

Use this product to reduce the cost of cleaning glass. By resisting dust and dirt, the glass surface stays cleaner longer.

FIRST AID MEASURES

EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, get medical advice or attention.

SKIN CONTACT: Wash off immediately with plenty of water for at least 15 minutes. If irritation persists, call a physician.

INHALATION: Remove person to fresh air.

INGESTION: Dilute with milk or water. Neutralize by taking two tablespoons of vinegar, call a physician or poison control center.

MOST IMPORTANT SYMPTOMS AND EFFECTS

SYMPTOMS: May cause skin and eye irritation.

INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED

NOTES TO PHYSICIAN: Treat symptomatically.

PRECAUTIONARY STATEMENTS-DISPOSAL

Dispose of contents or container to an approved waste disposal plant.

CONDITIONS FOR SAFE STORAGE

Storage Conditions: Keep containers tightly closed in a dry, cool and well-ventilated place. Keep from freezing.

Incompatible Materials: None known based on information supplied.

WASTE TREATMENT METHODS

Disposal of Wastes or Contaminated Packaging: Disposal should be in accordance with applicable regional, national and local laws and regulations.

GLASS CLEANER

FOR ALL WINDOWS,
SHOWCASES, MIRRORS,
ANYTHING GLASS!!

CAUTION

KEEP OUT OF REACH OF CHILDREN.
See additional precautionary statements on side panel.

NET CONTENTS: 128 FL. OZ. (1 Gal.) 3.78 liters

This is a versatile product which is ideal for the cleaning and maintenance professional. Windows, glass, windshields, mirrors, displays, counters, Formica® and more are easily cleaned of dirt, grease, oil, smudges, fingerprints, lipstick and other stubborn deposits. Not recommended for use on Plexiglas®. It provides cleaning power without streaking, smearing, hazing or leaving behind any residue or film. Using this product in commercial and institutional cleaning will reduce cleaning time by 40% because glass surface will remain cleaner during longer periods of time. It can also be used during freezing temperatures. This product may be applied to the surface or applied directly to the cloth. Use sparingly.

DIRECTIONS

Read the entire label before using this product

1. Use with a sprayer or atomizer.
2. Wipe with a clean, lint-free cloth or use a squeegee.
3. Polish out the surface with another clean wiping cloth to prevent accidental streaking or resaponification of deposits to the surface.

SPRAY BUFF

Labor costs is reduced, while cleaning and polishing in one step.

Use a sprayer and apply the product over small areas while buffing at the same time.

KEEP OUT OF REACH OF CHILDREN
See additional precautionary statements on side panel.

NET CONTENTS: 32 FL. Oz. (1 Qt.) 946 ml

DIRECTIONS

If floor is heavily soiled, it may need to be damp mopped and then allowed to dry before using **WEPAK SPRAY BUFF**.

In most cases **WEPAK SPRAY BUFF** will reduce the cost of labor and make work effort easier by removing soil, black heel marks, and scuffs.

Easy to use, simply spray **WEPAK SPRAY BUFF** onto the floor, with a trigger sprayer bottle, and use a buffing machine to polish.

This procedure will leave the floor looking clean, while also bringing back the shine.

Directions for Use:
A violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Use as a Cleaner/Disinfectant/Deodorizer:
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Use as a Cleaner:
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Use as a Deodorizer:
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

For Use as a Cleaner, Sanitizer:
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

For Use as a Cleaner:
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Green Dilution
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Yellow Dilution
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Red Dilution
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

For Use as a Deodorizer:
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Recommended Use (Locations):
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

Recommended Use (Surfaces):
This product is not to be used as a disinfectant or high level disinfectant on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration. It is not to be used on any surface or instrument that is likely to be directly or indirectly ingested, either before or after contact with the blood stream, or any other material of the body, except in the case of a wound or laceration.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear goggles or face shield when handling product concentrate such as when making up dilutions. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Causes moderate eye irritation. Avoid contact with eyes or clothing.

