Indiana®
FURNITURE

Clearly Green

level®, BIFMA's sustainability certification program for furniture, is a comprehensive and transparent third-party certification program. The level mark attests that the product, the manufacturing facility, and the company responsible for the product brand, have been evaluated against the multi-attribute criteria of the ANSI/BIFMA e3 Furniture Sustainability Standard. Products certified under the level program can be chosen with confidence. All Indiana Furniture casegoods and seating solutions are BIFMA level® 2 Certified.

A number of Indiana Furniture products have achieved Intertek's ETL Environmental VOC Certification and are recognized as products that safeguard indoor air quality. The certification — which extends to Elevate, Gesso, Madera, Resilience, Canvas, all Conference, Reception and Seating solutions, demonstrates that Indiana Furniture's products conform to the ANSI/BIFMA Furniture Emissions Standards (M7.1/X7.1-2011) for Office Furniture Systems and Components. They also earn points for LEED Credit 4.5.

Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating safe work environments within new furniture installations. This has allowed us to earn Indoor Air Quality Certification Certification on our products with UVAdvantage finish. Our UVAdvantage finish process greatly reduces hazardous air pollutants which contribute to smog formation. Excess UV finish is recaptured over and over again reducing waste material within our facilities.

WARRANTY

Subject to the limitations set forth in this warranty, Indiana Furniture Industries, Inc. (**"Indiana Furniture"**) warrants to the original purchaser all product in this price list (**"Product"**) to be free from defects in material and workmanship given normal use for a twelve year period from the date of manufacture. During the applicable warranty period, Indiana Furniture, as its sole obligation, will repair or replace (in Indiana Furniture's sole discretion) any Product, part , or component covered by this warranty and sold after April 2, 2018, which fails under normal use as a result of a defect in material or workmanship. Normal use is defined as the equivalent of a single shift, 40-hour work week. Indiana Furniture will repair or replace the defective Product, part, or component with a comparable Product, part or component.

Warranty periods are limited for certain Products and parts as follows:

12-year Warranty (from the date of manufacture)

- Seating Mechanisms
- Veneers
- Laminates
- Casters and Glides

5-year Warranty (from the date of manufacture)

- Triple Play Series
- Electrical Components
- Pneumatic Cylinders
- Textiles, Foam, and Decorative Trim
- Swivel Arm Pads
- Keyboard kits
- Lighting

2-year Warranty (from the date of manufacture)

- All Sit-To-Stand Mechanisms

1-year Warranty (from date of shipment)

- Charge Spots
- Sparks

THIS WARRANTY DOES NOT COVER:

- Damage caused by a carrier or third party
- Normal or routine wear and tear
- Appearance, durability, quality, behavior, colorfastness or any other attribute of customer's own materials or any non-standard Indiana Furniture material (including Maharam, Momentum, Mayer, UltraFabrics) specified by the customer and applied to a Product
- Color, grain or texture of wood, laminate and other covering materials
- Changes in wood or fabric color due to aging or exposure to light

As the manufacturer of the Product, Indiana Furniture stands behind its craftsmanship and pledges to do everything it can to reasonably resolve, as quickly as possible, any problems you may have with the Product within the terms and conditions of this warranty.

If you encounter a defect covered by the foregoing warranty, you should contact the dealer from whom you purchased the Product. If the dealer is unable to resolve your warranty issues, you should contact Indiana Furniture. Please ensure that you have all of the pertinent facts when contacting the dealer or Indiana Furniture, including the model number and factory order number from the inspection label attached to the Product.

INDIANA FURNITURE IS NOT PROVIDING, AND SPECIFICALLY DISCLAIMS, ANY OTHER WARRANTIES FOR THE PRODUCTS, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. INDIANA FURNITURE SHALL NOT BE LIABLE TO PURCHASER OR ANY THIRD PARTY FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING OUT OF OR RESULTING IN ANY MALFUNCTIONS, DELAYS, LOSS OF PROFIT, INTERRUPTION OF BUSINESS, PERSONAL INJURY, BODILY INJURY, DEATH, DISMEMBERMENT, OR PROPERTY DAMAGE.

GENERAL INFORMATION AND CONDITIONS OF SALE

ORDERING INFORMATION
All orders should be emailed to **neworders@indianafurniture.com**
Orders can be faxed to 812-482-9035. Orders can also be mailed to:

Indiana Furniture
P.O. Box 270
1224 Mill Street
Jasper, IN 47547-0270

ORDER PROCEDURE
All orders must include purchase order number, billing address, ship-to address and phone number, and any special instructions.

When ordering casegoods, give complete quantity, model number, finish and any other options. When ordering seating, give complete quantity, model number, finish, fabric and any other options.

