OUR STORY

Nestled in the foothills of North Carolina,
Cabot Wrenn practices time-honored traditions in building upholstery furniture.

Consisting of two manufacturing plants with close to 400 employees and 265,000 square feet, artisans spend 50 weeks a year building furniture in a family-like environment. Known to house the broadest leather inventory in the industry, Cabot Wrenn believes the distinction in fine furniture is found in the details.

Details such as quilting, burnishing, painting, finishing and embroidery all done by hand and built to order - no two pieces are exactly alike.

Up to 80 hours are spent handcrafting a piece of furniture; a reflection of our belief that custom-made furniture is the purest form of self-expression. That is why we have spent the past 40 years creating furniture exactly as you envisioned, making it truly as unique as you are.

OUR HISTORY

Cabot Wrenn was founded in 1981 under the guiding principles of traditional North Carolina furniture culture.

The mission, to make the finest furniture available utilizing only the finest materials and most skilled artisans in the industry.

In 2015, Cabot Wrenn was acquired by the Rock House Farm Family of Brands, becoming a sister company to Century and Hickory Chair. Under the current leadership of Federico Contigiani the company continues to honor the mission upon which it was founded.

Throughout, Cabot Wrenn has continued to chart new paths in defining the modern workplace; merging traditional and contemporary forms for a progressive relevant aesthetic. This is our legacy. This is our DNA.

1744 CHANCELLOR TUFTED SOFA

A close-up photograph of a tree trunk in a forest. The trunk is covered in vibrant green moss and lichen, with a rough, textured bark. The background is a soft-focus view of green foliage, creating a natural and serene atmosphere.

*Above all things, Cabot Wrenn is
a community based company.*

Our co-workers are friends, neighbors, and family members; all valuing the communities we live and work in. From our first day we have shown commitment to producing high quality products both responsibly and resourcefully to leave a legacy of distinction for our future generations.

Federico Contigiani

Federico Contigiani
President

In working to reduce waste, sustain resources, support recycling, and eliminate harmful chemicals, Cabot Wrenn takes active, tangible steps to preserve our environment.

Our primary material, wood, is fundamental to everything we do. Fortunately, it is the most readily available, and easily renewable resource. It also has the added benefit of being the only resource with a carbon negative footprint. All of our wood is harvested from sustainable forests.

We utilize non-toxic finishing materials that are virtually free of all volatile organic compound emissions, as well as Ozone Depleting Substances (ODS). All these materials boast low emissions designed to reduce off gassing in order to preserve the air we breathe.

Every upholstery piece is produced using foam that is free of harmful fluorocarbons; all foams used are PBDE, TCDPP, TCEP and formaldehyde free. Every scrap of foam generated is sent back to the supplier for recycling.

We have joined with several fabric suppliers to offer top quality upholstery, which is also environmentally friendly. Momentum®, CF Stinson®, Maharam® and Mayer® are just a few of the suppliers we work with to provide textiles made of up to 100% recyclable materials that are also 100% recyclable/compostable and PVC-free.

Our glue is water-based and environmentally friendly; all bases and metal components contain recycled material and are 100% recyclable; our factories employ energy efficient lighting; recycled paper is used for our literature and price list. No measure is too small.

The determination doesn't stop with manufacturing, but extends to the packaging and transporting of our product. All of our corrugated packaging material is up to 100% recycled content and 96% post-consumer recycled content. Working directly in a combined effort with local partners, we have diverted tons of waste from our landfills. We also encourage the use of carriers that promote cleaner, more fuel efficient transportation to lessen fumes exhausted into the air from transporting our product.

At Cabot Wrenn, we take great pride in being a good steward of our resources as we strive to protect and sustain the environment for everyone present and future.

CONSTRUCTION

As many as 17 craftsmen devote up to 80 hours building each Cabot Wrenn product.

This helps to ensure the quality construction we are known for.

As well as making each piece truly original.

1. Clear Maple Frame or Layered Baltic Birch
2. High Density 2.5 lb. foam core wrapped with plush fiber encased in sewn ticking
3. Steel corner brackets
4. Every coil is hand-tied and knotted in at least eight directions and anchored to the frame
5. Legs may be extensions of the frame or double-doweled into the frame
6. Up to 21-Step Finishing process is applied to all exposed wood

6618-S SYBIL TUFTED SWIVEL CHAIR

FRAME CONSTRUCTION

Every frame is built to exacting standards by our craftsmen. Whether it's traditional or contemporary, our frames use best in class materials and carefully engineered joinery that will remain solid over the lifetime of the piece. Our frames promise uncompromising quality so your unique piece of furniture can be passed down for generations to come.

SPRING UP

Since 1981, we have practiced eight-way hand-tied coil construction. As creators of America's finest furniture, we remain one of the only manufacturers to continue that practice. This time-consuming technique—typically found in antique chairs—involves tying each seat coil with heavy cord, using at least eight knots. The result is firm but comfortable support that will last for years.

SEWING

Our team of sewers spend countless hours as apprentices before being entrusted with an entire chair or sofa. Devoted and passionate about honing their skills, they pay special attention to the quality and look of our fine furniture collections, from decorative top-stitching to sewing seams with heavy-duty upholstery machines.

SANDING

Sanding means more to us than simply making a wooden surface smooth to the touch. Our team of artisans carefully hand-sands each piece of furniture to enhance its character. Together with finishing, this process brings out the deep beauty of the wood. After the frame is built, sanders refine any rough patches in the wood, even on areas hidden from view.

