Knoll and Sustainable Design

Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer's Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT® Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.

All Knoll Office Seating is GREENGUARD and GREENGUARD Gold certified.

All KnollExtra® products are GREENGUARD certified.

Visit GREENGUARD.org for more information and to find printable certificates for Knoll Office Seating that can be used for verification and LEED® submission.

GREENGUARD provides the only guide to certified low-emitting interior products and building materials. Its goal is to help building owners and managers, architects, interior designers and product specifiers build and furnish healthier offices, hospitals, schools and homes by providing a register of tested and certified low-emitting products and materials.

GREENGUARD certification is recognized by the U.S. Green Building Council's LEED® Program. Air Quality Science, an independent indoor air quality laboratory, tests products submitted for certification using stringent environmental chamber testing protocols and current indoor air quality standard. Certification is administered by the GREENGUARD Environmental Institute (GEI), an industry-independent, non-profit organization.

GREENGUARD Gold certification complies with the State of California's Department of Health Services Standard Practice (CA Section 01350) for testing chemical emissions from building products used in schools, offices and other sensitive environments. Certified products can contribute to achieving credits in the CHPS Best Practices Manual for K-12 schools, the LEED® Green Building Rating System, Green Guide for Healthcare™, NAHB Green Building Guidelines, Green Globes, Regreen and numerous other local authorities' green building codes.

Knoll Office Seating and KnollExtra® products can contribute to achieving LEED® credits. GREENGUARD-tested and certified office furniture is required for Credit 4.5 in the LEED-CI Indoor Environmental Quality section.

GREENGUARD Certification Program

- Internationally recognized for evaluating product emissions and certifying building materials, furnishings, finishes and cleaning products and processes that meet stringent indoor air quality criteria defined by GEI.
- Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing testing and verification.
- Certification confirms a manufacturer's environmental responsibility, and signifies their environmental achievements through independent, third-party testing and verification.
- GREENGUARD Certified products are recommended by leading sustainable building programs, including:
 - U.S Green Building Council's (USGBC) LEED Rating System,
 - National Association of Home Builders (NAHB) Green Building Guidelines,
 - Green Guide for Health Care (GGHC),
 - Collaborative for High Performance Schools (CHPS) Best Practices Manual,
 - New York City Department of Design and Construction Sustainable Design Specifications, among others.

Use the Following Addresses

If you would like to send a standard lead time order to our order entry department, please use the following address:

For North American orders:
Knoll, Inc.
1235 Water Street
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1788
Tel: 800 343-KNOLL (5665)

All accepted orders will be confirmed in writing on the Knoll standard order confirmation form.

For More Information

For complete Knoll Selling Policy and warranty information, please refer to page 117 of this price list.

For additional information on Knoll Office Seating, contact your Knoll representative, a Knoll dealer, or telephone Customer Services at 800 343-KNOLL (5665).

Shipping Method

All Generation by Knoll chairs, ReGeneration by Knoll chairs, Remix chairs, EWC Pro task, and Chadwick task chairs in this price list will ship boxed in two pieces.

If you would like a fully assembled, blanket wrapped Generation by Knoll chair, ReGeneration by Knoll chair, Remix chair, EWC Pro task chair, or Chadwick task chair, please consult the Office Seating Standard Specials price list for pattern numbers and associated upcharges.

Control	Illustration	Description	Application
Weight-Compensated Control with Synchronized Recline		360° swivel; uses body weight in seat as counterbalance for recline resistance, the chair is perfectly adjusted by sitting in it — no adjustment necessary; promotes movement and balance; preference control accommodates a wider range of users.	Life task chairs Generation by Knoll work chairs ReGeneration by Knoll work chairs
Synchronized Spring Tilt Control		360° swivel; back and seat recline in one synchronized movement to support the user's back throughout the recline. As back reclines, the seat drops down slightly, relieving pressure points.	Chadwick task chairs (tilt stop and basic controls) EWC Pro task chairs Remix chairs (Work and High Back models) k. task

Fabric Application

The application of KnollTextiles fabrics on Knoll Office Seating provides the broadest and most exciting selection of standard fabrics in the contract furniture industry.

Developed in collaboration with leading designers, KnollTextiles upholstery harmonizes pattern, color and texture in the Modernist tradition. Choose from a wide selection of fabrics that are appropriate for corporate, hospitality, and healthcare use, ranging from natural fibers such as wool and cotton, to high performance options like Crypton® fabrics. Visit KnollTextiles.com to search the online database.

Fabrics are grouped into categories referred to as “grades.” The selection of approved fabrics varies by chair.

Always check with KnollTextiles for textile changes or new applications on seating.

Visit KnollTextiles.com and click on “Textile Matrices” to find the link to the most up-to-date Seating Approval Matrix.

Performance Upholstery Fabrics

KnollTextiles offers a wide selection of high durability and high performance fabric options. For excellent stain resistance, choose from upholstery products with a Nano-Tex® finish. For a complete moisture barrier, so that nothing penetrates the fabric into the cushion, you can select from among Crypton® stain, moisture, odor and bacteria resistant fabrics. In addition, there are bleach-cleanable upholstery products, such as vinyl and solution-dyed nylon. Visit KnollTextiles.com and click on “Upholstery” or “Technical Documents” for details.

Nano-Tex® and Teflon®: Both Nano-Tex and Teflon provide additional performance—spill and stain protection—and come stocked on a number of fabrics. These finishes can also be applied to dozens of KnollTextiles fabrics for an upcharge and additional lead time. For a moisture barrier, we also offer Crypton and Nano-Tex with DuraBlock™.

Crypton®: KnollTextiles stocks over a dozen patterns with Crypton. It has a moisture barrier plus stain, odor and bacteria resistance, to protect the fabric and the cushion.

Nano-Tex® with DuraBlock™:

Nano-Tex with DuraBlock provides a durable moisture barrier with a soil and stain resistant topical treatment. Even under high pressure, no liquid can travel through the treatment into the cushion. This finish option is stocked on some products and can be added to many existing KnollTextiles upholstery fabrics for an additional upcharge and lead time.

Environmental Options

KnollTextiles offers dozens of upholstery patterns with recycled content or natural fiber. Included in the line is a selection of 100% recycled upholstery fabrics that have no added backing or finish. Visit KnollTextiles.com and click on “Environmental Fabrics” for details.