Within each series, an example of "How to Order" is illustrated at the bottom of each page. For further clarification of order procedure, contact Customer Service.

PRICING
All prices shown are suggested retail prices F.O.B. Point of Origin, freight prepaid and allowed to one continental US destination. Prices, specifications and materials are subject to change without notice. Possession and/or distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Indiana Furniture dealers. Orders will be billed at prices prevailing at time of shipment, unless acknowledged prior to the effective date of the price change, in which case billing will be at the price acknowledged.

ACKNOWLEDGEMENT
All orders will be acknowledged promptly, showing how the order was entered, its approximate shipping date and other pertinent information. This acknowledgement is the final agreement between the customer and Indiana Furniture and is the exclusive statement of the terms thereof. Please examine this acknowledgement carefully and advise Indiana Furniture immediately of any discrepancies.

BUYER'S OBLIGATION: RIGHTS OF SELLER
If Indiana Furniture shall at any time doubt Buyer's financial responsibility, Indiana Furniture may decline to make shipments hereunder except upon receipt of cash payment in advance or security or other proof of responsibility satisfactory to Indiana Furniture. If buyer fails in any way to fulfill the terms and conditions set forth herein, Indiana Furniture may defer shipments until such default is corrected. Remedies provided herein shall be in addition to, and not in lieu of other remedies. Buyer agrees to abide by payment terms as listed on invoice. Buyer shall pay all reasonable costs and expenses, including attorney and collection fees, and late fees, incurred by Seller in connection with any amounts due for goods ordered.

CANCELLATIONS AND CHANGES
Due to immediate production on build to order items, all orders are considered firm and are not subject to cancellation or change without approval from Indiana Furniture. All approved changes are subject to additional charges and revised lead times.

PRODUCT DESIGN AND SPECIFICATION CHANGES
Indiana Furniture reserves the right to make changes in design and construction or discontinue products without prior notice.

REPAIR CHARGES
Indiana Furniture will only pay repair charges if Customer Service gives prior written authorization. No repair charge will be paid without advance approval at which time you will be issued a repair authorization number that will allow you to invoice Indiana Furniture for the completed work.

WAREHOUSE STORAGE CHARGES
If a shipment is held beyond 14 calendar days at your request **a .067% per calendar day** (2% per month) storage charge will be assessed. The effective date will be 14 calendar days after the acknowledged ship date. Further, the prices applied to the order will be those in effect at the time of shipment.

DAMAGED MERCHANDISE
The consignee is responsible for filing claims with the carrier for damage and shortages. Claims for both obvious and concealed damage must be filed within 15 calendar days, and the damaged merchandise must not have been moved from the original receiving location. All damaged merchandise, including the cartons and packing materials, must be retained for inspection by either the carrier or by an Indiana Furniture Sales Representative. Indiana Furniture reserves the right to select the most cost effective way to repair or replace the damaged item. Once you have notified the carrier, please contact Customer Service for further assistance.

Obvious Damage/Missing Cartons - Do not refuse merchandise damaged in transit. Indiana Furniture recommends the consignee inspect all merchandise upon arrival. If a shipment is received damaged or short, note all information on carrier's copy and your copy of freight bill and delivery receipt. Notify the delivering carrier and file a claim immediately. Pending the results of your claim, either Indiana Furniture or the carrier will cover 100% of the cost to repair or replace the damaged or missing item.

Concealed Damage - If concealed damage is discovered, notify the delivering carrier at once and request an inspection. This must be done within **15 calendar days of delivery**. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted them, noting the time and date, and that they failed to comply with your request. This, along with the other papers in your possession, will support the claim. Pending the results of your claim, the cost to repair or replace the item will be covered 1/3 by the carrier and 2/3 by Indiana Furniture for shipments less than a full truckload and 100% by Indiana Furniture for shipments of full truckloads.

RETURN MERCHANDISE
Merchandise will not be accepted for return without an RGA (Return Goods Authorization) issued by Indiana Furniture. We will consider issuing RGA's for the following reasons:

1. Manufacturing defect (inspected by Indiana Furniture representative)
2. Indiana Furniture order processing error
3. Shipping error
4. Mis-marked cartons
5. Duplicated shipments

If you have any questions as to whether your reason for return qualifies for consideration, please contact your Customer Service Representative. Merchandise must be returned within 60 days of the RGA issued date, or within 60 days upon receipt of replacement product to receive credit. Returns due to mis-marked cartons must also be returned in the original cartoning, with shipping labels intact, to receive credit.

