1.0 Introduction

The Pascagoula-Gautier School District through the Office of Federal Programs is soliciting written proposals from potential providers for a web-based program to provide a database system to manage the federal compliance requirements school districts must meet when educating English Learners.

2.0 Project Overview

The Pascagoula-Gautier School District seeks a web-based program to provide a database system to manage the federal compliance requirements school districts must meet when educating English Learners. This database system will be used by teachers and administrators to track a variety of data points and written reports.

3.0 Scope of Work

- A.** The program will allow educators to review students proficiency levels;
- B.** The program will allow educators to enter and monitor students accommodations and modifications;
- C.** The program will allow educators to monitor current, reclassified, and exited students;
- D.** The program will hold historical data on students as they progress through the program;
- E.** The vendor will provide the service for SY18-19, SY19-20, and SY20-21

4.0 Specifications

4.1 Focus of Web-based Software Program

- The program will be compatible with the state's adopted English Language Proficiency Testing program
- The program will allow filtering of student data on multiple levels by multiple data points in order to help educators focus differentiated instruction
- The program will document student needs, annual goals, and current EL services
- The program will provide information on the students proficiency levels in the areas for listening, speaking, reading and writing of the English language
- The program will provide educators with online templates for the language service plan that is required on every identified English Learner
- The program will provide compliance communications to parents in a variety of languages
- The program will be able to interface with the district's current student information system for automatic uploads of new student data

4.2 Expected Outcome

- Students will increase their level of English proficiency in the areas of listening, speaking, reading and writing
- Teachers will be better able to meet the needs of English learners in the area of English language arts
- Increase in student performance on class and district assessments
- Increase in student performance on state assessments
- Through historical data, teachers will be able to see the progression of students acquisition of the English language

4.3 Requirements

- Program must be supported on computers, chromebooks, and tablets
- Program must be web-based
- Program must handle at a minimum 1000 students in the database
- Minimum of 30 educator licenses
- Licenses to be activated no later than December 1, 2018
- Licenses to be active for 365 days from activation date
- Client will be billed in November of SY18-19, in November of SY19-20 and in November of SY20-21
- Program must transfer existing student data and maintain historical student data
- Onsite professional development available for users
- Onsite, online, and phone technical support available

5.0 Procedures for Delivery of Proposals

The proposal must address how the web-based software provider will meet all the specifications of the RFP number 509-19.

The proposal must be received on or before 1:00pm Wednesday, October 24, 2018 at the following address:

Pascagoula-Gautier School District
ATTN: Dr. Frank Catchings
