INNOVATION ENGINEERED

With every Senator design comes a great deal of thought. The design process begins way before pencil reaches paper, beginning with looking at you. We look at how you sit, reach, move and work to create a design that not only looks beautiful, but is a pleasure to use too.

Behind every Senator product is a fusion of intelligent thinking and innovative engineering to create products that support people whether they're focusing, collaborating, presenting or organizing.

Overview

A PRICE LIST DESIGNED TO ASSIST YOU

PRODUCT INTRODUCTION

At the beginning of each product range you will find a quick overview of the range including dimensions, product sustainability, performance standards and designer information.

SPECIFY

In the overview section we've included all the details we think you'll need to choose the right chair such as finishes, options, mechanism details and an 'at a glance' section.

If the chair includes a mechanism you will find a detailed description of how it works, as we know it's not always easy to explain.

For each product range you will find 'at a glance' this a labeled diagram of all the key features and important things you should know about each chair.

INSPIRATION

Pricing information pages are to help you specify and price your chosen product.

1. Look through the standard features and finishes and select the model you require
2. Select the fabric grade for the fabric you are using and this will give you the basic price per chair
3. Select any optional extras or alternative features you require and add on any extra costs as shown per chair

TASK SEATING

Senator task chairs are designed to not only look beautiful, but to represent state of the art ergonomics, functionality and choice.

10-15 Ecoflex / 16-21 Evolve / 22-27 Freeflex /
28-35 i-Workchair / 36-41 Ousby

Ecoflex

LESS IS MORE

Ecoflex is a minimal masterpiece, combining a clean understated aesthetic design with outstanding functional flexibility. It's stylish, light and built with sustainability in mind, so it makes an impact on any interior without making an unnecessary impact on the environment.

Ecoflex is designed to fit around you.

You can adjust everything from seat depth to lower back support with simple, intuitive controls. Plus, a rotational three-stage travel limiter helps you maintain the open, fluid action of the chair - a feature that has recognized back health benefits.

A variety of finish options make it an ideal choice for any environment.

Its plastic components are available in either Light Gray or Black, the perfect frame for the range of six back mesh colors available.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Ecoflex

Standard Features

- 2.5" hard wheel casters
- Self-supporting mesh back
- Synchronized mechanism with adjustable tension and travel limitation in four steps, including locking upright
- Height adjustable arms*
- Molded seat foam cushion
- Lumbar adjustment
- Fully adjustable tilt tension within two turns

Optional Features

- 2.5" soft wheel casters
- 2.25" seat depth adjustment
- Gas lift color options
- Choice of finish options available - see finish page 13

Performance Standards

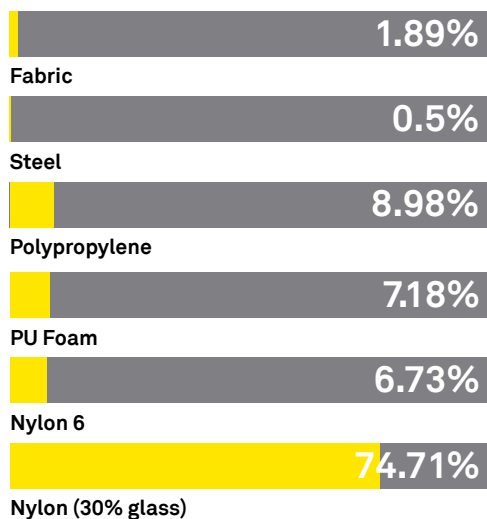

- ANSI/BIFMA x 5.1 x2011
- SCS-EC10.3-2014 v. 4.0 Indoor Advantage Gold

(*Select models only)

Material Content

Components are constructed of the following

Contains up to 1.5% of Recycled Material

The range is 100% recyclable

100%

Environmental information for this range has been based on ECF740HA.
For more detail please refer to individual EPA sheets.

Design by Justus Kolberg

Justus Kolberg has been running his own design studio in Hamburg since 1997 after completing his studies in industrial design at the Muthesius Academy of Fine Arts and Design in Kiel in 1990.

Justus draws from his international experience, aiming to combine Scandinavian appeal, German engineering and Italian passion and sensibility.

Ecoflex

Dynamic Synchronized Tilt

- Featuring a synchronized mechanism geometry that links the motion of the seat and the 17° backrest recline with a ratio of 2.7:1. This ratio has been developed to encourage users to maintain the open, floating action of the chair that can have positive benefits for back health.
- This mechanism incorporates a tilt travel limiter with three preset ranges of movement:- 6°, 12°, 17° of recline as well as the ability to lock in an upright position.
- The mechanism also incorporates adjustments for:- seat height, body weight adjustment using a high geared (2.5 turns), rotational control on the right hand control stalk. Seat depth adjustment is available as an option.

At a glance

1. Self-supporting mesh
2. 6 mesh colors
3. Lumbar adjustment
4. Integrated height adjustable arms
5. Dynamic synchronized mechanism with travel limitation in 4 steps, including locking upright
6. Seat depth adjustment
7. Choice of Black or Light Gray components

Good to know

If specified the height adjustable arms of Ecoflex are incorporated into the back frame.

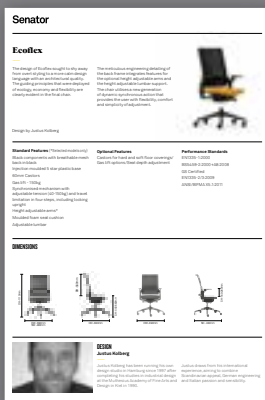

Please note: Features are model dependent, please refer to price list pages when specifying

Evolve

TASK SEATING, REINVENTED

With Evolve we focused on enhancing the intuitive comfort and simple user adjustment. It's ergonomically contoured back construction, flexible movement and lumbar adjustment, offers a level of comfort and support that is unsurpassed.

Evolve incorporates a new advanced synchronized mechanism with

enhanced geometry, that ensures the motion of the chair will mirror the natural pivot of the body throughout its range of movement. Evolve is ideally suited to those who sit at a desk for several hours every day. Whether the user is focusing on a task, reaching for a file or deep in conversation, the chair flexes with

their natural movements, providing both comfort and health benefits. Evolve is available in a choice of colors for the molded components and complementary flexible colored back membranes.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Evolve

Standard Features

- 2.5" hard wheel casters

Design by Paul Brooks

Paul Brooks graduated from Ravensbourne College of Design to go onto the RCA before joining the design team of Robert Heritage, OBE RDI, in 1983.

Paul established his own practice in 1988 and has since worked with a host of UK and European furniture manufacturers becoming a well established figure in the design community with many highly successful designs to his credit.

Evolve

Progressive Synchronized Tilt

- Advanced mechanism pivot geometry delivers a fluid supportive movement through the entire range of 26° of recline that mirrors the body's natural pivot points with a ratio of 2.6:1.
- Evolve 2's recline mechanism incorporates a tilt travel limiter with three preset ranges of movement: - 6°, 17°, 26° of recline as well as the ability to lock in an upright position. The mechanism also incorporates the ability to set the chair to a forward tilt of 3° this then adds an additional upright position (0°) to the travel limiter.
- The mechanism also incorporates adjustments for: seat height, seat depth and body weight adjustment using a retractable, high geared (11 turns), rotational control on the right hand control stalk. All controls and adjustments can be easily accessed from the seated position.

