How to Order

Authorized Dealers Only

HPFi sells to authorized dealers and resellers of office furniture and only Authorized HPFi Dealers can place orders. To become an Authorized Dealer, you must:

- Have written approval by both the local HPFi Sales Representative and HPFi Sales Management
- Establish a line of credit (or pay for all orders with certified check, Visa or Mastercard or cash prior to order entry)
- Be prepared when Rosenthal & Rosenthal Southeast, Inc. (who acts as the HPFi credit department) contacts you for credit information. Time is of the essence in supplying this data. Purchase Orders cannot be entered until credit processing is completed and a line of credit is established. Allow up to two (2) weeks for processing.

Purchase Orders

To ensure prompt processing of your order, all purchase orders must clearly state the following:

- Dealer Name
Purchase Order Number
Contact Name and Phone Number
Complete Bill To and Ship To Addresses
- Complete Product Numbers, including:
Seating: Model Number + Finish + Options + Upholstery Pattern/Color Number/Color Name.
Casegoods: Model/Finish Number + Options
- Quantities

Order Placement

All orders may be mailed, faxed or e-mailed to HPFi as follows:

Mail

HPFi
1104 Bedford Street
High Point, NC 27263

Fax

800.231.6784

Email

orderentry@hpfi.com

Order Entry

We want to process your order on a timely basis and will make every attempt to enter all orders within two (2) business days of receipt. Inability to clearly read an order or the lack of any of the above information will delay order entry. Clarification of any missing or unclear information will be promptly requested via fax or e-mail. Once all information is received, HPFi will complete order entry.

Your discount and net prices will be automatically calculated. **If your purchase order prices do not match HPFi calculated net prices, you will be notified via e-mail, telephone or fax. It is the customer's responsibility to review Order Acknowledgements for accuracy and pricing. Any corrections must be noted immediately and e-mailed or faxed to your Customer Service Representative at 336.434.5280.**

- Minimum order \$500 net, except for parts.
- Only credit-approved orders are released to production. If an order is held due to credit reasons, you will be informed via fax or e-mail.
- Published lead times start on the first business day **after** entry of a clean, credit-approved order.

HPFi has made every effort to ensure the accuracy of this Price List. HPFi cannot be responsible for typographical errors. Pricing and product specifications are subject to change and can be verified through our HPFi Customer Service Department at 800.447.3462, ext. 2120.

Lead Times

Choose from two (2) lead time options: NOW Accelerated Response or Standard Lead Time. HPFi® lead times are measured from the date the order is entered (complete and credit-approved) to the date the order ships. Transit time is not included as it varies by carrier and destination.

Standard Lead Time

Assigned to all orders unless the purchase order specifically *requests* and meets the NOW Accelerated Response program requirements. Large orders, custom features, COM upholstery, factory-installed options, combination upholsteries and any other special product requests may increase lead time.

Standard lead time is four (4) to six (6) weeks. Orders placed to ship in standard lead times are normally acknowledged to ship thirty (30) business days from the date of order entry. HPFi reserves the right to ship prior to the acknowledged date unless otherwise specified. Occasionally, due to seasonal demand or holiday schedules, standard lead times may be adjusted. To verify lead time, contact your Customer Service Representative.

Many casegood and table items are available with high pressure laminate tops in the finishes listed for those individual series in an extended lead time.

Order Acknowledgements indicate the approximate ship date you can expect. Most orders ship complete by the indicated date. However, we cannot guarantee every order will ship by the date acknowledged. Occasionally, due to circumstances beyond our control, we may ship after the acknowledged date. We will make every effort to anticipate and inform you in advance of any late shipment situations.

NOW Accelerated Response Lead Time

Orders must be complete and credit approved to be released to production. Full details of the NOW Accelerated Response program are outlined in detail on page 4.

Casegood products in this Price Book are marked with the **NOW** symbol. Only the model numbers and finishes indicated are available in the NOW Accelerated Response lead time.

Numerous seating products are available in NOW Accelerated Response program in standard HPFi finishes. Those items are marked with the **NOW** symbol. NOW upholsteries are identified in the NOW Upholsteries Catalog and listed on the HPFi web site. Items ordered with installed options will not be available for NOW Accelerated Response.

NOW Accelerated Response orders must have:

- NOW clearly stated/marked on the purchase order.
- NOW items only on the purchase order requesting accelerated response. Orders including both NOW items and standard lead time items will ship at standard lead-time.
- A limit of eight (8) each of any NOW items per day. Orders exceeding the maximum for the same item cannot be ordered consecutively in the same week without prior approval from an HPFi Customer Service Representative. See page 4 for additional information.

NOW Accelerated Response

HPFi can ship many of our products in less than fifteen (15) business days after the credit-approved order is entered. Products selected for the NOW Accelerated Response program are noted by the NOW symbol. Occasionally, due to seasonal demand or holiday schedules, lead times may be adjusted. To verify lead time, contact your Customer Service Representative.

Finishes & Options

CASEGOODS: Finish and pull options are designated for each applicable casegood product.

SEATING: Seating products available for NOW lead time are only in the selections listed in the NOW Accelerated Response Upholsteries catalog and on the HPFi web site. All other graded-in upholsterys are available at standard lead times.

Products ordered with installed options will only be available in standard lead time.

Order Tags

Orders must be clearly marked with NOW and include only those items identified as being available through the NOW program. HPFi will make every effort to ship all credit-approved NOW orders in less than fifteen (15) business days from the date that a complete order is entered with all required details and is credit approved.

Order Quantities

The maximum order size for NOW program is 8 pieces of any item (per dealer, per day) and \$30,000 list regardless of the number of items. Orders for the same item(s) cannot be ordered consecutively in the same week without prior approval from HPFi. Should your product needs exceed these maximums, please contact your Customer Service Representative for manufacturing time. HPFi reserves the right to limit quantities based on material availability.

Changes / Cancellations

CASEGOODS: Contact Customer Service to verify whether a change or cancellation can be made on a casegood products order. If a change is made, the cycle of the number of business days for NOW items begins anew from the date the change was made. No cancellations are allowed once an order ships. HPFi is not responsible for any loss of sale or contract resulting from failure to ship in less than fifteen (15) business days.

SEATING: Due to the breadth of upholsterys and finishes available, seating items cannot be changed or cancelled once the NOW order has been entered.

Upholsteries

The list of NOW upholsterys available is on the HPFi web site.

Terms & Conditions

All orders are subject to the terms and conditions presented in this price list. The term HPFi refers to High Point Furniture Industries, Inc., High Point, North Carolina - USA.

Terms

Payment for all orders is due Net thirty (30) days from date of invoice.

Ordering

See **How To Order** information on page 2. For clarification of any question pertaining to ordering, contact HPFi's Customer Service Department prior to placing your initial order.

Leasing

Please contact HPFi Sales to learn about leasing options

Conditions of Sale

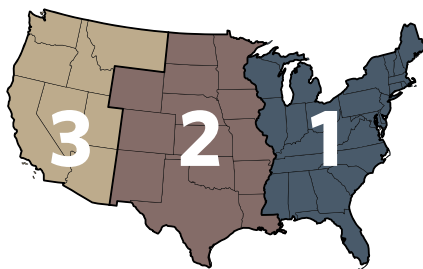

Possession and/or distribution of this price list or HPFi brochures does not in itself constitute an offer to sell. Orders can be received only from authorized HPFi dealers.

Accepted orders will be acknowledged in writing with approximate shipping dates. Orders will be invoiced at pricing prevailing at time of order entry.

Pricing

This price list contains Zone pricing, including freight prepaid and allowed to the forty-eight (48) contiguous states. HPFi reserves the right to implement and/or pass along a freight surcharge when necessary. All pricing shown are suggested retail. Pricing, specifications and materials are subject to change without notice.

Zones

Packaging

Pricing quoted herein includes normal packaging. HPFi products are carefully inspected and are packed one to a carton, except where indicated. All packaging conforms to or exceeds specifications as outlined in the Uniform Freight classification. Special packaging (e.g. palletization) if specified, requires an upcharge.

Palletization

Casegood products ordered in LTL quantities may be palletized prior to shipment for enhanced protection and further assurance of safe delivery. Pallets are one per product, in most cases, and sized per casegood product. Seating is not palletized. All pallets are \$55 net per pallet. Add 40 lb. to the ship weight per pallet. Contact your Customer Service Representative for additional details and a quote.

Palletization is not generally offered on truckload quantities or volume shipments of 14 feet or more (e.g. 4 or more desks). Contact Customer Service for a custom quote if this option is required.

Special Product Orders

We welcome the opportunity to quote special products. Any changes in look, build, finish or options must be processed through the Custom Product Order Program. Please contact our Customer Service Department for pricing and lead times.

NOTE: Due to the cost of creating custom products, a minimum charge per order may apply. Special product orders are non-returnable and non-refundable. A 50% deposit may be required with order placement for special products.

Terms & Conditions

Shipping

All HPFi products ship as follows: **F.O.B. ORIGIN, HIGH POINT, NC - USA, FREIGHT PREPAID** - this means that ownership and the responsibility of the merchandise becomes that of the buyer upon delivery to the freight company. The zone list pricing shown herein reflect the delivered price to the 48 contiguous states. It includes **dock-to-dock** shipment, with normal delivery accomplished in three (3) to ten (10) business days, after shipment. HPFi reserves the right to implement and/or pass along a freight surcharge when necessary.

HPFi also reserves the right to select the carrier and routing. The transportation company assumes full responsibility for safe delivery upon acceptance of the shipment from HPFi.

Orders of less than 500 lbs. will be assessed a minimum freight charge of \$125.00 net per order (excluding items shipped via small package ground service). Shipments outside the USA are prepaid to point of departure.

Acknowledged ship dates are our best estimates of when the product will leave the factory. Actual ship dates may vary.

Third Party Logistics

HPFi can adapt a program for business partners that use a logistics company to manage shipments. Contact the [HPFi Vice President of Sales](#) for terms and conditions.

SPECIAL SERVICES

Shipments requiring special services (such as expedited delivery, delivery appointments, non-dock, residential, school, military base, inside delivery, etc.) are not included in this freight prepaid pricing. The additional charges for these special shipments will be quoted on a pre-pay and add, case-by-case basis. Contact Customer Service for details.

In-Transit Damage

HPFi does not own or operate its own transportation equipment. All shipments made by HPFi are made using third party carriers or customer transportation. HPFi manufactures and packages its products to withstand the normal handling incurred during transportation to provide for safe transit. HPFi ships only top quality undamaged merchandise. Title and ownership of merchandise is transferred to the dealer/customer when the freight carrier signs the bill of lading. The carrier assumes complete responsibility for delivering merchandise to the consignee in good condition.

It is the responsibility of the dealer/customer to inspect all merchandise upon delivery to the customer-designated ship-to address. Any visible damage upon delivery must be noted on the bill of lading when the merchandise is signed for. Freight carriers will accept responsibility for damage which upon their inspection they deem to be their fault. It is the buyers' responsibility to file freight claims with the responsible carrier.

HPFi will provide advice and assistance to its customers with the freight claim process and will use its influence to encourage carriers to accept their responsibility.

Concealed Damage Claims must be filed within 5 days of delivery and original cartons must be retained. Most carriers will not accept a claim for concealed damage if the claim is made more than 5 days after receipt, or if the merchandise is moved from the original delivery location. It is the buyers' responsibility to file claims for concealed damage with the freight carrier.

Terms

An error made by HPFi resulting in shipment of an incorrect or defective product may be allowed for return to HPFi.

Such returns require prior authorization from the HPFi Customer Service

Department. Please call 800.447.3462 to request a Return Authorization and shipping instructions. **All returned products must be properly packaged to ensure safe transit.**

Certain products may not be returned under any circumstances:

- Any non-defective upholstered furniture
- Any seating product made using customer owned material (COM or COL)
- Any product made using special materials or custom finishes
- Any product made to custom specifications of customer

Returns for any other reason will be allowed at the sole discretion of HPFi. These returns will be assessed a restocking charge of up to 30% of product list price plus the cost of return freight. Some products (special order or adapted) will not qualify for return.