California Technical Bulletin 133 (Cal 133)

Cal 133 is a flammability test procedure for seating furniture for use in public occupancies. Testing must be performed on the designated chair and textile together. Component data alone cannot be used to certify compliance with the regulation. Under Cal 133, one cannot assume that seating or textiles that have passed individually will pass together.

Cal 133 (cont.)

Many Knoll Office Seating products can be specified to comply with Cal 133. Applicable upcharge and specification rules are listed on the respective price list page. Chadwick, MultiGeneration by Knoll (non-upholstered) and Toboggan are Cal 133 approved standard. Please refer to the textile matrix for pre-approved Cal 133 upholstery options for the following chairs:

Sapper
Life
Generation by Knoll
(dark finish only)
ReGeneration by Knoll
Remix
RPM
Essentials Work Chairs
Moment
MultiGeneration by Knoll
(upholstered)

If any other KnollTextiles fabric or COM is desired, Knoll will test the compliance of the specified fabric on the specified chair. The cost of the test will be the price of the chair in the specified fabric plus \$520. The additional fee is to cover the cost of the test. Please see the respective price list page for yardage requirements. The process time for test results is 4-8 weeks. Contact your Knoll customer service representative at 800 343-KNOLL (5665) for further test processing instructions.

	Soil & Stain Resistance		Moisture Barrier Plus Soil & Stain Resistance	
	Teflon®	Nano-Tex®	Crypton®	Nano-Tex® with DuraBlock™
Soil and Stain Resistant Topical Treatment	Yes (Topical)	Yes (Immersion)	Yes	Yes
Water Repellant Finish	No	Yes	Yes	Yes
Moisture Resistant Backing/Barrier	No	No	Yes *	Yes
Breathable	Yes	Yes	Yes	Yes
Microbial Resistant	No	Yes	Yes	Yes
Fabrics Stocked with Finish	Some	Some	Yes	No
Minimum Yardage on Non-Stocked Fabrics	5	5	n/a	5

***Please Note:** The moisture resistant backing/barrier on Crypton fabrics is compromised in the Cal 133 lamination process and is therefore not covered under warranty when specified as Cal 133.

Knoll is pleased to cooperate with Customer's Own Material (COM) or Customer's Own Leather (COL) selections after they have been approved by Knoll.

Please refer to the table below for COM process overview. See price list pages for specific chair information. For additional information see Customer's Own Material section in the Selling Policy.

Seating	Pre-Approval				Application Testing

Cal 133 COM Process Overview

If COM is desired, the fire barrier must be attached when fabric arrives at Knoll. Intek F187 fire barrier is recommended. Knoll will test the compliance of the specified fabric on the specified chair. The cost of the test will include the price of the chair and COM fabric plus \$520. The fee is to cover the cost of the test. Please see respective price list page for yardage requirement. The process time for test results is 4-8 weeks. Contact your Knoll Customer Service Representative at 800-343-KNOLL (5665) for further test processing instructions.

For the ultimate in comfort, durability, and prestige, many Knoll Office Seating products can be upholstered in Spinneybeck leathers.

Spinneybeck leathers are made from the top 2% of the world's finest hides, inspected numerous times during production.

After tanning, all Spinneybeck leathers are drum-dyed, a time-consuming procedure which ensures color penetration throughout the hide. Then each hide is finished in the manner which will best bring out its individual character.

Spinneybeck leathers are all full-grain aniline drum-dyed products imported from Italy.

The following Spinneybeck leathers are approved for application on Knoll Office Seating products. Leathers are grouped into five price categories referred to as "grades." The selection of approved leathers varies by product. Please refer to the pricing page for each product line for more information.

Square footage requirements for Customer's Own Leather (COL) are listed on each chair's pricing page. Please refer to COM Seating Process Overview for further information regarding COL.

For further information, call Spinneybeck at 1 800 482-7777.

Grades	Characteristics
T Vicenza	Finished cowhide, corrected grain that is slightly raised.
U Volo	Finished cowhide, corrected grain, slightly raised grain texture.
V Acqua Andes Embossed Tipped España Hand Tipped Maremma Velluto Pelle	Water-repellent finished cowhide, corrected grain, slightly raised grain texture. Slightly pronounced grain, finished cowhide and enhanced grain. Corrected grain, aniline dyed, two-tone, heavily finished leathers breathable protective finish. Smooth, tight grain cowhide; breathable, protective finish, enhanced grain. Two-toned leather, lightly finished cowhide, pronounced pebble grain texture. Full grain textured suede with impregnated soil-resistant treatment. Slightly pronounced grain, finished cowhide and enhanced grain.
W Alaska Amazon Antique Derby Forte Lucente Sabrina	Pearlized-iridescent protective finish cowhide, full grain with smooth texture. Mid-weight, full grain cowhide; colors of the Amazonian jungle, raised grain texture. Smooth tight grain cowhide, lightly antiqued to produce an elegant patina, enhanced grain. Combination-tanned cowhide; full grain, lightly finished and raised grain texture. High performance, full grain leather with slightly pronounced grain texture. Smooth, very tight grain cowhide; subtle sheen; light casein finish. Smooth, tight and full grain cowhide with a breathable protective finish.
X Ducale Ducale Velour	Embossed shrunken grain cowhide with protective finish, full grain. Full grain-sueded cowhide, embossed shrunken grain, scotch-guarded.
Y Capri Cervo Copenhagen Distressed Lucca Marissa Portofino Riva Saddle	Chrome-free, light protective finish, full grain cowhide. Full aniline, cowhide, pronounced grain texture, extremely soft and supple hand. Full aniline, 100% vegetable tanned leather, full grain. Aniline-dyed, paraffin wax final ironing process with a smooth finish, and full grain. Grain sueded, aniline dyed, velvety suede surface. Grain-sueded cowhide, smooth suede grain with soil resistant treatment. Full grain, lightly finished cowhide with a pronounced raised texture. Slightly pronounced grain texture, water-repellent, full grain. Full aniline, smooth very tight grain surface takes on a rich patina over time.