At a glance

1. Flexible back membrane
2. A choice of slim line upholstery or mesh
3. Multi-adjustable arm pads
4. Suspended seat construction
5. Lumbar adjustment
6. Travel limiter and seat depth adjustment
7. Forward tilt

Good to know

Airflow meshes help reduce fatigue by allowing your back to breathe.

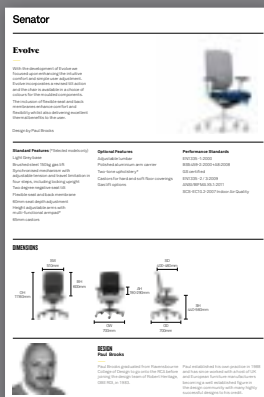

Please note: Features are model dependent, please refer to price list pages when specifying

Freeflex

I LIKE THE WAY YOU MOVE

Freeflex provides a clever and adaptable solution to support the user's movements in their working environment. Flexibility is central to the design of Freeflex, giving the user the freedom to make simple adjustments; to their seat height, seat depth and back height to achieve ultimate comfort.

In designing Freeflex, special attention was paid to the user's natural pivot points, where they flex and where they don't. This inspired the development of a dynamic weight balancing tilting action and articulated flexing back, that intuitively encourages movement, while providing great support.

Freeflex is available in an array of color choices with new combinations of Dark Gray and Black components or Light Gray and Dark Gray components, to create inspirational spaces within workplaces.

Dimensions

Design by Justus Kolberg

Justus Kolberg has been running his own design studio in Hamburg since 1997 after completing his studies in industrial design at the Muthesius Academy of Fine Arts and Design in Kiel in 1990.

Justus has received numerous honors including the IF Hannover Product Design Award, the Red Dot Design Centrum NRW, the IDEA-Gold Industrial Design Excellence Award and the Japanese Good design Award.

Freeflex

Body Balance Tilt

- Features an intelligent recline mechanism that automatically adjusts to provide the correct level of support through the full range of its 22° recline motion with a ratio of 3:1.
- This mechanism incorporates a tilt travel limiter with three preset ranges of movement: - 5°, 12°, 22° of recline as well as the ability to lock in an upright position. The geometry of the mechanism truly balances to the individual user and ensures secure stable sitting while maintaining the correct orientation to the desk and VDT.
- The mechanism utilizes a single control for both seat height adjustment and for selecting the range of recline or upright lock. Seat depth adjustment is incorporated as standard. All controls and adjustments can be easily accessed from the seated position.

At a glance

1. Flexible upper back
2. Multi-adjustable arms
3. Height adjustable back
4. Weight controlled synchronized mechanism with adjustable tension and travel limitation in four steps, including locking upright
5. Contrasting mesh side panels and complementary back insert colors
6. Dark Gray components with Black or Light Gray back and arms

Good to know

A cantilever side chair and stool height variation of Freeflex is available.

Please note: Features are model dependent, please refer to price list pages when specifying

to specify your chair...

1. Check the **Standard Features and Finishes** and select the **Model** you require
2. Select the **Fabric Grade** for the fabric you are using (standard fabrics are listed on page 126-133), this will give you the basic price per chair
3. Select any **Optional Extras or Alternative Finishes** you require and add on any extra costs as shown per chair
4. You now have the total cost and specification for **Your Chair**

When ordering, please ensure that you send us all this information, so we can correctly fulfill your requirements.

i-Workchair

THE ART OF MOVEMENT

We are all unique and so are the demands we place on our furniture. i-Workchair has been developed to allow the user a greater range of adjustment, to achieve maximum comfort. i-Workchair has the ability to replicate a wide range of movements with ease and comfort. Utilizing a new generation of synchronized tilt action, i-Workchair mirrors the body's natural pivot

points, providing a seamless transition between upright and reclined postures. As we move our back, our arms move with us and it is this fluid motion that inspired the design of i-Workchair. The chair's central column and arms are joined through an innovative Aluminum bridge. This then connects to flexible mounting

bushes that allow the back a higher range of flexibility. Utilizing a multi-layered approach i-Workchair features a 3D perforated cut foam structure encased in two layers of elastomeric knitted fabric. This optimizes comfort while allowing excess heat to vent away from the back muscles, reducing fatigue.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

i-Workchair

Standard Feature

- 2.5" hard wheel casters
- Aluminum back frame
- Synchronized mechanism with tension adjustment and back locking function in 3 positions
- 3.25" adjustable lumbar
- 2.4" seat depth adjustment
- Height adjustable arms with multifunctional arm pad*
- Height adjustable arms with 4D arm pad*
- Technical inner and outer back fabric with 3D cut perforated foam core

(*Select models only)

- Dual density seat foam
- Back pivot buffers
- Fully adjustable headrest with coat hanger*

Optional Features

- 2.5" soft wheel casters in Black with a Chrome ring wheel inlay
- 2.5" soft wheel casters
- Choice of finish options available - see finish page 31

Environmental information for this range has been based on WRK140MF. For more detail please refer to individual EPA sheets.

Design by Justus Kolberg

Justus Kolberg has been running his own design studio in Hamburg since 1997 after completing his studies in industrial design at the Muthesius Academy of Fine Arts and Design in Kiel in 1990.

Justus has received numerous honors including the IF Hannover Product Design Award, the Red Dot Design Centrum NRW, the IDEA-Gold Industrial Design Excellence Award and the Japanese Good design Award.

i-Workchair

Synchronized with tension

- A newly developed compact synchro mechanism featuring integrated controls for;- seat height, seat depth, back lock, and tension adjustment. Providing pivot geometry that ensures a fluid ergonomic motion supporting the user fully during recline.
- The synchro mechanism ensures the seat and backrest move in harmony with a ratio of 2.7:1 and a maximum back recline of 22 degrees from the action with a further 8 degrees possible from the pivoting back motion.
- A multi-position back lock incorporating three preset lock positions fitted with an “anti-kick” brake system.
- The action of the chair can be easily balanced to the user's preference using the rotational control under the front right hand edge of the seat. There are seven preset positions available.

At a glance

1. Head support with integral coat hanger
2. Intelligent core
3. Lumbar adjustment
4. 4D multi-function arm with soft pad
5. Aluminum back frame
6. Multi-click controls
7. Sleek Aluminum base
8. Coat hanger (optional)

Good to know

4D arms offer support while using mobile devices.

Please note: Features are model dependent, please refer to price list pages when specifying

Ousby

CONFIDENCE WITHOUT EGO

Ousby is a task seating range that boasts exceptional comfort and affordability.

Designed using flexible, durable and sustainable materials that respond to your movements, Ousby is an organically shaped seating range that includes a stool variant on

casters providing comfort and support throughout the day, whatever the task.

