Ordering C.O.M., C.O.L., and C.O.V.

Bonduel, Green Bay, Ontario, and Tupelo

How to Specify C.O.M. Upholstery
Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.

C.O.M., C.O.L. and C.O.V. Testing
KI will require for testing actual yardage to upholster one chair. The testing requirements depend on which chair you have selected on your order.

Test samples will be applied to the order and will be held for 6 months if needed. After 6 months, the sample can no longer be applied to your order. For all products to be tested, send test samples for approval to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive, Gate 3
Green Bay WI 54302

To expedite the procedure, attach a copy of the "C.O.M. Information Form" on this page.

All C.O.M., C.O.L. and C.O.V. must be labeled with the purchase order number.

C.O.M., C.O.L. and C.O.V. Production
Customer's fabrics and leathers must be approved prior to acceptance for production. Upon test approval, a 1" square sample swatch of upholstery material must accompany the order. KI assumes no responsibility for wear, defects or performance of customer's own fabrics, vinyl or leather. C.O.M., C.O.L. and C.O.V. orders are available on a deferred delivery basis.

Orders for production of C.O.M., C.O.L. and C.O.V. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

KI recommends that leather be ordered in yardage. Leather must be usable. The outer edges cannot be calculated as square feet or yardage.

The C.O.M., C.O.L. and C.O.V. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

C.O.M., C.O.L. and C.O.V. Order Processing
For products shipped from Green Bay, WI facility, ship upholstery material to:

KI
Attn: C.O.M. Storage
1687 Westminster Drive, Gate 3
Green Bay, WI 54302

For products shipped from Tupelo, MS facility ship material to:

KI Tupelo
Attn: C.O.M. Storage
2112 South Green Street
Tupelo, MS 38801

For products shipped from Bonduel, WI facility, ship material to:

KI
Attn: C.O.M. Storage
204 West South Street
Bonduel, WI 54107

For products shipped from Ontario, CA facility, ship material to:

Avail/Impress/Kismet/Medical & Laboratory Stools/Pilot
Attn: C.O.M. Storage
1110 S. Mildred Ave.
Ontario, CA 91761

Intricate Patterns
In the event of specific requirements for positioning of intricate patterns or pattern repeats on seats and backrests, provide a sketch noting requirements, as in Diagram B, along with materials for testing, and with the order.

Diagram B

Treated Materials
If C.O.M. requires processing such as Scotchgard® or acrylic backing, it often shrinks. To prevent delays in delivery or back ordering due to shrinkage, please have your processor remeasure after processing and assure adequate yardage shipment.

Split Orders
If a portion of the shipment which does not require C.O.M., C.O.L. or C.O.M. applications is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to verify a split order.

Excess Upholstery Material
KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders
KI assumes no responsibility for extra C.O.M., C.O.L. or C.O.V. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

C.O.M., C.O.L. and C.O.V. Information Form

A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number.

Purchasing Agent (Dealer or buying organization) _____
Attention _____
Address _____
City _____ State _____ Zip _____
Project Name _____
Type of seating and number of units of each type _____

Please see information below and check the appropriate box.

<input type="checkbox"/> Submitted for testing.	<input type="checkbox"/> Test approved. Submitted for production.
Purchase Order Number _____	KI Acknowledgement Number _____

In all instances, send this form to the C.O.M. Specialist.

Custom Color Matching Requirements

KI Custom Poly Color Matching Program

Whatever you imagine, whatever you require, KI's custom color-matching program lets you pick your color. Match an organization's brand colors. Match fabrics. Match surface materials. The choice is yours.

