

**PURPOSE:**

Clean Rinse Dry helps to eliminate water spotting and streaking. This product will prove effective in producing clean glasses, dishes, silverware, and utensils.

Clean Rinse Dry promotes rapid and effective drying which should eliminate the need for toweling. Clean Rinse is a proven time saver.

**Safety Instructions:**

Can Cause skin and eye irritation

Skin: Flush well with water.

Eye: Flush with water for 15 minutes; if irritation persists call physician.

Ingestion: Drink large volumes of milk or other liquids, call physician immediately.

**CLEAN RINSE  
DRY  
CONCENTRATE**

**CAUTION:**

Keep Out of Reach of Children  
Do not take internally  
(See side panel for first aid statements.)

**DIRECTIONS:**

Clean Rinse Dry is designed to be used in low temperature or high temperature dishwashing machines and can be used in hand dishwashing by adding at least 1 teaspoon of Clean Rinse Dry to 4 gallons of hot water. Dip items to be rinse dried for approximately 5-10 seconds, then allow to air dry. Water temperature should be a minimum of 130°.
