

**PROJECT NUMBER 39709
AMENDMENT # 3 TO
MASTER SOFTWARE LICENSE AND SERVICES AGREEMENT
BETWEEN
INTERGRAPH CORPORATION
AND
MISSISSIPPI DEPARTMENT OF INFORMATION TECHNOLOGY SERVICES
AS CONTRACTING AGENT FOR THE
AGENCIES AND INSTITUTIONS OF THE STATE OF MISSISSIPPI**

This document (hereinafter referred to as "Amendment Number 3") shall serve to amend the original Master Software License and Services Agreement for Off-the-Shelf Software executed on June 4, 2007 and amended on May 31, 2012 and September 3, 2012 (hereinafter referred to as "Master Agreement"), between Intergraph Corporation, a Delaware corporation having its principal place of business at 19 Interpro Road, Madison, Alabama 35749 (hereinafter referred to as "Contractor"), and the Mississippi Department of Information Technology Services having its principal place of business at 3771 Eastwood Drive, Jackson, Mississippi 39211 (hereinafter referred to as "ITS"), as contracting agent for the governmental agencies, governing authorities, and educational institutions of the State of Mississippi (hereinafter referred to as "Customer"). ITS and Customer are sometimes collectively referred to herein as "State".

NOW THEREFORE, ITS and Contractor, by entering into this Amendment Number 3, mutually agree that the following provisions shall modify the aforementioned Master Agreement:

- 1) Article 1 "Term of Agreement" shall be and hereby is revised so as to extend the term of this Master Agreement beginning January 1, 2013, and continuing through the close of business on December 31, 2018.
- 2) Exhibit B "Intergraph Pricing for Master Agreement" shall be and hereby is deleted and replaced by the new Exhibit B-1 attached to this Amendment Number 3. All references in the Master Agreement to Exhibit B shall be and hereby are replaced with "Exhibit B-1".
- 3) The third sentence of Article 8.4 of "Delivery, Risk of Loss, Installation, and Acceptance" shall be and hereby is revised to read: "Notification of defects shall be provided via email to Michael Patton at Michael.patton@intergraph.com."
- 4) The last sentence of Article 9.5 of "Scope of License for Off-the-Shelf Software" shall be and hereby is revised to read: "Such Customer proprietary software shall remain the exclusive property of the Customer *and used at the Customer's own risk.*"

5) A new subsection shall be added to Article 10 "Warranties" and shall read as follows:
"10.9 Contractor shall have no breach of warranty obligations to Customer under this Article for any warranty breach resulting directly from: (a) unauthorized use or misuse of a warranted item; or (b) unauthorized modification of a warranted item."

6) Article 11.2(c) of "Infringement Indemnification" shall be and hereby is revised to read:
"(c) request Customer to return the infringing items to Contractor and Contractor shall *issue a mutually agreed upon pro-rata refund of the fees previously paid by Customer for the Products that the Customer may no longer use.*"

7) Article 41.2 of "Software Maintenance" shall be and hereby is deleted and replaced with the following:

"41.2 Standard Support: Standard Support includes help desk support, updates, and Knowledge Base as set forth below.

(A) Help Desk Support: Help desk support encompasses out-of-the-box functionality support via the Help Desk (telephone or eService via Intergraph's Customer Support Web Site where available at <http://esupport.intergraph.com>). Unlimited telephone support for all priority levels of Software errors is available 7:00 A.M. to 6:00 P.M. (Central Time) Monday through Friday, excluding holidays observed by Contractor.

(B) Updates: Contractor will provide Customer access to all available updates of the Software products. Contractor will notify Customer when updates are made available for any Software products for which Service has been purchased, by way of posting notices of such to the "Support Notices and Announcements" section of the Customer Support Web Site or applicable local support website or via direct notification by Contractor. If applicable, Customer may also register on the Customer Support Web Site or applicable local support website to automatically receive email notifications when a new release of a Software product is made available by Contractor. Updates are shipped to Customer upon Customer request. Contractor is not obligated to produce any updates.

(C) Knowledge Base: Customer has access twenty-four (24) hours a day, seven (7) days a week to problem Knowledge Base, an on-line self-help tool.

Premium Support: Premium Support includes all of the features set forth above for Standard Support. Additionally, when the Software error is considered to be critical (meaning production is down), then telephone support is also available after-hours and on Contractor-observed holidays. Support Services are limited to the specific Software products listed on the Contractor's Quote and functioning on the appropriate Contractor-supported operating system. It is understood that Services are only available for the current version and the one version prior to the current version of a particular Software product."

8) Article 41.3 of "Software Maintenance" shall be and hereby is deleted and replaced with the following:

“41.3 Excluded Services: Software support for the following are outside the scope of Software Maintenance Services and may be available at an additional charge: (a) system installation (hardware/software platforms); (b) network configuration support for third party products not sold to the Customer by Contractor; (c) configuration or customization of covered products to Customer requirements; (d) system-level tuning and optimization and system administration support; (e) programming or Software development; (f) training; (g) services required because the Authorized Contact is not available; (h) on-site services; (i) services outside the regular business hours associated with the applicable level of service; (j) services required due to unauthorized modifications of covered products by Customer; (k) services required due to use other than in the ordinary manner intended for the covered products, or use in a manner that contravenes the terms hereunder, or Customer’s disregard of the installation and operating instructions according to the documentation provided with the covered products; (l) services required due to failure of software or hardware not supplied by Contractor and not covered in this Agreement; (m) services required due to Customer’s use of hardware or software that does not meet Contractor specifications; (n) services required due to software or portions thereof that were incorrectly installed or configured by Customer, or used in an environment inconsistent with the support environment specified by Contractor, or used with peripherals, operational equipment or accessories not conforming to Contractor’s specifications.”

9) The first sentence of Article 41.4 of “Software Maintenance” shall be and hereby is revised to read as follows: “*Ninety (90)* days prior to the expiration of the initial Software maintenance period or any renewal term thereof, Contractor shall notify the Customer in writing of the impending expiration and Customer shall have thirty (30) days in which to notify Contractor of its intentions to either renew or cancel any further Software maintenance.”

10) Article 44 “Most Favored Nations” shall be and hereby is revised to read as follows: “The license fees, prices, warranties, terms and conditions granted by Contractor to Customer must be comparable to or better than those offered by Contractor to other similarly situated customers of Contractor who contract for similar software and services under substantially similar terms or conditions to those set forth in this Master Agreement.”

All other terms and conditions of the Agreement executed on June 4, 2007 and amended on May 31, 2012 and September 3, 2012, shall remain unchanged and in full force and effect.

NOTE #2

Support for the OS/OW solutions is provided via IT-SAFE Hours, instead of as a Fixed Annual Fee. IT-SAFE hours will be added to the maintenance contract in support of the OS/OW products at the rate of 175 hours each for the Routing Engine and Restriction Manager and 60 hours for the Virtis Integration engine. IT-SAFE hours in support of OS/OW solutions are charged at the Lead Developer labor rate in the Supplemental Services Schedule.
