seating

## FEATURES

---

### WORK, REVOLUTIONIZED

In 1984, Steve Jobs introduced US consumers to Apple® and transformed the way we work. That same year, in Europe, designer Peter Opsvik created the HÅG Capisco chair and altered the way people found comfort while performing that work. Today, as the motion seating movement catches fire in workspaces across North America, the HÅG Capisco chair is a solution with perfect timing.

### WHERE TO NEXT?

In imagining the HÅG Capisco chair, legendary designer Peter Opsvik boldly declared, “The best posture is always the next one.” That means enabling you to not just choose from a pre-set number of chair settings, but to use the chair however you need. It’s about breaking out of the status quo to find the sweet spot and “working outside the box.”

### SUSTAINABILITY

HÅG and 9to5 Seating share a commitment to the environment. HÅG Capisco is built with over 50% recycled material and is 90% recyclable. The chair is easily disassembled and features recycling symbols for easy sorting.

### THE EXTENDED FAMILY

Also part of the HÅG Capisco family, the lightweight HÅG Capisco Puls provides the dynamic movement benefits of HÅG Capisco in a slim plastic silhouette, perfectly suited to flexible spaces. HÅG Capisco Puls comes with two upholstery options – a seat pad or a removable seat cushion.

### **HÅG IN BALANCE®**

Trademarked technology supports continuous motion and maximum adaptability for a variety of users. Each HÅG Capisco comes standard with a seat slider, height-adjustable back, two-position back lock, tension adjustment and seat height adjustment.

### **THE ICONIC SADDLE-INSPIRED SEAT**

HÅG Capisco is designed with a curved seat reminiscent of a saddle to promote natural upright positioning. The contours open up the hip angle, which in turn extends the spine and opens the chest. The seating experience helps fight fatigue throughout the day, allowing you to perform at the top of your game.

### **SO MANY OPTIONS, FIND YOUR MATCH**

Part of the HÅG Capisco seating experience is the freedom to choose the textile that best suits your style and application: woven, coated, leather or COM/COL. HÅG Capisco integrates easily into an office (especially home offices) with wovens. Leather provides an upscale, design-forward look, or go with coated for medical or high-traffic spaces.

### **ANY DESK, ANYWHERE**

With a choice of three cylinder heights, HÅG Capisco fits any workstation and accommodates multi-positional whether you sit at a traditional desk, perch at a sit-stand desk or alternate between standing and sitting. No other task chair is so well adapted to sitting at different heights. An optional foot ring is available for extra support. HÅG Capisco has a 300-lb. rating and is covered under 9to5 Seating's industry-leading warranty.

**BODIES IN MOTION**

HÅG Capisco offers the ultimate in self-directed comfort, encouraging movement and change. Treaded foot plates on the base give you a place to either rest your feet or help you easily shift into your next position, whether that's perching, sitting sideways, or even facing backwards. Of course, there's always traditional sitting too.