Return Authorizations (R.A.s) are valid for forty-five (45) days from the issue date. Authorized returns must have the R.A. number clearly marked on all cartons and the bill of lading. All cartons must arrive at the HPFi designated ship-to location within 45 days of the authorization. Failure to return merchandise within 45 days will result in the cancellation of the Return Authorization and demand

Return Guidelines

- Merchandise must be returned in appropriate packaging to ensure safe transportation. Use the original packaging or the packaging from the replacement units including all inner and outer packaging to repack the returned product. If return is not HPFi's responsibility, repackaging and restocking charges will apply.
 - All casegoods must be strapped Top-Side-Up to correct size pallet for return. DO NOT place upside down.
 - All shipping documents and product cartons must be clearly marked with HPFi's Return Authorization number.
 - You must use the carrier noted on the Return Authorization.
 - Failure to comply with requirements will void the Return Authorization; no money will be credited; full payment will be due HPFi.
- All returned product shipments received by HPFi will be promptly inspected to verify:
- The product was authorized for return
 - The accuracy of counts/quantity
 - The reason for return is valid

If approved, HPFi will issue credit to the customer less (where applicable) the restocking charge, return freight and any costs incurred by HPFi to return the products to like new condition.

Cancellations

Acknowledged orders are considered firm and final. No cancellations or changes will be allowed without the express written authorization of HPFi management. Changes may be subject to additional charges. Upholstered items may not be cancelled after the fabrics or other upholstery cover material has been cut. Quick Ship orders cannot be cancelled.

Repair Charges

Authorization must be obtained from HPFi's Customer Service Department prior to incurring repair charges if HPFi is expected to pay any portion of the costs.

Warranty

Subject to the terms, conditions and exceptions stated below, High Point Furniture Industries, Inc. ("HPFi"), warrants that each new finished product, separate component or part ("Product") will be free from defects in material and workmanship, when subject to normal commercial usage, for so long as the Product is owned by the original purchaser. If the Product is sold by HPFi to a retailer or dealer, the "original purchaser" shall be the purchaser of the Product from the retailer or dealer. Otherwise, the "original purchaser" shall be the purchaser of the Product from HPFi. The original purchaser may not assign this warranty to any other person or entity.

Exceptions

HIGH-WEAR PARTS - High-wear parts such as glides, gas cylinders, casters, ergonomic chair components, polymer-based components, and user-adjustable work surface mechanisms are warranted against defects in material and workmanship only for a period of five years (three years on recliner mechanisms and casters) from the date on which the Product is sold by HPFi or until the product is no longer owned by the original purchaser, whichever is the shorter time period.

VENEER FINISHES - Veneer finishes are warranted against defects in material and workmanship only for a period of three years from the date on which the Product is sold by HPFi or until the product is no longer owned by the original purchaser, whichever is the shorter time period.

ELECTRICAL COMPONENTS - Electrical components are not warranted by HPFi, but may have warranties from the electrical component manufacturer.

UPHOLSTERIES - Careful consideration is given to our presentation of upholstery offerings. The upholsteries we offer feature the best in appearance, durability and value. However, we have no control over the environment, cleaning or other conditions which may affect colorfastness or durability. Puddling may occur as a result of certain climate conditions and/or the natural stretch inherent in upholsteries and is not a flaw in the upholstery or manufacturing process. HPFi cannot predict or be held responsible for upholstery performance in an installation and does not guarantee against puddling. Customer's Own Materials (COM) selected by and used at the request of a customer are not warranted. We cannot warrant upholsteries beyond the stated warranty provided by the specific upholstery supplier for that specific material whether it is an HPFi core supplier or COM.

CUSTOMER'S OWN MATERIAL - If HPFi agrees to use the customer's own material (COM) or leather (COL) on HPFi brand products, or build a custom product:

- HPFi shall have no responsibility for the condition, quality, value, performance, physical properties or any other aspect of the COM or COL.
- HPFi shall have no liability for any damages, injuries or losses to the customer or to any third party that shall be caused by any COM or COL and the customer shall hold HPFi harmless for all liability.

For complete COM/COL order requirements and warranty information see the HPFi COM/COL Order Form on pages 18-19.

Exclusions

THIS WARRANTY DOES NOT APPLY AND NO OTHER WARRANTY APPLIES TO:

- Normal wear and tear, which is to be expected over the course of ownership.
- Damage caused by the carrier in-transit, which will be handled under freight policy.
- Damage caused by or during installation.
- Modifications or attachments to the Product that do not have the prior written approval of HPFi.
- Products that are not installed or used or maintained in accordance with Product instructions and warnings.
- Damage caused by neglect or misuse of a Product.
- Products used for personal or household use (all products are intended for commercial usage) or for rental purposes.
- Normal Commercial Usage - The Products are designed and manufactured for normal commercial usage. Normal commercial usage for seating is defined as the equivalent of a single shift, forty (40) hour workweek. To the extent that a Product is used in a manner exceeding normal commercial usage, the warranty will be invalidated or HPFi may, at its option, elect to reduce the applicable warranty period on a pro-rated basis.
- Chairs designated 24/7 have a warranty of five (5) years.
- Color Variations and Finishes - Some natural variations occurring in wood, leather or other natural materials are inherent to their character, and cannot be avoided. Therefore they are not considered defects in material or workmanship and are not the basis for a warranty claim. HPFi does not warrant the color-fastness or matching of colors or grains or textures of such materials.

EXCEPT AS SET FORTH ABOVE, HPFi MAKES NO OTHER EXPRESS WARRANTIES WITH RESPECT TO ITS PRODUCTS. HPFi MAKES NO IMPLIED REPRESENTATIONS OR WARRANTIES WITH RESPECT TO ITS PRODUCTS, THEIR CONDITION, MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE OR USE BY THE PURCHASER. HPFi FURNISHES THE ABOVE LIMITED EXPRESS WARRANTY IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. NO ORAL REPRESENTATIONS OR SAMPLES PROVIDED BY HPFi TO ANY RETAILER, DEALER OR PURCHASER WILL CREATE ANY EXPRESS OR IMPLIED WARRANTIES WITH RESPECT TO PRODUCTS SOLD BY HPFi.

Remedies

If any defect in the workmanship and material of any Product appears within the applicable warranty period, HPFi will, at its option, repair or replace the Product, at no charge, upon examination of the Product and verification by HPFi or its authorized representative of the defect and of compliance with the warranty requirements and conditions. The Purchaser must provide such cooperation and information as HPFi or the authorized representative may reasonably request to process the warranty claim.

IN THE EVENT OF ANY DEFECT IN ANY PRODUCT SOLD BY HPFi OR ANY BREACH OF THE LIMITED EXPRESS WARRANTY DESCRIBED ABOVE, THE SOLE REMEDY FOR SUCH DEFECT AND/OR BREACH SHALL BE AS STATED IN THIS PARAGRAPH, AND IN NO EVENT SHALL THE DEALER OR RETAILER THAT PURCHASED THE PRODUCT FROM HPFi OR THE ORIGINAL PURCHASER OF THE PRODUCT FROM THE DEALER OR RETAILER, BE ENTITLED TO RECOVER FROM HPFi ANY DAMAGES, INCLUDING DIRECT, CONSEQUENTIAL OR INCIDENTAL DAMAGES, LOST PROFITS, DOWNTIME OR OTHER DAMAGES OF ANY NATURE WHATSOEVER ARISING FROM BREACH OF WARRANTY OR THE CONDITION, FUNCTION OR USE OF THE PRODUCT.

Application of Current Warranty and Prior Warranties

This express limited warranty applies only to Products manufactured and sold by HPFi on or after April 1, 2001. Products manufactured and sold by HPFi before April 1, 2001 were covered by the warranty in effect at that time and have expired. Further information concerning terms and conditions of prior warranties are available upon request to HPFi.

These warranties are made by HPFi only to authorized dealers and retailers acquiring Products directly from HPFi and the original purchaser of the Product as defined above.

Sustainability

For more than 60 years, HPFi® (High Point Furniture Industries) has been building furniture in the United States with respect to our environment and our community. As a world-class manufacturing operation, we strive to reduce and to eliminate impact on our environment.

- We recycle and reuse wherever possible. When viable and acceptable to our customers, we incorporate recycled and recyclable materials into our finished products.
 - Laminated panels used in our casegood products come from suppliers that meet Sustainable Forestry Initiatives (SFI) standards and/or Forestry Stewardship Council (FSC). The boards exceed 80% pre-consumer recycled wood fibers and meet EPA and California Air Resource Board standards (Phase 2) for formaldehyde emissions.
 - Engineered wood components for upholstered seating products also meet SFI standards and meet EPA and California Air Resource Board Standards. Seating foam is CFC-free and includes rapidly renewable bio-based materials.
 - Dust collection systems are in place to collect residual wood released during processing of raw wood materials into finished components for final assembly. The collected sawdust is reused for generating fuel, reducing waste as well as conserving another valuable resource, petroleum.
 - Proper finishing equipment is installed and maintained to appropriately collect any negative-impact materials. These are turned over to environmental professionals that specialize in safe and effective handling of such materials, further protecting our world.
 - HPFi actively markets fabrics that are both 100% recycled (or bio-based) as well as completely recyclable (or compostable). These fabrics are manufactured from post-consumer polyester (waste material left over once a consumer has used a product, such as a soda bottle) and post-industrial polyester (waste generated by an industrial process before the polyester is used by a consumer). In Life Cycle Assessments, some recycled fabrics showed significantly lower environmental impact than fabrics made with virgin polyester across all twelve of the categories studied.
 - All corrugated cardboard material and containers used in the packaging and transport of our furniture products are made with a minimum of 41% recycled material (post-consumer and/or post-industrial) and meets standard performance requirements.
- All of our associates are involved in environmentally-friendly practices:
- We utilize a 4-day manufacturing week, thereby reducing fuel consumption in both operations and commuting
 - Our sales brochures are printed on FSC-certified paper
 - Multiple collection bins are throughout our facilities for recycling and diversion of all production materials from landfills
 - Office paper, bottles, cans, etc. are collected in our offices for recycling

At HPFi, we understand the future does not belong to us, nor does the earth, nor its resources. The maintenance of our environment and a commitment to sustainability is an ongoing responsibility that we share with every person, organization and industry enjoying the abundance of this earth. We pledge to continually respect our resources and build community for those of us here today and for those who will follow.

Our sustainability efforts extend beyond the materials and processes involved in the manufacture and fabrication of our products. We also address end-of-life opportunities for our furniture with the Second Life program providing a solution for disposal of unwanted furniture (when no other avenue is available) while preserving our environment. HPFi works with local charitable and non-profit organizations to help furniture find a Second Life. Those organizations are helped in furthering their purpose with needed furniture that may otherwise be unattainable.

Additionally, our efforts involve social responsibility with HPFi associates as well as our business partners.

For additional information and the most up to date details, visit http://www.hpfi.com/about_sustainability_overview.php.

Technical Specifications: Wood Finishes

Wood Finishes

Finishes available as standard on our wood seating products are for the exposed wood components. This wood is kiln dried maple and similar hardwoods.

Standard Colors

- **Black** - a fade resistant black stain with a low-gloss lacquer top coat. *Specify wood finish code **BLK**.*
- **Boardwalk** - a fade resistant light brown/taupe stain with a medium gloss lacquer top coat formulated to be compatible with Boardwalk casegoods finish. *Specify wood finish code **BW**.*
- **Driftwood** - a fade resistant dark gray stain with a medium gloss lacquer top coat formulated to be compatible with the Driftwood laminate casegoods finish. *Specify wood finish code **DW**.*
- **Espresso** - a fade resistant dark Walnut stain with a medium gloss lacquer top coat. *Specify wood finish code **ESP**.*
- **Mahogany** - a fade resistant mahogany stain with a medium gloss lacquer top coat. *Specify wood finish code **MAH**.*
- **Natural** - a clear lacquer gloss top coat. *Specify wood finish code **FM**.*
- **Moab** - a fade resistant medium-brown stain with a medium-gloss top coat. *Specify wood finish code **MOB**.*
- **Monticello Maple** - a fade resistant beige stain with a medium gloss lacquer top coat. *Specify wood finish code **MM**.*
- **Shoreline** - a fade resistant grey stain with a medium gloss lacquer top coat. Formulated to be compatible with Shoreline casegoods finish. *Specify wood finish code **SL**.*
- **Windsor Cherry** - a fade resistant red-brown cherry stain with a medium gloss lacquer top coat. *Specify wood finish code **WC**.*

Ordering

When ordering, please specify the quantity of each model, the complete model number, followed by a dash, the wood finish code, followed by the fabric name and fabric number. Example: To order 12 of model 1271 in a Driftwood finish in CF Stinson's Satellite 62826 Domino, your order should read:

12 1271 DW Satellite Domino

The standard finishes available for each seating product are specified by a wood finish code suffix. Wood finishes are available as noted on each page of this Price Book. The following legend for the wood finish code is listed on each page of products available with a wood finish.

