Description

This concentrated, clear formula cleaner/maintainer effectively cleans, shines and restores finished floor surfaces without trapping dirt. This greatly extends the service life of floor finishes, saving the labor costs of premature stripping and recoating. It leaves a clear, resilient film which produces a clean, "wet look" gloss at a variety of buffer speeds. Compatible with most current types of floor finishes.

Features...Benefits

Concentrated	Economical
Cleans as it Polishes	Labor Saving
Use by Spray Buff or Mop On	Easy to Use
Doesn't Build Up	Labor Saving
Restores Finish Gloss	Improved Sanitation Perception

Directions

MANUAL CLEANING AND MAINTAINING: Dilute with water at the rate of 1 oz./gallon for floors with a sound coat of finish. Mop and clean a manageable area of floor, allowing floor to dry completely before buffing. Buff floor or burnish with appropriate pads.

SPRAY BUFFING: Dilute with water at the rate of 4 oz./gallon into a properly labeled spray container. Spray lightly in front of floor machine and buff (using a white or red pad) until floor is dry and gloss is restored. Increase the concentration of the solution for heavily soiled areas or preclean before buffing.

AUTOSCRUBBER: Dilute with water at the rate of 1 oz./gallon. Using a light duty cleaning pad, lay down, agitate and vacuum up cleaning solution. For best results follow by buffing with a white pad.