Back Suspension Fabric with No Seat Topper Life Back Suspension Fabric (BSF) is required for every chair and comes in 14 updated colors including warm and cool neutrals and vibrant, saturated colors.			
Back Suspension Fabric with Upholstered Seat Topper You may choose to add a seat topper. In addition to a wide range of approved KnollTextiles fabrics and Spinneybeck leathers, an exclusive Life Knitted Seat Topper (KST) is available in a palette to match the Life BSF. Life KST is base grade and included in the basic model pricing.			
Back Suspension Fabric with Upholstered Seat and Back Toppers Change the look of Life by adding an upholstered back topper. A wide range of approved KnollTextiles fabrics and Spinneybeck leathers are available as back toppers. Life KST is not available as a back topper. There is no base grade back topper.			
Construction			
COM/COL Approval Procedure Prior to order placement a sample* of the actual COM/COL must be submitted to Knoll East Greenville, with completed Knoll COM/COL Approval Request Form. Even after such preliminary approval, Knoll reserves the right to reject COM, including, if necessary, the item intended for use with COM, if Knoll considers the customer-supplied material inadequate for any reason. When specifying suede and shrunken cowhide, add 10% to the square footage requirement. When specifying calfskin, add 15% to the square footage requirement. COM is graded at Life KST base grade and COL is grade U. *Sample Requirement: 8" x 8" minimum memo sample if solid; if COM has a repeat, the sample must be large enough to show the repeat. Call Customer Service at 800-343-5665 to obtain a copy of the COM/COL Approval Request Form.			
Cleaning Note: Life BSF is cleaning code W, meaning water-based cleaning agents or foam may be used. Life KST is cleaning code W-S, meaning water-based cleaning agents and foam or mild water-free solvents may be used. Both BSF and KST can be cleaned with low environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles.com for further details on cleaning codes.			
Back: Glass filled nylon frame. Polyester multi-filament yarn with co-polymer polyester elastomeric knit back suspension fabric. Upholstery toppers: High density urethane foam material ¾" foam - back thickness 1 ¾" foam - seat thickness 2 ¼" foam - ultra seat thickness Flexing Seat Pan: Glass filled nylon seat structure. Fixed Aluminum Arms: Aluminum armpost with soft integrally colored self-skinning urethane pad and integrally molded thermoplastic glass-filled nylon support. Height Adjustable and High Performance Arms: Aluminum armpost with soft integrally colored self-skinning urethane pad and integrally molded thermoplastic glass-filled nylon support.			
Black and Grey Plastic Base: Glass filled nylon. Polished and painted matte aluminum base: Aluminum Optional Lumbar: Slow recovery urethane foam with KnollTextiles Vibe fabric cover. Attaches with neodymium magnets in TPU back frame. Casters: Nylon 6 hard caster. Nylon 6 soft caster with urethane overmolding. Optional Headrest: Soft intergrally colored self-skinning urethane pad and integrally molded thermoplastic glass-filled nylon support.			

Visual impression and scale: Doesn't dominate the look of the work environment, it complements it. Translucent back, sculpted mechanism and thin profile integrate Life into the landscape. Generous scale and features accommodate all size users. Synchronized recline with auto-balanced tension: Utilizes user's body weight for resistance and recline. Allows for constant sightline — no need to refocus. Promotes movement and balance. Preference control accommodates a wider range of users. Dynamic seat pan with forward flex: Unique cut-out pattern with ribbed understructure provides dynamic movement and structural stability. Cradles and accommodates ischials (sit bones) without pressure points. Automatic flex responds to user's every move. Flex front automatically supports perching and enables a balanced posture. Flex front includes waterfall edge (gradual radius at the front edge that does not cause pressure under the knee). Ribs prevent "hammocking" or sagging and allow for easier movement. Back flex: The back frame is also a flexible plane like the seat that moves with you as you recline in the chair. Life Back Suspension Fabric (BSF): Exclusive elastomeric knit has built in lumbar support and is available in 14 color options. Has a soft feel that is not harsh to skin or clothing. Arms: Soft armpads alleviate pressure points. Types available: fixed, height adjustable, high performance (includes height adjustment and armpad positioning). Retrofittable or changeable. High performance arms: One-hand operation. Armposts are set toward the rear of the seat for a better fit. Soft armpads float in an orbital motion with locked stops. A great deal of adjustment in a surprisingly slim package.		
Optional lumbar attachment: Made of slow recovery foam, it magnetically attaches anywhere on the Life Back Suspension Fabric (BSF), and is covered in Vibe by KnollTextiles. Low profile base and casters: Feet can rest on the base comfortably. Low profile enables easier foot movement. Caster ribs absorb energy, flex and spread the static load for easier rolling.		
Controls: Adjustable from the seated position. Easy, obvious and labeled. Automated where possible. Environmental: SMaRT® Sustainable Gold certified. Life was the first product in the industry to be SMaRT® certified. SMaRT® Consensus Sustainable Product Standard is a comprehensive, transparent, sustainable product standard that measures a product's environmental, economic and social benefits over its life and throughout its global supply chain, from raw materials through reclamation or re-use. Life can contribute to achieving a LEED® Innovation in Design Credit.		
BIFMA level® 3 certified BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA's ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level® certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.		
GREENGUARD® certified. Life is GREENGUARD and GREENGUARD Gold certified and can contribute to achieving LEED® credits. Warranty: Life is warranted for 24-hour, 7 days a week, multi shift use; 12 years parts and labor to repair; 3 years seating upholstery, textiles and leathers, and finishes. See Knoll Selling Policy for further details, conditions and exclusions. Life Awards: Good Design Award, Chicago Athenaeum, 2003, USA NeoCon Gold, Best of NeoCon, Task Chair - Seating Design, June 2002, USA IINDEX/NeoCon, Sustainable Design Gold Award, 2002, Canada IINDEX/NeoCon, Seating Desk, Workstation Chair Gold Award, 2002, Canada FX Awards, Seating Product of the Year, 2002, UK FX Awards, Overall Interior Product of the Year, 2002, UK

AS/NZS 4438 : 1997 Level 6 (Australia, New Zealand structural and dimensional standard)
The Life chair has been tested and is approved for use by individuals weighing up to 300 pounds.

Life® Operating Instructions

Standard Features:

Synchronized recline with auto-balanced tension
No need to adjust tension. Automatic recline tension counter-balances your body weight, resulting in perfect balance as you recline.

Forward seat flex
No knobs or levers needed. Lean forward or perch toward the edge of the seat and Life's seat pan automatically adjusts to support your position.

Tension preference selector
To perfect the tension adjust the preference lever located at the back left of the chair while in the upright position.

Arm Options:

Fixed arms:
Non-adjustable.

Height Adjustable Arms:
Lift the lever on the outside of the armpad to adjust arm height.

