Monitor Arm with Effortless Adjustment	M-ACC-FMED2	21	1.2	1207

Single Flat Screen Heavy Duty Monitor Arm

Includes

- Monitor Arm. Desk and Grommet mount hardware.

Notes

- 14" height range (14" total)
- Monitor Extension: 22.4".
- The monitor tilts +35°/-85°.
- Monitor rotates 180°
- An enclosed cable management system routes cables neatly under the arm.
- Weight capacity is 17.6-44 lbs.
- Quick release.

Description	Model	Wt.	Cubes	List
Single Heavy Duty Flat Screen Monitor Arm	M-ACC-FMHD	4	2.2	872

*Fabrics, Laminates, Paints and upcharges associated with each are now outlined in the front of the pricebook. A guide on "How to Specify" product has also been added to the beginning.

Sit to Stand Articulating Arm and Platform

Includes

- Sit to Stand Articulating Arm and Platform. Keyboard, mouse antislip pads & gel palm rests.

Notes

- Features a 23" glide track, 12.7" lift-and-lock height adjustment (5.1" above and 7.6" below), release handle for +10°/-20° tilt adjustment, and 360° rotation.
- The 19" platform has right or left swing-below mousing platform.
- Will not fit the 24"D SURPASS worksurface.

Description	Model	H	D	W	Wt.	Cubes	List
Sit-to-Stand Articulating Arm & Platform	M-ACC-SSKT	1½"	11½"	26½"	17	1.6	678

Lift and Lock Articulating Arm and Platform

Includes

- Sit to Stand Articulating Arm and Platform. Detachable leatherette wrist support

Notes

- Features a 21" glide track, 7" lift-and-lock height adjustment (2½" above and 4½" below), release handle for +/- 15° tilt adjustment, and 360° rotation.
- The platform allows for easy repositioning of the mouse from left to right side of the platform without the use of tools.
- Features independent tilt-and-swivel mousing platform that can be used in line, mouse over, or mouse forward.
- The overall length fully opened is 28".

Description	Model	H	D	W	Wt.	Cubes	List
Lift-and-Lock Articulating Arm & Platform	M-ACC-LLCP	1½"	11½"	28"	16	1.6	642

Twist Lock Articulating Arm and Platform

Includes

- Sit to Stand Articulating Arm and Platform. Detachable leatherette wrist support

Notes

- Features a 17¾" glide track, soft touch knob for simultaneous height and tilt adjustment, spring assisted 6¼" height adjustment (1¼" above and 5" below track), +10°/-15° tilt adjustment, and 360° rotation.
- The platform accommodates both keyboard and mouse on the same level for both left and right-handed mousing.

Description	Model	H	D	W	Wt.	Cubes	List
Twist-Lock Articulating Arm & Platform	M-ACC-TLBP	1½"	10½"	25"	15	1.7	481

Rectangular Keyboard Drawer

Includes

- Rectangular Keyboard Drawer

Notes

- Features a 30" retractable platform on 15" ball bearing slides.
- The painted steel platform accommodates both keyboard and mouse on the same level for both left and right-handed mousing.
- Available in black.

Northport Seating

Features

- All task chairs feature a swivel and adjustable height with other features available on all models.

- All seating products with tilt features have adjustable tension control.

- Mesh back allows for air circulation to keep the user cool and comfortable for hours.

- Adjustable lumbar and synchro-tilt motion of the seat and back provide ergonomic comfort.

- Casters, cylinder, control, back and arms must be assembled.

- Excluded=Not on GSA Contract.

Comfort Controls

A. Fixed Arm Height

B. Adjustable Height Arms

C. Adjustable Height and Width Arms

D. 360º Swivel

E. Adjustable Lumbar Support

F. Synchro-Tilt

G. Tilt

H. Pneumatic Seat Height Adjustment

I. Seat Glide

J. Tilt Tension

K. Tilt Lock

Prices effective November 6, 2016. Information in this pricebook is accurate as of November 6, 2016. The pricebook is updated monthly. Go to www. MaxonEdge.com to find the most current pricing information in the electronic pricebook. Information is updated monthly in CAD and GIZA. Maxon recommends updating 20-20 Technologies software every month.
