CMW PolyStax C-Wall

Design Flexibility | Durable Construction | Exceptional Value

C-Wall™ CMW monolithic panel systems function as a modular floor-to-ceiling wall when adding Compatico's patent-pending PolyStax™ stackable panels.

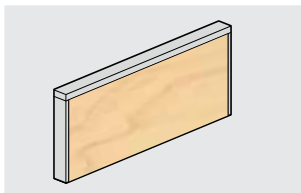

CMW PolyStax offers multiple panel height options from 41" to the ceiling.

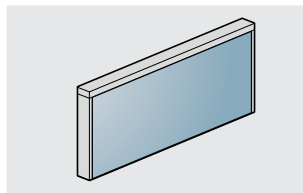

CMW and Polystax can be used to create stand-alone workstations, conference rooms, and/or area dividers. The system grows with your business and provides the best floor-to-ceiling value on the market today.

CMW and Polystax facts:

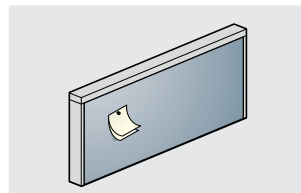

- Supporting design flexibility Polystax units are available in fabric, tackable, marker board, laminate, open, glazed; clear, smoke and frosted acrylic.
- Standard and custom height ceiling track packages attach to solid and grid ceilings.
- Create multiple connection angles from 35° to 180° plus 2, 3 and 4-way panel runs.
- Easy to install using the patent-pending T-Bone/Pork Chop connectors.
- Standard wall mounting attachments and privacy doors are optional.
- Compact 2" panel thickness enables data and electrical cables to run in base raceways.
- Optional access-protection panels are available with standard OEM acoustical properties.
- Electrical power provided by Byrne Electrical, made in the USA, and backed by \$16 million liability coverage.

Laminate

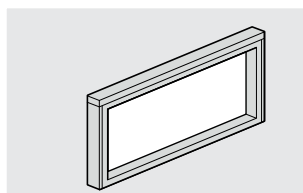

Fabric Covered Hard Surface

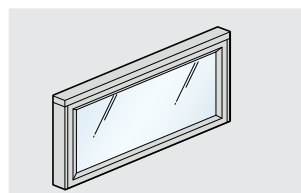

Fabric Covered Tackable
or Acoustical

Marker Board

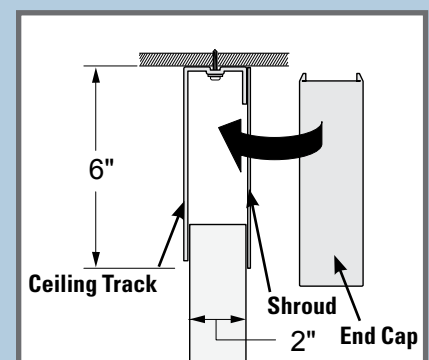

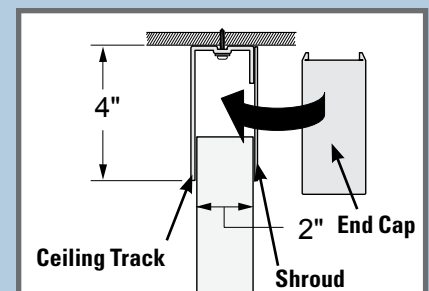

Open Pass-Through

Glass (Clear/Smoked/Frosted)

Ceiling track package has three simple parts: ceiling track, shrouds and end caps for quick installation

G² C-Wall

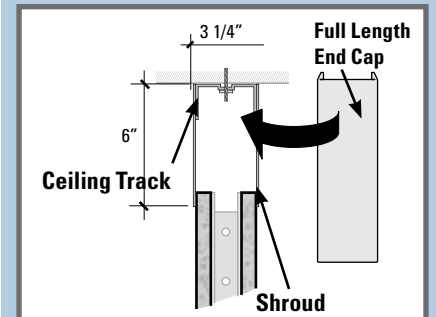

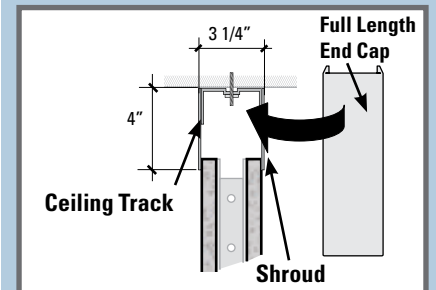

Tile and Frame Design | Durable Construction | Award Winning Aesthetics
C-Wall G² tile and frame panel system can address any floor-to-ceiling office environment.

The G² system's versatile tile and frame design addresses an array of space planning designs from stand-alone workstations to floor-to-ceiling offices, conference rooms and/or stand alone divider walls.

G² Floor-to-Ceiling Facts:

- Standard and custom height ceiling track packages attach to solid and grid ceilings.
- Tiles are available in tackable/acoustical, fabric covered, clear glass, frosted glass, marker board, airflow, painted, laminate and wood grain enhancing any design.
- Aesthetically pleasing 3 1/4" panel thickness footprint provides high capacity storage for data and electrical cable storage and vertical/horizontal cable runs.
- Data tiles give quick and easy access to electrical and data cables which allow for integrated outlets and light switches using data tiles.
- Electrical power provided by Byrne Electrical, made in the USA, and backed by \$16 million liability coverage.
- Durable frame construction using 14 gauge steel.
- Standard wall mounting attachments and privacy doors are optional.

G² ceiling track package has three parts: ceiling track, two shrouds and a full length end cap.
