

A photograph of a modern office environment featuring cubicles with wood-grain and white panels. Each cubicle contains a desk with a computer monitor, keyboard, and an ergonomic office chair. The floor is covered in a patterned carpet tile, and the ceiling has recessed lighting. The entire image is overlaid with a semi-transparent blue filter.

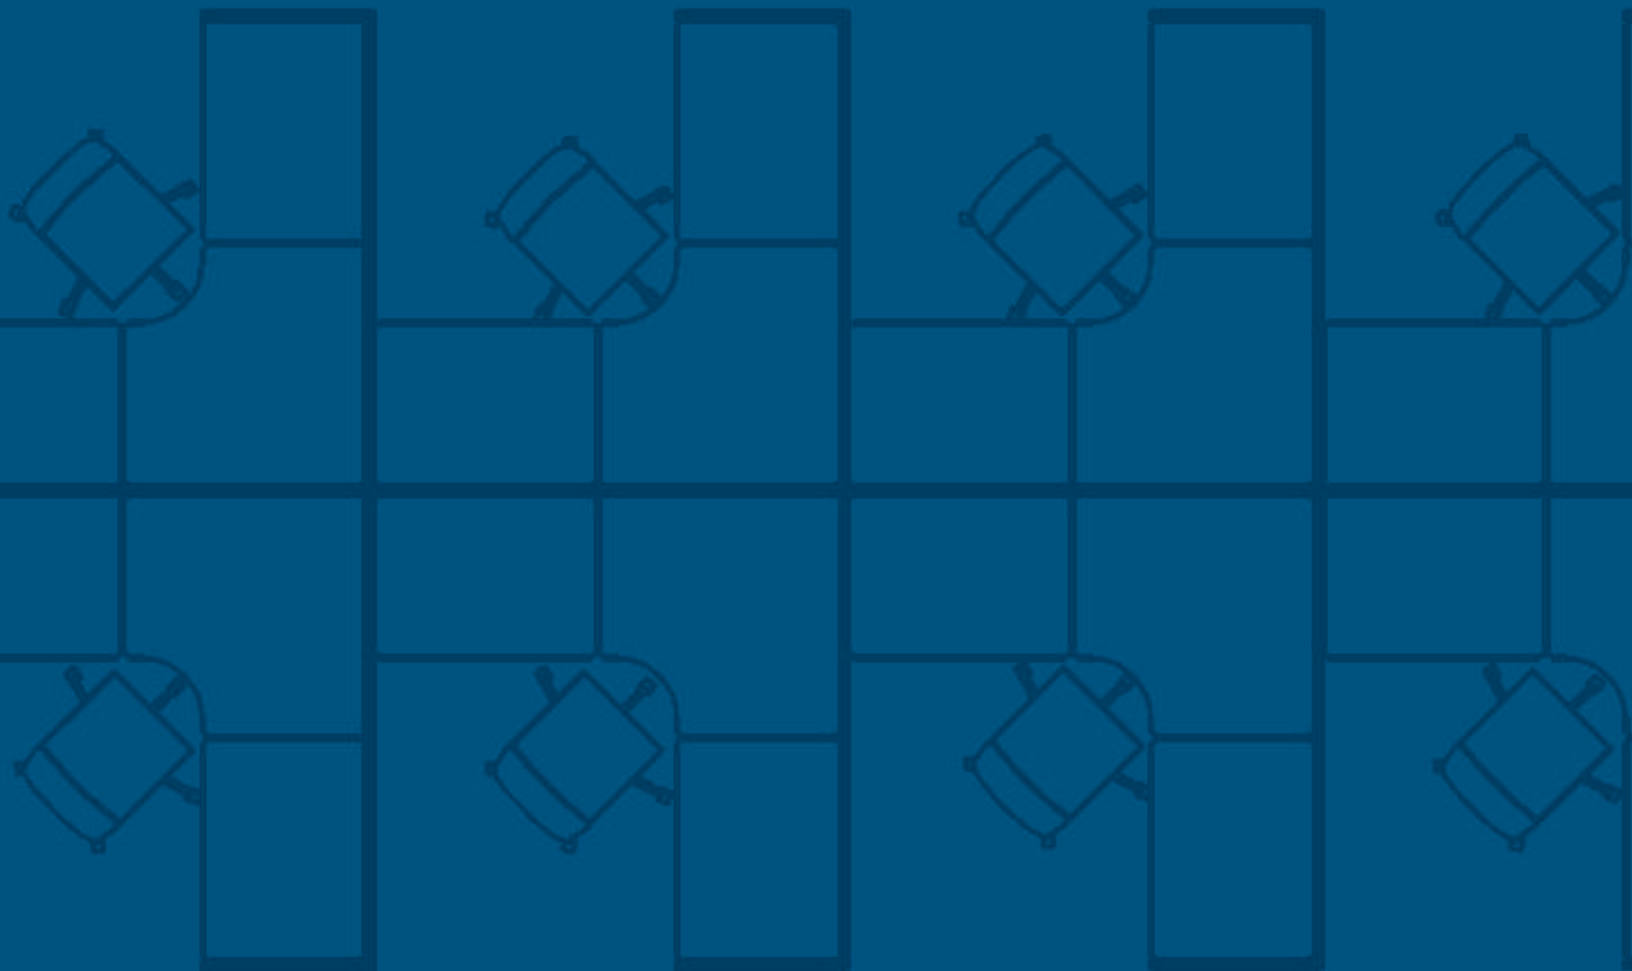

# OFFICE FURNITURE

# ADAPTIVE

# TAILORED

# TESTED

Work and workspaces are routinely adapting to current trends and industry changes. With diverse requests from users and departments, there is no longer a one size fits all solution for workspaces, furniture, or even technology. Today's offices need an integrated blend of private workspaces, collaboration spaces, high-density zones and touchdown locations. Without knowing what the future work environment will look like, furniture that is adaptable is key in adjusting to new styles and trends. Interior Concepts answers these demands with office furniture that is adaptive, tailored, and tested.

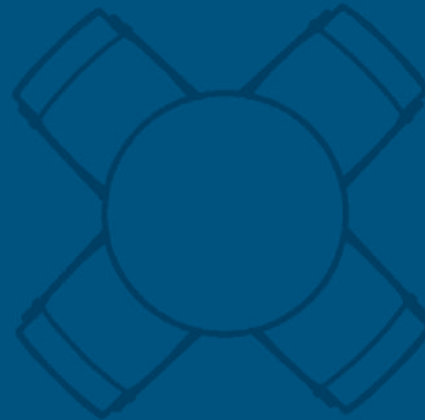

**ADAPTIVE.** We partner with you to create a work environment that is attractive, promotes productivity, and assists you in accomplishing your business goals. We approach each project individually and deliver made-to-order turnkey furniture solutions. Our one of a kind adaptive furniture system is built to the inch, with the ability to work around challenging building features for the perfect fit, maximizing every square foot space.

**TAILORED & TESTED.** We're here to make your job easier and your workspaces better — and we've been doing exactly that for more than 25 years. From initial design to final details, we do whatever it takes to make sure your project goes as smoothly as possible. The process begins with our design specialists listening closely to your needs and specific issues. After developing a general layout we then conduct an online design session with

Outfitted with our Chase Wire Management System, stations provide both easy power access and the ability to hide cords and cables for a polished look. Offices are more than just workstations though. From bookcases and credenzas to tables and sit-to-stand desks, Interior Concepts delivers a complete package. Discover the best furniture design and purchasing experience in the industry — one focused entirely on you!

you. Furniture appearance and layout are refined and changed in real time — allowing each environment to become an effective and engaging solution tailored to its unique work demands. Your furniture is then made in the USA, delivered and assembled by our professional installers, and backed by a limited lifetime warranty. We stand by our people and our products and know that you will come to trust us too.

