

BALANCE[™] UHS Sealer / Finish

DESCRIPTION

Balance[™] UHS Sealer/Finish offers perfect symmetry of wet-look gloss, durability, soil resistance and superior response to UHS Burnishing. Formulated with exclusive HPS[™] Structure Technology, this high solids formula provides "best-in-class" performance with ultimate ease of application. Ideal for high traffic areas in schools, lobbies & supermarkets to maximize your facility's image.

PRODUCT FEATURES / BENEFITS

- Unmatched Wet-Look Gloss.
- Exceptional Durability
- Superior Soil Resistance

DIRECTIONS FOR USE

Floor Preparation: Strip old finish and wax using BARE BONES or ZOOOOM Stripper following label directions. For baseboards and corners, use PIZZAZZ Baseboard Stripper following label directions. If necessary, rinse thoroughly with clean water and allow to completely dry.

Application: Using a clean mop or applicator apply a thin uniform coats of BALANCE[™]. Allow to dry for a minimum of 30 minutes after each coat. Do not apply more than 4 coats in a 24 hour period. Floor should be thoroughly dry before traffic is allowed in area.

Buffing and Burnishing: BALANCE[™] is ideal for use in burnishing programs with equipment 1000 RPM or higher. Prior

SPECIFICATIONS

Туре	HPS™ Hybrid Polywax
pH	8.5 ± 0.5
Coverage (sq.ft./gal)	2,500
Drying Time (minutes)	30
Specific Gravity (g/cc)	1.03 ± 0.01

•	Extraordinary	response	to UHS	Burnishing
---	---------------	----------	--------	------------

Easy to Apply and Maintain

to burnishing, dust mop the floor surface using CONTROL Dust Mop Treatment. Burnish using an appropriate burnishing pad. For ultimate gloss restoration, use POP & SHINE Gloss Restorer. **Routine Maintenance:** Dust mop using mop treated with

CONTROL Dust Mop Treatment. Damp mop or clean with an automatic scrubber using ENHANCE or IMAGE Neutral Floor Cleaner following label directions.

Scrub and Recoat: When routine maintenance and buffing/ burnishing no longer responds as needed, scrub and recoat using QWIK-SCRUB Scrub and Recoat Cleaner following label directions.

Color Wh	iite, opaque liquid
Odor	Typical acrylic
Powdering	None
Flash Point	None
Slip Resistant	Yes
Shelf Life 2 years minimum in original un	opened container

SAFETY INFORMATION

KEEP OUT OF THE REACH OF CHILDREN. Precautionary statement

Prevention: Observe good industrial hygiene practices. **Response:** Wash thoroughly after handling.

Storage: Store away from incompatible materials.

Disposal: Dispose of contents/container in accordance with local/ regional/national/international regulations.

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Additional safety measures:

Read the entire label and SDS before using this product, and for additional first-aid measures. SDS for this product is available on the web at www.nclonline.com KEEP FROM FREEZING

For Commercial and Industrial Use Only

SAFETY DATA SHEET

Section 1 - Identification	on
----------------------------	----

Product Identifier	BALANCE UHS Sealer / Finish
Other means of identification	0573
Recommended use	Floor finish.
Recommended restrictions	For commercial and industrial use only.
Manufacturer / Importer / Supplie	r / Distributor Information
Company Name	National Chemical Laboratories of PA, Inc.
Address	401 N. 10th Street - Philadelphia, PA 19123
Telephone	1 (215) 922-1200
Supplier Email	info@nclonline.com
Contact	CHEM-TEL
Emergency Phone	1 (800) 255-3924

Section 2 - Hazard(s) Identification

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word		
Hazard Statement	Not available.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	Wash thoroughly after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of contents/container in accordance with	n local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.	
	Section 3 - Composition/Infe	ormation on ingradiants

Section 3 - Composition/Information on ingredients	;
--	---

Mixture				
Hazardous Components	Ingredient Name	CAS #	%	
	Diethylene Glycol Monoethyl Ether	111-90-0	1 - 5	
	Tris(2-Butoxyethyl) Phosphate	78-51-3	1 - 5	
Section 4 - First-aid Measures				
Inhalation	halation Move to fresh air. Get medical attention if irritation persists.			
Skin contact	Wash skin with soap and water. Get medical attention if irritation persists.			
Eye contact	Flush eyes thoroughly with water for at least 15 minutes. Get medical attention if irritation persists.			
Ingestion	Rinse mouth thoroughly with water. Seek medical advice.			
Most Important symptoms	Mild eye irritation.			
/effects, acute and delayed Indication of immediate medical attention and special treatment	Treat symptomatically.			
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.			
Section 5 - Fire-fighting measures				
Suitable extinguishing media	Suitable extinguishing media Carbon dioxide, alcohol-resistant foam, dry chemical, water spray, or water fog.			
Unsuitable extinguishing media				
Specific hazards arising from None known. :he chemical				

Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.		
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk. Use water spray to keep fire-exposed containers cool.		
General fire hazards	This product is not flammable or combustible.		
Section 6 - Accidental release measures			
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.		
Methods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.		
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.		
	Section 7 - Handling and storage		
Precautions for safe handling	Avoid contact with eyes, skin, and clothing. Avoid breathing mist or vapor. Do not taste or swallow. Use with adequate ventilation. Wash thoroughly after handling. Use Personal Protective Equipment recommended in section 8 of the SDS.		
Conditions for safe storage, including any incompatibilities	Store away from incompatible materials. Keep container closed.		

