Each year Knoll sets key initiatives in our journey to sustainability. We are members of a global consortium on energy, have adopted a scientific, metrics-based approach to sustainable product design, and maintain a leadership position in establishing universal, verifiable, sustainability standards for our industry.

Knoll promotes independent third-party certification because it provides the most impartial and trustworthy foundation for industry-wide environmental compliance. Certification by established and respected third parties ensures that all manufacturers are held to the same high standards and that customers can trust a company's declaration about the environmental benefits of its products. Knoll third-party partners include: the International Standards Organization (ISO); Forest Stewardship Council (FSC®); Rainforest Alliance; GREENGUARD® Environmental Institute; and The Business and Institutional Furniture Manufacturer's Association (BIFMA) level® certification from Scientific Certification Systems (SCS).

In addition, Knoll is aligned with the U.S. Green Building Council and can help companies, healthcare organizations and educational institutions achieve Leadership in Energy and Environmental Design (LEED®) workplace certification.

Global Climate Change

- Knoll is a sponsor of the Clinton Global Initiative, which brings together a community of global leaders to devise and implement solutions to some of the world's most pressing challenges, including environmental change.
- Knoll has a comprehensive Energy Management Program to increase energy efficiency in products and processes.

Life Cycle Assessment (LCA) Tool

- Life Cycle Assessment is a science-based measurement of a product's environmental impacts throughout its life cycle, from raw materials sourcing through manufacture, shipping, use and re-use or end-of-life. LCA enables cradle-to-cradle implementation of sustainable practices.

Setting Industry Standards

- Knoll partners with MTS (The Institute for Market Transformation to Sustainability) to develop the SMaRT® Consensus Sustainable Products Standards, a set of consensus-based sustainable product standards based on the LEED® model, for all building products, fabric, apparel, flooring and carpet. MTS, the developer of SMaRT®, is an accredited American National Standards Institute (ANSI) standard developer.
- Knoll also partners with BIFMA (Business and Institutional Furniture Manufacturers Association) to promote level® sustainability standards for the contract furniture industry.
- Knoll has established FSC® (Forest Stewardship Council) certified wood as the standard for general office open plan office systems, casegoods and tables.
- Knoll has launched Full Circle, a resource recovery program developed with ANEW, to help customers extend the life cycle of surplus furniture, fixtures and equipment (FF&E) in an economically, socially and environmentally responsible manner.
- Our goal is to encourage all manufacturers in the contract furniture industry and related industries to adopt standards that will lead to sustainable products and practices.

For more information about Knoll and sustainable design, visit knoll.com/environment.

This price list provides you with the product information you need to specify and order Knoll Morrison.

Morrison is a completely integrated office system, capable of all types of office planning. Morrison may plan as a panel system, with panel mounted components, or as a freestanding desk system. Morrison can also be combined with the Currents service wall for superior wire management, cable access and off-module planning. Major components – panels, worksurfaces and storage – may be configured or reconfigured in all types of planning listed above.

Information about Morrison is found in three companion books: this Price List, the Planning Guide and the Brochure.

The Price List arranges components in a logical sequence.

The first section includes all major components required for panel system planning: Morrison and Options panels, add-on panels, connectors, doors, Morrison Access, top cap kits, stackable add-up panels and power distribution.

The second section includes those components required for worksurface planning and support: Morrison and Options worksurfaces, Currents worksurfaces for Morrison, desk panels, Morrison Network desk supports, brackets, and power components.

The third section includes storage components for panel based or freestanding planning: pedestals, Intermediate shelves, Morrison, Options and Reuter overhead storage and lighting, screens, and vertical storage.

The fourth section includes accessories. The complete range of computer support and accessories can be found in the KnollExtra price list.

How to order Morrison

Morrison is a component-based system. To ensure a complete order for a workstation or project, specify components in the same order as the price list.

You will find that Morrison pattern numbers contain a logical, alphanumeric sequence describing the type, size, features, and finish of the component.

To specify components, consult the ordering code examples and application notes provided.

For example, to order a 1 3/4" folkstone grey laminate worksurface with grommets, 48"W by 24"D specify:

MW2-S4824A114. Details follow:

MW2	1 3/4" worksurface
S	Straight
48	Width
24	Depth
A	With grommets
114	Folkstone Grey laminate

For further assistance with ordering or specifying Morrison, consult your Knoll representative or Knoll dealer.

Please note that pattern numbers beginning with the letter **A-** are Currents pattern numbers and patterns beginning with the letter **R-** are Reuter storage pattern numbers.

Note to Knoll Dealer Sellers:

The products contained in this price list are also available through the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

126	Natural Cherry						•	•		
127	Walnut						•	•		

This price list contains pricing for Core finishes. For detailed pricing of Legacy finishes, please refer to the latest release of CAP worksheet or contact your customer service representative.

The new, Core P1 finishes in Morrison have the same list prices as P2. Additionally, Pedestals and Reuter overhead storage have a separate P3 price point for Silver and Bright White.

The new Core finish 113 Dark Grey is not a match to the Morrison Legacy finish NV. It is a match to the Dividends Legacy finish Y3.

The new Core finish 115 Medium Grey is not a match to the Morrison Legacy finish NJ. It is a match to the Dividends Legacy finish Y2.

Patterned laminates (Micro, Brushed and Wood grain laminates) are available on Morrison postformed worksurfaces and shelves (straight, trapezoidal, VDT).

Wood grain laminates are also available on Cascade Edge worksurfaces.

Wood Finishes

New codes begin with a three digit numeric sequence, followed by a letter suffix. Each letter suffix (A-F) represents a different combination of pore fill options and gloss levels.

Core Veneer Finishes

D	Low Gloss	Open Pore
E	Medium Gloss	Open Pore
F	High Gloss	Open Pore

Morrison veneer finishes apply to top caps and trim, veneer and combination panels and add-on panels, hinged doors, worksurfaces, desk support panels, pedestal fronts, shelves, Network, Options and Flat Front Reuter overhead storage fronts. Please consult the individual price list pages for details on price and availability.

In September 2008 all existing Morrison finishes were transferred from our East Greenville Plant to our Toronto plant. All existing finishes were changed to closed pore finishing and assigned new finish codes.

