Study Tables

Power *gloss black*
The available Moire and Node power units complement Arlington with power outlets and USB charging ports.

Wire Management Leg
Arlington leg base study tables can be upgraded to include a wire management leg to keep wires out of sight and out of mind.

Group Focused

Arlington was designed with an open and inviting feeling in mind. Through its classic design the table can engage multiple users by bringing them together to study or collaborate on a project.

Computer Tables

Modern Additions

As the world innovates in both style and technology, so do we. Arlington has been redesigned to include surface mounted power unit upgrades so users can easily charge their personal devices. Optional frosted acrylic dividers are used to provide privacy with an open feel.

Shared Spaces

Arlington’s aesthetic is non-distracting and firmly planted in functional design. Using the starter, adder, end system various configurations of carrels can be combined to create the ideal study environment.