Section 8 - Exposure control/personal protection

Occupational exposure limits			
US. Workplace environmer	ntal Exposure Level (WEEL) Guides		
Component		Туре	Value
Diethylene Glycol Mono	noethyl Ether (CAS 111-90-0) TWA 140 mg/m³ , 25 ppm		
Biological limit values	No biological exposure limits noted for the ingredient(s).		
Exposure guidelines	Use personal protective equipment as required. Keep working clothes separately.		
Appropriate engineering controls	Provide adequate ventilation and minimize the risk of inhalation of vapors and mists. Provide easy access to water supply and eye wash facilities.		
Individual protection measures, such as personal protective equipment			
Eye/face protection	Wear safety glasses. If splash potential exists, wear full face shield or chemical goggles.		
Skin protection			
Hand protection	Wear chemical-resistant, impervious gloves. Suitable gloves can be recommended by the glove supplier.		
Other	Wear appropriate chemical resistant clothing.		
Respiratory protection	Use a respirator when local exhaust or ventilation is not adequate to keep exposures below the OEL. In a confined space a supplied respirator may be required.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
General hygiene considerations			s, such as washing after handling the material and before eating, drinking, nd protective equipment to remove contaminants.

Section 9 - Physical and chemical properties

Appearance	Opaque Liquid.
Physical state	Liquid.
Form	Liquid.
Color	White.
Odor	Acrylic.
Odor threshold	Not available.
рН	8.1
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	None to boiling.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Similar to water.

Relative density	1.03 ± 0.01
Relative density temperature	75 °F (23.89 °C)
Solubilities	Soluble.
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cP
Viscosity Temperature	75 °F (23.89 °C)

Section 10 - Stability and reactivity

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.			
Chemical stability	Stable at normal conditions.			
Possiblity of hazardous reactions	Hazardous polymerization does not occur.			
Conditions to Avoid	Contact with incompatible materials.			
Incompatible materials	Strong oxidizing agents.			
Hazardous Decomposition Products	Carbon monoxide. Carbon dioxide.			

Section 11 - Toxicological information

Information on likely routes of ex	<pre>cposure</pre>
Ingestion	No adverse effects due to ingestion are expected.
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.
Skin contact	Prolonged or repeated skin contact may cause drying, cracking, or irritation.
Eye contact	May cause eye irritation.
Symptoms related to the	May cause eye irritation. Prolonged or repeated skin contact may cause drying, cracking, or irritation.
physical, chemical and toxicological characteristics	
Information on toxicological effe	ets.
Acute toxicity	Not expected to be hazardous.
•	
Skin corrosion/irritation	Prolonged or repeated contact may dry skin and cause irritation.
Serious eye damage/ eye irritation	May cause eye irritation.
Respiratory sensitization	Not classified.
Skin sensitization	Not available.
Germ cell mutagenicity	Not classified.
Carcinogenicity	Not classified.
Reproductive toxicity	Not classified.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	The product is expected to be biodegradable.
Bioaccumulative potential	Not known.
Mobility in soil	Not available.
Mobility in general	The product is water soluble and may spread in water systems.
Other adverse effects	None known.
	Section 13 - Disposal considerations
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.
Waste from residues / unused products	Dispose in accordance with all applicable regulations.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Section 14 - Transport information

DOT IATA IMDG Transportation in bulk according to Annex II of MARPOL 73/78 and IBC Code Not regulated as dangerous goods. Not regulated as dangerous goods. Not regulated as dangerous goods. This substance/mixture is not intended to be transported in bulk.

	Section	15 - Reg	gulatory Information

The information contained herein was obtained from current and reliable sources. However, the data is provided without any warranty, expressed or implied, regarding its correctness or accuracy. Since the conditions for use, handling, storage and disposal of this product are beyond the manufacturer's control, it is the user's responsibility both to determine safe conditions for use of this product and to assume liability for loss, injury, damage or expense arising from the product's improper use. No warranty, expressed or implied, regarding the product described herein shall be created by or inferred from any statement or omission in this SDS. Various government agencies may have specific regulations concerning the transportation, handling, storage, use or disposal of this product which may not be reflected in this SDS. The user should review these regulations to ensure full compliance.

Directions:

Floor Preparation: Strip old finish and wax using your preferred NCL floor stripper following label directions. For baseboards and corners, use an NCL baseboard stripper following label directions. If necessary, rinse thoroughly with clean water and allow to completely dry.

Application: Using a clean mop or applicator apply a thin uniform coat of BALANCE[™] UHS Sealer / Finish. Allow to dry for a minimum of 30 minutes after each coat. Do not apply more than 4 coats in a 24 hour period. Floor should be thoroughly drv before traffic is allowed in area.

Buffing and Burnishing: BALANCE[™] UHS Sealer / Finish is an ideal product for use in no-buff or buffing programs using all speeds of buffing or burnishing machines. Prior to buffing or burnishing dust mop the floor surface using an NCL dust mop treatment. Buff or dry burnish using an NCL Aqua Magic[™] buffing pad. For spray buffing, mop-on or autoscubber restoring use a preferred NCL gloss restorer.

Routine Maintenance: Dust mop using mop treated with an NCL dust mop treatment. Damp mop or clean with an automatic scrubber using your preferred NCL neutral floor cleaner following label directions.

Scrub and Recoat: When routine maintenance and buffing/burnishing no longer responds as needed, scrub and recoat using an NCL scrub and recoat cleaner following label directions.
