

# PALADIN CARRIER

BALLISTIC PLATE CARRIER

BY **MIDWEST**

The PALADIN Plate Carrier is a lightweight carrier with a focus on utility usage without sacrificing comfort. The shoulders offer a quick release mechanism along with adjustability and padding for comfort. The cummerbund has anti-shift technology as well as the ability to store magazines without the need of using your MOLLE webbing for external pouch kits. The PALADIN offers MOLLE/PALS webbing from top to bottom of the carrier.

## FEATURES

- Outside constructed of durable 500D Cordura
- Inside constructed of sculpted cooling mesh.
- Padded shoulders with quick release buckles.
