University of Mississippi Medical Center, UME (UMMC)
2500 N State St
Jackson, MS 39216

RE: MedHub Sole Source Justification for UMMC

MedHub is a proprietary solution only available directly from MedHub, LLC. No other organization, individual or reseller has the right to sell, license, modify, support or implement MedHub.

The MedHub solution is an enterprise-level, workflow based system that pulls together tasks and information from the many stakeholders involved in medical education to simplify administrative efforts, ensure institutional oversight and improve outcomes. This unique system enables communication and task completion from learners to leadership and delivers mission-critical outcomes to meet the specific requirements of medical education and residency management as follows:

- MedHub focuses on 3 main core competencies, Integrated Processes, Intelligent Workflow and Intuitive Design
- Unique to MedHub is the ability for different user levels to partake and drive many processes that maximize Medicare Reimbursement and improve overall management of risk
- User interactions with Medhub uniquely trigger workflows that require approval and/or oversight
- A truly unique and intuitive user experience ensures that complicated tasks are completed with ease in both a desktop and mobile environment

UMMC will specifically benefit from the unique MedHub workflows around data completion and accuracy needed for Medicare Reimbursement. Workflow and oversight functionality unifies multiple sources of data around trainee management, license monitoring, schedule accuracy and institutional accreditation. Institutional and program oversight functionality ensures stakeholders have a common understanding of challenges and overall status. MedHub's unique functionality unifies concurrent processes into a single workflow system to efficiently inform stakeholders and provide tools for them to complete their unique task items.

Please do not hesitate contacting us if you require further information or clarification.

Best Regards,

David Gagne
EVP/GM
MedHub, LLC
