1 FAST ATTACK VEST

Versatile Tactical Platform

A game-changer for high-risk tactical operations, the versatile Fast Attack Vest offers operators multiple wear options. Choose from three load-bearing platforms - FirstSpear® 6/12™, Advanced Webless System, or Traditional Modular Webbing systems and three distinct closure systems including FirstSpear Tubes™ technology, VELCRO® Brand hook and loop closures or the Single-Point Quick Release system.

2 LIBERATOR® IV

Multi-Mode Single Comms System Headset

The first of its kind, the Liberator IV is a multi-mode single comms system headset that allows you to choose from one of three profiles—active noise reduction, active noise cancellation, or dual ANC/ANR—to achieve optimal communication for the specific environment you're in. State-of-the-art Digital Threat Compression technology minimizes high-decibel, dangerous impulse and background noise to safe levels.

PATENT PENDING

(See Liberator V Dual Comms Headset on pg. 26)

3 MODEL 6354RDS

ALS® Tactical Holster

Designed for use with red dot optic-equipped weapons, the 6354RDS holster features the ALS® retention system which secures the weapon upon holstering, and allows a fast, straight-up draw once the release is deactivated. A standard Double Strap Leg Shroud includes mounting holes for optional accessories.

PATENTED

1 SHIFT 360™

Advanced Webless Plate Rack System

Wear the sleek SHIFT 360 plate rack system in its most basic form, or scale up the level of protection based on mission requirements, by adding optional accessories to transform the armor system into a fully loaded tactical carrier. The Advanced Webless System load-bearing material weighs approximately 30% less compared to traditional modular webbing, while increasing material strength and durability.

2 DELTA™ 5 PROTECH®

Ballistic Helmet

Get the best of both worlds in a tactical helmet that is approximately 30% lighter than traditional ACH-style helmets, and delivers exceptional ballistic performance. NIJ 0106.01 compliant, the Delta 5 helmet is modified to defeat Type IIIA rounds and velocities of 9mm, 124 gr FMJ and .44-Magnum, 240 gr. SJHP. Operators have the option of two adjustable retention systems: PROTECH® R2S™ Ratchet and Team Wendy® CAM Fit™.

3 MODEL 7354-SP10

7TS™ ALS® Tactical Holster

Our Safariland® 7TS™ ALS® Tactical Holster Series has set new standards in retention and durability with extremely high tolerances to heat and cold, making them impervious to the weather. The SafariSeven® construction is a proprietary DuPont blend, non-abrasive to a weapon's finish, and boasts an interior design that reduces dirt and moisture contact with gun.

PATROL

+

365 DAYS A YEAR, SERVING TO PROTECT.

VISIT safariiland.com/LAW-ENFORCEMENT FOR MORE INFO ON PATROL GEAR

1 P1

Covert Carrier

Every detail is specifically defined to provide a testament to design and performance excellence. Ergonomic and ultra lightweight, this is a carrier that doesn't feel like a carrier. Four-way stretch ripstop shell fabric provides a durable, flexible base for field-tested and attributed features such as removable contoured stretch straps and strategically located VELCRO® Brand hook and loop channels for adjustability and easy fastening; front and back plate pockets and cooling space mesh liner to reduce temperatures by 3-4 degrees for ideal comfort and performance in extreme conditions and heated situations.