Offering exceptional comfort with a contoured mesh back, Ousby features an adjustable integrated lumbar as standard. Its multi-functional arms accommodate varied tasks and user preferences. Ousby also features a

dynamic synchronized mechanism with quick tension adjustment and back locking in 5 positions.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Ousby

Standard Features

- 2.5" hard wheel casters
- Self supporting mesh back
- 2" lumbar adjustment
- Dynamic synchronized mechanism with quick tension adjustment, back locking in 5 positions, including locking upright*
- Limited recline mechanism*
- 2.4" seat depth adjustment*
- Height and width adjustable arms*
- Molded seat foam cushion
- Stool height variation*
- Height and width adjustable arms with multi-functional arm pad*

(*Select models only)

Optional Features

- 2.5" soft wheel casters
- Gas lift color options
- Choice of finish options available - see finish page 39

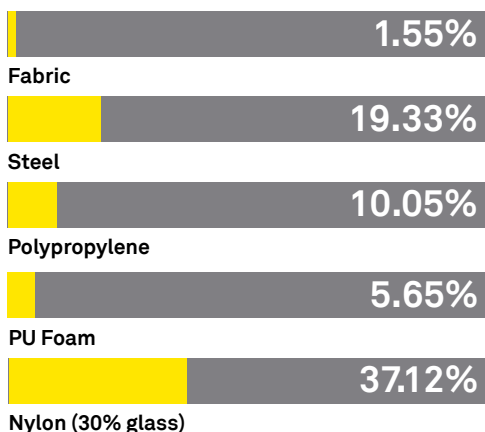

Performance Standards

- ANSI/BIFMA X5.1:2011
- SCS-EC10.3-2014 v. 4.0 Indoor Advantage Gold

Material Content

Components are constructed of the following

Contains up to 36.5% of Recycled Material

The range is 100% recyclable

100%

Environmental information for this range has been based on OUS740HA. For more detail please refer to individual EPA sheets.

Design by Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs that not only look beautiful, but minimize the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet village in the UK. Our dedicated facility is over three floors that include studios, a materials test center and prototyping lab.

Constantly exploring new product trends and keeping up to date with the latest innovations in technology and materials, our design team creates world class designs of the highest quality.

Ousby

Standard Synchronized Tilt

- Featuring a synchronized mechanism geometry that links the motion of the seat and the 23° backrest recline with a ratio of 2.3:1. This ratio has been developed to encourage users to maintain the open, floating action of the chair that can have positive benefits for back health.
- The mechanism utilizes a multi-position back lock with five preset lockable positions including an upright position and is fitted with an “anti-kick” brake system or can be left free-floating, that is selected using the left hand control stalk.
- The mechanism also incorporates adjustments for: seat height, body weight adjustment using a rotational control on the right hand control stalk with seven preset positions. Seat depth adjustment is incorporated as standard. All controls and adjustments can be easily accessed from the seated position.

At a glance

- Self supporting mesh
- 9 mesh colors
- Lumbar adjustment
- Multi-adjustable arm
- Dynamic synchronized mechanism with travel limitation in 4 steps, including locking upright
- Seat depth adjustment
- Black, Graphite or Light Gray components

Good to know

A mesh back allows excess heat to ventilate which can discourage fatigue.

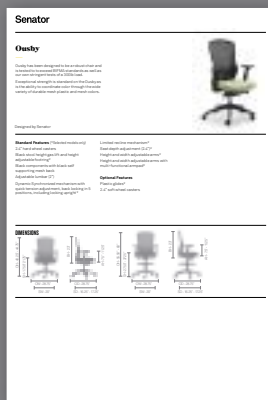

Please note: Features are model dependent, please refer to price list pages when specifying

to specify your chair...

1. Check the **Standard Features and Finishes** and select the **Model** you require
2. Select the **Fabric Grade** for the fabric you are using (standard fabrics are listed on page 126-133), this will give you the basic price per chair
3. Select any **Optional Extras or Alternative Finishes** you require and add on any extra costs as shown per chair
4. You now have the total cost and specification for **Your Chair**

When ordering, please ensure that you send us all this information, so we can correctly fulfill your requirements.

CONFERENCE CHAIRS

Senator conference chairs are thoughtfully designed with simple aesthetics and fine materials, yet still provide apt levels of comfort and the ergonomics necessary for long meetings or gatherings.

44-49 Rapt / 50-55 Rhapsody

Rapt

FOCUSED SIMPLICITY

Rapt exudes poise and offers a fresh alternative to the established norms of executive seating. It has been created to grace environments where key decisions are made, where success happens, where detail and conviction are imperative and where extraneous distractions need to be eliminated.

Rapt’s elegant and minimalistic design also provides exceptional comfort, featuring generous proportions and an anatomically shaped, cushioned seat and back. The one piece Aluminum arm rest with a leather inlay envelops the chair beautifully and creates a strong continuous structure.

A simple automatic recline adjustment, together with the ability to regulate its height encourages movement that fosters creativity. This executive chair boasts luxury upholstery, twin needle stitch detail along its perimeter and clearly defined zones of support.

Design by Jonathan Prestwich

Jonathan's wealth of experience is combined with a desire to make products for the next generation of users. Simple, elegant, innovative products that are influenced by nature and technology.

Rapt

Executive Knee Tilt

- Featuring an executive knee tilt mechanism with 17° of recline.
- The mechanism utilizes a multi-position back lock with five preset lockable positions including an upright position and is fitted with an “anti-kick” brake system or can be left free-floating.
- The mechanism also incorporates adjustments for:- seat height, body weight adjustment using a rotational control on the right hand control stalk.

Conference Free-Float Tilt

- Featuring a simple pivot motion with a predetermined tension setting with 8° of recline.
- The mechanism incorporates a single lever that can be used to adjust seat height, or select a locked upright sitting position or to engage the free-floating action.

At a glance

1. Polished Aluminum wrap around arm with leather inlay pad
2. Stitch detailing
3. Executive tilting seat recline
4. A simple automatic recline adjustment encourages movement
5. Polished Chrome clean gas unit
6. Soft wheel casters or plastic glides with Chrome ring inlay

Good to know

If specified in leather upholstery a matching leather arm inlay pad is available.

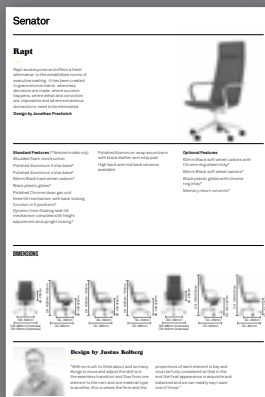

Please note: Features are model dependent, please refer to price list pages when specifying

Rhapsody

THE PERFECT ARRANGEMENT

Rhapsody is a fully upholstered armchair, an elegant and sumptuous sit with flowing lines and contemporary styling. The design is a simple yet striking shape, it delivers fantastic comfort and is superbly detailed. Its curvaceous form and cantilever back make Rhapsody a

product of beauty to complement the smartest of interiors.

That said we have not lost sight of the functional and ergonomic requirements of its user so the design incorporates a fully functional progressive synchronized tilt action.

Rhapsody is the perfect selection for today's senior executive, available as a high-back or mid-back chair.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Rhapsody

Standard Features

- 2.5” hard wheel casters*
- Synchronized mechanism with adjustable tension and back locking function in 5 positions, including locking upright*
- Molded foam construction
- High-back and mid-back variations available*

Optional Features

- 2.5” soft wheel castors
- Gas lift color options
- Two-tone upholstery
- Choice of finish options available - see finish page 53

Design by Paul Brooks

Paul Brooks graduated from Ravensbourne College of Design to go onto the RCA before joining the design team of Robert Heritage, OBE RDI, in 1983.

Paul established his own practice in 1988 and has since worked with a host of UK and European furniture manufacturers becoming a well established figure in the design community with many highly successful designs to his credit.

Rhapsody

Synchronized Tilt

- Featuring a synchronized mechanism geometry that links the motion of the seat and the 25 degree backrest recline with a ratio of 2.6:1, the backrest has a multi-position back lock with five preset lockable positions including an upright lock and is fitted with an “anti-kick” brake system or can be left free-floating.
- The mechanism also incorporates adjustments for: seat height, body weight adjustment using a rotational control on the right hand control stalk. All controls and adjustments can be easily accessed from the seated position.

