ARTICLE 2—USE OF ONLINE SERVICES

2.1 License to Online Services. ESRI grants Licensee a personal, nonexclusive, nontransferable, worldwide license to access and use Online Services as set forth in the applicable Ordering Documents (i) for which the applicable license fees have been paid (if required), (ii) for Licensee's own internal use by Licensee and Licensee's Named Users or Anonymous Users (if applicable), and (iii) in accordance with this License Agreement and the licensed configuration on file as authorized by ESRI.

2.2 Provision of Subscription Online Services. For subscription Online Services, ESRI will

a. Provide Online Services to Licensee in accordance with the Documentation;

ESRI-ITS-40013-Feb2013-Amendment #6 to Master Purchase Agreement

b. Provide customer support in accordance with ESRI's standard customer support policies and any additional support Licensee may purchase; and

c. Use commercially reasonable efforts to ensure that Online Services will not transmit to Licensee any Malicious Code, provided ESRI is not responsible for Malicious Code that was introduced to Online Services through Licensee's account or through third-party Content.

2.3 Licensee's Responsibilities. Licensee and Licensee's Named Users or Anonymous Users (if applicable) are the only persons authorized to access Online Services through Licensee's accounts. Named Users' login credentials are for designated Named Users only and may not be shared among multiple individuals. Named Users' login credentials may be reassigned to new Named Users if the former users no longer require access to Online Services. Licensee and Licensee's Named Users are responsible for maintaining the confidentiality of Authorization Codes, Access Codes, Named Users' login credentials, or any other method that enables access to Online Services and for ensuring that unauthorized third parties do not access Licensee's account. Licensee will immediately notify ESRI if Licensee becomes aware of any unauthorized use of Licensee's account or any other breach of security.

2.4 Prohibited Uses of the Online Services. In addition to the prohibited uses under the License Agreement, Licensee shall not (i) attempt to gain unauthorized access to the Online Services or assist others to do so; (ii) use Online Services for spamming, to transmit junk e-mail or offensive or defamatory material, or for stalking or making threats of physical harm; (iii) use Online Services to store or transmit software viruses, worms, time bombs, Trojan horses, or any other computer code, files, or programs designed to interrupt, destroy, or limit the functionality of any computer software, hardware, or telecommunications equipment ("Malicious Code"); (iv) mirror, reformat, or display Online Services in an attempt to mirror and/or make commercial use of Online Services except to the degree that Online Services directly enable such functionality; (v) share the client-side data cache derived from Online Services with other licensed end users or third parties; (vi) distribute the client-side data cache derived from Online Services to third parties; (vii) manually or systematically harvest information and data contained within Online Services; (viii) use ArcGIS Online Map Services, Geocoding Services, or Routing Services in connection with any products, systems, or applications installed or otherwise connected to or in communication with vehicles capable of vehicle navigation, positioning, dispatch, real-time route guidance, fleet management, or similar applications; or (ix) incorporate any portion of Online Services into a commercial product or service unless the commercial product adds material functionality to Online Services.

2.5 Evaluations. ESRI may provide licenses to use certain Services for Licensee's internal evaluation purposes. Such licenses continue until the stated evaluation period expires or until Licensee purchases a subscription, whichever occurs first. IF LICENSEE DOES NOT CONVERT LICENSEE'S EVALUATION LICENSE TO A SUBSCRIPTION PRIOR TO EXPIRATION OF THE EVALUATION TERM, ANY CONTENT AND CUSTOMIZATIONS THAT LICENSEE UPLOADED OR MADE DURING THE EVALUATION TERM WILL BE PERMANENTLY LOST. IF LICENSEE DOES NOT WISH TO PURCHASE A SUBSCRIPTION, LICENSEE MUST EXPORT SUCH CONTENT BEFORE THE END OF LICENSEE'S EVALUATION PERIOD.

2.6 Modifications of Online Services. ESRI reserves the right to alter, modify, deprecate, or discontinue Online Services and related APIs at any time. If reasonable under the circumstances, ESRI will provide prior notice of any material alterations. ESRI will attempt to support any deprecated APIs for up to six (6) months, unless there are legal, financial, or technological reasons not to support them.

2.7 Attributions. Licensee is not permitted to remove any ESRI or its licensors' logos or other attribution associated with any use of ArcGIS Online Services.

ARTICLE 3—TERM AND TERMINATION

The following supplements Article 6—Term and Termination of the General License Terms and Conditions (E200M):

3.1 Term of Subscriptions. The term of any subscription will be provided in the Ordering Document under which it is purchased or in the Online Services description referenced therein.