Special Finishes

Please contact our Customer Service Department for additional information.

Technical Specifications: Wood Finishes

Antimicrobial/Antibacterial

HPFi employs a proprietary seating finish under the name, Sentinel™. Our finish employs silver ions - a powerful, natural antimicrobial, antibacterial which assists in preventing the spread of infections without harm to human health. Disease-causing organisms on wood chair frames with Sentinel™ antimicrobial silver remain latent, thereby unable to propagate and soon naturally expire. Sentinel™ antimicrobial finish cannot be washed away, worn off or depleted overtime. Its effectiveness is as powerful at the end of the life cycle as it is at its start.

Color Variations

Variations in wood color and grain pattern, contribute to the natural beauty of wood. The natural characteristics of the different species of wood, add to the distinctiveness of furniture and cannot be considered defects.

Some examples of these natural characteristics include:

- **Pitch pockets.** These are common in fruit woods such as cherry. They appear as a dark spot in the grain that may not always accept finishing materials.
- **End-grain.** This occurs on the edges of chair frames and desk tops. They appear as a color variation of the tree's growth ring, commonly called "tiger striping".
- **Color variations.** All real wood products exhibit a certain amount of color variation when finished. This color variation is most often caused by the natural difference of initial color of the raw wood. This initial color, as with many other of the characteristics of real wood, is naturally occurring and contributes to the beauty of the finished product. These color variations are more noticeable in light colored woods finished with a clear lacquer finish.

HPFi strives to control variations in color as much as practical. However, slight variations do occur naturally and should not be considered defects.

Dimensions

All size dimensions listed are nominal and subject to change. If you must have exact dimensions, please contact your Customer Service Representative. Worksurface dimensions will vary due to edge profile treatment. Always measure the actual top before ordering glass or another cover to fit table tops.

Technical Specifications: Upholstery

Cleaning Codes

Each upholstery utilized by HPFi has a cleaning code letter, assigned by the manufacturer for a specific pattern and is listed on the swatch card. The cleaning codes are as follows:

- W** - Water based cleaners recommended.
- S** - Solvent based cleaners recommended.
- WS** - Water or solvent based cleaners recommended.
- X** - Do not use any cleaning fluids.
- C** - 10% Bleach, 90% Water, rinse

To prevent overall soiling, frequent vacuuming or light brushing to remove dust and grime is recommended. Always pre-test a small inconspicuous area before proceeding to remove the stain.

Fabrics

HPFi strives to offer the best in appearance, durability, and value. Please refer to the seating warranty section on page 4 for more information. Most fabrics are ordered at the time we receive your order. Therefore no cancellations or changes are allowed once your order is entered and the fabrics are ordered. Please make certain that your clients know this when they are making their fabric selections.

OVERVIEW: Man-made fibers such as acrylic, olefin, polyester and nylon have achieved new levels of performance with current changes necessitating a true evaluation of each fabric on its own merit. Do not assume that a specific fabric is always the best. Consult the test results on the fabric specification sheet or sample card and evaluate its performance for your particular application. HPFi chooses only those fabrics that attain the upper portion of the durability spectrum.

Vinyl

OVERVIEW: Vinyl coverings are normally 100% virgin PVC (Polyvinyl Chloride) supported by a man-made backing. They are sometimes textured and then surface finished or capped with a chemical film. Some vinyl upholsteries are formulated to include silver ion particles, to provide an antibacterial and antimicrobial surface. Consult the technical information on the back of the vinyl swatch cards to choose the desired characteristics for the environmental setting in which the seating units will be used.

PROTECTION: Periodic cleaning of the vinyl by washing with lukewarm water and a mild soap will prevent hardening, cracking and peeling due to body oils and body care products. Clean with wet sponge and dry with dampened cloth or sponge. Certain commercially available products clean routine spills effectively without causing the material to exude (lose) the softening agents which keep the vinyl soft and pliable. Improper cleaning products can break those softening agents and cause the vinyl to crack and peel.

Faux Leather

OVERVIEW: Faux Leather is the term most commonly used for man-made polymers such as polyurethane or vinyl. It is a resilient, flexible and durable material that offers textures and a soft feel similar to that of leather. Like genuine leather, polyurethanes do offer some breathability (vapor transmission) whereas vinyl normally doesn't.

PROTECTION: The greatest advantage of a faux leather over genuine cowhide leather is the cleanability and consistency of appearance

Leather

OVERVIEW: Leather, by virtue of its natural inherent beauty, warmth and durability, creates aesthetic appeal for those individuals desiring the very finest in office seating. The exclusive use of top grain cowhides by HPFi in Grades L and LL, assures the customer of genuine leather as opposed to split or bonded leather substitutes.

The growth marks and healed scars which occur during the animals' lifetime give leather its distinguishing "character". These signatures will appear on the chair leather, assuring the customer of the use of authentic top grain hides. Genuine top grain leather mellows with age and gains a quality and value which is unlike any man-made substitute.

FULL AND TOP GRAIN LEATHER VS. SPLIT LEATHER:

When the hide is separated from the animal, it can be as much as 3/4" thick. A splitting machine then splits the hide into layers of desired thickness. Only the first cut is used on HPFi seating to insure maximum strength and beauty.

PROTECTION: To remove spots and spills, wipe excess liquid up immediately with a clean absorbent cloth or sponge. If necessary, use clean lukewarm water only and let air dry naturally. If water is used, clean the entire area where the spot occurred. An example would be the entire seat cushion or entire arm. DO NOT dry wet areas with hair dryers, etc. For butter, oil or grease, wipe excess butter, oil or grease off the leather with a clean dry cloth, then leave it alone as the spot should dissipate into the leather in a short period of time. DO NOT apply water or try to wash such spots.

Please Note: These are recommended or suggested methods of cleaning. HPFi is not responsible for damage incurred while cleaning.

Upholstery Testing Terms

SURFACE ABRASION: Abrasion resistance is the ability of a fabric to resist surface wear caused by flat rubbing contact with another fabric. There are two different methods commonly used to test abrasion, referred to as Wyzenbeek and Martindale. Most contract grade fabrics are tested using the Wyzenbeek method. Fabrics with abrasion results below 15,000 Wyzenbeek double rubs / 20,000 Martindale cycles may prove unsatisfactory in contract upholstery application. Abrasion results exceeding 100,000 double rubs / cycles are not meaningful in providing additional value in use. Higher abrasion resistance does not necessarily indicate a significant extension of the service life of the fabric. A fabric with double the number of abrasion cycles does not indicate double the service life. There is no correlation between different test methods. It is not possible to estimate the results that might be achieved on one test, by reviewing the results from another (e.g., Martindale & Wyzenbeek.)

The following guide is a general rule of thumb for upholsteries on HPF*i* furniture using the Wyzenbeek test method:

Light Duty – 15,000 cycles (double rubs)
Medium Duty – 35,000 cycles (double rubs)
Heavy Duty – 50,000 plus cycles (double rubs)

For more information on surface abrasion, visit the web site for Association for Contract Textiles at www.contracttextiles.org.

CROCKING: The degree of resistance of material to change color characteristics, or transfer its color to other materials in any environment during the life of the fabric.

TEAR STRENGTH: The force necessary to tear a fabric, usually expressed in pounds or in grams. The most commonly used method for determination of tear strength is the Elmendorf test procedure.

TENSILE STRENGTH: The actual number of pounds of resistance that a fabric will give to a breaking machine before the material is broken.

FADOMETER/COLOR FASTNESS: The fadometer (light) test determines the resistance of a specific fabric color to prolonged exposure to sunlight utilizing a water-cooled xenon lamp fading apparatus for simulation. The color fastness test determines the degree of color retention and change in shade (or lack of) during the normal life of the fabric.

FIRE RETARDANT: Fabrics treated with special chemical agents or finishes to make them retardant or resistant to burning. Fabrics may also achieve this property by using fibers with these properties built directly into the polymer. Fire retardant coatings or specifications vary according to code requirement. Please consult fabric specifications listed with each pattern in upholsteries catalog for specific code acceptability. Upholsteries offered or recommended by HPF*i* do not contain polybrominated diphenyl ethers (PBDE).

Flammability & Fire Codes

Treatment or finishing of fabrics is varied as many states and municipalities have developed their own criteria for fire retardant coverings. Although attempts have been made to offer a fabric which will pass as many of these codes as a group (e.g. Boston Fire Dept. Std., The Port Authority of N.Y. and N.J., and California Technical Bulletin 117), it may be necessary to specifically treat a fabric for a special code. If special treatment is required, or if treatment of a current fabric offered by HPF*i* to meet a certain code is required, please contact our Customer Service Department for quotation.

All upholsteries offered by HPF*i* supplier partners meet California Technical Bulletin 117. The current version is California TB 117-2013. Any upholstery that meets this standard will also meet similar test methods ASTM, UFAC or NFPA260.

Consult specifications on our upholsteries partners' web sites for pertinent fire code ratings and specifications. These specification sheets are also available from our Customer Service Department.

Please remember that a fire retardant fabric isn't fireproof or flameproof. The purpose of the retardant is to make fabrics flame resistant to a smoldering cigarette in order to provide time for egress.

COM/COL Program

Customer's Own Material/ Customer's Own Leather

Upholstery material(s) furnished to HPFi by the customer requires special processing. Prior to HPFi accepting any COM orders, the COM/COL Order Form (see next page) must be submitted to HPFi for yardage requirements. Once this form is returned to you, you may accurately order your upholsteries for shipment to HPFi.

Any order received without the accompanying fabric will be entered and acknowledged with an open shipping date until fabric is received.

Inquiries should be sent to:
HPFi COM/COL Coordinator
1104 Bedford Street
High Point, NC 27263
(t) 800.447.3462
(f) 800.231.6784
(e) info@HPFi.com

Shipping Address

All COM/COL fabrics and leather must be shipped prepaid to:

HPFi COM/COL Coordinator
1104 Bedford Street
High Point, NC 27263

Make sure a copy of the COM/COL order form is attached to the upholstery (see form on following page). COD's are not accepted on customer's own material (COM) or customer's own leather (COL).

Shipping Dates

If an acknowledged order contains both graded-in and COM/COL upholstered items on the same order, the order will be processed with an open ship date. Once the COM/COL upholstery is received, standard lead times will apply to the entire order.

General Information

- Upholsteries used on the horizontal "step" surfaces of Flex Tiered seating must be a minimum seam slippage / seam strength of 40 lbs. warp and 40 lbs. weft (fill). HPFi will not upholster any Flex Tiered seating without test data to substantiate that the materials meet this criteria.
- For specific yardage requirement, send the COM/COL order form request (see next page) to the HPFi Customer Service department. Seating model numbers, quantities and upholstery application orientation are required. A timely reply will be forwarded with yardage required.
- Do not fold any upholstery (textile, coated fabric, vinyl, polyurethane or leather) for shipment. All upholsteries must be rolled on a cardboard tube for shipment to HPFi. Folded fabric or leather may sustain permanent creasing, rendering it unsuitable for upholstering. HPFi will not apply creased goods to any upholstered item(s).
- COM orders are priced at Grade 2.
- COL orders are priced at Grade 3.

