**ADDENDUM 1  
SOFTWARE TERMS OF USE  
(E300-1)**

This Software Terms of Use Addendum ("Addendum 1") sets forth the terms of Licensee's use of Software and includes the Licensee's existing Master Purchase Agreement dated December 16, 2004, as amended, (as applicable, the "License Agreement"), which is incorporated by reference. To the extent they do not violate Mississippi law, the licensing and usage terms stated within this Addendum 1 take precedence over conflicting licensing and usage terms stated in the General License Terms and Conditions (E200M) section of the License Agreement.

**SECTION 1—DEFINITIONS**

Software may be offered under the following license types as set forth in the applicable sales quotation, purchase order, or other document identifying the Products that Licensee orders:

1. "Concurrent Use License" means a license to install and use the Product on computer(s) on a network, but the number of simultaneous users may not exceed the number of licenses acquired. A Concurrent Use License includes the right to run passive failover instances of Concurrent Use License management software in a separate operating system environment for temporary failover support.
2. "Deployment Server License" means a full use license that authorizes Licensee to install and use the Software for all uses permitted in the License Agreement and as described in the Documentation.
3. "Development Server License" means a license that authorizes Licensee to install and use the Software to build and test Value-Added Applications as described in the Documentation.
4. "Esri Client Software" means ArcGIS Runtime apps, ArcGIS for Desktop, and ArcGIS API for Flex apps.
5. "Esri Content Package" means a digital file containing ArcGIS Online basemap content (e.g., raster map tiles, images, vector data) extracted from the ArcGIS Online Basemap Services.
6. "Single Use License" means a license that allows Licensee to permit a single authorized end user to install and use the Product on a single computer for use by that end user on the computer on which the Product is installed. Licensee may permit the single authorized end user to install a second copy for end user's exclusive use on a second computer as long as only one (1) copy of Product is in use at any time. No other end user may use Product under the same license at the same time for any other purpose.
7. "Staging Server License" means a license that authorizes Licensee to install and use the Software for the following purposes: building and testing Value-Added Applications and map caches; conducting user acceptance testing, performance testing, and load testing of other third-party software; staging new commercial data updates; and training activities as described in the Documentation. Value-Added Applications and map caches can be used with Development and Deployment Servers.

8. "Term License" means a license or access provided for use of a Product for a limited time period ("Term") or on a subscription or transaction basis.
9. "Perpetual License" means a license to use a version of the Product, for which applicable license fees have been paid, indefinitely, unless terminated by Esri or Licensee as authorized under this Agreement.

**ADDENDUM 3  
ONLINE SERVICES ADDENDUM  
(E300-3)**

This Online Services Addendum ("Addendum 3") sets forth the terms of Licensee's use of Online Services and includes the Licensee's existing Master Purchase Agreement dated December 16, 2004, as amended, (as applicable, the "License Agreement"), which is incorporated by reference. To the extent they do not violate Mississippi law, the licensing and usage terms stated within this Addendum 3 take precedence over conflicting licensing and usage terms stated in the General License Terms and Conditions (E200M) section of the License Agreement. Esri reserves the right to update the terms from time to time. [Section 1](#) of this Addendum 3 contains terms applicable to all Online Services; [Section 2](#) contains common terms applicable to specific Online Services.

**SECTION 1—COMMON TERMS OF USE OF ONLINE SERVICES**

**ARTICLE 1—DEFINITIONS**

In addition to the definitions provided in the License Agreement, the following definitions apply to this Addendum 3:

- a. "Anonymous Users" refers to anyone who has public access to any part of the Licensee's Content or Value-Added Applications, which Licensee has published through the use of the Sharing Tools, included with Licensee's licensed use of the Software or Online Services, as further described in Section 2 of this Addendum.
- b. "API" means application programming interface.
- c. "App Login Credential" means a system-generated application login and associated password, provided by registering a Value-Added Application with ArcGIS Online, which can be embedded in a Value-Added Application to enable the Value-Added Application to access and use Online Services.

Licensee's Content excludes any feedback, suggestions, or requests for Product improvements that Licensee provides to Esri.
- h. "Named User(s)" means individuals to whom Licensee specifically enables private access to Online Services and Value-Added Applications through Licensee's Online Services account. Named Users can be anyone whom Licensee authorizes to access Online Services, but only for the exclusive benefit of Licensee, for example, Licensee's employees, agents, consultants, or contractors. For Education Plan accounts, Named Users may include registered students. No other third parties may be Named Users. Named Users have private access to features of Online Services that are not publicly accessible to Anonymous Users. Named Users have unique, individual login credentials.