Seat height adjustment
To raise or lower the height, lift the lever on the right side of the chair and adjust to the proper height.

High Performance Arms:
Lift the lever on the outside of the armpad to adjust arm height.

The armpads adjust in an orbital motion and lock into a fixed position by pressing the button on the inside of the pad. The armpads can be positioned to the front or back and in width.

Sliding seat depth adjustment
Using the same lever as the seat height, push down to slide the seat within the 4" seat depth range. Release the lever to lock the seat into position.

Lumbar Options:

Height Adjustable Lumbar
The lumbar support is held on to the chair with magnets for easy installation and a maximum range of adjustability.

To install the lumbar, separate the halves of the magnetic lumbar and place it in the desired position on your chair. Secure it by putting both halves back together around the back suspension fabric on the chair.

Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.

Note: Product contains magnets. Consult the lumbar hangtag for more information.

Upright tilt lock
To lock the seat in an upright position, push down the lever located on the left side of seat. Lift lever to unlock.

Optional Headrest:
Lift or lower the headrest itself to adjust the height. There are 12 levels of adjustment from the lowest to the highest point.

Generation by Knoll® Features and Operating Instructions

No Adjustment Necessary

Flex Back

Sit back and the Flex Back supports you and responds to your multidimensional movements.

Flex Top

Simply rest your arms comfortably over the top of the Flex Back.

Flex Seat

Sit in any position—forward or sideways—and the Flex Seat supports you with 270° of seat edge flex.

Dynamic Suspension control

The synchronized recline counterbalances your body weight for a smooth and effortless ride. Four independent flexors act as suspension devices that respond to your multidirectional movements—forward, backward and side-to-side.

Intuitive Adjustments (Standard)

Seat height

Lift the right front lever. Sit down to lower the seat or remove your weight to raise it. Release the lever to lock.

Seat depth

While seated, lift the left lever and slide the seat to the desired position. Release the lever to lock.

Tilt preference selector

Select the degree of recline movement for your preference and your task. Sit fully upright. Rotate the back right lever until it clicks into one of three positions—all the way back for the most movement, in the middle for less, or all the way forward for greater upright support.

Performance Options

Arm options

Cantilevered arm supports provide seated clearance for your legs and feature Continuous Lumbar, so your back is supported when side sitting.

Height adjustable arm

To adjust the height, lift the lever on the arm and lift the arm to disengage. Slide the arm to the desired position and release the lever to lock.

High performance arm

To adjust the height, lift the lever on the arm and lift the arm to disengage. Slide the arm to the desired position and release the lever to lock. Free float arm pads move easily in width and depth, and pivot.

Height adjustable lumbar

Grasp both sides of the lumbar support and slide it to the desired position.

CONSTRUCTION INFORMATION

Flex Back
Integrally colored, high performance elastomer and glass reinforced polyester structure

Fixed, height adjustable and high performance arms
Burnished cast aluminum and integrally colored, glass reinforced nylon supports with integrally colored, self skinning polyurethane arm pads

Flex Seat
High-resiliency molded urethane foam with textile cover and integrally colored, glass reinforced, impact modified nylon structure

Controls
A. Dynamic Suspension control
A solid state construction of integrally colored, high performance elastomer, glass reinforced polyester and cast zinc
B. Tilt preference selector
Integrally colored nylon and acetal; integrally colored, glass reinforced acetal
C. Seat depth adjustment mechanism
Steel plate with integrally colored polypropylene parts

Pneumatic cylinder
Steel

Base
Burnished cast aluminum or integrally colored, glass reinforced nylon; five star design

Hard casters and glides
Integrally colored nylon

Soft casters
Integrally colored nylon over molded with thermoplastic polyurethane

Height adjustable lumbar
Integrally colored, glass reinforced polycarbonate

CLEANING INSTRUCTIONS

Hard surfaces and Flex Back Net
General cleaning
Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. When an overall soiled conditioned has been reached, use a professional furniture cleaning service or call Knoll Field Service at 800-445-5045 with questions.

Healthcare cleaning
Generation’s hard surfaces and Flex Back Net successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities:

- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Cleanup undiluted 100% solution (pH 9.7)
- Wex-Cide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quaternary Germicide by Grand Technologies diluted ½ ounce to 1 gallon tap water (pH 8.1)
- Hydroxi Pro Concentrate 128 by Core Products diluted 1:8 ratio to tap water (pH 7.2)

In addition to the testing detailed above, Knoll has conducted internal testing of Virox 5 RTU cleaning solution on Generation structural parts with no adverse effects.

Generation Fabric
Cleaning code W-S: water or solvent based cleaning agent; can be cleaned with low environmental impact cleaning fluids, including CS-37 certified products. See KnollTextiles Price List for further details on cleaning codes.

ENVIRONMENTAL

SMaRT® Sustainable Platinum certified
SMaRT® Consensus Sustainable Product Standard is a comprehensive, transparent sustainable product standard that measures a product’s environmental, economic and social benefits over its life cycle and throughout its global supply chain, from raw materials extraction through use, reclamation or re-use. Generation can contribute to achieving a LEED® Innovation in Design credit for its SMaRT® certification.

BIFMA level® 3 certified BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level® certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

GREENGUARD certified
Generation is GREENGUARD and GREENGUARD Gold certified and can contribute to achieving LEED® credits.

Warranty:
Generation by Knoll is warranted for 12 years, 24-hour, 7 days a week, multi shift use including the Flex Back Net, structural and operational parts, controls, casters, and pneumatic cylinders; 12 years parts and labor to repair; 3 years upholstery, finishes and labor to repair. See Knoll Selling Policy for further details, conditions and exclusions.

ReGeneration by Knoll Performance Information

Synchronized recline ratio seat: back is 1° : 6°	High task footing measures 18" in diameter
High performance arm pads measure 8.2" long x 3.8" wide	Height adjustable arm pads measure 6.25" long x 3.4" wide
High performance arm pads adjust 4" in width (2" per arm), 1.75" in depth and pivot 30.5° (20° inward, 10.5° outward)	

Compliance: ANSI/BIFMA X5.1 : 2011 (U.S. structural standard)
ANSI/HFES 100-2007 (U.S. ergonomic standard)
BIFMA G1 : 2013 (U.S. ergonomic guidelines)
EN 1335-1 : 2000 (Europe ergonomic standard) for Flex Back armless work chair
AS/NXS 4438 : 1997 Level 6 (Australia, New Zealand structural and dimensional standard) for Flex Back armless work chair
California T.B. 117 (U.S. flammability standard for foam)
California T.B. 133 with approved FR textile (U.S. flammability standard for full chair)

The ReGeneration by Knoll work chair has been tested and is approved for use by individuals weighing up to 300 pounds.

