Re: 18-68, Addendum #1, Metal detectors

To Whom It May Concern:

The following questions were received pertaining to the above bid file. See answers below and bid accordingly.

Q1) ITB, page 1, electronic submission URL https://www.ms.gov/dfa/contract_bid_search does not work. We ask for revised instruction for the submission of electronic bids.

A1) You can call 601-359-1343 for addition help on Electronic Bidding.

Q2) ITB, C.1, Dimensions – are the dimensions a, b, and c internal or external?

A2) Interior pass through dimensions

Q3) ITB, C.1.d, Weight – please confirm that this is stated correctly. What is the rationale for requiring a heavier unit?

A3) The weight is stated correctly so the each unit is stable and resists movement during incidental contact by patron while passing through the detector. Also, a more substantial weight provides more stability and safety by preventing wind from moving a unit from its established screening position. Casters for each unit are included in the specs so moving models of this minimum weight should not present issues.

Q4) ITB, H.2.a, Required delivery date is on or before August 3, 2018. Will the university accept a phased delivery beginning on this date?

A4) No phased delivery is possible due to time constraints related to preparation for the first date of use.

Q5) ITB, page 10, Attachment 2 – Neither box is checked. Please confirm that there are no special conditions. Please confirm that “See Attached Drawings, Specifications, or Instructions” is not applicable.

A5) Correct. Not Applicable.

Addendum: Acknowledge the receipt of each addendum by writing on the bid form the number of the addendum and the date received.

Thank you,

A handwritten signature in cursive script, appearing to read "Debra Raines".