## **ARTICLE 2—USE OF ONLINE SERVICES**

**2.1 License to Online Services.** Esri grants Licensee a personal, nonexclusive, nontransferable, worldwide license to access and use Online Services as set forth in the applicable Ordering Documents (i) for which the applicable license fees have been paid (if required), (ii) for Licensee's own internal use by Licensee and Licensee's Named Users or Anonymous Users (if applicable), and (iii) in accordance with this License Agreement and the licensed configuration on file as authorized by Esri.

**2.2 Provision of Subscription Online Services.** For subscription Online Services, Esri will

- a. Provide Online Services to Licensee in accordance with the Documentation;
- b. Provide customer support in accordance with Esri's standard customer support policies and any additional support Licensee may purchase; and
- c. Use commercially reasonable efforts to ensure that Online Services will not transmit to Licensee any Malicious Code, provided Esri is not responsible for Malicious Code that was introduced to Online Services through Licensee's account or through third-party Content.

## **2.3 Licensee's Responsibilities.**

- a. Licensee shall be responsible for Named Users' compliance with this Agreement. Licensee and Licensee's Named Users or Anonymous Users (if applicable) are the only persons authorized to access Online Services through Licensee's accounts. Named Users' login credentials are for designated Named Users only and may not be shared among multiple individuals. Named Users' login credentials may be reassigned to new Named Users if the former users no longer require access to Online Services.
- b. Licensee and Licensee's Named Users are responsible for maintaining the confidentiality of Authorization Codes, Access Codes, Named Users' login credentials, or any other method that is provided that enables access to Online Services and for ensuring that unauthorized third parties do not access Licensee's account. Licensee will immediately notify Esri if Licensee becomes aware of any unauthorized use of Licensee's account or any other breach of security.
- c. Licensee is solely responsible for the development and operation of Licensee's Content and Value-Added Applications and the manner in which it chooses to allow or provide use, access, transfer, transmission, maintenance, or processing ability to or by others, including any use and access to Products, and any subsequent end user, end use, and destination restrictions issued by the US government and other governments.

**2.4 Prohibited Uses of the Online Services.** In addition to the prohibited uses or except as provided under the License Agreement, Licensee shall not (i) attempt to gain unauthorized access to the Online Services or assist others to do so; (ii) use Online Services for spamming, to transmit junk e-mail or offensive or defamatory material, or for stalking or making threats of physical harm; (iii) use Online Services to store or transmit software viruses, worms, time bombs, Trojan horses, or any other computer code, files, or programs designed to interrupt, destroy, or limit the functionality of any computer software, hardware, or telecommunications equipment ("Malicious Code"); (iv) mirror, reformat, or display Online Services in an attempt to mirror and/or make commercial use of Online Services except to the degree that Online Services directly enable such functionality; (v) share the client-side data cache derived from Online Content with other licensed end users or third parties; (vi) distribute the client-side data cache derived from Online Services to third parties; (vii) manually or systematically collect or scrape (screen or web scraping) Content from Online Services; (viii) use ArcGIS Online Map Services, Geocoding Services, or Routing Services in communication with any in-vehicle navigation system installed in a vehicle (this does not include portable navigation devices) or that provides real-time, dynamic routing to any device (for instance, these services may not be used to alert a user about upcoming maneuvers such as warning of an upcoming turn or to calculate an alternate route if a turn is missed); or (ix) incorporate any portion of Online Services into a commercial product or service unless the commercial product adds material functionality to Online Services. Licensee shall not use Online Services to (a) infringe or misappropriate any third-party proprietary rights or privacy rights; (b) process, store, transmit, or enable access to any information, data, or technology controlled for export under the International Traffic in Arms (ITAR) regulations; (c) violate any export law; or (d) store or process Content online that is unclassified controlled technical information (UCTI) under DFARS 204.73, or is protected health information (PHI) under the Health Insurance Portability and Accountability Act (HIPAA). Licensee shall not attempt to (a) probe, scan, or test the vulnerability of the Online Services or to breach any security or authentication measures used by the Online Services; or (b) benchmark the availability, performance, or functionality of Online Services for competitive purposes. Licensee is responsible for any fines, penalties, or claims against Esri, including reasonable attorneys' fees, arising out of Licensee's noncompliance with any of the foregoing prohibitions.