ReGeneration by Knoll® Features and Operating Instructions

No Adjustment Necessary

Flex Back Net
Sit back and the Flex Back Net cradles your back, providing integral lumbar support. Optional fully upholstered back provides the additional comfort of foam and fabric over the Flex Back Net.

Slim profile back
The contoured frame provides continuous support, following the curves of your shoulders, back and lumbar.

Flex Seat
Sit in any position—forward, sideways or perched—and the Flex Seat supports you with 270° of seat edge flex.

Dynamic Suspension control
The synchronized recline counterbalances your body weight for a smooth and effortless ride. Four independent flexors act as suspension devices that respond to your multidirectional movements—forward, backward and side-to-side.

Intuitive Adjustments (Standard)

Seat height
Lift the right lever. Sit down to lower the seat or remove your weight to raise it. Release the lever to lock.

Seat depth
To adjust the seat depth while sitting on the chair, lift the left lever and slide the seat to the desired location. Release the lever to lock.

Recline resistance
Sit fully upright. Push the right lever backward for the full range of recline, or pull it forward for upright support.

Performance Options

Arm options
Set-back arm supports provide clearance for your legs and feature Continuous Lumbar, so your back is supported when side sitting.

Height adjustable arm
To adjust the height, push the button on the arm. Slide the arm to the desired position and release the button to lock.

High performance arm
To adjust the height, lift the lever on the arm. Slide the arm to the desired position and release the lever to lock. Free float arm pads easily move in width and depth and pivot.

Adjustable lumbar
(Flex Back Net model only)
Grasp the lever at the center of the outer back and slide it to the desired position.

CONSTRUCTION INFORMATION

Slim profile back support
Integrally colored, rapidly-renewable, high performance elastomer with postconsumer recycled content polyester structure; optional biobased urethane foam upholstery with glass reinforced nylon and ABS substrates and sewn textile cover

Adjustable arm supports
Integrally colored, glass reinforced, post consumer recycled content polyester structure

Arm pads
Integrally colored, self skinning polyurethane

Flex Seat
High-resiliency molded biobased foam with sewn textile cover and integrally colored, glass reinforced, impact modified nylon seat structure

Controls
A. Dynamic Suspension control
A solid state construction of integrally colored, high performance elastomer, glass reinforced and cast aluminum

B. Adjustment levers. Integrally colored, glass reinforced nylon

C. Seat depth adjustment plate
Integrally colored, glass reinforced, nylon

Pneumatic cylinder
Steel

Base
Integrally colored, glass reinforced nylon with cast zinc insert or polished, cast aluminum; five star design

Hard casters
Integrally colored nylon and steel

Soft casters
Integrally colored nylon over molded with polyurethane, and steel

Glides
Integrally colored nylon

Optional adjustable lumbar
Frosted clear polyester blend

Footring
Steel footring, aluminum die cast spokes and rubber fit ring

Generation Fabric
100% polyester; 100,000+ double rubs, Wyzenbeek method; Oeko-Tex certified for human safety; Greenguard Indoor Air Quality Certified®

CLEANING INSTRUCTIONS

Hard surfaces and Flex Back Net

General cleaning
Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. When an overall soiled conditioned has been reached, use a professional furniture cleaning service or call Knoll Field Service at 800-445-5045 with questions.

Healthcare cleaning
ReGeneration’s hard surfaces and Flex Back Net successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities:

- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Cleanup undiluted 100% solution (pH 9.7)
- Wexcide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quaternary Germicide by Grand Technologies diluted ½ ounce to 1 gallon tap water (pH 8.1)
- Hydroxi Pro Concentrate 128 by Core Products diluted 1:8 ratio to tap water (pH 7.2)

In addition to the testing detailed above, Knoll has conducted internal testing of Virox 5 RTU cleaning solution on ReGeneration structural parts with no adverse effects.

Generation Fabric
Fabric with cleaning codes W or W-S are designed to be cleaned with low environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles Price List for further details on cleaning codes.

ENVIRONMENTAL

SMaRT® Sustainable Platinum certified

* All measurements taken with BIFMA Chair Measuring Device using the Universal Measurement Procedure which has a measurement uncertainty of ± 5%

Stacking Instructions

Stacking chairs—with or without fixed arms and with or without casters—stack up to 6 units high on the floor. Stacked 6 high on the floor measures 41.8" high non-upholstered or 42.6" high upholstered.

To stack chairs, place the rear legs of the top chair in front of the rear legs of the bottom chair and set the top chair down on the bottom chair.

To transport a stack of chairs, use the MultiGeneration by Knoll dolly. Stacking chairs stack up to 10 units high on the dolly. The dolly stacked with 10 non-upholstered stacking chairs measures 53.5" high and with 10 upholstered seat stacking chairs, measures 55" high.

Non-upholstered stacking chairs

Non-upholstered stacking chairs feature bumpers to protect the seat finish of the chair below and prevent chairs from slipping. Do not stack non-upholstered chairs on upholstered chairs, as the bumpers could damage the upholstery of the chair below.

Upholstered stacking chairs

Upholstered stacking chairs feature a stacking shield on the underside of the seat to protect the upholstery of the chair below. Do not stack upholstered chairs on non-upholstered chairs, as the stacking shield could damage the seat finish of the chair below.

Hybrid chairs and stacking chairs with book basket and/or tablet arm

Hybrid chairs and stacking chairs with book basket and/or tablet arm do not stack.