Custom Color Matching Requirements

- **Pantone Number or Color Samples.** To ensure we match your color exactly, we require either a Pantone color number or two color samples (chip, swatch, or paint sample). We do request that the size be substantial enough to allow for us to retain for our internal matching process (minimum 2.5" x 3.5").
- **Extended Lead Time.** Using the unique combinations of specialty bases and pigments, our Custom Color Matching and Manufacturing processes do add time to your production schedule.
 - The color match process (see steps below) on average will take 2-3 weeks to produce a match sample for your review and gain your written approval to proceed. *Starting this during the quoting process is encouraged to reduce overall lead time.*
 - Orders with custom colors will typically reflect standard lead time plus 15 additional days to source the appropriate raw materials and run the custom order.
- **Minimum Quantity.** No additional set-up fee is incurred if the quantity (per color, product line, and order) is 100 or more. A \$500 set-up fee (per color, product line, and order) is applied if the quantity is 99 or less. You'll see a "Custom Color Set-Up Charge" note appear on your Custom Options Quote until the order is placed and quantity is determined.

Note: The Doni Seating Collection, with its two-tone color capabilities, would require a single \$500 set-up fee if one or both colors are custom. In addition, please note that reversing the inner/outer colors of Doni's two-tone standard color combinations would also be considered custom.

Custom Color Matching Process

When your purchase order is submitted, it is simply placed on hold until the color match is finalized. As soon as we receive your Pantone number or custom color samples, the process for color matching begins.

Note: *If the project requires a compressed manufacturing/shipping schedule, KI encourages you to process the color match during the quotation stage. This will accelerate the purchase order release into production.*

Step 1. Provide the Pantone color number to KI Customer Service by calling Customer Service at 1-800-424-2432 or emailing us at SalesOps@ki.com. Custom color samples can be mailed to KI at:

KI Customer Service (Provide specific contact name if known)
 Attn: **Custom Color Match Required (Please reference the PO# or Project Name)**
 1330 Bellevue Street
 Green Bay, WI 54302

**In the event the color requested is a discontinued KI color or non-standard on the product requested, no color match is necessary (minimum quantities and extended lead time still apply). KI will use the custom options process to facilitate the quote/order.*

Step 2. KI begins the matching process which takes 5-10 days depending upon how quickly the exact color is matched, taking into account lighting, visual and spectrographic readings as compared to the originals.

Step 3. We then ship the color sample chip and a letter asking for you to sign the letter and fax it back to us within 24 to 48 hours.

Step 4. Upon receipt of your approval signature, we remove the hold status of your order and begin production, using standard production lead times plus 15 days.

Accessory Rack

Cup Holder Rack

Flat Accessory Rack

SPECIFICATIONS

Frame
Frame shall consist of 14-gauge, 1" O.D. steel tubing bent and welded to a 13-gauge steel stamped seat plate and finished with baked-on powder coated paint. The chair frame shall be topped by two aluminum die castings with a baked-on black powder coated paint finish. Castings support the chair seat and provide a means of rotation of the tablet about the seat.

Shell
Shell swivels a total fo 55° (27.5° each way from center) for ease of entry and exist.

Doni Seat Shell and Backrest Articulation Mechanism
Backrest, seat, and shroud are injection-molded polypropylene. The seat and backrest are joined by a pair of hidden articulation mechanisms, each consisting of a 14-gauge steel housing, twin 7-gauge levers, and steel coil springs. While maintaining a

one-piece shell appearance, this mechanism allows the backrest to move through 17 degrees of movement, about an axis through the hips of the occupant.

Doni Optional Upholstered Seat and Back
Urethane foam is attached to an injection-molded polypropylene liner board, then upholstered using a draw-string process. Seat foam is molded nominal 1" thickness and back foam is nominal 1/2" thickness. The fasteners that attach the back pad are color-matched to the polypropylene.

Intellect Wave Shell
One-piece contoured shell made of high-impact polypropylene. Colorfastness ensured through complete color impregnation throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the back of the shell. Rolled edges for comfort and strength, textured front and back with a

wide, ergonomic handle molded into chair back for ease of mobility. Fastens to frame by a 12-gauge formed steel plate with six torx head screws.

Optional upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16" foam on the seat and fastened to an inner shell with screws.

Strive Shell
Injection molded polypropylene back with integral steel cantilever springs. The combination of the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5mm diameter chrome silicon valve spring wire. Injection molded polypropylene seat shall be secured to the chair by a 12-gauge formed steel plate.

