- Available upholstery option

- Allsteel fabrics and foam meet requirements for CTB117.
- Blank spaces indicate that a product has not yet been tested or that it failed.
- Contact Allsteel Customer Support for other flammability code approvals.

Retreat Lounge is a space-defining collection that supports real work in often underutilized spaces. It defines areas for small groups, provides privacy for individuals, and offers visual consistency in space planning. The lounge collection includes wing-back, high-back, and low-back chairs, and a matching ottoman.

Retreat Executive, Conference and Side seating extends premium comfort throughout meeting and private office spaces with its iconic design know from the Retreat lounge collection. The soft, organic shape of Retreat speaks to multiple generations of leaders, while creating a timeless and cohesive aesthetic that does not overwhelm the space or user.

DESIGN FEATURES

Retreat is a space defining lounge collection that supports real work in often underutilized spaces. It defines space for small groups, provides privacy for individuals, and visual consistency in planning and varied elevations.

Arms

Arm height is specific for comfort or laptop placement.

High-Back and Wing-Back

High-back protects back of head and wing-back provides added visual privacy. Relaxed tailoring is normal and expected in the upper headrest of the wing back (see illustration below).

**Base Options for Chairs**

Select between fixed, swivel, or return-to-center base.

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-8 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

OPTIONS**Chair Type:**

- VERW** Wing-Back Upholstery
- VERH** High-Back Upholstery
- VERL** Low-Back Upholstery
- VERO** Ottoman Upholstery

Fire Code:

- NO** Standard Upholstery, No Fire Code

Base Type (if applicable):

- F** Fixed (Subtract \$327)
- S** Swivel
- R** Return-to-Center (\$289 extra)

Body Upholstery:

See page 267 for upholstery selection. Future “Non-stretch” fabrics will require dual zippers on wing back models (see illustration below).

Single Zipper

Dual Zipper

Seat Upholstery and Leather:

See page 267 for upholstery and leather selection.

Upcharges listed for Grades 2 and above, add to Base Price. Grades 9-22 on page 326.

FSC Certified Wood at Allsteel

See page 431 for more information.

Introducing Parallel, a collection of soft seating and coordinating tables that adapts to a variety of spaces. Parallel is at home in reception areas and collaborative workspaces, accommodating different functions while maintaining a consistent aesthetic. With HBF Textiles, Allsteel fabrics, or a designer's own material, Parallel provides a canvas to make a strong first impression anywhere it's used.

Designed in partnership with Chris Adamick.

Club Plus Lounge

DESIGN FEATURES**Functional Versatility**

Flexible and functional, Parallel soft seating can be considered a workhorse in helping meet a company's workplace needs, whether it be casual conference areas, lobby and reception settings, or collaborative hubs.

The variety of sizing and features allows Parallel to adapt from reception to collaborative areas throughout a workspace. The clean lines work well with current and future furniture settings. Generous sizing and thoughtful comfort considerations make the sit comfortable for five minutes or two hours.

Design Versatility

Cutting a sleek profile with tapered ellipse legs and a slim, stylistic reveal, Parallel is intended to work with your favorite Allsteel platforms without overpowering the space. The sharp tailoring of the upholstery paired with the dual-density foam means comfort without sacrificing aesthetics.

The Parallel club chair, club plus lounge, and modular sofa options, as well as the coordinating side and coffee tables, enable a diverse array of setups, from structured stylized formal, to a warmer domesticated corporate vibe, to flexible collaborative in combination with other Allsteel products. A variety of upholstery materials and frame colors celebrates beautiful form while telling a strong design story.

Wide Arms

6" wide arms with high-density foam allow for a comfortable surface for device usage, and the optional removable sleeve accessory, available in three finishes, makes a stable worksurface on the arm. Designed for comfort but also with the intent that all surfaces are sitting surfaces, Parallel is built to handle perching on the arms and back.

Design Nuances

- Legs – Ellipse, tapered shape set to the very edge of the frame
- Reveal – Slim reveal around the entire perimeter
- Tailored upholstery – Available with a channeled design detail for a more refined aesthetic

Materials

- All COMs/COLs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-8 for COM ordering instructions.
- Allsteel fabrics meet requirements for CTB117. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CTB117.

