

Gather. Connect. Learn.

Connect Lounge Series

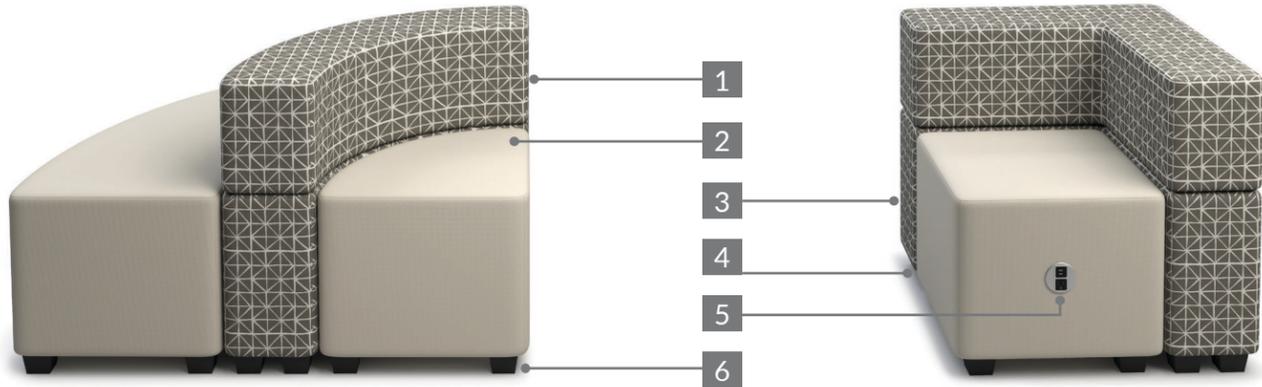

Specifications

- 1 Frame is constructed of CNC cut 3/4" plywood and solid wood, which is glued and stapled.
- 2 Seat cushions are 2" thick, medium density foam, and all other areas are 1/2" thick medium density foam.
- 3 Fabrics and materials meet the requirements of California Technical Bulletin (CAL TB 117).
- 4 Ganging hardware is a strong metal to metal connection that allows the user to click furniture pieces together, and lift to release. The catch fork can be swiveled under the unit and out of the way when not in use.
- 5 Optional Power/Data units can be added to vertical surfaces, and feature 1 power outlet and 2 USB ports.
- 6 Units come standard with 2" high solid maple legs with a tapered design and a black matte finish. Optional 2" high, lockable black casters can be substituted for the legs.

CONNECT LOUNGE

Collaborative and common space environments are one of the fastest growing trends in media centers. The Connect Lounge series offers seating that can be combined, moved around, and easily reconfigured on the fly. There are endless configuration possibilities that are perfect for gathering areas or just a place to relax and enjoy a quiet moment.
