INNOVATION ENGINEERED

With every Senator design comes a great deal of thought. The design process begins way before pencil reaches paper, beginning with looking at you. We look at how you sit, reach, move and work to create a design which not only looks beautiful, but is a pleasure to use too.

Behind every Senator product is a fusion of intelligent thinking and innovative engineering to create products which support people whether they're focusing, collaborating, presenting or organizing.

A PRICE LIST DESIGNED TO ASSIST YOU

PRODUCT INTRODUCTION

At the beginning of each product range you will find a Statement of Line designed to guide you through the range vocabulary, introduce you to the models available including codes and size options.

The product detail section offers guidance on more complicated areas including electrical options.

SPECIFY

Pricing information pages are to help you specify and price your chosen product.

- 1. Think through the configuration of table you require
- 2. Select the codes of the individual items you need to achieve your configuration.
- 3. Choose finishes where appropriate: top finishes / frame color / fabric color.

When ordering please ensure that you send us all this information so we can correctly fulfill your requirements.

INSPIRATION

If you're still looking for some inspiration at the end of each section you will find our 'typicals' section. These are configurations and set ups usually found in office areas, together with seating capacity guidelines.

AD-LIB TABLES

The Ad-Lib table family was originally created with collaboration and versatility in mind; the expansion of this collection offers a wider range of configuration possibilities to support productivity from small impromptu gatherings to larger group meetings and spaces.

Looking at how people work, the Ad-Lib range has evolved and now offers new top shapes and sizes. With technology at the forefront of the design; power, AV and charging USB outlets are conveniently located and accessed through an easily removable access tray.

Ad-Lib Tables

Standard Features

- 4 star base tables utilize an aluminum base and top casting with a steel riser
- Shrouded 4 star base tables utilize an aluminum framework covered in a technical knitted fabric
- Single Leg tables utilize an aluminum ski and top castings with steel risers and twin steel beams
- Shrouded ‘V’ leg tables utilize an aluminum ski and top casting with steel risers covered in a technical knitted fabric

- Leveling adjusters
- 1” TFL (Edge 69) & 1” TFL (Edge 38) tops

Optional Features

- Range of top shapes including: soft square, circular, rectangular, soft rectangular, ‘V’ and ‘U’ shaped meeting tables
- Optional in table power module
- Vertical cable riser

Performance Standards

Designed to conform to and where applicable is tested to the following standards:

- BIFMA X5.5 x 2014
- SCS-EC10.3-2014 v. 3.0 Indoor Advantage Gold**

**Only on TFL with Edge 69 models

Dimensions - Heights

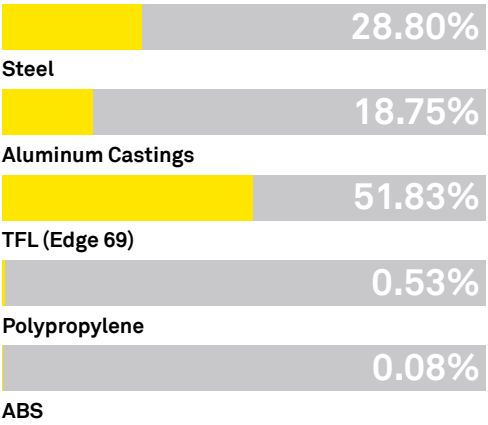

Design by PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

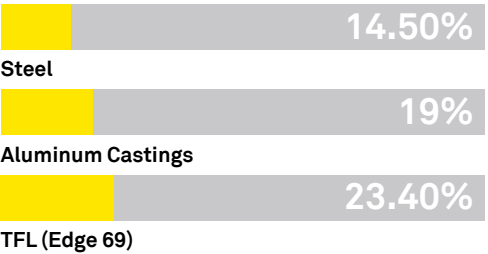

Material Content

Components are constructed of the following

Contains up to 56.9% of Recycled Material

Ad-Lib Single Leg Tables – Product detail

Framework

Single Legs
Single Legs are used on all rectangular, soft rectangular and conference tables 42” deep and below.