Tables (page 282)

- Available with laminate or veneer tops.
- Leg finish option includes painted (color specified) or polished chrome.

FSC Certified Wood at Allsteel

See page [431](#) for more information.

Linger is a lounge chair that accommodates a variety of postures. Take a seat for longer meetings, sit upright, lounge, or swing your legs over the side. Perch on the back for shorter interactions when you don't want to commit to the sit.

MODELS AND OPTIONS

Linger is available in one size with an upholstered seat and a base that can be painted or polished aluminum. Linger is available in solid or two-tone upholstery options.

APPLICATION

Place Linger in open areas, public or neighborhood spaces, small conference rooms, dedicated collaboration rooms, dormitory lounges, libraries, or hospitality waiting areas.

KEY FEATURES

Linger is constructed of upholstery over frame and foam with either a painted or polished aluminum base. The core is upholstery-grade FSC plywood with box joint and corner block construction. The base swivels so you can engage the whole room. Plus it self-centers to its original position when not in use to keep spaces ready for the next meeting. Upholster the seat and sides in two different fabrics to create a unique aesthetic. Linger accommodates multiple postures, including the ability to sit on the back ledge.

MATERIALS AND FINISHES

Linger has a fully upholstered seat that can be specified as a single upholstery or two-tone.

- All upholstery foams are CFC-free.
- All COMs must be approved for upholsterability or applicable fire code compliance prior to order entry. See pages 6-8 for COM ordering instructions.
- **Flammability** code compliance of Allsteel textiles and seating is listed on pages 17-18. COM/COL manufacturers supply certificates of compliance for fabric-only tests such as CAL TB117-2013.

Linger is warranted for users up to 300 lbs.

FSC Certified Wood at Allsteel
See page [431](#) for more information.

Reflect creates personal refuges around the open office — in the hallway, adjacent to a row of workstations, or near a wall of windows. Enjoy the privacy of a large, sound-stifling back that reduces distractions and communicates unavailability. Or the generous space formed from wide armrests and an oversized seat, allowing room for your laptop, paperwork, and other tools of the trade. And the comfort of padded upholstery, which cushions you as you finish that email, report, or video call.

With Reflect, going solo doesn't always mean you have to go at it alone. Arrange multiple seats into pairs or pods to give team members a new space to collaborate. Use the concealed swivel to move towards or away from others as needed.

Some time away is good for everyone. Focus your attention in the right place with Reflect.

MODELS AND OPTIONS

Reflect is available with an upholstered seat/back and upper shell. Lower shells are veneer and each unit ships with a steel base plate for stationary placement.

APPLICATION

Place Reflect in open areas, public or neighborhood spaces, adjacent to workstations or in a cafe-type setting.

KEY FEATURES

Surprising Functionality

With an integrated swivel-based mechanism, Reflect enables multiple work modes — from 1:1 conversation to private office focus.

Communicated Privacy

Sight-blocking and sound dampening upper shell visually communicates unavailability and creates private seclusion.

Comfortable Yet Active

Ergonomically designed soft seating promotes upright postures and active working behaviors for the task at hand.

Beautifully Designed

Reflect's asymmetrical aesthetic is visually compelling and intuitively offers ancillary worksurface support for beverages and writing with its extended width armrest.

CONSTRUCTION

Reflect is constructed of fabric covered foam with an upholstery-grade FSC plywood core with box joint and corner block construction.

FSC Certified Wood at Allsteel
See page 431 for more information.

The best work happens when the right people come together in the right space. A space that facilitates uninterrupted thought and sets team members up for everyday office victories.

Meet Clubhouse, the newest addition to Allsteel's Social Collaborative collection of furniture.

It's where seating, surface and seclusion come together. Clubhouse is easy to set up in any space and fits however your team works. Its framed design serves a dual purpose: promoting collaboration while reducing outside distractions by communicating to others that work is happening inside.

Great things happen in your go-to place. That's the beauty of Clubhouse – the get-together getaway space.

AVAILABLE CONFIGURATIONS

Clubhouse is available in fourteen unique configurations that span between two different heights. Optional console and storage components provide ancillary worksurface support, media wall applications support technology and a wide array of fabrics and finishes allow for creative expression.