Warranty and Application of Upholsteries

- Upholsteries received from the supplier or customer for COM/COL applications are not covered by any warranties expressed or implied by HPFi including but not limited to wearability, light fastness or tailoring.
- Do not estimate COM yardage from yardage in this Price Book. The yardage requirements shown in this Price Book are based on the use of non-directional upholstery, 54" wide applied in a "Topped" orientation.
- While we make every effort to check and cut COM material in the most appropriate manner, claims for flaws, insufficient yardage, discrepancies in the fabric, imperfections in the material, dye lot variations, or wearing quality of material furnished by the customer cannot be honored.
- Please fill COM/COL form completely including topped out or railroaded applications also add horizontal and vertical repeats.

Combination Upholsteries

Many seating items may be selected with multiple upholstery covers on a single unit, such as vinyl arms and fabric seat/back or solid color fabric arms with a pattern seat/back. HPFi can accommodate these special requests as outlined below.

Indicate clearly on original order the combination of desired fabrics as follows:

- Chair Model
- Finish (if applicable)
- Seat fabric
- Back fabric
- Arm fabric

If seat and back will be same fabric, the order can list it as such.

Be certain to provide complete description of upholsteries, including pattern name, color name, and color number (if available).

Combinations are available on all graded-in upholsteries at standard lead time. Combinations using COM upholsteries may require additional lead time and must follow the COM order process.

COM/COL Order Form

All information on this form is required to accurately calculate the COM yardage/COL sq. ft. needed. Please complete and send to the HPFI COM/COL Coordinator. Email: CustomersOwnMaterial@hpfi.com Fax: 800.231.6784

PLEASE NOTE: Only fabrics included in the graded-in list are approved for usage on HPFi products from that manufacturer. Patterns in bold are in the **NOW** brochure.

Graded-In: Leather

Due to the natural characteristics of leather, finished furnishings may vary from original swatches. HPFi neither guarantees nor warrants leather for color, color consistency, grain or other characteristics. We cannot accept return of leather furnishings for such issues. HPFi can work with our leather partners to custom color match an existing leather product with a minimum requirement of 500 square feet.

Leather Advantages

REAL.

When you specify *LEATHER* furnishings from *HPFi*, each piece is *100% LEATHER*. All are real, top-grain leathers. No synthetics. No substitutes. No combination with "faux leather". Just real leather selected for quality and characteristics that create unique furnishings.

NATURAL.

Leather is a *NATURAL MATERIAL*. It is an environmentally conscious upholstery cover salvaged as a by-product from meat production processes. Incorporating leather into multiple products – from furniture to clothes – is consistent with sustainability efforts to reduce environmental impact.

UNIQUE.

Leather is *UNIQUE*. Each hide features characteristics developed in nature, distinguishing it from any other hide. Even within a leather hide, variations in color, texture and markings (scars, scratches, wrinkles, etc.) are natural and may appear within a given upholstered piece of furniture.

The Language of Leather

Leather hides are processed in many different fashions, creating a variety of appearances, tactile qualities and performance capabilities. These processes and the resulting characteristics create a leather language used to classify leathers:

TOP GRAIN.

All are *TOP-GRAIN LEATHER* taken from the *OUTERMOST LAYER* of the hide, providing the *STRONGEST*, softest and most breathable leather from the hide. Additionally, top grains show the natural markings (wrinkles, scratches, scars, etc.) that make each leather unique.

SEMI-ANILINE.

Starting with the same base as full aniline, the semi-aniline is a soft leather featuring a transparent finish that improves light and stain resistance. Slight pigmentation may be added to minimize color variation within the hide.

SAUVAGE.

Subtle, abstract two-tone finishes on leather provide visual depth and interest to a leather and are known as *Sauvage*.

FULL VS. CORRECTED GRAIN.

Full grain leathers exhibit more of the natural variation, texture and markings of the animal. These leathers are generally softer than corrected leathers. Corrected grain leathers have been mechanically altered through buffing, sanding or embossing to create more consistent grain pattern and uniform appearance.

PIGMENTED.

These leathers feature pigment dye applied by machine spray or roller coating, then followed by a finish coat to seal the pigment. Pigment/sealer increases a leather's resistance to fading and wearing while decreasing the softness of the material. Pigmented leathers are easier to clean and care for than non-pigmented leathers.

PULLUP.

Pullup leathers derive their color from waxes or oils, which dissipate and become lighter in color when the leather is pulled, as done during the upholstery process. This creates worn, weathered, distressed appearance typically found only on furnishings subjected to years of use.

HAND ANTIQUED.

As the name implies, these leathers are handcrafted using traditional leather techniques.

Technical Specifications: Seating

Ergonomic Features and Applications

Ergonomics, also referred to as Biotechnology of Human Engineering, is an applied science concerned with the characteristics of people that need to be considered in designing and arranging things that they use in order that people and things will interact more effectively, comfortably, and safely.

With respect to the office worker, ergonomics is applied to accommodate specific work postures that reduce or eliminate static loading of muscles, particularly in the neck, shoulder and lower back regions. These are the primary areas where musculo-skeletal illnesses occur, causing discomfort and pain.

- Front of seat is a “waterfall” shape which avoids restriction of circulation of blood in thighs and lower legs.
- Back support is designed with a compound curve to support lumbar vertebrae and help back hold a slightly forward arch. Fixed Lumbar Support has been incorporated into various chairs. Permanent fixed support allows proper passive ergonomic alignment of the skeletal frame.
- The seat cushion has only light, but relatively firm padding so the posterior can change pressure areas easily. Most seats are constructed with matrix support, as opposed to a platform (solid) seat pan. This increases comfort and works to reduce or eliminate pressure areas.
- Seat heights are adjustable to accommodate a wider range of user heights.
- Seat controls are designed to be able to adjust both the back and the seat for varying positions and tasks.
- For safety, chair bases have 5 prongs. This also makes lateral movement easier.
- As well as having all of the above features and benefits required to satisfy tasks that need to be performed. HPFi seating blends into the most discriminating office environment. Actuating paddles and knobs are positioned within easy reach from the seated position and placed to avoid injury or inadvertent operation.

Bases

WOOD BASE:

A five prong steel understructure is continuously welded to a steel center hub for strength and durability. The center hub is equipped with a nylon hub liner to provide smooth and quiet swivel operation. Hardwood caps are secured to the steel understructure. The base is furnished with a black metal sleeve and features black polyimide, non-abrasive, non-marking dual wheel casters. These bases meet or exceed all BIFMA requirements.

LOW-PROFILE BASE:

Optional Leaders base features 5-prong die-cast aluminum under structure. Flat hardwood caps are finished and affixed to the aluminum under structure. This option meets or exceeds all BIFMA requirements.

BLACK NYLON BASE:

Black five prong base of reinforced nylon resin. The base features integrated two inch hooded dual wheel casters. These bases meet or exceed all BIFMA requirements.

NOTE: The black nylon five prong base can be substituted for a five prong wood base at no up-charge.

IMPORTANT: When ordering a replacement base or casters, please list the seating model number and the date of purchase (if known), found on the manufacturer label under the seat.

Packing

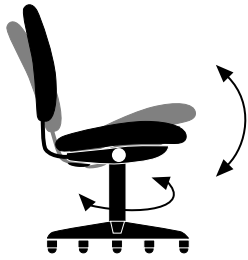

Prices shown in this Price Book include packaging. All items are packed one to a carton except where indicated. All packaging meets or exceeds the specifications outlined in the Uniform Freight Classification.

HPFi reserves the right to change or modify any of our products, pricing or packaging without advance notice.

Seating Controls

All Swivel Seating includes 360° Swivel and Pneumatic Seat Height Adjustment.

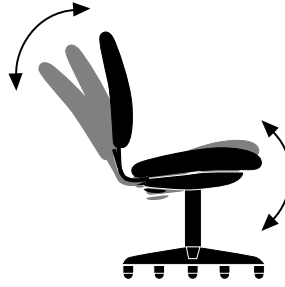

Swivel Tilt Mechanism

- Seat and back tilt as one unit
- Tilt pivot point is at top of cylinder/column
- Adjustable tilt tension

STANDARD ON:
All

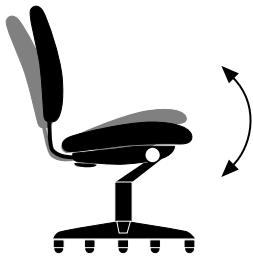

Synchro Tilt Mechanism

- Back tilt/reclines at 2:1 ratio to seat angle
- Tilt pivot point is at top of cylinder/column
- Adjustable tilt tension

STANDARD ON:
461, 752

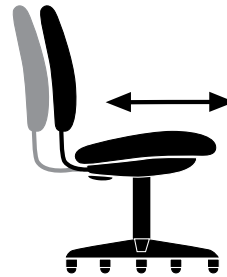

Knee Tilt Mechanism

- Feet remain on floor when reclining
- Seat and back tilt as one unit
- Tilt pivot point is toward seat front
- Adjustable tilt tension and tilt lock

OPTIONAL ON:
Quick Silver, Scoop, Traditional

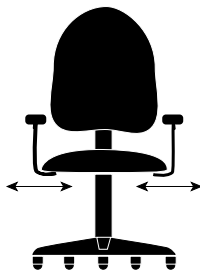

Seat Slider

- Adjust front to back to allow for optimum comfort for varying heights of occupants
- Lift lever to engage slider mechanism

STANDARD ON:
461

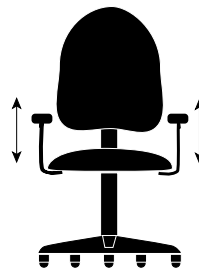

Adjustable Width Arms

- Adjust side to side for individual comfort
- Loosen knobs under seat to adjust

STANDARD ON:
461

Adjustable Height Arms

- Adjust up and down for individual comfort

STANDARD ON:
461, 752

Jury Base

A 9.25" base with a 90° swivel (45° to each side) with automatic return to the front, forward position is available on several of our management swivel chairs. Option code JB is listed for chairs which this option is available.

Caster Kit

To convert a chair (already in use) from carpet casters to hard floor casters, order a Hard Floor Caster Kit.

Caster Options

HPFi swivel seating features standard dual-wheel carpet casters appropriate for most business environments.

Casegoods

Bedford

TRADITIONAL CASEGOODS - SIN 33721

Classic Styling, Modern Function

Bedford brings old world excellence to the contemporary office with a complete collection of office, conference and reception solutions. High pressure laminate tops feature solid hardwood edges that withstand everyday abuse from chair "bumps." Bridges and returns feature common grain direction and reversed coped edges for a matched woodgrain direction usually found only in the most expensive furnishings. Enhance any traditional environment with beautifully crafted lounge and office HPFI seating.

Tops

- 1.188" thick, high gloss, high pressure laminate (HPL) surfaces
- Rounded, solid lumber-banded edges

Edge Profile

Finishes

- High pressure laminate top
- Thermally fused laminate on all case surfaces

How to Specify:

- 1 Series
- 2 Laminate finish
- 3 Model number
- 4 Options

Finishes	Code
Mahogany	M
Windsor Cherry	WC

Power

PowerFlex power modules can be installed in many locations. See page 36 for options.

Options	Code	Price
Factory Installed Center Drawer	C	Varies
Factory Installed Keyboard Shelf	K	Varies
Locks Doors	Y	95 (per pair)
Heavy Duty Lateral File Bottom	H	101 (per drawer)
Additional Grommet	G	138

Finished Example

TR/M/3030/C

Pedestals & File Cabinets

- 1" thick end panels, .75" thick modesty panel
- Pedestal is .75"-thick core with thermally fused laminate on both sides
- 1mm AdvantEdge PVC edge banding on all exposed case and drawer front edges
- Full height pedestals
- Fully assembled with dowels, glue, metal brackets, screws and mechanical fasteners
- Pre-installed filing hardware holds letter- and legal-size hanging files

- Drawer bottoms .125" thick rated to 25 lbs.
- File drawers are 5-sided, oak woodgrain vinyl wrapped, .5" thick
- 3/4 extension steel, ball-bearing slides on box and center drawers
- Full extension steel, ball-bearing slides on file drawers
- Solid metal, antique brass finish knobs and pulls standard

Wire Management

- See individual product features for standard number of 3.25" x 1.875 grommets and location(s)
- Additional grommets for extended wire management capability available

Locks

- Locks are "keyed alike" as standard
- "Keyed different" locks are available at \$25 per lock. Contact HPFi Customer Service for custom option code per order

Hyperwork

CONTEMPORARY CASEGOODS - SIN 33721

Make a statement

Hyperwork modular casegoods offer extensive choices for design flexibility, adapting to various building layouts, business structures and personal work requirements.