FIRST AID:

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Irritated: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or giving the treatment.

Note: After Peroxy HDOX is diluted in accordance with the directions for use, safety glasses and goggles are not required. Peroxy HDOX, after dilution in accordance with the directions for use, is non-irritating.

STORAGE & DISPOSAL:
Do not combine with water, food or feed by animals and disposal.

Store in original container in a cool, well-ventilated area to avoid fire. Store between 35° and 85° F (3° and 29° C), well ventilated area away from chemicals, direct light, heat, or open flame. Do not mix with other cleaning or disinfecting products. Keep away from children. Do not use for recycling if available. Non-flammable contents. Do not store or refill this container. Dispose of contents according to Federal, State and Local laws and regulations.

PRODUCT OF THE USA

COF-1

Floor Coating / Finish Restorer, Maintainer & Gloss Enhancer

COF-1 is a revolutionary new formulation that solves the great difficulties associated with the challenges of keeping a floor clean, slip resistant, and brilliant. A newly designated super-concentrate, one gallon of COF-1 provides between 8,000 and 192,000 square feet of bright, clear, and wet-looking gloss. COF-1 is a safe, simple, and effective alternative to time consuming floor maintenance processes of the past. COF-1 can be used to clean, maintain, and restore finished and coated floors. With proper use, COF-1 can significantly lengthen the life of floor coatings and finishes and can reduce or eliminate the need for wax stripping.

**CAUTION: MAY BE HARMFUL IF SWALLOWED
KEEP OUT OF REACH OF CHILDREN**

Constructs a tough, longer lasting protective coating for your flooring.

DIRECTIONS FOR USE ON FINISHED FLOORS

SURFACE NOT REQUIRING RESTORATION: Dust mop or power sweep floor as appropriate. Dilution 2 oz. of concentrate per gallon of water. Apply solution to surface using microfiber flat mop at rate of 1 gallon use solution to 3,000 square feet. Burnish surface with high speed burnisher while surface is wet until high gloss is achieved. Dust Mop to remove any remaining dust.

DAILY MAINTENANCE: Mopping or AutoScrubbing dilute 1 oz. of concentrate to 1 gallon water. Apply at 1500 square feet per gallon. Use double bucket or divided bucket system to maximize coverage while mopping. Burnish the dried floor when possible. Dust Mop to remove any remaining dust.

WEEKLY TO MONTHLY MAINTENANCE: Mopping or AutoScrubbing dilute 2 oz concentrate to 1 gallon water. Apply at 1500 square feet per gallon. Use double bucket or divided bucket system to maximize coverage when mopping. Burnish dried floor when possible. Dust Mop to remove any remaining dust.

RESTORATION:

FIRST TIME RESTORATION - Dilute 8 oz. concentrate to 1 gallon water. Apply solution at a rate of 1 gallon to 500 square feet and allow to dwell for 5-10 minutes. Scrub with a side to side machine or automatic scrubber using a medium to heavy hogs hair pad. Mop up or vacuum solution and rinse. Buff floor using a high speed buffer and a clean light to medium hogs hair pad. If floor does not meet your expectations, apply 1-2 coats floor finish.

ALTERNATE RESTORATION - Dilute 8 oz. concentrate to 1 gallon water. Spray buff with high speed buffer using a medium to heavy hogs hair pad. If swirl marks remain, buff a second time using as softer pad. If floor does not meet your expectations, apply 1-2 coats of floor finish.

**CAUTION: MAY BE HARMFUL IF SWALLOWED
KEEP OUT OF REACH OF CHILDREN**

Avoid contact with skin, eyes, and clothes. Do not swallow. Eyes: Flush thoroughly with water for 15 minutes. Skin: Flush with water for 15 minutes. Seek medical assistance if irritation persists. If ingested, do not induce vomiting. Drink water and get medical assistance.

