

RhinoAg: Turf Mowers

X SERIES

Ideal for contractors, sod farms, polo clubs, and local government

Simple height adjustment from 1/2" - 5" for versatile and year-round mowing

Designed for tractors with 50-150 PTO HP

100% gear driven, no belts

Sealed internal roller bearings for total protection against moisture, soil, and debris

Full-length rollers follow the ground contour, prevent scalping, and produce perfect stripes

Body produced from 8 gauge Strenx® 700MC and hot dipped galvanized

Compact transport widths allow operators increased accessibility

RhinoAg: Specifications

X SERIES

Specifications	X1406	X1808	X2009	X2411
Cutting Width	13' 1" (157")	213"	240"	288"
Transport Width	96"	75"	102"	102"
Overall Width	164"			
Transport Height	87"	114"		142 3/4"
Overall Length	141"	218"	245"	293"
Cutting Height	Up to 5"			
Hitch	Pull-type			
Blade Carrier	3/4" x 3/8" spring steel, hardened and tempered			
No. of Blades	12	16	18	22
Blades	3" x 1/4" spring steel ground edged parallel hardened and tempered, pivoting on high tensile pivot bush assembly			
Rotors	6	8	9	11
Mowing Rates	11.4 acres/hr @ 7mph	14.5 acres/hr @ 7mph	16.3 acres/hr @ 7mph	20 acres/hr @ 7mph
Blade Overlap	2 1/2"			
PTO HP Required (Min)	50 HP		90 HP	105 HP
Tractor PTO	540 RPM		1,000 RPM	
Output Shaft Diameter	1 1/2" (40mm)			
Gearbox Oil	85W-140 factory filled			
Blade Tip Speed	14,764 FPM			
Drivelines	540 RPM - 1 3/8" 6-spline V60 wide angle shaft with shearbolt		1,000 RPM - 1 3/8" 21-spline V60 wide angle shaft with shearbolt	
Deck Thickness	8 gauge Strenx® 700MC folded monocoque construction with reinforcement and underside trough is 8 gauge Strenx® 700MC			
Tire	300/65/12 (8-ply rating)			
LED Light Kit	Standard			
Weight	3,671 lb.	4,035 lb.	4,460 lb.	5,000 lb.

**ROLLER BEARINGS**

Sealed internal roller bearings offer total protection against moisture, soil, and debris

**LONG-LASTING BLADES**

Produced from 1/4" sprung steel to offer hours of continuous work without needing to sharpen

**WHEEL KIT**

An option that guarantees you are ready for any mowing conditions. Think of it as having the best of both worlds!