Tops

- Thermally fused laminate (TFL) surfaces
- 3mm AdvantEdge PVC edge banding
- Bridge / return tops feature common grain direction with connecting units
- High pressure laminate top option available, adds 15% and lead time

Edge Profile

Finishes

- Thermally fused laminate on all surfaces
- Boardwalk, Driftwood and Shoreline are textured laminate, smooth finish available on tops only
- Color combination available with contrasting top and base
- Monocolor for same top and base use a single finish designator

How to Specify:

- 1 Series
- 2 Pulls
- 3 Laminate finish top
- 4 Laminate finish base (if different)
- 5 Model number
- 6 Options

Finished Example

Factory Installed Center Drawer	C	Varies
Factory Installed Keyboard Shelf	K	Varies
Locks Doors	Y	95 (per pair)
Heavy Duty Lateral File Bottom	H	101 (per drawer)
Additional Grommet	G	138
High Pressure Laminate Top	4	15%

Power

PowerFlex power modules can be installed in many locations. See page 36 for options.

Pedestals & File Cabinets

- 0.75"-thick core with thermally fused laminate on both sides
- 3mm AdvantEdge PVC edge banding
- Full or ¾ height pedestals
- Fully assembled with dowels, glue, metal brackets, screws and mechanical fasteners
- Pre-installed filing hardware holds letter- and legal-size hanging files
- Drawer bottoms 0.125" thick rated to 25 lbs.
- Steel, ball-bearing slides on all drawers - ¾ extension on box and center drawers, full extension on file drawers

Wire Management

- See individual product features for standard number of 2.5" grommet(s) and location(s)
- Additional grommets for extended wire management capability available

Locks

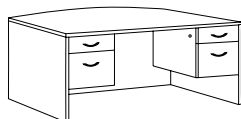

- Locks are "keyed alike" as standard
- "Keyed different" locks are available at \$25 per lock. Contact HPFi Customer Service for custom option code per order

End Panels

- 1" thick core with thermally fused laminate on both sides
- Heavy-duty nylon leveling glides in 5" steel plates prevent "blowout"
- .75" thick core full height modesty panels, thermally fused laminate on both sides
- 3mm AdvantEdge PVC edge banding

Hyperwork Education

CONTEMPORARY CASEGOODS - SIN 33712

Modular Storage for Education

Hyperwork Education provides modular storage furniture for the classroom. Cubby storage modules create storage and auxiliary seating within the K-3 classroom. They can also be adapted to the specific needs of individual classrooms by adding doors to conceal or secure personal items. Locker cabinets feature finished backs for a flexible and modular approach as room dividers. Mobile Bookcases available in either single-sided or double-sided shelf storage models bring book and media storage off the wall in libraries and media centers.

Tops

- 1" thick thermally fused laminate (TFL) surfaces on cabinets
- 1" thick thermally fused laminate (TFL) throughout on mobile bookcases
- .75" thick thermally fused laminate (TFL) surfaces on cubbies
- 3mm AdvantEdge PVC edge banding

Edge Profile

Finishes

- Thermally fused laminate on all surfaces
- Boardwalk, Driftwood and Shoreline are textured laminate

Cases & Cabinets

- .75"-thick core with thermally fused laminate on both sides
- 3mm AdvantEdge PVC edge banding
- Fully assembled with dowels, glue, metal brackets, screws and mechanical fasteners
- Drawer bottoms .125" thick rated to 25 lbs.
- Steel, ball-bearing slides on all drawers - ¾ extension on utility drawers, full extension on file drawers
- 6 total 2.5" diameter casters on mobile bookcases

Locks

- Optional locks are "keyed alike" as standard
- "Keyed different" locks are available at \$25 per lock. Contact HPFi Customer Service for custom option code per order

How to Specify:

- 1 Series
- 2 Pulls (where applicable)
- 3 Laminate finish
- 4 Model number
- 5 Options

Vision

CONTEMPORARY CASEGOODS - SIN 33721

Modern, Clean, Fresh

Vision brings together the best in American manufacturing and European design. Comfortable to work with as it is beautiful and as advanced as the best ideas of tomorrow. Modular and flexible components are ideally suited for business - large, small and at home. Private office spaces with ample storage options maximize every square foot of space. Modular components provide flexibility in open office environments to easily adapt to growing and changing work force.

Tops

- 1" thick thermally fused laminate (TFL) surfaces
- 3mm Advantage PVC edge banding

Edge Profile

Finishes

- Thermally fused laminate on all surfaces
- Boardwalk, Driftwood and Shoreline are textured laminate, smooth finish available on tops only
- Color combination available with contrasting top and base
- Monocolor for same top and base use a single finish designator

How to Specify:

- 1 Series
- 2 Laminate finish top
- 3 Laminate finish base (if different)
- 4 Model number
- 5 Options

Finished Example

VC/DW/7230DL3/Y

Finishes	Code
Black	E
Boardwalk	BW
Driftwood	DW
Espresso	X
Graphite	GP
Mahogany	M
Monticello Maple	MM
Natural Maple	FM
Shoreline	SL
Windsor Cherry	WC

Smooth Top Finishes	Code
Boardwalk	SB
Driftwood	SD
Shoreline	SS

Options	Code	Price
Locking Doors	Y	95 (per pair)
Heavy Duty Lateral File Bottom	H	101 (per drawer)
Additional Grommet	G	138
High Pressure Laminate Top	4	15%

Power

PowerFlex power modules can be installed in many locations. See page 36 for options.

Pedestals & File Cabinets

- Contemporary T-Bar nickel pulls in vertical orientation are standard
- Heavy-duty leveling glides in 2" H x 1" D steel feet
- .75"-thick core with thermally fused laminate on both sides
- 3mm AdvantEdge PVC edge banding
- Full height pedestals
- Fully assembled with dowels, glue, metal brackets, screws and mechanical fasteners
- Pre-installed filing hardware holds letter- and legal-size hanging files
- Drawer bottoms .125" thick rated to 25 lbs.
- Steel, ball-bearing slides on all drawers - ¾ extension on box and center drawers, full extension on file drawers
- .125" thick, 8" H satin acrylic modesty panels

Wire Management

- See individual product features for standard number of 1.5" grommet(s) and location(s)
- Additional grommets for extended wire management capability available

Locks

- Locks are "keyed alike" as standard
- "Keyed different" locks are available at \$25 per lock. Contact HPFi Customer Service for custom option code per order

End Panels/Legs

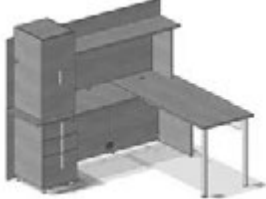

- .75" thick core with thermally fused laminate on both sides
- 3mm AdvantEdge PVC edge banding
- 1" diameter, 2" H polished aluminum feet in end panels
- 2" diameter tubular steel legs on table desks

Vitality

TRANSITIONAL CASEGOODS - SIN 33721

Bring New Life to Your Work Space

Collaborative work areas with transitional style coordinates with executive or open plan designs. A variety of configurations address all areas of an organization with a single finely crafted collection. High pressure laminate tops for executive level perception and front-line performance. Solid wood edges are shaped and finished for a handcrafted appearance. Ships fully assembled!

Tops

- 1.188" thick, high gloss, high pressure laminate (HPL) surfaces
- Rounded wood/lumber-banded edges

Edge Profile

Finishes

- High pressure laminate (HPL) top
- Thermally fused laminate (TFL) on all case surfaces

How to Specify:

- 1 Series
- 2 Pulls
- 3 Laminate finish
- 4 Model number
- 5 Options

Finished Example

V/E/WC/720B2BF/G

Finishes	Code
Mahogany	M
Windsor Cherry	WC

Power

PowerFlex power modules can be installed in many locations. See page 36 for options.

Pulls	Code
Antique Brass	A
Ebony	E
Silver	W

Options	Code	Price
Factory Installed Center Drawer	C	Varies
Factory Installed Keyboard Shelf	K	Varies
Locks Doors	Y	95 (per pair)
Heavy Duty Lateral File Bottom	H	101 (per drawer)
Additional Grommet	G	138

Pedestals & File Cabinets

- 1" thick end panels, .75" thick modesty panel
- Pedestal is .75"-thick core with thermally fused laminate (TFL) on both sides
- Imm AdvantEdge PVC edgebanding on all exposed case and drawer front edges
- Full height pedestals
- Antique brass
- Fully assembled with dowels, glue, metal brackets, screws and mechanical fasteners
- Pre-installed filing hardware holds letter- and legal-size hanging files

- Drawer bottoms .125" thick rated to 25 lbs.
- File drawers are 5-sided, oak woodgrain vinyl wrapped, .5" thick
- 3/4 extension steel, ball-bearing slides on box and center drawers
- Full extension steel, ball-bearing slides on file drawers
- 5" diameter veneer column on peninsula desk

Wire Management

- See individual product features for standard number of 3.25" x 1.875 grommets and location(s)
- Additional grommets for extended wire management capability available

Locks

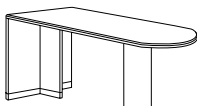

- Locks are "keyed alike" as standard
- "Keyed different" locks are available at \$25 per lock. Contact HPFi Customer Service for custom option code per order

Tables

Bedford

MEETING TABLES - SIN 33721

Classic Styling, Modern Function

Bedford brings old world excellence to the contemporary office with a complete collection of meeting solutions. High pressure laminate tops feature solid hardwood edges that withstand everyday abuse from chair "bumps." Enhance any traditional environment with beautifully crafted lounge and office HPF*i* seating products.

Assembly

- Tables ship with top and base(s) in separate cartons
- Assembly is quick and easy by attaching bases to tops with bolts provided

Finishes

- High gloss, high pressure laminate (HPL) top
- Thermally fused laminate (TFL) on panel and square bases
- Finished solid wood on Queen Anne style base

Wire Management

- Add 3.25" x 1.875" rectangular diameter grommets for extended wire management capability

Edge Profile

Hyperwork

MEETING TABLES - SIN 33721

Contemporary design

As on all Hyperwork casegoods and Educational furnishings, Hyperwork conference furnishings feature high durability AdvantEdge 3mm PVC edge banding. AdvantEdge provides an increased impact resistance for long-lasting beauty and performance. Expandable Hyperwork tables allow you to extend table size in 48" increments as the need for meeting space grows. Expandable Hyperwork tables feature a cross grain pattern on woodgrain laminates to eliminate matching issues with table top add-ons.

Assembly

- Tables ship with top and base(s) in separate cartons
- Assembly is quick and easy by attaching bases to tops with bolts or screws provided

Finishes

- Select a color combination with contrasting top and base, or choose monocolor for same top and base
- Monocolor models use a single finish designator

Wire Management

- Add 2.5" diameter grommets for extended wire management capability

Edge Profile

How to Specify:

- 1 Series
- 2 Laminate finish top
- 3 Laminate finish base (if different)

Hyperwork Education

MOBILE STORAGE TABLES - SIN 33721

Collaboration Meets Mobile Storage

Hyperwork Education Mobile Storage Tables feature storage area bases with a choice of square, round or clover-shaped tops and three heights - Desk (29"), Counter (36") and Stand-Up (41"). The tables are perfect for a small team gathering of up to four people. Storage cubbies underneath enable you to safely and securely tuck away handbags, backpacks and other portable personal belongings. Each table features 4 heavy-duty, twin-wheel lockable casters to easily move and rearrange to meet your varying needs.

Product Details

- Shipped with fully assembled cases
- Shelf placement is the only assembly
- Each shelf comes with 4 screws to affix at the desired location
- Unit is comprised of thermally fused laminate (TFL)
- 1" thick core tops, .75" core storage area and doors (where included).