Pillar Single Legs
Pillar Single Legs are used on conference tables to reduce space by eliminating the foot and replacing it with an adjustable glide. This maximizes the usable space around the corners of the tables.

4 Star Pillar Base
The single pillar 4 star base is used on small 30” and 36” round, and 30” x 30” and 36” x 36” soft square tables. The frame is available at 16” (coffee), 29” (meeting) and 41” (café) heights for various uses.

Cable Management (Optional)

Horizontal Cable Management
Power and data are fed from the floor, up the side of the leg and along the underside of the top and through the optional fabric horizontal cable manager, where it meets the in desk power unit.

Vertical Cable Management
Vertical cable management for the Single Leg is provided in the form of an optional clip on aluminum extrusion cable channel which attaches directly to the Single Leg and requires no tools for assembly.

Power and Accessories (Optional)

Accessories
In conjunction with the power units a range of accessories are available. The tray is included with each power unit option and a pen pot and an accessory box can be added if required.

Code A & B
The meeting table optional power and power/AV units are available in all tables with a shrouded V leg or Single Leg.
* See page 13 for power option details

Code E
Desk mountable power units are also available for all conference Single Leg tables and are clamped to the desk surface.

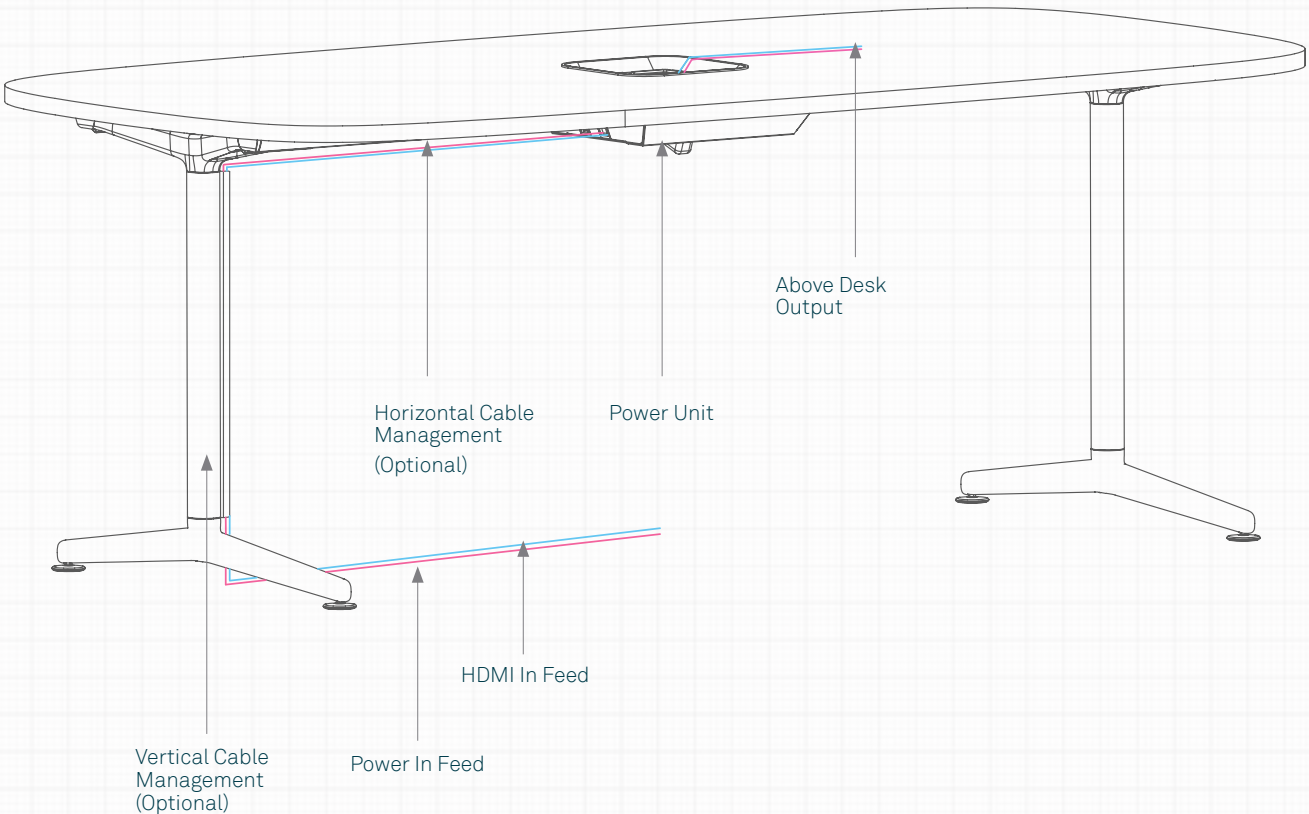

Ad-Lib Single Leg Tables – Wiring diagram

Single Leg Meeting Tables and Conference Tables

Ad-Lib table power is fed from the floor through a floor box (or similar output) and up through the optional aluminum vertical cable riser which discretely covers the cables. The cables then run through the optional fabric horizontal cable riser to the table power unit which is located in the center of the table top.

Desk top accessories/chargers plug directly into the top of the power unit and exit through the cable porthole fixed into the top. This is accessed by lifting the cable port tray to reveal the outlets underneath.

* Two options of power unit are available, 4 power only (A) and 4 power with 4 powered USB and 1 HDMI (B).

