## GENERAL INFORMATION

## TERMS AND CONDITIONS

Net 30 days on approved credit. A late payment charge of $1 \%$ per month will be applied on overdue invoices. This charge will be pro-rated to the number of days past 30 days that the invoice is overdue. All applicable sales taxes are extra. Prices include shipping to territorial warehouse. Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Krug dealers. Acceptance of any order and terms of sale may be established at the discretion of Krug. Deposits are required on orders received from new accounts as well as on large or special orders. Krug reserves the right to discontinue designs, or to change designs, construction, prices, or materials without notice.

## CUSTOMER SERVICE HOURS

Please note customer service hours are:
8:30 am to 5:00 pm est
1.888.578.KRUG
1.519.748.5177 fax

## ORDER ACKNOWLEDGEMENTS

Each order will be acknowledged via email or fax. This acknowledgement is the final agreement between Krug and the customer, superseding all previous communications regarding the purchase order. Where there is a discrepancy on a purchase order between a product code and a description, Krug will make every effort to resolve the discrepancy, but will be ruled by the product code ordered. Please check all acknowledgements for accuracy, and advise Krug of any discrepancies with a purchase order.

## CANCELLATION

A cancellation can be made only by expressed agreement with Krug. A cancellation fee may be incurred for restocking.

## DIMENSIONS

Dimensions are in inches and approximate, and subject to change without notice. Contact Customer Service if dimensions are critical.

## STORAGE CHARGES

Krug reserves the right to assess a nominal storage charge if a customer does not accept shipment of an order within a week of the ship date.

## CONTACT INFORMATION

Phone: 1.888.578.KRUG
Fax: 1.519.748.5177
Purchase Order Fax: 1.888.236.4783 or email: orders@krug.ca

## Web: www.krug.ca

Email: solutions@krug.ca

## INSTALLATION SUPPORT

For assistance please contact Technical Support at 1-888-578-5784 x216 or e-mail installationhelp@krug.ca and you will be directed to the appropriate installation support person.

## PRICING

Krug endeavors to ensure that all prices in this price list reflect accurately our current prices. However, errors do occur and will be rectified through notices to the field. Krug reserves the right to acknowledge pricing that may be different from the price list.

## WARRANTY

Krug warrants all Conference products to be free from defects in materials and workmanship for a period of 10 years from the date of purchase. This warranty is applicable to products in use by their original purchaser. This warranty does not apply to components and materials not manufactured by Krug: these are subject to the specific warranties of their manufacturers (if any). Repairs or replacement of any defect covered under this warranty by Krug will be made, at our option and method, at no charge to the original purchaser. Krug's judgement is final and binding with respect to the nature or cause of defects or damage, and the necessity or manner or repair or replacement.

This warranty does not apply to defects or damage resulting from:

- normal wear and tear occurring with the use of the product
- negligence, misuse, excessive use, alteration, improper cleaning or repair
- substitution or use of incorrect or unauthorized components or material
- handling or installation that is incorrect, or that causes damage or defect
- damage incurred by a freight carrier other than Krug
- wearing of finishes and fabrics, and normal variations in materials (including dye lot variations)
- properties of natural materials, including wood and leather
- exposure to environments with uncontrolled temperature and humidity (products must be transported, stored and used in climate-controlled conditions)

## EXPORT PACKAGING

Krug is pleased to provide the option for export packaging on all our products, to provide additional protection from damage. Export packaging is provided at an upcharge of $5 \%$ of the net selling price per item. Export Packaging is STRONGLY RECOMMENDED for:
(A) all shipments outside of the lower 48 states and Canada
(B) all shipments that will be held in storage for an extended period prior to installation. Important: Please note that Krug will not be responsible for damage claims on product shipped or stored in the above conditions where export packaging has not been utilized.

Please contact Customer Service for specifications or any other assistance regarding export packaging.

## FREIGHT TERMS AND CONDITIONS

1. All product is shipped FOB the Krug factory. Freight is either pre-paid to the destination (dealer's dock or territorial warehouse, where available) or not pre-paid, depending on established customer specific freight terms.
2. Docks at the selected delivery location must be equipped to handle a 53' trailer. If a dock is inadequate for delivery by Krug, Krug will re-deliver to another local location and any additional costs will be charged to the customer.
3. When a Krug territorial warehouse (where available) is selected as the default delivery location, Krug pays freight cost to the territorial warehouse only, and no further. The Customer is responsible for all charges from this point.
4. For all deliveries, it is understood that Krug or its agent is making a dock delivery only (equipped to handle a 53' trailer), and any further work of truck unloading, delivery beyond the dock, installation, and removal of packaging is not authorized or paid for by Krug.
5. Drop shipments to the installation site, and timed deliveries, are available on larger shipments (full truckloads or slightly less) at no additional charge. Drop shipments or timed deliveries for smaller shipments may not be available, or if available will require a surcharge. Deliveries on an after hours basis, or on weekends, or any other special requirements, may be subject to a surcharge. Location and contact information, and the requested time of delivery, is required at least one week prior to the acknowledged shipment date. If this information is not provided one week in advance, or if the location or time of the drop shipment is changed less than one week in advance, a surcharge may be applied, and/or the drop shipment may not be scheduled.
6. For all deliveries - whether to the Customer location or drop shipment - any circumstances that result in the delay of our carrier (including unsuitable receiving facilities, or facilities not open or available), service charges will be applied at the rate of $\$ 75 /$ hour. Where re-delivery is necessary because of these circumstances, the full cost of re-delivery will be charged.

## CUSTOMER SATISFACTION

It is the primary goal of Krug and our staff to ensure the complete satisfaction of our customers with our products and performance.
If a problem arises with a Krug product after the expiration of the limited warranty period, Krug will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

## DAMAGED SHIPMENTS

All Krug product is well engineered, carefully inspected, and expertly loaded onto our trucks at our Distribution Center. If you receive any damaged freight, we ask that you do not refuse the shipment. Krug is not responsible for damage to goods that occurs in transit or storage. It is the purchaser and/or receiver's responsibility to examine the goods upon receipt and to notify Krug of any damages, overages or shortages. Any discrepancies should be noted on the Bill of Lading. The delivering carrier will not accept responsibility for shortages or damages if signed "clear". Notification of concealed damage claims must be made to Krug Distribution within 5 days of delivery, along with digital pictures if available. All product and packaging must be available for inspection. Krug liability ceases after 5 business days and Krug will not be responsible for concealed damages if shipments are left unopened.
Krug is not responsible for the condition of product that is stored or installed in an environment where temperature and humidity are not controlled.

## TESTING

All Krug Conference products meet or exceed the testing requirements of ANSI/BIFMA X5.5-2014 or X5.9-2012.

## FIELD PRODUCT REPORT AUTHORIZATION

Krug's written authorization, in the form of an FPR number, must be obtained prior to incurring charges of any kind if Krug is expected to pay these charges. This includes authorization for field repairs and replacements, installation and delivery charges. Krug reserves the right to have its representative inspect product related to any request for such authorizations, prior to that authorization being provided. Deductions from invoices paid for any charges to Krug, without prior written authorization in the form of an FPR, will not be accepted. Digital photographs may be required to complete the FPR process.

## RETURNS

No merchandise may be returned without Krug's prior written consent. In the event of an authorized return, a Field Product Report (FPR) number will be issued, and a restocking charge will apply. Return transportation charges must be prepaid. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packaged in its original or comparable replacement packaging to ensure protection of the product during handling and transportation. Returns on orders duplicated by the customer must be received in their original packaging to be accepted.

Product being returned where Krug has authorized its liability for replacement or repair will be thoroughly inspected on its return, and the results compared to the reason for the return stated on the FPR. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

## CARE AND MAINTENANCE <br> Wood Finishes

Although Krug's extensive finishing process ensures a durable finish on all our products, there are several steps that can be taken to protect and prolong the life and beauty of the finish. Protect the top by placing felt pads on the bottom of any accessories and mechanical equipment. Rubber and oil will permanently mark surfaces. Use a desk pad to prevent possible damage and imprinting caused by writing instruments and sharp objects. Dust only with a clean, dry cloth, going with the grain. Clean any marks with a damp cloth, using a small quantity of mild soap or detergent.

Do not use any wax-based polish, spray or silicone. Eventually, a film will build up and discolor the top. Do not place your furniture in a position of permanent exposure to direct sunlight.

## Plastic Laminates

Clean plastic laminates with mild soap and warm water. Do not use steel wool, hot water, or any abrasive cleaning product.

## CUSTOM CAPABILITIES

Over 15\% of our orders involve some type of custom work, and we invite our customers to make use of our extensive capabilities. These include:

1) Dimensional customization of standard size products
2) Custom wood finishes
3) For larger orders, completely custom-designed products, as well as non-standard wood species can be specified.

Custom orders may require additional production lead times. Contact Customer Service for more information.

1KRUG

KRUG EXPRESS

## PROGRAM DETAILS

KrugExpress orders are ready to ship by the date acknowledged. Delivery and shipping schedules may result in actual shipping of orders at a later date. Statutory holidays and scheduled factory vacations may add to acknowledged lead times of KrugExpress orders. Unless otherwise specified on the order, the customer's standard method of shipping Krug products will be utilized.

Available factory capacity for KrugExpress is filled by orders received on a "first come, first serve" basis. If the normal KrugExpress lead time is not available for your order because available capacity has been filled, you will be immediately advised of the earliest available ready-to-ship date. Please consult your Customer Service representative in advance if you wish to confirm the specific lead time availability for a KrugExpress order.

Orders must be received by midnight of a given day for that day to be considered the official day the order is received. Order lead times are acknowledged from the date the order is received, but not including the date the order is received.
KrugExpress orders must be "clean" when received in order to be considered officially received on a given day, and lead times will be acknowledged from the date orders are determined to be "clean".

Changes to KrugExpress orders are not allowed under any circumstances. Orders for product on KrugExpress must clearly state: "KrugExpress".

## KRUG PANEL FABRIC PROGRAM

Tackboards can be upholstered in COM material supplied by the customer, and in a selection of stocked tackboard fabrics supplied by Momentum. The Momentum Panel fabrics are available on Krug Express. They are 100\% polyester. For additional information and color selections, please refer to our Panel Fabrics card and Krug's website.
www.krug.ca PRODUCTS / FABRICS / PANEL
The Momentum panel fabrics pass ASTM-E84-87 Fire Codes. If memo samples are required please call Momentum at 1-800-366-6839.

LEED CI - Credit Summary
NUVO CONFERENCE

CONTRIBUTES TO

| CREDIT 2.1-2.2 | Construction Waste Management | $1-2$ point(s) |
| :--- | :--- | ---: |
| CREDIT 4.1 | Recycled Content | 1 point |
| CREDIT 4.2 | Recycled Content | 1 point |
| CREDIT 4.5 | Low Emitting Materials, (must be requested) |  |
|  | Composite Wood \& Laminate Adhesives | 1 point |
| CREDIT 5.1 | Regional Materials* | 1 point |
| CREDIT 6 | Rapidly Renewable Materials (muST BE REQUESTED) | 1 point |
| CREDIT 7 | Certified Wood (mUST bE REQUESTED) | 1 point |

* This credit is only applicable if in total $20 \%$ of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

## level ${ }^{\circledR}$ CERTIFICATION, AIR EMISSIONS AND FSC® ${ }^{\circledR}$ CERTIFICATION

level ${ }^{\otimes}$ CERTIFICATION
BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy \& Atmosphere, Human \& Ecosystem Health and Social Responsibility. Nuvo products have earned level $®$, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

## AIR EMISSIONS

All Nuvo products can be supplied with air emissions-certified materials. Contact customer service for information and upcharges.

## FSC ${ }^{\circledR}$

In 2005, Krug received Forest Stewardship Council ${ }^{\circledR}\left(\right.$ FSC $\left.^{\circledR}\right)$ Chain-of-Custody certification for our manufacturing facilities. The FSC ${ }^{\circledR}$ Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Nuvo and other Krug products can be specified with one of two types of FSC ${ }^{\circledR}$ Certification: (a) FSC ${ }^{\oplus}$-certified (which includes $\mathrm{FSC}^{\oplus}$-certified lumber, veneer and substrate material)
(b) FSC ${ }^{\circledR}$-mix certified (which includes substrate material only, and is a lower cost option certification) Contact customer service for further information, pricing and lead times.

In addition, architects, designers, and building professionals can specify FSC ${ }^{\circledR}$-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

NUVO | WOOD SPECIES, FINISH AND LAMINATES

| ANIGRE | Clear Sycamore |

## PALETTE FINISHES - BASES ONLY

Black
White
Sand
Soft Green
Steel Blue
Slate

Non-Standard Wood Species will also be available upon request, please contact Customer Service to obtain a quote.

## VENEERS

Nuvo veneers are quarter cut, except for White Oak which is rift cut - both quarter cut and rift cut veneers provide a straight grain appearance.

## NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## CUSTOM WOOD FINISHES

Add 10\% list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.) For orders with special finishes, a sample that is a minimum 3 " by 3 " must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## FINISH

Nuvo Conference Tables feature Krug's finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

## LAMINATES

Krug's in-stock Laminates are available in 17 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Polymer Edge will be selected to match the worksurface. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

## Non-Stocked Laminates

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stock laminates may require a minimum order quantity, please contact customer service. Stocked polymer edges only can be specified for use with non-stocked laminates or tops will be self-edged.
6 | USA | CONFERENCE

Nuvo Conference products offers 8 table top shapes in 6 veneer species in addition to 13 wood grain, 4 solid laminate selections. Veneered tops are $11 / 2^{\prime \prime}$ thick veneered fiberboard MDF core and backer material, with a $1 / 8$ " wood edge. Laminate tops are $11 / 2^{\prime \prime}$ thick with fiberboard MDF core and backer material, with a PVC edge. Conference tops are available with these profiles.

## BASES

All bases are shipped separately and require assembly to support beams and/or tops.
All wood bases, with the exception of panel bases, offer large interior cavities for cable routing and allow for total concealment of wiring when floor monuments are located underneath. Bases are equipped with removable panels which make access to the interior quick and easy.

Refer to the base requirements chart on pages 64-71 to select the appropriate bases and sizes for conference tables.
Formed Metal Bases are available in Matt Gloss finish.
Base plates are available in a choice of Wood, Palette, Laminate or Gloss Aluminum finish.

## CONSOLES

Consoles are available in $14^{\prime \prime}, 27^{\prime \prime}, 36$ ", $42^{\prime \prime}$ and 50 " lengths, and can be located within a top section or across a seam. Consoles located within a table section will be factory installed. Consoles located across the seam are ordered by a separate model number and will be shipped as a separate item for field installation.

The console access cover allows wiring to pass through to the console module from all sides. The console access cover can be operated from either side of the table for easy access to the console module and opens to a $95^{\circ}$ angle from the top of the table. Console access covers are available in Gloss Aluminum with Polished Chrome end bezels.

## CONSOLE POWER/DATA/MEDIA MODULES

Console power/data/media modules are available in 18 preconfigured options or can be customized by adding plate-mounted or snap-in data ports to any of the 4 standard power modules. The number of console modules per console is dependent on the console size; 1 unit in $14^{\prime \prime}$ lengths, 2 units in $27^{\prime \prime}$ and $36^{\prime \prime}$ lengths, and 3 units in $42^{\prime \prime}$ and 50 " lengths. Console power modules are available in three cord lengths ( $6^{\prime}, 16^{\prime}$ and $25^{\prime}$ ). A utility outlet is available in some console module models for connecting power within a table. Up to 10 duplex receptacles can be connected to one electrical circuit. Faceplates, duplex receptacles and data components are white.

## SUPPORT BEAMS

Aluminum support beams provide strength and support to the conference tops. Support beams are field installed onto the bases allowing for top-on-last installation for all base styles except the formed metal base. Powder coated steel trough pans located between the support beams accommodate under-surface cable management and runs cables to interior base cavities to access floor monuments.

## SEATING CAPACITY

To establish seating capacity, an outside chair dimension of 24 " has been used for this price guide, plus an allowance of 5 " between chairs, for a total of 29 ". This is an approximation only. When using another chair, particularly seating with a 5 prong caster base, be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use the same formula, when seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Nuvo Conference Tables.

## VENEER

Veneers available are Rift White Oak, Quarter Cut Maple, Cherry, Walnut, Anigre and Sycamore.

## FINISH

A five step catalyzed varnish finish that when dry has a sheen value of $32^{\circ}$, is applied to all tables, bases and cases. A lower sheen topcoat, $20^{\circ}$, can also be specified, at standard pricing. All purchase orders must clearly note "lower sheen finish" in order to receive this optional selection.

All finished surfaces are well sanded before applying finishing materials. The procedure begins by applying a base color via an NGR stain. A wash coat follows to further enhance the color. Next is the glazing process, which provides the 3rd color step and fills the pores of the wood. A sealer coat is then applied, twice to the horizontal worksurfaces to enhance the finish. The product is then scuff sanded to prepare for the top coat. The top coat is a catalyzed varnish that when dry has a sheen value of $32^{\circ}$. Krug's catalyzed varnish has been tested to be one of the industry's most durable and long lasting. Custom finishes are available at an upcharge of $10 \%$ list per unit.

## GLIDES

Wood bases feature adjustable glides $1 \frac{1}{2} / 2^{\prime \prime}$ long and allow for a range of adjustment of $3 / 4 \prime$ ". Metal bases have $1 / 2^{\prime \prime}$ glides.

## NUVO | GUIDELINES AND PRICING METHODS

## LAMINATE WORKSURFACES

Laminate is available on all Nuvo Conference Tops; refer to Krug's standard laminate program on page 6. Krug will order and procure laminates. Purchase orders with a plastic laminate option must include Laminate Name.

Krug reserves the right to decline a laminate that may not be suitable for the application. Krug assumes no responsibility for durability or consistent color. The number of sections on $48^{\prime \prime}$ wide Laminate tops, on some table sizes, are different than the same size wood top. This is due to the size of laminates available. See table sections column on pages 12-16. Please note the grain direction of wood grain laminates will run lengthwise on 1 piece tops and crosswise on multiple piece tables. The grain direction of wood grain laminate will run horizontal on the backs of credenzas and buffets.

## CUSTOM SIZING

Custom sizing and additional customization is available on Nuvo Conference Tables. Tops may be ordered with a reduced number of sections at an upcharge. For more information or to obtain quotations, please contact Customer Service.

## STANDARD TABLE SHAPES

Rectangular
Model Number: 5161
Glass Top 5161GP

Visio-Arc Ends
Model Number: 5168
Glass Top 5168GP

Arc End

Oval
Model Number: 5159 Glass Top 5159GP

Racetrack
Model Number: 5102 Glass Top 5102GP

Arced Square
Model Number: 5166
Glass Top 5166GP

Boat Shaped-Arc Ends Model Number: 5164 Glass Top 5164GP

Round
Model Number: 5105
Glass Top 5105GP

## SQUARE CORNER TOPS

Nuvo conference tables may be specified with Square Corners in all shapes with rounded corners. To order these additional configurations, please replace the standard model number with the number listed: Rectangular = 5101, Arc End = 5106, Boat Shape-Straight End =5104, Boat Shape-Arc End $=5154$, Visio-Straight End $=5108$, Visio-Arc End $=5158$, Arc Square $=5156$. Pricing for tops with square corners is the same as standard tops.

## CONNEXUSTM

Nuvo conference tables with wood and laminate tops may be specified with Connexus ${ }^{T M}$ modules in the standard console locations within a top section, please use standard Connexus ${ }^{\top \mathrm{M}}$ pricing when specifying table power/data requirements. These prices are added to the price of the top and bases. Connexus ${ }^{\text {TM }}$ modules are available in an Aluminum or Glass faceplate, in 2 sizes, Standard and Large.

## GLASS SURFACES

Nuvo conference tops are available in white back-painted 10 mm tempered glass. Please contact customer service for additional color selections available at no upcharge. Color options also on website.

## SOLID SURFACES

Solid Surface tops are available on conference tops. The solid surface standard top option is white, with additional colors available upon request. Solid surfaces are composed of minerals, acrylic resins that are non-porous and stain, scratch and dent resistant. Color is throughout the material, so surface scratches are not as visible. Please contact customer service with specifications for a quote.

## MICROPHONE CUT OUTS

Microphone cut outs are available for $\$ 274$ list per table for up to 7 microphone cutouts. For Back-Painted Glass tops add an additional $\$ 90$ list per cut-out.

## TESTING

All products have been tested in accordance with ANSI/BIFMA X5.5-2014 or X5.9-2012.

1) Specify table top shape, size, model number and top material. For wood and laminate tops see pages 12-16, for Back-Painted Glass see pages 45-51.
2) Select base shape, size and model number using Base Requirements chart on pages 64-71
3) Specify console location (end sections, middle sections or across the seam) and size option. For wood top see pages 18-27, for Back-Painted Glass see pages 45-51.
4) Cross seam console model number, where applicable. For wood top see page 38, for Back-Painted Glass see page 52. Please note: Across seam consoles are field installed and have a separate model number.
5) Specify Console Power module options. Preconfigured Console Modules, see page 53. Custom Console Modules, see page 57.
6) Add plate-mounted data or snap-in data options to custom module, see port options on pages 58.

Purchase orders must include:

- Wood Species and Finish
- Base Plates - Gloss Aluminum, Palette, Laminate or Wood

# NUVO | CABLE MANAGEMENT 

## CONSOLES \& CABLE MANAGEMENT

All Nuvo Conference tables feature cable management capabilities for routing cables between the floor monuments and the consoles that provide voice/power/data/media connections.

Support beams connect the bases and provide additional support for the conference top. Support beams enable top-onlast assembly of the tables - this shortens the installation time, requires fewer installers, and helps to prevent damage to table tops. Data cables can be connected to the power/data modules and dropped into the base and connected to the source prior to the installation of the top. After the top is installed, the power modules are bolted into the threaded inserts in the top. Cable troughs located between the support beams offer generous space for cable management and are supplied with grommets to allow for cables to pass through to the base interior cavities.

Bases feature sizable cutouts at the bottom, providing access to floor monuments. With the exception of Panel and Formed Metal Bases, bases allow for total concealment of wiring when floor monuments are located underneath. Access doors are provided on the inward-facing vertical side of the bases, providing quick access to cabling in the interior. Formed Metal bases are available with an external cable management system and cables are run to the floor using a Metal Cable Manager or Spine Cable Manager.

The Console modules are housed within the support beam and provide power and communications connectivity. Console modules utilize UL standard receptacle outlets. Console modules are available in 18 pre-configured configurations, or can be custom-configured in unique configurations - or alternatively can be specified with blank ports, so customers can purchase and insert their own outlets. Console modules also can be designed and built specifically to meet your connectivity needs by using the Snap-in or Plate mounted port options. Console modules are available with three electrical cord lengths ( $6^{\prime}, 16^{\prime}$, and $25^{\prime}$ ). Console modules with a utility outlet will allow units to be linked together to a maximum of 10 duplex receptacles per circuit. The number of console modules is dependent on the console size; 1 unit in 14 " lengths, 2 units in $27^{\prime \prime}$ and 36 " lengths, and 3 units in

SUPPORT BEAMS \& CABLE TROUGH

CONSOLE MODULE
 42 " and 50 " lengths.

Consoles are available in $14^{\prime \prime}, 27^{\prime \prime}, 36^{\prime \prime}, 42^{\prime \prime}$ and 50 " lengths, and can be located within a top section, or can span top section seams. The console access cover allows wiring to pass through to the console module from all sides. Console access covers are operated from either side of the table for easy access to the console module and open to a $95^{\circ}$ angle from the top of the table. Console access covers are available in a Gloss Aluminum finish with polished chrome end bezel. There are some limitations in glass, please see page 44.

NUVO | RECTANGULAR CONFERENCE TOPS

NOTE: Support Beams are included in top price. An additional line item for the support beam will be included on the order acknowledgement at no charge.

## RECTANGULAR - SQUARE CORNER TOPS:

 510114448 Pricing is the same as standard tops.

## LAMINATE TABLE SECTIONS:

The number in brackets under table sections, refers to the number of sections when ordering laminate tops, if different than the number of sections for the same size wood top. Please note the grain direction of wood grain laminates will run lengthwise on 1 piece tops and crosswise on multiple piece table tops.

## ORDERING PROCEDURES

To order, please specify the following:

1) Table top shape, size, model number and wood species
2) Base model number
3) Console location and size option
4) Cross seam console model number, where applicable
5) Console power module and data options

## DIMENSION KEY

## L - length

W - Width
Dimensions are in inches and approximate.
Contact Customer Service if dimensions are critical.

## STANDARD FINISHES

For a complete list of standard wood finishes, please see page 6

## BASE REQUIREMENTS

See pages 64-71 for base requirements

## CONSOLE SIZE \& LOCATIONS

For information on Console locations and size options, see page 18 for wood and page 28 for laminate.