This price list contains pricing for Core finishes. Core finishes include some existing Morrison finishes formally referred to as Techgrain (*cross-referenced above*) as well as numerous new veneer finishes now available on Morrison. For detailed pricing of Legacy finishes, please refer to the latest release of CAP worksheet or contact your customer service representative.

Order Code	Specification Information	Application Notes
Example: MRD-6436-L-C-613-N	<i>Specify:</i>	64"H rolling door kit includes door panel, post with mounting bracket, and door jamb (for door side opposite to mounting bracket). Specify post high-low top cap (see page) for Morrison panel adjacent to the door jamb.
M Morrison	<i>Left / Right Hand</i>	
RD Rolling door	<i>Glazing for rolling door:</i>	
64 Height	C- Clear Acrylic	
36 Width	T- Translucent Acrylic	
L Left	RC- Ribbed polycarbonate	
C Door finish	<i>Frame finish</i>	80"H rolling door kit includes door panel, post with mounting bracket, door jamb (for door side opposite to mounting bracket), header, top cap for header and two corner brackets. Top caps for panels adjacent to 80" rolling doors must be modified in the field. Header for 80" door mounts with two corner brackets.
613 Frame finish	<i>Lock / No Lock</i>	Specify separately straight connector tracks to connect door post and door jamb to adjacent panels.
N No lock	Rolling doors mount to the outside of Morrison workstations.	A full threshold may be specified separately. A threshold is required to assure the ADA requirement for maximum pull force of 5 lbs. is met.

Rolling door post with mounting bracket must attach to a Morrison panel, or panel run, of width equal or greater than the nominal width of the door. When fully open, the door will extend 1 3/16" (half the width of a universal post) beyond a panel of corresponding width.

Door jamb may be attached to a Morrison panel or to a universal post. When attaching to a post, specify separately dedicated vertical trims for 90° 2-way L or 3-way T connections.

Masts for doors combine with panel stiffeners for 80" doors to mount stackable add-up panels over Morrison doors.

Order Code	Specification Information	Application Notes
Example: MP3-A1636-M15-W210/20	<i>Surface type/finish suffixes:</i>	Add-on panels mount on any height Morrison vertical panel of the same width with add-on connectors or full height connectors.
MP3 Panel	For markerboard surface on both sides, follow add-on panel size with finish code M.	
A Add-on		
16 Height	When specifying combination panels, follow add-on panel size with markerboard code, then upholstery finish code and pattern number.	All add-on panels are 1/4" less than nominal height to allow for a 1/4" horizontal reveal with light seal.
36 Width		16"H add-on panels may be mounted on 48"H and 74"H vertical panels and connected, respectively, with standard 64"H and 80" connector tracks and post assemblies.
M Markerboard		18"H add-on panels may be mounted on 30"H and 56"H vertical panels and connected, respectively, with standard 48"H and 74" connector tracks and post assemblies.
15 Surface type and group no.	M- Markerboard surface	
W210/20 Upholstery	10- Fabric group 10	
	15- Fabric group 15	
	20- Fabric group 20	
	30- Fabric group 30	
	40- Fabric group 40	
	45- Fabric group 45	

22"H add-on panels may be mounted on 42"H vertical panels and connected with standard 64"H connector tracks and post assemblies.

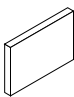

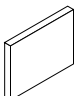

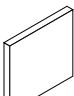

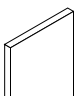

32"H add-on panels may be mounted on 48"H vertical panels and connected with standard 80"H connector tracks and post assemblies.

Full height 48" and 64" connectors permit cantilevered shelves and overhead cabinets. Add-on panels may also span two lower panels of the same total width.

Markerboard surface is non-metallic.

Upholstered add-on panels 16", 18", 22" and 32"H

Order Code

Example: **M2-5404-613-613-15-W210/20**

M2	Connector
5404	Configuration
613	Top cap finish
613	Raceway finish
15	Fabric group
W210/20	Upholstery

Specification Information

All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.

* Indicate height of lower panels replace * with one of the following:

3	30"H
9	39"H
4	42"H
8	48"H
5	56"H
6	64"H
1	80"H

The following high-low connections are available as standard product:

panel	connection to
39"	30"
48"	42", 39", 30"
56"	48", 42", 30"
64"	56", 48", 42", 30"
80"	64", 48"

For all other connections, please contact your Custom Product Development representative.

First suffix is for top cap finish, second is for raceway finish. Final suffix is for trim covers surface type.

Surface type:

10-	Fabric group 10
15-	Fabric group 15
20-	Fabric group 20
30-	Fabric group 30
40-	Fabric group 40
45-	Fabric group 45

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V2 finishes, add \$65 to the price listed above.

Application Notes

High-low post assemblies are used to join panels of two heights in a T configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panels in a T-configuration.

To specify a 90° 3-way high-low connection of 42" panels with a 56" panel between:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Hold the next digit with a "0".
4. Continue in the same direction to the last panel, 42"="4".

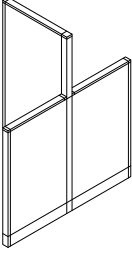

The correct code is M2-5404.

Order Code	Specification Information	Application Notes
Example: M2-5404-613-613-V-Y811	All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 9, 42" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.	The following high-low connections are available as standard product:
M2 Connector		<i>panel connection to</i>
5404 Configuration		<i>ht.</i>
613 Top cap finish		39" 30"
613 Raceway finish		48" 42", 39", 30"
V Surface type		56" 48", 42", 30"
Y811 Veneer		64" 56", 48", 42", 30"
	<i>*Indicate height of lower panels</i>	80" 64", 48"
	<i>replace * with one of the following:</i>	
	3 30"H	
	9 39"H	
	4 42"H	
	8 48"H	
	5 56"H	
	6 64"H	
	1 80"H	
		For all other connections, please contact your Custom Product Development representative. First suffix is for top cap finish, second is for raceway cover finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type. <i>Surface type:</i>
		V() Veneer (finish code)
		() Painted (finish code)

High-low post assemblies are used to join panels of two heights in a T configuration. Assemblies come complete with post, hardware, and trim as required.

For a high-low configuration with wood top caps, change pattern number prefix to M3. For V2 finishes, add \$65 to the price listed above.

Painted high-low connectors are not available with wood top caps.

Order dedicated high-low top caps separately for the lower panels in a T-configuration.