All merchandise being returned must be properly packed and protected to ensure no further damage is incurred during transportation back to an Indiana Furniture facility. Upon receipt, all returned merchandise will be thoroughly inspected and the results compared to the reason for return stated on the RGA. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

DELIVERY AND FREIGHT CHARGES
All shipments are F.O.B. Point of Origin, Jasper, IN, freight prepaid and allowed dock to dock on 53' trailer. Ownership and responsibility of the merchandise becomes that of the buyer upon delivery to the freight company. Shipments into Alaska, Hawaii, Canada, Mexico, Puerto Rico and other exports are freight prepaid and allowed to port of exit.

Indiana Furniture reserves the right to select the most appropriate carrier and routing on all shipments. Indiana Furniture will attempt to accommodate requests for favored carriers and delivery times. Deliveries requested Monday through Thursday, after 3pm, will be assessed a $250 per truck after hours fee. Deliveries requested after 3pm on Friday or on weekends, will be assessed a $500 per truck weekend delivery fee.

Inside delivery and installation services are not included in the pricing shown. Any deviation from dock-to-dock delivery, such as but not limited to, non-dock, residential, or inside delivery must be specified on the order. Should these services be requested or required, all charges incurred will be charged to the "Sold To" of the order.

Shipments totaling less than $1500 (net value, product only) will be assessed a small order fee of $100 Net per shipment. This fee will be waived for items shipped via small package carriers.

BIFMA AND ANSI TESTING
Indiana Furniture is a member of the Business and Institutional Furniture Manufacturer's Association (BIFMA). Tests developed by the BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of casegoods and seating in its everyday use. Although this testing does not serve as a warranty or guarantee, Indiana Furniture products within this price list have been tested by an independent verifying body and meet or exceed applicable BIFMA and ANSI standards.

Cutouts for Power and Data Accessories can be specified in standard locations at no additional charge. The combination of port and bases selected will determine the locations available for each size table, as well as determine placement over a base or between bases. See page 9-19 for specific locations available by table size. See page 8 for measurements of exact port locations.

Specifications

VENEER

Choose from premium veneer or select veneer on exposed surfaces in Cherry, Maple, or American Black Walnut. These veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and high pressure laminate tops are 3-ply balanced construction. Tops are 1 3⁄16" thick with solid hardwood rims. All buffets, credenzas, serving carts, video cabinets, and storage/wardrobe cabinets are shaped on user side only. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant vertically matched veneer faces. Drawers feature 5-sided construction with ¾" 3-ply fronts, 7⁄16" thick hardwood sides and 5⁄32" hardboard bottoms. Units with 36" wide file drawers feature ¼" thick drawer bottoms for maximum storage strength. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

FINISH

Aura Conference features Ultra-Violet satin finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories.

Specifications

LAMINATES

Exposed surfaces are produced from wood grained, patterned, and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

TOPS

HPL tops are 3-ply construction, 1 3⁄16" thick with PVC rims. Tops are shaped on all four sides for complete design appeal. Tops are available in fifteen wood-look laminates, two solid laminates, and four different edge details.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched grain. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Walnut and Wenge. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Veneer and high pressure laminate tops are 3-ply balanced construction and 1-3⁄16" thick, with 3 mm wood edge-banded rims contoured to the selected profile. Tops are shaped on user and approach sides. Grain direction runs left to right unless otherwise noted in the item description.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant vertically matched veneer faces. Drawers feature 5-sided construction with ¾" 3-ply fronts, 7⁄16" thick hardwood sides and 5⁄32" hardboard bottoms. Units with 36" wide file drawers feature ¼" thick drawer bottoms for maximum storage strength. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

FINISH

Gesso Conference features Ultra-Violet satin finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories.

Specifications

VENEER AND LAMINATE

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Walnut and Wenge. Veneers are carefully selected and matched to assure proper balance and consistency. Accent laminates are straight-grain, textured high-pressure laminate.

TOPS

Blade Conference and meeting table tops are 1-3⁄16" thick. Block Conference and meeting table tops are 1-½" thick. Both are 3-ply balanced construction with 1.5 mm wood edge-banded rims. Credenza tops are ¾" thick, 3-ply balance construction with .5 mm wood edge-banded rims. Veneer accent tops are ¾" thick, 3-ply construction with .5 mm edge-bands while laminate accent tops are ¾" thick, 3-ply construction with 1 mm edge banded rims.

CHASSIS CONSTRUCTION

Chassis are securely fastened using high quality European fastening systems and heavy-duty 16-gauge joining brackets to assure maximum strength. Parsons Tables are formed with mitred construction to provide a clean aesthetic. Units ship assembled unless otherwise noted. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are ¾" thick 3-ply construction with vertical grain. Drawer sides, back, and front are wood grain vinyl wrapped ½" thick with ⅛" thick hardboard bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

Box drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FINISH

One10 Conference features UVAdvantage® Ultra-Violet satin finish on all exposed veneer surfaces utilizing roll-coat technology unless otherwise noted.