MultiGeneration Stacking Chair Ganging Instructions

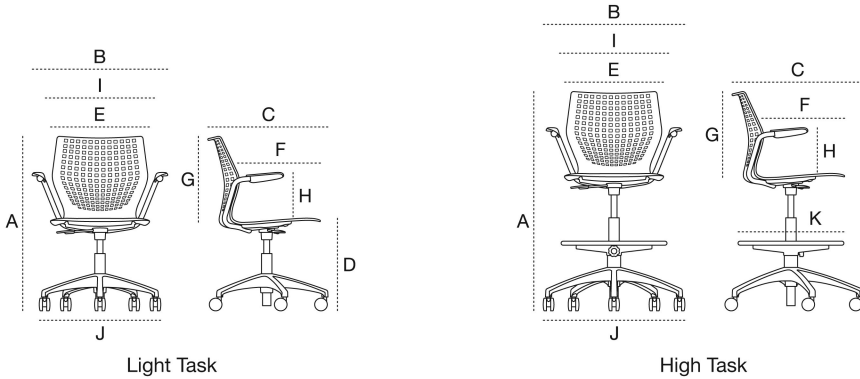

The MultiGeneration ganging clip adjoins the back legs of the armless stacking chairs. Position the chairs side-by-side and snap the ganging device onto the chair legs just above the top of the glides. Arm and armless chairs can be ganged if alternated, but armed chairs cannot be ganged side-by-side.

Compliance: ANSI / BIFMA X5.1 : 2011 (U.S. structural standard)
EN 15373 : 2007 (European structural standard)
GPD-6 (Canadian structural standard)
AS/NZS 4688 : 2000 (Australian/New Zealand structural and dimensional standard)
California T.B. 117 (U.S. flammability standard for foam)
California T.B. 133 standard for non-upholstered models, with approved FR textile for upholstered models (U.S. flammability standard for full chair)
MultiGeneration by Knoll has been tested and is approved for use by individuals weighing up to 300 lbs.

California T.B. 117 (U.S. flammability standard for foam)
California T.B. 133 standard for non-upholstered models, with approved FR textile for upholstered models (U.S. flammability standard for full chair)
MultiGeneration by Knoll has been tested and is approved for use by individuals weighing up to 300 lbs.

CONSTRUCTION INFORMATION

Shell:
Integrally colored, textured, glass reinforced nylon.

Stacking frame:
Powder coat over steel

Hybrid frame:
Powder coat or chrome over steel

Arm pads:
Integrally colored, textured thermoplastic polyurethane (TPU)

Bumpers (non-upholstered stacking):
Integrally colored, textured TPU

Stacking shield (upholstered stacking):
Clarified polypropylene copolymer

Dynamic Seat Structure (hybrid):
Fiber-reinforced polymer spring and nylon

Seat upholstery:
High resiliency molded biobased foam (7% biobased on average) with textile cover, plastic and steel

Generation Fabric (upholstered chairs):
100% polyester, Cal 117 compliant, exceeds 100,000+ double rubs, Wyzenbeck method.

Fasteners,hardware and lever:
Steel

Book basket:
Steel wire

Tablet arm:
Phenolic board covered with black core laminate and tubular steel support.

Glides:
Integrally colored, textured nylon

Hard Casters:
Integrally colored, textured nylon and steel

Soft Casters:
Integrally colored, textured nylon with polyurethane overmold and steel

5-star base:
Glass reinforced nylon

Adjustment lever:
Nylon

Transom and cylinder:
Steel

Footing:
Steel

CLEANING INSTRUCTIONS

General cleaning:
Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap diluted in water. Do not use abrasive sponges, acidic products or solvents containing ammonia.

Healthcare cleaning:
The following products can be used safely on the MultiGeneration by Knoll shell only (not on the frame):

- Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)
- Clorox Cleanup undiluted 100% solution (pH 9.7)
- Wex-Cide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)
- Formula 880 Quaternary Germicide by Grand Technologies diluted 1/2 ounce to 1 gallon tap water (pH 8.1)
- Hydroxi Pro Concentrate 128 by Core Products diluted 1:8 ration to tap water (pH 7.2)
- Virox 5 RTU cleaning solution

Upholstery cleaning:
Base grade Generation Fabric is cleaning code W-S–Water or solvent based cleaning agent—and can be cleaned with low environmental impact cleaning fluids, including GS-37 certified products.

For further instruction, please see KnollTextiles Cleaning Information found in the Resources section of knolltextiles.com.

ENVIRONMENTAL

SMaRT® Sustainable Gold certified
SMaRT® Consensus Sustainable Product Standard is a comprehensive, transparent sustainable product standard that measures a product’s environmental, economic and social benefits over its life cycle and throughout its global supply chain, from raw materials extraction through use, reclamation or re-use. MultiGeneration can contribute to achieving a LEED® Innovation in Design credit for its SMaRT® certification.

BIFMA level® 3 certified
BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA’s ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level® certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

GREENGUARD certified
MultiGeneration is GREENGUARD and GREENGUARD Gold certified and can contribute to achieving LEED® credits.

WARRANTY

MultiGeneration is warranted for 24-hour, 7 days a week, multi shift use: 12 years parts and labor to repair; 3 years seating upholstery, textiles and leathers, and finishes. See Knoll Selling Policy for further details, conditions and exclusions.

Remix® Features and Operating Instructions

No Adjustment Necessary

Tandem Back
Comprised of intelligent layers of contrasting materials to provide movement and active support.

Contoured Seat
Varying levels of thickness provide targeted cushioning for long-term comfort and waterfall edges for shifting postures.

Intuitive Adjustments (Standard)

Seat height
To lower seat, lift the right lever while seated in the chair. To raise seat, remove your weight from seat while lifting right lever. Release to lock.

Seat depth
Lift the left lever and slide to the desired position. Release to lock.

Three-point tilt lock
Turn left knob backward to lock upright or forward to allow for recline. To set recline lock position, lean back and turn knob backward at mid-way point or at full recline. This will lock chair in place at that position. To release, turn knob forward, recline slightly and sit back upright.

Tilt tension
Turn right knob forward to increase the tilt tension or backward to reduce tension.

Performance Options

Arm options
Height adjustable arm
To adjust the height, push the button underneath the armpad. Slide the arm to the desired position and release the lever to lock.

High performance arm
In addition to arm height adjustment, free float arm pads easily move in width, depth and pivot.