2 MODEL 6360RDS

ALS®/SLS Level III Retention™ Duty Holster

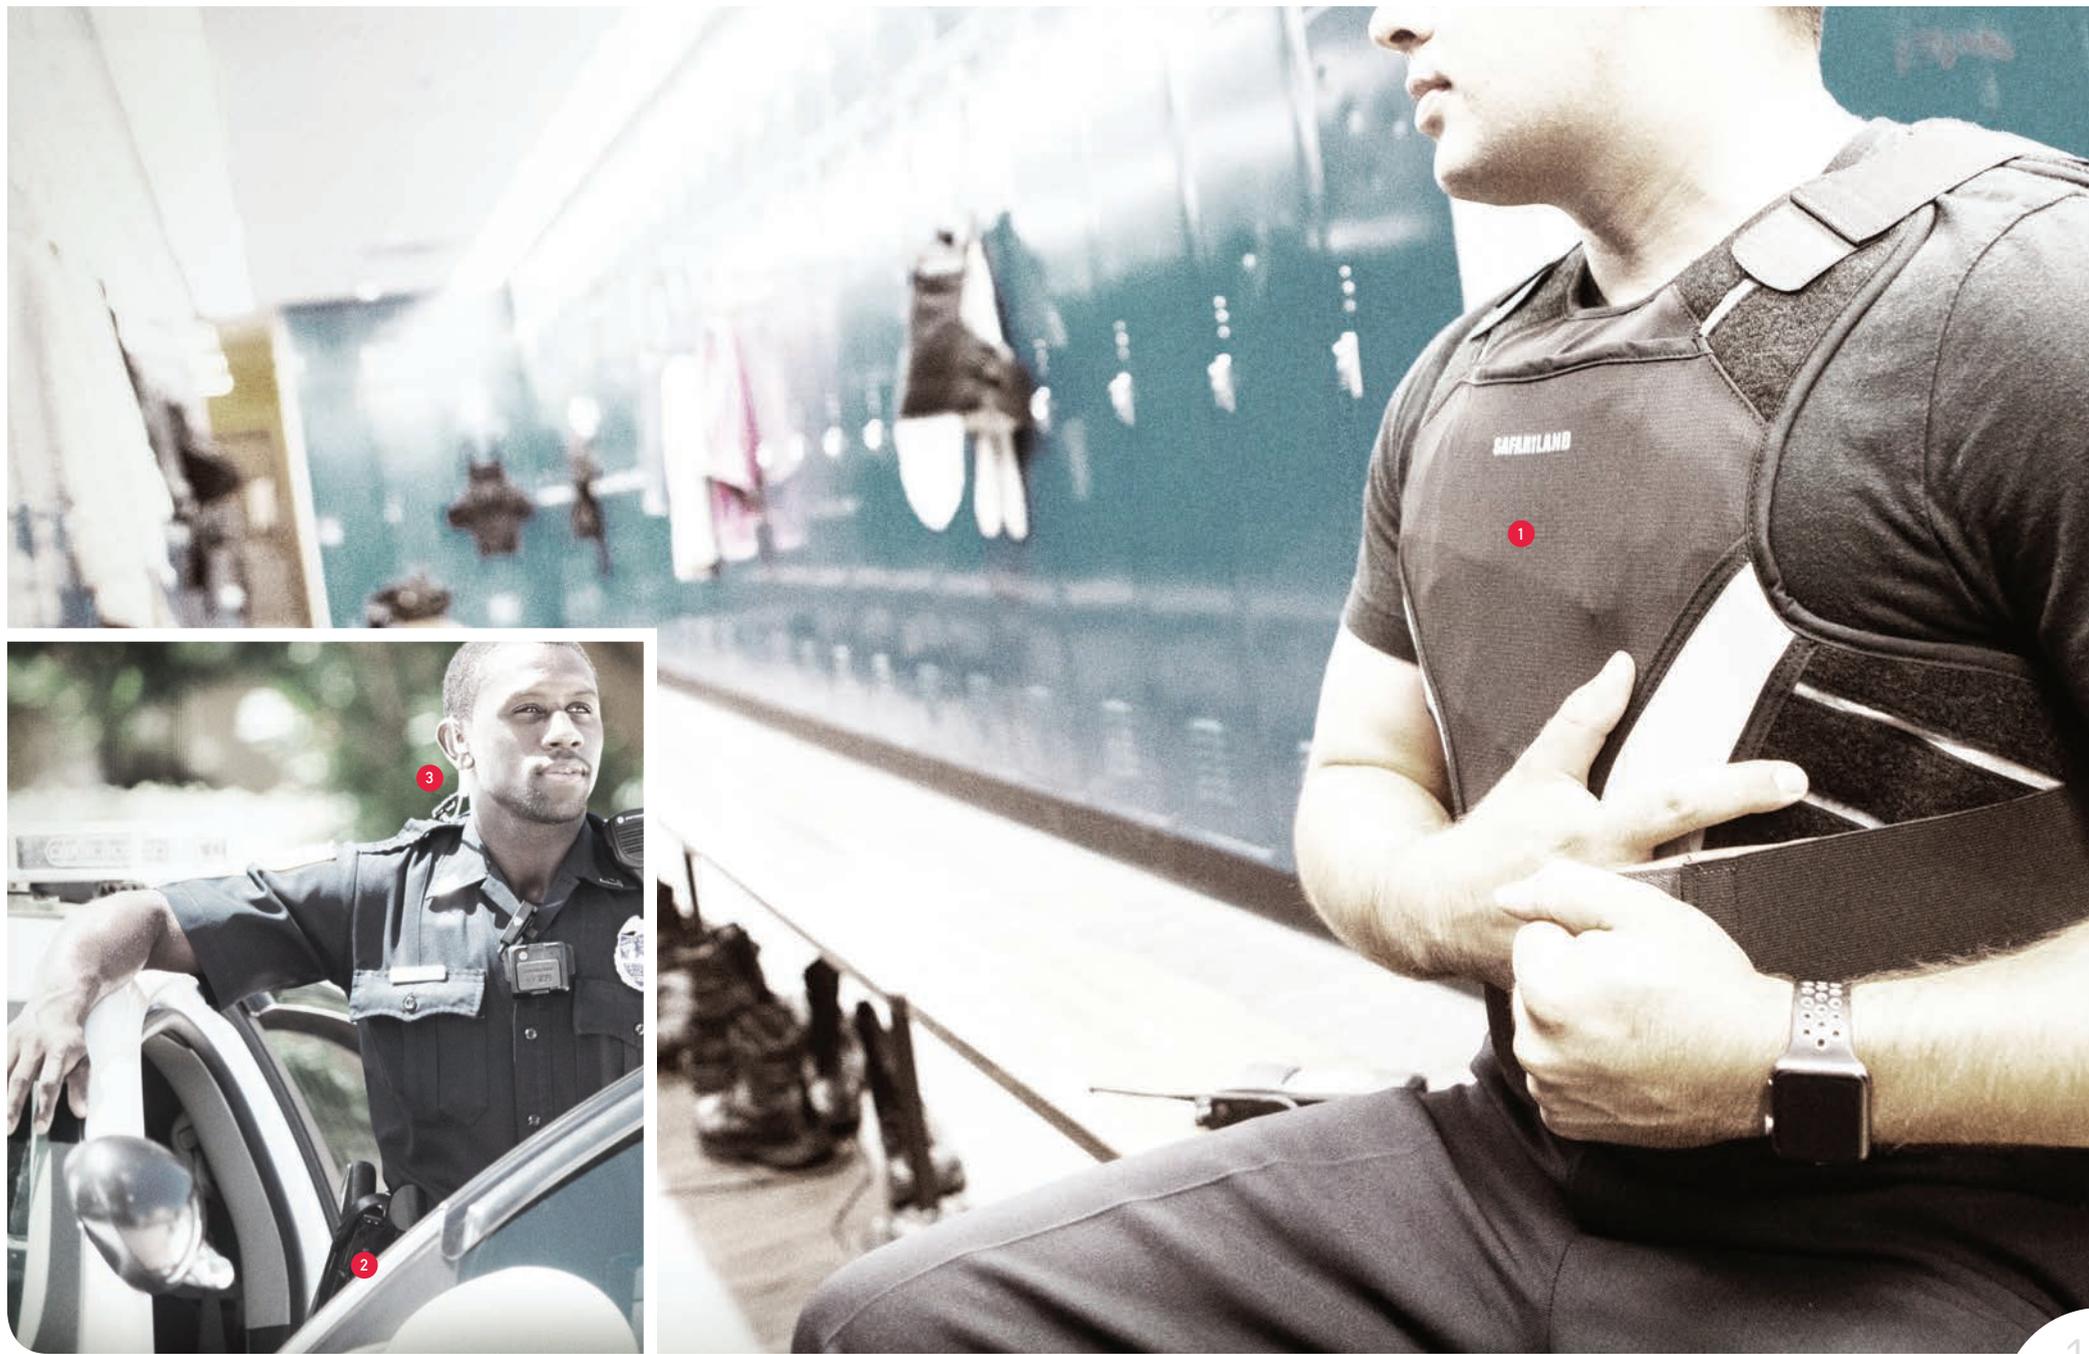

For users who want secure retention and need to protect their weapon's red dot optics, we've engineered the perfect line of holsters. Built on the foundation of our 6360 holster, our 6360RDS specifically fits weapons mounted with red dot sights. The holster not only protects the RDS housing from breakage, it helps to stop debris and water from accessing the red dot cavity and keeps the RDS glass clean.

PATENTED

3 TWO-WIRE PATROL KIT

Communications System

The Two-Wire Patrol Kit is perfect for patrol, security, communications and surveillance, offering the high quality of a military-grade headset in a lighter and more affordable unit. The Two-Wire Patrol Kit includes coiled acoustic tubing which is moisture-inhibiting and can be used as a lightweight replacement for the bulky shoulder-worn speaker microphone handset.