To specify a 90° 3-way high-low connection of 42" panels with a 56" panel between:

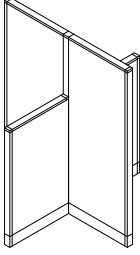

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Hold the next digit with a "0".
4. Continue in the same direction to the last panel, 42"="4".

The correct code is M2-5404.

Order Code

Example: **M2-5444-613-V-Y811**

M2	Connector
5444	Configuration
613	Top cap finish
V	Veneer
Y811	Finish

Specification Information

All high-low pattern numbers contain a logical four digit code in which 30" is 3, 39" is 4, 48" is 8, 56" is 5, 64" is 6, and 80" is 1.

*Indicate height of lower panels replace * with one of the following:

3	30"H
9	39"H
4	42"H
8	48"H
5	56"H
6	64"H
1	80"H

The following high-low connections are available as standard product:

panel	connection to
39"	30"
48"	42", 39", 30"
56"	48", 42", 30"
64"	48", 42", 30"
80"	64", 48"

For all other connections, please contact your Custom Product Development representative. First suffix is for top cap finish (integral color or P2), second is for raceway cover finish. Raceway covers will always be matched with the metallic finish corresponding to top cap finish. Final suffix is for trim covers surface type. When ordering non-upholstered trims, surface type must match top cap type (integral color or P2). *Surface type:*

()	Painted (finish code)
V ()	Veneer (finish code)

Application Notes

For a high-low configuration with wood top caps, change pattern number prefix to M3. Painted high-low connectors are not available with wood top caps. For V2 finishes, add \$65 to the price listed above.

High-low post assemblies are used to join panels of two heights in an X configuration. Assemblies come complete with post, hardware, and trim as required.

Order dedicated high-low top caps separately for the lower panel in an X configuration.

To specify a 90° 4-way high-low connection of a 56" panel and three 42" panels:

1. Start with the highest panel, 56"="5".
2. Proceed either clockwise or counter-clockwise to the next highest panel, 42"="4".
3. Continue in the same direction to the next panel, 42"="4".
4. Continue in the same direction to the last panel, 42"="4".

The correct code is M2-5444.

H	Highway
42	Width

Specification Information

Highway for panels is black anodized aluminum with black vinyl flaps. Highway connectors are black color-integral molded plastic.

Highway snaps onto top of vertical panel to provide accessible horizontal cable channel on each side of panel.

Highway may be planned on all same-height panels in a cluster or only on center spine panels.

Highway accepts standard top caps.

Highway capacity is approximately thirty-two Category 5 4-pair UTP cables (3/16" dia. or equivalent), or sixteen each side.

Highways for high-low panels are sized for the lower panel in straight high-low configurations.

Application Notes

When Highway is planned only on the center spine of a cluster specify straight post Highway connectors at T and X connections; specify Highway end post connector at corner or T at end of spine. Specify straight post or end post top caps separately (see page 78) for all L, T and X connections.

Highway connectors permit continuous lay-in cabling at all post connections.

Order Code	Specification Information	Application Notes
Example: MT5-PDC-48612	Specify paint finish.	Specify PDC covers when planning voice/data outlets in a powered panel. PDC covers provide one protected opening for PDC modules 6" from each end of panel, in addition to standard power outlet openings. Specify multiple power outlet covers in addition to standard panel top cap/raceway cover kits, when planning more than two duplex outlets on a panel face. Multiple outlet covers have openings for four duplex outlets. Power, data and communications outlets covers cannot be used with Morrison panels produced prior to 1995; specify standard powered or multiple outlet covers and plan data/communications outlets in pass-through or non-powered panels. For Chicago code PDC covers, refer to page 102.

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Power connectors are enclosed in steel flexible conduit.

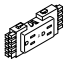

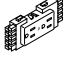

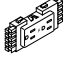

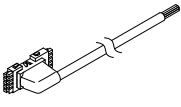

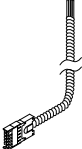

Application Notes

Jumpers connect rails on either side of a panel or panels without outlets. Extended jumpers for panels less than 60" wide (suffix -P) transmit power through an adjacent L, T or X post connection. Jumpers for wider panel runs accommodate an intermediate post connection.

Also specify extended jumper when connecting between vertical raceway power rail and a panel base power rail on either side of a panel or panels without outlets.

Power connectors transmit power between adjacent powered panels. Specify straight power connector for straight connections, and post power connector for L, T or X post connections.

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Duplex outlets are preconfigured to access one of the four circuits, A, B, X, Y, and snap into any standard outlet location (12" from either end of panel). Duplexes on circuits X and Y may be specified with orange face or black face with orange triangle to signify protected circuits for electronic equipment.

Application Notes

Power infeeds connect building power supply to a cluster of interconnected power rails. Panel base infeed snaps into any outlet position in rail, 12" from either side of panel, and includes 6 foot liquid-tight conduit and pigtail for connection to floor or wall electrical box. MR3-ERPI Panel Base Infeed rotates to provide either a left- or right-hand power entry.

Ceiling infeeds include 12'-6" pigtail for connection into panel base through Morrison vertical raceway and ceiling infeed panel, or through standard power pole (supplied by others) adjacent to Morrison panel with power rail.

Hardwire infeed, used in all New York City installations, includes junction box that mounts within non-powered panel base (any width 24" or greater). Electrical contractor supplies conduit from building power supply to panel, punches infeed hole in raceway cover, and trims power connectors to length. MR3-EPNY2 includes two power connectors to power panels on both sides of infeed panel; MR3-EPNY1 includes only one power connector. Template is included to modify standard N-type raceway cover (without outlet openings).

Power infeed for Panel base for San Francisco installations have a liquid-tight sleeve over a metallic flexible conduit.

24	For 24" panel

Specification Information

Morrison 3 + 3™ Raceway is a six-circuit, ten-wire modular power distribution system, for use in Morrison panels and Network desk supports. 3 + 3™ Raceway components distribute three 20-amp convenience circuits (A, B, C), with neutral and ground, and three protected 20-amp circuits (X, Y, Z) with separate neutral and ground.

A, B, X, Y outlets are identical to eight wire, 2+2 components.

Duplex outlet circuits are designated by white letters on black background.

Application Notes

Power rails are the primary power distribution component of the Morrison 3 + 3 Raceway. Each rail provides outlet mounting positions on both sides, and receptacles for branching power connectors at each end. Center supports permit lay-in cabling from either side of the raceway. Rail for 24" wide panel accepts one duplex outlet or power infed on either side. Rails for 30" and wider panels accept two outlets each side, 12" from either end of the panel. Power rail for Vertical Raceway panel accepts up to four duplex outlets each side, two above and two below standard worksurface height.