Description

- Eight Charging Connectors (3 Apple Lighting, 1 Apple 30-Pin, 4 Micro USB)
- Works with nearly 100% of devices
- Charging Cable length is 6 ½″
- 2.4A per port; 19.2A total
- Adaptive Fast Charging Technology Adjusts to Device Requirements
- Cable Manager included
- Works well in Block Conference Tables with Inlay

For data location options, see pages 129-130.

LOCATIONS

All troughs have pre-drilled peck-hole locations from the bottom side of the trough. Field install power and data modules by selecting any or all of the desired pre-marked locations and drill the hole through.

192" Tops: 31", 52", and 73" off each end
168" Tops: 37" and 58" off each end
144" Tops: 29" and 50" off each end
120" Tops: 39" and 60" off each end
108" Tops: 33" and 54" off each end
96" Tops: 37 1/2" off each end

192" Tops: 26 1/2", 52", and 77 1/2" off each end
168" Tops: 32 1/2", 47 1/2", and 62 1/2" off each end
144" Tops: 24 1/2", 39 1/2", and 54 1/2" off each end
120" Tops: 34 1/2" and 60" off each end
108" Tops: 28 1/2" and 54" off each end
96" Tops: 33" and 48" off each end

STANDARD CONFERENCE TABLES AND SMALL CONFERENCE/MEETING TABLES

Power and data modules specified in the table surface at the time of the order will be routed for field installation. Modules to be mounted under the table surface may be placed anywhere during field installation.

MODULES AVAILABLE IN TABLE SURFACE

01-DUOBEZEL in Silver, White, or Black
01-TRIOBEZEL in Silver, White, or Black
01-PDUOBEZEL in Silver, White, or Black
01-PTRIOBEZEL in Silver, White, or Black

MODULES AVAILABLE UNDER TABLE SURFACE

01-DUO in Silver, White, or Black
01-TRIO in Silver, White, or Black
01-PDUO in Silver, White, or Black
01-PTRIO in Silver, White, or Black

Please Specify the Location:

EL 29″ off one end
ELR 29″ off each end
OC On center
OCELR 29″ off each end and on center
NOTE: OCELR location Not Available on tables 96″ or less

SPLIT TOP PARSONS TABLES

Power and data modules specified at the time of the order will be routed for field installation.

MODULES AVAILABLE

01-DUO in Silver, White, or Black
01-TRIO in Silver, White, or Black
01-PDUO in Silver, White, or Black
01-PTRIO in Silver, White, or Black

Please specify the quantity of Modules to Route based on table size:

72″ TOPS
1 = On Center at 36″
2 = 24″ off each end
3 = 18″ off each end and on center

96″ TOPS
1 = On Center at 48″
2 = 32″ off each end
3 = 24″ off each end and on center

120″ TOPS
1 = On Center at 60″
2 = 40″ off each end
3 = 30″ off each end and on center

SINGLE COLUMN MEETING TABLES

Power and data modules specified at the time of order will be routed for field installation.

Modules Available - all units will be routed on center

01-DUOBEZEL in Silver, White, or Black
01-TRIOBEZEL in Silver, White, or Black
01-PDUOBEZEL in Silver, White, or Black
01-PTRIOBEZEL in Silver, White, or Black

Specifications

LAMINATE

Exposed surfaces are produced from wood grained, patterned, and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

TOPS

Blade Conference and meeting table tops are 1-3⁄16" thick. Block Conference and meeting table tops are 1-½" thick. Both are 3-ply balanced construction with 1 mm PVC edge-banded rims. Credenza tops are ¾" thick, 3-ply balance construction with .5 mm PVC edge-banded rims. Laminate accent tops are ¾" thick, 3-ply construction with 1 mm edge banded rims.

