

Technical Footwear™ **COMMANDER**

Commander

Soft on the inside, tough where it counts

The design and construction of LION Technical Footwear™ are driven by firefighting ergonomics to enhance comfort and reduce foot injury.

12" Zip-Lace Design

- CROSSTECH® black fabric membrane.
- Cambrelle® lining – 300 grams polyfelt insulation.
- Protective heel strip with skip-resistant, breathable micro-fiber technology enhances foot stability and minimizes wear on Cambrelle® fabric lining.
- Lock-Fit Ankle Support System™* provides anatomical ankle padding that ensures the foot is securely positioned within the boot.
- Vibram® Fire & Ice™ sole offers durability and superior traction at both temperature extremes.
- Removable shock-absorbing foam footbed is anti-odor, anti-fungal and breathable.
- Lenzi® puncture-resistant midsole protects vulnerable instep area.
- Thermoplastic heel counter individually molded to every size for custom fit.
- Vibram® nitrile-rubber toe area covering provides full toe area scuff protection.
- Large 1" rugged Nomex® webbing boot straps with reinforced stitching ensure easy donning and doffing.
- Side zip opening which offers minimal resistance on frontal flexion and enhances mobility when climbing and running.
- Leather tongue and side gusset allow for wide entry area and provide an exceptionally comfortable fit.
- Heavy-duty side brass zipper is designed to resist corrosion and adds to long-term durability.
- 3M™ Scotchlite™ Reflective Material (silver) provides added visibility.

Long-Lasting Comfort Features

- Custom fit and feel – molded thermoplastic heel counters are individually modeled to every size for a custom fit. It keeps its shape even in severely wet conditions.

- Won't rub and irritate – the Lock-Fit Ankle Support System™* is an integrated anatomical ankle padding system that ensures the foot is securely positioned in the boot. This helps prevent your heel from riding up and down against the back of the boot.
- Fight sagging arches – a double-ridged ladder shank supports your arches, reducing painful compression and possible injury.
- Keep dry and cool – breathable CROSSTECH® black footwear fabric allows perspiration vapor and moisture condensation to escape.
- Comfort in critical areas – open cell foam cushioning and shock absorbing footbed.
- Anti-chaffing padded collar trim – conforms to accommodate all leg sizes.
- Pierce-Protect Arch Protection System™* – a flexible, ballistic grade composite that delivers superior protection to the arch of your foot.
