Specification Guide

Availability

Electronic price list updated with release 200.G (U.S.) and 156.G (Canada), dated June 19, 2023.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <https://finishlibrary.steelcase.com/>.

Specifying Tips

General Tips

Standard Includes

- Worksurface/frame
- End panels, back panel, and pedestal
- Drawer pull: palm
- Center drawer: 1 selected palm
- Lock: 1 selected, keyed randomly: 2001 Polished Chrome
- One connector tray in desk with drawer: 0000 Black plastic only
- One silence shield per desk: 0000
- One partition per drawer: 1000 palm
- One compressor per 116 drawer: 0000

Review the features that are standard for each product before you begin to specify. You only need to include specifications for options, surface materials, and colors when you want a substitute for the standard.

To ensure that you do not overlook anything, approach the specifying process in a consistent order every time. Here are three common methods:

Specify products according to their order on the specifying pages.

Specify all workstations using a formula pattern, such as starting at the entrance to a workstation and moving clockwise.

Specify each type of workstation in your installation and then determine how many of each type are needed.

Panels

Specify style numbers and surface materials for all panels.

Tip: For most fabrics, fabric application is standard in the warp horizontal direction.

► See *Specification Guidelines for Vertical Fabric Applications*, page 330, for details on these exceptions. Warp vertical is available as an option.

Keep track of panels that require power and list panels with power separately because they'll have a different style number.

Specify panel connector packages, fillers, and change-of-height panel connectors when an application requires them.

Worksurfaces

Specify style numbers and surface materials for all worksurface packages. Some supports can be ordered by changing the worksurface style number suffix. Other supports must be ordered separately with their own style number. Also specify options such as grommets, worksurface wiring and cabling accessories, and any specific keying information.

Storage

Specify storage component style numbers, surface materials, and any specific keying information.

Lighting

Specify style numbers of lights.

Wiring & Cabling

If you specified with power as you ordered your panels, the only things left to specify are power-ins, power and cable poles (if desired), and receptacles.

Example of Order

Here's what the specification would be like for the installation shown at the left.

Qty.	Style No.	Description
Panels		
2	MPTAM6530	64 $\frac{11}{16}$ "H x 30 $\frac{5}{16}$ "W tackable panels sides 1 & 2: fabric frame: paint
2	MPTAM5330	52 $\frac{3}{8}$ "H X 30 $\frac{5}{16}$ "W tackable panels sides 1 & 2: fabric frame: paint
4	MPTAM6530P4	64 $\frac{11}{16}$ "H X 30 $\frac{5}{16}$ "W tackable acoustical panel with factory-installed powerways side 1: fabric side 2: fabric frame: paint
2	PC6553	Change-of-height panel connector trim: paint
Worksurfaces		
8	PWRC3024	30"W x 24"D straight worksurfaces: laminate
4	PCWRC3624	36"W x 24"D corner curvilinear worksurfaces: laminate
8	PCSB18S	shared cantilevers: paint
Storage		
4	MU2824FFL	file/file pedestals: paint
4	MU2824BBFL	box/box/file pedestals: paint
8	RBB30AVR	overhead storage bins: paint
Lighting		
8	LSM24KD	25"W standard shelf lights with daisy chain cords, black
4	LS1FSC	daisy chain starter cords
Wiring and Cabling		
1 ctn	986831DA15SB	line 1 duplex receptacles
1 ctn	986832DA15SB	line 2 duplex receptacles
1 ctn	986833DA15SB	line 3 duplex receptacles
1	98669B	base power-in
4	VWM18	vertical wire managers: plastic
1 ctn	98767	cord reels

Cable-Management Panel Options for Tackable Acoustical Panels

With Powerway in Base

Cable-Management Panel Option Choices

Vertical cable routing only

Product Details

Use

- Use this choice in applications where you want to route cables vertically inside the panel and where you want to extend a power distribution network through a run of panels.

How to Specify

- 1 Specify a tackable acoustical panel *with* factory-installed powerway (suffix P3 or P4).
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.

- 4 Next, select **plain cable-management surfaces**.

Tip: Plain surfaces on cable-management panels have no receptacle openings, but the surface is notched at the bottom to avoid blocking the cable routing channels.

Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.

Not for use in NYC
▶ See page 178

Without Powerway in Base

Cable-Management Panel Option Choices

Vertical cable routing only

Product Details

Use

- Use this choice in applications where you need to route cables vertically inside a panel, but power distribution and receptacles are not needed.

How to Specify

- 1 Specify a tackable acoustical panel *without* factory-installed powerway.
- 2 Next, select **options** and then choose **surface options**.
- 3 Next, select **cable-management surfaces**.
- 4 Next, select **plain cable-management surfaces** on *both* sides of the panel.

Tip: Plain surfaces on cable-management panels have no receptacle openings, but the surface is notched at the bottom to avoid blocking the cable routing channels.

Tip: Remember to order cable knockouts for medium top caps to accommodate cable routing.

Tackable Acoustical Panels

Tip: To price a panel with two surface materials in different price groups, add the two fabric price group option prices together and divide by 2; then add the result to the panel base price.

Tip: If you want the panel fabric to match the fabric on panel end trim, change-of-height panel connectors, power poles, cable poles, or fillers, check to see that the fabric you want is available on that product before you specify the panel fabric. Some fabrics are not available because they are not suitable for wrapping thin pieces.

**Tip: For most fabrics, fabric application is standard in the warp horizontal direction.*

► See Specification Guidelines for Vertical Fabric Applications, page 330, for details on these exceptions. Warp vertical is available as an option.

Tip: Replacement panel surfaces are available as standard product. The top cap, end trim, and base cover can remain in place during the replacement process. Special tools are not required. Adjacent panels are not disrupted.

Tip: 80½"H fabric-covered end trims are available in the warp vertical application only.

Tip: Factory-installed wire separator is only an option on panels without power. A wire separator is included with the powerway in panels specified with power.

Standard Includes	Required to Specify

------------------------	-----

Standard Shelf Lights

Tip: Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.
 ▶ See page 154 for more information.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Tip: When ordering with standard power cord or Chicago cord, daisy chaining is not possible.

Tip: Remember to order a daisy chain starter cord separately.
 ▶ See page 159.

	Standard Includes	Required to Specify

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/ EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see steelcase.com/surface-materials.

Surface Materials

Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Paint

Not every paint color is available on every painted component.

► Refer to the *Paint, Textured Paint, and Coating Color Availability Matrix* on page 316 before specifying.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$102 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Edge color for custom laminate orders must be determined by the dealer and customer before orders can be entered. There are no additional charges beyond the initial \$102 U.S. list to obtain different edge colors with Steelcase standard laminates.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Ⓔ = Established

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Veneer

Wood Group 1

Flat-Cut Open-Pore

- 3062 FC/OP Graphite Walnut
- 3402 FC/OP Clear Cherry (Aged)
- 3412 FC/OP Natural Cherry Ⓔ
- 3422 FC/OP Medium Cherry
- 3522 FC/OP Clear Maple
- 3592 FC/OP Blonde on Maple Ⓔ
- 3702 FC/OP Clear Walnut
- 3712 FC/OP Natural Walnut
- 3752 FC/OP Medium Walnut Ⓔ
- 3762 FC/OP Dark Walnut
- 3772 FC/OP Medium Mahogany on Walnut

Flat-Cut Open-Pore, Natural Veneer

- 3342 FC/OP Black Walnut
- 35A2 FC/OP Blanch Maple
- 37A2 FC/OP Thunder Walnut

Quarter-Cut Open-Pore

- 3042 QC/OP Ash Ⓔ
- 3222 QC/OP Clear Maple
- 3292 QC/OP Blonde on Maple Ⓔ
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut

- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Quarter-Cut Open-Pore, Natural Veneer

- 32A2 QC/OP Blanch Maple
- 33A2 QC/OP Thunder Walnut
- 3392 QC/OP Black Walnut

Rift-Cut Open-Pore

- 3602 RC/OP Desert Oak

Rift-Cut Full-Fill, Natural Veneer

- 36A2 RC/OP Volcanic Oak

Wood Group 3

Flat-Cut Open-Pore, Natural Veneer

- 3082 FC/OP Washed Walnut

Wood Group 1

Open-Pore Planked Veneer

- 3P41 OP Planked Cherry
- 3P51 OP Planked Maple
- 3P61 OP Planked Oak
- 3P71 OP Planked Walnut
- 3VFX OP Unmarked Oak

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Flat-Cut Full-Fill, Natural Veneer

- 3084 FC/FF Washed Walnut

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as part of our Select Surfaces program, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Wood Group 3

Quarter-Cut Open-Pore

- 3832 QC/OP Figured Anegre

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the Surface Materials Reference Manual or visit steelcase.com/surface-materials under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are available with Wood Group 1 pricing as part of our Select Surfaces program.

