FREE GROUND SHIPPING

Like what you see? Make a \$75 purchase from pages F4-F31, and receive free ground shipping! Separate shipping charges apply for oversized items.

▲ *Oversized/bulky item — Ineligible for free ground shipping, additional charges apply.*

DISPOSABLE GLOVES

Disposable gloves on pages F4-F5 are versatile enough for any job.

CAN LINERS

"Right-sizing" your can liner can potentially save in material costs and reduce environmental waste.

1

PICK YOUR SIZE

A properly fitted liner should have approximately 3 to 4 inches hanging over the top of the container. Less than that and the liner will fall into the receptacle; more than that and you'll be paying for plastic you don't need. Use the chart on page F11 to identify your trash can and the can liner that goes with it.

2

PICK YOUR PLASTIC

What you throw away determines the type of plastic you'll need. Sharp objects hold well in Low-Density (LD) bags, while High-Density (HD) bags work best for paper and smoother objects.

LOW-DENSITY BAGS (LD)

Often used for: rough or sharp objects. These liners are very strong and more resistant to tearing, but handle lower load capacities than HD liners.

LD applications are often used for:

- Sticks, rough yard trimmings, glass
- Metal with sharp edges
- Plastic eating utensils, food with rough edges

HIGH-DENSITY BAGS (HD)

Often used for: paper and non-rough objects. These liners are very strong and handle higher load capacities than LD liners, but are less resistant to tear once punctured.

HD applications are often used for:

- Paper plates, paper cups, paper towels, office paper
- Grass, rags, smooth heavy objects
- Cans without sharp edges, food without sharp edges

3

PICK YOUR GAUGE

After you pick your plastic, decide how strong or thick your bag needs to be. Low-Density liners are measured in Mils, while High-Density liners are measured in Mics.

LOW-DENSITY GAUGE

Small Cans

Light	.30-.49 Mil
Medium	.50-.60 Mil
Heavy	.61-.74 Mil

Medium Cans

Extra Heavy	.75-.80 Mil
Super Tough	.81-1.0 Mil

Large Cans

Super Heavy	1.1-1.2 Mil
XXH	1.3-1.9 Mil
XXXH	2.0-3.0 Mil

HIGH-DENSITY GAUGE

Small Cans

Light	6-9 Mic
-------	---------

Medium Cans

Medium	10-12 Mic
--------	-----------

Large Cans

Heavy	13-14 Mic
Extra Heavy	15-17 Mic

LOCATE THE LINER YOU'RE LOOKING FOR

All of our liners are made right here in the USA. Use the chart below to find the ones that fit your needs, or call your Cintas Representative if you need help!