Power connectors transmit power between adjacent powered panels. Specify straight power connector for straight connections, and post power connector for L, T or X post connections.

Duplex outlets are preconfigured to access one of the six circuits, A, B, C, X, Y, Z, and snap into any standard outlet location (12" from either end of panel). Duplexes on circuits X, Y, and Z may be specified with an orange face, or black face with orange triangle to signify protected circuits for electronic equipment; all other duplexes are black.

If separation of cabling and electrical wires is required, a data shield can be attached below the power rail. Data shields are field installed.

Application Notes

Currents worksurfaces for Morrison require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately.

When using Morrison end support brackets, order MB3-EC18, 24 or 30.

Currents worksurfaces for Morrison cannot be used in conjunction with Morrison Network desk supports.

For 90" application span, use two AWM1-S42 stiffeners.

For 96" application span, use two AWM1-S48 stiffeners.

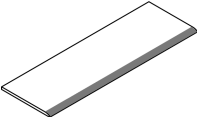

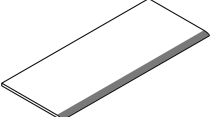

Stiffener mounts 18" from front edge of worksurface and will interfere with mobile or floorstanding pedestals greater than 18" deep.

To accommodate a floorstanding pedestal greater than 18" deep at one end of worksurface, specify stiffener for 12" narrower worksurface. To accommodate two floorstanding pedestals or double-wide at one end of worksurface, specify stiffener for 24" narrower worksurface.

MCE1	Cascade edge worksurface	<i>Specify:</i> Grommet / no grommet. Replace the “N” suffix from the pattern number with “G”. Add \$40.		Cascade Edge worksurfaces are wrapped with a pvc free, 3D laminate sheet heated and pressed around an FSC certified substrate. 3D laminate is more susceptible to denting, impact, tearing and marring than conventional high pressure laminate and should be handled with care. Do not drag worksurfaces across any flooring surface. Treat Cascade Edge worksurfaces like veneer worksurfaces for optimum performance under normal conditions. Cascade Edge worksurfaces have a 10 year warranty that covers defects in workmanship and materials. This warranty does not cover damage occurring during or after installation. Cascade edge worksurfaces in solid colors utilize a non-PVC construction and are also free of any plasticizers, phthalates and lead content.	
L	Blended “L” top	<i>Finish:</i>			
48	Depth	<i>Solid:</i>			
72	Width				
S	24”d return left			Worksurfaces are 1/16” less than nominal width and 3/8” less than nominal depth for rear wire clearance. Edge grommets are centered at rear edge of worksurface for maximum clearance of 1 3/8” Worksurfaces require support every 48” in width. All supporting hardware is ordered separately. Worksurfaces may be supported by left or right hand 18” cantilever brackets at the rear corner, and cantilever bridging brackets on each side edge. Panel supported worksurfaces over 48” must be mid-span supported by cantilever brackets, specified separately. Order Morrison brackets with wood screws (suffix -W).	
D	30”d return right	114	Folkstone Grey

		75" 78" -

Transitional filler panels are used between a universal desk end panel and a vertical panel.

A transitional filler panel includes bracket MB1-L1, filler panel/desk end panel. Specify bracket MB1-W 18 or 20(L or R) separately.

A transitional filler panel over 70"W is shipped with a center stabilizing bracket, MB1-AUX-D.

Kneehole filler panels span use between two universal desk end panels to construct a freestanding wood desk.

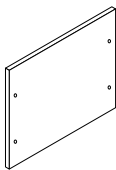

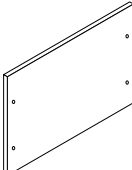

A kneehole panel includes 2 brackets MB1-L1, filler panel/desk end panel.

All 69"W and 75"W kneehole filler panels are shipped with a center stabilizing bracket, MB1-AUX-D.

Order Code

Example:	MN2-D4848-612
MN2	Network component
D	Desk support
48	Width of desk
48	Width of return
612	Paint finish

Specification Information

Specify desk support the width of the worksurface to be supported.

Corner desk support is used under any combination of worksurfaces up to 72". Specify flat brackets separately.

Return support may be connected to straight desk support to form other 90° corner support combinations. Specify return support the sum of the width of the return and the depth of the desk (or width of VDT).

Desk spans wider than 60" require pedestal support at one end of the worksurface.

Specify painted finish.

Application Notes

Corner legs include two grommets (3" x 2 1/2") in back and side, for cable and power distribution to adjacent desk supports. All grommets have caps, 3 1/4" x 3 1/4". Two grommet sleeves to protect cables are also provided.

Desk supports enclose the back 6" of freestanding Morrison System desks, enabling full horizontal and vertical wire management, and giving the structural support necessary for desk mounted overhead storage.

Straight desk supports are specified the same width as the desk (or VDT + return). Return supports continue the wireway for L-shape desks, supporting the end of the desk and width of the return. 90° corner supports may be used to support desk-and-return or VDT-with-extensions.

Desk supports consist of nominal 6" x 6" corner legs and horizontal modesty/wireway channel 8"H x 1 1/2"D.

Straight desk supports include 2 legs and 1 channel; 90° corner supports include 3 legs and 2 channels. Return supports include 1 leg and 1 channel and connect to straight desk support to form 90° corner. All components are interchangeable and non-handed.

Worksurfaces are supported by desk supports in conjunction with end panels, pedestals or brackets linking to adjacent desks.

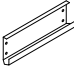

MN2- desk support corner legs and wireway channels are interchangeable with original MN1- desk supports.

Hardware kits for beam and leg components include metal inserts. Tops will be drilled for field installation.