3.2 Subscription Rate Changes. Monthly subscription rates may be increased upon thirty (30) days' notice. ESRI may increase rates for subscriptions with a term greater than one (1) month by notifying Licensee at least sixty (60) days prior to expiration of the then-current subscription term.

3.3 Service Interruption. Licensee's access (including access on behalf of Licensee's customers) to and use of Online Services may be temporarily unavailable, without prior notice, for any unanticipated or unscheduled downtime or unavailability of all or any portion of Online Services, including system failure or other events beyond the reasonable control of ESRI or its affiliates.

3.4 Service Suspension. ESRI and its affiliates shall be entitled, without any liability to Licensee, to suspend access to any portion or all of Online Services at any time on a service-wide basis (a) if Licensee materially breaches the License Agreement, exceeds Licensee's usage limits, and fails to purchase additional license capacity sufficient to support Licensee's continued use of Online Services as described in Article 5 of this Addendum; (b) if there is reason to believe that Licensee's use of Online Services will adversely affect the integrity, functionality, or usability of the Online Services or that ESRI and its licensors may incur liability by not suspending Licensee's account; (c) for scheduled downtime to conduct maintenance or make modifications to Online Services; (d) in the event of a threat or attack on Online Services (including a denial-of-service attack) or other event that may create a risk to the applicable part of Online Services; or (e) in the event that ESRI or its affiliates determine that Online Services (or portions thereof) are prohibited by law or otherwise that it is necessary or prudent to do so for legal or regulatory reasons. If warranted under these circumstances, Licensee will be notified of any Service Suspension beforehand and allowed reasonable opportunity to take remedial action.

3.5 ESRI is not responsible for any damage, liabilities, losses (including any loss of data or profits), or any other consequences that Licensee or any Licensee customer may incur as a result of any Service Interruption or Service Suspension.

ARTICLE 4—LICENSEE'S CONTENT, FEEDBACK

4.1 Licensee's Content. Licensee is solely responsible for the development, operation, and maintenance of Licensee's Content and for all materials that appear on or in any of Licensee's Content. Licensee retains all right, title, and interest in Licensee's Content. Licensee hereby grants ESRI and its licensors a nonexclusive, nontransferable, worldwide right to host, run, and reproduce Licensee's Content solely for the purpose of enabling Licensee's use of Online Services. Without Licensee's permission, ESRI will not access, use, or disclose Licensee's Content except as reasonably necessary to support Licensee's use of Online Services, respond to Licensee's requests for customer support, or troubleshoot Licensee's account or for any other purpose authorized by Licensee in writing. If Licensee accesses Online Services with an application provided by a third party, ESRI may disclose Licensee's Content to such third party as necessary to enable interoperation between the application, Online Services, and Licensee's Content. ESRI may disclose Licensee's Content if required to do so by law or pursuant to the order of a court or other government body, in which case ESRI will reasonably attempt to limit the scope of disclosure. It is Licensee's sole responsibility to ensure that Licensee's Content is suitable for use with Online Services and for maintaining regular offline backups using the Online Services export and download capabilities.

4.2 Removal of Licensee's Content. Licensee will provide information and/or other materials related to Licensee's Content as reasonably requested by ESRI to verify Licensee's compliance with this License Agreement. ESRI may remove or delete any portions of Licensee's Content if there is reason to believe that uploading it to, or using it with, Online Services violates this License Agreement. If reasonable under these circumstances, ESRI will notify Licensee before Licensee's Content is removed. ESRI will respond to any Digital Millennium Copyright Act take-down notices in accordance with ESRI's Copyright Policy, available at http://www.esri.com/legal/dmca_policy.

4.3 Sharing Licensee's Content. Online Services and ArcGIS Website include publishing capabilities that allow Licensee to make Licensee's Content available to third parties ("Sharing Tools"). Licensee hereby grants to any third parties with whom Licensee elects to share Licensee's Content using such Sharing Tools the right and license to use, store, cache, copy, reproduce, (re)distribute, and (re)transmit Licensee's Content through Online Services subject to any terms of use and access restrictions that Licensee provides with Licensee's Content. ESRI IS NOT RESPONSIBLE FOR ANY LOSS, DELETION, MODIFICATION, OR DISCLOSURE OF LICENSEE'S CONTENT RESULTING FROM LICENSEE'S NAMED USERS' MISUSE OF SUCH SHARING TOOLS OR ANY OTHER SERVICE COMPONENTS. LICENSEE'S USE OF SUCH SHARING TOOLS IS AT LICENSEE'S SOLE RISK.

