FURNITURE

Clearly Green

level®, BIFMA's sustainability certification program for furniture, is a comprehensive and transparent third-party certification program. The level mark attests that the product, the manufacturing facility, and the company responsible for the product brand, have been evaluated against the multi-attribute criteria of the ANSI/BIFMA e3 Furniture Sustainability Standard. Products certified under the level program can be chosen with confidence. All Indiana Furniture casegoods and seating solutions are BIFMA level® 2 Certified.

A number of Indiana Furniture products have achieved Intertek's ETL Environmental VOC Certification and are recognized as products that safeguard indoor air quality. The certification — which extends to Elevate, Gesso, Madera, Resilience, Canvas, all Conference, Reception and Seating solutions, demonstrates that Indiana Furniture's products conform to the ANSI/BIFMA Furniture Emissions Standards (M7.1/X7.1-2011) for Office Furniture Systems and Components. They also earn points for LEED Credit 4.5.

Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating safe work environments within new furniture installations. This has allowed us to earn Indoor Air Quality Certification Certification on our products with UVAdvantage finish. Our UVAdvantage finish process greatly reduces hazardous air pollutants which contribute to smog formation. Excess UV finish is recaptured over and over again reducing waste material within our facilities.

DAMAGED MERCHANDISE

The consignee is responsible for filing claims with the carrier for damage and shortages. Claims for both obvious and concealed damage must be filed within 15 calendar days, and the damaged merchandise must not have been moved from the original receiving location. Indiana Furniture reserves the right to select the most cost effective way to repair or replace the damaged item. Once you have notified the carrier, please contact Customer Service for further assistance.

Obvious Damage/Missing Cartons - Do not refuse merchandise damaged in transit. Indiana Furniture recommends the consignee inspect all merchandise upon arrival. If a shipment is received damaged or short, note all information on carrier's copy and your copy of freight bill and delivery receipt. Notify the delivering carrier and file a claim immediately. Pending the results of your claim, either Indiana Furniture or the carrier will cover 100% of the cost to repair or replace the damaged or missing item.

Concealed Damage - If concealed damage is discovered, notify the delivering carrier at once and request an inspection. This must be done within **15 calendar days of delivery**. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted them, noting the time and date, and that they failed to comply with your request. This, along with the other papers in your possession, will support the claim. Pending the results of your claim, the cost to repair or replace the item will be covered 1/3 by the carrier and 2/3 by Indiana Furniture for shipments less than a full truckload and 100% by Indiana Furniture for shipments of full truckloads.

RETURN MERCHANDISE

Merchandise will not be accepted for return without an RGA (Return Goods Authorization) issued by Indiana Furniture. We will consider issuing RGA's for the following reasons:

2. Indiana Furniture order processing error
3. Shipping error
4. Mis-marked cartons
5. Duplicated shipments

If you have any questions as to whether your reason for return qualifies for consideration, please contact your Customer Service Representative. Merchandise must be returned within 60 days of the RGA issued date, or within 60 days upon receipt of replacement product to receive credit. Returns due to mis-marked cartons must also be returned in the original cartoning, with shipping labels intact, to receive credit.

All merchandise being returned must be properly packed and protected to ensure no further damage is incurred during transportation back to an Indiana Furniture facility. Upon receipt, all returned merchandise will be thoroughly inspected and the results compared to the reason for return stated on the RGA. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Specifications

UPHOLSTERY

Indiana Furniture manufactures seating to meet your own personal style and taste. Highly-skilled upholsterers hand tailor each unit to meet individual chair specifications. Button tufting is hand applied, and pleats are individually tailored on each chair. Hand-set nail trim is individually applied to many traditional chairs. Upholstery options include a wide variety of contemporary and traditional styles in vinyls, leathers, Maharam, Momentum, Mayer, and CF Stinson upholsteries, all pre-graded in this price list for your ease of use. No need to order your own fabric and risk lost orders, fabric costs, freight costs, insufficient yardage, delays, damage, misidentification, or wrong shipping locations. Let Indiana Furniture do all the work for you.

CONSTRUCTION

Indiana Furniture chair frames are manufactured using kiln-dried, solid hardwoods and structurally engineered hardwood plywood. All exposed wood areas are selected from the highest grades of hardwoods. All chair joints are double doweled, or mortised and tenoned, screwed, and glued for maximum strength and durability. Our frames are individually hand assembled and carefully hand sanded prior to being finished.

FINISH

Indiana Furniture uses a multi-step hand finishing process on all exposed wood frames. Each frame is pre-sanded for smoothness. Chairs are stained and finished with a catalyzed varnish finish which offers durability, lasting beauty, and resistance to normal wear. All chair finishes correspond with matching Indiana Furniture casegoods finishes which allows for easy match-up of furniture components without having to custom-stain wood chairs or casegoods within an office.

FOAM

All Indiana Furniture chairs feature high grade CAL 117-2013 polyurethane foam that is attached to chair frame members. To secure additional comfort, high gauge sinuous springs or high quality resilient sheet webbing fastened underneath the polyurethane foam ensures a much softer feel to the chair.

LIFTS

All Indiana Furniture swivel chairs are standard with gas lift mechanisms which allow height adjustments to accommodate various work surfaces.