## CONSOLE POWER/DATA MODULE OPTIONS

See page 53 for Console Module Options

## TABLE SECTION SIZE

Section sizes can be calculated by dividing the table length by the \# of sections

## ARC END TABLE - SQUARE CORNERS:

Arc End tops are available with square corners. Replace the model number prefix with 5106. e.g. 516612042 becomes 510612042 . Pricing is the same as standard tops.

## LAMINATE TABLE SECTIONS:

The number in brackets under table sections, refers to the number of sections when ordering laminate tops, if different than the number of sections for the same size wood top. Please note the grain direction of wood grain laminates will run lengthwise on 1 piece tops and crosswise on multiple piece table tops.

## SEATING CAPACITY:

The number in brackets is the seating capacity when formed metal legs are used if different than the seating capacity when other bases are used.

## ORDERING PROCEDURES

To order, please specify the following:

1) Table top shape, size, model number and wood species
2) Base model number
3) Console location and size option
4) Cross seam console model number, where applicable
5) Console power module and data options

## DIMENSION KEY

L - Length
W - Width
Dimensions are in inches and approximate.
Contact Customer Service if dimensions are critical.

STANDARD FINISHES
For a complete list of standard wood finishes, please see page 6

## BASE REQUIREMENTS

See pages 64-71 for base requirements

## CONSOLE SIZE \& LOCATIONS

For information on Console locations and size options, see page 18 for wood and page 28 for laminate.

## CONSOLE POWER/DATA MODULE OPTIONS

See page 53 for Console Module Options
TABLE SECTION SIZE
Section sizes can be calculated by dividing the table length by the \# of sections

## VISIO - ARC END, SQUARE CORNERS:

Visio Shape Tops with Arc Ends are available with square corners. For Arc End-Square corners, replace the model suffix with 5158. e.g. 51681446042 becomes 51581446042 . Pricing is the same as standard tops.
VISIO - STRAIGHT END, SQUARE CORNERS:
Visio Shape Tops with Straight Ends are available with square corners. For Arc Straight End-Square corners, replace the model suffix with 5108. e.g. 51681446042 becomes $\mathbf{5 1 0 8 1 4 4 6 0 4 2 \text { . Pricing is the same as standard tops. }}$

## ORDERING PROCEDURES

To order, please specify the following:

1) Table top shape, size, model number and wood species
2) Base model number
3) Console location and size option
4) Cross seam console model number, where applicable
5) Console power module and data options

## DIMENSION KEY

L - Length
W - Width
Dimensions are in inches and approximate.
Contact Customer Service if dimensions are critical.

STANDARD FINISHES
For a complete list of standard wood finishes, please see page 6

## BASE REQUIREMENTS

See pages 64-71 for base requirements

## CONSOLE SIZE \& LOCATIONS

For information on Console locations and size options, see page 18 for wood and page 28 for laminate.

## CONSOLE POWER/DATA MODULE OPTIONS

See page 53 for Console Module Options
TABLE SECTION SIZE
Section sizes can be calculated by dividing the table length by the \# of sections

NUVO | OVAL, ARCED SQUARE \& ROUND CONFERENCE TOPS

| Description | Model | Laminate Oak, Maple, Cherry | Anigre, Sycamore Walnut | L | W | Table Sections | Approximate Seating | Shipping Weight | Cubic Feet |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  | 510554 | 2316 | 2547 | 54 Dia. | 1 | 5 | 100 | 7 |
|  | 510560 | 2698 | 2968 | 60 Dia. | 1 | 5 | 123 | 8 |

## ORDERING PROCEDURES

To order, please specify the following:

1) Table top shape, size, model number and wood species
2) Base model number
3) Console location and size option
4) Cross seam console model number, where applicable
5) Console power module and data options

## DIMENSION KEY

L - Length
W - Width Dimensions are in inches and approximate.
D - Depth Contact Customer Service if dimensions are critical.
H-Height

## STANDARD FINISHES

For a complete list of standard wood finishes, please see page 6

## BASE REQUIREMENTS

See pages 64-71 for base requirements

## CONSOLE SIZE \& LOCATIONS

For information on Console locations and size options, see page 18 for wood and page 28 for laminate.

## CONSOLE POWER/DATA MODULE OPTIONS

See page 53 for Console Module Options

## TABLE SECTION SIZE

Section sizes can be calculated by dividing the table length by the \# of sections

## CONSOLE ORDERING CODE (WITHIN THE TABLE SECTION - 4 CHARACTER CODE)

1st character specifies top sections from left to right on table: $A, B, C, D, E, F$
2nd character specifies console location within top section: M, I, L, R
M- Middle of top on one piece table
M- Middle of top section on multi section table
I - Inset 3" from seam on end sections

L- Left side of a one piece top
R- Right side of a one piece top
3rd and 4th characters specify console size: 14, 27, 36, 42, 50
Examples:

Table Size: $96 " \times 36 "$

Table Size: $168 " \times 48 "$

Table Size: 96 "x 36"

Table Size: 144 " x 48"

$Y=$ Dimension from end of table to end of console
18 " or greater, cannot be less than 18 "

CONSOLE ORDERING CODE (ACROSS SEAM - 5 CHARACTER CODE)
1st and 2nd character specifies section from left to right on table: $A B, B C, C D, D E, E F$
3rd character specifies console location across the seam: $X$

4th and 5th characters specify console size: 14, 27, 36, 42, 50

Examples:

Table Size: $288 " \times 60 "$

$Y=$ Dimension from end of table to end of console

## CODE KEY

M - Console location, middle of top section
I - Console location, Inset 3" from seam on end sections
X - Console location, across a seam of two top sections
L - Console location, left side of a one piece top
R - Console location, right side of a one piece top
Y - Dimension from end of table to end of Console
Caution: Y greater than 30" makes access to Console Power/Data difficult from the end of the table

## CONSOLE SIZE \& LOCATIONS

See pages 18-27 for information on console locations and size options for wood tops, and pages 28-37 for laminate tops locations and sizes

## CONSOLE MODULE OPTIONS

See pages 53-61 for power / data options

## ORDERING NOTES

Tops may be specified with fewer consoles and configurations other than shown. Consoles can be different sizes within the same top. Dimension from end of cut-out to table end cannot be less than 18".

## CODE KEY

M - Console location, middle of top section
I - Console location, Inset 3" from seam on end sections
X - Console location, across a seam of two top sections

Tops may be specified with fewer consoles and configurations other than shown. Consoles can be different sizes within the same top. Dimension from end of cut-out to table end cannot be less than 18 ".

## NUVO | CONSOLES FOR WOOD \& LAMINATE TOPS

## CONSOLE - WITHIN A TOP SECTION

Consoles located within a top section are factory installed. The model numbers are determined by the location within each section and the size. For example, when ordering a rectangular top 96 " $\times 54$ " a console M14 can be specified in both the A and/or B section of the table. When ordering, simply add AM14 and BM14 to your purchase order and add the list price for each console to your order.

| Description | Model | Console size | Price | Weights | Cubes |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | M14, I14, L14,R14 | 14 | 192 | 3 | . 25 |
|  | M27, I27 | 27 | 214 | 4 | . 25 |
| $\rightarrow$ | M36, I36 | 36 | 241 | 5 | . 25 |
|  | M42, 142 | 42 | 263 | 5.5 | 0.5 |
|  | M50, 150 | 50 | 290 | 6 | 0.5 |
|  | Consoles are available in 5 standard lengths. |  |  |  |  |

## CONSOLE - ACROSS SEAMS

Consoles located across the seam are field installed and have separate model numbers that need to be included on your purchase order along with the desired console position. For example, when ordering a rectangular top 120 " $\times 54$ " with a console across the seam, purchase orders need to specify the model number for the console (51CONSOLEX27) and the location ABX27.

|  | Model | Console size | Price | Weights |
| :---: | :---: | :---: | :---: | :---: |
|  | 51CONSOLE-X14 | 14 | 192 | 3 |

[^0]
## CONSOLE SIZE \& LOCATIONS

See pages 18-27 for information on console locations and size options for wood tops, and pages 28-39 for laminate tops locations and sizes

## CONSOLE MODULE OPTIONS

See pages 53-61 for power / data options

## ORDERING NOTES

Tops may be specified with fewer consoles and configurations other than shown. Consoles can be different sizes within the same top. Dimension from end of cutout to table end cannot be less than 18 ".

Console modules provide an extensive range of power, data and audio-visual solutions for today's conferencing environments. Console modules are available in 18 preconfigured data and power options, or alternatively console modules with just electrical ports can be selected allowing units to be designed and built specifically to meet your connectivity needs by using the Snap-in or Plate mounted port options.

## Consoles are available with 3 power options in both preconfigured \& custom console modules.

Power Module A (PMA) consists of 2 duplex receptacles with 3 cord lengths $6^{\prime}$, 16' \& 25'.
Power Module B (PMB) consists of 1 duplex receptacle with 3 cord lengths 6', 16' \& 25'.
Power Module C (PMC) consists of 2 duplex receptacles with a utility outlet \& circuit breaker with 2 cord lengths $6^{\prime}$ \& 16'. The utility outlet in Module C allows another power module within the table to be plugged into it resulting in 1 cord going to the power source for both modules, as well as circuit protection for both modules. This also means shorter cord lengths can be specified resulting in a more cost effective power solution. Krug recommends the use of Module C's on the Console at the end of the table or location in the table nearest the power source.

## Examples:

$120 "$ table with 2 consoles \& the power source at right end.
Use a PMC06 in the 1st console from the right \& the cord goes to power source.
Use a PMA06 in the 2nd console from the right \& the cord goes to the utility outlet of the first console module.
168" table with 4 consoles \& power source at right hand end.
Use a PMC06 in the 1st console from the right \& the cord goes to power source.
Use a PMC06 in the 2nd console from the right \& the cord goes to power source.
Use a PMA06 in the 3rd console from the right \& the cord goes to utility the outlet in the 1st console module.
Use a PMA06 in the 4th console from the right \& the cord goes to utility the outlet in the 2nd console module.
See page 63-67 for pricing.

|  | 5821 | 54 Dia. | 1 | 5 | 200 | 64 |  |

## ORDERING PROCEDURES

To order, please specify the following:

1) Table top shape, size, model number, glass color
2) Base model number
3) Console location and size option
4) Cross seam console model number, where applicable
5) Console power module and data options

## DIMENSION KEY

L - Length
W - Width
Dimensions are in inches and approximate.
Contact Customer Service if dimensions are critical.

## BASE REQUIREMENTS

See pages 64-71 for base requirements

## CONSOLE SIZE \& LOCATIONS

See pages 45-511 for information on Console locations and size options

## CONSOLE POWER/DATA MODULE OPTIONS

See pages 53-61 for Console Module Options

## TABLE SECTION SIZE

Section sizes can be calculated by dividing the table length by the \# of sections

## CONSOLE ORDERING CODE (WITHIN THE TABLE SECTION - 4 CHARACTER CODE)

1st character specifies top sections from left to right on table: A, B, C, D
2nd character specifies console location within top section: $M, L, R$
M- Middle of top on one piece table
M- Middle of top section on multi section table
L- Left side of a one piece top
R- Right side of a one piece top
3rd and 4th characters specify console size: 14, 27, 36,
Examples:

$Y=$ Dimension from end of table to end of console

## CONSOLE ORDERING CODE (ACROSS SEAM - 5 CHARACTER CODE)

1st and 2nd character specifies section from left to right on table: $A B, B C, C D$
3rd character specifies console location across the seam: X

4th and 5th characters specify console size: 14, 27, 36,
Example:
Table Size 168" - 192" X 48"

$Y=$ Dimension from end of table to end of console

| Back-Painted Glass Console Options | Top Length | Console Options Top End Section | Console Options Within Top Center Section | Console Options Across Seam | Y |
| :---: | :---: | :---: | :---: | :---: | :---: |

Tops may be specified with fewer consoles and configurations other than shown. Consoles can be different sizes within the same top. Dimension from end of cutout to table end cannot be less than 18 ".

## NUVO | CONSOLES FOR BACK-PAINTED GLASS TOPS

## CONSOLE - WITHIN A TOP SECTION

Consoles located within a top section are factory installed. The model numbers are determined by the location within each section and the size. For example, when ordering a rectangular top 96 " $\times 54$ " a console M14 can be specified in both the A and/or B section of the table. When ordering, simply add AM14 and BM14 to your purchase order and add the list price for each console to your order.

| Description | Model | Console Size | Price | Weights | Cubes |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | M14, L14,R14 | 14 | 192 | 3 | . 25 |
|  | M27 | 27 | 214 | 4 | . 25 |

## CONSOLE - ACROSS SEAMS

Consoles located across the seam are field installed and have separate model numbers that need to be included on your purchase order along with the desired console position. For example, when ordering a rectangular top 120 " $\times 54$ " with a console across the seam, purchase orders need to specify the model number for the console (51CONSOLEX-14) and the location ABX14.

| Description | Model | Console Size | Price | Weights | Cubes |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 51CONSOLE-X14 | 14 | 192 | 3 | 0.25 |
|  | 51CONSOLE-X27 | 27 | 214 | 4 | 0.25 |
| $\cdots$ | 51CONSOLE-X36 | 36 | 241 | 5 | 0.25 |

## NUVO | CONSOLE POWER/DATA MODULES

Console modules provide an extensive range of power, data and audio-visual solutions for today's conferencing environments. Console modules are available in 18 preconfigured data and power options, or alternatively console modules with just electrical ports can be selected allowing units to be designed and built specifically to meet your connectivity needs by using the Snap-in or Plate mounted port options. Consoles are available with 3 power options in both preconfigured \& custom console modules.
Power Module A (PMA) consists of 2 duplex receptacles with 3 cord lengths 6', 16' \& 25'.
Power Module B (PMB) consists of 1 duplex receptacle with 3 cord lengths $6^{\prime}$, $16^{\prime}$ \& $25^{\prime}$.
Power Module C (PMC) consists of 2 duplex receptacles with a utility outlet \& circuit breaker with 2 cord lengths 6' \& 16'. The utility outlet in Module C allows another power module within the table to be plugged into it resulting in 1 cord going to the power source for both modules, as well as circuit protection for both modules. This also means shorter cord lengths can be specified resulting in a more cost effective power solution. Krug recommends the use of Module C's on the Console at the end of the table or location in the table nearest the power source.

## Examples:

120 " table with 2 consoles \& the power source at right end.
Use a PMC06 in the 1st console from the right \& the cord goes to power source.
Use a PMA06 in the 2nd console from the right \& the cord goes to the utility outlet of the first console module.
168 " table with 4 consoles \& power source at right hand end.
Use a PMC06 in the 1st console from the right \& the cord goes to power source.
Use a PMC06 in the 2nd console from the right \& the cord goes to power source.
Use a PMA06 in the 3rd console from the right \& the cord goes to utility the outlet in the 1st console module.
Use a PMA06 in the 4th console from the right \& the cord goes to utility the outlet in the 2nd console module.

## CODE KEY

M - Console location, middle of top section
X - Console location, across a seam of two top sections
L - Console location, left side of a one piece top
R - Console location, right side of a one piece top
Y - Dimension from end of table to end of Console
Caution: Y greater than 30" makes access to Console Power/Data difficult from the end of the table

## CONSOLE SIZE \& LOCATIONS

See pages 45-511 for information on Console locations and size options

## CONSOLE POWER/DATA MODULE OPTIONS

See pages 53-61 for Console Module Options

## ORDERING NOTES

Tops may be specified with fewer consoles and configurations other than shown. Consoles can be different sizes within the same top. Dimension from end of cut-out to table end cannot be less than 18 "

## NUVO | STANDARD CONSOLE POWER/DATA/MEDIA CONFIGURATIONS

There are 3 versions of console power/data module: A, B, C. Version C has an utility outlet, this also allows another power module to be plugged into it allowing a shorter cord to be used.

NOTE: Open positions will accept 1 Plate Mounted Data Option or up to 6 Snap-In Data Options. Please order a blank port when an odd number of snap-in ports are specified.

When specifying data within the power console module, please provide reference code and port position (1, 2, 3 or 4 ).

PLATE MOUNTED DATA OPTIONS
See page 58-59 for Plate Mounted Data Options
SNAP-IN DATA OPTIONS
See page 60-61 for Snap-In Data Options

DVI-I DUAL (DIGITAL/ANALOG) \& 3.5 STEREO MINI - Use for DVI Integrated-Digital and Analog connections and for 3.5 mm stereo connection. The DVI connector is a Dual Link. DVI-I connector is a female-to-female pass through and the 3.5 Mini is a female input with screw terminal output (back side of Console interface).

DVI-D DUAL (DIGITAL) - Use for DVI-D Digital only connection. The connector is a Dual Link. Connector is a female-to-female pass through.

DVI-I DUAL (DIGITAL/ANALOG) \& VGA - Use for DVI Integrated - Digital and Analog and for VGA (DB15) connections. The DVI connector is a Dual Link. Both connectors are female-to-female pass through.

DVI-I DUAL (DIGITAL/ANALOG) - Use for DVI Integrated -Digital and Analog connections. DVI connector is a Dual Link. Connector is a female-to-female pass through.

VGA-2 - Use for two VGA (DB15) connections. Both connectors are female-to-female pass through.

DISPLAYPORT - Use for DisplayPort connection. This connector is primarily used to connect a video source to a display device and also carries audio signals, Connector is a female input to a 3 ' corded output (back side of Console interface) with a male Display Port termination.

| PLATE MOUNTED PORTS | Reference Code | Description | List Price |
| :---: | :---: | :---: | :---: |
|  | P08 | MICROPHONE XLR STANDARD - Use for standard size XLR microphone connection. Connector is a female input with a 3 pin screw terminal output (back side of Console interface). | 165 |
|  | P09 | MICROPHONE STANDARD XLR -2 - Use for two standard size XLR microphone connections. Each connector is a female input with a 3 pin screw terminal output (back side of Console interface). | 241 |
|  | P10 | 3 HOLE CABLE PASS THROUGH - Use for running loose cables from the under side of the table up into the Console interface cavity. Often used with running wires for PolyCom ${ }^{\text {TM }}$ devices. | 39 |
|  | P11 | VGA-to-BNCx2 - Use for two VGA (DB15) connections that are input female pass through and are terminated on the output (back side of Console interface) with 5 BNC female pigtail connections, for each VGA connector. | 394 |
|  | P12 | INPUT VGA \& 3.5 Stereo (POWERED) - VGA + Audio Line Driver designed for VGA (DB15) connections and for 3.5 mm stereo connections. This unit provides a method of transmitting signals to a remote display and audio receiver or amplifier. VGA connector is a female input and comes with cabling for either VGA output, or 5 BNC output and the 3.5 Mini is a female input with screw terminal output (back side of Console interface). A 9 volt DC 500mA power supply is required to power this unit. | 961 |
|  | P13 | BLANK DECORA ADAPTER - Use for covering a full Decora sides blank opening. | 28 |
|  | DVIR | DVI-REPEATER - Is a cable equalizer that automatically compensates for long DVI cable runs. This unit extends the usable cable distance up to 130 ft depending on the quality of the cable and the resolution of the video signal. Additionally, it is capable of extending dual link signals allowing for much greater resolutions and refresh rates. This unit comes with a power supply and is generally mounted underneath a table. | 760 |

## ADAPTOR PLATES

Adaptor Plate (2) - accepts two snap in data ports 28
Adaptor Plate (4) - accepts four snap in data ports 28
Adaptor Plate (6) - accepts six snap in data ports 28
ORDERING NOTES: Blank covers are required when port is not in use, please see page 69.

RJ-45 - Category 6 data connection. This connector is also downwards compatible with Category 5 cabling. Connector is a female input with a \#110 punch-down terminal block output (back side of Console interface) for on-site hard wire connection.

RJ45-CAT6 (White)
RJ45-CAT6 (Blue)
RJ45-CAT6 (Red)
RJ11 - Telephone type connection. Connector is a female input with a \#110 punch-down terminal block output (back side of Console interface) for on-site hard wire connection.

RJ11 (White)
RJ11-B (Black)
RJ11-G (Green)
RJ11-R (Red)
RJ11-Y (Yellow)
3.5 STEREO MINI-3.5mm stereo connection. Connector is a female input with screw terminal output (back side of Console interface).

HDMI - High Definition Multimedia Interface connection. Connector carries both HD audio and video data. Connector is a female-to-female pass through.

RCA-LEFT - RCA left audio channel connection. Color coded with black. Connector is a female-to-female pass through.

RCA-RIGHT - RCA right audio channel connection. Color coded with red. Connector is a female-to-female pass through.

RCA- VIDEO - RCA video channel connection. Color coded with yellow. Connector is a female-to-female pass through.

USB-A - Full size USB "A" style connection. Connector is a female-to-

| :---: | :---: | :---: | :---: |
|  | S09 | 3 PIN MINI XLR - 3 Pin Mini XLR microphone connection. Connector is a female input to a 6' corded output (back side of Console interface) with a 3 Pin Mini XLR male termination. | 536 |
|  | S10 | S-VIDEO - S-Video connection. Connector is a female-to-female pass through. | 49 |
|  | S11 | PS/2 (6 PIN MINI DIN) - PS/2 (mouse, keyboard, other input devices) connections. Connector is a female-to-female pass through. | 61 |
| $\text { (1) } 4$ | S12 | BNC - BNC style data connection for use with co-axial cable. Connector is a female-to-female pass through. | 34 |
|  | S13 | F-TYPE - F-Type (DSL, Cable) connections, generally for high speed Internet or video applications. Connector is a female-to-female threaded pass through. | 28 |
|  | S14 | FIBER OPTIC SC - Fibre Optic SC Simplex connection. Connector is a female-to-female pass through. Please note that two of these connectors are required to complete the data transmissions to and from the source and destination units. | 34 |
|  | S15 | FIBER OPTIC LC - Fibre Optic LC Duplex connection. Connector is a female-to-female pass through. One connector only is required to complete the data transmissions to and from source and destination units. | 66 |
|  | S16 | USB-B - USB " B " type connection. Connector is a female " B " input to a female "A" output (back side of Console interface). This connector is reversible. | 99 |
|  | S17 | RJ12 (White) - RJ12 style PolyCom ${ }^{\text {TM }}$ connection. Connector is a female input with a 6 ' corded output (back side) of Console interface) with a male RJ12 termination. | 214 |
|  | S00 | BLANK COVER - Blank covers are required when port is not in use. | 12 |
|  | NOTE: Up to 6 snap-in data ports can be ordered for open data positions. Snap-in adaptors can accept 2,4 or 6 snap-in data ports. Please order a blank port when an odd number of snap-in ports are specified. |  |  |

| Formed Metal Base | 514124328 | 852 | 24 | 3 | 28 |
| Feet |  |  |  |  |  |

ORDERING NOTE: Formed Metal bases are available in Matt Gloss.
There are two cable management options available for Formed Metal bases - Metal Cable Manager or Spine Cable Manager. To order either of these options, please add the cable manager suffix to the end of the model number and add the upcharge listed below. For Example: To add the Metal Cable Manager to the Formed Metal base, please add CM1 to the end of the base model number. e.g. 514124328 changes to 514124328 CM1 \& add the upcharge from below. To add the Spine Cable Manager to the table, please add CM2 to the end of the Formed Metal base model number. e.g. 514124328 changes to 514124328 CM2 \& add the upcharge from below.

Formed Metal Base Cable Management

Metal Cable Manager
132

CM1

NOTE: Metal Cable Manager attaches to the Formed Metal Base magnetically.

ORDERING NOTES: Bases are available in Oak, Maple, Cherry, Walnut, Anigre, Sycamore, Palette finishes and Laminate. Base plates are available in Gloss Aluminum, Palette, Laminate or Wood, please specify requirement on order.

BASE SIZES FOR ARCED SQUARE TABLES AND FOR ROUND TABLES

| Top Size Arc Square | Top Size Round Tops | Quantity | W | D | H |

[^2]Nuvo Media \& Storage products compliment Nuvo Conference with 6 veneer species selections. Veneered tops are 1 1/2" thick veneered particle board core and backer material, with a $1 / 8^{\prime \prime}$ wood edge. Laminate tops are $11 / 2^{\prime \prime}$ thick with particle board core and backer material, with a PVC edge. Glass tops are back painted tempered glass with an $11 / 8^{\prime \prime}$ medium density fiberboard painted sub top with bevelled edge. Tops are available with these profiles.

## SURFACES

Buffet and Credenza tops are $11 / 2^{\prime \prime}$ thick 45lbs per cubic feet particle board core, 3 ply. Gables are $3 / 4$ " thick 45 lbs per cubic feet particle board core, 3 ply.

## VENEER

Veneers available are Rift White Oak, Quarter Cut Maple, Quarter Cut Cherry, Quarter Cut Walnut, Anigre and Sycamore.

## LAMINATE

Please note the grain direction of wood grain laminate will run horizontal on the backs of credenzas and buffets.

## FINISH

A five step catalyzed varnish finish that when dry has a sheen value of $32^{\circ}$, is applied to all tables, bases and cases. A lower sheen topcoat, $20^{\circ}$, can also be specified, at standard pricing. All purchase orders must clearly note "lower sheen finish" in order to receive this optional selection.