At a glance

1. Integrated headrest on high-back
2. Fully upholstered
3. Molded from construction
4. Polished Chrome trim
5. Synchronized tilt action, with seat height adjust
6. 5-star base on mid and high-back
7. Casters for soft floors

Good to know

A mid-back and cantilever variation of the chair is available.

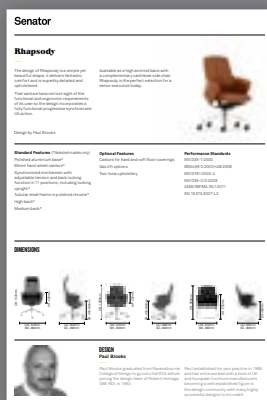

Please note: Features are model dependent, please refer to price list pages when specifying

CHAIR COLLECTION

Senator's collective range of chairs is suitable for a wide range of applications. From training rooms to breakout areas, there is a design to suit any working environment.

58-87 Ad-Lib / 88-93 Circo / 94-99 Elios /
100-105 Jonny / 106-111 Symmetry /
112-119 Trillipse / 120-125 Zenith

Ad-Lib

ANYTIME, ANYPLACE, ANYWHERE

With Ad-Lib we set out to redefine the genre of multi-purpose seating, developed with fewer components so that it still achieves the versatility needed to build an amazingly wide range of chairs.

Ad-Lib has been designed to be specified for all multi-purpose

seating uses throughout the corporate environment; meeting, conference, training, light work or retail environments. It would also be applicable in educational and leisure areas.

Design by PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

Ad-Lib

ANYTIME, ANYPLACE, ANYWHERE

With Ad-Lib we set out to redefine the genre of multi-purpose seating, developed with fewer components so that it still achieves the versatility needed to build an amazingly wide range of chairs.

Ad-Lib has been designed to be specified for all multi-purpose

seating uses throughout the corporate environment; meeting, conference, training, light work or retail environments. It would also be applicable in educational and leisure areas.

Contains up to 21.5% of Recycled Material

The range is 99% recyclable

99%

Environmental information for this range has been based on ADL9A. For more detail please refer to individual EPA sheets.

Design by PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

Plastic glides

Ad-Lib

Scholar

IN A CLASS OF ITS OWN

Designed by PearsonLloyd as an addition to the Ad-Lib family, Scholar recognizes the changing nature of learning environments. Today the structured formality of learning environments is being replaced by the need for more interactive and flexible spaces, where students move continually from collective to

individual settings. Ad-Lib Scholar delivers a comprehensive solution with dynamic flexibility.

Mobility is central to the design of Ad-Lib Scholar. Casters and the swivel mechanism ensure the chair can be moved quickly and efficiently into any required sitting configuration. The

addition rotational foldaway tablet is a key element of this flexibility while the under seat storage tray and drink holder complete the holistic solution.

Environmental information for this range has been based on ADLED1. For more detail please refer to individual EPA sheets.

Design by PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

Ad-Lib

Scholar

Options

Ad-Lib Scholar includes a work surface and under seat storage. Available with a Plastic seat and back, Plastic back with an upholstered seat or fully upholstered.

At a glance

1. Seat and back are available with Plastic membrane in a choice of colors or can be fully upholstered
2. Molded seat and back frame in a choice of colors
3. Optional flexible back rest membrane
4. Central hub incorporates rotating work surface support and can also include an optional swivel seat action
5. Structured support frame included 4 casters for mobility, a storage tray with cup holder, and is reverend for feet clearance
6. Swivel work surface

Good to know

The frame including under seat storage has been shaped to allow for feet clearance.

Please note: Features are model dependent, please refer to price list pages when specifying

2. Select the **Fabric Grade** for the fabric you are using (standard fabrics are listed on page 126-133), this will give you the basic price per chair
3. Select any **Optional Extras or Alternative Finishes** you require and add on any extra costs as shown per chair
4. You now have the total cost and specification for **Your Chair**

When ordering, please ensure that you send us all this information, so we can correctly fulfill your requirements.

Ad-Lib

Work Lounge

WORK, REST, PLAY

Collaboration is seen as the key to business success today and Ad-Lib Work Lounge has been developed specifically to react to this requirement. Designed by PearsonLloyd with postural flexibility and ease of movement as key factors, the Work Lounge design has been evolved through a new construction

methodology that has significantly reduced the use of PU foams, resulting in a light environmental footprint for this type of product.

Providing a relaxed, comfortable, seated environment, Ad-Lib Work Lounge has been developed as a unique solution to enable movement,

flexibility and teamwork, breaking away from the static environments of traditional work settings. Described as a ‘mobile soft seat’, it is designed for collaborative work settings, enabling the user to move location easily.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Ad-Lib

Work Lounge

Standard Features

- Tubular Steel back frame with foam overmold and self support inner back membrane
- Fully upholstered in a select range of fabrics
- 4-star Aluminum base and column
- Fully upholstered height adjustable headrest*

(*Select models only)

Optional Features

- Soft touch orbital fold down work surface
- 2" soft wheel casters
- Two-tone upholstery
- Choice of finish options available - see finish page 85

Performance Standards

- ANSI/BIFMA x 5.4-2012*
- SCS-EC10.3-2014 v. 4.0 Indoor Advantage Gold

Material Content

Components are constructed of the following

Contains up to 25% of Recycled Material

The range is 99% recyclable

99%

Environmental information for this range has been based on ADLW01. For more detail please refer to individual EPA sheets.

Design by PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

Ad-Lib

Work Lounge

Options

There are four variations of the Ad-Lib Work Lounge. The chair can be specified on either casters or glides, with the options to add a headrest or orbital work surface.

At a glance

1. Height adjustable headrest
2. Innovative lightweight fully upholstered backrest
3. 360° orbital fold down large format work surface
4. 4-star Aluminum base with casters or glides

Good to know

Work surfaces feature a button activated swivel hinge – just drop the tablet and rotate away!

Please note: Features are model dependent, please refer to price list pages when specifying

Circo

THE ONE AND ONLY

Circo is a functionally simple light work conference chair for ad hoc touch down working environments, featuring a permanently floating action and a mesh back that morphs to support the user. These features are suitable for both conference and meeting environments.

Circo's designer Justus Kolberg worked closely with toolmakers and injection molds to exploit the latest technical possibilities of a complex single piece frame. The result is a chair that's tremendously strong but that weighs just over 20lbs.

With a choice of upholstered or

leather finishes plus the option of an integrated tilt action Circo effortlessly adjusts to the way you work and the environment you work in. It's equally at home with casters or glides and its mesh back is available in a range of contemporary colors to suit your workplace.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Circo

Standard Features

- 2.5" hard wheel casters*
- Height adjustment and free-floating tilt*
- Swivel only*
- 3D self supporting mesh back
- Plastic glides*
- Stool height variation

Optional Features

- Memory return column*
- 2.5" soft wheel casters
- Gas lift color options
- Fixed height*
- Choice of finish options available - see finish page 91

Performance Standards

- ANSI/BIFMA x 5.1 x2011
- SCS-EC10.3-2014 v. 4.0 Indoor Advantage Gold

Design by Justus Kolberg

Justus Kolberg has been running his own design studio in Hamburg since 1997 after completing his studies in industrial design at the Muthesius Academy of Fine Arts and Design in Kiel in 1990.