4.4 Retrieving Licensee's Content upon Termination. Upon termination of the License Agreement or any trial, evaluation, or subscription, ESRI will make Licensee's Content available to Licensee for download for a period of thirty (30) days unless Licensee requests a shorter window of availability or ESRI is legally prohibited from doing so. Thereafter, Licensee's right to access or use Licensee's Content with Online Services will end, and ESRI will have no further obligations to store or return Licensee's Content.

ARTICLE 5—LIMITS ON USE OF ONLINE SERVICES; SERVICE CREDITS

ESRI may establish limits on the Online Services available to Licensee. These limits may be controlled through Service Credits. Service Credits are used to measure the consumption of ArcGIS Online services made available through Licensee's account. The maximum Service Credits provided with Licensee's ArcGIS Online account will be addressed in the applicable Ordering Document. ESRI will notify Licensee's account administrator when Licensee's Service consumption reaches approximately seventy-five percent (75%) of the Service Credits allocated to Licensee through Licensee's subscription. ESRI reserves the right to suspend Licensee's account when consumption reaches one hundred percent (100%) of the Service Credits allocated to Licensee's subscription. Licensee's access to the account will be restored immediately upon the completion of Licensee's purchase transaction for additional Service Credits for the subscription account.

ARTICLE 6—ONLINE CONTENT; THIRD-PARTY CONTENT AND WEBSITES

6.1 Online Content. ArcGIS Online Data is included as a component of Online Services and is licensed under the terms of the License Agreement.

6.2 Third-Party Content and Websites. Online Services and ArcGIS Website may reference or link to third-party websites or enable Licensee to access, view, use, and download third-party Content. This Agreement does not address Licensee's use of third-party Content, and Licensee may be required to agree to different or additional terms in order to use third-party Content. ESRI does not control these websites and is not responsible for their operation, content, or availability; Licensee's use of any third-party websites and third-party Content is *as is*, without warranty, and at Licensee's sole risk. The presence of any links or references in Online Services to third-party websites and resources does not imply an endorsement, affiliation, or sponsorship of any kind.

ARTICLE 7—LICENSEE'S WARRANTIES

Licensee warrants, to the best of its knowledge, that Licensee's Content or use of Online Services with a product, process, or system not supplied by ESRI or specified by ESRI in its Documentation will not (i) infringe or misappropriate any third-party intellectual property rights or proprietary rights, (ii) violate any third party's privacy rights or any applicable law, or (iii) contain or transmit to a third party any Malicious Code.

General Information and Disclaimers

1. The following Software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.

2. The listed prices are exclusive of shipping and handling. ESRI understands and agrees that pursuant to Section 27-65-105(a) of the 1972 Mississippi Code Annotated, as amended, Licensee is exempt from the payment of taxes. Delivery terms are FOB Destination, Prepay and Charge Back, using ESRI's choice of carriers. Shipping and handling will be prepaid and charged back, that is, included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Expedited express delivery via UPS or equivalent carrier may be requested by the Licensee, with the expense of same being borne by the Licensee. It is suggested the shipping and handling charges for expedited express delivery be confirmed in advance as the ESRI invoice may not exceed the amount of the Licensee's purchase order. Your ESRI sales representative can provide a specific quote including applicable shipping and handling charges.

3. Eligible customers may at any time request a specific quote based on this contract from an ESRI sales representative. When selecting items from this contract without assistance from an ESRI sales representative, be aware of the following general rules:

    (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.

    (b) Some products have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, Software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the Software, and extension Software is only functional in combination with the corresponding core Software. If you have questions regarding your configuration, please contact your ESRI representative for additional information.

    (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your ESRI sales representative for additional information.

    (d) Some items are not offered to all potential customers. For example, certain Software upgrades are only offered to customers who have acquired the most recent versions of the Software, and local government licenses are only offered to local government customers.

    (e) Customer must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-Site training information at ESRI's website (http://training.esri.com/gateway/index.cfm?fa=trainingOptions.clientSite) for details.

    (f) ESRI site training requires a completed registration application form from each student, which is processed on a first-come, first-served basis. We recommend that you submit this registration information at least one (1) month prior to the start date of your class. See the Learning Center registration information at ESRI's website (http://training.esri.com/gateway/index.cfm?fa=support.howtoregister_ilt) for details.

    (g) Training will be provided in accordance with the policies defined under Training at www.esri.com. Training prices are subject to annual escalation, not to exceed a seven and one-half percent (7.5%) increase in January of each year.

4. Support services are defined at ESRI's website (www.esri.com) within the user support section. Particular attention should be paid to the fact that some ESRI Software comes with complimentary maintenance for the first year and other Software features different support plans.

5. New Software releases for most Software products are provided exclusively through maintenance programs. In these cases, Software upgrades are not sold separately.
