TAKE CONTROL. AND KEEP IT.

Hiatt® handcuffs offer a variety of unique features designed to address the needs of today's law enforcement personnel. Our fast back-loading application allows an open cuff to be snapped back into place with a quick motion of the wrist and then reapplied without having to release the offender's hand. With 18 teeth, 3 independent retaining bars with 6 teeth on each, we make it extremely difficult to pick, while providing increased strength as the shackle engages the additional teeth. Finally, True Swing Technology ensures the swing arm is balanced and centered so it locks into the center of the shackle every time.