PRODUCT OF THE USA

FORMULA 14B

Mineral & Hard Water Cleaner

Formula 14B is a Mineral & Hard Water Remover. It works fast to penetrate and lift off hard water, lime, organic matter, water deposits, stains caused by mold & mildew, even light rust. Formula 14 is an environmentally and human preferable solution to problems usually solved by harsh acids and chemicals that typically cause damage to skin and respiratory systems.

Formula 14b can be used on:

- Ceramic Tile & Grout
- Porcelain
- Stainless Steel
- Metal Fixtures
- Concrete
- Fiberglass

KEEP OUT OF REACH OF CHILDREN

See additional precautionary statements on right panel of label.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Store in original container in areas inaccessible to small children. Store in dry, well ventilated area away from chemicals, direct light, heat, or open flame. Do not mix with other cleaning or disinfecting products. Keep securely closed. Offer for recycling, if available. Puncture and dispose of in sanitary landfill according to Federal, State, or Local law. Non-refillable container. Do not reuse or refill this container.

Manufactured by:
Earth Laboratories, Inc.
1101 East Diamond Avenue

DIRECTIONS

Preparation: Dilute product with water as follows:

Light to Medium Soils: 10-16 oz / gallon
Heavy Soils: 32 oz / gallon

Application for small area surfaces:
Spray area liberally with diluted solution. Allow product dwell time of 30 seconds to 1 minute. Wipe area and remove solution. Rinse area, if necessary.

Application for large area surfaces:
Fill pressure washer, no touch cleaning system, or pump up sprayer with Formula 14 diluted solution. Apply a thin layer to surface and allow a dwell time of at least 30 seconds. Rinse solution. Light abrasion or scrubbing may be required for more difficult stains and rust.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID:

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. If contact lenses are present, remove after the first 5 minutes, then continue rinse. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If on Skin or Clothing: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

DIRECTIONS

This is a highly concentrated neutral cleaner designed specifically to clean and maintain hard surface floors. Special wetting agents penetrate and dissolve even the toughest soils while leaving the floor finish and sealer unaffected. This product is guaranteed not to damage or dull a high quality metal interlocked acrylic co-polymer floor finish.

These dilutions are guidelines and may be varied depending on the degree of cleaning power needed.

Linoleum, Asphalt, Plastic & No-Wax type Flooring - Regular mopping: Dilute 1 part to 60 parts water.

Tile, Marble, Terrazzo and Sealed Cement Floors - Regular mopping: Dilute 1 part to 30-60 parts water depending on conditions.

Painted Surfaces - Dilute 1 part to 50 parts water. For extra heavy soil use in higher concentration.

Fabrics & Vinyl - Dilute 1 part to 25 parts water.

METRO

HIGH GLOSS FLOOR CLEANER

NET CONTENTS: 1 GALLON

Do not mix with strong acids or oxidizers. Keep container closed when not in use. Do not freeze. Keep out of reach of children. Follow label instructions. Dispose in accordance with state and local regulations.

In Case of Fire: Use carbon dioxide, dry chemical or alcohol foam.

First Aid: If in eyes: Flush immediately with clear running water for 15 minutes. Get medical attention. **If swallowed:** Drink large quantities of water and seek medical attention. **If inhaled:** Remove to fresh air. If breathing doesn't return to normal, seek medical advice. **If on skin:** Rinse with clear water.