UPHOLSTERY

Where the frame meets the covering, only a master upholsterer can ensure a lasting, quality fit. Like a bespoke suit or couture gown, every piece of furniture is measured, padded and stitched with an expert hand and artful eye. This process is the foundation for a one-of-a-kind piece will last a lifetime.

TUFTING

Our traditional styles are distinguished by our intricate tufting ability. Since 1981, we have used the same centuries-old method, which requires the upholsterer to gauge each pleat of leather or fabric so that all tufts are correctly proportioned. In creating the tuft, twine is passed through layers of material, then pulled taut and secured, usually with a button.

Blind or Biscuit Tufting is also available.

CUSHIONS

Our dedication to quality extends beyond the surface. All cushions are made from High Density 2.5 lb. foam, a technologically advanced material that springs back into shape quickly and is more stable than the polyurethane used by most manufacturers. Our High Density foam may be a difficult material to work with, but we believe your comfort is worth the extra effort.

FINISHING

With over 50 finishes varying in color and gloss to choose from, our wood can be made to look as reflective and sleek as glass or to match the time-worn surfaces of a treasured antique. The process, which can take up to 21 steps, creates a finish with unparalleled character and luster. Because of this meticulous process, we can even create a customized finish just for you.

FABRIC & LEATHER

FABRIC

Cabot Wrenn takes pride in offering an extensive selection of graded in fabric options. In a combined effort with the following fabric distributors, we offer top quality upholstery.

Anzea	Camira	Designtex	Momentum
Architex	Carnegie	Enviro Leather LDI	Pallas Textiles
Arc Com	CF Stinson	Maharam	Paul Brayton
		Mayer	Ultrafabrics

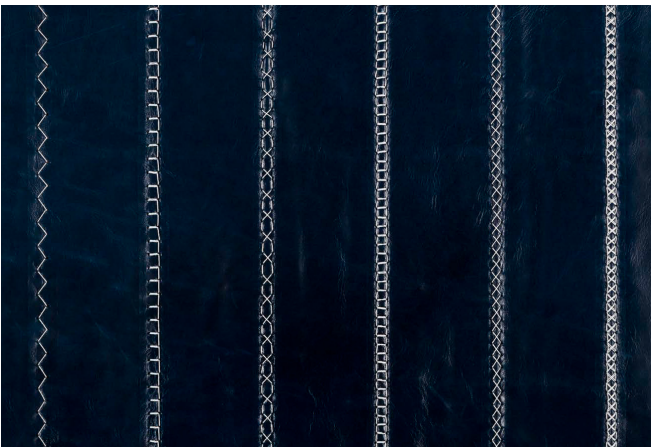

UPHOLSTERY DETAILING

We invite you to get creative with your upholstery design and make your own original. From stitching to quilting, we offer a myriad of embellishment options to dress up a piece of furniture. Our intricate detailing techniques and countless options allow you to be creative and personalize your furniture any way you see fit. With endless possibilities, the choice is yours.

QUILTING

Quilting is a decorative feature applied to upholstery. Originally done only on fabric, we have taken the art of quilting and perfected it on leather. Because of the extra fill required to create quilts, quilted furniture can provide very luxurious seating. We offer a variety of channel and diamond quilts.

STITCHING

We practice a variety of standard and designer stitching techniques to ensure your piece of furniture fits your own unique style. Various stitching patterns can create a subtle or prominent effect.

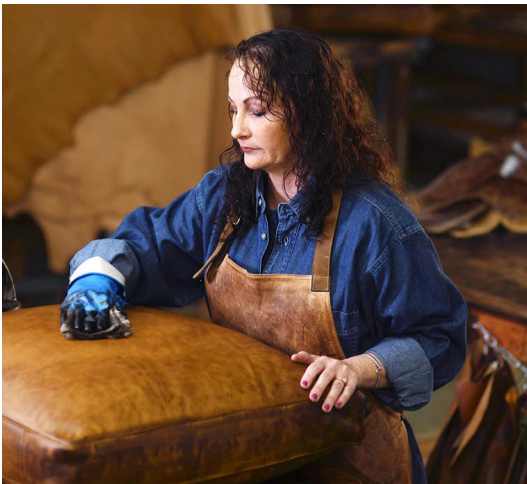

LEATHER

Our extensive gallery boasts more than 400 leathers. As creators of America's finest furniture, our line of leathers includes the best of everything: top-grain leathers, exotic animal skins, metallic and embossed leathers. Each leather is selected for natural appearance, with distinctive markings that impart unique character. The natural surface of leather is like a landscape, with varying textures and shadowy furrows. These distinctive features are unique to genuine leather, a product which is real, not engineered. As with all things in nature, no two hides will be exactly alike.

NAILING

Nails can add a distinctive look to furniture. From rustic, antiqued nails to shiny, nickel nails, these decorative elements add a finishing touch to a product to enhance the look of the leather.

BURNISHING

Our burnishing specialists employ a labor intensive hand sanding process, applying layers of waxes, dyes and oils to give a unique, almost antique look. Like fine leather hand goods, our burnished leathers' unique patinas develop a depth and uniqueness over time.

No two pieces are alike.

EMBROIDERY

Embroidery adds a unique touch to a piece of furniture, making it truly your own original. We offer almost every type of design or logo to be embroidered on most leathers. The design is digitized by computer and then replicated with stitching on the leather.

NAIL TRIM

From the discreet textures of Traveler's Nail to the decorative characteristic of Antiqued Nail, nailheads lend the right amount of glamour to a piece of furniture. We offer a variety of sizes, finishes and textures to create just the right accent for each piece of furniture. Please visit our website for the latest in our nailhead trim.
