FEATURES

COMFORT. TAKEN UP A NOTCH

Dash, our newest multi-purpose chair with flex is adding in another ingredient—cool. Using a combination of perforated plastic and ergonomic support, Dash delivers above and beyond what most multi-purpose chairs offer. This attention to comfort together with its versatility and stackability make Dash the smart choice for meeting room, classroom or café and break spaces. Choose Dash for a breath of fresh air.

PERFORATED TO PERFECTION

The secret of Dash's remarkable comfort is its innovative dual approach: breathability and support. Dash's perforated back provides ventilation and cooling that's designed-in. And its two flex zones encourage movement for not only ergonomics, but also active sitting for a variety of users. These two approaches work together to create a user experience that's a cut above multi-purpose seating.

HERE AND THERE

Dash is as easy to store and maintain as it is to use making it the perfect solution for changeable spaces like cafeterias, classrooms or meeting spaces. Easy-grip edges make Dash an easily movable chair, while its ability to stack makes it easy to store. Its waterfall seat promotes circulation and its durable frame makes for longevity and easy maintenance.

DESIGN YOUR DASH

Dash comes with a variety of features and options that can be customized. Whether that means glides or casters for movability or arms or armless for space planning, Dash is an easy addition. Available in plastic or upholstered seat options for coordinating with an existing space or creating your own. Plastic shell colors and frame finishes can be coordinated with arm pads for a whole-office look.

INNOVATION

With two innovative flex zones, Dash delivers real comfort and ergonomics for long meetings or a changing variety of users. With a back that allows for movement, Dash supports focus and provides all-day comfort unheard of in a stacking chair. Fostering wellness and well-being, Dash is seating whose time has come.