1 MODEL 7900

Handcuff Case

Designed to fit either standard chain or hinged cuffs, Bianchi's AccuMold® Elite™ handcuff case can withstand the rigors of everyday policing. This molded pouch looks like leather, yet is half the weight; it fits both 2 and 2.25 in. duty belts, and is available with chrome, brass or a hidden snap.

2 MODEL 7360

**7TS™ ALS®/SLS Mid-Ride, Level III Retention™
Duty Holster**

Defeat the elements with the incredibly durable and lightweight Model 7360 7TS holster. Crafted from SafariSeven®, a durable and proprietary nylon blend, it's built to withstand extremes of heat and cold, and retains its structural integrity—even when submersed indefinitely. This model uses the ALS® (Automatic Locking System) and the SLS (Self Locking System) with rotating hood closure to achieve Level III Retention.

PATENTED

3 MODEL 7950

Duty Belt

Constructed of a four-part laminate construction for long-lasting shape and exceptional durability, Bianchi's 7950 Duty Belt features a firm polyethylene center strip sandwiched between a high-density, closed-cell foam with a durable nylon lining and leather look Duraskin™ exterior. It looks like leather but weighs up to 50% less.

CONCEALMENT

+ ALWAYS PREPARED.

ALWAYS ON **GUARD.**

1 MODEL 578

GLS™ Pro-Fit™ Holster

The Safariland® GLS™ Pro-Fit™ holster features the unique Grip Locking System retention, which automatically secures your firearm when holstered, and provides an instinctive release via the middle finger with a proper shooting grip. Pro-Fit series holsters are customizable and adjust to fit over 225 firearms.

PATENTED

2 MODEL 71

Magazine Pouch

Extremely universal, the Safariland 71 Magazine Pouch fits most 9mm, .40 caliber, single stack and double stack .45 ACP mags, flashlights, knives and multi-tools. Made of a premium polymer material, its flexible "accordion" design allows for multiple fits with minimal size on the belt. Offered in five different carry styles from belt loop and IWB, to attachment with the Safariland ELS Locking Fork, all with a low-profile, high-speed look.

3 MODEL L830

Plainclothes Leather Dress Belt

The L830 is perfect for everyday wear with slacks, and equally ideal for use on the range carrying your favorite concealment holster. The belt is made of an easy to care for leather-look outer material and a sturdy vegetable-tanned cowhide interior, which adds stability for carrying handguns.

1 LIBERATOR® HP

Advanced Hearing Protection

This first-of-its-kind multi-mode headset offers both Electronic Noise Compression and Active Noise Cancellation. It provides enhanced hearing protection in all environments, such as impulse/gunfire noise and high decibel constant background audio, while its advanced sound localization provides maximum situational awareness and sound detection. The proprietary Earcup design layered with sound barrier technology is very comfortable to wear. And its unique dual-fuel design allows it to run with either two AAA or one CR123 battery.

2 MODEL 557

Open Top Belt Slide Concealment Holster

For those that frequently carry light-bearing handguns, the 557 has a two-in-one design to securely fit firearms with or without a light attached. The holster's low-profile, wide design makes it highly concealable, and comfortable since the shape allows for even weight distribution.

3 MODEL 7378

7TS™ ALS® Paddle & Belt Loop Combo Concealment Holster

When you wear a holster all day, comfort is key. The Safariland® 7378 7TS™ concealment holster is there by your side, concealed and comfortable. This paddle and belt loop combo has a lightweight design, so it won't drag on your belt. The 7378 is also extremely durable, since it's crafted from weather- and temperature-resistant SafariSeven® nylon blend material.

PATENTED

MILITARY

+ IT'S MORE THAN A JOB.

IT'S A **PASSION.**

VISIT safariland.com/MILITARY FOR MORE INFO ON MILITARY GEAR +

PROTECH® **1 DELTA™ X**
Tactical Helmet

The PROTECH® Delta line of tactical helmets is synonymous with ergonomic comfort, superb ballistic performance and field-tested results. With the addition of the Delta™ X helmet, Safariland® expands its product offering, all with the end-user in mind. Tested under NIJ 0106.01 protocol and modified to address the Type IIIA 9mm round and velocity, the Delta X model is not only the lightest helmet on the market, but also exhibits the highest fragmentation standard.