Justus has received numerous honors including the IF Hannover Product Design Award, the Red Dot Design Centrum NRW, the IDEA-Gold Industrial Design Excellence Award and the Japanese Good design Award.

Circo

Conference Tilt

- Featuring a simple pivot motion with a predetermined tension setting with 8° of recline.
- The mechanism is integrated into the chair frame that incorporates a single lever that can be used to adjust seat height.
- The chair is also available as standard with height adjustment and without the pivot motion.

At a glance

1. Self-supporting 3D mesh
2. 6 mesh colors
3. One piece molded frame and backrest in Light Gray, Graphite or Black
4. Conference tilt action with height adjustment
5. Memory return on fixed versions
6. Choice of glides or casters

Good to know

The design and engineering deliver a one piece seat and back frame that is significantly lighter than most.

Please note: Features are model dependent, please refer to price list pages when specifying

Elios

HIDDEN DEPTHS

Elios is a range of slender and versatile chairs that are equally at home in meeting rooms, seminar and conference facilities, training rooms or restaurants. Moving seamlessly from one area to another in any location, this high density stacking chair is light both visually and physically. Elios can achieve a stack

of 40 unupholstered chairs on its trolley, fitting comfortably through a standard doorway.

The curvaceous contoured form of both the seat and back achieve excellent comfort as well as adding to the pleasing aesthetics and universal appeal of this design. It's

the little things it does that make the difference, the way the seat and back moldings encapsulate the frame, the way the arm cantilevers from the back and the detachable writing tablet to name a few.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Elios

Standard Features

- Stacks up to 40 high on a trolley*

to specify your chair...

1. Check the **Standard Features and Finishes** and select the **Model** you require
2. Select the **Fabric Grade** for the fabric you are using (standard fabrics are listed on page 126-133), this will give you the basic price per chair
3. Select any **Optional Extras or Alternative Finishes** you require and add on any extra costs as shown per chair
4. You now have the total cost and specification for **Your Chair**

When ordering, please ensure that you send us all this information, so we can correctly fulfill your requirements.

Symmetry

OUR LINE OF SYMMETRY

So why Symmetry? Is it the Symmetry of the beautifully crafted die-cast Polished Aluminium back supports that link the frame to the back, or is it the Symmetry that exists between the three differing versions of this cantilever meeting chair. In a sense, it's all of the above. Meetings form

an ever increasingly important part of business activity so having a suite of cantilever chairs with a common design language and footprint provides an invaluable tool for a client wishing to differentiate its meeting and conference environments.

Symmetry has an honest elegance coupled with sophisticated comfort, offering eco-friendly design and people-friendly ergonomics.

Design by Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

Constantly exploring new product trends and keeping up to date with the latest innovations in technology and materials, our design team creates world class designs of the highest quality.

Symmetry

Options

Symmetry is offers three back variations: high-back, mid-back or split back all available on either a stacking or non-stacking cantilever frame.

At a glance

1. Family comprises two distinct chair styles with a choice of back heights
2. Distinctive Polished Aluminium connector linking back to arms
3. Soft touch arm pads
4. Fully shrouded under seat area
5. Optional stacking cantilever frame, stacks 3 high
6. Chrome cantilever frame

Good to know

All variations of symmetry can be specified with a stacking frame.

Please note: Features are model dependent, please refer to price list pages when specifying

Zenith

ELEMENTARY

Superbly crisp and refined, Zenith is a meeting and conference chair design with the best in comfort and flexibility. Essentially it is a four legged stacking chair designed with multiple arm and backrest material configurations.

With a design that is so fundamentally simple it is the meticulous attention to detail that sets Zenith apart. The strict formality of its angular styling belie the inherent comfort it delivers. The die-cast Aluminum Bridge in an OPAC Chrome finish allows the various materials to flow seamlessly together

without deviation. The design allows for various finish combinations for the back and arms while the carefully tailored seat upholstery sits effortlessly on its frame. Zenith fulfills its task well as a multi-purpose chair, it stacks and offers linking as an option.

Dimensions

OH-Overall Height OD-Overall Depth OW-Overall Width AH-Arm Height BH-Back Height SH-Seat Height SW-Seat Width SD-Seat Depth

Zenith

Standard Features

- Stacks up to 8 high

Design by Martin Ballendat

Martin Ballendat studied Design at the Folkwangschule in Essen. After working for various manufacturers around Europe he set up his own studio in 1995 in Austria.

A second studio soon opened in Germany, and today 'Design Ballendat' has eighteen employees working closely with a range of clients all over the world.

Zenith

Options

Zenith offers three principal chair combinations all with upholstered seats. There is the option of a plastic back, upholstered back or a veneered Plywood back.

At a glance

1. Choice of back styles, plastic, fully upholstered or veneered Plywood
2. Cast Aluminum connectors linking all elements
3. Armrests in Black plastic or veneered Plywood
4. Molded seat cushion with crisp tailored upholstery
5. Retractable linking
6. Fully shrouded under seat
7. Exquisite detailing of the fully welded frame
8. Stacks 8 high

Good to know

Simplicity executed perfectly with all features and interfaces in clear sight.

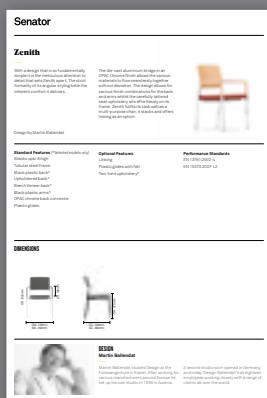

Please note: Features are model dependent, please refer to price list pages when specifying

to specify your chair...

1. Check the **Standard Features and Finishes** and select the **Model** you require
2. Select the **Fabric Grade** for the fabric you are using (standard fabrics are listed on page 126-133), this will give you the basic price per chair
3. Select any **Optional Extras or Alternative Finishes** you require and add on any extra costs as shown per chair
4. You now have the total cost and specification for **Your Chair**

When ordering, please ensure that you send us all this information, so we can correctly fulfill your requirements.

FABRICS

Fabric color matching:

The Senator Group does not guarantee and will not assume responsibility for the fastness of colors or wearing qualities of any material.

Due to dye lot variations, colors may not match exactly. Any adjustments made will depend upon the fabric manufacturer's willingness to stand behind their product.

Fabric puddling:

The content of certain fabrics makes these fabrics susceptible to puddling and wrinkling over which The Senator Group has no control. Changes in weather, humidity and continued use can affect these fabrics.

Directional fabrics:

Fabrics such as stripes, plaids and large scale patterns may not meet expectations due to certain sewing patterns, contoured shapes and seams. When required we will upholster to customer specification but such orders are not subject to return. If you have a question or concern about fabric application to any of our products please contact your Internal Sales Support team member and submit a fabric sample for approval prior to placing an order.

Two-tone upholstery:

Some products are available in two-tone contrasting upholstery. For pricing purposes price using the highest fabric group selected and add the two-tone option up-charge per unit. For Soft Seating we require a two-tone specification sheet to be submitted for each product to ensure we have interpreted your requirements correctly.

COM/COL Ordering Instructions:

ALL COM and COL fabrics must be submitted to The Senator Group for preliminary approval prior to shipment of fabric or leather.

The Senator Group approval signifies only that such materials can be applied to the products for which they are intended. This approval does not constitute any responsibility nor any warranty on the part of The Senator Group as to the appearance, behavior or durability of the COM and/or COL. The Senator Group reserves the right to reject any fabrics that, in The Senator Group's opinion, are unsuitable for application.