All finished surfaces are well sanded before applying finishing materials. The procedure begins by applying a base color via an NGR stain. A wash coat follows to further enhance the color. Next is the glazing process, which provides the 3rd color step and fills the pores of the wood. A sealer coat is then applied, twice to the horizontal worksurfaces to enhance the finish. The product is then scuff sanded to prepare for the top coat. The top coat is a catalyzed varnish that when dry has a sheen value of $32^{\circ}$. Krug's catalyzed varnish has been tested to be one of the industry's most durable and long lasting. Custom finishes are available

## GLIDES

Credenzas and Buffets feature adjustable glides $11 / 2$ " long and allow for a range of adjustment of $3 / 4$ ".

## GLASS SURFACE

Nuvo Casegood tops are available in white back-painted 10 mm tempered glass. Please contact customer service, for additional color selections available at no upcharge.

## TESTING

All products have been tested in accordance with ANSI/BIFMA X5.5-2014 or X5.9-2012.

## DRAWERS

Desk box drawers have full progressive full extension slides and are load rated at 100lbs. per drawer. All drawer interiors are veneer on plywood, and include a push to open drawer mechanism.

## LATCHES

Doors open with a touch latch. There are no pulls on Nuvo Media \& Storage.

## HINGES

Nuvo Media \& Storage utilize European style satin chrome hinges with 3-way adjustment \& quick release feature. Hinge opening is 95 degrees.

## LOCKS

Locks are optional on hinged doors at an upcharge of $\$ 110$ list per set of 2 doors. If the unit has an uneven amount of doors, the single lock required is also $\$ 110$.

## CASTERS

Locking casters are standard on the Hospitality Cart.

## SLIDING DOORS

Sliding Doors include a single roller track system.
BACK-PAINTED GLASS DOORS
Nuvo glass doors have Back-Painted glass with a satin aluminum frame.

## CREDENZAS AND BUFFETS

- 2 styles of cabinet tops are available: wood top and Back-Painted glass tops.
- Doors are available in Back-Painted glass \& wood veneer.
- Storage sections feature one wooden shelf which is height adjustable in increments of $11 / 4$ ".
- Buffets with wood drawers can include an optional cutlery insert.
- Buffet may be specified with optional Recycle/Waste bin.

- Buffet may be specified with optional Mini Refrigerator on 24 " deep Buffets at a price of $\$ 1914$ list.
- Mini refrigerator features volume of 1.1 cu . ft., 2 inner door racks, automatic defrost, and lock.
- Credenzas and Buffets with glass tops are shipped with tops assembled to case.

## TV CABINET WITH LIFT

- Accommodate flat screen televisions up to 130lbs with dimensions no greater than $511 / 4$ " $\mathrm{W} \times 43 / 4$ " $\mathrm{D} \times 30$ " H
- Cabinet is standard with 4 shelves 12 1/2" deep.
- Includes a remote control to raise and lower the television. Remote has a radio frequency control with 15 ft . operating distance
- 2 styles of cabinet tops are available: wood top and Back-Painted glass tops.
- Cable access in shelves and partition

Grommet in each shelf \& partition for cord pass through

## HOSPITALITY CARTS

- The cart is mounted on heavy-duty locking casters.
- A handle on each end facilitates movement of the cart. Handles are available in a satin aluminum finish.
- The cart features a stainless steel container with removable plastic garbage \& recycling bins. A cutlery tray is included.
- 2 styles of cabinet tops are available: wood top and Back-Painted glass tops.
- 2 adjustable shelves behind large door

## LECTERNS

- Glass shelf version has a wood upper flat shelf which provides a place for pens, pencils or a glass of water, and optional reference light at a price of $\$ 321$ list. It will also accommodate a user-specified microphone.
- Angled wood shelf has a bottom lip to hold papers in place. The shelf lifts to reveal an optional power and data interface point
- Back-Painted glass shelf provides more surface area for equipment such as a laptop. A presenter's open laptop is not visible to the seated audience.
- Cables from the interface point, (or user supplied cables) are routed down through grommeted holes to the bottom of the unit and are accessible via doors on the users side. Optional power bar at a price of \$144 list.
- Full width shelf version is available.
- Mobile versions are available.
- Glass shelf is shipped installed.

## BASE PLATES

- Available in a choice of Wood, Laminate, or Gloss Aluminum finish.

RECYCLE/WASTE BIN

- Stainless Steel sliding bin containing
$2 \times 14 \mathrm{~L}$ plastic bins for recycling and waste. Opens with the door.
- Approximate dimensions $14.25 \times 17.33$
x 16.53

## BACK-PAINTED GLASS TOPS

- Back-Painted glass tops are 10 mm thick and available as an option.

CUTLERY TRAY

- Surface silver grained
- Impact-resistant polystyrene
- Environmentally friendly, fully recyclable
- Antistatic, easy to clean

## ALTINEX BOX

The Altinex box offers an ideal solution for the power and data requirements of a speaker using the NUVO Lectern.
Altinex features the following power/data connectors:

| A | (1) Stereo Mini | 3.5 mm Mini pass-through connector from computer sound card to amplified sound system |
| :--- | :--- | :--- |
| B | (1) BNC port | High quality pass-through connector from broadcast video or computer video to video display <br> monitor |
| C | (1) RJ11 port | Connection for Telephone / Modem |
| D | (1) RJ45 port | Connection for Network Connector |
| E | (2) RCA ports | Female RCA type pass-through (Left - Black, Right - Red) cable connectors from stereo audio <br> source to audio system |
| F | (1) 15 Pin HD port | VGA type 15 pin pass-through connector from computer video to display monitor |
| G | (1) Simplex Power port | Power Input |

For more information or questions regarding the Altinex Box, please contact Krug Customer Service or Altinex Technical Support at 1-800-258-4623.

This option is available on NUVO lecterns at an upcharge of $\$ 924$ list.

## V2 MODULAR | PRODUCT OVERVIEW

## MODULAR TOP SHAPES

Round

Square

Half Round

Rectangular

Wave Inverted

Trapezoid

Curved Trapezoid

Visio End

Dotted line depicts which side modesty panel is available on. Round, Curved Trapezoid and Visio End are not available with modesty panels. Grommets, Surface Modules, PowerPorts and Ports when specified are positioned on the same side as the modesty panel. Please note on the Curve tables that the back leg on the longer edge is set back 6" from the back edge.

GRAIN DIRECTION - WOOD VENEER AND WOOD GRAIN LAMINATE

Please note: On V2 corner CONNECTOR TABLES, the grain runs at $45^{\circ}$ angle. For all other V2 Modular Meeting Tables, the grain runs lengthwise, except for Curved Trapezoid, and Visio End where the grain runs up and down. For wood modesty panels the grain runs vertically.

## EDGE OPTIONS - MODULAR TABLES

V2 product offers 12 table tops in Wood or Laminate with a distinct Knife edge profile.

[^4]
## WOOD FINISH

A five step catalyzed varnish finish that when dry has a sheen value of $32^{\circ}$ is applied to all V2 Modular table tops.

## METAL FINISH

V2 components are comprised of satin anodized and powder coated silver metallic finishes.

## GANGING MODULE

Ganging Modules are recommended when 2 or more tables are being joined to one another. These ganging modules should be ordered along with the tables as a separate line item on the order. All tables come pre-drilled for ganging capabilities. Please note corner connector tops without legs are supplied with an alternative mounting plate. Corner connector tops with legs require ganging modules. The Ganging Modules can be used to prevent movement of the tables, enhance stability and keep the legs perfectly aligned. It is recommended to use 2 brackets per seam.

## SELF STORING

The Ganging Module can be neatly tucked underneath the table and re-fastened when not being used, to join to another table in the future. This allows the flexibility and reconfigurability of the V2 Modular line when wanting to add or subtract tables from existing table configurations.

## PACKAGING

V2 packaging features recycled and recyclable cardboard. The product is shipped as separate components - legs are cartoned separate from table top.
However, the electrical is shipped already installed on table top. Table legs have to be attached to table top surface after delivery.

## V2 MODULAR | PRODUCT OVERVIEW

## PLASMA SCREEN CABINETS

- $72^{\prime \prime}$ cabinets accommodate flat screen televisions up to 130 lbs with dimensions no greater than $511 / 4^{\prime \prime} \times 43 / 4^{\prime \prime} \times 30$ "
- The 20" deep units do not come with storage shelves
- 24 " deep units come with 4 shelves that measure $341 / 2^{\prime \prime}$ wide $\times 127 / 16$ " deep
- Grommet cut-outs are on each shelf for cord pass through
- Grommet cut-out is on center partition for cord pass through
- Comes with remote control to raise and lower television
- The remote has a radio frequency with 15 ft . operating distance

## MEDIA HUTCHES

- 75 " media hutches accommodate flat screen televisions up to 200lbs with dimensions no greater than 65 " $\times 9$ " $\times 40$ "
- Media Hutches come standard with television wall mount
- The teardrop holes in the mount allow for quick connect/disconnect of the screen, thus simplifying installation and maintenance processes - This display can be pulled and tilted by hand into any position from $0^{\circ}$ to $15^{\circ}$ tilt range and/or remain stationary

## MEDIA BUFFETS

- Come with option of locks for an upcharge of $\$ 105$ List
- Opening on media buffet (space between drawers) measures $375 / 16$ " wide, 5 13/16" high
- Media buffets have an adjustable shelf that comes standard when ordered. Adjustable shelves are shipped in the middle position and are $13 / 16$ " thick.
- A grommet cut-out comes standard in the center of the media buffet opening
- Drawer depths measure 2.5 " in depth, $153 / 16$ " wide

MEDIA PEDESTALS

- Grommet cut-outs are on each shelf
- Grommet cut-outs are on the top of the back and lower bottom of the back for wire pass through and plug access
- Come standard with two storage shelves

## MEDIA PIERS - SINGLE

- Single 19" storage unit stacks on top of the work surface
- Media Piers should be used in conjunction with media pedestals
- Come standard with touch latch doors
- Grommet cut-outs are on every shelf in media piers at the back of each shelf
- Grommet cut-outs are on the top of the back and the lower back for plug and wire access

## MEDIA PIERS - DOUBLE

- Double media piers are 36 " wide with wood doors
- Come standard with touch latch doors
- Grommet cut-outs are on every shelf in media piers and at the back of each shelf
- Grommet cut-outs are on the top of the back and lower back for plug and wire access

## V2 MODULAR | PRODUCT OVERVIEW

## VISUAL BOARDS

- Includes white board and four dry erase markers.
- Doors slide straight out to the side

## V2 WHITE BOARD

Wall mountable that includes a roll-out presentation screen.

EDGE PROFILES - CONFERENCE ROOM CASEGOODS
V2 Conference Room Casegood worksurfaces feature the Fino profile at 1 1/8" thickness.

Fino
$\square$

## DRAWER PULL

Four drawer pull styles are available on V2 Conference Room Casegood Visual Boards, Plasma Screen Cabinet, Media Hutch with doors, Media Buffet and Media Pedestals: Como, Mira, Sono and Massa. The four drawer pull styles are only available in a satin metallic finish. Please note pull selection on Purchase Order. Orders will not be entered until a pull is specified.

## ORDERING NOTES

If a modesty panel is used, there is no seating capacity on that side of the table. To establish seating capacities, an outside chair dimension of $24 "$ has been used, plus an allowance of 5 " between chairs, for a total of 29 ". This is an approximation and based on seating with 5 prong bases. When using chairs with different specifications be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same seating formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug V2 Modular product.

## ORDERING NOTES

If a modesty panel is used, there is no seating capacity on that side of the table. To establish seating capacities, an outside chair dimension of 24 " has been used, plus an allowance of 5 " between chairs, for a total of 29 ". This is an approximation and based on seating with 5 prong bases. When using chairs with different specifications be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same seating formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug V2 Modular product.

## V2 MODULAR | LEG OPTIONS

The V2 aluminum leg fastens to a die cast mounting plate. The mounting plate has a polished surface and is attached to the underside of the table using machine bolts. The mounting plate is $93 / 8$ " deep and tapers from 4 " wide to $1 / 4$ " diameter and is $9 / 16$ " thick. See page 115 for wire management feature.

## V2 LEGS WITH GLIDES

The V2 Modular legs come with the adjustable glides. There is $21 / 4$ " of height adjustment and these glides can be adjusted with $5 / 8^{\prime \prime}$ wrench.

## V2 LEGS WITH CASTERS

The V2 Modular legs come with 2" casters in a silver metallic finish. They have the ability to lock with a foot release lever located at the base of the wheel.

## V2 MODULAR | COLOR, GRAIN VARIATION \& DIRECTION

## FINISH ON WOOD TOPS

Standard wood finishes are:

| SPECIES | FINISH |
| :--- | :--- |
| Rift Oak | Light Oak <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br> Marvest Oak <br> Medium Cherry on Oak <br> Mellow Oak <br> Espresso on Oak <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br>  <br> Walnut on Oak <br> Appalachian Cherry <br> Imperial Cherry <br> Medium Cherry <br> Natural Cherry <br> Standard Cherry <br> American Cherry |
|  | Clear Maple <br> Haney Maple <br> Wheat Maple |
|  | Mahogany on Walnut <br> Regular Walnut <br> Natural Walnut |
|  | Dark Walnut |
| Anigre | Clear Anigre <br> Medium Anigre |

PALETTE FINISHES
Standard solid color finishes are:
Black
White
Sand
Soft Green
Steel Blue
Slate
CUSTOM PALETTE FINISHES
Custom palette finishes are available at an upcharge of $10 \%$ list and an additional 2 weeks lead time after final color approval.

## NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## CUSTOM WOOD FINISHES

Add 10\% list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.) For orders with special finishes, a sample that is a minimum 3 " by 3 " must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## FINISH

V2 Modular Tables feature Krug's finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

## WOOD FINISHES \& WOOD GRAIN CONSIDERATIONS

V2 Modular offers many varied configurations of modular tables. As a result, and unlike traditional fixed positioned tables, the wood veneer for a complete modular table configuration may not be selected from the same tree and therefore will tend to have a greater level of color variation and grain pattern variation. In addition, unlike traditional conference tables where the grain runs in a single direction, modular table configurations provide for grain direction to be juxtaposed at different angles. This can create an inherent variation in the appearance of different sections which is sometimes referred to as "color flip" or "light flip". The effect of light when looking at wood veneers from different directions can change the color intensity and make wood surface appear darker or lighter in relation to an adjacent wood surface. This effect, in combination with the greater veneer color and grain pattern variation with modular tables, means that a higher level variation in the appearance of wood surfaces will often be present with modular table tops (in comparison to fixed position conference table tops).

## V2 MODULAR | LAMINATES \& TACKBOARD FABRICS

## LAMINATES

Krug's in-stock Laminates are available in 17 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Polymer Edge will be selected to match the worksurface. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

## V2 MODULAR | CONNECTIVITY SOLUTIONS

## POWERPORT

The V2 Modular PowerPort made from aluminum and featuring a hinged lid, provides a functional and attractive solution for connectivity. The PowerPort comes standard with 3 receptacles, and 2 RJ45's.

The PowerPort is a UL/CSA-approved power/data power bar, (Port) which includes three 115-volt electrical convenience outlets, and two RJ45 communication ports - all easily accessed just under the worksurface. The PowerPort is Category $5 / 6$ compatible.
The PowerPort can be specified without the power bar (Port), to serve as a grommet for wire management, or to enable future power-up of the tables. It is $7.5^{\prime \prime}$ wide by $4^{\prime \prime}$ long, and features an aluminum hinged lid that is designed to be in the closed position when cables pass through to the plug-in. The PowerPort can accommodate multiple cables at once, as well as transformer plugs, through the worksurface.
Power cord is 10 ft . long, data cable is 14 ft . long.
PowerPorts can be specified in 3 different locations (left, right or center) depending on the size of the meeting table surface. On surfaces that are smaller than $60^{\prime \prime}$, PowerPorts are available only in the center position.

See page 104 for options and location codes for selecting the PowerPort location for each table top.

## SURFACE MODULE

The V2 Surface Module is a lower cost alternative to the PowerPort. It is compact and convenient and positions the plug-in on the worksurface itself, instead of underneath it.

A Surface Module comes with two power receptacles above the work surface and one power receptacle below the work surface, which allows you to connect power to additional tables or configurations. In addition the Surface Module also comes with one USB Port - one USB printer port, one RJ11 and one RJ45. Each receptacle has a 12 Amp, 120 Volt, 60 Hz capacity and comes standard with a $10^{\prime}$ heavy duty power cord with a right angle plug.

The Surface Module has an angled face, that's easy to see and operate. The RJ45 Port allows connection to High Speed DSL or Internet and provides access to cable modem, network or internet router. In addition, a power plug exists for cell phone and laptop. There are two USB Ports - one for input and one for output to accommodate almost any electrical needs. The surface module is available in a black finish only.

Surface Modules can be specified in 3 different locations (Left, Right or Center) depending on the size of the meeting table surface. On surfaces that are smaller than 60", Surface Modules are available only in the center position.

See page 104 for options and location codes for selecting the Surface Module location for each table top.

## ROUND GROMMET

A round grommet with an open and shut mousehole serves to provide cable passage for areas not requiring a large opening.

Round grommet silver metallic, 60 mm dia. (2 3/8" approx.)
Round grommets do not provide electrical service.
Grommets can be specified in 3 different locations (left, right or center) depending on the size of the meeting table surface. On surfaces that are smaller than 60 ", grommets are available only in the center position.

One round grommet per table is provided at no charge, additional round grommets are available for an upcharge of \$110 list per grommet.

See page 105 for options and location codes for selecting the Grommet location for each table top.

## V2 MODULAR | WIRING SELECTIONS

SCENARIO 1
This symbol refers to: Electrical, Fax, Modem, Telephone, and Network Data

SCENARIO 2

SCENARIO 3

SCENARIO 4

*Power Entry (4 wire, 2 circuit and 8 wire, 4 circuit) are hard wired to power source in the wall or floor.
WIRING SOLUTIONS AND TABLE CONFIGURATIONS
Below are 2 configurations which demonstrate the Byrne $4-\mathrm{Trac}^{\circledR}$ System, where the 42 " Jumper is required on the underside of the table. Same layout applies to the Byrne 8 -Trac ${ }^{\circledR}$ System.

## V2 MODULAR | POWER ACCESS LOCATION OPTIONS

Non-standard locations can be specified, although there are restrictions due to leg positions, and modesty panel positions. An upcharge of $\$ 288$ list per non-standard grommet is applicable, contact Customer Service for assistance. Modular Table Tops smaller than 60" have the power access available only in the ' $C$ ' position. Table tops greater than 60 " can have the power access specified in as many as three locations (AR, AL and C). The only exception to this rule is the 36 " visio tables which can be specified with three power access positions, AR, AL, and C.

Position Code:
AL - left corner
AR - right corner
C - center

## V2 MODULAR | POWER SOLUTIONS

4-Trac ${ }^{\circledR}$ Power Entry

8 -Trac ${ }^{\text {® }}$ Power Entry

## BYRNE 4-TRAC® SYSTEM

The Byrne 4-Trac ${ }^{\circledR}$ System is a economical power distribution solution that is easy to specify, install, and reconfigure.

Features:

- 4-wires, 2 circuits, 20 Amps each
- 13-duplex receptacles per circuit, 26-15 Amp duplex receptacles per power infeed maximum
- Easy to specify
- Easy to install and reconfigure
- Requires less space
- UL Listed as a Manufactured Wiring System
- More economical than 8-wire system
- RoHS Compliancy available upon request; Cradle to Cradle

61EC4-30-4 wire, 2 circuit system, 30" table
61EC4-36-4 wire, 2 circuit system, 36" table
61EC4-42-4 wire, 2 circuit system, 42" table
61EC4-48-4 wire, 2 circuit system, 48" table
61EC4-54-4 wire, 2 circuit system, 54" table
61EC4-60-4 wire, 2 circuit system, 60" table
61EC4-66-4 wire, 2 circuit system, 66" table
61EC4-72-4 wire, 2 circuit system, 72 " table

## BYRNE 8-TRAC® SYSTEM

The Byrne 8-Trac ${ }^{\circledR}$ Power System offers a high quality, cost effective answer to your power distribution needs. The modular system is adaptable to all architectural elements. The modularity of the Byrne System makes it simple to specify, order and install.

Features:

- UL recognized \& listed
- Approved for use in New York City
- RoHS compliancy available upon request; cradle to cradle
- 20 Amp system available in 4 circuit configurations
- Allows for up to 52 duplex receptacles or Byrne desktop accessories using Interconnect.

Can be used independently with grommet or 61PORT.
61EC8-30-8 wire, 4 circuit system, 30" table
61EC8-36-8 wire, 4 circuit system, 36 " table
61EC8-42 - 8 wire, 4 circuit system, 42 " table
61EC8-48-8 wire, 4 circuit system, 48 " table
61EC8-54-8 wire, 4 circuit system, 54" table
61EC8-60-8 wire, 4 circuit system, 60" table
61EC8-66-8 wire, 4 circuit system, 66" table
61EC8-72-8 wire, 4 circuit system, 72 " table
All Krug's power access options can be used with or without the Byrne 4-Trac ${ }^{\circledR}$ or Byrne 8-Trac ${ }^{\circledR}$ Wire System. These components can be ordered together, or at a later date as your power requirements change.

BYRNE 4-TRAC ${ }^{\circledR}$ AND BYRNE 8-TRAC ${ }^{\circledR}$ - 42" JUMPERS
These longer jumper cables are required when connecting one table from the back to the end of another table using either the Byrne 4 - Trac ${ }^{\circledR}$ or Byrne 8 -Trac ${ }^{\circledR}$ system. These jumper cables allow you to daisychain each wired table to the next.

42" Jumper

## V2 MODULAR | MODESTY PANEL \& WIRE MANAGEMENT

Modesty panels are available with or without grommets.
Grommets on modesty panels are required for electrified tables that are positioned such that modesty panels are overlapping, so that cabling can pass through the overlapping modesty panels. Wiring either at $90^{\circ}$ corners (when corner connector tables aren't used) or tables that are face-to-face adjoining require modesty panels to be ordered with grommets. Below is an example showing wiring passing through one table to another via a modesty panel with grommets.

Typical layouts when modesty panels with grommets are required below.

Typical layout when modesty panels without grommets can be used below.

ORDERING NOTES
Arc tables are available with a modesty panel that runs with the grain on the bow side.
Please see page 120-121 for options and upcharges. The modesty panel is on the curved section of the bow top and is constructed to have seating on the straight section.

ORDERING NOTES
Wave tables are available with a modesty panel on the long straight side only.
Please see pages 120-121 for options and upcharges.

ORDERING NOTES
Wave tables are available with a modesty panel on the long straight side only.
Please see pages 120-121 for options and upcharges.

## DIMENSION KEY

W - width
D - depth
H - height of worksurface
KW - kneehole width
Dimensions are in inches and are plus or minus $1 / 8^{\prime \prime}$.
Contact Customer Service if dimensions are critical.
See pages 3 for Krug Express program.

## STANDARD FINISHES

For a complete list of standard wood finishes please see page 100.

## MODESTY PANELS

Please see pages 120-121 for options and upcharges.

## VENEER TOPS

Please note when ordering wood veneer tables, these tables can only be ordered with a wood edge.

*This credit is only applicable if in total $20 \%$ of the combined value of the procurement of construction materials and in the furniture are manufactured within a radius of 500 miles. This credit will apply if the installation of the finished product occurs within 500 miles of Kitchener, Ontario.

## level ${ }^{\circledR}$ CERTIFICATION, AIR EMISSIONS AND FSC ${ }^{\circledR}$ CERTIFICATION

## level ${ }^{\circledR}$ CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy \& Atmosphere, Human \& Ecosystem Health and Social Responsibility. Ando products have earned level $®$, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

The mark of responsible forestry

## AIR EMISSIONS

All Ando products are supplied with air emissions-certified materials. Contact customer service for information.

## FSC ${ }^{\circledR}$

In 2005, Krug received Forest Stewardship Counci® ${ }^{(F S C}{ }^{\circledR}$ ) Chain-of-Custody certification for our manufacturing facilities. The FSC ${ }^{\circledR}$ Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Ando and other Krug products can be specified with one of two types of FSC ${ }^{\circledR}$ Certification:
(a) FSC ${ }^{\circledR}$-certified (which includes $\mathrm{FSC}^{\circledR}$-certified lumber, veneer and substrate material)
(b) FSC ${ }^{\oplus}$-mix certified (which includes substrate material only, and is a lower cost option certification)

Contact customer service for further information, pricing and leadtimes.
Architects, designers, and building professionals can specify FSC ${ }^{-}$-certified products in order to achieve a point from the US. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

## WOOD FINISHES

Standard wood finishes are:

| SPECIES | FINISH |
| :--- | :--- |
| OAK | Light Oak <br> SilverGrey on Oak <br> Espresso Oak |
| CHERRY | Appalachian Cherry <br> American Cherry <br> Sable Cherry <br> Light Cherry |
| MAPLE | Clear Maple <br> Wheat Maple |
| WALNUT | Natural Walnut <br> SilverGrey on Walnut <br> Regular Walnut <br> Dark Walnut |
| ANIGRE | Clear Anigre <br> Medium Anigre |
| SYCAMORE | Clear Sycamore |

## VENEERS

Ando veneers are quarter cut, except for White Oak, which is rift cut - both quarter cut and rift cut veneers provide a straight grain appearance.

