Dear Bryce,

I appreciate your interest in Biolog-id, LLC, and our innovative solution.

Biolog-id provides an RFID-enabled Data Analytics platform sold as Software as a Service (SaaS). Our service is a proprietary cloud-based platform for supply chain excellence in hospital blood banks and their subsequent remote storage locations. Our platform is comprised of RFID tags interacting with proprietary RFID-enabled smart shelving kits to provide data to our cloud-based Data Analytics engine. As it has been developed and patented by us with no comparable competitors, we are the sole vendor/ supplier/ distributor/ provider of our service.

This letter confirms that Biolog-id, LLC is a sole source product created, sold, and distributed exclusively by Biolog-id, LLC, with offices at 2475 Northwinds Parkway, Alpharetta, GA 3009. No division of Biolog-id, LLC, nor any other company makes a similar or competing product for a hospital blood bank. This platform must be purchased directly by hospitals from Biolog-id, LLC, at the address above. No other agents or dealers are authorized to represent this product in North America.

If you have any questions, please feel free to call me directly @ 504-352-4874.

Best regards,

Cory J. Bergeron