CHASSIS CONSTRUCTION

Chassis are securely fastened using high quality European fastening systems and heavy-duty 16-gauge joining brackets to assure maximum strength. Parsons Tables are formed with mitred construction to provide a clean aesthetic. Units ship assembled unless otherwise noted. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are ¾" thick 3-ply construction with vertical grain. Drawer sides, back, and front are wood grain vinyl wrapped ½" thick with ⅛" thick hardboard bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

Box drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

Item	Model No.	W	D	H	K	R	Ship Wt	Cubic Ft	List Price
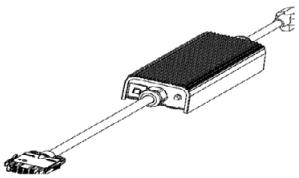
DAISY CHAIN POWER BOX	01-PPOWER				-	-			$ 500



SIN 711-11

Description

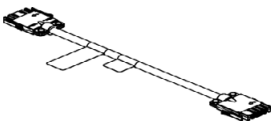
- Powers up to 8 Duo and Trio Daisy Chain Units
- One Nema Plug and One Daisy Chain Plug
- 12 Amp System Rating
- 15 Amp Over-Current Protection

DAISY CHAIN JUMPER CORD	01-6Jump 72″ Long				-	-			$ 194
	01-5Jump 60″ Long				-	-			$ 183
	01-4Jump 48″ Long				-	-			$ 155
	01-2Jump 24″ long				-	-			$ 142



SIN 711-11

Description

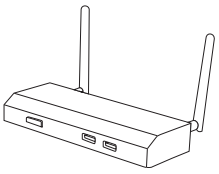
- Connects Duo and Trio Daisy Chain Units
- Non Sequential System Allows up to 8 Modules to be Connected

WIRELESS PRESENTATION SHARING DEVICE	01-WEPRESENT				-	-			$ 2384



SIN 711-11

Description

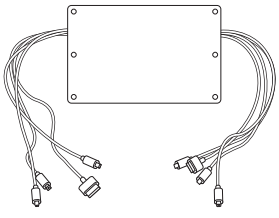
- Wireless Presentation Device
- Works well with Media Credenza and Monitor Stand
- Compatible with Any Wireless Device
- Allows 64 users to connect and participate in screen sharing - 4 at a time
- Users must download WiFi-Doc for each device for free

UNIVERSAL CHARGING DEVICE	01-KWIKBOOST				-	-			$ 1167



Open Market Only

Description

- Eight Charging Connectors (3 Apple Lighting, 1 Apple 30-Pin, 4 Micro USB)
- Works with nearly 100% of devices
- Charging Cable length is 6 ½″
- 2.4A per port; 19.2A total
- Adaptive Fast Charging Technology Adjusts to Device Requirements
- Cable Manager included
- Works well in Block Conference Tables with Inlay

For data location options, see pages 169-170.

LOCATIONS

All troughs have pre-drilled peck-hole locations from the bottom side of the trough. Field install power and data modules by selecting any or all of the desired pre-marked locations and drill the hole through.

192" Tops: 31", 52", and 73" off each end
168" Tops: 37" and 58" off each end
144" Tops: 29" and 50" off each end
120" Tops: 39" and 60" off each end
108" Tops: 33" and 54" off each end
96" Tops: 37 1/2" off each end

192" Tops: 26 1/2", 52", and 77 1/2" off each end
168" Tops: 32 1/2", 47 1/2", and 62 1/2" off each end
144" Tops: 24 1/2", 39 1/2", and 54 1/2" off each end
120" Tops: 34 1/2" and 60" off each end
108" Tops: 28 1/2" and 54" off each end
96" Tops: 33" and 48" off each end

STANDARD CONFERENCE TABLES AND SMALL CONFERENCE/MEETING TABLES

Power and data modules specified in the table surface at the time of the order will be routed for field installation. Modules to be mounted under the table surface may be placed anywhere during field installation.

MODULES AVAILABLE IN TABLE SURFACE
01-DUOBEZEL in Silver, White, or Black
01-TRIOBEZEL in Silver, White, or Black
01-PDUOBEZEL in Silver, White, or Black
01-PTRIOBEZEL in Silver, White, or Black

MODULES AVAILABLE UNDER TABLE SURFACE
01-DUO in Silver, White, or Black
01-TRIO in Silver, White, or Black
01-PDUO in Silver, White, or Black
01-PTRIO in Silver, White, or Black

Please Specify the Location:

EL 29″ off one end
ELR 29″ off each end
OC On center
OCELR 29″ off each end and on center
NOTE: OCELR location Not Available on tables 96″ or less

SPLIT TOP PARSONS TABLES

Power and data modules specified at the time of the order will be routed for field installation.

MODULES AVAILABLE
01-DUO in Silver, White, or Black
01-TRIO in Silver, White, or Black
01-PDUO in Silver, White, or Black
01-PTRIO in Silver, White, or Black

Please specify the quantity of Modules to Route based on table size:

72″ TOPS
1 = On Center at 36″
2 = 24″ off each end
3 = 18″ off each end and on center

96″ TOPS
1 = On Center at 48″
2 = 32″ off each end
3 = 24″ off each end and on center

120″ TOPS
1 = On Center at 60″
2 = 40″ off each end
3 = 30″ off each end and on center

SINGLE COLUMN MEETING TABLES

Power and data modules specified at the time of order will be routed for field installation.