## NON-STANDARD VENEER SPECIES

In addition to range of standard wood species, Ando can be made with virtually any commercially available veneers. Please contact customer service for information and pricing on wood species not included in Ando's standard offering.

## NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## CUSTOM WOOD FINISHES

Add $10 \%$ list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.)

For orders with special finishes, a sample that is a minimum $3^{\prime \prime}$ by 3 " must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## FINISH

Ando features Krug's finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

## LAMINATES

Krug's in-stock Laminates are available in 17 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Polymer Edge will be selected to match the worksurface. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

| Charcoal | Arborite T228KR |

## Non-Stocked Laminates

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stock laminates may require a minimum order quantity, please contact customer service. Stocked polymer edges only can be specified for use with non-stocked laminates or tops will be self-edged.

## ANDO | PRODUCT FEATURES

## TABLES

Tops and gables are $2.5^{\prime \prime}$ thick plywood core with face, back and edge veneer. Plastic Laminate tables are self edged. Standard laminates will show a visible dark line where the laminate edges meet, to avoid this line color-core laminates can be specified. Please contact customer service for a quote.

## SUPPORT

Construction integrates an internal support system that eliminates the need for any visible support under the table top.

## MITERED CORNER

The Ando table worksurface is joined to the side panel legs with a $45^{\circ}$ angle miter joint indicative of the highest level of craftsmanship.

## VENEER

Ando table veneers are quarter cut, except for White Oak, which is rift cut - both quarter cut and rift cut veneers provide a straight grain appearance.

## FINISH

A five step catalyzed varnish finish that when dry has a sheen value of $32^{\circ}$, is applied to all finished cases. A lower sheen topcoat, $20^{\circ}$, can also be specified at standard pricing. All purchase orders must clearly note "lower sheen finish" in order to receive the optional selection.

GLIDES
Adjustable glides are $11 / 2^{\prime \prime}$ long and allow for a range of adjustment of 1 ". Glides are installed at the factory.

## POWERPORT

A PowerPort is a unique worksurface mounted module that can be specified to a location that best serves the user's needs. It includes a UL approved electrical, power bar, containing two 115 - volt electrical simplex outlets which are accessible from the work surface, plus a utility outlet at the end for daisy chaining purposes. 3 data versions are available and can be custom configured, see page 133 for options. Includes a Powerport Protective Electrical Cover which can include additional data ports, see pages 134-135 for a list of options.

## PORT

A service module having no power bar will serve as a large grommet. A hinged lid easily enables the passage of several cables and devices.

HORIZONTAL CABLE MANAGEMENT
This includes a Protective Electrical Cover that covers the power/data module. A grey plastic cable manager carries the cords to the Vertical Cable Manager on the gable.

## VERTICAL CABLE MANAGEMENT

This cable manager is clear satin anodized aluminum extrusion with clip attachment that carries from the underside of the top to the floor.

## STANDARD POWERPORT LOCATIONS

MIDDLE POSITION

For 60", 66", 72" \& 84" tables
NOTE: Workspace clearance of Middle positions: 24 " depth - 10" from powerport to table edge 30" depth - 13" from powerport to table edge 36" depth - 16" from powerport to table edge 42" depth - 19" from powerport to table edge

OFFSET POSITION

CAUTION: Ando tables are shipped in one piece and are large \& heavy. Please ensure consideration is taken regarding widths of entrances, aisles and stairways for maneuvering tables into office areas. If packing pallets need to be removed prior to the table getting into the office please ensure the bubble wrap material is left on the table to prevent damage during the move-in process.

## ORDERING PROCEDURE

To order, please specify the following:

1) Krug product model number
2) Wood species and finish
3) Grommet location and style if applicable
*indicates model illustrated by line drawing.

## STANDARD FINISHES

For a complete list of standard wood finishes please see page 139.

GROMMETS
One grommets in standard position are available at no additional charge.

## ANDO | POWER/DATA \& CABLE MANAGEMENT

## REVO | COLOR, GRAIN VARIATION \& DIRECTION

## FINISH ON WOOD TOPS

Standard wood finishes available:

| SPECIES | FINISH |
| :---: | :---: |
| Rift Oak | Light Oak |
|  | Harvest Oak |
|  | Mahogany on Oak |
|  | Medium Cherry on Oak |
|  | Mellow Oak |
|  | Espresso on Oak |
|  | Walnut on Oak |
| Cherry | Appalachian Cherry |
|  | Imperial Cherry |
|  | Light Cherry |
|  | Medium Cherry |
|  | Natural Cherry |
|  | Sable Cherry |
|  | Standard Cherry |
|  | American Cherry |
| Maple | Clear Maple |
|  | Honey Maple |
|  | Wheat Maple |
| Walnut | Mahogany on Walnut |
|  | Regular Walnut |
|  | Dark Walnut |
|  | Natural Walnut |
|  | Cordovan Walnut |

## NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## CUSTOM WOOD FINISHES

Add $10 \%$ list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.) For orders with special finishes, a sample that is a minimum 3 " by 3 " must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

FINISH
Revo Training Tables feature Krug's finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

## WOOD FINISHES \& WOOD GRAIN CONSIDERATIONS

Revo Training offers many varied configurations of modular tables. As a result, and unlike traditional fixed position tables, the wood veneer for a complete modular table configuration may not be selected from the same tree and therefore will tend to have a greater level of color variation and grain pattern variation. In addition, unlike traditional conference tables where the grain runs in a single direction, modular table configurations provide for grain direction to be juxtaposed at different angles. This can create an inherent variation in the appearance of different sections which is sometimes referred to as "color flip" or "light flip". The effect of light when looking at wood veneers from different directions can change the color intensity and make the wood surface appear darker or lighter in relation to an adjacent wood surface. This effect, in combination with the greater veneer color and grain pattern variation with modular tables, means that a higher level of variation in the appearance of the wood surfaces will often be present with modular table tops (in comparison to fixed position conference table tops).

## LAMINATES

Krug's in-stock Laminates are available in 17 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Polymer Edge will be selected to match the worksurface. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

## Non-Stocked Laminates

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stock laminates may require a minimum order quantity, please contact customer service. Stocked polymer edges only can be specified for use with non-stocked laminates or tops will be self-edged.

## REVO | THERMOFORMED VINYL

Thermoformed vinyl is a highly durable material that provides a seamless application with smooth edges. Thermoformed vinyl characteristics include wear, stain, scratch resistant and offers superior color consistency. The flexibility of the material protects against cracking if a heavy object is dropped on the surface. Thermoformed vinyl can easily be cleaned with mild soap and water.

THERMOFORMED VINYL COLORS AVAILABLE:
Shiraz Cherry
Dark Walnut
Copper
Hardrock Maple
Designer White
Platinum
Willow

| 15. Black Paste Shoe Polish | As received | Apply (6 mm spot) do not cover |

## ORDERING NOTES

If a modesty panel is used, there is no seating capacity on that side of the table. There is no seating on the ends due to base locations. Seating on the ends of a 84 " tables is possible since the bases are inset 15 " from the ends. To establish seating capacities, an outside chair dimension of $24^{\prime \prime}$ has been used, plus an allowance of $5^{\prime \prime}$ between chairs, for a total of 29 ". This is an approximation and based on seating with 5 prong bases. When using chairs with different specifications be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same seating formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug Revo Training product.

## REVO | PRODUCT OVERVIEW

## TRAINING TABLE TOP SHAPES

Revo Training are available in 5 table top shapes.

Dotted line depicts which side a modesty panel is available on. 1/2 Round and Square tops not available with modesty panels. Grommets, Surface Modules, PowerPorts and Ports when specified are positioned on the same side as the modesty panel.

## WORKSURFACES

Worksurfaces with Knife (K) edge profile - Tops are $11 / 8^{\prime \prime}$ thick veneered, laminated - 45 lb . fibreboard MDF core and backer material. Worksurfaces with T-Edge profile - Tops are $11 / 8^{\prime \prime}$ thick thick veneered, laminated -42 lbs. particleboard core with backer material. Worksurfaces with D-Edge profile - Tops are 11/8" thick thermoformed - 42 lbs. particleboard core with backer material.
All worksurfaces have a profiled edges on all sides. Corner Connecting tops have a profile on the curved edge only.

## GRAIN DIRECTION - WOOD VENEER AND WOOD GRAIN LAMINATE

Please note: On Revo corner CONNECTOR TOPS, the grain runs on a $45^{\circ}$ angle. For all other Revo Training tables, the grain runs lengthwise. For wood modesty panels the grain runs vertically. For laminate modesty panels, the grain runs horizontally.

## EDGE OPTIONS - TRAINING TABLES

Revo training product offers 3 edge profiles.

Knife Edge

T-Edge

Knife edge profile and " T " edge profile are available on Wood and Laminate worksurfaces.

D-Edge

The D-edge profile is available only in Thermoformed Vinyl.

## WOOD FINISH

A five step catalyzed varnish finish that when dry has a sheen value of $32^{\circ}$ is applied to all Revo Training table tops.

## METAL FINISH

Revo components have a powder coated silver metallic finish.
LEGS
Revo " $T$ " and "C" style legs are available in fixed, folding and nesting versions. All legs are available with casters or glides. Revo legs with casters come with a 2" caster in silver metallic finish. They have the ability to lock with a foot release lever located at the base of the wheel. Revo legs with glides have $11 / 4$ " of height adjustment, longer glides are available upon request for very uneven floors. Revo legs allow for cables to be channeled through the leg and concealed with a snap-on cover which allows cord access to the top and bottom when required.

## MODESTY PANELS

Revo modesty panels are available in wood, laminate and aluminum in both fixed and flip versions. Fixed modesty panels are available with no cable management trough, with cable management trough or cable management for power and data. The flip version is equipped for power and data with access from either side.

## GANGING BRACKETS

A set of ganging brackets are recommended when 2 or more tables are being joined to one another. These ganging brackets should be ordered along with the tables as a separate line item on the order. All tables come pre-drilled for ganging capabilities. Please note corner connector tops are supplied with an alternative mounting plate. The Ganging Brackets are used to prevent separation of the tables when configured in a layout.

## SELF STORING

The Ganging Brackets can be neatly tucked underneath the table when not being used to join to another table. This allows the Revo Training Tables to be easily reconfigured when wanting to add or subtract tables from existing configurations.

## PACKAGING

Revo packaging features recycled and recyclable cardboard and bubble wrap. The product is shipped as separate components. Bases and modesty panels have to be attached to table top surface after delivery.

## REVO TRAINING BASES

All Revo Training C bases are available in $16^{\prime \prime}$ and 20 " widths, with standard (W1) and high capacity (W2) cable managers. All Revo Training T bases are available in 20" width, with standard (W1) and high capacity (W2) cable managers.

## BASE SIZES

16" C Bases are used on Revo Training Tables that are 20" in depth.
$20^{\prime \prime}$ C Bases are used on Revo Training Tables that are 24 " and 30 " in depth.
$20^{\prime \prime}$ T Bases are used on Revo Training Tables that are 24 ", 30 " and 36 " in depth.

## REVO TRAINING | STORAGE CAPABILITIES

## REVO NESTING TABLES

With innovative design and clever construction, the Revo Nesting table is an ideal solution for training rooms, classrooms or meeting rooms. A simple and easy to operate one handed release handle allows the table top to rotate downwards 90 degrees for ease of storage or quick room configuration. In addition, the wheeled legs rotate 20 degrees for compact nested storage, resulting in an efficient use of space.

Nested Table Dimensions:
20" D table $=161 / 8^{\prime \prime}$
24" D table $=197 / 8^{\prime \prime}$
30" D table $=197 / 8^{\prime \prime}$
36" D table $=321 / 8^{\prime \prime}$

Add 7.5"D for each additional nested tables or add 12 " if modesty panels are attached.

For Example: A 20" D table in a nested position is $161 / 8^{\prime \prime} \mathrm{D}$. Add 9 additional nesting tables ( $9 \times 7.5$ " $=67.5$ "D). Therefore, the depth requirement for nested tables is $83.75^{\prime \prime} \mathrm{D}$.

Total space required to nest 10 table without modesty panels is $83.75^{\prime \prime} \mathrm{x}$ the length of the table.

Table Height of nested tables:

| $24 "$ deep - T Base | $41.75 "$ | $20 "$ deep - C Base | $37.25 "$ |
| :--- | :--- | :--- | :--- |
| 30" deep - T Base | $44.75 "$ | $24 "$ deep - C Base | $37.25 "$ |
| 36" deep - T Base | $47.5 "$ | $30 "$ deep - C Base | $40.25 "$ |
| 36" deep - T Base | $47.5 "$ |  |  |

## REVO FOLDING TABLES

The Revo Folding Legs features our easy to use release lever that when activated retracts the legs parallel to be underside of the tabletop, allowing tables to be stacked vertically or horizontally. This feature can be used anywhere but is particularly beneficial in settings which need to be reconfigured quickly or frequently. The flattened table maximizes storage space. The optional storage cart, which holds up to 5 tables vertically, makes movement of the folded tables safe and easy. Folding tables cannot accommodate powerports or surface modules.

Below the worksurface

## POWERPORT

The Revo Training PowerPort made from aluminum and featuring a hinged lid, provides a functional and attractive solution for connectivity. The PowerPort comes standard with 3 receptacles, 2 RJ45 jacks and a 10' heavy duty power cord.

The PowerPort is a UL/CSA-approved power/data power bar, (Port) which includes three 115-volt electrical convenience outlets, and two RJ45 communication ports - all easily accessed just under the worksurface. The PowerPort is Category $5 / 6$ compatible. Folding tables cannot accommodate powerports or surface modules.

## PORT

The Port alone (without the powerbar) serves as a large grommet for cable management, or to enable future power-up of the tables. It is $7.5^{\prime \prime}$ wide by $4^{\prime \prime}$ long, and features an aluminum hinged lid that is designed to be in the closed position when cables pass through to the plug-in. The Port can accommodate multiple cables at once, as well as transformer plugs, through the worksurface.

PowerPorts and Ports can be specified in 3 different locations (left, right or center) depending on the size of the training table surface. On surfaces that are smaller than $60^{\prime \prime}$, PowerPorts and Ports are available only in the center position.

See page 151 for options and location codes for selecting the PowerPort and Port location for each table top.

## SURFACE MODULE

The Surface Module is a lower cost alternative to the PowerPort. It is compact and convenient and positions the plug-in on the work surface itself, instead of underneath it.

A Surface Module comes with two power receptacles above the work surface and one power receptacle below the work surface, which allows you to connect power to additional tables or configurations. In addition, the Surface Module also comes with two USB Ports -- one USB printer port, one RJ11 and one RJ45. Each receptacle has a 12 Amp, 120 Volt, 60 Hz capacity and comes standard with a 10' heavy duty power cord with a right angle plug. Folding tables cannot accommodate powerports or surface modules.

The Surface Module has an angled face that is easy to see and operate. The RJ45 Port allows connection to high speed DSL or Internet and provides access to cable modem, network or Internet router. In addition, a power plug exists for cell phone and laptop. There are two USB ports -- one for input and one for output to accommodate almost any electrical needs. The Surface Module is available in black finish only.

Surface Modules can be specified in three (3) different locations (Left, Right and Center) depending on the size of the meeting table surface. On surfaces that are smaller than 60 ", Surface Modules are available only in the centre position.

See page 151 for options and location codes for selecting the Surface Module location for each table top.

## ROUND GROMMET

A round grommet with an open and shut mousehole serves to provide cable passage for areas not requiring a large opening.

Round grommet silver metallic, 60 mm diameter. (2 3/8" approx.)
Round grommets do not provide electrical service.
Grommets can be specified in 3 different locations (left, right or center) depending on the size of the meeting table surface.
On surfaces that are smaller than 60", grommets are available only in the center position.
One round grommet per table is provided at no charge, additional round grommets are available for an upcharge of \$110 list per grommet.
See page 151 for options and location codes for selecting the Grommet location for each table top.

## REVO | CONNECTIVITY SOLUTIONS

## BYRNE 4-TRAC® SYSTEM

The Byrne $4-\mathrm{Trac}{ }^{\circledR}$ System is a economical power distribution solution that is easy to specify, install, and reconfigure.

Features:

- 4 -wires, 2 circuits, 20 amps each
- 10-duplex receptacles per circuit, 20-15 Amp receptacles per power infeed maximum
- Requires less space
- UL Listed as a Manufactured Wiring System
- More economical than 8 -wire system
- RoHS Compliancy available upon request; Cradle to Cradle
- Can be used independently with grommet or 59PORT.

Model Numbers for 4-Trac® System

## Circuit 1 Circuit 2 Description

59EC4-30-1 59EC4-30-2 4 wire, 2 circuit system for 30" table
59EC4-36-1 59EC4-36-2 4 wire, 2 circuit system for 36" table
59EC4-42-1 59EC4-42-2 4 wire, 2 circuit system for 42 " table
59EC4-48-1 59EC4-48-2 4 wire, 2 circuit system for 48 " table
59EC4-54-1 59EC4-54-2 4 wire, 2 circuit system for 54" table
59EC4-60-1 59EC4-60-2 4 wire, 2 circuit system for 60" table
59EC4-66-1 59EC4-66-2 4 wire, 2 circuit system for 66 " table
59EC4-72-1 59EC4-72-2 4 wire, 2 circuit system for 72" table
59EC4-78-1 59EC4-78-2 4 wire, 2 circuit system for 78 " table
59EC4-84-1 59EC4-84-2 4 wire, 2 circuit system for 84 " table

## BYRNE 4-TRAC ${ }^{\circledR}$ SYSTEM

The 4 -Trac ${ }^{\circledR}$ system can power a maximum of 10 duplex receptacles per circuit, 20 duplex receptacles total. With 2 duplex receptacles per table, this means that no more than 5 tables can connected to one circuit ( 10 tables per 4 - Trac ${ }^{\circledR}$ system). Once you have more than 10 tables powered with the 4 -Trac ${ }^{\circledR}$ system, you must order another Power Entry (59EC4PE) and the related 4 - Trac ${ }^{\circledR}$ harnesses to access a new circuit. Duplex receptacles are marked as circuit 1 or circuit 2. Unless specified, Krug will package as close as possible equal quantities of circuit 1 and 2 wiring harnesses.

All Krug's power access options can be used with or without the Byrne 4-Trac® Wire System. These components can be ordered together, or at a later date as your power requirements change.

Example 1: If you have a connected group of 7 ( 48 " length) tables with a grommet in each, using the 4 -Trac ${ }^{\oplus}$ system, you would order:

- One 4 wire, 2 circuit power entry (59EC4PE).
- Four tables will use circuit 1 harnesses (59EC4-48-1), which has two duplex receptacles per harness for a total of 8 duplex receptacles.
- Three tables will use circuit 2 harnesses (59EC-48-2), which has two duplex receptacles per harness for a total of 6 duplex receptacles.

Example 2: If you have a connected group of 11 (48" length) tables with a grommet in each, using the 4 -Trac ${ }^{\circledR}$ system, you would order:

- Two 4 wire, 2 circuit power entry (59EC4PE). For the 1st power entry:
- Three tables will use circuit 1 harnesses (59EC4-48-1), which has two duplex receptacles per harness for a total of 6 duplex receptacles.
- Three tables will use circuit 2 harnesses (59EC-48-2), which has two duplex receptacles per harness for a total of 6 duplex receptacles.
For the 2nd power entry:
- Three tables will use circuit 1 harnesses (59EC4-48-1), which has two duplex receptacles per harness for a total of 6 duplex receptacles.
- Two tables will use circuit 2 harnesses (59EC-48-2), which has two duplex receptacles per harness for a total of 4 duplex receptacles.

## BYRNE 4-TRAC® - 42" JUMPERS

These longer jumper cables are required when connecting one table from the back to the end of another table using the Byrne 4 -Trac ${ }^{\circledR}$ system. These jumper cables allow you to daisy chain each wired table to the next.

## REVO | CONNECTIVITY SOLUTIONS

## BYRNE 8-TRAC® SYSTEM

The Byrne 8 -Trac ${ }^{\oplus}$ Power System offers a high quality, cost effective answer to your power distribution needs. The modular system is adaptable to all architectural elements. The modularity of the Byrne System makes it simple to specify, order and install.

Features:

- UL recognized \& listed
- Approved for use in New York City
- RoHS compliancy available upon request; cradle to cradle
- 20 Amp system available in 4 circuit configurations
- Allows for up to 40 duplex receptacles.
- Can be used independently with grommet or 59PORT.

Model Numbers for 8-Trac® System

| Circuit 1 | Circuit 2 |  | Circuit 3 |  | Circuit 4 |
| :--- | :--- | :--- | :--- | :--- | :--- |

## BYRNE 8-TRAC ${ }^{\circledR}$ SYSTEM

The 8 -Trac® system can power a maximum of 10 duplex receptacles per circuit, 40 duplex receptacles total. With 2 duplex receptacles per table, this means that no more than 5 tables can connected to one circuit ( 20 tables per $8-$ Trac ${ }^{\circledR}$ system). Once you have more than 20 tables powered with the 8 -Trac ${ }^{\circledR}$ system, you must order another Power Entry (59EC8PE) and the related 8 -Trac ${ }^{\circledR}$ harnesses to access a new circuit. Duplex receptacles are marked as circuit 1, 2, 3, or 4 . Unless specified, as close as possible Krug will package equal quantities of Circuit 1, 2, 3, and 4 wiring harnesses.

All Krug's power access options can be used with or without the Byrne 8-Trac® Wire System.
These components can be ordered together, or at a later date as your power requirements change.
For Example: If you have group of 16 ( 48 " length) tables, using the 8 -Trac ${ }^{\circledR}$ system, you would order: One 8 wire, 4 circuit power entry (59EC8PE).

- Four tables will use circuit 1 harnesses (59EC8-48-1), which has two duplex receptacles per harness for a total of 8 duplex receptacles.
- Four tables will use circuit 2 harnesses (59EC8-48-2), which has two duplex receptacles per harness for a total of 8 duplex receptacles.
- Four tables will use circuit 3 harnesses (59EC8-48-3), which has two duplex receptacles per harness for a total of 8 duplex receptacles.
- Four tables will use circuit 4 harnesses (59EC8-48-4), which has two duplex receptacles per harness for a total of 8 duplex receptacles.

## BYRNE 8-TRAC® - 42" JUMPERS

These longer jumper cables are required when connecting one table from the back to the end of another table using the Byrne $8-\mathrm{Trac}{ }^{\circledR}$ system. These jumper cables allow you to daisy chain each wired table to the next.

SCENARIO 1
POWER/DATA/SOURCE

This symbol refers to: Electrical, Fax, Modem, Telephone, and Network Data

Scenario 1 is the simplest of connectivity solutions. You simply run your electrical and data cables down through the round grommet or port and plug directly into the power source.

## SCENARIO 2

power/Data/SOURCE

Scenario 2 demonstrates when powerports and surface modules are specified in the worksurfaces. Your electrical and data cables are plugged directly into these units. Both of these power options have 10' electrical cords and 14' data cables, that can be channeled through the cable management cavity in the leg and then plugged into the power source. Up to 10 powerports or surface modules can be daisy chained together from one power circuit, when the 14' data cables are not enough to reach the power source, data cables can be linked together with the use of a data hub. Please check local electrical regulations before linking these units.

SCENARIO 3

Scenario 3 illustrates the use of the Byrne 4 trac $®$ and Byrne 8 trac $®$ system. Your electrical and data cables are passed through the worksurface via the round grommet or port. The electrical equipment is plugged into the duplex receptacles located in the trac system.

The Byrne 4 trac system uses 2 circuits allowing 10 receptacles on the same circuit to be daisy chained together. Each trac system contains two duplex receptacles and can be specified with either circuit one or circuit two or both. Therefore, a maximum of 20 duplex receptacles can be used on two circuits. The Byrne 8 trac system works in the same manner, but uses 4 circuits instead of 2, allowing a maximum of 40 duplex receptacles to be used at one time.
*Power Entry is hardwired into the building source and can be channelled up the cable management cavity in the leg. The data cables run directly to the data source or linked together using a data hub.

SCENARIO 4
power/Data/SOURCE

Scenario 4 demonstrates the use of the powerport or surface modules with the Byrne 4 trac® or Byrne 8 trac® system. Your electrical and data cables are plugged directly into either the powerport or surface module. The 10' power cord from these units are plugged into the duplex receptacles located in the trac system.

