KEVIN STARK, BEST OF NEOCON SILVER, 2015

Named to honor a community near the Gunlocke factory, Avoca executive and guest seating combines sophisticated, subdued good looks with modern functionality. It's designed around how people really work, creating a chair that delivers true comfort and flexibility.

Designer Kevin Stark sought to create a chair that reflects timeless, classic design – Gunlocke's hallmark – while still feeling modern. Avoca delivers a contemporary aesthetic, yet remains elegantly restrained, as opposed to trendy "design du jour." These chairs aren't the centerpiece in the room; instead they blend with and complement the table, architecture and casegoods in any space.

This all-purpose swivel seating can go from formal and executive spaces to a more casual, touchdown setting, depending on upholstery and finishes specified. Designers and end users can personalize Avoca to suit their space, adding a custom look.

options

The chair features a mid or high back. It's available as a multipurpose chair with 4 star base and glides or an adjustable-height executive chair with 5 star base and casters. Avoca executive chairs with 5 star base feature a swivel or synchro tilt control. Both chairs come in armless or armed; and have 3 arm options: (1) urethane; (2) metal and (3) metal + urethane. Bases are available in either polished metal or black plastic.