Ad-Lib Shrouded Leg Tables – Product detail

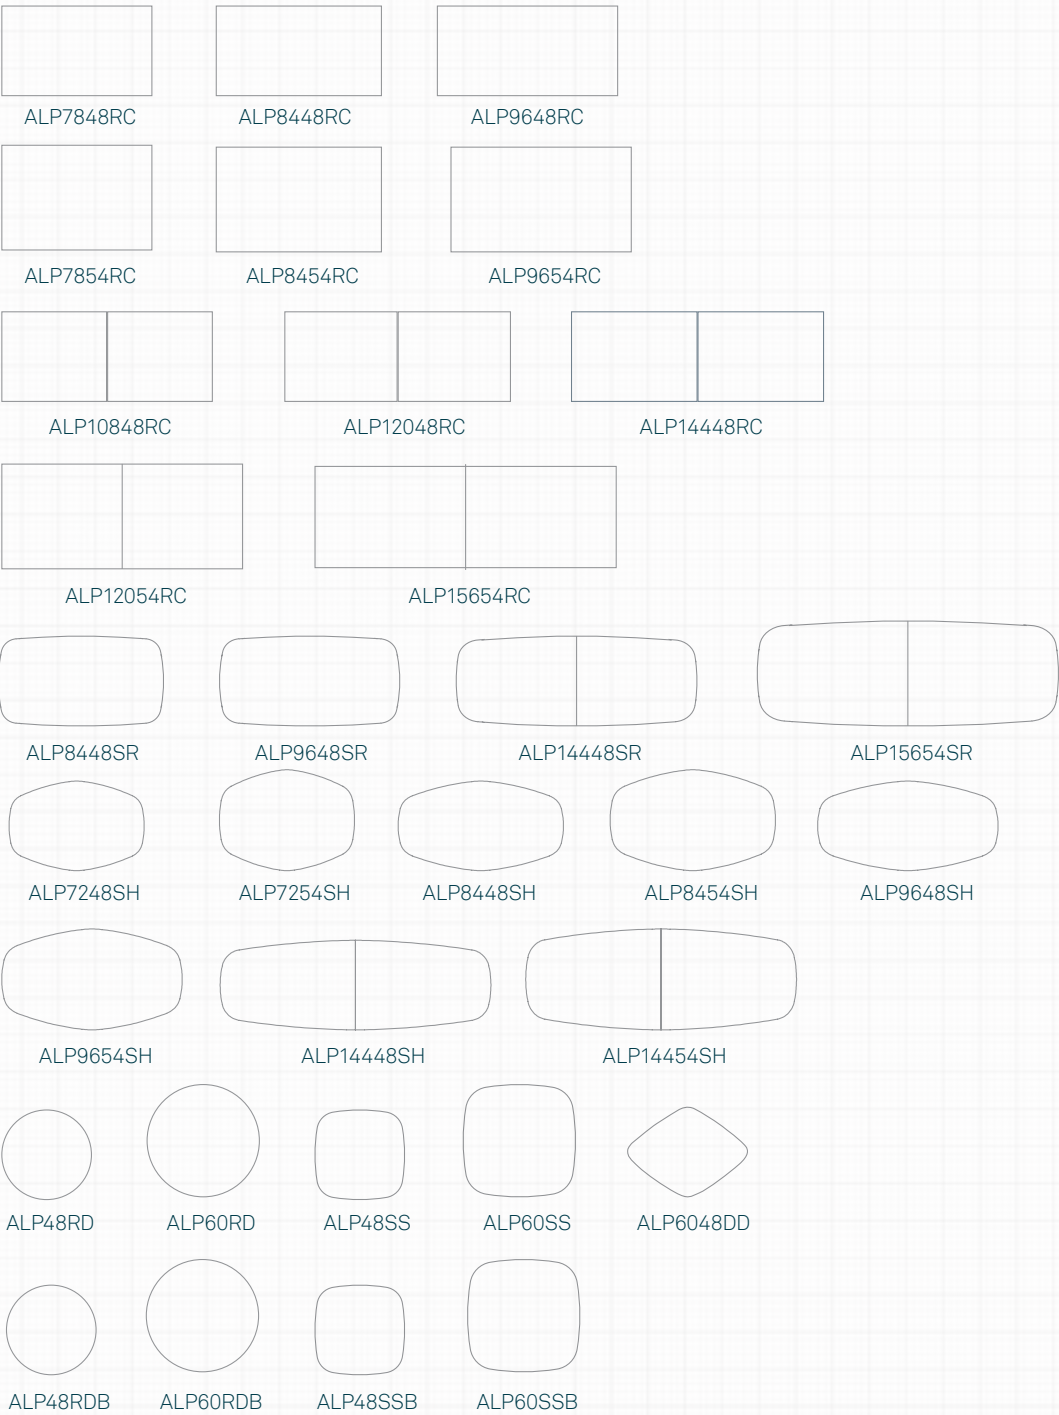

Shrouded ‘V’ Leg Meeting Tables and Conference Tables

Shrouded 4 Star Base Table

*Top casting & foot casting available in polished chrome

Ad-Lib Shrouded Leg Tables – Product detail

Framework

Shrouded ‘V’ Legs
The shrouded V legs are used on all rectangular, soft rectangular and soft hexagon tables 48” deep and above. The legs are covered in a technical knitted mesh to conceal any cables from the optional in table power unit taking cables vertically from floor to table top.

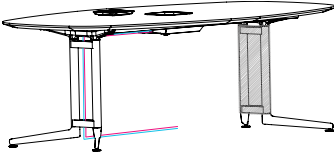

Shrouded Mid Legs
A straight mid leg version is available where the table is a multi top construction.

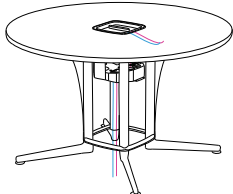

Shrouded 4 Star Base
The 4 star shrouded base is available in 25” or 29” high and is covered with a technical knitted mesh to conceal any power or AV cables from the optional in table power unit. The frame is supported on four aluminum cast feet.

Vertical Cable Management

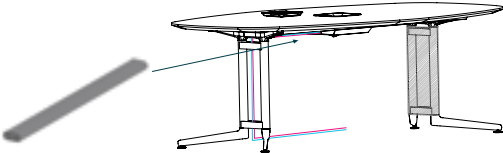

Shrouded Flying ‘V’ Legs
Vertical cable management in the shrouded flying ‘V’ leg is provided as standard through the access void within the frame allowing cable to run from underneath the top down through the legs.