Modules Available - all units will be routed on center
01-DUOBEZEL in Silver, White, or Black
01-TRIOBEZEL in Silver, White, or Black

Specifications

VOC Intertek Environmental

TOPS

Tops are 1-3⁄16" thick select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, White Oak, and composite veneers. Tops are available in Square (H) edge profile with 1.5mm edge banding. Tops are pre-drilled for the specified base assembly and for ganging applications.

LEG ASSEMBLY

All leg styles are powder-coated and include a 5mm steel mounting plate. Envy style legs are aluminum extrusion while Vantage style legs are steel welded. Envy Y-Legs include troughs which act as modesty panels and route cables cleanly to the legs where a removable panel provides access. All legs include adjustable glides or casters.

GANGING

All modular conference tables are pre-drilled with threaded inserts for ganging applications. Ganging brackets include quick release thumb screws for ease of use. No tools required.

POWER PORTS

Power ports are available for under-surface mount or routed into work surfaces. Units comply with FCC Part 15A and UL. Both standard plugs and daisy-chain connections are offered. Daisy chain applications are non-sequential and connect up to 8 modules.

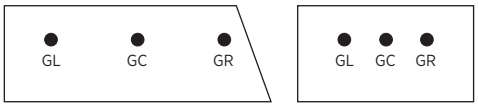
WIRE MANAGEMENT GROMMET

Optional black grommets are available in Modular Conference Tops. Please specify any combination of Left, Right, and Center and add $49 list for each grommet.

Specify & Add: GL – Grommet Left
GR – Grommet Right
GC – Grommet Center

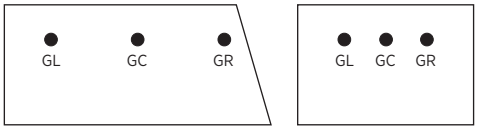
Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

24" Modular Conference Tables



GL/GR – 10" from end based on widest dimension, 13 3/8" from user side
GC – Grommet Center – 13 3/8" from user side

30" Modular Conference Tables



GL/GR – 10" from end based on widest dimension, 19 3/8" from user side
GC – Grommet Center – 19 3/8" from user side

POWER ACCESSORIES

Indiana Furniture offers Power Accessories for modular conference tops, and rectangular, ellipse or view meeting tables that can be mounted below the worksurface or in the worksurface top. Power Accessories that include a bezel frame will be routed for field placement at no additional charge. See pages 256-261 to specify and order Power Accessories.

Power Accessories will be routed on center, left to right:

24" Modular Conference Tables – 13 3/8" from user side
30" Modular Conference Tables – 19 3/8" from user side
Meeting Tables – On center, front to back

Specifications

VOC Intertek Environmental

TOPS

Tops are 1-3⁄16" thick select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, White Oak, and composite veneers. Tops are available in Knife (K) edge profile with 1.5mm edge banding. Tops are pre-drilled for the specified base assembly and for ganging applications.

LEG ASSEMBLY

All leg styles are powder-coated and include a 5mm steel mounting plate. Envy style legs are aluminum extrusion while Vantage style legs are steel welded. Envy Y-Legs include troughs which act as modesty panels and route cables cleanly to the legs where a removable panel provides access. All legs include adjustable glides or casters.

GANGING

All modular conference tables are pre-drilled with threaded inserts for ganging applications. Ganging brackets include quick release thumb screws for ease of use. No tools required.

POWER PORTS

Power ports are available for under-surface mount or routed into work surfaces. Units comply with FCC Part 15A and UL. Both standard plugs and daisy-chain connections are offered. Daisy chain applications are non-sequential and connect up to 8 modules.

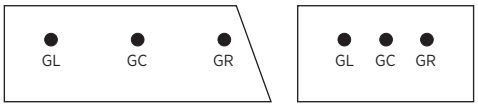
WIRE MANAGEMENT GROMMET

Optional black grommets are available in Modular Conference Tops. Please specify any combination of Left, Right, and Center and add $49 list for each grommet.

Specify & Add: GL – Grommet Left
GR – Grommet Right
GC – Grommet Center

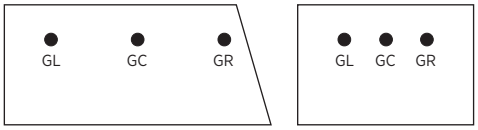
Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

24" Modular Conference Tables



GL/GR – 10" from end based on widest dimension, 13 3/8" from user side
GC – Grommet Center – 13 3/8" from user side

30" Modular Conference Tables



GL/GR – 10" from end based on widest dimension, 19 3/8" from user side
GC – Grommet Center – 19 3/8" from user side

POWER ACCESSORIES

Indiana Furniture offers Power Accessories for modular conference tops, and rectangular, ellipse or view meeting tables that can be mounted below the worksurface or in the worksurface top. Power Accessories that include a bezel frame will be routed for field placement at no additional charge. See pages 256-261 to specify and order Power Accessories.