The Byrne 4 trac system uses 2 circuits allowing 10 receptacles on the same circuit to be daisy chained together. Each trac system contains two duplex receptacles and can be specified with either circuit one or circuit two or both. Therefore, a maximum of 20 duplex receptacles can be used on two circuits. The Byrne 8 trac system works in the same manner, but uses 4 circuits instead of 2, allowing a maximum of 40 duplex receptacles to be used at one time. When ordering powerports or surface modules on the worksurfaces, the duplex receptacles in these units need to be included in the receptacle count per circuit, otherwise the circuits will become overloaded.
*Power Entry is hardwired into the building source and can be channelled up the cable management cavity in the leg. The data cables run directly to the data source or linked together using a data hub.
150 | USA | CONFERENCE

## REVO | POWER ACCESS LOCATION OPTIONS

Non-standard locations can be specified, although there are restrictions due to leg positions, and modesty panel positions. An upcharge of $\$ 288$ list per non-standard grommet is applicable. Contact Customer Service for assistance. Table Tops smaller than 60 " have the power access available only in the " $C$ ' position. Table tops greater than 60 " can have the power access specified in as many as three locations (AR, AL and C).
Position Code:
AL - left corner
AR - right corner
C - center

## POWERPORT/PORT POSITIONS

REVO TRAINING TABLES SMALLER THAN 60"

REVO TRAINING TABLES 60" OR LARGER

## Half Round Rectangular

Modesty Panels are located on the same side as the PowerPort/Ports/Surface Modules. Modesty Panels are not available on $1 / 2$ round and square tables. Folding tables cannot accommodate powerports.

## SURFACE MODULE POSITIONS

## REVO TRAINING TABLES SMALLER THAN 60"

Square Half Round

Rectangular Trapezoid

Arc Trapezoid

REVO TRAINING TABLES 60" OR LARGER

## Half Round

Rectangular

Modesty Panels are located on the same side as the PowerPort/Ports/Surface Modules. Modesty Panels are not available on $1 / 2$ round and square tables. Folding tables cannot accommodate surface modules.

## STANDARD GROMMET POSITIONS

REVO TRAINING TABLES SMALLER THAN 60"

Square

Half Round

Rectangular

Trapezoid

Arc Trapezoid

REVO TRAINING TABLES 60" OR LARGER

Half Round

Rectangular

Modesty Panels are shown on the same side as the Round Grommets. One round grommet per table is provided at no charge, additional round grommets are available for an upcharge of $\$ 110$ list per grommet in standard positions. Modesty Panels are not available on $1 / 2$ round and square tables.

## REVO | MODESTY PANEL \& CABLE OPTIONS

## Modesty Panels

Revo training tables have been designed with a $1-1 / 4^{\prime \prime}(32 \mathrm{~mm})$ space between the underside of the worksurface and the top edge of the modesty panel, eliminating the need for grommets in the modesty panels. This space makes it easy to pass cables from one table to another where modesty panels overlap at $90^{\circ}$ corners, or where tables are positioned face to face.

See typical examples below of cable management with different power options.

Byrne Track System, Modesty Panels for Power and Data Trough

Power Ports \& Modesty
Panels with no Cable Management Trough

ORDERING NOTES: To order bases with glides, replace the 1st underscore in the model number with the letter " $G$ "; e.g. "59THRT7224CBFPGW_".

To order bases with casters, replace the 1st underscore in the model number with the letter "C"; e.g. "59THRT7224CBFPCW_".
To order the standard cable manager replace the 2 nd underscore in the model number with the number " 1 ";
e.g. "59THRT7224CBFPGW1".
DIMENSION KEY
W - width
H - height of worksurface
KW - kneehole width
X \& Y - dimensions as indicated on line drawing
Dimensions are in inches and approximate. Contact Customer Service if dimensions are critical.

## KRUG EXPRESS

See page 3 for Krug Express program.

## STANDARD FINISHES

For a complete list of standard finishes, please see page 138 for Standard Wood Finishes or page 139 for In-Stock Laminates and Thermoformed Vinyls.

## MODESTY PANELS

Please see pages 162 for options and upcharges.

## VENEER TOPS

Please note when ordering wood veneer tables, these tables can only be ordered with a wood edge.

ORDERING NOTES: To order bases with glides, replace the 1st underscore in the model number with the letter "G";
e.g. "59THRT7224CBFDGW_".

To order bases with casters, replace the 1st underscore in the model number with the letter "C"; e.g. "59THRT7224CBFDCW_".
To order the standard cable manager replace the 2 nd underscore in the model number with the number " 1 ";
e.g. "59THRT7224CBFDGW1".

To order the high capacity base cable manager replace the 2 nd underscore in the model number with the number " 2 ";
e.g. "59THRT7224CBFDCW2".

## 

## ORDERING NOTES

Power bar comes with 3 outlets and one powered USB port, and it has a 10 ' cord.

## DIMENSION KEY

Dimensions are in inches and approximate. Contact Customer Service if dimensions are critical.

ORDERING NOTES
Please note when ordering the Byrne 8-Trac® ${ }^{\circledR}$ Power Entry components, you must also order the Byrne 8-Trac ${ }^{\circledR}$
System, to work in conjunction. Byrne 8-Trac ${ }^{\circledR}$ Power Entry is hardwired into buildings power source.

## ORDERING NOTES

This longer jumper cable is required when connecting one table off the edge to the end of another table using the Byrne 4-Trac ${ }^{\circledR}$ system. Jumper cables allow you to daisy chain each wired table to the next.

## FINISH ON WOOD TOPS

Standard wood finishes are:

| SPECIES | FINISH |
| :--- | :--- |
| Cherry | Light Cherry <br>  <br> Natural Cherry <br> American Cherry <br> Medium Cherry <br> Standard Cherry <br> Imperial Cherry <br> Appalachian Cherry <br> Sable Cherry |
| Maple | Clear Maple <br>  <br>  <br>  <br>  <br> Honey Maple <br> Wheat Maple |
|  | Natural Walnut <br> Regular Walnut <br> Mahogany on Walnut <br> Dark Walnut <br> Cordovan Walnut |
| Anigre | Clear Anigre <br> Medium Anigre |

PALETTE FINISHES
Standard solid color finishes are:

## Black

White
Sand
Soft Green
Steel Blue
Slate

## CUSTOM PALETTE FINISHES

Custom palette finishes are available at an upcharge of $10 \%$ list and an additional 2 weeks lead time after final color approval.

## NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## CUSTOM WOOD FINISHES

Add $10 \%$ list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.) For orders with special finishes, a sample that is a minimum $3^{\prime \prime}$ by $3^{\prime \prime}$ must be received with the order Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## FINISH

Virtu Modular Tables feature Krug's finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

## LAMINATES

## LAMINATES

Krug's in-stock Laminates are available in 25 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

## IN-STOCK LAMINATES

| Wood Grain Laminate | HIGH PRESSURE LAMINATE SUPPLIER | PHASE OUT LAMINATES |
| :---: | :---: | :---: |
| Champagne | Arborite T492KR | Wood Grain Laminates |
| Hardrock Maple | Formica 86992-58 | Mocha Cherry |
| Dune | Arborite T491KR | Mocha Cherry |
| Copper | Arborite T521KR |  |
| Shiraz Cherry | Arborite T472CA |  |
| Chestnut | Arborite T484KR |  |
| Chocolate | Arborite T498KR | Solid Laminates |
| Nutmeg | Arborite T477KR | Solid Laminates |
| Dark Walnut | Arborite T469KR | Almond Black |
| Textured Wood Grain Laminate |  | Shadows |
| Gingerbread | Arborite T556UR | Exotic Laminates |
| Portobello | Arborite T557UR |  |
| Ash Willow | Arborite T535AT | Gunstock Walnut |

| Solid Laminate |  |
| :--- | :--- |
| Designer White | Wilsonart D354-60 |
| Platinum | Arborite T202KR |
| Earth | Arborite T767KR |
| Charcoal | Arborite T228KR |

## Non-Stocked Laminates

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stock laminates may require a minimum order quantity, please contact customer service. Stocked polymer edges only can be specified for use with non-stocked laminates or tops will be self-edged.

## VIRTU | INTRODUCTION AND OVERVIEW

## FUELING CREATIVITY

As much as anything, the development of VIRTU reflects the growing importance of meeting space in virtually all organizations. Facilitating interaction and collaboration between people, and creating environments where relationships can be established and built, is both the challenge and the opportunity of office design.

This was the inspiration for creating VIRTU Conferencing - a collaborative process itself, between Hatch Design and Krug's in-house design team. Spending countless hours in meeting rooms was a pretty good way to develop a conferencing product - lots of firsthand knowledge was involved. But we also talked to facility managers, designers and architects about what their needs were, and what was lacking among available products. We talked to dealers and installers about what goes wrong when meeting rooms are ordered and installed, and to electricians about how we could create an interface with technology that would not become outdated by the constant advances in this area.

Most of all, VIRTU is about design that helps organizations reach their potential. In the words of principal designer John Edwards, "VIRTU has many attributes, but our primary goal was to create meeting rooms that would truly stimulate people. Many of the unique elements of VIRTU - such as the Verso Table, the ConnexusTM module, the shapes and angles, the combinations of materials - are meant to allow a space to facilitate the creative process. Furnishings that can do this deliver tremendous value."

To this point, higher-end conference rooms have usually required the client or the designer to find a custom millwork house to make furniture. This can offer some advantages, but also some disadvantages: high cost, long lead times, the challenges of matching finishes and materials to other furniture, and perhaps most of all, the extensive work involved with designing custom furniture in the first place.

VIRTU changes all of that. All of these issues are turned into solutions. VIRTU is the most extensive product offering of its kind. Krug's industry-leading production system provides a huge array of options within this line, allowing for the specific needs and wants of each project to be addressed. But addressed with a product range that is already designed, engineered, and is manufactured with a process that takes a few days, rather than weeks. And when all is said and done, VIRTU provides the best value available today.

## THE VERSO TABLE - PATENTED FOR PRESENTATIONS!

The Verso table offers a unique range of conferencing options in a single table. First, its tapered shape - like the Visio and Open Visio tables in VIRTU - provides a great solution for videoconferencing. Second, the Verso table incorporates leading-edge thinking on how to make the best in-person presentations. This thinking says that from the audience's perspective, the presenter should always be positioned to the left of the visuals at the front of the room. The Verso table is designed to orient the presenter and the audience in this correct positioning. Third, Verso is designed to work well for meetings where participants are all seated at the table. Many videoconferencing tables, with a separation in the middle, do not work particularly well for sit-down meetings. The Verso table's effective accommodation of all three meeting room scenarios makes it the most versatile conference table on the market. And if there is one thing that is usually required of meeting rooms, it is the ability to accommodate many different uses.

## OPTIONS, OPTIONS, AND MORE OPTIONS

Speaking of versatility - VIRTU Conferencing Tables offers a huge selection:

- 12 table top shapes, each in a large range of sizes.
- 4 edge profile options.
- 7 table base styles, each with built-in wire management.
- 4 wood species: Maple, Cherry, Walnut and Anigre.
- 15 wood finishes
- a large array of Connexus ${ }^{\top M}$ configurations, and the option to order as a Blank module and configure on-site.
- ConnexusTM modules that can be specified in a range of locations on table tops, to provide the desirable location for, and quantity of, power interfaces.

VIRTU features numerous complimentary pieces, including Media Cabinets, Display Cabinets, Lecterns, Visual Boards, Buffets, Credenzas, Storage Cabinets, Bookcases, and Mobile Media and Server Carts.

## VIRTU AND VIDEOCONFERENCING

VIRTU has been designed to accommodate all the latest in videoconference applications, and can be reconfigured with off-the-shelf components as needs and office technology change. The following are the fundamental principles of videoconferencing that were incorporated into the thinking of creating VIRTU - which we feel successfully supports a multitude of videoconferencing environments.

## VIDEOCONFERENCING DEFINED

Videoconferencing is the use of audio, video and data communications to enable groups to interact without being in the same geographic location. Many companies have found they cannot afford the down time and considerable cost of mobilizing their staff for face-to-face meetings. To optimize the videoconferencing experience, the right environment must be created to support both the participants and the technology.

## VIRTU | INTRODUCTION AND OVERVIEW

## VISUAL COMPONENTS

Cameras that are used to convey images are very sensitive to movement. When too much motion is captured, it creates a backlog of images. These images are then compressed which causes the system to drop frames and/or compromise the spatial resolution in an effort to keep up with the participants. This leads to a disjointed broadcast and pixilated images.

To prevent this disruption several things can be done. First, ensure that the camera is situated on a flat, stable surface. Next, eliminate all extraneous motion. This means everything from clocks to people walking in the background. The only backdrop to videoconferencing should be a blank wall of neutral color.
Since eye contact is an important part of the videoconferencing experience it is vital that the camera not be placed too far away from the participants. In a group setting the technology being used today mandates that users not be more than 10 feet from the camera. This fact will limit the size of the room being used for group meetings: a 12 or 13 foot long room allows for optimal visuals and provides enough room for six or seven participants to be seated around a conference table. Furthermore, sitting too close to the source will lead to a fisheye effect and a distorted image.

All participants should be visible to the camera, so a traditional seating arrangement (rectangular, straight line) will not work. To ensure that all group members are included in the telecast, a table that staggers the sight line of the camera is suggested. The ideal shape has one end narrower than the other and is long enough to place the person seated at the back no more than 10 feet from the camera. To help simulate a more natural face-to-face meeting, it is typical to employ the use of two monitors in a videoconferencing room. The use of two monitors allows the participants to view not only those positioned off-site, but themselves. By placing these monitors side by side a focal point is created that keeps the group's attention.

To have all the participants focused on one point in the room is key. This allows for the camera to capture the faces of the assembled group. Face time is essential in videoconferencing so the speaker can be easily identified. Aside from simulating a natural "physical" environment it also keeps the pace of the conversation moving forward and eliminates the need for disruptive introductions throughout the conference.

The room's focal point should be the storage unit positioned at the head of the conference table. This unit should be able to house one or two monitors side by side and have a shelf above for the camera and speakers. To support these components, a PC is usually dedicated to the room to coordinate and document the meetings. Therefore, a well-ventilated storage unit that is high enough to position the camera correctly is as important as the technology itself.

To prevent poor visual tones the surroundings of the participants should be darker than they are. Darker finishes on the table and other furnishings will allow the camera to be more effective; walls should be neutral. Fluorescent lighting creates hot spots, so use incandescent lighting whenever possible. Furthermore, glare and reflections from windows and glass frames throw the image off. The room should have dark blinds for all windows; glass surfaces (dry erase boards, framed pictures) should be situated on side walls rather than the background.

## AUDIO COMPONENTS

The audio portion of videoconferencing is comprised of two physical components: the microphone and speakers. The microphone picks up the voices of the participants and should be placed an equal distance from all group members to prevent a dominant voice from overwhelming the meeting. Tabletop microphones are the most common and can be easily moved to accommodate the number of participants in each meeting. Some form of surface wire management should be in place to facilitate the installation and removal of the microphone.

To eliminate sound distortion and echo, the conference room should have soft furnishings such as: upholstered seating, carpeting and ceiling tiles. Plastic and mesh chairs reduce acoustical quality and range. Acoustical panels are also suggested for rooms in constant use. The location of the room is also important. The ideal room is not located near a main thoroughfare where people will often stop and chat, creating unnecessary background noise. Moreover, all air ducts should be well insulated to avoid "white noise."

## TECHNOLOGY SUPPORT FURNITURE

The table in use should adapt to the requirements of each conference by including tabletop access to power and data. These "ports" allow conference participants to position a microphone, telephone or laptop on the table without stringing wires from the table to the wall. This helps keep the focus on the meeting, allows information to be shared more readily, and protects wires from both feet and chair casters. Also, with plug and play ability, the room can be reconfigured to fit the requirements of each meeting and its participants.

The tabletop interface should provide power and data outlets beneath a removable, protective cover; this will prevent any spilled liquids or cleanser from entering the wiring cavity. The cover should provide enough room for the wires to enter the cavity below without force or threading. The interface itself should be placed at an angle to allow an ease of use and prevent data wires from crimping and denigrating their capacity to deliver information.
The faceplates that cover the interface should be universal and reconfigurable to adapt to frequent technology and network upgrades. The interface should be accessible from below so that the back panel and electrical module itself can be switched out as easily as the faceplates. Access to the bases through removable panels should allow for the easy management of wiring to the interface itself or the module into which it is wired. This not only keeps the wires hidden from view, but also protects wiring from exterior elements. Bases can provide an opening to the floor where wires can be routed to the underside of the table. A table leg with a channeling insert can make the same connection.

Any storage unit housing monitors, cameras, speakers and computers must have a wire management system in place. This should include oversized grommets leading from one level to another and ventilation to the back to promote air circulation and release the heat generated by electronics. The grommets should be easily accessible so that retrofits, upgrades and maintenance can take place on a regular basis. Access to the wall behind the housing is also advisable so that faceplates in the wall can be reached without moving the entire unit.

## VIRTU | SECTION 1 - COMMUNICATION PLANNING

## OBJECTIVE

We have designed this section to help you determine the appropriate power and communications options for your specific application. This section is divided into two parts with the following objectives:

1. Provide detailed information on ConnexusTM, VIRTU's tabletop power and data module: what it is, its abilities and its applications. 2. Provide a description and specifications of VIRTU's wire management capabilities.

## CONNEXUS ${ }^{\text {TM }}$

Using technology and furniture together can be a challenge, and at worst can ruin a meeting or presentation. VIRTU is totally designed around the interface with office technology and equipment. The ConnexusTM power module in table tops provides an unlimited range of connectivity. Going way beyond electrical, ConnexusTM offers connections for voice, data, multimedia presentations, network and internet connections, and much more. ConnexusTM can be specified in any number of locations in a table, and features a substantial cavity for easy access and wire storage.
But the greatest innovation of patent-pending ConnexusTM is that it utilizes industry-standard receptacle outlets for this multitude of connection options. This provides huge advantages over the more limited interface found in other products. VIRTU offers 11 standard configurations for ConnexusTM, which will address almost any user need. And ConnexusTM can also be ordered as a Blank module, and configured by electricians on-site with off-the-shelf receptacles and wiring to a user's specific needs. This feature makes VIRTU exceptionally suited to customers where local codes require on-site configuring and installation of all electrical components.

There's more. ConnexusTM can be reconfigured on-site, with the same components used by electricians everywhere, and can be purchased wherever electrical components are sold. Likewise, Connexus ${ }^{\text {TM }}$ faceplates are standard Decora style, which are also readily available. VIRTU is designed to allow this reconfiguration of wiring without having to take tables apart and re-install. VIRTU is the conferencing product that best addresses the inevitability of changing office technology, and the need for interfaces to change and evolve with it. This unique design philosophy means that VIRTU will never be outmoded or outdated by changing user needs.

## CONNEXUS ${ }^{\text {TM }}$

Connexus ${ }^{\text {TM }}$ is Krug's proprietary tabletop and data module. When opened, it presents power and data outlets on a convenient angle to the user and provides storage for wiring.

The faceplate of Connexus ${ }^{\text {TM }}$ can be either Glass or Aluminum, and sits flush with the tabletop. It is designed to allow wiring to pass through the surface cover in both the open and closed positions. The faceplate opens to a $100^{\circ}$ angle from the table top.

Connexus ${ }^{\text {TM }}$ utilizes standard receptacle outlets, which can be field converted and reconfigured at any time. Connexus ${ }^{\text {TM }}$ comes with receptacles pre-wired, with a wide selection of power, data and presentation system outlets, or alternatively can be purchased as Blank modules that can be hard-wired on site by the user and reconfigured easily when this is desired. To facilitate this process, the Enclosure Box of each Connexus ${ }^{\text {TM }}$ module is easily removable. For more information regarding hard-wiring on site, see page 242.

* All duplex outlets are contained within a metal box that is attached to the Partition Plate. If additional outlets need to be added in the future, these boxes need to be ordered from Krug to expand the enclosure. Part number and pricing can be found on page 244. This modification should be done by a qualified electrician.

The labeled drawing shown below illustrates the way a Connexus ${ }^{\text {TM }}$ module is shipped to the user. The Partition Plate is mounted on-site to the under side of the top and the Enclosure Box over top to conceal the module.

## VIRTU | SECTION 1 - COMMUNICATION PLANNING

Standard

Large

Connexus ${ }^{\text {TM }}$ modules may be specified in Standard or Large sizes. Standard modules are available in 6 configurations. Large modules are available in 5 configurations.
As an alternative, Blank Connexus ${ }^{\text {TM }}$ modules may be purchased for future use by the customer.
See page 252-263 for a complete list of module configurations and pricing.

CONNEXUS™ PORT OPTIONS :
RJ11 port - Connection for Telephone/Modem
RJ45 port - Category 6 Connection for Network Connector
AC Power - Power Input
RCA ports - Female RCA type pass-through (left - black, right - red) cable connectors from stereo source to audio system
BNC port - High quality pass-through connector from broadcast video or computer video to display monitor
Stereo Mini - 3.5mm Mini pass-through connector from computer sound card to amplified sound system
Video passthrough port

- Female RCA type pass-through cable connector for video signal from VCR or video camera source to video display or VCR
15 PIN HD - VGA type 15 pin pass-through connector from computer video to video display monitor
DB-9 (Serial) - Pass-through data connector from computer to switcher control for lights, blinds, projector screens, etc.

See complete information starting on page 241 for all options.
Please note: RJ11, RJ45 and Stereo Mini are not shipped pre-wired. A telephone IT or AV specialist should perform these connections.

ConnexusTM modules in Standard configurations are 6 1/8" $\times 7$ 3/8".
ConnexusTM modules in Large configurations are $81 / 4^{\prime \prime} \times 73 / 8 "$.
Depth on Standard and Large modules is $4.5^{\prime \prime}$.
As an alternative to ConnexusTM, a 3" round grommet, in a Satin Aluminum finish may be specified at a list price of $\$ 110$ per grommet.

## VIRTU | SECTION 1 - COMMUNICATION PLANNING

## CONNEXUS ${ }^{\text {TM }}$ PLANNING

Connexus ${ }^{\text {TM }}$ modules are wired independently of each other to maximize the amount of electrical devices serviced. All Connexus ${ }^{\text {TM }}$ modules may sustain individual loads of 15 amps , or 12 amps of continuous load. Each Connexus ${ }^{\text {TM }}$ module will require a single isolated circuit to maximize its service capabilities. Connexus ${ }^{\text {TM }}$ modules are not daisy-chained together, thereby preserving the system's optimum performance. As an example, if four Connexus ${ }^{\top M}$ modules were specified, it will be necessary to provide two duplex outlets with a total of four circuits. Each Connexus ${ }^{\text {TM }}$ module can then be plugged into each supplied outlet.

Connexus ${ }^{T M}$ components are UL and CSA US approved and manufactured in accordance to the National Electrical Code.
Hardwiring Connexus ${ }^{\top M}$ modules on-site should be performed by a licensed electrician.
It is important to note that each Connexus ${ }^{\top \mathrm{M}}$ module is rated for 15 amps and each should be connected to a single isolated circuit. Although each Connexus ${ }^{\top \mathrm{M}}$ module is rated for 15 amps , please note that the National Electric Code restricts the amount of any known continuous load to 12 amps.

For maximum power utilization, it is recommended that each Connexus ${ }^{\top \mathrm{M}}$ module be plugged directly into a single isolated circuit. For detailed information on installing Connexus ${ }^{\text {TM }}$ modules, please refer to the Installation Instructions on page 234.

Below we have included a list of typical office equipment and their appropriate amp ratings to assist in planning your electrical requirements.
Typical Amp requirements of office equipment, when drawing full power.

| GENERAL | AMP <br> RATING | ELECTRONIC <br> EQUIPMENT | AMP <br> RATING |
| :--- | :---: | :--- | :---: |
| AC adapter | .05 | Desktop printer | $1.2-5$ |
| Adding machine | .05 | Laptop | $1.5-3.5$ |
| Answering machine | .08 | Modems | .15 |
| Calculator | .25 | VDTs and PCs | $.08-4.8$ |
| Clock | .03 | Video projector | $.67-3.47$ |
| Coffee pot | 10 |  |  |
| Fan | 1.0 |  |  |
| Microwave | $8-12$ |  |  |
| Pencil sharpener | .25 |  |  |
| Polycom Conference Phone | .23 |  |  |
| Radio | .05 |  |  |
| Slide projector | $2-6$ |  |  |
| Space heater, 1000 watts | 8.6 |  |  |
| Space heater, 1500 watts | 13 |  |  |
| Transcriber | .15 |  |  |

## VIRTU | SECTION 1 - COMMUNICATION PLANNING

## ELECTRICAL CORD LENGTHS

Connexus ${ }^{\text {TM }}$ modules come with pre-determined electrical cord lengths that are suited to the size and configuration of each table ( $6^{\prime}, 16$, $25^{\prime}$ '). Each will plug into a standard floor monument power source. However, in situations where a table length exceeds our maximum cord length, a second power entry is necessary to avoid daisy-chaining of electrical power. To determine when a second power entry is required follow these steps:

1. Select your Connexus ${ }^{\text {TM }}$ locations.
2. Select your Floor Monument Location(s) if they do not already exist in the room.
3. If the number of Connexus ${ }^{\top M}$ modules exceed three consecutive positions left or right of the power entry, then an additional power entry will be required. Refer to the Connexus ${ }^{\text {TM }}$ diagrams on page 240 that illustrate the base and tabletop combination of your selection.