Shrouded 4 Star Base
Vertical cable management in the shrouded 4 star base is provided through the access void within the frame allowing cables to suspend vertically from the optional in table power unit.

Horizontal Cable Management (Optional)

Optional Horizontal cable management is also available to transport power and AV cables along the underside of the top. Power and AV are fed from the floor up the leg and along the underside of the top, through the fabric horizontal cable manager where it meets the in-desk power unit.

Power and Accessories (Optional)

Accessories
In conjunction with the power units a range of accessories are available. The tray is included with each power unit option and a pen pot and an accessory box can be added if required.

Code A & B
The meeting table optional power and power / AV units are available in all tables with a shrouded V leg or Single Leg.
* See page 26 for power option details

Code C & D
Optional power and power / AV units are available to fit directly to the underside of the tables using the 4 star shrouded base.
** See page 27 for power option details

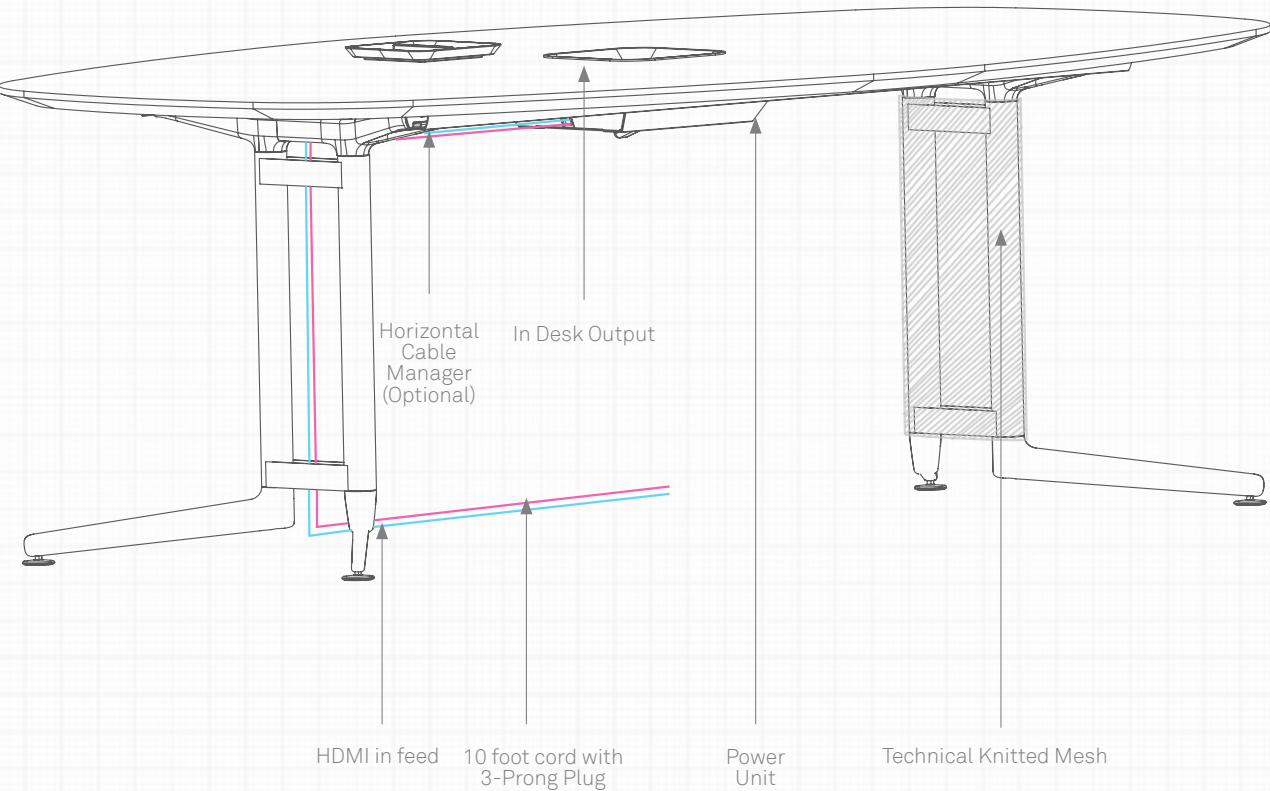

Ad-Lib Shrouded ‘V’ Leg Tables – Wiring diagram

Shrouded ‘V’ Leg Meeting Tables

Ad-Lib meeting table power is fed from the floor through a floor box (or similar output) and up through the technical knitted mesh table leg which discretely covers any cables. The cables then run horizontally through optional horizontal wire managers, to the in table power unit which is located in the table top.