Power Accessories will be routed on center, left to right:

24" Modular Conference Tables – 13 3/8" from user side
30" Modular Conference Tables – 19 3/8" from user side
Meeting Tables – On center, front to back

TOPS

Tops are 1" thick thermally-fused laminate (TFL) or 1-3⁄16" high-pressure laminate (HPL) fused to particle-board core. Select from solid color, patterned, and wood-grained laminates, including textured laminates. A Square edge (Y) profile is available on TFL and HPL standard laminates with a 3mm PVC rim. The Square edge (H) profile on Textured TFL and HPL is 1mm. Training and Modular Conference tops feature shaped profiles on the user side while meeting tables are shaped on four sides. Tops are pre-drilled for the specified base assembly and for ganging where applicable.

LEG ASSEMBLY

All leg styles are powder-coated and include a 5mm steel mounting plate. Envy style legs are aluminum extrusion while Vantage style legs are steel welded. Envy C-Legs and Envy Y-Legs include troughs which act as modesty panels and route cables cleanly to the legs where a removable panel provides access. Vantage T-Legs are equipped with a stretcher rail for secure support. All legs include adjustable glides or casters.

FLIP MECHANISM

Indiana Furniture's training tables offer an exclusive flip mechanism design which can be accessed from any position. Optional flip mechanisms are factory installed and must be specified at the time of order.

GANGING

All training tables and modular conference tables are pre-drilled with threaded inserts for ganging applications. Ganging brackets include quick release thumb screws for ease of use. No tools required.

POWER PORTS

Power ports are available for under-surface mount or routed into work surfaces. Units comply with FCC Part 15A and UL. Both standard plugs and daisy-chain connections are offered. Daisy chain applications are non-sequential and connect up to 8 modules.

Specifications

VOC Intertek Environmental

TOPS

Tops are 1-3⁄16" high-pressure laminate (HPL) fused to particle-board core. Select from solid color, patterned, and wood-grained laminates, including textured laminates. Knife edge (K) profile is available on HPL tops featuring a 3mm PVC rim on all standard laminates. Training and Modular Conference tops feature shaped profiles on the user side while meeting tables are shaped on four sides. Tops are pre-drilled for the specified base assembly and for ganging where applicable.

LEG ASSEMBLY

All leg styles are powder-coated and include a 5mm steel mounting plate. Envy style legs are aluminum extrusion while Vantage style legs are steel welded. Envy C-Legs and Envy Y-Legs include troughs which act as modesty panels and route cables cleanly to the legs where a removable panel provides access. Vantage T-Legs are equipped with a stretcher rail for secure support. All legs include adjustable glides or casters.

FLIP MECHANISM

Indiana Furniture's training tables offer an exclusive flip mechanism design which can be accessed from any position. Optional flip mechanisms are factory installed and must be specified at the time of order.

GANGING

All training tables and modular conference tables are pre-drilled with threaded inserts for ganging applications. Ganging brackets include quick release thumb screws for ease of use. No tools required.

POWER PORTS

Power ports are available for under-surface mount or routed into work surfaces. Units comply with FCC Part 15A and UL. Both standard plugs and daisy-chain connections are offered. Daisy chain applications are non-sequential and connect up to 8 modules.

Specifications

VOC Intertek Environmental

TOPS

Tops are 1-3⁄16" high-pressure laminate (HPL) fused to particle-board core. Select from solid color and patterned laminates. The Comfort (U1) profile and the Ultra-Flex (U2) profile are urethane edges in coordinating colors. Training tops feature shaped profiles on the user side only. Tops are pre-drilled for the specified base assembly and for ganging where applicable.

LEG ASSEMBLY

All leg styles are powder-coated and include a 5mm steel mounting plate. Envy style legs are aluminum extrusion while Vantage style legs are steel welded. Envy C-Legs and Envy Y-Legs include troughs which act as modesty panels and route cables cleanly to the legs where a removable panel provides access. Vantage T-Legs are equipped with a stretcher rail for secure support. All legs include adjustable glides or casters.

FLIP MECHANISM

Indiana Furniture's training tables offer an exclusive flip mechanism design which can be accessed from any position. Optional flip mechanisms are factory installed and must be specified at the time of order.

GANGING

All training tables and modular conference tables are pre-drilled with threaded inserts for ganging applications. Ganging brackets include quick release thumb screws for ease of use. No tools required.