Wood Group 1

Flat-Cut Open-Pore

3JDX FC/OP Oak Composite
3JJX FC/OP Walnut Composite

Quarter-Cut Open-Pore

3F8X QC/OP European Walnut Composite
3GGX QC/OP Zebrano Composite
3HGX QC/OP Oak Composite
3HVX QC/OP Walnut Composite
3ZNX QC/OP Night Cerused Oak Composite

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Plastic

Steelcase Surfaces

Plastic products may not be available in all colors listed below.

► Refer to page 320 for an overview of the plastic colors that are available for each component.

6000 Black	6635 Dawn E
6009 Arctic White	6636 Mist
6052 Milk	6654 Sand
6053 Seagull	6655 Warm White
6249 Platinum Solid	6681 Grotto E
6612 Grey V2 E	6695 Midnight
6631 Cream E	6697 Fog

Tip: Light color plastic edges are susceptible to degradation due to normal wear and tear. Staining (e.g., ball point pen or clothing dyes such as blue jeans) and dirt effects are more pronounced in light colors and are not considered defects.

Applies to:

- 3 mm and 1 mm edge profile on Avenir Universal Systems Worksurfaces

Color Coordination Matrices

Avenir Worksurfaces (Excluding Curvilinear and Universal)

Plastic edge trim color for all Avenir worksurfaces is determined by the work-surface color you select. The edge color is a default and cannot be specified.

All laminates, except woodgrain laminates, will have solid color plastic edging.

Woodgrain laminates will have woodgrain plastic edges and the grain of the edges will be horizontal. The woodgrain edge color will match the laminate color.

► For information regarding location of plastic edge on applicable Avenir worksur-faces, see "Standard Includes" information.

Laminate Color	Default Plastic Edge Color
Fiber	
2850 Vanadium Fiber	6654 Sand

Avenir Curvilinear Worksurfaces

Plastic square edge trim color for all Avenir worksurfaces is determined by the worksurface color you select. The square edge color is a default and cannot be specified. Some worksurfaces have plastic T-mold edges that you can specify to coordinate or contrast with the laminate color that you select for the worksurface. The column at the far right lists recommended colors for use with each laminate color.

All laminates, except woodgrain laminates, will have solid color plastic edging.

Woodgrain laminates will have woodgrain plastic edges and the grain of the edges will be horizontal. The woodgrain edge color will match the laminate color.

Directional Laminate Grain Directions

Directional laminates are standard with the grain directions shown.

Avenir Universal Systems Worksurfaces—High-Pressure Laminate

Specification Guidelines for Vertical Fabric Applications

What is the issue?

Some textiles are simple and look the same regardless of how you apply them to a product. Many other fabrics are patterned, textured, or have luster that will have a distinctly different appearance if applied in different directions on chairs or panels. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase products, it is important to understand fabric application direction standards at Steelcase in order to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the "warp" yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a panel or chair. Fabric directionality is determined by how the fabric comes off the roll. It is NOT determined by the way the pattern looks on the product (i.e., horizontal stripes do not mean the fabric was applied warp horizontal—it could have been applied warp vertical).

Warp Horizontal

Warp horizontal

application is the standard application direction for most Steelcase fabrics on Steelcase panel and seating products.

► See page 331 for details on these exceptions.

Horizontal application

means that as you view the panel or chair in its upright position, the warp yarns of the fabric are running in the horizontal direction.

Warp Vertical

Warp vertical application is the standard application direction for any panels taller than 68"H and a few other exceptions. Vertical application means that as you view the panel or chair in its upright position, the warp yarns are running in the vertical direction.

► See page 331 for details on these exceptions.