# solutions that fit.

# OFFICE DESKS

Whether located in a private office or open office area, administrative personnel are often the backbone of workplace efficiency and operations. Provide staff with the right office desk and tools to help facilitate day to day tasks, productivity, all while increasing job satisfaction. We work hand-in-hand with you to maximize the use of available office space addressing user needs and task requirements.

Choose from a variety of worksurface shapes, panel heights and storage options to fine tune each desk. Additional ergonomic accessories from height adjustable tops, monitor arms, and worksurface power round out the details of the desk. Finalize your design by selecting from a wide variety of finish choices to create a modern or classic look perfect for your space.

1 Overhead storage doors can be outfitted with acrylic, laminate, or markerboard inserts. Hinged style doors are also available.

2 Tables and worksurface overhangs add convenient meeting spaces for smaller group discussions without the need to relocate to a separate room.

3 Storage for supplies and personal items can be utilized through additional shelving or valet cabinets and wardrobes

4 Existing buildings often have obstacles or unusual features that are easy accommodated with our 1" increment panel construction

# WORKSTATIONS

Different teams have different needs - high walls, low walls, or no walls; space for four member teams or a whole department. Keeping all of these aspects in mind, we have many options to tackle each team's needs and assist with developing flexible solutions. Add storage areas to hold materials and resources shared by the group or a collaborative zone for users to come together to discuss ideas allowing your team thrive in their environment.

Workstations in straight runs function well for users who may not need a large cubicles, but still need dedicated touchdown space. Stations can be customized in dimensions, storage, and adjusted to fit privacy and noise level concerns.

# RECEPTION DESKS

First impressions matter, so put your best foot forward with administrative furniture that is as practical as it is attractive. With the same features as many of our other desks, integrated storage, ergonomics, and functionality, receptionists will have a desk that is unique to their needs for their daily tasks. Set the stage for successful interactions by adding a transaction counter and an ADA accessible worksurface.

Choose from a standard design and modify it to fit your needs, or get creative with your own unique design to meet challenging requirements. Endless configurations will result in a perfect fit for your space and staff. Whatever you dream up our designers will work with you to bring it to life!
