Fern

Task Seating

Few things in the workplace evoke a stronger attachment than a person's chair. Comfortable seating enables concentration and minimizes distractions to foster innovation, productivity, and engagement.

Fern® eliminates uncomfortable and distracting structural barriers inherent in other task chairs—like hard edges and limited flex. With Fern's responsive, edgeless design, people can sit comfortably and move unhindered, which helps them stay engaged and perform their best.

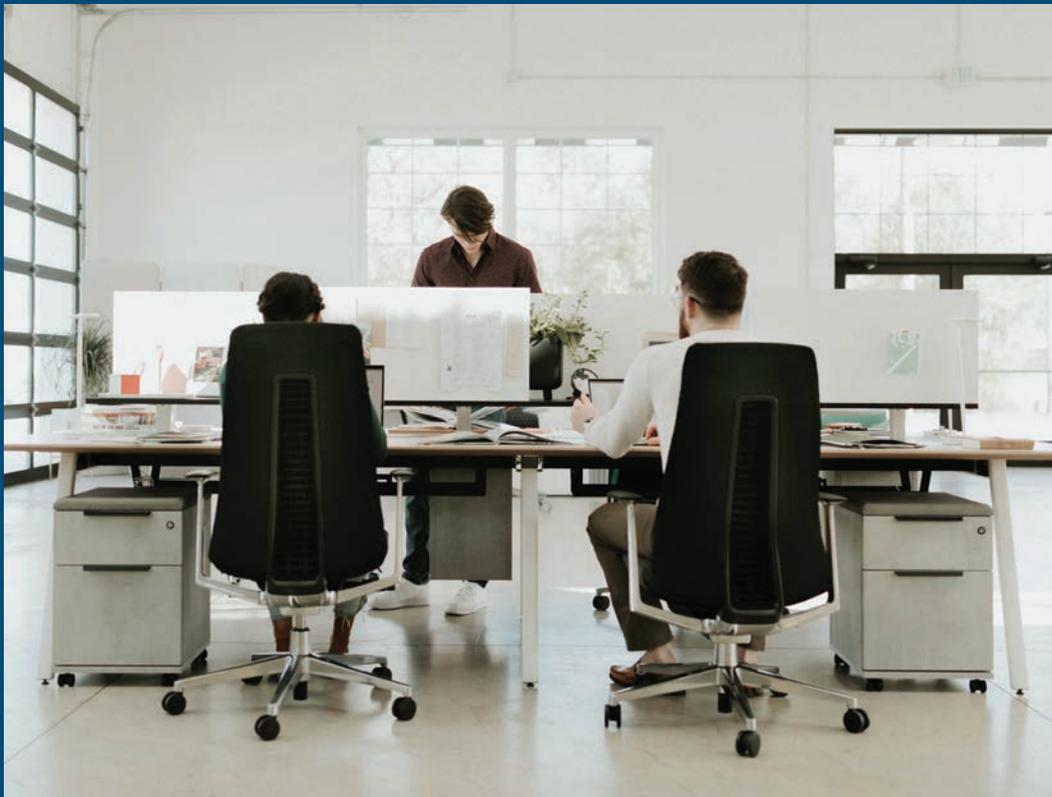

More Human, Less Machine

Inspired by the fluid strength and beauty of nature, Fern provides new levels of balance, flexibility, and performance. It's designed from the inside out, putting the person at the center—for a holistic sitting experience.

Evidence-Based Comfort

Grounded in extensive ergonomic research, Fern is distinctively responsive to each individual. Years of comfort studies and 5.5+ billion data points with a validated correlation to comfort ensure Fern provides a comfortable experience for a wide range of people.

Design Choices

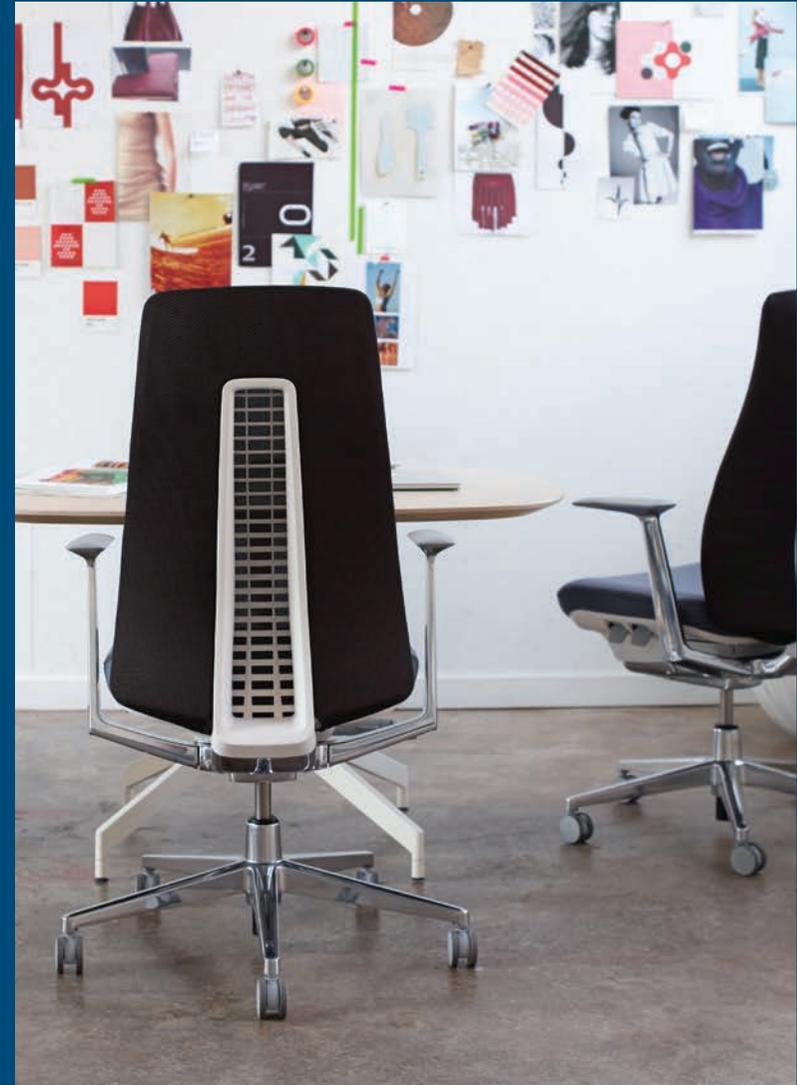

Fern suits a breadth of application needs with a task chair, stool, or executive chair with headrest. Its soft, approachable aesthetic and broad array of finish options allow Fern to blend into any environment—or make a statement. Choose from a variety of colorful mesh, quilted digital knit in a unique gradient honeycomb pattern, or a range of upholstery options including bleach cleanable fabrics, leathers, and faux leathers.

Statement of line may vary by global region.

Total Back Support

Fern provides the ability to move with natural freedom, comfort, and total support—from the neck to the pelvis. The Wave Suspension™ system intuitively moves with you, while the edgeless design offers unparalleled levels of comfort.

Haworth Design Studio

Our international team of designers collaborates with research and development partners to create multi-generational products and global platforms—with regional needs and preferences in mind.

Aligning People and Space for Optimal Performance

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