Order Code	Specification Information	Application Notes
Example: MN2-E24-612		
MN2 Morrison Network	Specify desk end and filler panels to correspond with desk depth and width. End panels are nominally 6" less deep than desk to accommodate desk support. Actual filler panels are 12" less wide than desk, to fit between desk support corner legs.	Desk end panels are used to support an end of a freestanding desk without pedestal support. Integral brackets permit application on left or right end of desk.
E End panel		
24 Depth		
612 Finish		
	Return support adapter attaches to front edge of end panel. Specify return support in same nominal width as return worksurface.	For desk planning applications with full end panel and desk support:
	<i>Specify painted finishes for end panels, filler panels and accessories.</i>	Use MN2-E12 with 18"D worksurface
		Use MN2-E18 with 24"D worksurface
		Use MN2-E24 with 30"D worksurface
		For 24"D VDT desks with extensions, specify MN2-E06 end panel and single bridging bracket. For 30"D VDT, specify MN2-E12 end panel and single bridging bracket.
		For support of one end of 24"D return with desk support adjacent to freestanding Interaction corner table, specify MN2-E09.
		Desk end panels do not permit adjacent pedestal attachment.
		Transitional support panel secures a return desk support to Morrison vertical panel connector track in integrated desk and panel planning.
		Transitional panel also acts as a leg or pedestal extender to stabilize vertical panels supporting overhead storage.
		Use MN2-RDR to stabilize each side of vertical panel at half-round conference worksurface.
		Transitional panel includes one grommet.
		Return support adapter is specified when adding a return worksurface to a desk with end panel. Adapter extends from end panel to return support. End panel wireway attaches to inside of end panel to link desk support wireway to return support.
		Filler panels provide full enclosure for desk supports, filling the knee-hole space between corner legs. They are specified in addition to corresponding desk supports.

Order Code	Specification Information	Application Notes
Example: MB1-SB24-L		
MB1 Bracket	Specify paint finish for transitional support panel and light seal.	F-type flat brackets join worksurfaces at the same height, in desk or panel system application.
SB Type	All other brackets are black.	SB bridging brackets are used to join desk supported worksurface to 1/2 round or teardrop, when worksurface is not pedestal supported. SB brackets may also be used with transitional support panel to join worksurface to teardrop or 1/2 round with vertical panel.
24 Worksurface size	Specify single bridging bracket left or right handed (left for conference top on left when seated at worksurface).	MB1-SB18(L/R) single bridging bracket supports freestanding split VDT with 24" returns; it should be used on each side in combination with 9" end panels MNZE09().
L Left		DB bridging bracket is used to join adjacent desk supports and worksurfaces.
		For pedestal or end panel supported worksurface to half-round or teardrop, use flat brackets and support column.
		For clear access kneespace at half-round with vertical panel, use transitional support panel, single bridging bracket, and support column.
		Desk support light seal wraps around corner legs of adjacent desk supports, and provides additional lay-in cable.
		Worksurface stiffeners may be used to span distances over 48" without pedestal support. (Use one size smaller than worksurface width when supporting one end with a pedestal.) Specify the pattern number which corresponds to the width to be spanned, e.g. MB1-WS54 enables a 3-ply MU1 or LU1 worksurface to span 54".

Specification Information

Morrison 2 + 2™ Raceway is a four-circuit, eight-wire modular power distribution system, for use in Morrison panels and Network desk supports. 2 + 2™ Raceway components distribute two 20-amp convenience circuits (A and B), with neutral and ground, and two protected 20-amp circuits (X and Y) with separate neutral and ground.

Application Notes

Power infeeds connect building power supply to a cluster of interconnected power rails. Desk support infeed snaps into the end of any desk power rail, and includes 6 foot liquid-tight conduit and pigtail for connection to floor or wall electrical box. Panel/desk connector transmits power between the end of a desk support rail and any panel base power rail outlet position.

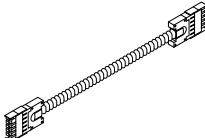

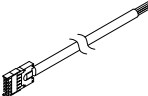

Hardwire infeed, used in all New York City installations, includes junction box that mounts to the inside of a desk support corner leg. Electrical contractor supplies conduit from building power supply to box and trims power connector to length. Hardwire kit includes painted finish cover panel.

Duplex outlets are preconfigured to access one of the four circuits, A, B, X, Y, and snap into any standard outlet location (12" from either end of desk). Duplexes on circuits X and Y may be specified with orange face or black face with orange triangle to signify protected circuits for electronic equipment; all other duplexes are black.

Power connectors transmit power between adjacent powered desks. Crossover transmits power "diagonally" between non-adjacent desks in a cluster of 3 or 4 desk supports.

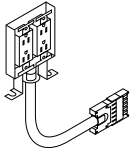

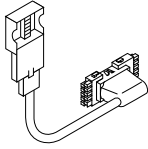

Jumpers connect rails on either side of a desk end panel or desk support without outlets.

Order Code

Example:	MD7-PT
MD7	Pedestal
PT	Pencil tray

Pencil tray is molded plastic and available in black or clear.
 Black: N
 Clear: C

Application Notes

Pencil tray rests on any box drawer and is specified separately.

Stationery inserts are sloped trays for 18"D box drawer.

Specify two sets of inserts for 24" or 30"D box drawers.

Drawer dividers are sloped U-shape inserts for box or file drawers.

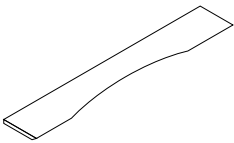

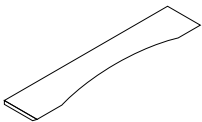

Specify file support for side-to-side filling in 24" or 30" file drawers.

Mobile pedestal handle attaches to either height mobile pedestal top for easier movement around a facility. Handle stores on top of pedestal and unfolds for use.

Order Code

Example:	MM3-IS72R-612
MM3	Accessory
IS	Intermediate shelves
72	Width
R	Return
612	Paint finish

Specification Information

Specify paint finish.

Specify return shelves by number that corresponds to total return dimension (depth of desk and width of return).

Application Notes

Intermediate shelves provide an additional level of storage between the worksurface and standard overhead storage.

Intermediate shelves include brackets for cantilever support from vertical panel connector tracks.

Intermediate shelves may be mounted on 1" increments of height up to 1" from top of panel. Recommended position is 6" - 7" above the worksurface.

Use full width shelves with back panels of the same total width. Add returns to form a continuous "L". Half-round endpiece joins back-to-back shelves over a half-round conference worksurface. Quarter round terminates an intermediate shelf at a straight panel connection.

Intermediate shelves cannot be mounted to freestanding desks or overhead supports.

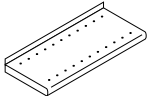

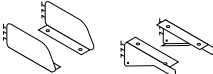

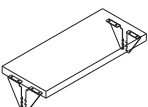

Use full width intermediate shelves that correspond with actual workstation width.