DISINFECTION PERFORMANCE: This product kills the following bacteria in 10 minutes in the presence of 5% soil on hard, non-porous surfaces: Burkholderia cepacia, Campylobacter jejuni, Corynebacterium ammoniagenes, Enterobacter aerogenes, Enterobacteriaceae, Enterobacter cloacae, Enterococcus faecalis, Enterococcus faecium, Escherichia coli, Escherichia coli 0157:H7, Klebsiella pneumoniae, Legionella pneumophila, Listeria monocytogenes, Proteus mirabilis, Proteus vulgaris, Pseudomonas aeruginosa, Salmonella enterica, Salmonella schottmuelleri, Salmonella typhi, Serratia marcescens, Shigella dysenteriae, Shigella flexneri, Shigella sonnei, Staphylococcus aureus, Staphylococcus aureus (Community Acquired Methicillin Resistant), Staphylococcus aureus (Antibiotic resistant), Staphylococcus epidermidis (Antibiotic resistant), Streptococcus pyogenes, Vibrio cholerae

VIRICIDAL* PERFORMANCE: This product kills the following viruses in 10 minutes in the presence of 5% soil on hard, non-porous surfaces: Avian Influenza A/Turkey/Wisconsin Virus, Avian Influenza Virus, Herpes Simplex Type 1 Virus, Herpes Simplex Type 2 Virus, HIV-1** (AIDS virus), Hepatitis C Virus, Hepatitis B Virus, Human Coronavirus, Influenza A/Brazil Virus, Influenza A (H1N1) Virus, Respiratory Syncytial Virus, Vaccinia Virus

** Indicates a 2-minute contact time is required for this claim.

FUNGICIDAL PERFORMANCE: This product kills the following fungi in 10 minutes in the presence of 5% soil on hard, non-porous surfaces: Candida albicans, Trichophyton mentagrophytes

MILDEWSTATIC PERFORMANCE: This product inhibits the following fungi in 10 minutes in the presence of 5% soil on hard, non-porous surfaces: Aspergillus niger

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION/FUNGICIDAL/VIRICIDAL* DIRECTIONS: Pre-clean heavily soiled areas. Apply this ready-to-use product undiluted to walls, floors and other hard, non-porous surfaces such as Crypton barrier fabric, tables, chairs, countertops, sinks, glazed tile, and glazed porcelain with a brush, cloth, sponge or mechanical spray device so as to thoroughly wet surfaces. If mechanical spray device is used, spray must be coarse. Spray 6-8 inches from surface. Do not breathe spray. Treated surfaces must remain wet for 10 minutes and then let air dry or wipe up excess liquid. Rinse food contact surfaces with potable water after use. Rinsing is not necessary unless floors are to be coated with finish or restorer. Replace solution if it becomes visibly dirty.

This product is not for use on Medical device surfaces.

FOR DISINFECTING HARD, NON-POROUS SURFACES AGAINST AVIAN INFLUENZA A VIRUS: For use in homes and hospitals, hotels, motels and schools, follow the disinfection directions.

***KILLS HIV, HCV AND HBV ON PRE-CLEANED HARD, NON-POROUS SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of hard, non-porous surfaces/objects with body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1** (HIV-1) associated with AIDS, Hepatitis B Virus and Hepatitis C Virus.

Cleaning Procedures: Blood and other body fluids containing HIV-1, HBV & HCV must be thoroughly cleaned from surfaces and objects before application of this product. **Disposal of Infectious Materials:** Blood and other body fluids, clear materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. **Contact Time:** For HIV, let surface remain wet for 2 minutes undiluted solution. For HBV, HCV and all other organisms listed on label, a 10 minute contact time is required.

CLEANING AND DISINFECTING HARD, NON-POROUS SURFACES ON PERSON PROTECTIVE EQUIPMENT (RESPIRATORS): Pre-clean equipment if heavily soiled to ensure proper surf device, sponge or by immersion. Thoroughly wet all surfaces to be disinfected. Treated surfaces must remain wet for 10 minutes. Remove excess solution from equipment prior to storage. The user must comply with OSHA regulations for cleaning respiratory protection equipment (29 CFR § 1910.134).

MOLD AND MILDEW CONTROL DIRECTIONS: This product will effectively inhibit the growth of mold and mildew and their odors on hard, non-porous surfaces. To control the growth of mold and mildew and odors on hard, non-porous surfaces, apply this undiluted product. Thoroughly wet all treated surfaces completely allow surface to remain wet for 10 minutes. Let surface air dry. Repeat application weekly or when growth or odor reappears.