APPLICATION

Like its sister products, Clubhouse addresses the modern workplace's need for flexibility in an open office design. By forming — not filling — a room, Clubhouse creates a secluded space within any place:

- The brainstorm retreat.
- A private area for the job interview.
- The temporary office for writing that memo to the boss.

KEY FEATURES

Spatial Delineation

- Microarchitectural-like frame forms a 3D boundary and creates a space within a space.
- Semi-translucent back and side screening elements visually establish privacy and communicate unavailability

Extended Use Comfort

- Soft seating provides long-term comfort for small to mid-sized groups.
- Optional console and storage components provide ancillary work surface support.

Support for Technology

- Optional media wall and table support digital content sharing and power distribution.
- Integrated power within console and storage pieces further enable the usage of technology.

CONSTRUCTION

The construction of Clubhouse meets or exceeds industry standards for performance.

- Aluminum vertical uprights and horizontal extrusions are robust yet maintain a stream-line design.
- Back and side screens are made from durable polyester yarns. Screens are securely fastened across the top and a magnetic connection across the bottom allows the screen not to be damaged if impacted.
- Seating and console units are constructed of fabric covered foam with a plywood core.

ELECTRICAL

Electrical is to be separately specified and can be integrated within media walls, consoles and storage components. Standard, Chicago and New York electrical-coded models are available for specification throughout each of the previously indicated items.

When a media wall electrical assembly is specified, table top power integration is automatically included.

Console and storage power integration is only available on a single side of a Clubhouse configuration and is to be called out during the specification process.

Please refer to page 322 for additional information on electrical and power for Clubhouse.

NOTE: Clubhouse Typicals can be found at <https://www.allsteeloffice.com/design-resources/idea-starters>

Clubhouse with Table and Media Wall, power ready.

NOTE: Refer to individual product pages for upcharges.

FSC Certified Wood at Allsteel
See page 431 for more information.

The best work happens when the right people come together in the right space. A space that facilitates uninterrupted thought and sets team members up for everyday office victories.

Meet Clubhouse, the newest addition to Allsteel's Social Collaborative collection of furniture.

It's where seating, surface and seclusion come together. Clubhouse is easy to set up in any space and fits however your team works. Its framed design serves a dual purpose: promoting collaboration while reducing outside distractions by communicating to others that work is happening inside.

Great things happen in your go-to place. That's the beauty of Clubhouse – the get-together getaway space.

AVAILABLE CONFIGURATIONS

Clubhouse is available in fourteen unique configurations that span between two different heights. Optional console and storage components provide ancillary worksurface support, media wall applications support technology and a wide array of fabrics and finishes allow for creative expression.

APPLICATION

Like its sister products, Clubhouse addresses the modern workplace's need for flexibility in an open office design. By forming — not filling — a room, Clubhouse creates a secluded space within any place:

- The brainstorm retreat.
- A private area for the job interview.
- The temporary office for writing that memo to the boss.

KEY FEATURES

Spatial Delineation

- Microarchitectural-like frame forms a 3D boundary and creates a space within a space.
- Semi-translucent back and side screening elements visually establish privacy and communicate unavailability

Extended Use Comfort

- Soft seating provides long-term comfort for small to mid-sized groups.
- Optional console and storage components provide ancillary work surface support.

Support for Technology

- Optional media wall and table support digital content sharing and power distribution.
- Integrated power within console and storage pieces further enable the usage of technology.

CONSTRUCTION

The construction of Clubhouse meets or exceeds industry standards for performance.

- Aluminum vertical uprights and horizontal extrusions are robust yet maintain a stream-line design.
- Back and side screens are made from durable polyester yarns. Screens are securely fastened across the top and a magnetic connection across the bottom allows the screen not to be damaged if impacted.
- Seating and console units are constructed of fabric covered foam with a plywood core.

ELECTRICAL

Electrical is to be separately specified and can be integrated within media walls, consoles and storage components. Standard, Chicago and New York electrical-coded models are available for specification throughout each of the previously indicated items.

When a media wall electrical assembly is specified, table top power integration is automatically included.

Console and storage power integration is only available on a single side of a Clubhouse configuration and is to be called out during the specification process.

Please refer to page 322 for additional information on electrical and power for Clubhouse.

NOTE: Clubhouse Typicals can be found at <https://www.allsteeloffice.com/design-resources/idea-starters>

Clubhouse with Table and Media Wall, power ready.