CONSTRUCTION INFORMATION

Flex Net Matrix
Integrally colored, high performance bio-based elastomer (59% biobased by weight on average)

Back frame
Engineered 33% glass filled nylon compound (at least 50% by weight post-industrial and post-consumer recycled content), polypropolene trim

Foam
High-resiliency molded foam

Adjustable arm supports
Integrally colored, 30% glass reinforced nylon with steel reinforcement

Arm pads
Integrally colored, self skinning polyurethane

Aluminum loop arms
Polished cast aluminum

Plastic loop arms
Integrally colored, 30% glass reinforced nylon

Seat
High-resiliency molded foam with textile cover and integrally colored, 30% glass reinforced polypropylene structure

Control
Powder coated steel and cast aluminum, with integrally colored, glass reinforced nylon adjustment knobs and levers

Pneumatic cylinder
Steel

Base
Polished cast aluminum or integrally colored, 33% glass reinforced nylon with steel insert; five star design

Fasteners and hardware
Steel

Hard casters
Integrally colored nylon and steel

Soft casters
Integrally colored nylon over molded with polyurethane, and steel

Glides
Integrally colored nylon

Delite textile
100% polyester

B-side textile
100% polyester

CLEANING INSTRUCTIONS

Remix Fabric
Fabric with cleaning codes W or W-S are designed to be cleaned with low environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles Price List for further details on cleaning codes.

ENVIRONMENTAL

GREENGUARD certified
Remix is GREENGUARD® and GREENGUARD GoldSM certified and can contribute to achieving LEED® credits.

WARRANTY

Remix is warranted for 24-hour, 7 days a week, multi shift use: 12 years parts and labor to repair; 3 years seating upholstery, textiles and leathers, and finishes. See Knoll Selling Policy for further details, conditions and exclusions.

Standard Features	Benefits
Active Suspension™ Technology includes: 1. Responsive synchronized control and tilt tension	The synchronized control and tilt tension allow the user's torso to open up, promoting healthy circulation and creating a ride that is characterized by a cradled feeling that keeps the user's back in contact with the chair.
2. Resilient, breathable seat and back suspension fabric	Chadwick Fabric provides inherent, energizing support all day long, conforming to the user's shape and minimizing pressure points. The open weave provides aeration.
Forward Tilt: Mechanism automatically includes forward tilt movement	Chadwick offers automatic support for forward seated positions without requiring any additional adjustments.
Variable Seat Depth: Seat depth automatically expands while reclining in the chair	Fits a multitude of users comfortably, no additional adjustments required.
Generous Lumbar Curvature	Chadwick's ample lumbar curvature and conforming back suspension fabric eliminate the need for an additional lumbar mechanism or attachment.
Flexing Arm Pads on Fixed and Adjustable Arms	Suspended design and shape allows the arm pads to flex for additional softness to alleviate pressure points on the wrists.
2 Simple Adjustments: Tension and Seat Height	With so much responsive movement built in, Chadwick only needs two adjustments. They are obvious and simple to operate.

Optional Features	Benefits
Tilt Stop Control	Limits the recline in the upright position to 5 degrees.
Adjustable Arms or Tall Adjustable Arms: both include width adjustment	One finger, ratchet adjustment quickly and easily adjusts. Width adjustment can be accomplished with 3⁄32" Allen wrench.
Optional Lumbar	Magnetic for easy installation, the lumbar provides a maximum range of adjustability.

Care: Frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean, with a mild upholstery shampoo or the foam from a mild detergent. When using a cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With any method, pretest a small area before proceeding. Use a professional furniture cleaning service when an overall soiled conditioned has been reached.	Chadwick Fabric cleaning code is W or W-S , meaning water-based cleaning agents and foam or mild, water-free solvents may be used and it can be cleaned with low environmental impact cleaning fluids, including GS-37 certified products. See KnollTextiles.com for further details on cleaning codes.	Healthcare Cleaning Agents: Chadwick successfully passed third-party testing for the following five cleaning agents commonly used in healthcare facilities: <ul style="list-style-type: none">• Clorox Germicidal Liquid Bleach diluted 1:5 ratio to tap water (pH 3.7)• Clorox Cleanup undiluted 100% solution (pH 9.7)• Wex-Cide 128 Concentrate Phenolic Germicide by Wexford Labs diluted 1 ounce to 1 gallon tap water (pH 3.7)• Formula 880 Quarternary Germicide by Grand Technologies diluted ½ ounce to 1 gallon tap water (pH 8.1)• Hydroxi Pro concentrate 128 by Core Products diluted 1:8 ratio to tap water (pH 7.2)	In addition, Knoll has conducted internal testing of Virox 5 RTU cleaning solution on Chadwick with no adverse effects.

Environmental:
SMaRT® Sustainable Gold certified.
SMaRT® Consensus Sustainable Product Standard is a comprehensive, transparent, sustainable product standard that measures a product's environmental, economic and social benefits over its life and throughout its global supply chain, from raw materials through reclamation or re-use. Chadwick can contribute to achieving a LEED® Innovation in Design Credit.

BIFMA level® 3 certified BIFMA has established level® as a common framework against which to evaluate the environmental and social responsibility of a variety of products. level® is part of BIFMA's ongoing development of voluntary product and industry standards that support safe, healthy and sustainable workplaces. To achieve level® certification, Knoll partners with Scientific Certification Systems (SCS), known for its integrity and scientific rigor.

GREENGUARD® certified.
Chadwick is GREENGUARD and GREENGUARD Gold certified and can contribute to achieving LEED® credits.

Chadwick - Additional Information

Synchronized recline ratio seat : back is 1° : 1.2°
Adjustable and tall adjustable arms adjust 2" in armpad width (1" per side) with 5/32" Allen wrench
Optional lumbar measures 11.25" x 4.4"
Chadwick High Task footring measures 19.875" in diameter
Chadwick High Task footring adjusts 5" in height by a single lever mechanism with 11 locking positions in 1/2" increments

- Compliance:
- ANSI/BIFMA X5.1 : 2011 (U.S. structural standard)

ANSI/HFES 100-2007 (U.S. ergonomic standard)

BIFMA G1 : 2002 (U.S. ergonomic guidelines)

California T.B. 117 (U.S. flammability standard for foam)

California T.B. 133 (U.S. flammability standard for full chair)
- The Chadwick chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

Chadwick® Operating Instructions

Front View

Synchronized Recline with Tilt Tension
Chadwick has a synchronized recline that allows the torso to open up while reclining. To customize the tension of the recline, adjust the tension knob. To decrease the tension, turn the tension knob clockwise (while seated in the chair), and turn it counterclockwise to increase the tension. The underside of the knob also indicates the instructions with arrows.

Seat Height Adjustment
To raise the seat height, remove your weight from the chair while lifting the lever on the right side of the chair. To lower the seat height, lift the lever while sitting in the chair.

Forward Tilt
Chadwick has a built-in forward tilt that automatically follows and supports the user in the forward posture for typing. No adjustment is required.