POWER PORTS

Power ports are available for under-surface mount or routed into work surfaces. Units comply with FCC Part 15A and UL. Both standard plugs and daisy-chain connections are offered. Daisy chain applications are non-sequential and connect up to 8 modules.

TABLE OF CONTENTS - LAMINATE

Training Tables

Urethane Edge 254-255
Power and Accessories 256-261

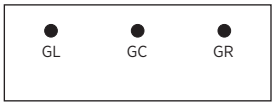
WIRE MANAGEMENT GROMMET

Optional black grommets are available in Training Tables. Please specify any combination of Left, Right, and Center and add $49 list for each grommet.

Specify & Add: GL – Grommet Left
GR – Grommet Right
GC – Grommet Center

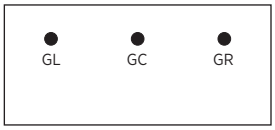
Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

24″ Training Tables



GL/GR – 10″ from end, 16 1/2″ from user side
GC – Grommet Center – 16 1/2″ from user side

30″ Training Tables



GL/GR – 10″ from end, 20″ from user side
GC – Grommet Center – 20″ from user side

POWER ACCESSORIES

Indiana Furniture offers Power Accessories for training tables that can be mounted below the worksurface or in the worksurface top. Power Accessories that include a bezel frame will be routed for field placement at no additional charge. See pages 256-261 to specify and order Power Accessories.

Power Accessories will be routed on center, left to right:

24″ Training Tables – 16 1/2″ from user side
30″ Training Tables – 20″ from user side

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and high pressure laminate tops are 3-ply balanced construction. Tops are 1 3⁄16" thick with solid hardwood rims. All buffets, credenzas, serving carts, video cabinets, and storage/wardrobe cabinets are shaped on user side only. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant vertically matched walnut veneer faces. Drawers feature 5-sided construction with ¾" 3-ply fronts, 7⁄16" thick hardwood sides and 5⁄32" hardboard bottoms. Units with 36" wide file drawers feature ¼" thick drawer bottoms for maximum storage strength. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

FINISH

Cameo Conference features Ultra-Violet satin finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories.

How to Order

MODEL NO.	DESCRIPTION	
62-3672RSS	Finish	JW
	Solid Surface Color	PE
	Edge	S1

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Walnut and Wenge. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Work surface tops are 3-ply balanced construction and 1⅝" thick with a self-edge. Transaction tops 1⅝" thick and 5-ply balanced construction in veneer or 3-ply balanced construction in laminate. Transaction tops in Cherry, Maple, and American Black Walnut have solid hardwood rims and are profiled on all sides with mitered corners. Transaction tops in Composite Walnut and Composite Wenge are edge-banded and have a self-edge on all sides. Grain runs left to right unless otherwise stated. Optional accent tops of ⅜" glass with 2" silver standoffs are available. Transaction tops in solid surface materials are 1½" thick and available in 6 standard colors.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors. All units have finished backs unless noted. All pedestals have wire management access from pedestal to kneespace.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are 3-ply construction ¾" thick and vertically matched in sets. Drawer interiors are constructed with wood grain vinyl wrapped sides, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms for storage applications. 5-Sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers feature full extension, progressive action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 150 lb capacity. All suspensions have a limited life-time warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Modular component pedestals provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All units with file drawers feature locking. All pedestals come with standard or optional locking. Locks are black or silver to match the pull selected. Removable lock cylinders allow units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

FINISH

Aura Reception features Ultra-Violet satin finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories.

Reception Collection

How to Order

MODEL NO.	DESCRIPTION	
61-3672RS	Finish	PW
	Top Surface	W

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in American Black Walnut. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Work surface tops are 3-ply balanced construction and 1⅝" thick with a self-edge. Transaction tops 1⅝" thick and 5-ply balanced construction in veneer or 3-ply balanced construction in laminate. Transaction tops have solid hardwood rims and are profiled on all sides with mitered corners. Grain runs left to right unless otherwise stated.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors. All units have finished backs unless noted. All pedestals have wire management access from pedestal to kneespace. Decorative moldings are hand applied.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are 3-ply construction ¾" thick and vertically matched in sets. Drawer interiors are constructed with wood grain vinyl wrapped sides, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms for storage applications. 5-Sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers feature full extension, progressive action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 150 lb capacity. All suspensions have a limited life-time warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Modular component pedestals provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All units with file drawers feature locking. All pedestals come with standard or optional locking. Locks are black. Removable lock cylinders allow units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

FINISH

Cameo Reception features Ultra-Violet satin finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories.