Packing

- All units are packed in heavy duty cartons with heavy duty corner pads
- All packaging conforms to or exceeds specifications as outlined in the Uniform Freight Classification.

Matrix

MEETING TABLES - SIN 33721

The Answer for "Touchdown Spaces"

Matrix tables are HPFi's answer to the need for "touchdown spaces." They offer a place to read and respond to emails, texts, social media and voice mail. They also provide meeting space for teams to gather and collaborate on projects. When we are on the move taking our work or school projects along - Matrix will be there when you land!

Assembly

- Tables ship with top and base(s) in separate cartons
- Assembly is quick and easy by attaching bases to tops with bolts or screws provided

Finishes

- Select a color combination with contrasting top and base, or choose monocolour for same top and base
- Monocolour models use a single finish designator

Wire Management

- Add 2.5" diameter grommets for extended wire management capability

MEETING TABLES - SIN 33721

Transitional Style, Contemporary Function

Transitional style tables perfect for adding small meeting space to private offices where Vitality casegoods are installed.

Assembly

- Tables ship with top and base(s) in separate cartons
- Assembly is quick and easy by attaching bases to tops with bolts provided

Finishes

- High gloss, High pressure laminate (HPL) top
- Thermally fused laminate (TFL) on panel bases
- Finished wood veneer on cylinder base

Wire Management

- Add 3.25" x 1.875" rectangular diameter grommets for extended wire management capability

Edge Profile

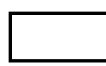

Laminate Tops

- Transitional Design
- 1.188" thick tops with Hardwood Edge
- High-Gloss, High Pressure Laminate (HPL) surface

Boost

TRAINING TABLES - SIN 33721

Sit or Stand

Sitting for long stretches every day may have health consequences. You don't have to move very much - just standing can help. Standing can increase blood flow to the brain to facilitate thinking. Maybe it is time stand up and Boost your creativity and thinking. Boost tables feature adjustable height work surfaces for easy transition from sitting to standing position. Boost is available in single or dual stage with "T" or a cantilevered "C" style leg.

Product Details

- Single stage leg adjusts from 28" to 47" overall table height (HA Series)
- Dual stage leg adjusts from 25" to 49" overall table height (DA Series)
- 1" thick thermally fused laminate (TFL) tops with matching 3mm edge banding
- Steel legs include adjustable floor glides
- Basic up/down switch included as standard
- Maximum load rating 100 lbs.
- Travel speed of 1.375" per second
- Basic up/down switch is standard
- Noise level less than 50 db
- Power consumption less than .3 watts
- Simple assembly required

Wire Management

- Add 2.5" diameter grommets for extended wire management capability

Clique

MEETING TABLES - SIN 33721

Create and Re-Create

Clique training tables provide maximum flexibility, versatility and a modern aesthetic with multiple top shapes and sizes to allow for almost unlimited configurations. Choose top shapes and legs (with or without locking casters) to fit the desired configuration or layout. Assembly is simple and quick. Add modesty panels or privacy screens to complete your customized configuration.

Product Details

- Column legs create 29" desk / table height
- Column legs available in single or set of 4
- Column legs available with adjustable glides or 60mm casters
- 1" thick tops are smooth (suede) finish thermally fused laminate (TFL)
- 8" raised satin acrylic modesty panel available
- Simple assembly required

Wire Management

- Add 2.5" diameter grommets for extended wire management capability

Duality

TRAINING TABLES - SIN 33721

Meet, Flip, Nest, Store

Duality tables feature a tilting top that allows tables to be nested for ease of movement and compact storage. Pull them out and set up when needed, tuck them away when the meeting is over.

Product Details

- Flip-top for easy storage
- Die cast flip mechanism engaged with single release point
- 1" thermal fused laminate tops with matching 3mm edge banding
- Steel in-line nesting, double tube legs available in Silver as standard
- Includes 4 casters - 2 locking
- Table height of 29"
- Steel support beam standard on 60" and 72" width tops
- Laminate modesty panel available
- Some assembly required

Wire Management

- Add 2.5" diameter grommets for extended wire management capability

Spencer

TABLES - SIN 33721

Contemporary design

Spencer tables are a new twist on an old favorite with a sawhorse base style. As on other HPFi tables, these tables feature high durability AdvantEdge 3mm PVC edge banding on the 1" thick core, thermally fused laminate tops. Spencer occasional height tables are a perfect companion to Eve and Accompany lounge furnishings, particularly the Eve Harbor privacy seating models.

Assembly

- Tables ship with top and base(s) in separate cartons
- Assembly is quick and easy by attaching bases to tops with bolts or screws provided

Finishes

- Select your choice of thermally fused laminate, 1" thick top
- Base are offered in three contemporary powder-coated paint finishes

Wire Management

- Add 2.5" diameter grommets for extended wire management capability

Occasional Tables

Malibu

The Malibu family of tables coordinate perfectly with Eve and Accompany (metal leg) lounge seating. The oval coffee, round end and demi-lune sofa tables are available with a contemporary .375" thick tempered glass or .75" thick thermally fused laminate (TFL) top. Frames are 16 gauge steel, urethane clear coat over brushed aluminum powder coat finish with non-skid floor glides.

9100 Series

The 9100 Series tables work perfectly with the HPFi Vitality casegoods and 9100 Series Lounge. The transitional style radius, lumber-banded hardwood edges ensure years of protection. The semi-gloss finish veneer top surface offers the beauty of natural wood and helps to hide smudges and fingerprints.

Milan Breakroom

BREAKROOM TABLES - SIN 33721

Buffet or Café, Uniquely Designed

The Milan Bistro Table collection is the perfect solution for break rooms, cafeterias, dining areas and anywhere that you need a place to meet and eat. A large variety of top options designed to coordinate with other HPFi furnishings. Combine table tops with a 28" (dining height) or 40.75" (bistro/standing) high heavy-duty steel base. Choose from a wide range of Milan Bistro seating for an instant lunch area or sidewalk café.

Product Details

- Heavy duty cast base available in black
- 29" or 42" heights (top & base) available
- 3" diameter durable steel columns
- 40.75" high base (for 42" high table) includes 30" heavy duty foot ring
- 1" thick thermally fused laminate (TFL) tops (Hyperwork)
- 36" or 42" diameter, 24" and 30" D x 36" and 48" W rectangular tops available
- Adjustable floor glides included in bases
- Simple assembly required

Edge Profile (Hyperwork) Top

Seating

Accompany

LOUNGE SEATING - SIN 33721

Side-By-Side Comfort

Accompany invites users to sit side-by-side in comfort. Especially suited for public areas and waiting rooms, the gentle curves and visual scale of Accompany creates an impression of comfort and encourages users to relax. Enjoy strong, upright support for conversation-friendly sitting. Separate components allow configuration beyond just three seats. Modular units can be added or removed from a seating configuration providing a sensible approach to the constantly changing demands of business.

Product Details

- Commercial-grade engineered hardwood frame with reinforcing corner blocks are glued and stapled
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Taut seat, no-sag springs
- High density foam adds comfort
- Metal-to-metal connection of arms, seat and back ensures long-term durability

- Wood finish legs with non-marring floor glides or brushed aluminum cylinder legs with adjustable glides
- Two-color combinations available
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

Chesterfield

LOUNGE SEATING - SIN 33721

Traditional Comfort

Chesterfield is a fully upholstered traditional lounge grouping. It is inspired by original designs features oversize scroll arms and extra-deep seat comfort. Accents include tufting, individually-placed brass nail trim and bun-style feet.

Product Details

- Frames of commercial grade engineered hardwood
- Frame components are glued and stapled
- Reinforcing corner blocks are glued and screwed
- Arms are custom fabricated and wrapped with foam and fiber
- Metal-to-metal connection to frame for long-term secure fastening

- High-density foam over heavy gauge, no-sag sinuous spring
- Traditional tufting upholstery stitching is standard
- Brass nail trim
- Bun feet
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name
- 4 Options

Claudia

LOUNGE SEATING - SIN 33721

Dramatic Curves

We believe that a seat can, and should, combine both form and function. For Claudia, we put special emphasis on the form. Take a seat and your arms will naturally fall into the gently undulating contour of the fully upholstered arms. Brightly polished aluminum legs add just the right amount of sparkle and visual interest. The cushions are plush and supportive so that waiting goes from a "chore" to a "pleasure." Round and oval table selections make for a complete collection.

Product Details

- Arms are custom fabricated and wrapped with foam and fiber for comfort
- High density foam adds comfort
- Stitching between seat/back cushions when required by fabric application
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Commercial-grade engineered hardwood frame
- Frame components with reinforcing corner blocks are glued and stapled

- Metal-to-metal connection of arms, seat and back ensures long-term durability
- Angled satin finish chrome legs with stationary feet
- Two-color combinations available
- Adjustable glides
- Hybrid soy-based, CFC-free foam

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name for seat & back
- 4 Fabric grade & name for arms (if different)

Eve

LOUNGE SEATING - SIN 33721

Creative Public Spaces

The sleek lines of the Eve Collection take shape from the desire to provide a contemporary solution to reception areas, waiting rooms, open plan team areas, lobbies and training rooms. Combining metal, wood and upholstered elements, Eve delivers form and aesthetic relevance. Linear chairs, loveseats and sofas and one-, two- and three-person benches are also included. Large, open public spaces offer the opportunity for various work styles to coexist. Eve curved banquettes promote private conversations or necessary solitude within any gathering space.

Product Details

- Seat and back suspension features heavy-duty Sytex stretch-webbing
- Hardwood frames with reinforcing corner blocks are glued and stapled
- Arms are custom fabricated and wrapped with foam and fiber for comfort
- Metal-to-metal connection of arms, seat and back ensures long-term durability
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Brushed aluminum cylinder legs with adjustable glides

- Silver powder-coated steel rail/runner legs available on select models
- Two-color combinations available
- Adjustable glides
- Hybrid soy-based, CFC-free foam
- Finished wood legs available in place of metal legs
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Fabric grade & name for seat & back
- 3 Fabric grade & name for arms (if different)
- 4 Options
- 5 Option finish(s)

Eve Harbor

LOUNGE SEATING - SIN 33721

Creating Intimate Settings

The sleek lines of Eve Harbor provide a contemporary solution to collaborative work space, waiting areas and lobbies when more privacy is needed. The work environment begs for more enclosed areas that fall somewhere in between "open" or "closed" space and Eve Harbor is the response. Eve Harbor is available in two distinct privacy panel styles, K-shape and D-shape and three width options.

Product Details

- 2" thick upholstered back and end panels for privacy
- Seat and back suspension features heavy-duty Sytex stretch-webbing
- Hardwood frames with reinforcing corner blocks are glued and stapled
- Metal-to-metal connection of panels, seat and back ensures long-term durability
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Brushed aluminum cylinder legs with adjustable glides

- Finished wood legs available in place of metal legs
- Silver powder coated steel rail/runner leg option
- Two-color combinations available
- Adjustable glides
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name for seat & back
- 4 Fabric grade & name for back and end panels (if different)
- 5 Options

Evette

LOUNGE SEATING - SIN 33712

Kid-friendly. Kid-tough

Evette features the same construction as the HPFi full-size Eve family. It includes many of the same elements such as straight and curved seating, benches and matching tables. Along with the full-size Eve pieces, the youth-sized Evette integrates seamlessly for ganged or independent, freestanding seating.

Product Details

- Seat and back suspension features heavy-duty Sytex stretch-webbing
- Hardwood frames with reinforcing corner blocks are glued and stapled
- Arms are custom fabricated and wrapped with foam and fiber for comfort
- Metal-to-metal connection of arms, seat and back ensures long-term durability
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing

- Brushed aluminum cylinder legs with adjustable glides
- Finished wood legs available in place of metal legs
- Two-color combinations available
- Adjustable glides
- Hybrid soy-based, CFC-free foam

How to Specify:

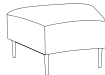

- 1 Model number
- 2 Wood finish (where applicable)
- 3 Fabric grade & name for back
- 4 Fabric grade & name for seat (if different)
- 5 Options

Fully upholstered seat, back and back panel

Flex Lounge

LOUNGE SEATING - SIN 33721

Modular Lounge Solutions

Flex is designed for casual gatherings allowing perimeter spaces to become useful for collaboration. Flex Lounge seating bridges the gap between casual Flex Ottoman seating and Flex Tier seating with a modular lounge approach. Comfortable seats and benches are easily re-configured for meetings or casual gatherings. Flex Lounge's design is based on 20" deep seats and 10" deep backs to create an endless variety of seating arrangements. 30" high padded backs make even a brief touchdown painless. Flex Lounge also includes two-sided seating suitable for dining halls.

