If this provision is not acceptable, please notify us in writing within five working days. If we receive such notification, the contract will not become effective as stated herein. The below information on multi-functional devices and networking copiers is also considered to be a part of this agreement.

Multi-Functional Devices and Networking Copiers

In the past, a copier was clearly a copier and a computer printer was clearly a computer printer. However, as technology advances, the line of distinction has become not so clear. Because of this "twilight zone," Information Technology Services (ITS) and the Office of Purchasing and Travel (OPT) have set forth the following policy guideline: If a machine can be used as a walk-up copier and published product literature indicates that one of its primary functions is copying documents, then that machine can be included in the OPT Copier Contract. It is intended that this policy will allow copiers with computer interface, facsimile and digitizing features to be placed on the OPT contract. In addition, it is intended that this policy will allow equipment commonly called "multi-functional" to also be included in the OPT contract.

ITS will continue to manage purchasing for their established classes of computer and communications peripherals. In situations where a state agency or institution under ITS purview intends to use the machine interfaced with a computer or in a network configuration primarily in a traditional information systems application capacity, and the total amount of the purchase/rental exceeds \$250,000, the agency or institution must first contact ITS through the formal procurement exemption request process. In the request, the agency or institution may express a desire to use the OPT state contract to fulfill its technical needs. ITS will work with the

requesting entity toward reaching a consensus as to technical appropriateness of equipment from the OPT contract in each given case. ITS will approve the exemption request if appropriate. If ITS does not concur with the exemption, then the project will be handled through standard ITS policies and procedures in lieu of the OPT state contract. If the total amount of the purchase/rental does not exceed \$250,000, ITS approval is no longer required. "Total amount of the purchase" shall mean the cost of the copier and all attachments. "Total amount of the rental" shall mean the monthly cost of the copier and all attachments multiplied by the term of the rental agreement.