Note: Connexus ${ }^{\text {TM }}$ modules in pairs count as one position.

* Open Visio tables require 2 power sources, one per wing, or a single power source located at the apex of the two tables.

## Example 1

If the designated Floor Monument location for the table scenario shown below is 1L, the user would be able to power-up any or all of the following Connexus ${ }^{\text {TM }}$ locations: AL, BL, and CL.

## Example 2

If the designated Floor Monument location for the table scenario shown below is $\mathbf{2 R}$, the user would be able to power-up any or all of the following Connexus ${ }^{\text {TM }}$ locations: CL, CR, BR and AR.

Monument Location Scenario

Connexus ${ }^{\text {TM }}$ Location Scenario

## HARDWIRING ON SITE

For hardwiring on-site by electricians, please use the following schematic:
1 Power Supply Cord
2 Strain Relief
3 Fork Terminals
4 Duplex Receptacles
5 Outlets with Circuit Breaker Assembly
6 Handy Box

TWO GANG BOX

CIRCUIT BREAKER/OUTLETS ASSEMBLY

For a more detailed look at hardwiring on-site, please see page 321.

## VIRTU | SECTION 1 - COMMUNICATION PLANNING

## WIRE MANAGEMENT

Wires are channeled behind the Forza Leg and Forza Panel bases, and concealed by design by a black PVC insert that runs the entire length of the base. The insert is 27 " long and the channel opening is approximately $1.5^{\prime \prime} \times 1.25^{\prime \prime}$ wide.

Wires are channeled through the center of Dais, Forza Rectangle, Forza Square, Oblique and Verso bases to floor monuments.

In the situation where the power source is outside of the table base, it will be necessary to pass the power supply cord underneath and into the table base. VIRTU bases are equipped with removable panels which makes access to the interior quick and easy. The Dais base (shown left) is the only exception. Dais bases are equipped with a small removable access panel, but may require a mouse-hole cut in the field.

All VIRTU conference tables except open Visio are designed to accommodate wiring channeled underneath the table top and into bases. A flexible PVC wire management channel is provided with all multi-section tables at no charge, and mounted on-site. It features dual channels to allow separation of fibre optic cables. Open Visio tables use the wire management cover. All VIRTU bases have access holes to allow this wiring to pass into or out of the bases. The channel is flexible and allows for wiring to be easily inserted or removed at the sides.

When power is being routed through Forza Leg or Forza Panel bases, velcro wire management straps are attached to the underside of the top to manage wiring from ConnexusTM modules to the floor monument. The velcro straps are supplied at no charge.

A metal cord spooler is standard on all bases with interior cavities and provided at no charge. The spooler provides for tidy wire management when there is an excessive amount of cord length.

## WIRE MANAGEMENT - BASES

All VIRTU table bases feature wire management capabilities for routing wires between floor monuments and Connexus ${ }^{\text {TM }}$ modules. Bases with interior cavities have openings in the top and a 5 " recessed bottom panel which provides full access for wiring and cord plugs to the floor. Access doors are also provided on these bases to facilitate easy access to the interior. Forza Leg and Forza Panel bases use a black PVC insert to channel wires from the table top to the floor. Please see the chart below for specifications. All bases are 29" in height. Please note that all bases with interior cavities are weighted with 72 lbs . of ballast to ensure table stability.

| Base Type | Base Size | Door Opening Dimensions | Interior Access Cavity Dimensions |
| :---: | :---: | :---: | :---: |
| Dais Base | 18" Dia. <br> 24" Dia. <br> 30" Dia. <br> Note: Cy | $\begin{aligned} & 11.8^{\prime \prime} \times 11.4^{\prime \prime} \\ & 16 " \times 11.4^{\prime \prime} \\ & 20.3^{\prime \prime} \times 11.4^{\prime \prime} \end{aligned}$ <br> or this base is 1 | $\begin{aligned} & 17.25 \text { Dia. } \times 14.5^{\prime \prime} \\ & 23.25 \text { Dia. } \times 14.5^{\prime \prime} \\ & 29.25 \text { Dia. } \times 14.5^{\prime \prime} \end{aligned}$ |

EXAMPLE \#6 - VISIO TOP WITH FORZA LEG AND FORZA SQUARE BASES

## VIRTU | SECTION 1 - COMMUNICATION PLANNING

## MEDIA CABINET WIRING SAMPLE

VIRTU Media Cabinets feature 2" and 4" diameter vertical and horizontal grommets to accommodate all types of videoconferencing equipment. As well, large 4" diameter air vents are strategically located on the backs of each unit. Dual Media Cabinets can accommodate two television monitors up to 35" wide, Large Media Cabinets accommodate one $35^{\prime \prime}$ wide monitor, and Small Media Cabinets can accommodate television monitors up to 27 " wide. Cabinets can also accommodate videoconferencing cameras and microphone systems, DVD and VCR players, and projectors. Below is an example of wire management on a VIRTU Media Cabinet.

## MEDIA CART WIRING SAMPLE

VIRTU Media Carts accommodate laptops or keyboards on the primary surface of the cart, and television monitors up to 27 " on the top shelf. DVD and VCR players can be accommodated on all surfaces. Media Carts, depending on the model, come equipped with several vertical and horizontal grommets to provide easy connection between equipment located on the interior and exterior of the cart. Media Carts also feature a standard power bar. Below is an example of wire management on the VIRTU Media Cart.

## LECTERN WIRING SAMPLE

VIRTU Lecterns offer the presenter various media options. Notebook computers, paper notes, lighting, microphones, pens and pencils, a glass of water... everything for a presenter can be accommodated. The optional Altinex power and data interface system is concealed but easily accessed. The hinged rear door, which is standard on lecterns with front hinged doors, provides access to the interior for a computer CPU to run presentations. An optional power bar is available. Below is an example of wire management on a VIRTU Lectern.

## ALTINEX

The Altinex box offers an ideal solution for the power and data requirements of a speaker using the VIRTU Lectern.
Altinex features the following power/data connectors:

| A | (1) Stereo Mini | 3.5 mm Mini pass-through connector from computer sound card to amplified sound system |
| :--- | :--- | :--- |
| B | (1) BNC port | High quality pass-through connector from broadcast video or computer video to video display monitor |
| C | (1) RJ11 port | Connection for Telephone / Modem |
| D | (1) RJ45 port | Connection for Network Connector |
| E | (2) RCA ports | Female RCA type pass-through (Left - Black, Right - Red) cable connectors from stereo audio source to |
|  |  | audio system |
| F | (1) 15 Pin HD port | VGA type 15 pin pass-through connector from computer video to display monitor |
| G | (1) Simplex Power port | Power Input |

For more information or questions regarding the Altinex Box, please contact Krug Customer Service or Altinex Technical Support at 1-800-258-4623.

This option is available on VIRTU lecterns at an upcharge of $\$ 888$ list.

## GENERAL PRODUCT OVERVIEW

## Species

VIRTU conferencing and casegoods are available in Anigre, Maple, Cherry, and Walnut.

## Finishes

Cherry: Appalachian, Imperial, Medium, Natural, Standard, American
Maple: Clear, Honey, Wheat
Anigre: Clear, Medium
Walnut: Mahogany, Regular, Dark, Clear

## Table Top Styles

Verso, Visio and Open Visio tops feature unique shapes that are ideal for presentations and videoconferencing. Presenters are easily seen and heard by those seated, and television monitors are unobstructed to the audience as well. The typical camera location, centered over the monitor at the front of the room, can easily scan all of the participants seated down the length of the table.

## Seating Capabilities

Estimated seating capacity for each table top size can be found in the Conference Top section from pages 207-240. To establish seating capacities, an outside chair dimension of $24^{\prime \prime}$ has been used, plus an allowance of 5 " between chairs, for a total of 29". This is an approximation and based on seating with 5 prong bases. When using chairs with different specifications be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same seating formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug Conference product.

## Edge Profiles - Conference Tops

VIRTU conference product offers 12 table tops in Anigre, Maple, Cherry and Walnut, with 4 distinct edge profiles, with a top thickness of 1 $1 / 2^{\prime \prime}$. Please specify an edge profile for all VIRTU conference tops. Please note that the edge width (measurement from end of table veneer to the end of table edge) on Vita, Vero and Lineo is $13 / 8^{\prime \prime}$. Fino edge width is $3 / 8^{\prime \prime}$.

Edge Profiles - Casegoods
VIRTU casegood worksurfaces feature the Fino profile at $11 / 8^{\prime \prime}$ thickness.
$\qquad$

## Base Styles

Seven base styles allow for numerous conference table configurations. The five enclosed bases allow for total concealment of wiring when floor monuments are located underneath. These bases also provide plenty of leg room around the perimeter of conference tables. Enclosed bases include 72 lbs . of ballast inside of the bases to provide enhanced table stability. Forza Panel and Forza Leg bases give users an abundance of space underneath the middle of the table, as these bases are positioned near to the table ends. Wood elements on bases will be finished in the same finish as the top if no finish is specified. Metal elements are available in Satin Aluminum finish. All bases are shipped separately and require assembly to the selected top.

## Media Cabinets

- Media Cabinets are available in three sizes.
- Dual Media Cabinets accommodate two televisions up to $35^{\prime \prime}$ in width.
- Large cabinets accommodate televisions up to $35^{\prime \prime}$ in width. Small cabinets up to 27 " in width.
- Cabinets may be specified with wood veneer doors or with frosted glass in aluminum frames.
- Large cabinets feature synchronized upper doors, pocket doors or hinged doors that open 170 degrees.
- Optional wood or glass doors.
- All horizontal levels of the cabinet interior are accessible through grommets in the rear of each shelf - additional holes are located in the case back for wall entry of power and cables.
- Locks are optional on wood doors only.
- Unique leveling glides adjust to uneven floors without exposing the glide.
- Optional Rollout Equipment Rack and Cable Carrier in the lower portion of the cabinet is available with the Large model at $\$ 2313$ list.
- Dual Media Cabinets and Small Media Cabinets are available with heavy duty locking casters at a price of \$144 list per unit.
- Upper shelf accommodates videoconferencing camera.

## Display Cabinets

- Available as single or double widths.
- Some units come equipped with wardrobes located behind the front display cabinets.
- Wardrobes on 21" wide Display Cabinets are equipped with 3 coat hooks.
- Wardrobes on 42 " wide Display Cabinets are equipped with a hanger bar.
- All wardrobes have a rubber floor mat.
- Available with open glass or wood veneer shelf options.
- Available with wood veneer doors or glass doors.
- Interior wood shelves are height adjustable in increments of $11 / 4^{\prime \prime}$.
- Glass shelved units feature a halogen light at a price of $\$ 402$.
- Glass shelves are 7.8" deep. Wood shelves are 11.8" deep.
- Open shelves are glass.
- Closed shelves are wood veneer.
- Locks are optional on wood doors only.
- Unique leveling glides adjust to uneven floors without exposing the glide.
- Single and double wardrobe units are available.
- Glass shelves are shipped wrapped in foam and secured to the front of the case.

## Storage Cabinets

- Available in single and double widths.
- Locks are optional on wood doors only.
- Available with wood veneer doors or glass doors.
- Shelves are height adjustable in increments of $11 / 4$ ".
- Unique leveling glides adjust to uneven floors without exposing the glide.

## Server Carts

- A unique raised glass platform and rear overhang provide a guest "serving" area.
- The cart is mounted on heavy-duty locking casters.
- The top surface overhang and underside finger groove facilitate movement of the cart.
- The cart features a stainless steel refuse container and black felt cutlery insert.
- Glass shelves are shipped wrapped in foam and placed securely in the case.

## Credenzas and Buffets

- 3 styles of cabinet tops are available: wood top, glass top and glass and wood combination.
- Doors are available in glass and wood veneer.
- Storage sections feature one wooden shelf which is height adjustable in increments of $11 / 4$ ".
- Unique leveling glides adjust without exposing the glide.
- Buffets with wood drawers feature a black felt cutlery insert.
- Buffet may be specified with optional Mini Refrigerator on 24" deep Buffets at a price of $\$ 1914$ list.
- Mini refrigerator features volume of 1.1 cu . ft., 2 inner door racks, automatic defrost, and lock.
- Credenzas and Buffets with partial glass tops are shipped with glass installed.
- Credenzas and Buffets with full glass tops are shipped unattached with glass wrapped in foam.

## Mobile Media Carts

- The primary cart surface can accommodate a keyboard or laptop, which in turn can be connected to a TV or monitor on upper surface.
- The top surface overhang and underside finger groove facilitate movement of the cart.
- A built-in power bar and cable slot in the upper column provide ready access to power.
- The unit is oriented to provide the correct position for the presenter.
- The cart may be specified with one or two equipment shelves on the top of the unit.
- Media Carts will generally accommodate monitors up to 27 " in size.

## Lecterns

- Glass shelf version has a wood upper flat shelf which provides a place for pens, pencils or a glass of water, and optional reference light at a price of $\$ 321$ list. It will also accommodate a user-specified microphone.
- Angled wood shelf has a bottom lip to hold papers in place. The shelf lifts to reveal an optional power and data interface point - an Altinex box at a price of $\$ 924$ list. For specifications of the Altinex box refer to page 199.
- Glass shelf provides more surface area for equipment such as a laptop. A presenter's open laptop is not visible to the seated audience.
- Wires from the interface point, (or user supplied cables) are routed down through grommeted holes to the back of the unit - to facilitate routing and access to these cables, a hinged back access door opens to reveal a cableway and optional power bar at a price of $\$ 144$ list.
- Full width shelf version is available.
- Lecterns are available with front hinged doors or open shelves.
- Mobile versions are available.
- Glass shelf is shipped installed.

## Visual Boards

- Includes white board for use with four dry erase markers.
- Includes upholstered tackboard or optional cork surface on inside face of doors (except glass door version).
- Flip chart and four dry erase markers (except glass door version).
- Optional pull-down projector screen is available at a price of $\$ 201$ list.
- Inclined top model features lower glass shelf.

## VIRTU | SECTION 2 - ORDERING AND PLANNING

## Metal Finish Options

Metal components of VIRTU are available in a Satin Aluminum finish. This encompasses all metal hardware with the exception of glass door frames, and Connexus ${ }^{\text {TM }}$ Faceplate components which are only available in Satin Aluminum finish. Please specify Metal Finish Option on purchase order.

## Pulls

Pulls are located on all drawer fronts and all wood or glass storage and display doors. Pulls are shipped installed on the interior of doors to prevent any damage.

## Solids

All Conference top edges, except Fino, have $13 / 8^{\prime \prime}$ wide laminated solid Maple or Cherry headers. Fino edges are $5 / 16$ " wide. Edges on casegoods are $5 / 16$ " wide as well. Where Anigre is the veneer species chosen, edges are of solid Maple. All solids used are Maple or Cherry, kiln dried by Krug to a 6\% moisture content, using U.S.D.A. Bulletin \# FP-1136.

## Veneer

Veneers are \#1 grade flat sliced Anigre, Maple, Cherry or Walnut and of uniform color and grain pattern.

## Finish

All finished surfaces are well sanded before applying finishing materials. The procedure begins by applying a base color via an NGR stain. A wash coat follows to further enhance the color. Next is the glazing process, which provides the 3rd color step and fills the pores of the wood. A sealer coat is then applied, twice to the horizontal worksurfaces to enhance the finish. The product is then scuff sanded to prepare for the top coat. The top coat is a catalyzed varnish that when dry has a sheen value of $32^{\circ}$. Krug's catalyzed varnish has been tested to be one of the industry's most durable and long lasting. Custom finishes are available at an upcharge of $10 \%$ list per unit.

## Gables

Gables are $3 / 4^{\prime \prime}$ thick - 45 lbs per cubic foot density particleboard core, 3 ply. Edges are banded with veneer.

## Glass surfaces

All vertical and horizontal glass surfaces are tempered and frosted. For proper cleaning of all glass surfaces, Windex ${ }^{\text {™ }}$ brand cleaning solution is recommended. Horizontal tempered and frosted glass surfaces are 10 mm thick.

## Halogen Lighting

Halogen lighting is optional in both Small and Large Display Cabinets with glass shelving. The standard is one light per unit at a price of $\$ 402$ list.

## Locks

Locks are optional on a selection of cabinets and must be specified at time of order. Locks are only available on wood doors at $\$ 110$ list per lock mechanism.

## Leveling Leg

Standard on all cabinets is a unique leveling leg - a metal casing moves up to allow for access to a glide, then neatly drops into place around the glide, concealing it from view. The glide can be adjusted $5 / 8^{\prime \prime}$.

## Glides

Adjustable glides are installed on conference table bases at factory and allow for $5 / 8$ " of adjustment.

## Casters

Locking casters are standard on the Server and Media Carts. Casters may be specified as an option on Dual Media Cabinets and on Small Media Cabinets at a price of $\$ 144$ list per unit.

## Laminates

Laminate worksurfaces are available at an upcharge of $10 \%$. Specialty laminates may be priced higher.

## Hinges

All hinges on VIRTU cases are European style chrome with 3-way adjustment and quick release. Openings on all doors are 95 degrees, with the exception of upper doors on Media Cabinets and Visual Boards, which feature an opening of 165 degrees (upper pocket doors on Media Cabinets open to 95 degrees). Synch doors are mounted on ball bearing slides and open to a 38 " expanse. Bi-fold doors on Dual Media Cabinets are mounted on interior control arms which allow the doors to open in a 165 degree controlled arc. The small access door on the back of the Mobile Media Cart features a touch latch with a free swing hinge.

## Testing Information

All product has been tested in accordance with ANSI/BIFMA X5.5-2014 or X5.9-2012.

## VIRTU | CONFERENCE ROOM SAMPLE LAYOUTS

OPEN VISIO
This table is available with seating capacities ranging from 9 to 15 . The example shows the table in relation to the Dual Media Cabinet and Display Cabinets (with wardrobes). This Media Cabinet accommodates two $35^{\prime \prime}$ monitors side by side and other audio/visual equipment for videoconferencing or other presentation requirements. The table bases are Forza Leg bases. Connexus ${ }^{\top \mathrm{M}}$ modules are indicated in standard locations.

## ORDERING PROCEDURE

Please specify the following:

1. Select Table Top shape, size, model number and wood species.
2. Select Table Base(s), size, model number, quantity and wood species.
3. Obtain Table Price by cross-referencing selected top with selected base(s). The prices listed are the combined total of the top and base(s).
4. Select Connexus ${ }^{\text {TM }}$ Module(s) and a Location Code for either a Glass or Satin Aluminum module.

Add pricing for the selected Connexus ${ }^{\text {TM }}$ Module(s) to the table price.
5. Select Monument Location(s) and provide monument location code(s) on purchase order.
6. Select a Wood Finish (refer to page 188).
7. Select an Edge Profile. (refer to page 188).

Model numbers represent nominal dimensions only (in inches). Contact Customer Service if dimensions are critical.

## ORDERING PROCEDURE

Please specify the following:

1. Select Table Top shape, size, model number and wood species.
2. Select Table Base(s), size, model number, quantity and wood species.
3. Obtain Table Price by cross-referencing selected top with selected base(s). The prices listed are the combined total of the top and base(s).
4. Select Connexus ${ }^{\text {TM }}$ Module(s) and a Location Code for either a Glass or Satin Aluminum module.

Add pricing for the selected Connexus ${ }^{\text {TM }}$ Module(s) to the table price.
5. Select Monument Location(s) and provide monument location code(s) on purchase order.
6. Select a Wood Finish (refer to page 188).
7. Select an Edge Profile. (refer to page 188).

Model numbers represent nominal dimensions only (in inches). Contact Customer Service if dimensions are critical.

L - length
W - width
H - height
Model numbers represent nominal dimensions only. Contact Customer Service if dimensions are critical.

## SPECIAL FEATURES

Conference tops are designed to accommodate microphones, which can be field installed
Please contact Customer Service for more information on where they can be positioned. Custom table sizes are available. Please contact Customer Service or your local Krug representative.
"Base Size" represents wood dimensions and does not include metal accents. Please contact Customer Service if dimensions are critical.
Bookmatched Birdseye Maple veneer is available on VIRTU Conference Table Tops at an upcharge of \$58 list per square foot.
Conference tops may be ordered with a reduced number of sections at an upcharge. Please contact Customer Service or your local Krug representative for details.

## VIRTU | CONFERENCE TABLE PRICING AND MODEL NUMBERS

Shown below are model numbers and pricing for VIRTU conference tops and bases. The pricing is the combined price of the top and the base(s) that are cross-referenced in the chart. Please note that some bases are not available on all tops. Only the top and base combinations listed are available. When ordering, please specify the model number of the top, the model number(s) of the base(s), followed by their combined price. See bottom page for Conference Table Ordering Procedure.

## ORDERING PROCEDURE

Please specify the following:

1. Select Table Top shape, size, model number and wood species.
2. Select Table Base(s), size, model number, quantity and wood species.
3. Obtain Table Price by cross-referencing selected top with selected base(s). The prices listed are the combined total of the top and base(s).
4. Select Connexus ${ }^{\text {TM }}$ Module(s) and a Location Code for either a Glass or Satin Aluminum module.

Add pricing for the selected Connexus ${ }^{\text {TM }}$ Module(s) to the table price.
5. Select Monument Location(s) and provide monument location code(s) on purchase order.
6. Select a Wood Finish (refer to page 188).
7. Select an Edge Profile. (refer to page 188).

Model numbers represent nominal dimensions only (in inches). Contact Customer Service if dimensions are critical.

## ORDERING PROCEDURE

Please specify the following:

1. Select Table Top shape, size, model number and wood species.
2. Select Table Base(s), size, model number, quantity and wood species.
3. Obtain Table Price by cross-referencing selected top with selected base(s). The prices listed are the combined total of the top and base(s).
4. Select Connexus ${ }^{\text {TM }}$ Module(s) and a Location Code for either a Glass or Satin Aluminum module.

Add pricing for the selected Connexus ${ }^{\text {TM }}$ Module(s) to the table price.
5. Select Monument Location(s) and provide monument location code(s) on purchase order.
6. Select a Wood Finish (refer to page 188).
7. Select an Edge Profile. (refer to page 188).

Model numbers represent nominal dimensions only (in inches). Contact Customer Service if dimensions are critical.

Connexus ${ }^{\text {TM }}$ is Krug's proprietary tabletop connectivity solution. When opened, it presents power and data outlets on a convenient angle to the user and provides storage for wiring.

The faceplate of Connexus ${ }^{\text {TM }}$ is available in either Glass or Aluminum and sits flush with the tabletop. It is designed to allow wiring to pass through the surface cover in both the open and closed positions. The faceplate opens to a $100^{\circ}$ angle from the table top.

Connexus ${ }^{\text {TM }}$ utilizes UL standard receptacle outlets. Connexus ${ }^{\text {TM }}$ offers 11 pre-configured units with a wide selection of power, data and presentation system outlets, or alternatively can be purchased with just electrical ports with blank data ports. Connexus ${ }^{\top \mathrm{M}}$ also can be designed and built specifically to meet your connectivity needs by using the snap-in or plate mounted port options.

All corded units can be modified to allow the units to be hard wired by an electrician and data ports can be reconfigured easily when desired. To facilitate this process, the Enclosure Box of each Connexus ${ }^{\text {TM }}$ module is easily removable.
*All duplex outlets are contained within a metal box that is attached to the Partition Plate. If additional outlets need to be added in the future, these boxes need to be ordered from Krug to expand the enclosure. All modifications must be done by a qualified electrician.

The label drawing shown below illustrates the way a Connexus ${ }^{\text {TM }}$ module is shipped to the user. The Partition Plate is mounted on-site to the underside of the top with the Enclosure Box over top to conceal the module. Please note, enclosure boxes are not required when modules are enclosed in a base. Enclosure boxes are not supplied with Connexus ${ }^{\top \mathrm{M}}$ modules; they must be ordered separately when required.

Standard Connexus ${ }^{\text {TM }}$ Module

Standard Connexus ${ }^{\text {TM }}$ Components
Blank Connexus ${ }^{\text {TM }}$ Module

## CONNEXUS™ ${ }^{\text {™ }}$ IZES

Standard - 3 Gang

Larġe - 4 Gang

Connexus ${ }^{\top \mathrm{M}}$ modules may be specified in Standard or Large sizes.
Standard modules are available in 7 standard configurations or custom configurations. Connexus ${ }^{\top \mathrm{M}}$ modules in Standard configurations are $61 / 8^{\prime \prime} \times 73 / 8^{\prime \prime}$. Depth on Standard module is $4.5^{\prime \prime}$.