Example:	MS2-U-4213-612-H
MS2	Shelf
U	1 1/4" thick
42	Width
13	Depth
612	Surface finish
H	With holes

Specification Information

Specify finish.
Specify suffix H for shelf holes that accept shelf organizers.

Application Notes

Panel mounted shelves are cantilevered from vertical panel connector tracks with bookend or undershelf brackets. 1 1/4" shelves must be midspan supported every 48".

13"D shelves hold binders, books and other reference material. Order brackets and shelf organizers, if applicable, separately.

Bookend-style brackets keep material upright when vertical panels are not used at the ends of shelves (brackets are shipped in pairs.)

Standard 13" deep shelves double as flush counter surfaces. Specify undershelf brackets or desk-mount stanchions for this application.

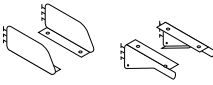

For wall mounted shelves see page 180.

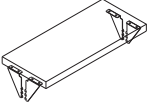

All shelves accept task lights. Adjacent bookend-style shelves require MB1-TC tie clip to secure full width task light.

Transaction shelf brackets support panel-mounted shelves without holes. Each set supports a maximum span of 48".

Wall mounting kit for shelves and Options overheads		111"	1"	2"	MO6-WMSK-()	485.
Wall mounting vertical standard for shelves and Options overheads		3/4"	1"	18"	MO6-WMSB-()	129.
Conversion kits, panel mount - brackets for overheads		—	—	—	MO7-PMB-()	74.
Wall mount wire managers, set of 10					MWM-J	230.

Order Code	Specification Information	Application Notes
Example: MO8-N60-612-612-N-N	<i>Specify paint finish for brackets.</i>	Stanchion mounted overhead cabinets attach to overhead supports. Specify overhead backs separately for finished appearance in back-to-back or exposed applications.
MO8 Overhead cabinet		Specify conversion kit MO7-SMB only if converting panel hung overheads to stanchion mounted.
N Network mounted		Wall-mounting Morrison overhead cabinets: Use MO8-WMR to mount up to 120" of MO8 overheads. Specify one MO8-WMB for each overhead.
60 Width		
612 Paint finish for case		
612 Surface finish for door		
N Surface finish for pulls		
N No lock		

For Options overheads or Morrison or Options shelves, use MO6-WMSK to wall mount up to 9' of shelves or overheads. Kit includes wall mount rail and one vertical standard. Specify one additional MO6 WMSB for each shelf or overhead. Morrison shelves also require MB1-B13 shelf brackets.

Wall mount rails may be trimmed to length.

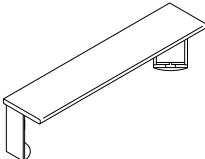

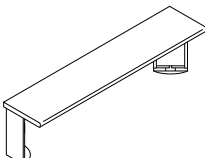

Specify conversion kit MO7-PMB only if converting stanchion mounted overheads to panel hung.

Wall mount wire manager is two-part wire concealment kit, 22"H.

Order Code	Specification Information	Application Notes	
Example: RO3-M48-612-M-L	First suffix is for case, second is door finish.	Reuter storage is a universal product applicable on Morrison or other Knoll systems. Overhead cabinets may be mounted on any combination of vertical panels the same width or up to 12" less than cabinet width. Cabinet door rotates above cabinet on side pivots, counterbalanced by two pneumatic cylinders. Two door cabinets have center divider and four pneumatic cylinders.	Ganging bracket (page 193) joins adjacent overheads or shelves for additional stiffness and alignment.
RO3	Reuter overhead cabinet	Reuter overheads may be mounted on other Knoll systems, cantilevered above 42" or 56" Morrison panels, or wall-mounted.	Order locks for overheads with a KnollKey order form. Please note that Reuter overhead cabinets 60"W or wider require two lock cores.
M	Morrison panel mounted		
48	Width		
612	Case finish		
M	Front finish	Vertical interior partitions may be positioned on 1 1/2" increments of width anywhere across shelf, 1 1/2" in from each side. Vertical partitions contain cutouts for mounting five horizontal partitions at 2" increments on either or both sides. Horizontals are suspended between two verticals, and may be positioned end-to-end in any combination up to 3" less than cabinet width. Available in sets of 10; 6", 9", 12", 15" widths.	Reuter overhead doors without locks include black, Knoll-logo insert, in the same position.
L	With lock

	For Equity panels				RO1-EPB	66.	
	For Morrison panels				RO1-MPB	66.	
	For Reff System panels				RO1-RPB	66.	
<i>Note : Reff System panels require 2 pair for 60", 66" and 72" long Reuters.</i>							
Panel mount brackets, pair, open shelf	For Dividends panels				RS1-DPB	84.	
	For Equity panels				RS1-EPB	56.	
	For Morrison panels				RS1-MPB	56.	
	For Reff / AutoStrada panels				RS1-RPB	56.	
<i>Note : Reff System panels require 2 pair for 60", 66" and 72" long Reuters.</i>							
Upmount brackets	For Equity panels				RO1-ECB()		145.
	For Morrison panels	1/2"	10"	10"	RO1-CB()		145.
	For Reff / AutoStrada panels				RO1-RCB()		145.

Order Code	Specification Information	Application Notes	
Example: RO2-NS21-612	<i>Specify paint finish for stanchions and upmount brackets.</i>	Reuter overhead cabinets and shelves may be mounted on Network desks or other Knoll systems, upmounted, or wall-mounted. Use bracket kits on this page with Reuter storage without mounting hardware.	Specify stanchion outlets cover when planning PDC modules and/or power module in overhead support. See page for information on desktop power module.
RO2	Reuter overhead	Panel mount brackets are painted black finish.	Upmount brackets support bottom of Reuter storage 1" or 2" above, or flush with top of corresponding width Morrison, Equity or Reff panel.
NS	Network stanchions		Overhead storage may be centered on, or mount to either side of Equity post. Note that full 6" modular width Reuter storage is wider than Equity centerline-width panel surrounds.
21	Height		
612	Paint finish		
		For Morrison Network desk mount applications, overhead cabinet or shelf width must correspond to desk support width and worksurface with grommet. Stanchions bolt to desk support corner leg. Top of cabinet on stanchions aligns with adjacent 64"H vertical panels or vertical storage.	
		Specify 22"H privacy screens (to 49"H) to enclose space between overhead and desk.