Send standard industry memo sample to:

The Senator Group,
Attn: Internal Sales Support,
4111 N. Jerome Road
Maumee Ohio 43537

Please tag memo sample for which product it is to be tested, also include your contact information.

Include application instructions for striped, plaid, patterned, or large scale repeats. In the absence of specific written instructions, fabrics will be cut, seamed and applied at our discretion and at the customer's own risk.

COM/COL orders will only be scheduled for production only upon receipt of production yardage.

Excess COM/COL materials will be discarded at the discretion of The Senator Group unless otherwise instructed by the customer at the time of purchase.

54" Fabric with a Print or Stripe Repeats:

Repeat: Increase COM Requirements:

1" – 7" 11%
8" – 13" 18%
14" – 21" 21%
22" – 27" 25%
27" – above

Contact Internal Sales Support team member

COM/COL Shipping and Receiving Instructions:

All approved COM/COL materials must ship to the following location and be tagged with dealer name and purchase order on all packing lists. Ship all materials to
The Senator Group,
4111 N. Jerome Road
Maumee Ohio 43537

Additional fabric finish options:

The Senator Group will add additional finishes to fabrics, included but not limited to NanoTex, DuraBloc or InCase. In these cases please increase your fabric grade by 1 grade to cover the cost. For example, if you have selected a Grade 2 fabric and would like to add InCase, please use Grade 3 pricing. Also, please make sure your PO clearly states that you would like to add the InCase treatment. This additional treatment will add approximately 2 – 3 weeks to The Senator Group's standard lead time.

Zipper Colors:

The Senator Group will make every effort to match zippers to the fabric the best we can, whether it's graded in or COM/COL fabrics.

FABRIC RANGES - MAHARAM

Maharam is available through Senator on upholstered products. Specify Senator's product in the corresponding grade of the desired fabric and Senator will handle ordering the fabric from Maharam.

All orders are subject to the availability of material from Maharam. Please note not all Maharam fabrics are approved for use on all Senator products. Please contact your Sales Support Team Member to ensure the fabric is approved for use.

For more information and memo samples of these or other Maharam fabrics, please refer to your Maharam library, call Maharam's Sample Department or visit their website - www.maharam.com

Care & Maintenance

Periodic maintenance is necessary to ensure long term durability and customer satisfaction. All products should be closely inspected each month. If any item shows signs of structural failure it should be taken out of service immediately.

Fabric

Please follow specific manufacturing guidelines when cleaning fabric. Cleaning with an unapproved solution could damage the fabric.

Neglect is the most common cause of the premature breakdown of any upholstery fabrics. Problems occur as a result of inadequate removal of dirt, dust and grit which settles on the surface of the upholstery. If not removed, the dirt and grit will eventually penetrate the structure of the fabric. With further agitation, as a user sits on the upholstery, the dirt and grit will act like sandpaper wearing away and breaking fibers in the fabric structure. If enough fibers are broken, a hole will eventually form in the upholstery.

In the same way, pilling can occur. Pilling involves loose fibers migrating to the surface of the fabric, which with further agitation as a user sits on the chair, will curl up to form tiny bobbles of fiber. Although pilling can occur with well-maintained fabrics, it is well known that soiling agents can initiate and/or significantly accelerate pilling.

Leather

Please refer to manufacturer guidelines for conditioning and cleaning. Regular maintenance may be necessary every 3 months to keep the leather surfaces from peeling or cracking.

Plastic/felt feet

Need to be inspected and replaced if worn.

Epoxy powder frames

Clean using a damp cloth with a mild solution of soap and water.

Chrome frames

Clean chrome with a good grade chrome cleaner to maintain a bright finish. Occasionally chrome leakage can occur on products that have been just delivered. Wipe down with a chrome cleaner to eliminate this.

Wood seating & tables

Wood is a natural product and owes its inherent beauty to the variations in color, texture, and grain which are not considered defects. Allermuir cannot guarantee the exact matching of colors between batches of wooden products, as wood naturally ages through time.

Seating

WANT TO KNOW MORE?

Senator

i-Workchair

i-Workchair is an intelligent seating solution developed to overcome the barriers of creating a flowing working environment. It has the ability to replicate a myriad of micro movements with ease and comfort, bringing a new generation of reclining action to synchronize with and replicate the body's natural pivot points, providing a seamless transition between upright and reclined postures.

i-Workchair utilizes a multi layered approach combining a technical weave fabric that sandwiches a 3D out perforated foam core, optimizing user comfort while allowing excess heat to vent away from the back muscles, discouraging fatigue. Its 4D arms are truly multi adjustable and have adjustments able to cater for individual requirements but beyond this, support a diverse range of working styles and tasks.

Design by Justus Kolberg

Standard Features (*Selected models only)

- 2.5" hard wheel castors
- Aluminum back frame
- Synchronised mechanism with tension adjustment and back locking function in 3 positions
- 3.25" Adjustable lumbar
- 2.25" Seat depth adjustment
- Height adjustable arms with 4D armpad

Technical inner and outer back fabric with

- 3D out perforated foam core
- Seat side panels in complementary technical fabric
- Dual density seat foam
- Fully adjustable headrest with coat hanger*
- Back pivot buffers

Optional Features

- Coat hanger
- 2.5" Black soft wheel casters with a Chrome ring wheel inlay
- 2.5" soft wheel casters

DIMENSIONS

Design by Justus Kolberg

"With so much to think about and so many things to move and adjust the skill is in the seamless transition and flow from one element to the next and one material type to another, this is where the form and the proportions of each element is key and must be fully considered so that in the end the final appearance is exquisite and balanced and we can readily say I want one of those."

is a multi layered approach... technical weave fabric that... 3D out perforated foam core, comfort while allowing... away from the back... going fatigue.

PRODUCT TESTING

Products have been extensively tested to exceed industry testing standards established by BIFMA. Products have been tested to meet or exceed the following standards as applicable:

ANSI/BIFMA x 5.4 – 2012 Lounge and Public Seating

ANSI/BIFMA x 5.4 – 2005 Lounge and Public Seating

ANSI/BIFMA x 5.1 – 2011 General Purpose Office Chairs

ANSI/BIFMA x 5.1 – 2002 General Purpose Office Chairs

ANSI/BIFMA x 5.1 – 2017 General Purpose Office Chairs

Flammability

All products meet California Technical Bulletin #117-2013.

California Technical Bulletin 133

California Technical Bulletin 133 is a very severe open flame test, mandatory for furniture sold in what is called “public occupancies” in the state of California.

It should be noted that several other states have adopted California Technical Bulletin 133 for the same occupancies in their states.

All purchase orders requesting CAL TB133 must clearly state whether the need is for TB133 compliance or certification.

CAL133 TB133 Certificate

Involves a full scale test and an additional 4 weeks is required on our standard lead time. The cost of this test is \$650 net. In addition you must purchase the unit in which you would like certified with the appropriate grade fabric. You will receive a full report documenting whether the unit has passed or failed certification. If passed you will also receive a compliance certificate.

Many Senator products comply with California TB133. Please contact customer service for a complete list of products.

The up-charge for this is as follows:

Chair/High stool

- Seat \$60 list

- Seat & back \$100 list

SCS Certification:

Please contact your Internal Sales Support Specialist for the most current certificate.

Electrical:

Where applicable electrical units used within the Senator product have been UL approved and/or CSA approved.