2 LIBERATOR® V
Dual Communications Headset with R.A.C.E.

Intuitive design and easy operation make the Liberator® V headset the natural choice for operations requiring dual comms. A single headset down lead attaches to your Push-to-Talk (PTT), which connects to two devices. Plug in to your vehicle ICS, a radio, cell phone, or wireless device. Single-device traffic comes in stereo for maximum clarity, while dual-device comms are directed to the left or right Earcup with no bleed-over.

PATENT PENDING

3 MODEL 7384
ALS® OMV Tactical Holster

Constructed of innovative SafariSeven® material, the unique DuPont™ nylon blend is highly durable and practically impervious to the elements. This rig features the ALS® (Automatic Locking System) design for secure weapon retention. The Single Strap Leg Shroud allows the holster to be worn higher on the thigh than standard designs.

PATENTED

4 FIELD PACK KIT
Compact Cleaning Kit with CLP®

A favorite with military, law enforcement and hunters, these easy to carry KleenBore® field kits go where you go. Everything needed for a complete cleaning is included in the rugged nylon pouch with belt keeper or MOLLE loop attachment. These kits are compact enough to carry in the field for fast and easy removal of mud, snow or a squib load. Includes mil-spec Break Free® CLP solution.

1 MODEL 6390RDS
ALS® Mid-Ride, Level I Retention™
Red Dot Sight Holster

The 6390RDS holster is specifically designed for firearms with red dot sights mounted to them. This open-top holster features the ALS® (Automatic Locking System). Once the weapon is holstered, it locks into place. The holster is completely operable with the thumb and once the ALS® device is deactivated a simple straight up draw is used. Features a low-ride belt loop that is 1.5" lower than standard, rides close to the body, and has a suede lining to protect the gun's sights and finish.

PATENTED

2 MODEL 4333
Low Profile Battle Belt

Sturdy yet slim, the 4333 Low Profile Battle Belt has a non-slip, reinforced lining to securely hold a weapon and accessories. Two rows of MOLLE webbing make it easy to customize and add multiple attachments. The AustriAlpin Cobra® Quick Release Buckle is load-rated for forces up to 9kN (straight), or 18kN (looped), and will not release when under load.

3 MHC KIT
Modular Handgun Holster Kit

Safariland's 7TS™ ALS® 7360 duty holster was officially chosen by the U.S. Army to outfit their new SIG SAUER sidearm. Provided as a Modular Handgun Holster Kit, the system includes a Safariland® 7360 holster, Single Strap Leg Shroud, the Universal Flex Adapter and Safariland's QLS Quick Attachment System with multiple mounting options. We are pleased to offer the Model MHC-Kit1 for our customers. Rugged SafariSeven™ construction and materials, ALS locking retention and a variety of attachment options to meet the demands of any mission.

PATENTED

COMPETITION

RELENTLESS PURSUIT OF PERFECTION.

VISIT safariland.com/COMPETITION FOR MORE INFO ON COMPETITION GEAR

1 MODEL 014**Open Class Competition Holster**

The body of the 014 Open Class Competition holster is constructed from aluminum, which both secures and stabilizes the handgun, and provides little resistance for an efficient release. The design also incorporates a lock, and with a simple push to the front, the handgun is secured. With a slide to the rear the trigger block is unlocked, allowing for a fast and smooth draw.

2 MODEL 032**ELS Competition Belt**

Both sturdy and durable, the 032 ELS belt is designed for use with the Safariland® Equipment Locking System (ELS) of forks and plates, which allow quick changes of gear in competition. Featuring two rows of pre-cut holes running the full length of the belt, competitors can attach and detach pouches with the ELS 34 fork affixed, for easy and swift customization of the rig.

3 MODEL 030**Competition Underbelt**

The 030 is a Cordura® nylon underbelt for the 032 ELS belt. This belt is worn in regular pant belt loops with the hook and loop exposed. Attach either of the outer belts for competition use.

4 MODEL 086**Shotgun Shell Holder**

For secure retention in 3-gun competition, the Safariland® 086 Shotgun Shell Holder has unique retaining plates that let you sprint and stop without dislodging a single shell. Several sizes to hold 2, 4, 6 or 8, 12-gauge shotgun shells, the carrier system's retaining plates hold the shells securely, yet allow for quick and easy removal to make reloading as fast as possible.

FOREVER BANDED TOGETHER.
