Acuity™

Comfort Meets Style

Experience Acuity, a masterful blend of ergonomic excellence and a beautifully pure form. From worksettings to conference areas, and including side-seating applications, this versatile seating line supports workers and enhances the workplace.

Task Chair

Conference Chair

Armless

Side Chair

Human Friendly. Person Centered.

A design that starts with the fundamentals of the human body and embraces the functional needs of today's worker. Acuity embodies ease and versatility.

A weight-activated mechanism keeps the seat and back moving in relation to one another, providing the ideal amount of support.

Eight-way positioning enables the Acuity arms to be right where you need them.

Fit-to-task with a simple slide control that locks, tightens, or loosens the tilt.

Fit-to-body by moving the seat up, down, and back and forth with just the touch of a fingertip.