Product Details

- Hardwood frames with reinforcing corner blocks, glued and stapled
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Available in textile or coated fabric upholsteries in a single or two-color combination

- Metal-to-metal connection of seat and back ensures long-term durability
- Non-marring tapered floor glides
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

Flex Mobile

LOUNGE SEATING - SIN 33721

Modular Lounge Solutions

Flex is designed for casual gatherings allowing perimeter spaces to become useful for collaboration. Flex Mobile seating bridges the gap between casual Flex Ottoman seating and Flex Tier seating with a mobile and modular lounge approach. Comfortable seats and benches are easily re-configured for meetings or casual gatherings. 30" high padded backs make even a brief touchdown painless.

Product Details

- Hardwood frames with reinforcing corner blocks, glued and stapled
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Available in textile or coated fabric upholsteries in a single or two-color combination

- Dual-wheel locking casters provide easy mobility
- Metal-to-metal connection of seat and back ensures long-term durability
- Sustainable soy-based, CFC-free foam interior for maximum comfort
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Fabric grade & name for back
- 3 Fabric grade & name for seat (if different)
- 4 Options

Flex Ottomans

LOUNGE SEATING - SIN 33721

Turning Spaces Into Collaborative Work Areas

Fully-upholstered Flex Ottomans are available in a wide variety of shapes – cubes, circles, triangles, octagons, benches, trapezoids or tapers. A variation of the taper includes adding angled brushed aluminum legs to create bistro-height seating. A great way to add extra seating to any space. Mix and match upholsteries to create colorful seating in children's areas.

Product Details

- EPS(expanded polystyrene) core on engineered hardwood base
- Hardwood frames with reinforcing corner blocks, glued and stapled on tablet models
- Fully upholstered with double-needle trim on all surfaces to reinforce sewing

- Available in textile or coated fabric upholsteries in a single or two-color combination
- Non-marring tapered floor glides
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

Flex Tiered

LOUNGE SEATING - SIN 33721

Comfortable Multi-Level Seating

Flex Tiered Seating makes perimeter space useful. Multiple 2-Tier and 3-Tier options with 2-Tier corner modules may be grouped and re-configured for a variety of seating spaces. Flex is the foundation for spontaneous gatherings. As movable interior architectural elements, the wood Flex Tiered can become a temporary bleacher venue. Wood Flex Tiered can be specified in most standard HPFi wood finishes. Flex Walls add functionality and privacy integrated with Flex Tiered seating. Adding shelves to Flex Walls provide a standing-height work level.

Product Details

- Hardwood frames with reinforcing corner blocks, glued and stapled
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Available in textile or coated fabric upholsteries in a single or two-color combination

- Seam slippage/strength minimum 40 lb. rating warp and weft/fill on horizontal surfaces
- Adjustable glides
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name for seat / tier front
- 4 Fabric grade & name for back & sides (if different)
- 5 Options

Options	Code	Price
Flex Wall Mount-Ready	WM	N/C

Wood Finishes	Code

Genesis

LOUNGE SEATING - SIN 33721

Mobile. Versatile. Comfortable.

Combining the comfort of lounge seating with the high functionality of team seating, Genesis Team Seating is a new alternative for innovative environments. Open and smooth-gliding drawer for storage options. Available in two widths to accommodate "oversized" occupants. The standard peanut-shaped tablet is non-handed and may be placed on either arm (without tools!) to accommodate left- or right-handed occupants.

Product Details

- Dual-wheel, easy-rolling casters for mobility
- Unique 360-degree revolving peanut-shaped tablet for note-taking or laptop support
- Tablet easily relocates on left or right arm
- Storage compartment under seat
- Standard black finish arms and tablet
- Fabric combinations available with seat and back differing from arm panels
- Hardwood frames are glued, screwed and stapled

- Reinforcing corner blocks are glued and stapled
- Frame components are double-doweled, glued, stapled and screwed
- Metal-to-metal connection of arms, seat and back ensures long-term durability
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name for seat & back
- 4 Fabric grade & name for arms (if different)
- 5 Options

Himalaya

LOUNGE SEATING - SIN 33721

Metropolitan Style

Himalaya reception, executive and guest seating presents unique, contemporary solutions for every area of a commercial environment. From lobbies and lounges to conference rooms and private offices, Himalaya offers a consistent, metropolitan style in a design based on modern classics. Craftsmen carefully hand-pull and hand-tie reliefs in leather, vinyl or fabric upholstery to create the multiple mini-cushioned design of Himalaya. Square forms and square stitch pattern accent this offering. Available without arms or with curved, tapered arms.

Product Details

- Taut seat, no-sag springs
- High density foam adds comfort
- Commercial-grade engineered hardwood frame
- Frame components with reinforcing corner blocks are glued and stapled
- Arms are custom fabricated and wrapped with foam and fiber for comfort
- Metal-to-metal connection of arms, seat and back ensures long-term durability

- Double needle seam stitches
- Full square pattern relief (seat and back) stitching standard
- Two-color combinations available
- Wood finish with non-marring floor glides or brushed aluminum legs
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

How to Specify:

Kimberly

LOUNGE SEATING - SIN 33721

Sophisticated Form

Kimberly blends sophisticated form with careful attention to detail. Soft arm pleats and welted design lines present an elegant, fully upholstered reception seating solution that also includes occasional tables. Elegant double-needle tailoring, taut seat, no-sag springs and high-density foam ensure long-term comfort and durability.

Product Details

- Taut seat, no-sag springs
- High density foam adds comfort
- Stitching between seat/back cushions when required by fabric application
- Commercial-grade engineered hardwood frame
- Frame components with reinforcing corner blocks are glued and stapled
- Arms are custom fabricated and wrapped with foam and fiber for comfort

- Metal-to-metal connection of arms, seat and back ensures long-term durability
- Wood finish legs with non-marring floor glides
- Two-color combinations available
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name for back & seat
- 4 Fabric grade & name for arms (if different)
- 5 Options

9100 Series

LOUNGE SEATING - SIN 33721

To Be Discontinued 12/31/22

(or until dedicated materials are depleted)

Luxurious Comfort

9100 Lounge Seating provides luxurious comfort with a unique, compound curved wood accent. Flare arm design, contoured lumbar support and generous scale create comfortable proportion and relaxed seating. Seat cushions feature extra thick, multi-density foam for support and are removable for easy cleaning.

Product Details

- Exposed handcrafted carved hardwood flared arms with upholstered inserts wrap to front legs
- Weltd design lines on arms with soft pleats on sides of back
- Removable seat/back cushions provides comfort, support and easy cleaning
- Flexolater wire seat suspension
- 11-gauge sinuous wire back suspension
- Wood finish arms and legs with non-marring floor glides

- Commercial-grade engineered hardwood frame with reinforcing corner blocks are glued and stapled
- Arms are custom fabricated and wrapped with foam and fiber for comfort
- Metal-to-metal connection of arms, seat and back ensures long-term durability
- Hybrid soy-based, CFC-free foam
- All listed product options must be factory installed

Classic Collection

EXECUTIVE OFFICE SEATING - SIN 33721

Classic Design and Functionality

With timeless styles and options, the HPFi Classic Collection is a winner in many office environments. The HPFi Classic Collection is comprised of several "former" series of seating previously identified as Scoop, Quick Silver and Traditional. Many offer a choice between wood and urethane arms and base. Options on many of these models include knee tilt controls, trim, nail heads, jury bases, glides and a variety of casters for various floor surfaces.

Product Details

- Thick, padded contour molded foam in seat and back
- Five-prong base with dual wheel carpet casters
- 360° Swivel seat with waterfall front edge
- One touch pneumatic seat height adjustment

- Standard swivel tilt mechanism
- Swivel chairs feature wood cap over steel or nylon reinforced polyurethane bases
- Hybrid soy-based, CFC-free foam

ETC

OFFICE SEATING - SIN 33721

Thin Profile Office Seating

The ETC chair features a thin profile, compound curved mesh back with a height adjustable lumbar support. The full size seat has an adjustable seat slider to fit a greater range of body sizes up to 300 lbs. Two-way adjustable arms also enable the user to find their maximum armrest comfort. Basic model with a black knit fabric seat or in any HPFi graded-in fabric unassembled in a carton. Options include fully assembled in a carton or "blanket-wrapped" for local pick up.

Product Details

- Adjustable tension, synchro-tilt, locking seat mechanism
- Seat slider seat depth adjustment
- Independent height adjustable lumbar
- Contoured, molded foam seat
- Height and width adjustable, arc surface armrests
- 4" height adjustable pneumatic lift

How to Specify:

- 1** Model number
- 2** Fabric grade & name for seat
- 3** Options

MEETING/COLLABORATIVE SEATING - SIN 33721

To Be Discontinued

Out of This World Comfort

(Available Until Dedicated Materials Depleted)

The classic design of Orbit fits the modern day demands of the collaborative work or learning environments. Its one-piece, molded plywood construction offers a fixed back angle selected for optimum comfort. The non-tilting seat mechanism offers a full 360 degree swivel. Adjustable floor glides ensure smooth, level operation on any floor surface.

Product Details

- Fully upholstered
- Pneumatic seat height adjustment
- Molded plywood frame construction
- 360° Swivel seat with waterfall front edge

- Five-star chrome-plated base
- Adjustable floor glides
- Hybrid soy-based, CFC-free foam

How to Specify:

- 1 Model number
- 2 Fabric grade & name

Finished Example

5607/2 Mayer Fabrics Fedora Tangelo

The upholstery selection is crucial due to the curvaceous design of the Orbit chair. The following fabric patterns have been successfully tested for use on Orbit:

Tested Fabrics

Culp Dorset (Grade 1)

Mayer Fabrics Cross Check (Grade 1)

Mayer Fabrics Fedora (Grade 2)

Mayer Fabrics Foundation (Grade 2)

CF Stinson Blip (Grade 4)

Contact your HPFi representative for specific upholstery options.

Contempo

GUEST SEATING - SIN 33721

Elegant Design

Contempo presents elegant wood guest seating with extensive design flexibility. Solid hardwood frames offer the unique characteristics of wood. Select from six precision cut, multiple-layer hardwood plywood back designs: Partially Upholstered, Fully Upholstered, Hourglass, Fan, Ladder and Puzzle back. Available in armless or two arm designs - curvilinear and scalloped.

Product Details

- Commercial-grade engineered hardwood frame
- Frame components are double-doweled, glued, stapled and screwed
- Reinforcing corner blocks are glued and stapled
- Non-marring floor glides

- Seat and back Sytex web suspension
- Hybrid soy-based, CFC-free foam

How to Specify:

- 1 Model number
- 2 Wood finish
- 3 Fabric grade & name for back
- 4 Fabric grade & name for seat (if different)
- 5 Option

Trados

GUEST SEATING - SIN 33721 & SIN 337127CSB

Solid Comfort, Unique Design

The Trados wood collection features a striking triarc arm design and solid frame. Steel cross brace construction provides 350 lb. capacity. Bariatric seating also includes steel cross braces in the back and offers a standard weight capacity of 500 lb. with 750 lb. and 1,000 lb. options. All seating units, corner and connecting tables can be ganged in a virtually unlimited number of combinations.

