

FEATURES

CLASSIC STYLING

The Core shows its approach with a clean slim profile and nicely tailored upholstery over 9to5 Seating's trademark in-house molded foam.

RICH WITH OPTIONS

Core offers four different arm options in addition to armless and guest models. Design choices include two accent color finishes, hundreds of upholstery choices, and three base finishes. Core matches function & comfort with style and sophistication for any workspace.

THREE CONTROL CHOICES

Included is one of our new weight-balance controls that will self-adjust the back tension to your body weight and movement. Our enhanced knee-tilt control and a high function full 2:1 synchro with independent back angle lock and built-in seat depth adjustment. The Core can be personalized to meet the ergonomic needs for work stations, collaborative spaces and everything in between.

All new mid-profile base Available in molded Gray or Black finish with matching hubless casters or upgrade with the same new mid-profile style in polished aluminum.

MADE IN AMERICA
SEATING

The essence of the Core is in the superior comfort and support of foam-over-mesh back construction designed into a thin sleek profile. An inner structural frame and mesh provides the flexible support of a mesh back while the soft molded foam cushion provides classic comfort. Finish this off with a durable plastic outer back with adjustable ratchet making Core the foundation for any office.

CORE, THE ESSENCE OF SEATING

EUROPEAN STYLING, AMERICAN INGENUITY

An accent colored durable plastic back is smartly fitted against the finely tailored upholstery. The molded foam cushion covers an internal flexing mesh that allows the thin sleek back to feel firm but comfortable.

Matching accent color 6 WAY ADJUSTABLE ARMS

Contemporary, sleek and with the same accent colors as the back and base these 6-way adjustable arms show great design with ergonomic performance.

W1 CONTROL

A new "sit and forget" weight-balanced control that utilizes the weight of the user to balance the back tension. The control has a 3:1 back-to-seat synchronous movement with 2 back lock positions. Perfect for conference areas or passive user applications.

DESIGNERS' CHOICE BASE AND CASTERS

Newly designed mid-profile molded Nylon base sits atop color matched 60 mm hubless casters to finish the distinctive style that is Core. Available in Gray or Black finish or upgrade the same style base to polished aluminum.