Warp Horizontal

Fabric on panels taller than 68"H cannot be applied warp horizontal because the height of the product is greater than the width of the fabric.

Steelcase is not responsible for charges associated with replacement or re-upholstery of products due to incorrect specifications.

The combination of tall panels (75"H with warp vertical) with short panels (65"H or less with warp horizontal) will result in the fabric patterns running in opposite directions.

To remedy this situation, the following options are available:

- Use non-directional fabric. Only a small selection of fabrics are non-directional.
- Use fabrics that have standard warp vertical application direction.
- Specify warp vertical application on fabrics that are standard warp horizontal.

Tip: If you require warp vertical and it is not the standard, you must specify the warp vertical option on every line in the order.

Application Topics

Surface Materials

Representatives are available to answer your questions and to provide clarification. They can also help with situations where you are using fabrics under 66"W. Call 616.246.9822 or fax 616.698.4700.

Price

No additional cost to specify warp direction.

How to Specify

You must specify warp direction when you need to depart from the standard. Avenir panels allow this option to be selected electronically. On non-electronic orders, add a written specification to each panel to indicate non-standard warp directions.

For example:
MPTAM5348
52³/₈"H x 48⁵/₁₆"W tackable acoustical panels
side 1: fabric 5F07 (Buzz2 Blue) with vertical application.
side 2: fabric 5F08 (Buzz2 Navy) with vertical application.

Standard Warp Directions for Avenir

Fabric	Fabric Direction	Panel Stacker	Panel Height				Tackboards
			41"H	53"H	65"H	80"H	
Abacus [Ⓔ]	D	H	H	H	H	V	H
Alloy	D	H	H	H	H	V	H
Bariolage	D	H	H	H	H	V	H
Billiard Multi-Use by Designtex	D	H	H	H	V	V	H
Boccie	D	H	H	H	H	V	H
Buzz2	D	H	H	H	V	V	H
Charm	D	H	H	H	H	V	H
Code	D	H	H	H	H	V	H
Flip: Orbit	D	HO	HO	HO	HO	•	HO
Flip: TexHex	D	HO	HO	HO	HO	•	HO
Fresco	D	H	H	H	H	V	H
Lapel	D	H	H	H	H	V	H
Latch	D	H	H	H	H	V	H
Optic	D	H	H	H	H	V	H
Pianista	D	HO	HO	HO	HO	•	HO
Rhythm	D	H	H	H	H	V	H
Tinsel	D	H	H	H	H	V	H

Customer's Own Material Yardage Requirements

Pre-approved fabrics are available. To determine if the fabric you want is on the pre-approved list, call a COM Consultant at 616.246.9822.

For information regarding COM fabrics, refer to the *Steelcase Surface Materials Reference Manual*.

Additional fabric is required to accommodate flaws, wrinkles, and other imperfections.

Legend

D = Directional
ND = Non-directional
H = Warp horizontal
HO = Horizontal only
V = Warp vertical

Resources

Lock and Keying

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.
Exceptions: Individual locking drawers are available only with field-installed locks.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.
 ▶ See below.

Required to Specify

Master key random	+\$36	Specify with master key random.
--------------------------	-------	---------------------------------

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify “plug” when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.
Tip: For products with optional lock colors, make sure to specify the color for both the lock and lock face ring.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.
Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).
Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.
Tip: Designate the quantity per key number in your specification.
 ▶ See example at right.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR	FR320
5	LOCK9201FR	FR350
15	LOCK9201XF	XF1100
30	Total	
1	877102003SR	standard lock tool
1	877102002SR	master lock tool

Field-Installed Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Standard Includes		Required to Specify
- Lock cylinder, keyed random: 9201 Polished Chrome or 9250 Ember Chrome - Two keys		1 Style number 2 Options, if selected (see below)

Options	U.S. Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR454.
Key consecutive	No cost	Specify <i>key consecutive</i> and select beginning key number from FR305–FR454.
Master key random	+\$36 each	Specify <i>master key random</i> .
Master key specific	+\$36 each	Specify key number from XF1001–XF1150.
Master key consecutive	+\$36 each	Specify <i>master key consecutive</i> and select beginning key number from XF1001–XF1150.