Product Details

- Tri-arc arm design
- Solid wood frame with steel reinforced seat
- Separate seats & backs for easy clean out
- Seats and backs are field replaceable

- Chair weight capacity 350 lb., bariatric chair rated to 500 lbs.
- Two-color combinations available, priced at higher grade
- Adjustable glides
- Hybrid soy-based, CFC-free foam

Trados Metal

GUEST SEATING - SIN 33721 & SIN 337127CSB

Solid Comfort, Modern Appeal

The Trados Metal guest seating collection features a triarc arm design enhanced by a smooth, silver finish, rugged steel frame. This elegant yet sturdy chair can be further enhanced by the addition of optional wood arm caps in a variety of finishes or in an anti-microbial urethane arm cap. The steel cross brace and heavy gauge steel frame construction provide a 350 lb. capacity in the guest and patient chairs, the settee and bench. Bariatric seating offers a standard weight capacity of 500 lb. with 750 lb. and 1,000 lb. options.

Product Details

- Tri-arc arm design
- Rugged all steel frame construction
- Separate seats & backs for easy clean out
- Seats and backs are field replaceable

- Chair weight capacity 350 lb., bariatric chair rated to 500 lbs.
- Two-color combinations available, priced at higher grade
- Adjustable glides
- Hybrid soy-based, CFC-free foam

Unos

GUEST SEATING - SIN 33721 & 337127CSB

Solid Comfort, Transitional Style

The Unos collection is constructed with extra-sturdy frames. Transitional style scalloped arms/legs are 1.75" thick solid hardwood. Steel cross braces provide solid construction with a weight capacity of 350 lb. per unit. Bariatric width chairs also include steel cross braces in the back and offer a standard weight capacity of 500 lbs. with 750 lb and 1,000 lb options. The 904 armchair can be (ordered) ganged up to four seats with one arm between seats. Wood veneer top corner and inline connecting tables expand configuration options.

Product Details

- Extra wide arms with scalloped design
- Solid wood frame with steel reinforced seat
- Separate seats & backs for easy clean out (except 905 Patient Chair)
- Seats and backs are field replaceable
- Wall-saver leg design (except 905 Patient Chair)

- Standard armchair weight capacity 350 lb.
- Two-color combinations available, priced at higher grade
- Adjustable glides
- Hybrid soy-based, CFC-free foam

Milan

BREAKROOM SEATING - SIN 33721

Bistro Style

Milan offers an ideal solution for "third spaces" such as break rooms, cafeterias, dining areas and anywhere that you need a place to meet. Milan seating features a durable black metal frame and solid wood seat in dark Mahogany finish. Three distinct models available - 18" seat height chairs are designed for use with standard dining height tables, 30" seat height stools are perfect for bar height tables and are available with a fixed or swivel seat and back. Each version is available with ladder, porthole or solid back styles.

Product Details

- Mahogany finish on .625" commercial grade hardwood seat and back
- Welded metal frame
- 1.125" square tubing with .75" support rails
- Non-marring floor glides

- Available with 1" upholstered seat for increased comfort
- Hybrid soy-based, CFC-free foam in upholstered seats
- Solid backs can be special ordered with custom logo etching (set-up charge is required, which varies depending on the size and complexity of the logo)

How to Specify:

- 1 Model number
- 2 Fabric grade & name for seat
- 3 Options

Stax

STACK CHAIRS - SIN 33721

A Study in Simplicity

Stax guest chairs are a study in simplicity – in waiting areas, cafeterias or any other high-traffic area. Durable polypropylene seat and back integrated with rigid steel legs and support structure. Available with either chrome or black finish frames. Seat and back can be upholstered in a wide variety of fabrics to match any décor. Connectors makes for easy ganging to meet local fire codes. The rolling stack cart can hold up to 24 non-upholstered Stax chairs for transport and storage.

Product Details

- Black powder-coat painted or chrome plated frame, .400 solid wire
- Black polypropylene seat and back
- Oval hand-hold cut-out for easy transport
- Non-marring floor glides
- Ganging clips available to connect in rows

- Optional upholstered seat, back or both - choose any HPFI upholstery
- Stacks up to 24 high on Model 720Cart
- Ships 4 chairs per carton
- Hybrid soy-based, CFC-free foam

How to Specify:

- 1 Model number
- 2 Fabric grade & name for back
- 3 Fabric grade & name for seat (if different)
- 4 Options

Timbre

BREAKROOM SEATING - SIN 33721

Clean, Contemporary Casual Seating

Timbre seating features polypropylene seats and backs engineered for comfort. The open design of the back not only is aesthetically pleasing, but offers a cool, breathable back surface. The two-piece clam shell construction of the seat also ensures a comfortable respite for longer-than-expected conversations. Timbre stools are a perfect complement to a Matrix touchdown table. Timbre leg chairs make a perfect break room chair with Clique tables. The caster version of the chair is also ideal for use in training rooms with Duality or Clique training tables.

Product Details

- Polypropylene seat and back with light texture
- Clamshell seat construction for comfort
- .75" diameter, chrome-plated tubular steel frame
- .50" diameter chrome-plated tubular steel foot rest

- Non-marring floor glides
- Available with upholstered seat pad
- Ships 4 chairs per carton
- Hybrid soy-based, CFC-free foam in upholstered seat pads
- Stacks up to 8 chairs on 715-CART shown on page 299

Healthcare

Haley

PATIENT ROOM RECLINER - SIN 337127CSB

Comfort and Versatility

Comfort and versatility have been designed into the Haley recliner from the ground up. Comfort is provided through a body activated recliner mechanism housed in a streamlined frame. A multitude of options provide the versatility to make Haley at home in a wide variety of settings from lobbies and lounges to patient rooms.

Product Details

- Sinuous wire spring suspension and high density foam for durability and patient comfort
- Full width foot rest provides support to patient's entire leg
- Fully upholstered with double-needle trim on seat, back and arms to reinforce sewing
- Two-color combinations available

- Standard width models rated to 350 lbs.
- Bariatric width models rated to 500 lbs.
- Pillow back models include a repositionable pillow
- Hybrid soy-based, CFC-free foam
- Warranty: Limited lifetime on seating components, and three years on wearable parts (recliner mechanism and casters)

23.25" W x 2.75" D x 1" H

- Set of two arm caps for treatment chairs or recliners
- Must be factory installed

	Shp. Wt.	Price
MT	11	525

AC Powered Motor Assist

- Only available on 810, 815, 840 and 845 models
- Motorized mechanism for a smooth recline and return
- Operated through wired remote control
- Specify MT at end of model number
- Must be factory installed

	Shp. Wt.	Price
MTB	18	917

Powered Motor Assist

- Only available on 810, 815, 840 and 845 models
- Motorized mechanism for a smooth recline and return
- Operated through battery powered remote control
- Specify MTB at end of model number
- Must be factory installed

	Shp. Wt.	Price
HM	N/A	1765

Heat & Massage

- Only available on 810, 813, 840, 841 and 843 models
- AC powered heat and massage
- Control located on inside of right arm facing, standard
- Will not overheat
- Waterproof
- Not available on pillow back models
- Must be factory installed

	Shp. Wt.	Price
C	11	334

3" Casters

Overall

3" W x 3" D x 3" H

- Only available on 840, 841, 843, 844, 845 and 847 models
- 3" non-marking twin wheel casters
- Front casters lock
- Mounted with metal plate
- Add C at the end of any Haley recliner model number
- Must be factory installed

	Shp. Wt.	Price
PL	5	440

IV Pole with Pole Holder

Overall

11" W x 2.75" D x 55.5 - 90.5" H

- Two prong IV pole
- Chrome plated steel
- Adjustable height 55.5" x 90.5"
- Locking collar prevents accidental collapse
- Brushed aluminum cobra-mount pole holder located on outside bottom rear of chair arm, right side facing standard
- Must be factory installed

	Shp. Wt.	Price
FH	1	133

Foley/Accessory Hook

Overall

2.25" W x .25" D x 2.5" H

- Accessory hook located outside right arm facing standard
- Provides convenient placement for drainage bags
- Useful in securing restraints
- Must be factory installed

	Shp. Wt.	Price
MB	N/A	93

Moisture Barrier

- Moisture barrier between seat-foam and fabric
- 70 Denier/210 thread count nylon with polyurethane coating
- Anti bacterial, antifungal inhibition 99+%
- Must be factory installed

PATIENT TREATMENT CHAIR - SIN 337127CSB

Make Recovery More Comfortable

Comfort, form and function are the essential building blocks for any HPFi product. Nowhere is this more critical than in a healthcare setting where patient comfort is essential to maximize relaxation and recovery while simultaneously providing caregivers with equipment that looks great and performs flawlessly.

Product Details

- Lay-flat mechanism allows for administering a wide variety of treatments without use of a bed or gurney
- Independently operated back and foot rest
- Pneumatically controlled, infinite adjustment back rest
- Sinuous wire spring suspension and high density foam for durability and patient comfort
- Full width foot rest provides support to patient's entire leg
- Pull-out foot tray for easy patient transfer on Trendelenburg models
- Pneumatically controlled back release located outside right arm facing offers infinite adjustments and can be located inside or outside of either arm

- Swivel casters (front) and locking swivel casters (rear) offer zero-turning radius for maximum maneuverability
- Standard width models rated to 500 lbs.
- Bariatric width models rated to 750 lbs.
- Pillow back models include repositionable pillow
- Warranty: limited lifetime on seating components, three years on wearable parts (recliner mechanism and casters)
- 73" Depth when reclined to lay flat position
- Footrest operated by black lever on left arm facing

How to Specify:

- 1 Model number
- 2 Fabric grade & name for back & seat
- 3 Fabric grade & name for arms (if different)
- 4 Options
- 5 Option finish(es)

PL	5	440

IV Pole with Pole Holder

Overall
11" W x 2.75" D x 55.5 - 90.5" H

- Two prong IV pole
- Chrome plated steel
- Adjustable height 55.5" x 90.5"
- Locking collar prevents accidental collapse
- Brushed aluminum cobra-mount pole holder located on outside bottom rear of chair arm, right side facing standard
- Must be factory installed

	Shp. Wt.	Price
MB	N/A	93

Moisture Barrier

- Moisture barrier between seat-foam and fabric
- 70 Denier/210 thread count nylon with polyurethane coating
- Anti bacterial, anti-fungal inhibition 99+%
- Must be factory installed

Harmony

HEALTHCARE DAYBEDS/SLEEPERS - SIN 337127CSB

Overnight Comfort

Harmony is the ideal answer for an overnight, comfortable stay in a patient room. Day Beds are available in three widths to accommodate most rooms. The full size version of Harmony provides an adequate sleeping space with room for two adults. The Sleeper Chair seat extends with a pop-up "ottoman" from underneath the seat. The back cushion flips down to provide a pillow/extended sleep surface. Also a great solution for teacher's and employee lounges where a temporary sleep surface is required.

Day Bed Product Details

- Wall-saver design
- Seat lifts to unlock pull-out base to convert to a 78" bed
- Lift chair back and roll forward to return unit back to a chair
- Platform rail on glides for stability
- Ample storage under seat for linens and blankets
- Double-needle trim on seat, back and arms to reinforce seams
- Two-color combinations available

Sleeper Chair Product Details

- Wall-saver design - grasp handle and pull for stored "pop-up ottoman"
- Swivel casters (rear) and locking casters (front) for ease of mobility
- Club chair converts to chaise with pull-out pop-up ottoman
- 86" total sleep surface when fully extended and back folded down
- Double-needle trim on seat, back and arms to reinforce seams
- Two-color combinations available
- Mechanism rated to 500 lbs.

Helix

DOCTOR STOOLS - SIN 337127CSB

Comfort for Physicians

Helix stools provide a full range of adjustable height seating for physician's offices, examination rooms and other areas of care. Models with a foot activated ring in the base provide a hands-free height adjustment. Braking casters ensure that the stool does not roll away when vacant. Both of these features allow the user to keep hands clean and sterile.

580 / 581 Product Details

- 11" diameter foot ring for hands-free height adjustment
- Dual-wheel compression braking casters inhibit movement when stool is vacant
- Cast steel base
- 23" Base - Black powder coat or chrome plated steel
- Matching finish pneumatic cylinder travels 7.5" H
- 3" thick, 16" diameter upholstered seats
- Hybrid soy-based, CFC-free foam

582 Product Details

- Conventional hand-operated one-touch pneumatic seat height adjustment
- Black dual-wheel carpet casters
- Black nylon base is 22" diameter
- 2" thick, 14" diameter molded urethane seat