ORDERING AND DELIVERY

Ordering Information

All orders should be placed with:
Senator 4111 N. Jerome Road,
Maumee Ohio 43537
Phone: (419)887.5806
Toll free: (888)887.5806
Fax: (419) 887.5805

Please contact a Senator Internal Sales Support team member, to verify inventory and production schedules and to ensure requested ship date prior to placing large quantity orders.

Checklist for Ordering Furniture

To avoid delay in order processing, please ensure the following information is included with your purchase order.

1. Quantity
2. Item number
3. Finish
4. Fabric pattern, color & application instructions: if applicable
5. Your purchase order number
6. Shipping destination
7. Shipping instructions: if applicable

Payment Terms

Non-account Customer's:
A 50% deposit is required with order, with balance due prior to shipment

Account Customer's:
Payment terms are 30 days from date of invoice

Non standard products:
50% deposit is required with order to begin production.

Freight Delivered Program

To delivery locations in the continental United States and Canada, all pricing in this specification guide freight is FOC (free of charge) in excess of over \$4,000.00 list. FOC standard delivery is provided via common carrier which is included in the product pricing. Order minimums do apply:

- Orders of less than \$4,000 list will be assessed a handling charge of \$95 net per order.

FOC Standard Freight Delivered pricing does not include inside delivery, installation, unpacking, removal or disposal of cartons and/or packaging materials. Should additional charges be incurred by Senator due to delivery issues after initial billing, the purchaser is liable for the additional charge and will be invoiced.

WARRANTY

Limited Warranty

10 Years

Senator Group North America, warrants to the original purchaser that its products are free from defects in materials and workmanship for a period of ten (10) years from date of delivery, except as noted below. This warranty applies to single shift (standard 8-hour day, 5 days per week) use, and covers products delivered in the Americas: Canada, the Caribbean, Latin America, Mexico and the United States.

Exceptions

5 Years

Stacking chairs, metal chair frames, seating components including controls and adjustment mechanisms, height adjustment mechanisms and pneumatic cylinders, monitor supports and tablet arm assemblies, wood veneer and thermally fused laminate (TFL (edge 69)) surfaces, urethane and wood edge treatments, upholstery and tailoring.

3 Years

Electrical components and power supplies, ballasts, casters, glides, exposed wood frames, marker board surfaces, granite and glass surfaces, replacement parts.

Fabric

Senator Group North America, offers no warranty, either implied or expressed, on any fabrics or leathers used on our products. Fabrics and leathers carry warranties from the fabric manufacturer or reseller. Please refer to each reseller's warranties before specifying. Because every fabric specification is different and application for use must be taken into consideration, Senator Group shall not be held responsible in any manner for wrong specification of fabric for tailoring, wear, durability, or light fastness.

Exclusions

Warranty does not apply to product failure or loss resulting from:

- Normal wear and tear.
- Failure to apply, install or maintain products according to published

The Senator Group, Senator or manufacturer instructions and guidelines

- Abuse, misuse, neglect or accident.
- Unauthorized alteration or modification of the product
- Products exposed to extreme environmental conditions or improper storage
- Substitution of any unauthorized components that are integral to the performance of the product

Warranty does not cover:

- Replacement parts are covered for 3 years not to exceed the balance of the original warranty
- Customer's own materials including, but not limited to solid surfaces, laminates, textiles and upholstery materials, leathers, wood and wood veneers. These materials are subject to the original manufacturer's warranties only
- Variations in surface materials including color, grain, texture
- Variations in leather such as scars, wrinkles, and other marks
- Variations in wood such as color, staining, grain, scars and other marks
- Color fastness due to aging or exposure to sunlight
- Consumables, such as batteries, light bulbs and lamps
- Products purchased "as is", used or secondhand
- Products sold by unauthorized dealers or installers

Warranty Provides Exclusive Remedies

Under this warranty, if a product fails during normal use during the warranty period as a result of a defect in materials or workmanship, Senator Group NA will, at its sole discretion, either repair or replace the product free of charge. If Senator Group NA determines the repair or replacement of the product(s) is not commercially practical, Senator Group NA may choose to refund the purchase price of the affected product.

This warranty applies to products purchased on or after March 1, 2016. For products purchased prior to March 1, 2016, please refer to the warranty terms and conditions in effect at that time.

THIS LIMITED WARRANTY IS THE SOLE REMEDY FOR PRODUCT DEFECT AND NO OTHER EXPRESS OR IMPLIED WARRANTY IS PROVIDED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SENATOR GROUP NA SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, SPECIAL, PUNITIVE OR INCIDENTAL DAMAGES.

This warranty is non-transferable and valid to the original purchaser only. Warranty is enforceable only if products were acquired and installed by Senator Group NA or one of its Authorized Resellers.

TERMS & CONDITIONS OF SALE

SENATOR INTERNATIONAL, INC., an Ohio corporation d/b/a Senator ("SIC") does business with its Buyers under the terms and conditions set forth herein. SIC hereby rejects any terms and conditions contained in any Buyer purchase order or other business forms or in correspondence or elsewhere or implied by trade, custom, practice or course of dealing unless specifically included or varied in writing by a director or other authorized representative of SIC which are different from or in addition to the terms stated herein. "Buyer" means the person or entity whose order for the goods is accepted by SIC. "Goods" means the goods (including any installment of the goods or any parts of them) which SIC is to supply in accordance with these conditions. Any reference in these terms and conditions to singular includes plural.

1. Acceptance of Orders

All orders are subject to the approval of SIC, and SIC shall not be committed to honor any order until SIC has provided to Buyer written acceptance of the order.

2. General Terms of Payment and Financial Requirements

- a) Terms of payment are NET 30 DAYS from date of invoice, except where otherwise specified in writing by SIC. Credit amounts are subject to satisfactory references and verification by our credit insurers (Euler Trade indemnity). Time of payment shall be of the essence for all contracts between SIC and Buyer.
- b) A LATE PAYMENT CHARGE OF 2.5% PER MONTH WILL BE IMPOSED ON ANY PORTION OF ACCOUNT NOT PAID WITHIN TERMS STATED ON INVOICE. However, if this rate exceeds the maximum rate permitted under applicable law or regulations, the charge shall be reduced to the maximum allowable rate.
- c) SIC may offer special payment and/or shipment terms. In such event, these special terms shall supersede the general terms of payment and/or shipment, provided that such special terms are fully stated in a SIC INVOICE, signed by an authorized representative of SIC.
- d) If Buyer shall
 - (i) commit any breach here under;
 - (ii) file for or become subject to bankruptcy or receivership;
 - (iii) liquidate or cease business;
 - (iv) make arrangement with or composition for the benefit of any of his or its creditors; or

- (v) if in the opinion of SIC, Buyer's credit becomes impaired, SIC shall still have the following rights and remedies in addition to any other rights and remedies provided by applicable law.
- (i) All sums shall become immediately due and payable, notwithstanding any credit terms previously in effect.
- (ii) SIC may refuse any order placed by Buyer.
- (iii) SIC may cancel any accepted orders or delay shipment of any order without any liability to Buyer therefore.
- (iv) No order may be canceled by Buyer without SIC's consent in writing, and such cancellation will be subject to a charge of 25% of order value or 15% if the product can be reused.
- (v) If credit previously has been extended by SIC to Buyer, and SIC elects to make further sales to Buyer, SIC may require payments on a C.O.D. or cash-in-advance basis.
- (vi) In the event collection of sums due from Buyer to SIC is referred to lawyers or debt recovery agents or if proceedings are brought to collect such sums or to enforce the rights of SIC, Buyer agrees to pay all costs and reasonable fees, including attorney fees and such costs and fees incurred in any proceedings or appeal and in executing on any judgement.
- e) SIC shall have the right to change its financial requirements of Buyer at any time.
- f) Prices stated do not include sale or use taxes, tariffs, and any other governmental changes, taxes, or duties payable by SIC, which will be added to invoice wherever applicable. If any of the foregoing changes are assessed after delivery of Goods, Buyer will

pay same upon demand of Seller.