TO CONTROL THE GROWTH OF MOLD AND MILDEW ON NON-POROUS ATHLETIC EQUIPMENT: For use on wrestling and gymnastic mats, athletic mats, exercise equipment, athletic training tables, phys therapy tables, athletic helmets, wrestling/boxing headgear, athletic shoe soles. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with ready-to-use solution for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Causes moderate eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or tobacco or using the toilet.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and freshwater aquatic invertebrates. Do not discharge effluent containing product into streams, rivers, lakes, ponds, or other waters unless authorized by the receiving agency of a National Pollutant Discharge Elimination System (NPDES). Do not discharge effluent containing this product into sewer systems with previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store only in original container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Non-Refillable Container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

DESCRIPTION

Zov Powder is a heavy duty carpet prespray that has fortified with our De-Zov-All citrus solvent, Enzymes, powdered color safe oxygen bleach. This combination with alkalinity boosters deliver an aggressive, ultra entrained, citrus solvent enhanced, high alkaline prespray makes easy work of the filthiest of jobs. Starts to work on contact and dissolves grease and oils in minutes and is the first choice for grimy restaurants, apartments, olefins, or other man made carpet fibers. Also makes a great tile and grout cleaner.

DIRECTIONS

Results are obtained when mixed with hot water. Mix or until powder is fully dissolved. Spray on soiled carpet evenly damp. Allow to dwell 10-15 minutes. Do not allow carpet to completely dry before extraction. Extract from carpet with Free Rinse Pro in rinse water, a light acidic rinse agent to neutralize any alkaline residues.

(DILUTION AT 2 OUNCES PER GALLON)

For Electric Sprayers - 1 scoop (2 ounces) of CitraZov De-Zov-All per gallon of hot water for most jobs (medium soil). Dilute 2 scoop (4 ounces) of CitraZov Powder De-Zov-All per gallon of hot water for severe jobs (heavy

soil). For Force Injection Sprayer - Dilute 8 scoops (16 ounces) of CitraZov Powder De-Zov-All per gallon of hot water for most jobs. Dilute at 1 to 8 setting. For Grout - 1 scoop (2 ounces) of CitraZov Powder De-Zov-All per gallon of hot water for light to medium soil. For 2 scoop (4 ounces) of CitraZov Powder De-Zov-All per gallon of hot water for heavy soil.

Grime Release Pro is a premium concentrated preconditioning carpet cleaner. Up to 32-1 dilution delivers cost effective, high quality carpet cleaning.

INSTRUCTIONS: This is a highly concentrated product. Shake well before using. Mix 4 oz./gal. (1:32) for routine cleaning, 6 oz./gal. (1:21) for heavy soil. Pre-spray, allow 5 to 15 minutes dwell time, do not allow to dry. Extract with Extraction Cleaner or Free Rinse Pro.

Use at (1:16) to remove filtration soil.

HYDROFORCE APPLICATION: For high pressure model add to the Hydroforce container 1 1/2 quarts of concentrate for 1:32 dilution, 2 1/2 quarts for 1:21 dilution, fill with water. Pre-spray, follow with extraction or rinse.

Instrucciones

Esto es un producto sumamente concentrado. Agite bien antes de utilizar. Mezcle 4 onzas por galón (1:32) para limpieza moderada y mezcle 6 onzas por galón (1:21) para la limpieza pesada. Permita 5 a 10 minutos el pre-rocío. No permita que se seque. Complete la extracción con TC Premium Extraction Liquid para el aprobado sistema completo de CRI.

Aplicación con Hydroforce: para el modelo de alta presión, agrega 1-1/2 cuartos de galón para 1:32 dilución, 2 1/2 cuartos de galón para 1:21 dilución. Llene el contenedor del Hydroforce con agua. Rocíe y siga con la extracción.