Large modules are available in 4 standard configurations or custom configurations. Connexus ${ }^{\text {M }}$ modules in Large configurations are $81 / 4$ " $\times 73 / 8^{\prime \prime}$. Depth on Large module is $4.5^{\prime \prime}$.

## CONNEXUS ${ }^{\text {T }}$ | PLANNING

Connexus ${ }^{\top M}$ modules are wired independently of each other to maximize the amount of electrical devices serviced. All Connexus ${ }^{\top M}$ modules may sustain individual loads of 15 amps or 12 amps of continuous load. Each Connexus ${ }^{\text {TM }}$ module will require a single isolated circuit to maximize its service capabilities. An optional utility a/c power outlet is available on the back surface of the outlet box.

Connexus ${ }^{\text {TM }}$ components are UL and CSA US approved and manufactured in accordance to the National Electrical Code. Hardwiring Connexus ${ }^{T M}$ modules on-site must be performed by a licensed electrician. Connexus ${ }^{T M}$ units can be ordered with an optional utility outlet, which is located on the bottom side of the Connexus ${ }^{\top M}$ unit and underneath the work surface. Other Connexus ${ }^{\top M}$ products could employ these utility outlets as a source of power. In this scenario, it is solely the responsibility of the end user to assure that proper circuit protection is in place that never exceeds the 15 Ampere Circuit Breaker Rating.

CONNEXUS ${ }^{\text {TM }}$ FIELD TABLE CUT-OUT KIT ( ONLY REQUIRED FOR INSTALLATIONS AFTER TABLE PURCHASE) 3 Gang CONFIELD3 \$345

4 Gang CONFIELD4 \$345

## ELECTRICAL CORD LENGTHS

Connexus ${ }^{\text {TM }}$ modules come with pre-determined electrical cord lengths that are suited to the size and configuration of each table (16' \& $25^{\prime}$ '). Each will plug into a standard floor monument power source. However, in situations where a table length exceeds our maximum cord length, a second power entry is necessary to avoid daisy-chaining of electrical power. To determine when a second power entry is required follow these steps:

1. Select your Connexus ${ }^{\text {TM }}$ locations.
2. Select your Floor Monument Location(s) if they do not already exist in the room.
3. If the number of Connexus ${ }^{\text {TM }}$ modules exceed three consecutive positions left or right of the power entry, then an additional power entry will be required.

Note: Connexus ${ }^{\text {TM }}$ modules in pairs count as one position.

## HARDWIRING ON SITE

For hardwiring on-site by electricians, please use the following schematic:
(1) Power Supply Cord
(2) Strain Relief
(3) Fork Terminals
(4) Duplex Receptacles
(5) Outlets with Circuit Breaker Assembly
(6) Handy Box

(2) RJ11 port
A)
(4) RJ45 port (Category 6)
(B) (2) AC power ports
(C) (2) AC power ports / with 15 amp circuit breaker
BASIC MULTIMEDIA 62 CON BM 820896

(1) RJ11 port
(A)

(1) RJ45 port (Category 6)
(B)
(1) 3.5 mm Mini
(1) VGA Type 15 pin HD
(C) (2) AC power ports

ORDERING NOTE: Enclosure box is only required only when the Connexus ${ }^{\text {TM }}$ is not positioned over a base. If an enclosure box is required, please clearly state this requirement on your purchase order and add the $\$ 219$ per Connexus ${ }^{\text {TM }}$.

| Standard - 3 GANG | List Price |
| :--- | :--- | :--- |

Planning a custom Connexus ${ }^{\top M}$ unit is easy when following these 6 simple steps.

## STEP ONE: Select the quantity of AC power ports or AC power ports with USB Charging (select configurations only) that are required.

Power modules must always be positioned starting from the right side of the unit. For example, 3 gang Connexus ${ }^{\top M}$ can have a power module located in position $C$ with data ports in position $A$ and $B$, or power can be located in position $B$ and $C$ with data port in position A , or position $\mathrm{A}, \mathrm{B}$ and C can have all power ports or all data ports. Please note, 4 gang Connexus ${ }^{\mathrm{TM}}$ are not available with power ports located in position A.

On select configurations shown below, USB charging outlets are available. These charging outlets allow a user to charge most personal electronic devices without the need for any special power adapter or a computer - simply plug in your device with any compatible USB cable. This component has 2 USB charging slots that supply 5V DC at 700 mA . Comes with a charging indicator light, as well as a standard 120 volt simplex receptacle on the bottom portion of the component.

## Standard Connexus ${ }^{\text {TM }}$

3 Gang: Data ports only
E300-Standard Data Ports
\$56
Large Connexus ${ }^{\text {TM }}$

STEP TWO : There are two cord end options available; Plug In and Conduit. The standard Plug In option will connect with any standard floor monument power source. The Conduit option is Liquatite® (a steel inner conduit with a PVC overlay) by Anamet, meant for specific hard wiring applications. Units can come in cord lengths of $16^{\prime}$ or $25^{\prime}$. Not Applicable if no power is selected.

EC
Electrical Conduit Add upcharge 16' \$99 25' \$165

STEP THREE: There are two data options available; Plate mounted ports (page 238) or Snap-in ports (page 240). Snap-in ports are available in configurations of two, four or six. Choose the faceplate below that meets your data requirements. If an odd number of Snap-in ports are required, a blank port needs to be selected when the opening is not in use.

M04
Mounting Plate (4)
accepts four snap in data ports
Add $\$ 28$ list

MOO
Mounting Plates
Add $\$ 28$ list

STEP FOUR: Choose the Plate mounted port (page 238) or Snap-in ports (page 240) options for non-powered positions. As an aid, use the chart below to help design and build your Connexus ${ }^{\top M}$ to meet the rooms needs. Use the check boxes and list the components from page 236 through page 239 on the lines below.

## Standard Connexus ${ }^{\text {TM }}$

(A)

(B)

## Large Connexus ${ }^{\text {TM }}$

STEP FIVE: Select the Connexus ${ }^{\text {TM }}$ Cover (Aluminum or Glass) Standard Connexus ${ }^{\text {TM }}$

## Large Connexus ${ }^{\text {TM }}$

4 GANG

| 4CCA | Aluminum | \$284 list |
| :--- | :--- | :--- |
| 4CFG | Glass | $\$ 350$ list |
| 4C00 | No Lid |  |

STEP SIX: Enclosure box is only required only when the Connexus ${ }^{\text {TM }}$ is not positioned over a base.
If an enclosure box is required, please clearly state this requirement on your order and add the $\$ 219$ per Connexus ${ }^{\top \mathrm{M}}$.
STEP SEVEN: Calculate the total list price for the custom Connexus ${ }^{\text {TM }}$ by adding the following prices:

- Connexus ${ }^{\text {TM }}$ Box with required AC Power Ports
- Faceplate (Snap-in Ports Only)
- Snap-In Ports or Plate Mounted Data Ports
- Enclosure Box (if required)
- Connexus ${ }^{\text {TM }}$ Lid (Aluminum or Glass)
 signals, Connector is a female input to a 3 ' corded output (back side of Console interface) with a male Display Port termination.

MICROPHONE XLR STANDARD - Use for standard size XLR microphone

MICROPHONE STANDARD XLR -2 - Use for two standard size XLR microphone connections. Each connector is a female input with a 3 pin screw terminal output (back side of Console interface).

P10

INPUT VGA \& 3.5 Stereo (POWERED) - VGA + Audio Line Driver designed for VGA (DB15) connections and for 3.5 mm stereo connections. This unit provides a method of transmitting signals to a remote display and audio receiver or amplifier. VGA connector is a female input and comes with cabling for either VGA output, or 5 BNC output and the 3.5 Mini is a female input with screw terminal output (back side of Console interface). A 9 volt DC 500 mA power supply is required to power this unit.

## DVIR

DVI-REPEATER - Is a cable equalizer that automatically compensates for long DVI cable runs. This unit extends the usable cable distance up to 130 ft depending on the quality of the cable and the resolution of the video signal. Additionally, it is capable of extending dual link signals allowing for much greater resolutions and refresh rates. This unit comes with a power supply and is generally mounted underneath a table.

S03

RJ-45 - Category 6 data connection. This connector is also downwards compatible with Category 5 cabling. Connector is a female input with a \#110 punch-down terminal block output (back side of Console interface) for on-site hard wire connection.

RJ45-CAT6 (White)
RJ45-CAT6 (Red)

RJ11 - Telephone type connection. Connector is a female input with a \#110 punch-down terminal block output (back side of Console interface) for on-site hard wire connection.

RJ11 (White)
RJ11-B (Black)
RJ11-G (Green)
RJ11-R (Red)
RJ11-Y (Yellow)
3.5 STEREO MINI - 3.5 mm stereo connection. Connector is a female input with screw terminal output (back side of Console interface).

HDMI - High Definition Multimedia Interface connection. Connector carries both HD audio and video data. Connector is a female-tofemale pass through.

RCA-LEFT - RCA left audio channel connection. Color coded with black. Connector is a female-to-female pass through.

RCA-RIGHT -RCA right audio channel connection. Color coded with red. Connector is a female-to-female pass through.

RCA- VIDEO - RCA video channel connection. Color coded with yellow.

USB-A - Full size USB "A" style connection. Connector is a 44 female-to-female pass through.

S09

NOTE: Up to 6 snap-in data ports can be ordered for open data positions. Snap-in adaptors can accept 2,4 or 6 snap-in data ports. Please order a blank port when an odd number of snap-in ports are specified.

3 PIN MINI XLR - 3 Pin Mini XLR microphone connection. Connector is a female input to a 6' corded output (back side of Console interface) with a 3 Pin Mini XLR male termination.

S-VIDEO - S-Video connection. Connector is a female-to-female pass through.

BNC - BNC style data connection for use with co-axial cable. Connector is a female-to-female pass through.

F-TYPE - F-Type (DSL,Cable) connections, generally for high speed Internet or video applications. Connector is a female-to-female threaded pass through.

FIBER OPTIC SC - Fibre Optic SC Simplex connection. Connector is a female-to-female pass through. Please note that two of these connectors are required to complete the data transmissions to and from the source and destination units.

FIBER OPTIC LC - Fibre Optic LC Duplex connection. Connector is a female-to-female pass through. One connector only is required to complete the data transmissions to and from source and destination units.

USB-B - USB " B " type connection. Connector is a female " B " input to a female "A" output (back side of Console interface). This connector is reversible.

RJ12 (White) - RJ12 style PolyCom ${ }^{\text {TM }}$ connection. Connector is a female input with a 6' corded output (back side) of Console interface) with a male RJ12 termination.

BLANK COVER - Blank covers are required when port is not in use.

## VIRTU | CONNEXUS ${ }^{\text {™ }}$ LOCATIONS CHARTS

The Connexus ${ }^{\top M}$ Locations diagrams below show the available Connexus ${ }^{\top M}$ locations for only the top and base configurations shown above. Please note that the maximum allowable Connexus ${ }^{\top M}$ modules per top are shown, and tops may be specified with fewer modules. Each Connexus ${ }^{\top M}$ module has a code to represent its location on the table surface. To specify a Connexus ${ }^{\top M}$ module in a particular location, please use the code listed above it. Note that Large Connexus ${ }^{\top M}$ modules can only be specified on the outside sections of tops. For specific pricing on individual Connexus ${ }^{T M}$ modules please see pages 231. Connexus ${ }^{\text {TM }}$ locations and quantities may be limited if Floor Monuments already exist at installation site. Please see Floor Monuments section (page 252) for more information. For large Connexus ${ }^{\text {TM }}$ units, please replace " 3 " in location code with " 4 ". Codes that appear above table illustrations represent single center locations, in which unit will face West if on left end of top, and East if on right end of top. Note: For Connexus ${ }^{\top M}$ locations other than those shown below, contact Customer Service for upcharge.

REPRESENTS MODULES THAT WHEN OPENED FACE THE SIDES OF THE TABLE

## VIRTU | CONNEXUS™ | LOCATIONS CHARTS

The Connexus ${ }^{T M}$ Location, "C", is the only code required when specifying a Connexus ${ }^{T M}$ module on a Round, Square, Arced Square or Delta table. For large Connexus ${ }^{\top M}$ units, please replace " 3 " in location code with " 4 ". Codes that appear above table illustrations represent single center locations, in which unit will face West if on left end of top, and East if on right end of top. Note: For Connexus ${ }^{\text {TM }}$ locations other than those shown below, contact Customer Service for upcharge.

Note: It is recommended that Connexus ${ }^{\text {TM }}$ Modules not be specified on 36 " and $42^{\prime \prime}$ Delta tops and $42^{\prime \prime}$ Arced Square, Round and Square tops when used in conjunction with Forza Leg bases due to leg room constraints. WHEN OPENED FACE THE SIDES

## VIRTU | FLOOR MONUMENT LOCATIONS

## FLOOR MONUMENT LOCATIONS

All VIRTU table bases and casegoods designed for use with office equipment provide wire management with easy door access to floor and wall monuments. This allows for change and updating of wiring throughout the product without having to take furniture apart and re-install it. We've provided in this guide helpful information on the optimum locations of floor monuments in relation to the table base locations, so that you can position each appropriately.
Follow the New Monument Locations guidelines to determine these positions. We've also given you steps for determining what locations and quantities of Connexus ${ }^{\top M}$ modules are available if floor monuments already exist at the installation site. Follow the Existing Monument Locations guidelines if this applies.

## NEW MONUMENT LOCATIONS

Steps to Determine Recommended Floor Monument Location Codes for Tables

1. In the "Chart A" section, starting on page 256, locate the page which represents the Base(s) and Top Shape for your table, which are listed at the top of each page.
2. Locate your "Top Size" and "Top Shape" from the chart on that page.
3. On the left, you will see a diagram with "Codes" indicated for Recommended Monument Locations.
4. Select the Code(s) for your preferred Monument Locations(s) and note for ordering purposes.

Note: Some restrictions apply in selecting Monument Locations, due to pre-determined electrical cord lengths. See Electrical Cord Lengths on page 255 for details.

Steps to Determine Recommended Monument Location Measurements

1. In the "Chart B" section, starting on page 264, locate the page which represents the Bases(s) and Top Shape for your table, which are located at the top of each chart.
2. Locate your "Top Size".
3. Cross reference your table size with the "Codes" that you have selected for your table.

Note: The measurements listed represent the distance in inches that a particular "Code" is from the left edge of your table. The shaded columns, ML and MR, represent the distance in inches that a particular "Code" is from the center line (lengthwise) of the table.

## Existing Monument Locations

If your VIRTU Conference Table is to be installed in a room with existing floor monuments, please use the following steps to determine the available location(s) and quantity of Connexus ${ }^{\text {™ }}$ modules.

1. Create an overhead view of the room in which your conference table is to be located, including measurements of floor space.
2. Sketch in an outline of your conference table in the position you would like it to be located in the room.
3. Measure the exact positions of the existing floor monuments in relation to the perimeter of your conference table.
4. Follow the steps outlined in Electrical Cord Lengths on page 255 to determine the available locations(s) and quantity of Connexus ${ }^{\top \mathrm{M}}$ modules.
5. Submit the overhead view of the room with your purchase order so that Krug can provide the proper electrical cord lengths with your order.

It is recommended that a flush floor mounted monument is specified to best facilitate access into all VIRTU bases. Monument locations listed within "Chart B" provide dimensional information as it relates to the position of the monuments and bases. Enclosed bases have been designed to be placed over top of the monument, while tables supported with Forza Leg and Forza Panel bases have the monuments located offset to the leg. Please note that the measurements listed are the optimum location for Floor Monuments so that wiring does not interfere with the users.

The monument will require a minimum of one dedicated receptacle and provision for communication wire passage as well. Monuments with combined electrical capabilities will restrict the number of communication cables for use. For situations requiring large amounts of communication wiring, we highly recommend entering the table through another base from a monument designed for communication wires only.

The Floor Monument charts and diagrams are also designed to help determine the proper cord length designations. In order for Krug to supply the proper length of electrical cords for VIRTU Conference tops specified with Connexus ${ }^{\text {TM }}$ modules, the user must specify Monument Location Codes which can be found in these drawings. If floor monuments already exist, please provide an overhead room layout, with exact measurements of your conference table and monuments positions, as outlined in Existing Monument Locations.

## VIRTU | FLOOR MONUMENT LOCATIONS

## Electrical Cord Lengths

Connexus ${ }^{\top M}$ Modules come with pre-determined electrical cord lengths that are suited to the size and configuration of each table. Each will plug into a standard floor monument power source. However, in situations where a table length exceeds our maximum cord length, a second power entry is necessary to avoid daisy-chaining of electrical power. To determine when a second power entry is required please follow these steps.

1. Select your Connexus ${ }^{\text {TM }}$ Location(s).
2. Select your Floor Monument Location(s) if they do not already exist in the room.
3. If the number of Connexus ${ }^{\text {™ }}$ Modules exceed three consecutive positions left or right of the power entry, then an additional power entry will be required. Refer to the Connexus ${ }^{\text {TM }}$ Diagrams on pages 242-252 that illustrates the base and tabletop combination of your selection.

Note: Connexus ${ }^{\text {TM }}$ Modules in pairs count as one position.

* Open Visio tables require 2 power sources, one per wing, or a single power source located at the apex of the two tables.

## Example 1

If the designated Floor Monument location for the table scenario shown below is 1L, the user would be able to power-up any or all of the following Connexus ${ }^{\text {TM }}$ locations: ACW3, BCW3 and CCW3.

## Example 2

If the designated Floor Monument location for the table scenario shown below is $2 R$, the user would be able to power-up any or all of the following Connexus ${ }^{\text {TM }}$ locations: CCW3, DCE3, ECE3 and FCE3.

Monument Location Scenario

Connexus ${ }^{\text {TM }}$ Location Scenario

1L 2L 3L 3 3R 2R 1R
ACW3 BCW3 CCW3 DCE3 ECE3 FCE3

Due to the unique shape of Open Visio tables, this Monument Location Chart differs from the other charts

## VIRTU | CONFERENCE TABLE ORDERING CHART SAMPLE

## Conference Table Ordering Chart Samples

To assist in the specification of VIRTU conference tables we have provided an ordering chart. Shown first is a completed sample chart. This sample chart shows exactly what information is needed to complete an order. The exception is the Connexus ${ }^{\top M}$ and Floor Monument areas, as they are not required if Connexus ${ }^{\top M}$ modules are not included in the order. You may photocopy the blank chart on bottom of the page and use it exclusively for ordering VIRTU conference tables, attach the charts to the rest of your order, or simply use the chart as a reference to what information is required to complete your conference table order.

## ORDERING NOTES

Lectern features grommets for wire management.

The Satin Aluminum Logo Plate comes unattached to the Lectern. It is designed to be provided to a signage company for application of the company logo, with either a vinyl transfer or silk screening. After the signage is complete, the Logo Plate can be attached to the Lectern surface. First, determine the position that the Logo Plate is to be positioned. Remove the black plastic end caps and attach via wood screws. Once secure, snap the Logo Plate over top of the end caps to complete the installation.

# VIRTU | INSTALLATION INSTRUCTIONS 

## Single Section with Dais, Forza Square \& Oblique

## COMPONENTS

TOOLS REQUIRED
3/4" Hex drive bolt (112164)
5/32" Allen Key or driver

- 8 per Dais/Oblique base
- 12 per Verso/Forza Square base

IMPORTANT: If table has ConnexusTM modules, install them using their instructions before proceeding.

## PROCEDURE

1. Unpack table and all base(s). Find all of the hardware listed. Fasteners are in a bag on the bottom of one section (some fasteners may be shipped with the bases).
MAKE SURE THE CORRECT SIZE AND QUANTITY OF COMPONENTS ARE INCLUDED WITH THE TABLE.
2. Put base(s) in the approximate place where the table will be located in the room. Place over base(s). Align the metal base plates with the inserts in the underside of the top.
3. To fasten bases to the top, insert the $3 / 4^{\prime \prime}$ bolts through the plate on the base and into the inserts. Start threading the bolts by hand to prevent cross-threading. Tighten with Allen key or power driver.

4. Attach wire management components to bottom of assembled table. For additional help please contact Customer Service.

door faces towards center of table

CAUTION: TABLES CAN BE EXTREMELY HEAVY. MAKE SURE THERE ARE SUFFICIENT PEOPLE AVAILABLE TO FLIP TABLE UPRIGHT. DO NOT SUBSTITUTE HARDWARE. IF HARDWARE IS MISSING, CONTACT CUSTOMER SERVICE.

## Open Visio

## COMPONENTS

TOOLS REQUIRED
A) $3 / 4$ " hex drive bolt (112164)

5/32" Allen Key or driver

- 6 per Forza Leg
+16 per joint
B) Tite-joint fastener (10637)
- 3 per joint
C) Fastener rod (11687)

IMPORTANT: If table has Connexus ${ }^{\text {TM }}$ modules, install them using their instructions before proceeding.

## PROCEDURE

1. Unpack all table sections and bases. Find all the hardware listed. Fasteners are in a bag on the bottom of one section (some fasteners may be shipped with the bases). MAKE SURE THE CORRECT SIZE AND QUANTITY OF COMPONENTS ARE INCLUDED WITH THE TABLE.
2. Place single end section table upside down onto a soft surface. See figure 1.

Figure 1
3. Fasten six bases to the top, insert the $3 / 4^{\prime \prime}$ bolts (A) through the plate on the base and into the inserts. Start threading the bolts by hand to prevent cross-threading. Tighten with allen key or power driver.
4. Stand end section upright.
5. Place center table sections upside down onto a soft surface. Identify top section number coding on bottom of sections that is the same as the single end section.
6. Fasten two bases to the top on the other end from the location found in step 5 . See figure 2. Insert the $3 / 4^{\prime \prime}$ bolts (A) through the plate on the base and into the inserts. Start threading the bolts by hand to prevent cross-threading. Tighten with allen key or power driver.

Figure 2 underside
7. Stand centre section upright and attach to appropriate side of single end section. Insert the $3 / 4$ " bolts (A) through the plate on the base and into the inserts. Start threading the bolts by hand to prevent crossthreading. Tighten with allen key or power driver.
8. Repeat steps 5-7 for double end sections.
9. Assemble the tite-joint fastener as shown in figure 3. Install assembled tite-joint with machining in table sections.

correctly installed

incorrectly installed
10. Flush the edge of the sections and tighten fasteners with rod provided (C). Do not over tighten.
11. Adjust top alignment, if required by slightly loosening tite-joint fasteners and base plate bolts, making the adjustment and re-tightening fasteners and bolts.
12. Attach modesty panels with L-brackets and screws provided.
13. Attach wire management extrusion to modesty panels with screws provided.

For additional help please contact Customer Service.
CAUTION: TABLES CAN BE EXTREMELY HEAVY. MAKE SURE THERE ARE SUFFICIENT PEOPLE AVAILABLE TO FLIP TABLE UPRIGHT. DO NOT SUBSTITUTE HARDWARE. IF HARDWARE IS MISSING, CONTACT CUSTOMER SERVICE.

# VIRTU | INSTALLATION INSTRUCTIONS 

## Single Section with Forza Legs or Panels

## COMPONENTS

TOOLS REQUIRED
3/4" Hex drive bolt (112164)
5/32" Allen Key or driver

- 6 per leg/12 per panel

IMPORTANT: If table has Connexus ${ }^{\text {TM }}$ modules, install them using their instructions before proceeding.
PROCEDURE

1. Unpack table and all bases. Find all the hardware listed. Fasteners are in a bag on the bottom of one section (some fasteners may be shipped with the bases.) MAKE SURE THE CORRECT SIZE AND QUANTITY OF COMPONENTS ARE INCLUDED WITH THE TABLE.
2. Place table upside down onto a soft surface. As shown in Figure 1, invert and position the bases onto the underside of the table and align the metal base plates with the inserts in the underside of the top THE BLACK PLASTIC EXTRUSION FACES TOWARDS THE CENTER OF THE TABLE.

3. To fasten bases to the top, insert the $3 / 4^{\prime \prime}$ bolts through the plate on the base and into the inserts Start threading the bolts by hand to prevent cross-threading. Tighten with allen key or power driver.
4. Flip assembled table over.
5. Attach wire management components to bottom of assembled table.

For additional help please contact Customer Service.
CAUTION: TABLES CAN BE EXTREMELY HEAVY. MAKE SURE THERE ARE SUFFICIENT PEOPLE AVAILABLE TO FLIP TABLE UPRIGHT. DO NOT SUBSTITUTE HARDWARE. IF HARDWARE IS MISSING, CONTACT CUSTOMER SERVICE.