**2.5 Evaluations.** Esri may provide licenses to use certain Services for Licensee's internal evaluation purposes. Such licenses continue until the stated evaluation period expires or until Licensee purchases a subscription, whichever occurs first. IF LICENSEE DOES NOT CONVERT LICENSEE'S EVALUATION LICENSE TO A SUBSCRIPTION PRIOR TO EXPIRATION OF THE EVALUATION TERM, ANY CONTENT AND CUSTOMIZATIONS THAT LICENSEE UPLOADED OR MADE DURING THE EVALUATION TERM WILL BE PERMANENTLY LOST. IF LICENSEE DOES NOT WISH TO PURCHASE A SUBSCRIPTION, LICENSEE MUST EXPORT SUCH CONTENT BEFORE THE END OF LICENSEE'S EVALUATION PERIOD.

**2.6 Modifications of Online Services.** Esri reserves the right to alter or modify Online Service(s) and related APIs at any time. If reasonable under the circumstances, Esri will provide thirty (30) days' prior notice of any material alterations.

**2.7 Discontinuation or Deprecation of Online Services.** Esri reserves the right to discontinue or deprecate an Online Service(s) and related API(s) at any time. If reasonable under the circumstances, Esri will provide ninety (90) days' prior notice of any Online Service

discontinuation or deprecation. Esri will attempt to support any deprecated APIs for up to six (6) months, unless there are legal, financial, or technological reasons not to support them.

**2.8** If any modification, discontinuation, or deprecation of Online Service(s) causes a material, adverse impact to Licensee's operations, Esri may at its sole discretion attempt to repair, correct, or provide a workaround for Online Services. If a viable solution is not commercially reasonable, Licensee may cancel its subscription to Online Services, and Esri will issue a prorated refund.

**2.9 Attributions.** Licensee is not permitted to remove any Esri or Esri's licensors' logos or other attribution associated with any use of ArcGIS Online Services.

### **ARTICLE 3—TERM AND TERMINATION**

The following supplements Article 5—Term and Termination of the License Agreement:

**3.1 Term of Subscriptions.** The term of any subscription will be provided in the Ordering Document under which it is purchased or in the Online Services description referenced therein.

**3.2 Subscription Rate Changes.** Monthly subscription rates may be increased upon thirty (30) days' notice. Esri may increase rates for subscriptions with a term greater than one (1) month by notifying Licensee at least sixty (60) days prior to expiration of the then-current subscription term.

**3.3 Service Interruption.** Licensee's access (including access on behalf of Licensee's customers) to and use of Online Service(s) may be temporarily unavailable, without prior notice, for any unanticipated or unscheduled downtime or unavailability of all or any portion of Online Services, including system failure or other events beyond the reasonable control of Esri.

**3.4 Service Suspension.** Esri shall be entitled, without any liability to Licensee, to suspend access to any portion or all of Online Services at any time on a service-wide basis (a) if Licensee materially breaches the License Agreement; (b) if Licensee exceeds usage limits and fails to purchase additional license capacity sufficient to support Licensee's continued use of Online Services as described in Article 5 of this Addendum; (c) if there is reason to believe that Licensee's use of Online Service(s) will adversely affect the integrity, functionality, or usability of the Online Service(s); (d) if Esri and its licensors may incur liability by not suspending Licensee's account; (e) for scheduled downtime to conduct maintenance or make modifications to Online Service(s); (f) in the event of a threat or attack on Online Service(s) (including a denial-of-service attack) or other event that may create a risk to the applicable part of Online Services; or (g) in the event that Esri determines that Online Services (or portions thereof) are prohibited by law or otherwise that it is necessary or prudent to do so for legal or regulatory reasons. If feasible under these circumstances, Licensee will be notified of any Service Suspension beforehand and allowed reasonable opportunity to take remedial action.

**3.5** Esri is not responsible for any damage, liabilities, losses (including any loss of data or profits), or any other consequences that Licensee or any Licensee customer may incur as a result of any Service Interruption or Service Suspension.

