

The Classics Never Go Out of Style

series

series

Stability, durability, comfort and quality.

When you need a chair that gets down to business, look no further than the B-Series and D-Series Chairs. Constructed of solid oak or maple hardwoods and utilizing mortise and tenon joint attachments, these chairs set the standard for utilitarian excellence. Built to last, the B-Series and D-Series chairs have been in environments for decades and continue to provide an unbeatable value.

The B-Series chair features a straight back rail with either solid wood or upholstered back options. The D-Series chair features an angled back rail with arched backs that come with horizontal design routes or upholstery standard. Both series feature plywood, scooped solid wood, or upholstered seats.

series

Add an additional layer of comfort with an optional arm style available for the B-Series Chair.

series

D-Series:

- angled back rail
- arched backs
- horizontal design routes or upholstery standard