- g) SIC shall be entitled to a general lien on any Goods and other property owned by Buyer in SIC's possession (although the Buyer may have paid for the same in full) in satisfaction of the whole or part as the case may be of the unpaid price of any Goods sold and delivered to Buyer under any contract. SIC shall be entitled to offset any sum or sums owing by it to Buyer against any sums owed by Buyer to SIC.

3. Warranty

SIC's only warranties shall be those expressly set forth herein and SIC makes no other representations or warranties concerning the Goods including, but not limited to, any warranty of fitness for a particular purpose. SIC warrants that the Goods shall be free from defects in workmanship or materials for the twelve (12) months following delivery by SIC to Buyer. Any remedy claimed for failure of such warranty shall be only upon the terms and conditions as limited by this Agreement.

Buyer must notify SIC, in writing, of any claimed defect as soon as practical after discovery thereof by Buyer. Upon such notification, SIC may, at its option, confirm that the Goods are, in fact, defective. Upon such determination, SIC may, at its option, either

- (i) repair such defective Goods at Buyer's location at no cost to Buyer or
- (ii) require that Buyer return the defective Goods as set forth in the following Section 4 for either replacement by SIC or refund of the purchase price (at SIC's option). Buyer's remedies for any breach of warranty shall be

limited as set forth herein and any other remedy is hereby waived by Buyer (including any claim for consequential damages, loss of profits, good will, reputation, bodily injury, or claims from third parties). In no event shall SIC's liability to Buyer (whether for breach of warranty, breach of contract, negligence, misrepresentation, or otherwise) exceed the cost of the Goods which gave rise to such claim liability. SIC does not accept (and expressly disclaims) any responsibility for electrical work installation which SIC's personnel do not supervise and all electrical installation must be undertaken by Buyer through a competent and qualified licensed electrician.

4. Returns and Replacements

Defective Goods will be accepted only with prior authorization from SIC's head office and receipt of SIC's RETURN/AUTHORIZATION NUMBER. Goods returned are not to exceed quantity authorized. All returns must have freight prepaid. Credit will be issued (or Goods replaced) only after Goods are inspected and approved and will be based on Buyer's cost for the Goods in question, less any costs for transport and re-packaging.

- a) Goods defective on delivery may be returned for exchange or full credit.
- b) Goods incorrectly delivered by SIC may be returned for full credit.
- c) Goods incorrectly ordered may be returned subject to a handling charge of 25% of invoice.
- d) Samples will be credited in full if returned in good condition within 60 days of delivery.
Payment must be made in full for all samples not returned within this period.

5. Changes

- a) SIC shall have the right to reduce, or increase prices to Buyer at any time without prior notice, except with respect to orders which have been accepted prior to such price modification.
- b) SIC may at any time add, change or cease making available any Goods without notice to Buyer, and Buyer shall have no claim against SIC for failure to furnish Goods of the type previously sold.
- c) SIC may at any time change warranty without incurring any liability to Buyer.

6. General Terms of Transport

- a) Unless otherwise quoted All shipments are F.O.B. point of shipment, freight prepaid and allowed, excluding fuel surcharges. Shipments outside of the Continental United States and Canada are freight prepaid and allowed to port of exit. Senator reserves the right to select the most appropriate carrier and routing on all shipments that that are shipped. Senator reserves the right to implement a fuel surcharge. Buyer shall accept all risk of loss or damage to the Goods while in transit.
- b) Delay in transport or delivery of any particular instalment or delivery of faulty Goods in any one installment shall not entitle the Buyer to repudiate the whole order nor relieve Buyer of its obligation to accept and pay for the remaining installments.
- c) SIC shall endeavour to make deliveries within a reasonable time. HOWEVER, SIC SHALL NOT BE LIABLE TO BUYER FOR ANY DAMAGES, WHETHER INCIDENTAL, CONSEQUENTIAL OR OTHERWISE, FOR FAILURE TO FILL ORDERS, DELAYS IN DELIVERY OR ANY ERROR IN THE FILLING OF ORDERS.
- d) Time of delivery shall not be of the essence to any contract to which these Terms and Conditions apply and shall not be made so by the service of any notice.
- e) Notwithstanding delivery and passing of risk, the Goods shall remain the property of SIC until such time as Buyer shall have paid to SIC the agreed price in full (together with any accrued interest) and all other amounts owned by Buyer to SIC in respect of any other contract for the sale of Goods and until such payment the Buyer shall hold the Goods as Bailee on behalf of and in a fiduciary capacity for SIC and the Buyer shall insure the Goods for their full market value. SIC shall have the right, at its option, to file one or more UCC financing statements with governmental offices to indicate SIC's rights as owner of such Goods (or as security interest holder in such Goods and for purposes thereof, this Agreement shall be deemed a Security Agreement).
- f) In the event that the Buyer sells the Goods prior to payment to SIC in full, the Buyer acknowledges that the entire proceeds of sale are held in trust for SIC and shall not be mixed with other monies or paid into any overdrawn bank account and shall at all times be identifiable as SIC's monies.

7. Force Majeure

- a) SIC shall not be liable to Buyer for any loss or damage which may be suffered by Buyer as a direct or indirect result of the supply of Goods by SIC prevented, hindered, delayed, canceled or rendered uneconomic by reason of circumstances or events beyond SIC's reasonable control ("force majeure circumstances") including, but not limited to, strikes; lockouts; labor disputes; act of God; war; riot; civil commotion; malicious damage; compliance with any law or governmental order, rule, regulation or direction; accident; breakdown of plant or machinery; fire; flood; storm; difficulty or increased expense in obtaining workers; material or transport or other circumstances affecting the supply of the Goods or of raw materials by SIC's normal source of supply of the manufacture of the Goods by SIC's normal means or the delivery of Goods by SIC's normal route or means of delivery.
- b) In force majeure circumstances, SIC may (in its sole discretion) terminate any contract for the supply of goods pursuant to the Terms and Conditions or cancel delivery of Goods to Buyer or may, with the agreement of the Buyer, deliver Goods at an agreed rate of delivery commencing at a reasonable time after the termination of the force majeure circumstances.
- c) If due to force majeure circumstances SIC has insufficient stocks to meet all its commitments, SIC may apportion available stocks between its Customer's at its sole discretion.

8. Miscellaneous

- a) If any of these Terms and Conditions is held to be invalid, illegal or unenforceable in any respect, whether in whole or in part, such invalidity, illegality or unenforceability shall not prejudice the effectiveness of the rest of the remainder hereof.
- b) No waiver by SIC of any breach of contract by the Buyer shall be considered as a waiver of any subsequent breach of the same or any other provision.
- c) Any contract to which these Terms and Conditions shall be governed by, and construed in accordance with, the laws of the State of Ohio. Buyer consents to the jurisdiction of, and venue in, state and/or federal courts sitting in Lucas County, Ohio.