Optional upholstered seats have molded urethane foam attached to an injection molded polypropylene seat board, then upholstered using a drawstring process. The assembled

seat pad is attached to the seat by means of hidden fasteners.

With optional cantilever arms, the supporting structure is 7/8" O.D. x 13-gauge tubular steel welded directly to the seat support structure and matching the seat and back color. The armcaps are injection molded glass filled polypropylene matching the seat and back color. The armcaps are attached to the steel structure by means of screws.

Strive Optional Upholstered Seat
Molded urethane foam is attached to an injection molded polypropylene seat board, then upholstered using a draw-string process. The assembled seat pad is attached to the seat by means of hidden fasteners.

Surface Support
The worksurface shall be supported from the chair frame by a formed and welded support tube made from 1.125 O.D. 14-gauge steel. The worksurface shall be supported from the support tube by an aluminum gusset die

casting with a black powder coated paint finish. The support tube rotates around the chair seat a total of 220° (110° each way from front center). A 1/2" thick steel plug shall be drilled, tapped, and welded into the end of the support tube. The worksurface shall be structurally secured to the support tube with Grade 5, 3/8-16 bolt, held in place with an epoxy patch.

Surface Mechanism

The gusset die casting shall rotate about the support tube by means of a plastic bushing connection, rotating a total of 154° around the support tube. The worksurface shall slide back and forth for a total of 6" of straight in and out movement. The sliding motion shall be accomplished with an aluminum extruded rail and plastic bushing mechanism.

Surface Plastic

The writing surface of the plastic worksurface shall be injection molded polycarbon-

ate. The understructure of the plastic worksurface shall be black injection molded nylon with fiberglass reinforcement filling.

Laminate

The laminate worksurface shall be 18mm thick Baltic Birch plywood core with .040" laminate face and .020" paper backing sheet. The edge of the wood surface is shaped and sanded with a sealed and clear-coat lacquered finish.

Accessory Rack

Optional accessory rack is constructed of 14-gauge perforated steel wrapped with .25" O.D. steel wire and welded to the frame. Optional cup holder is made of a .25" O.D. steel wire welded with an 11-gauge flat metal round trim plate to the steel racks. Accessory racks (with or without cup holder) are not field-installable or retrofittable.

Casters

Double wheels (60mm) of high-impact thermoplastic with high-impact plastic

frame. Carpet or hard floor casters are black only. Optional Bell glides (2" high) made of high-impact plastic also available, black only.

INFORMATION

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1441 Ontario Street
Green Bay, WI 54311

Design

Strive is designed by Giancarlo Piretti and manufactured in the USA by Krueger International, Inc. under license from Pro-Cord S.p.A

KI Custom Poly Color Matching Program

Whatever you imagine, whatever you require. KI's custom color-matching program lets you pick your color.

No upcharge with a minimum quantity of 100 or more (\$500 set-up charge if quantity is 99 or less). See "Custom Color Matching Requirements" page in the front of this book for ordering details.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select worksurface type.

LW - Laminate worksurface; add

\$50

PW - Plastic worksurface

C Select frame color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

D Select fire code.

NFR - Compliance to TB 117-2013

FR - Compliance to TB 133

See Upholstery Information for TB133 upcharge.

E Select shell color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

F Select surface finish.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

G Select caster/glide option.

C - Carpet casters

S - Hard floor casters

GL - Glides

SCG - Front hard floor casters, rear glides

CCG - Front carpet casters, rear glides

H Select upholstery grade/color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select worksurface type.

LW - Laminate worksurface; add \$50
PW - Plastic worksurface

C Select frame color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

D Select fire code.

FR - Compliance to TB 133
NFR - Compliance to TB 117-2013

See Upholstery Information for TB133 upcharge.

E Select poly seat and back color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

F Select top stitch color.

BLTS - Black

WHTS - White

G Select surface finish.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.

H Select caster/glide option.

C - Carpet casters
S - Hard floor casters
GL - Glides
SCG - Front hard floor casters, rear glides
CCG - Front carpet casters, rear glides

I Select upholstery grade/color.

Refer to color addendum at ki.com or KI Fabrics & Finishes binder.