Tilt Stop (Option)
The tilt stop is an upright tilt limiter. When specified, it is the lever on the left side of the chair. If your chair does not have a lever on the left side of the chair, it does not have this feature. The in-and-out lever design operates with an audible click, whereby “out” is engaged, “in” is not engaged.

Spring Loaded Arms
Both fixed and adjustable armpads have a spring suspension, which provides the user with armpad softness and flexibility.

Adjustable Arm Height (Option)
The arm height is adjusted by lifting the armpads upward. No lever is required. Simply move the arms up in five, 1/2" increments for a total of 2 1/2". To lower the arms, lift them to the highest point and at the highest point pull up firmly; and they will return to the lowest point. The arm height adjustment is easy to maneuver with one hand.

Adjustable Arm Width (Option)
The armpads have a width adjustment of 1/2" inward or 1/2" outward for 1" in total adjustability on each side. A 7/32" Allen wrench is required to adjust the armpad width.

Adjustable Lumbar (Option)
Chadwick has an adjustable lumbar support, if needed. It is secured to the chair with magnets for easy installation and a maximum range of adjustability.

Separate both halves of the lumbar support and place them in the desired position on your chair. Secure the support by putting both halves together around the back suspension fabric of the chair.

Adjust the lumbar by sliding the lumbar pad up and down the back of the chair.

Note: Contains magnets. Consult the Knoll lumbar support hangtag for more information.

k.™ task Operating Instructions

Intuitive Adjustments (Standard)

Seat height

To lower seat, lift the right lever while seated in the chair. To raise seat, remove your weight from seat while lifting right lever. Release to lock.

Seat depth

Lift the left lever and slide to the desired position. Release to lock.

Five-point tilt lock

Turn left knob backward to lock upright or forward to allow for recline. To set recline lock position, lean back and turn knob backward at any point or at full recline. This will lock chair in place at the next closest position. To release, turn knob forward, recline slightly and sit back upright.

Tilt tension

Turn right knob forward to increase the tilt tension or backward to reduce tension.

Performance Options

Arm options

Height adjustable arm

To adjust the height, push the button underneath the armpad. Slide the arm to the desired position and release the lever to lock.

Compliance: ANSI/BIFMA X5.1 : 2011 (U.S. structural standard)
ANSI/HFES 100-2007 (synchro control) (U.S. ergonomic standard)
BIFMA G1 : 2002 (U.S. ergonomic guidelines)
California T.B. 117 (U.S. flammability standard for foam)
California T.B. 133 with approved FR textile (U.S. flammability standard for full chair)
CAN/CGSB 44.232-2002; BS EN 13761 : 2002 (British visitor chair standard, EWC Pro side)
The EWC Pro chair line has been tested and is approved for use by individuals weighing up to 300 pounds.

EWC Pro Mid-back Task Chair Operating Instructions

Seat Height
To raise the seat height, remove your weight from the chair while lifting the lever under the right side of the seat. To lower the seat height, life the lever while sitting in the chair.

Adjustable Arm Width (All arm options)
To adjust the arm width, loosen the knob under the arm support by turning clockwise. Slide the arm support toward or away from the seat to adjust the arm width. Tighten the knob under the arm to secure.

Tilt Lock
To recline, pull out the lever under the right side of the seat. To lock the chair upright, push the lever in.

Height Adjustable Arm (Optional)
To adjust the arm pad height, lift the lever on the outside of the arm support and move the arm up or down. Release the lever to lock.

Tilt Tension
To adjust the tilt tension, turn the knob under the front of the seat. Turn counterclockwise to tighten, and clockwise to loosen. The tension adjustment provides a variable limiting function allowing the user to customize ranges of recline between upright and full recline.

High Performance Arm (Optional)
To adjust the arm pad height, push the button on the outside of the arm support and move the arm up or down. Release the button to lock. To adjust arm pad depth, grasp arm pad and push forward or pull backward. The arm pad adjusts 2.5" in depth.

Back Height
To raise the back height, firmly hold both sides of the back and lift. The back height adjusts 9 notches upward. To lower the back height, first raise the back to the highest position; the top notch releases the back to the lowest position.

Sliding Seat Depth Adjustment (Optional)
To adjust the seat depth, lift the lever under the left side of the seat and slide the seat to the desired location. Release the lever to lock in one of the 6 positions

EWC Pro Side Chair
This is a stacking side chair.
Chairs should not be stacked more than 3 units high. To stack chairs, place the rear legs of the top chair in front of the rear legs of the bottom chair. The bottom of the top chair's seat should rest on the lower chair's seat.

Moment Chair Measurements

A. Overall Height	32.5"
B. Overall Width	21"
C. Overall Depth	21"
D. Arm Height from Seat	8.5"
E. Arm Height from Floor	26.25"
F. Seat Height	17.75"
G. Seat Width	19"
H. Seat Depth	17.5"
Weight	24 lbs.

Stacking Instructions

Moment stacks up to 4 units high on the floor and features a non-marking cosmetic cover under the seat that reduces fabric wear from stacking.

To stack chairs, place the top chair seat on top of the seat of the chair below. The base of the top chair fits between the legs of the lower chair and rests on top of the lower chair base.

Construction Information

Frame	Powder coat or trivalent chrome over steel
Back structure	Integrally colored, textured, glass reinforced nylon
Back bar	Powder coat or trivalent chrome over aluminum die cast
Seat upholstery plate	Integrally colored polypropylene
Seat cosmetic cover	Integrally colored, textured, impact modified polypropylene
Upholstery	High resiliency molded urethane foam with textile cover
Tip stops and glides	Black, integrally colored, molded nylon
Fasteners and hardware	Steel

Environmental Information

SMaRT®	Moment is SMaRT® Sustainable Gold Certified
GREENGUARD	Moment is GREENGUARD and GREENGUARD Gold
Powder Coat	Knoll metal powder coating processes are 99% VOC-free
Trivalent Chrome	Trivalent chrome uses a safer, more environmentally friendly process to achieve a chrome finish

Compliancy: ANSI/BIFMA X5.1 : 2011 (U.S. structural standard)
California T.B. 117 (U.S. flammability standard for foam)
California T.B. 133 with approved FR textile (U.S. flammability standard for full chair)
The Moment chair has been tested and is approved for use by individuals weighing up to 300 lbs.

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