## **ARTICLE 4—LICENSEE'S CONTENT, FEEDBACK**

**4.1 Licensee's Content.** Licensee retains all right, title, and interest in Licensee's Content. Licensee hereby grants Esri and Esri's licensors a nonexclusive, nontransferable, worldwide right to host, run, and reproduce Licensee's Content solely for the purpose of enabling Licensee's use of Online Services. Without Licensee's permission, Esri will not access, use, or disclose Licensee's Content except as reasonably necessary to support Licensee's use of Online Services, respond to Licensee's requests for customer support, or troubleshoot Licensee's account or for any other purpose authorized by Licensee in writing. If Licensee accesses Online Services with an application provided by a third party, Esri may disclose Licensee's Content to such third party as necessary to enable interoperation between the application, Online Services, and Licensee's Content. Esri may disclose Licensee's Content if required to do so by law or pursuant to the order of a court or other government body, in which case Esri will reasonably attempt to limit the scope of disclosure. It is Licensee's sole responsibility to ensure that Licensee's Content is suitable for use with Online Services and for maintaining regular offline backups using the Online Services export and download capabilities.

**4.2 Removal of Licensee's Content.** Licensee will provide information and/or other materials related to Licensee's Content as reasonably requested by Esri to verify Licensee's compliance with this License Agreement. Esri may remove or delete any portions of Licensee's Content if there is reason to believe that uploading it to, or using it with, Online Services violates this License Agreement. If reasonable under these circumstances, Esri will notify Licensee before Licensee's Content is removed. Esri will respond to any Digital Millennium Copyright Act take-down notices in accordance with Esri's Copyright Policy, available at [http://www.esri.com/legal/dmca\\_policy](http://www.esri.com/legal/dmca_policy).

**4.3 Sharing Licensee's Content.** If Licensee elects to share Licensee's Content using Sharing Tools, then Licensee acknowledges that it has enabled third parties to use, store, cache, copy, reproduce, (re)distribute, and (re)transmit Licensee's Content through Online Services. ESRI IS NOT RESPONSIBLE FOR ANY LOSS, DELETION, MODIFICATION, OR DISCLOSURE OF LICENSEE'S CONTENT RESULTING FROM USE OR MISUSE OF SHARING TOOLS OR ANY OTHER SERVICE COMPONENTS. LICENSEE'S USE OF SHARING TOOLS IS AT LICENSEE'S SOLE RISK.

**4.4 Retrieving Licensee's Content upon Termination.** Upon termination of the License Agreement or any trial, evaluation, or subscription, Esri will make Licensee's Content available to Licensee for download for a period of thirty (30) days unless Licensee requests a shorter window of availability or Esri is legally prohibited from doing so. Thereafter, Licensee's right to access or use Licensee's Content with Online Services will end, and Esri will have no further obligations to store or return Licensee's Content.

## **ARTICLE 5—LIMITS ON USE OF ONLINE SERVICES; SERVICE CREDITS**

Esri may establish limits on the Online Services available to Licensee. These limits may be controlled through Service Credits. Service Credits are used to measure the consumption of ArcGIS Online services made available through Licensee's account. The maximum Service Credits provided with Licensee's ArcGIS Online account will be addressed in the applicable Ordering Document. Esri will notify Licensee's account administrator when Licensee's Service Credit consumption reaches approximately seventy-five percent (75%) of the Service Credits allocated to Licensee through Licensee's subscription. Esri will notify Licensee's account administrator if Licensee's Service Credit consumption reaches or exceeds one hundred

percent (100%). If Licensee's account exceeds one hundred percent (100%) of the available Service Credits, Licensee may continue to access its account; however, Licensee's access to services that consume Service Credits will be suspended. Licensee's access to the services that consume Service Credits will be restored immediately upon the completion of Licensee's purchase of additional Service Credits.

## ARTICLE 6—ONLINE CONTENT; THIRD-PARTY CONTENT AND WEBSITES

**6.1 Online Content.** ArcGIS Online Data is included as a component of Online Services and is licensed under the terms of the License Agreement.

**6.2 Third-Party Content and Websites.** Online Services and ArcGIS Website may reference or link to third-party websites or enable Licensee to access, view, use, and download third-party Content. This Agreement does not address Licensee's use of third-party Content, and Licensee may be required to agree to different or additional terms in order to use third-party Content. Esri does not control these websites and is not responsible for their operation, content, or availability; Licensee's use of any third-party websites and third-party Content is *as is*, without warranty, and at Licensee's sole risk. The presence of any links or references in Online Services to third-party websites and resources does not imply an endorsement, affiliation, or sponsorship of any kind.
