700 Series® Desk Specifications

700 Series® Desk Specifications

The 700 Series® Desk line is a free standing, modular system of desks, returns, bridges, credenzas, corner units and overhead storage components. Designed for flexibility, it can be set up to suit differing customer requirements. It is shipped knock-down and accepts 700 Series® or U-Series® Pedestals.

Worksurfaces

Worksurfaces shall be 1-1/4" thick laminate top with a particle board core. Edge treatments shall be self-edge, wood edge or 74P polypropylene. All tops shall be pre-drilled for mounting of end panels, modesty panels, wire management channels, return or bridge connectors and hanging or worksurface supporting pedestals. Worksurfaces shall be available with left and right grommet options, or center PowerUp® module.

Desk Shells

Desk shells shall consist of a worksurface top, two end panels, full or partial modesty panel and wire management channel. Desks are available in depths of 24", 30" and 36", and widths of 48", 54", 60", 66" and 72" and shall be 29" high. The 36" deep desk worksurface shall have a 6" overhang. The desk shall accept a variety of hanging or worksurface supporting pedestals.

End Panels

Desk, return, corner, and credenza end panels shall be floor height and feature double-wall construction. The outer panel shall be 20-gauge with double flanges formed on both vertical edges and single flanges formed on the top and bottom. The inner panel shall be 20-gauge with flanges formed on all edges. Two keyhole pads of 16-gauge shall be welded into the top of the end panel to interface with shoulder screws for mounting to the top. The outer and inner panels shall be spot welded together, as well as fastened together at the bottom with the nut inserts that accept the leveling glides. Two 20-gauge channels shall be welded into the 36" deep end panels to provide additional reinforcement. All end panels shall feature prepunched holes through two metal thickness for connecting modesty panels.

Desks, credenzas, P-shape worksurfaces, D-shape worksurfaces and corners shall be 29" high. Returns and bridges shall be available in 29" high. Both interface with the desk or corner unit with 16-gauge connectors that are screwed to the tops.

Modesty Panels

Desk, return, corner, bridge and credenza modesty panels shall span the full width of the unit connecting to the end panels. The modesty panels shall be spaced down from the top by 1-5/8" to allow for the routing of cables. They shall be available in full floor length, for privacy, or partial, which is spaced up off the floor by 8-3/8" for outlet access and increased air circulation. The modesty panels on a 36" deep desk shall be recessed by 6" for visitor knee space. All modesty panels shall be 20-gauge with double flanges formed along the top and bottom. Desk and

credenza panels shall have single flanges formed on both vertical edges. Return panels shall have offset flanges formed on one end and a single flange on the other. Bridge panels shall have offset flanges formed on both ends. The vertical flanges of all modesty panels have prepunched holes for connecting to the end panels.

Wire Management

Desks, returns, corners, bridges and credenzas shall be equipped with a wire management channel. This 20-gauge channel shall have the bottom edge hemmed for safety and strength. The wire management channel shall fasten to the underside of the top and run between end panels.

Returns

Returns shall be the same construction as the desk and credenza worksurfaces. Returns consist of a top, end panel, full or partial modesty panel and wire management channel. They are available in depths of 24" and 30". A 24" deep return is available in widths of 24", 30", 36", 42", 48", 54", 60", 66" and 72" and shall be 29" high. A 30" deep return is available in widths of 36", 42", 48", 54" and 60" and shall be 29" high. One level connector will be included with each return.

Bridges

Bridge worksurfaces shall be the same construction as the desk and credenza worksurfaces. Bridges consist of a top, full or partial modesty panel and wire management channel. They are available in depths of 20" and 24" and widths of 36", 42", 48", 54", 60", 66" and 72" and shall be 29" high. Two level connectors shall be included with 29" high units.

P-Shape Worksurfaces

P-Shape worksurfaces shall be the same construction as the desk and credenza worksurfaces. The worksurfaces shall be available in 30" or 36" depths and 60", 66" and 72" lengths and shall be 29" high. The P-Shape worksurface shall be available for mounting right or left. The worksurface is standard with a supporting T-base and 14-gauge tubular leg. Product is designed to be mounted to adjacent surfaces.

D-Shape Worksurfaces

D-Shape worksurfaces shall be the same construction as the desk and credenza worksurfaces. The worksurfaces shall be available in 30" or 36" depths and 60", 66" and 72" lengths and shall be 29" high. The worksurface is standard with a supporting T-base and 14-gauge tubular leg. Product is designed to be mounted to adjacent surfaces.

D-Shape Returns

D-Shape returns shall be the same construction as the desk and credenza worksurfaces. The returns shall be available in 24", 30" or 36" depths and 36", 42", 48", 54", 60", 66" and 72" lengths and shall be 29" high. The return is standard with a supporting 14-gauge tubular leg and includes a level connector.

P-Shape Returns

P-Shape returns shall be the same construction as the desk and credenza worksurfaces. The worksurfaces shall be available in 30" or 36" depths and 60", 66" and 72" lengths and shall be 29" high. The P-Shape returns shall be available for mounting right or left. The return is standard with a supporting 14-gauge tubular leg and includes a level connector.

Corner Units

Corner units shall accept 29" high returns and bridges. The corner units shall be 24" deep and 36" or 42" wide and 30" deep and 42" or 48" wide. The modesty panels shall be 20-gauge and consist of two end panels with one leveling glide each and two side panels with two leveling glides each. The end panel and side panels shall have double flanges formed along the bottom and both vertical edges. A single flange with prepunched holes shall have double flanges formed on the top and bottom and single flanges on the vertical edges. It shall be spaced down from the top by 1-5/8" to allow for the routing of cables.