Ganging bracket					RO1-GB	18.
-----------------	--	--	--	--	---------------	-----

ADA pull					RO1-PULL	73.
----------	--	--	--	--	-----------------	-----

Order Code	Specification Information	Application Notes
Example: RO1-GB	Wall mount frames are painted black finish.	Wall mount frames secure Reuter overhead cabinet or shelf to wall (frame/wall mounting hardware is not included). Frame is concealed behind storage. Use two RO1-WMF2 to wall-mount 66" - and 72"-wide Reuter overheads.
RO1 Reuter overhead	ADA pull is stainless steel.	Reuter open shelves 66" and 72"W are for stanchion support only.
GB Ganging bracket		Wall mount wire manager is two-part wire concealment kit, 22"H (medium grey only).
		Ganging bracket joins adjacent Reuter overheads or shelves for additional stiffness and alignment when storage is planned on only one side of a panel run.
		ADA pull mounts to Reuter painted front overhead door to allow seated users to close door easily. Specify one for each cabinet 24" - 48", two for cabinets 60" - 72".
		ADA pull cannot be mounted on wood front Reuter doors.

Order Code	Specification Information	Application Notes
Example: MZ1-B6619-15-W210/20	<i>Surface type:</i>	Back of worksurface screens provide visual barrier and tackable surface from underside of worksurface to a height of 42", 46" or 49".
MZ1 Morrison Network privacy screen	10- Fabric group 10	Screen widths should correspond to straight worksurface width, or sum of VDT corner and return widths.
B Back of worksurface	15- Fabric group 15	Use back of worksurface screen for VDT applications where one side is backed by a vertical panel.
66 Width	20- Fabric group 20	VDT worksurfaces will accept back screens on only one back edge.
19 Height	30- Fabric group 30	Back screens may not be used at the end of a straight worksurface; use end screens in this application.
15 Surface type and group no.	40- Fabric group 40	Privacy screens are not available in a combination of fabrics.
W210/20 Upholstery	45- Fabric group 45	Back of worksurface screens are full dimension: two smaller screens may be substituted for a larger one. For example, if using fabric grades 20-70, specify two 36" screens for a 72" surface.
	Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.	Between back-to-back straight or VDT worksurfaces specify a single 3/4" back screen. This allows back-to-back 23 5/8"D or 29 5/8"D worksurfaces to plan on a precise 6" module.
	* Screens 66"w and wider are available with fabric railroaded to fit the screens' width. Please contact Knoll Custom Product Development to establish pattern numbers.	15" high screens are used for a 42" horizon.
		19"H screens are used to fill in space between worksurface and Morrison overhead.
		22"H screens fill the space between worksurface and Reuter overhead.
		All but shared end screens start at the bottom of the worksurface.
		Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit, and stiffener clip.
		For replacement screen stiffeners see Accessories page.
		Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

Order Code

Example:	MZ1-V4822-15-W210/20
MZ1	Morrison Network privacy screen
V	VDT
48	Width
22	Height
15	Surface type and group no.
W210/20	Upholstery

Specification Information

Surface type:

10- Fabric group 10
 15- Fabric group 15
 20- Fabric group 20
 30- Fabric group 30
 40- Fabric group 40
 45- Fabric group 45

VDT worksurfaces will not accept back screens on both back edges. Use VDT screens on at least one back edge.

VDT screens are not in pairs; specify one for each back edge or one VDT screen and one back screen.

* Screens 66" w and wider are available with fabric railroaded to fit the screens' width. Please contact Knoll Custom Product Development to establish pattern numbers.

Application Notes

Privacy screens are supported by brackets fastened at worksurface inserts. Privacy screens include mounting brackets, insert kit and stiffener clip.

15" high screens are used for a 42" horizon.

19"H screens are used to fill in space between worksurface and desk mounted Morrison Network overheads.

22"H screens fill the space between worksurface and desk mounted Reuter overheads.

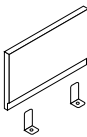

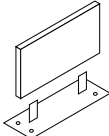

Privacy screens may be specified to achieve ASTM E-84 Class "A" flamespread rating.

* Morrison Network screens may be used with Plannable Upstart tables. Refer to front of Upstart price book for planning information.

Order Code

Example: MV3-D64F-R612	
MV3	Vertical storage
D	30" deep
64	Height
F	Front access
R	Right door hinge
612	Case and front finish

Specification Information

Specify Melamine finishes for sides, top, and back of Options Kiosk.

Options Kiosk fronts may be specified in any standard Morrison painted finish. Sides, top and back are available in melamine only.

Melamine finishes:

- 128 Fog
- 119 Pumice
- 114 Folkstone Grey

Kiosk storage is available in full painted finishes only.

- S- 24"W x 24"D
- D- 24"W x 30"D
- L- Hinged door for coats (shelves) on left
- R- Hinged door for coats (shelves) on right

All kiosks have KnollKey lock for door, and internal sliding lock switch for files.

Application Notes

Options Kiosks are freestanding wood construction vertical storage with four Morrison file drawers, hinged door cabinet, and coat storage with door. Options Kiosks have painted fronts and melamine sides, back and interior. The melamine top is finished, with lock cams and a few pilot holes visible.

Kiosks are identical to Options kiosks but painted on all surfaces.

64"H Kiosks include cabinet with hinged door over the file drawers.

18"H top cabinet attaches to 56"H Kiosk to create 74"H storage unit. Top cabinet includes front access hinged door storage over the coat storage and open shelves accessible from the sides.

File supports for kiosk drawers must be ordered separately.

Flat top caps may be specified separately to coordinate with Morrison panel top caps; vault-shaped cupolas may also be used to prevent storage above kiosk.

Kiosk back panels and extended depth top caps or cupolas are used with adjacent vertical panels.

Back panel is notched to connect to panel with brackets and trim included.

Specify straight connector track same height as vertical panel, and hi/low top cap for post configurations, in width of adjacent panel.

Order Code

Example:	MM1-PD-612
MM1	Accessory
PD	Height
612	Medium grey

Specification Information

Specify paint finishes.

Pencil tray is molded plastic and available in black or clear.

Black: N
Clear: C

Stabilizer foot attaches to connector track to stabilize panel runs.

