

EXCAVATOR ROTARY MOWER

FAST. TOUGH. VERSATILE.

Reclaim your property.

From contractor to private landowner, Diamond Mowers has the excavator attachments to get the job done.

Excavators perform critical tasks in land clearing and vegetation management. Choosing the right attachment for your excavator is essential.

Heavy-duty is built right in.

- Clear small trees, brush, and any type of grass quickly and effectively.
- Simple design keeps operation and maintenance costs low.
- Reach slopes, waterways, railways and other hard to reach areas that require vegetation management.
- An excavator allows precise control of the rotary cutter, allowing you to chose exactly what tree or limb you want to cut.

THE TRI-HEX ADVANTAGE

Diamond's Tri-Hex mulching disc on the rotary mower provides **powerful inertia** in tough conditions and **prevents material build-up** between the deck and blade carrier.

The Tri-Hex mulching disc comes standard with an unprecedented **5-YEAR WARRANTY**, not that you'll need it.

Ferocious things come in small packages and the **40"** Mini Excavator Rotary Mower is no exception.

- Slice trees and brush up to 4" thick with this heavy duty, hydraulically driven attachment
- Equipped with a spring loaded, retractable shield, which assists in deflecting debris

The Excavator Rotary Mower also comes in **50"**, **60"** and **72"** cutting widths.

- Cuts up to 10" material
- Equipped with a custom mounting bracket to fit your excavator

SPECS	MATERIAL	FLOW RATING	MAX HEAD WEIGHT*	EXCAVATOR SIZE