Credenza Top

Credenza top shall be constructed of 1-1/4" thick particle board available in self edge, wood edge or polypropylene edge. The top shall be available 20" or 24" deep and 60" wide and shall be predrilled to accept up to four worksurface supporting pedestals.

Credenza Shell

The credenza shell consists of a 1-1/4" particleboard top available with self edge, wood edge or polypropylene edge. The top shall be available in a 20" depth and 62" width and 24" depth and 60" and 62" widths. It is available with either a full or partial modesty panel and end panels of 20-gauge steel. The credenza shall accept up to four hanging or worksurface supporting pedestals.

Overhead Storage

Units shall be standard with an open back allowing for interaction in a group situation. Overhead storage shall be available in an open or closed style. The closed style overhead storage shall have one door on 30", 36", 42", 48", 54" and 60" and two doors on 66" and 72". The door shall have a lock as standard. The closed overhead doors are available in steel or fabric covered steel.

Tackboard/Screen

The tackboard/screen shall close the back of an overhead storage unit and offer a tackable surface. The screen shall be constructed of 1-1/8" thick fabric wrapped particleboard. The screen shall be available in rectangular widths of 30", 36", 42", 48", 54", 60", 66" and 72" and 19" height. The tackboard/screen shall attach to the worksurface with 12-gauge steel metal brackets screwed into the worksurface. There shall be a 1-5/8" space between the worksurface and the tackboard/screen for cord access. Corner screen available in 36", 42", and 48" widths and 19" or 36" height.

Countertop

The countertop shall be constructed of 1-1/4" particleboard and shall be available with self edge, wood edge or polypropylene edge. The countertop shall be 15" high, 12" deep and available in 60", 66" and 72" widths. The countertop unit shall consist of three steel vertical panels and a fabric covered privacy screen/tackboard attached to the back of the unit. The end steel support panels shall be of 20-gauge formed steel. The middle support panel shall be of 18-gauge formed steel.

Task Lights

Task lights shall be offered in three levels of efficiency and cost. The standard light shall have a magnetic high-power factor ballast with rapid start, cool white T-8 fluorescent lamp. The energy efficiency model shall have an electronic ballast with rapid start, cool-white T-8 fluorescent lamp. The third model shall have 2-step (hi/low) high-power factor ballast with rapid start, cool-white T-8 fluorescent lamp which shall help reduce glare on computer screens and help reduce eye strain. Task lights shall attach to the underside of the shelf on overhead cabinets. Lights shall be UL Listed and available in black only. They shall be available as 20" wide for use with 30" and 36" wide overhead cabinets, 32" wide for 42" and 48" wide units and 48" wide for 60", 66" and 72" units.

Center Drawer

The center drawer shall mount below a 24" or 30" deep worksurface which has an 18" wide clearance. The drawer pan shall be constructed of 22-gauge steel with a hem along the front edge for safety and strength. A deep rib shall form a pencil tray and provide additional strength and a double flange across the back shall prevent spillage of contents. The drawer sides shall be 20-gauge with a hem along the top edge for safety. The drawer shall run on a pair of full extension, ball-bearing suspensions and shall be available with or without a lock, keyed randomly as standard. Field drilling for installation shall be necessary. The center drawer shall be painted to match the color of desk.

Key Options

There are various key options available depending on the component model. The key alike option (KA) allows multiple components of a workstation to be keyed alike. The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The No lock core (NLC) provides more flexibility in keying workstations alike. All locks and keys for the individual components specified with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation.

Fabric

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied.

700 Series® Desk Specifications

The posted standard lead time will apply to the Special Cost Request.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select edge style.

- SE** - Self edge
74P - 74P edge
34S - 3/8" Wood band edge

C Select modesty panel style.

- F** - Full
P - Partial

D Select grommet option.

- NG** - No grommets
G - Grommets - left and right; add \$67

E Select desk color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

F Select laminate color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

G Select wood edge color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

H Select trim/edge color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

Color selection will also apply to the accessory color and grommet color. All colors are monochromatic except Flannel (TFN) and Wet Sand (TWS). For the exceptions, the accessories and grommets for Flannel paint are BL and Wet Sand paint receives SA accessories and grommets.

INFORMATION

Wood Color Variations

High quality wood table edges and surfaces are characterized by distinctive natural colors and grain colors. Due to natural variations of fine woods, it is impossible to exactly match colors and grains with consistency.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
- SE** - Self edge
74P - 74P edge
34S - 3/8" Wood band edge
- C** Select modesty panel style.
- F** - Full
P - Partial
- D** Select desk color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
- E** Select laminate color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
- F** Select wood edge color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

- G** Select trim/edge color.
Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

INFORMATION

Wood Color Variations

High quality wood table edges and surfaces are characterized by distinctive natural colors and grain colors. Due to natural variations of fine woods, it is impossible to exactly match colors and grains with consistency.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
Nevamar - LN/supplier's color pattern code
Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

Wood Color Variations

Wood Color Variations
High quality wood table edges and surfaces are characterized by distinctive natural colors and grain colors. Due to natural variations of fine woods, it is impossible to exactly match colors and grains with consistency.

FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code
 Nevamar - LN/supplier's color pattern code
 Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern.

Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

NLC - No lock core

A Select basic model.

B Select pull option.

ALBT - Aluminum Bow Tie

ALMT - Aluminum Metric

ARCN - Arc Nickel

CLSC - Classic (inset pull)

NKBT - Nickel Bow Tie

RETN - Retro Nickel

C Select unit and drawer color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

D Select counterbalance weight.

CBW - With Counterbalance

NOCBW - No Counterbalance

See pricing column for counterbalance weight upcharge.

E Select key option.

KA - Key alike

KS - Key standard