Laptops, mobile devices, and HDMI plug directly into the top of the power unit and exit through the cable porthole fixed into the top. This is accessed by lifting the cable port tray to reveal the outlets underneath.

* Two options of power units are available, 4 power only (A) and 4 power with 4 powered USB and 1 HDMI (B).

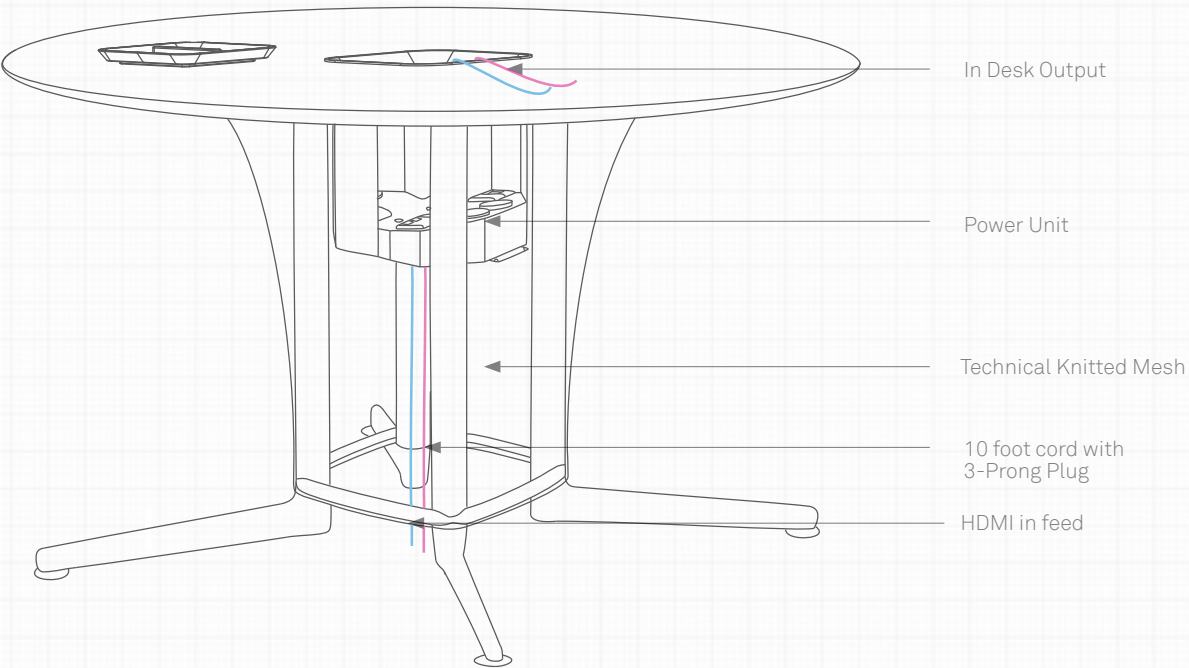

Ad-Lib Shrouded 4 Star Leg Tables – Wiring diagram

Shrouded 4 Star Base Meeting Tables with Power

Ad-Lib work lounge table power is fed from the floor through a floor box (or a similar output) directly into the table power unit which is located in the table top and is discretely concealed by the table's technical knitted cover.

Laptops, mobile devices, and HDMI plug directly into the top of the power unit and exit through the cable porthole fixed into the top. This is accessed by lifting the cable port tray to reveal the outlets underneath.

** Two options of power units are available, 4 power only (C) and 4 power with 4 powered USB and 1 HDMI (D).