CONTROLS

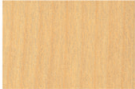

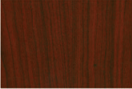

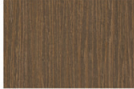

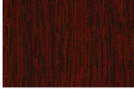

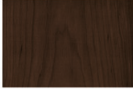

Indiana Furniture controls are selected to achieve the most comfortable and ease of operation in today's market. Exceeding the strictest ANSI/BIFMA engineering standards, the slim profile mechanisms feature smooth and noiseless operation. Tension control is easily achieved by adjusting the control located within easy reach below the seat and near the front of the mechanism. Selected series offer the swivel-tilt, the knee-tilt, or syncro-tilt controls.

Both the knee-tilt and syncro-tilt options offer variable tension mechanisms to allow for different body sizes and weights and minimal rise of the seat's front edge. This allows the user's feet to remain planted while reclining to a relaxing position. The syncro-tilt mechanism, however, enhances these benefits by taking full advantage of a synchronized seat and back tilting movement.

Knee-Tilt Control: Specify "KT" and add \$187 list.

CAL 133 CERTIFICATION

California Technical Bulletin 133 (TB 133 or CAL 133) is a composite fire test for fully-assembled seating manufactured for use in certain public buildings. As such, the certification is specific to the fabric that is used in conjunction with the frame and the barrier. Many Indiana Furniture seating products, in combination with some of our standard fabrics, can be manufactured to meet the requirements for certification. Depending on the frame style, a fire-retardant barrier or fire-retardant foam will be incorporated in the chair construction to provide the best opportunity for a successful CAL 133 burn test.

The cost of the test is \$724 (net) which includes the test, freight to the test facility and the fully-assembled test sample. Once payment has been made, please allow approximately 6 - 8 weeks for the production of the chair and the completion of the test. Once we receive the successful certification, the order may be placed allowing for 1 week extra leadtime using the "CAL" prefix on the model number with an up-charge of \$109 list per chair. Please contact Customer Service at 800.422.5727 to order the test.

If you do not need the actual Certification, but wish to have the chairs manufactured to meet the regulation, we can upholster the chair using the fire-retardant components at the \$109 list up-charge per chair. Please order the appropriate frame allowing for 1 week extra leadtime, using the "CAL" prefix in front of the model number.

Please note that if you wish to have Certification on a COM material, Indiana Furniture must approve the fabric according to the COM policy as well.

COM - CUSTOMER'S OWN MATERIAL

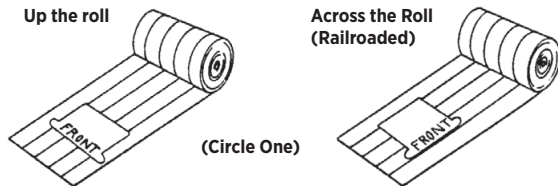

All Indiana Furniture seating is available with material furnished by the customer. Refer to grade 1 for list prices. Refer to individual model number for COM yardage requirements. The listed COM yardage requirement is based on the use of non-directional fabric 54" wide for a quantity of one chair. Extra fabric is required to match any pattern with a repeat, either vertically or horizontally, and from chair to chair. Use the chart below as a guide to add to plain COM yardage requirements listed in the price list.

For multiple chair quantities and pattern matching, contact customer service to optimize the yardage per chair at 800-422-5727.

Fabric	Plain	2"- 14"	15"- 27"	28"- 36"
Width	Fabric	Repeat	Repeat	Repeat
54"	0%	10%	25%	30%

Note: Fabrics less than 54" wide will not be accepted.

Due to the upholstering process used by Indiana Furniture, some COM fabrics are considered directional that may not be considered directional by the fabric supplier. All Fabric COM's are cut "up the roll" and all vinyls are cut "across the roll" by Indiana Furniture unless otherwise directed by the customer (see below). All directional fabrics on Indiana Furniture frames match both vertically and horizontally. If you do not desire repeat match, please specify on order.

Note: Directional covers, such as stripes, patterns and plaids may not meet your satisfaction due to contoured shapes and tufting of some models. Should you require such a selection, we will upholster as perfect as possible, but such orders are not subject to return. If in doubt, contact your Indiana Furniture Customer Service Representative prior to placing the order.

COM/COL Ordering Instructions

Fill out the form below and attach sample according to instructions on reverse side of form. **COM's must meet and include written confirmation from the supplier verifying CALTB 117-2013 compliance.** Failure to complete this form and supply samples will delay the scheduling of the purchase order. TABLE TOPS

The wood veneer tops are of select grade sliced Black Walnut, Cherry, Maple and composite veneers for maximum grain and color consistency. These veneers are book-matched, slip-matched, or quarter cut to assure each veneer face offers the proper balance and consistency. Tops are $\frac{3}{4}$ " with veneer edge bands. Veneer tops feature Ultra-Violet finish on all exposed surfaces by utilizing roll-coat UV technology.

The laminate top surfaces offer choices that provide a transitional and contemporary look. Laminate tops are $\frac{3}{4}$ " with 1 mm PVC edge bands.

Bailey Tables offer two edge styles.

BASES

Bases for both seating and tables are manufactured using steel frames with a chrome finish.

SEATING

High grade foam 2 $\frac{1}{4}$ " thick in the seat and 1" - 1 $\frac{1}{4}$ " thick in the tapered back.