## VIRTU | INSTALLATION INSTRUCTIONS

## Multi-Section with Forza Legs or Panels

## COMPONENTS

A) $3 / 4$ " Hex drive bolt (112164)

- 16 per joint
+ (8 per Dais/Oblique)/(12 per Verso/Forza)
B) Tite-joint fastener (10637)
- 3 per joint
C) Fastener rod (11687)
D) Channel bracket
- per joint

IMPORTANT: If table has Connexus ${ }^{\text {TM }}$ components, install them using their instructions before proceeding

## PROCEDURE

1. Unpack all table sections and bases. Find all the hardware listed. Fasteners are in a bag on the bottom of one section and the channels are wrapped together (some fasteners may be shipped with the bases.) MAKE SURE THE CORRECT SIZE AND QUANTITY OF COMPONENTS ARE INCLUDED WITH THE TABLE.
2. Place table upside down onto a soft surface. Arrange top sections by the number coding on bottom of sections.
3. For tables with four (4) or more sections refer to chart for assembly detail. Align the machining in one section with the machining in the adjacent section. Bring the sections tight together.

| Top | Top Lengths | Assembly Order |  |
| :---: | :---: | :---: | :---: |
|  |  | Before Flipping | After Flipping |
|  | $\begin{aligned} & 168 \\ & 192 \end{aligned}$ | $\begin{aligned} & \text { ACW3-BCW3 } \\ & \text { CCE3-DCE3 } \end{aligned}$ | ACW3/BCW3-CCE3/DCE3 |
|  | $\begin{aligned} & 216 \\ & 240 \end{aligned}$ | ACW3-BCW3 DCE3-ECE3 | ACW3/BCW3-CCW3 CCW3-DCE3/ECE3 |
|  | $\begin{aligned} & 264 \\ & 288 \end{aligned}$ | ACW3-BCW3 ECE3-FCE3 CCW3-DCE3 | ACW3/BCW3-CCW3/DCE3 CCW3/DCE3-ECE3/FCE3 |

4. Assemble the tite-joint fastener as shown in figure 1. Install assembled tite-joint with machining in table sections.

5. Flush the edge of the sections and tighten fasteners with rod provided (C). Do not over tighten
6. As shown in Figure 2, align holes in the channel brackets (D) with threaded inserts in the top sections. To fasten the channel brackets, start threading the $3 / 4^{\prime \prime}$ bolts (A) by hand. This will prevent crossthreading the bolt into the inserts, which may cause damage to the table tops.

Figure 2

## VIRTU | INSTALLATION INSTRUCTIONS

7. As shown in Figure 3, invert and position the bases onto the underside of the outer table sections and align the metal base plates with the inserts in the underside of the top. To fasten bases to the top, insert the 3/4" bolts (A) through the plate on the base and into the inserts. Start threading the bolts by hand to prevent cross-threading. Tighten with allen key or power driver.

Figure 3

8. If table has center bases put bases in the approximate place where the table will be located in the room. Flip all assembled table sections over and place over center bases (if required). Repeat steps 4-6 (if required) for sections not already attached.

cut outs face towards center of table
9. Adjust top alignment, if required by slightly loosening tite-joint fasteners and channel bracket bolts, making the adjustment and re-tightening fasteners and bolts.
10. Attach wire management extrusion to bottom of assembled table with screw provided.

For additional help please contact Customer Service.

CAUTION: TABLES CAN BE EXTREMELY HEAVY. MAKE SURE THERE ARE SUFFICIENT PEOPLE AVAILABLE TO FLIP TABLE UPRIGHT. DO NOT SUBSTITUTE HARDWARE. IF HARDWARE IS MISSING, CONTACT CUSTOMER SERVICE.

## VIRTU | INSTALLATION INSTRUCTIONS

## Multi-Section with Dais, Verso, Forza Square \& Rectangle and Oblique

## COMPONENTS

TOOLS REQUIRED
A) $3 / 4$ " Hex drive bolt (112164) 5/32" Allen Key or driver

- 16 per joint
+ (8 per Dais/Oblique)/(12 per Verso/Forza)
B) Tite-joint fastener (10637)
- 3 per joint
C) Fastener rod (11687)
D) Channel bracket
- per joint

IMPORTANT: If table has Connexus ${ }^{\text {TM }}$ modules, install them using their instructions before proceeding.

## PROCEDURE

1. Unpack all table sections and bases. Find all the hardware listed. Fasteners are in a bag on the bottom of one section and the channels are wrapped together (some fasteners may be shipped with the bases.) MAKE SURE THE CORRECT SIZE AND QUANTITY OF COMPONENTS ARE INCLUDED WITH THE TABLE.
2. Place table upside down onto a soft surface. Arrange top sections by the number coding on bottom of sections.
3. For tables with four (4) or more sections refer to chart for assembly detail. Align the machining in one section with the machining in the adjacent section. Bring the sections tight together.

4. Assemble the tite-joint fastener as shown in figure 1. Install assembled tite-joint with machining in table sections.

correctly installed

incorrectly installed
5. Flush the edge of the sections and tighten fasteners with rod provided (C). Do not over tighten
6. As shown in Figure 2, align holes in the channel brackets (D) with threaded inserts in the top sections. To fasten the channel brackets, start threading the $3 / 4^{\prime \prime}$ bolts $(A)$ by hand. This will prevent crossthreading the bolt into the inserts, which may cause damage to the table tops.

## VIRTU | INSTALLATION INSTRUCTIONS

## Multi-Section with Dais, Verso, Forza Square \& Rectangle and Oblique

7. As shown in Figure 3, invert and position the bases onto the underside of the outer table sections and align the metal base plates with the inserts in the underside of the top. To fasten bases to the top, insert the $3 / 4$ " bolts (A) through the plate on the base and into the inserts. Start threading the bolts by hand to prevent cross-threading. Tighten with allen key or power driver.

8. To fasten bases to the top, insert the $3 / 4^{\prime \prime}$ bolts (A) through the plate on the base and into the inserts. Start threading the bolts by hand to prevent cross-threading. Tighten with allen key or power driver.

CAUTION: TABLES CAN BE EXTREMELY HEAVY. MAKE SURE THERE ARE SUFFICIENT PEOPLE AVAILABLE TO FLIP TABLE UPRIGHT. DO NOT SUBSTITUTE HARDWARE. IF HARDWARE IS MISSING, CONTACT CUSTOMER SERVICE.

## VIRTU | INSTALLATION INSTRUCTIONS

## CONNEXUSTM INTERFACE INSTALLATION

We recommend that you place the table on a soft surface SAVE THESE INSTRUCTIONS

Tools Required:
Drill with driver bits or screwdriver
Utility Knife (if required)

## INSTALLATION

1. Identify ALL the connexus locations on the top sections and connexus cartons. (They will be labeled with a green tag to indicate the location within the table. For example, ACW3. See Figure 1. Place the cartons (containing the connexus Interface) with the same coded top section carton.
2. Open the top carton that corresponds with the carton that these instructions came from and then remove protective packaging from both top and interface. Do each interface and top section one at a time to prevent mixing interfaces.
3. After unpacking, place the top section with the bottom facing up on a soft surface as to not damage the top.
4. Place the tongue of the corresponding interface into aluminum extrusion in top, see Fig. 2a. Aligning the electrical components in the interface over the door hinge on the aluminum components in the top. The door hinge side of the connexus is labeled with the location code, see Fig. 2b. Screw interface to inserts in the table top with screws shown in Fig. 3.
5. Align the u-shaped cutouts in the coverbox with the electrical components in the interface. Pass the power cord thru one of the $u$-shaped cutouts. The large flat face of the interface should line up flush with the large opening in the coverbox. Screw cover box to table top with screws shown in Fig. 3.
6. Repeat steps 3 to 5 for each location.
7. Assemble top according to Assembly instructions provided.
8. Attach wire management extrusion to bottom of assembled table. Trough may need to be cut to length. Align the extrusion with the bases and/or the cutout in the coverbox as required with screws provided.

For additional help please contact Customer Service

Door hinge

## VIRTU | INSTALLATION INSTRUCTIONS

## Category 6 Snap-In Connector Installation Instructions

INTRODUCTION: Leviton Telcom eXtreme 6 products are designed to work as a system to achieve proposed Category 6 component level performance. The Leviton eXtreme 6 Cabling System consists of eXtreme 6 connectors and eXtreme patch cords, as well as "gigabit-rated" cable from a Leviton eXtreme cable partner. If Category 5 components are substituted for eXtreme components, a lesser performance level can be expected.

## SAFETY INFORMATION

1. Never install communications wiring or components during a lightning storm.
2. Never install communications components in wet locations unless the components are designed specifically for use in wet locations.
3. Never touch uninsulated wires or terminals unless the wiring has been disconnected at the network interface.
4. Use caution when installing or modifying communications wiring or components.
5. To prevent electrical shock, each opening must be filled with a module or blank filler.

## IMPORTANT INSTRUCTIONS

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Do not use this product near water-e.g., near a tub, wash bowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool.
4. Never push objects of any kind into this product through cabinet slots, as they may touch dangerous voltages.

## SAVE THESE INSTRUCTIONS

1. Remove connector from Connexus interface panel by inserting a small flat screw into top of connector/ faceplate and twist slightly. Connector should pop out.
2. Remove about 2" of jacket from cable.
3. Determine which wiring scheme (T568A or T568B) and note the associated color codes on the label located between the IDC connector slots. The label also includes connector pin numbers. Refer to Fig 2-1 \& 2-2.
4. Route the wires for termination as shown in Fig 3-1. Terminate one pair at a time starting from the side of cable entry. Terminating each pair after placement will prevent crushing the inside pairs with a punch-down tool (not supplied). Lay cable in so that jacket touches edge of connector as shown.*
5. Using a 110 style impact tool set to "low" impact (not supplied), seat the wires into the IDC slots. Maintain wire pair twisting as close as possible to the IDC contact (Must be 1/4" or closer). Use the cutting side of the tool to trim the excess wire flush with the connector body. See Fig 4-1.
6. Place the caps over the terminated wires for secure connection and added strain relief. See Fig 5-1.
7. Insert connector assembly into Connexus interface. Note the "UP" position of the connector.

On site RJ11 wire instructions

## Voice grade Snap-In Connector Installation Instructions

## SAFETY INFORMATION

1. Never install communications wiring or components during a lightning storm.
2. Never install communications components in wet locations unless the components are designed specifically for use in wet locations.
3. Never touch uninsulated wires or terminals unless the wiring has been disconnected at the network interface.
4. Use caution when installing or modifying communications wiring or components.
5. To prevent electrical shock, each opening must be filled with a module or blank filler.

## IMPORTANT INSTRUCTIONS

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Do not use this product near water-e.g., near a tub, wash bowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool.
4. Never push objects of any kind into this product through cabinet slots, as they may touch dangerous voltages.

## SAVE THESE INSTRUCTIONS

1. Remove connector from Connexus interface panel by inserting a small flat screw into top of connector/ faceplate and twist slightly. Connector should pop out.
2. Remove jacket from cable.
3. Check jack termination label (located on sides of jack) for wiring standard and associated color codes. The label also includes jack pin numbers. (Figure 1)
4. Route the wires for termination as shown in Figure 2.
5. Using a 110 style punch-down tool (not supplied), seat the wires into the IDC slots. With the cutting edge of the tool to the outside, trim the excess wire flush with the jack body. (Figure 3)
6. Place the cap over the termination wires for secure connection and added strain relief. (Figure 4)
7. Insert connector assembly into Connexus interface. Note the "UP" position of the connector.

HARDWIRING ON SITE
For hardwiring on-site by electricians, please use the following schematic:
(1) Power Supply Cord
(2) Strain Relief
(3) Fork Terminals
(4) Duplex Receptacles
(5) Outlets with Circuit Breaker Assembly
(6) Handy Box

## On site RCA cable hookup

1. Determine the correct length of cord (RCA cable is not supplied).
2. Attach appropriate end of cable to the back of Connexus interface connector.
3. Route cable through appropriate wire management.

## On site BNC cable hookup

1. Determine the correct length of cord (BNC cable is not supplied).
2. Attach appropriate end of cable to the back of Connexus interface connector.
3. Route cable through appropriate wire management.

## On site 15 PIN HD cable hookup

1. Determine the correct length of cord (VGA cable is not supplied).
2. Attach appropriate end of cable to the back of Connexus interface connector. Tighten fasteners if equipped.
3. Route cable through appropriate wire management.

## On site DB-9 cable hookup

1. Determine the correct length of cord (Serial cable is not supplied).
2. Attach appropriate end of cable to the back of Connexus interface connector. Tighten fasteners if equipped.
3. Route cable through appropriate wire management.

## On site MINI STEREO wiring hookup

1. Determine the correct length of cord (shielded 2 conductor cable is not supplied).
2. Remove about 1" of the wire jacket and about $1 / 4$ " of insulation from each wire.
3. Insert wire into terminal block and tighten with a 3/32" flat screw driver. See Fig. 1.
4. Route cable through appropriate wire management.

## VIRTU

Wire Trough. Used when two or more connexus boxes are installed and with all bases. Trough may need to be cut.

Example of wire management routing for Open Visio tables using the wire trough

|  | Soft Green |
|  | Steel Blue |
|  | Slate |

## Natural Characteristics of Wood

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## Custom Wood Finishes

Add $10 \%$ list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.)

For orders with special finishes, a sample that is a minimum 3 " by 3 " must be received with the order. Special finishes may add additional lead time to production schedules.

Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## Birdseye Maple

Bookmatched Birdseye Maple veneer is available on Millennium and Nexus at an upcharge of $\$ 58$ list per square foot. Specify clearly on order. Birdseye Maple is recommended in a clear finish only. Birdseye Maple only applies to tops.

Dual Finishes
Add $10 \%$ list per item if specifying dual finish.

## LAMINATES

## LAMINATES

Krug's in-stock Laminates are available in 25 different laminate selections. Please note that 4 of the colors (Gingerbread, Portobello, Ash and Willow) have textured finishes and may not be appropriate for use in patient areas due to infection control concerns. Minimum order quantities and extended lead times may apply for exotic laminate colors, please check with customer service. Krug's previous laminate in-stock program will be phased out as in-stock supply depletes. Please contact customer service for availability.

## Non-Stocked Laminates

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stock laminates may require a minimum order quantity, please contact customer service. Stocked polymer edges only can be specified for use with non-stocked laminates or tops will be self-edged.

## SPECIAL PRICING GUIDELINES AND PRICING METHODS

## CONFERENCE

Custom sizing and additional customization is available on Krug Conference product. For more information or to obtain quotations, please contact Krug Customer Service.

Other Customization Pricing Methods for Conference
One side square add $\$ 172$.
Connexus box in black: $\$ 287$ upcharge to standard Connexus price.

## OTHER PRICING METHODS

6800 \& 9800 - any case where tops are
Flush left/right or both add: \$87
9800 storage units-flush $\$ 144$
6800 glass tops on buffets add: $\$ 1721$ for $60 ", 72^{\prime \prime}, \& 84$ " cases
Grommets in non-standard positions $\$ 274$
Microphone cut outs per table for up to 7 microphone cut outs $\$ 274$ list

## EXCEPTIONS TO THE PRICING METHODS ABOVE

Sizes larger than largest shown in Price List.
Non-standard extension on drawer slides.
Non-standard drawer depths in standard depth pedestals.
Glass door - any style.
Curvilinear tops with non-standard radius.
A/V cabinets.
Any case with flipper doors.
Lecterns.
Conference tables with non-standard bases, power boxes or positions.
6200 conference tables - non-standard sizes.
Please contact Krug Customer Service at 1.888.578.KRUG if you require assistance.
PLEASE NOTE: Cases with non-standard features do not apply to the rules above.
Contact Krug Customer Service if you require assistance.

## MILLENNIUM | FEATURES \& OPTIONS

## Edge Profiles

Millennium conference product is available in Oak, Maple, Walnut and Cherry with a $32^{\circ}$ sheen and seven distinctive edge details. Millennium conference product edge profiles match those of Millennium casegoods. Please specify an edge profile for all Millennium conference tops, and bases where indicated.

Madrid

- ribbon fluted edge

Zamora

- bull nose edge

| Barcelona |
| :--- | :--- |
| - half round edge |

## Drawer Pulls

Oyster

Eclipse

Crescent

Williamsburg

Pulls are available in Satin Nickel, Matte Black, Polished Chrome, Black Chrome, and Brushed Brass. Pull color must be mentioned clearly on the purchase order. Pulls are located on all drawer fronts, storage wood doors, and bookcase wood doors. Glass door bookcases feature the Luna knob in the same finish as pulls on the order. Glass door hutches and wood door hutches do not have pulls. If a pull style and finish is not provided, the Eclipse pull in Black Chrome will be applied to the product. A Williamsburg pull in polished brass finish is standard on all products specified with the Williamsburg edge detail.

## Bases

All bases are shipped separately and require assembly to selected top. Refer to the base requirements chart on pages 321-322 to select the appropriate bases and sizes for conference tops. Round drums and rectangular conference bases require an edge profile to be specified, please select from the drawings shown in the previous section. Metal bases are available in a choice of chrome or black powder coat epoxy.

## Finish

A five step catalyzed varnish finish that when dry has a sheen value of $32^{\circ}$, is applied to all cases.

## Custom conference tables

Krug has extensive capabilities for customization of conference tables, including special sizes, finishes, veneers, and special features such as ganging or mobility options. Please contact Customer Service with specific requirements and a drawing for more information.

## Seating capabilities

To establish seating capabilities, an outside chair dimension of 24 " has been used for this price list, plus an allowance of 5 " between chairs, for a total of 29 ". This is an approximation only. When using another chair, particularly seating with a 5 prong caster base, be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug Conference product.

## Birdseye Maple

Birdseye Maple veneer is available on 6800 Millennium conference tops at an upcharge of $\$ 58$ list per square foot. Birdseye Maple is recommended in a clear finish only. This option could extend regular lead times.

## Laminate Worksurfaces

Laminate worksurfaces are available at an upcharge of 10\% (a higher upcharge may apply to specially priced plastic laminates). Where there are wood profile edges on worksurface tops, they will remain as wood profiles on laminate tops. Krug will order and procure laminates. Purchase orders with a plastic laminate option must include Laminate Name.

Krug reserves the right to decline a laminate that may not be suitable for the application. Krug assumes no responsibility for the durability, consistent coloration or any other performance characteristic of a customer specified laminate. Laminates may extend the normal lead-time, check with Customer Service for current scheduling information. Please see page 314 for laminate information.

All Millennium Conference products are available on the Krug Express Program with a size limitation of up to and including 168 " tables only.

## ORDERING PROCEDURE

To order, please specify the following:

1) Krug product model number
2) Wood species and finish
3) Wood edge detail - S, V, T, M, B, Z or W see page 316

See page 3 for KrugExpress program.

## STANDARD FINISHES

For a complete list of standard finishes please see page 313.

## BASE REQUIREMENTS

See page 321 for the base requirements chart.

## CONNEXUS ${ }^{\text {TM }}$

See page 324 for information on Connexus ${ }^{\text {TM }}$ power management.

This chart applies to Millennium \& Stratford square/rectangular, racetrack, arc ended and round tops:

This chart applies to Millennium \& Stratford boat shaped tops: racetrack, arc ended and round tops:

* Stratford Conference tops only, feature single power box configuration.

Note: When specified with power boxes, standard tops sizes must be ordered in configurations shown above. Upcharges shown are list prices.

Indicate $24^{\prime \prime}$ and 30 " round and square bases with twin power box facing sides of top.

TOP STYLES

The Connexus ${ }^{\text {TM }}$ Locations diagrams below show the available Connexus ${ }^{\text {TM }}$ locations for only the top and base configurations shown above. Please note that the maximum allowable Connexus ${ }^{\text {TM }}$ modules per top are shown, and tops may be specified with fewer modules. Each Connexus ${ }^{\text {TM }}$ module has a code to represent its location on the table surface. To specify a Connexus ${ }^{\text {TM }}$ module in a particular location, please use the code listed above it. For specific pricing on individual Connexus ${ }^{\top \mathrm{TM}}$ modules please see page 231.
Note: One Connexus ${ }^{\text {TM }}$ module is available where two modules are shown. Please refer to location code above the drawing for single center location in which case the Connexus ${ }^{\top M}$ unit will face West if on the left end of the top, and East if on the right end of the top. For large Connexus ${ }^{\text {TM }}$ units please replace " 3 " in location code with " 4 ". Please see conditions at bottom of page.

$18^{\text {" D D }}$ Drum bases will accommodate single standard Connexus ${ }^{\text {TM }}$ units only.
$24^{\prime \prime}$ Drum bases will accommodate single standard or large Connexus ${ }^{\text {TM }}$ units only. $30^{\text {" D D }}$ Drum bases will accommodate single or double standard or large Connexus ${ }^{\text {™ }}$ units.

## WOOD FINISHES

Standard wood finishes are:

| SPECIES | FINISH |
| :--- | :--- |
| WALNUT | Natural Walnut <br> Regular Walnut <br> Dark Walnut |
| CHERRY | Appalachian Cherry <br> Imperial Cherry <br> Medium Cherry <br> Natural Cherry <br> Standard Cherry <br> American Cherry <br> Sable Cherry <br> Light Cherry |

## Natural Characteristics of Wood

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

## Custom Wood Finishes

Add $10 \%$ list to your order for special finishes, minimum upcharge is $\$ 500$ list per finish per order. (For example, on all orders up to $\$ 5000$ list, an upcharge of $\$ 500$ will apply, on orders $\$ 5000$ and up add $10 \%$ list to your order.)

For orders with special finishes, a sample that is a minimum 3 " by 3 " must be received with the order. Special finishes may add additional lead time to production schedules.

Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

## Dual Finishes

Add $10 \%$ list per item if specifying dual finish.

# STRATFORD | FEATURES \& OPTIONS 

## Stratford

Stratford conference product is available in all standard Cherry and Walnut finishes at a $52^{\circ}$ sheen top coat.
The Stratford profile is shown below:

top profile base profile

## Bases

All bases are shipped separately and require assembly to selected top.
Refer to the base requirement chart on page 336 to select the appropriate bases and sizes for conference tops.

## Finish

A five step catalyzed varnish finish that when dry has a sheen value of $52^{\circ}$, is applied to all finished cases.

## Seating Capabilities

To establish seating capabilities, an outside chair dimension of 24 " has been used for this price list, plus an allowance of 5 " between chairs, for a total of 29 ". This is an approximation only. When using another chair, particularly seating with a 5 prong caster base, be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use this same formula, when a seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Krug Conference product.

## Data and Power Options

Data and power options can be specified on all Millennium and Stratford conference product.
The power pod on page 339 has surface mounted electrical access and data or communication ports for ease of use of powered items on the conference table top. Standard location for this item is over a base to allow cable management to the floor.
Please specify location on the purchase order or provide a drawing at time of order.
The power box on page 337 features two power outlets, one RJ-11 phone line coupler and one RJ-45 data coupler. Power boxes are finished in a black sand-tex powder coat, and when closed is lowered to a flush table top position.

The panel base has a removable side panel to allow access to the hidden cable management cavity. Wire management cavity for this base is:
9815-28-6-30-28" x 6" rectangular by 25 " in height
9815-34-6-30-28" x 6" rectangular by 25 " in height

| Pedestal base | 9817 | 698 | 26.5 | 26.5 | 29 | 40 | 10 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

48 " and 54 " diameter tops come standard with a larger pedestal base.

## ORDERING PROCEDURE

To order, please specify the following:

1) Krug product model number
2) Wood species and finish

## STANDARD FINISHES

For a complete list of standard finishes please see page 333 .

## WIRE ACCESS DOORS

Please specify wire access doors on round bases when specifying conference product with power boxes or wiring grommets.

## BASE REQUIREMENTS

See page 336 for the base requirements chart.

## POWER BOXES

See page 337 for information on conferencing power boxes.

| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Wire management cover | 68WM-72 |  | 113 | 72 | 2.5 | 1 | - | - |
|  | 68WM-4 |  | 36 | 3.4 | 1.75 | - | - | - |
| Power pod | 68PP-1 |  | 301 | 3.2Dia. | 3.5 | - | - | - |
|  | Power pod includes two power ports and two communication ports with RJ45 couplers as a standard. Unit may also be ordered with 4 power ports or with RJ11 couplers. Please specify at time of order. |  |  |  |  |  |  |  |

Power box Power boxes may be specified for use over round and square drum bases only.
$18^{\prime \prime}$ bases accommodate boxes with ports facing the ends of the table. $24^{\prime \prime}$ and $30^{\prime \prime}$ bases house two power boxes in a back to back configuration with ports facing the sides of the table.

Power boxes include: 2 power outlets
1 RJ-11 phone line coupler
1 RJ-45 data coupler
1 six foot 14/3 power cord
Please see charts (page 340-344) for standard power box locations and their respective upcharges. For more information on selecting base sizes for tops see base requirements charts on page 336. To order tops with power boxes, please indicate clearly on purchase order.

## ORDERING PROCEDURE

To order, please specify the following:

1) Krug product model number
2) Wood species and finish

## STANDARD FINISHES

For a complete list of standard finishes please see page 333.

## WIRE ACCESS DOORS

Please specify wire access doors on round bases when specifying conference product with power boxes or wiring grommets.

## BASE REQUIREMENTS

See page 335 for the base requirements chart.

## POWER BOXES

See pages 337 for information on conferencing power boxes