Carpet grips snap under panel glides to prevent panel runs from sliding. Glide rotates in carpet grip to permit leveling. Coathooks engage below the top cap at any point on the vertical panel.

Pencil drawer secures underneath a worksurface.

Wall Mounting Suggestions

The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length

NOTE: A cabinet's top is considered a "useable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

		EXISTING CONSTRUCTION				
	NEW CONSTRUCTION	Cinder Block or Poured Concrete Masonry Wall	Wood Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Wood Stud Wall, the studs being only Ceiling Height	Steel Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Steel Stud Wall, the studs being only Ceiling Height

Selling Policy

	<p>This Selling Policy supercedes all previous selling policies. Prices, discounts and product offerings are subject to change without notice.</p>
Terms & Conditions of Sales	<p>Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supercede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.</p>
Ordering Information	<p>All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.</p>
Order Confirmation	<p>A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.</p>
Pricing Policies	<p>List prices are subject to change without notice.</p> <p>List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.</p>
Taxes	<p>All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.</p>
Terms of Payment	<p>Payment for one hundred percent (100%) of the net order amount is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.</p> <p>KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.</p> <p>If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.</p> <p>Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.</p>
Changes and Cancellation	<p>Purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.</p>
Freight Prepaid	<p>Freight is prepaid and included in the price of all Products, except KnollTextiles, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.</p>
Delivery/Freight Charges	<p>Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.</p> <p>For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.</p> <p>Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.</p> <p>Nonstandard methods of shipment and/or additional services are available upon request. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.</p> <p>Partial shipments may be made and invoiced by Seller.</p>
Claims	<p>All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.</p>
Seller's Security Interest	<p>Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.</p>
Returns	<p>The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.</p>
Held Orders/Storage	<p>If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.</p>

Selling Policy

Customer's Own Material	<p>A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.</p>
Warranty	<p>Seller warrants to the original Purchaser only that the Products Seller manufactures and sells to Purchaser are free of defects in workmanship and materials, during the applicable warranty period set forth below.</p> <p>Warranty period set forth below is for 24-hour, 7 days a week, multi shift use (includes parts and labor to repair).</p> <p>Should any failure to conform with this limited warranty appear to a Product listed below during the applicable warranty period from the date of shipment, Seller shall, upon prompt written notice, repair or replace, at its option and costs, the affected part or parts.</p> <p><i>Product and Period of Warranty</i></p> <p><i>Lifetime: Antenna Workspaces, AutoStrada, Calibre, Crinion Open Table, Currents, Dividends Horizon, Morrison, Reff Profiles laminate, Rockwell Unscripted, Series 2 Storage, Template and other non-wood components (except cascade edge worksurfaces, operational parts, controls, electrical, Lighting, Series 2 Veneer Front Storage, upholstery, textiles and leathers, special or custom products, see below)</i></p> <p><i>12 Years: Chadwick, Essentials Work Chairs, Generation by Knoll, k. task, Life, Moment, MultiGeneration by Knoll, ReGeneration by Knoll, Remix, and Toboggan seating (except seating upholstery, textiles, leathers and finishes, see below).</i></p> <p><i>10 Years: Anchor Storage except digital keypad lock, Antenna Workspaces, AutoStrada, Crinion Open Table, Dividends Horizon, Dividends Horizon Satellite Surfaces, Reff Profiles, Rockwell Unscripted, Template wood components, Series 2 Veneer Front Storage, cascade edge worksurfaces, Wood Casegoods (The Graham Collection) (except wood casegoods upholstered surfaces, see below), Reuter overheads, Reuter vertical storage, KnollExtra Sapper Monitor Arm Collection, Sapper XYZ Monitor Arm Series, Adjustable keyboard mechanisms and platforms, Communication Boards (except fabric board textiles, cork and FilzFelt, see below), Smokador collection (except leathers, see below), Orchestra Universal Systems Accessories, k. lounge structural components, KnollStudio Pixel and Propeller, Tone bases.</i></p> <p><i>5 Years: Operational parts, controls, electrical, Lighting (except light ballasts, bulbs and power supply, see below), special or custom product, wood veneer products and plywood, Currents handcrank, KnollStudio, Rockwell Unscripted wire bases, Spark Series seating structural elements, structural elements of all KnollStudio outdoor products including all Richard Schultz designed products, KnollExtra CPU holders and all universal storage drawers and Power Collection, k. stand bases and HiLo.</i></p> <p><i>3 Years: Rockwell Unscripted upholstery (except textiles and leather), Office Seating upholstery, textiles, leathers and finishes. Rockwell Unscripted fabric and accessories.</i></p> <p>This warranty does not apply to:</p> <ul style="list-style-type: none">• Damage caused by a carrier other than the Seller.• Normal wear and tear or acts or omissions of parties other than Seller (including user modification, improper use or installation of Products).• COM or other third party materials applied to Products.• Products not installed by or under the auspices of a Knoll Dealer.• Dramatic temperature variations or exposure to unusual conditions.• Changes in surface finishes, including colorfastness due to aging or exposure to light.• Except as specifically noted above, textiles and upholstery supplied by <i>KnollTextiles</i> and Spinneybeck FilzFelt (consult current price lists for applicable warranties). <p>Natural variations occurring in wood, marble, and leather shall not be considered defects, and the Seller does not guarantee the colorfastness or matching of the colors, grains or textures, or surface hardness of such materials. The Seller also does not guarantee the colorfastness of fiberglass panel surfaces.</p> <p>THE EXPRESS WARRANTIES CONTAINED HEREIN ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.</p> <p>The remedies provided above are the Purchaser's sole remedies for any failure of Seller to comply with its obligations regarding the workmanship of its Products. Correction of any nonconformity in the manner and for the period of time provided shall constitute complete fulfillment of all liabilities of Seller, with respect to or arising out of the Product furnished hereunder.</p>
Delay/Force Majeure	<p>Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.</p>
Compliance with Law	<p>PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.</p>
Patents	<p>Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.</p> <p>The foregoing indemnity does not apply to the following:</p> <ul style="list-style-type: none">• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.• Any settlements of a suit or proceeding made without Seller's written consent.
Limitations of Liability	<p>SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.</p> <p>Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.</p>

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$10
KBLANK	Shrouded Key Blank	\$10
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$22
KCHANGE	Change Key	\$10
HLKRKMASTER*	Master Key	\$10

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.
1235 Water Street
P.O. Box 157
East Greenville, PA 18041
Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
